Summary: Installs, operates, supervises, and performs operator maintenance on wire and cable communications systems; operates pole-setting and reeling equipment; works on wood structures using tools and techniques compatible with industry practice; installs field phones and cabling to telephone switchboards; identifies and corrects faults in telephone sets; tests, repairs, and splices wire/cable; knows CPR procedures, first aid, and safety practices relating to line construction. *Skill Level 10:* Installs, operates, and performs operator maintenance on wire and cable systems, including repeaters, restorers, voltage protective devices, telephones, test stations, and telephone substation equipment; climbs poles; clears and maintains rights of way; assists in the construction of tactical wire/cable and pole lines; operates construction equipment; maintains and tests cable communication systems using a variety of test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; coordinates and supervises team member activities in construction, installation, and rehabilitation of wire and cable communication systems and auxiliary equipment; coordinates logistic requirements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and coordinates all phases of construction, installation, and maintenance of wire/cable systems; schedules work load; estimates time, supplies, personnel, and equipment requirements; checks maintenance performed by lower skill level personnel; plans and conducts training and prepares all required reports.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in pole and line construction (communications systems), 3 in telephone installation and repair, and 1 in first aid/CPR. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (6/88).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in pole and line construction (communications systems), 3 in telephone installation and repair, 1 in first aid/CPR, and 3 in construction technology/heavy equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in principles of supervision. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (6/88).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of supervision and 3 in maintenance management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (6/88).

MOS-31M-001

RADIO RELAY AND CARRIER ATTENDANT

31M20

31M40

Exhibit Dates: 10/73–2/74.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 313 (Area Communication).

Description

Summary: Installs and performs continuous maintenance on field radio relay equipment. *Skill Level 20:* Installs, operates, and maintains fixed radio relay equipment, including transmitters, receivers, and other electronic devices. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a foreman and inspector; conducts on-the-job training.

Recommendation, Skill Level 20

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge. Advanced standing in an apprentice training program in electronics or communications technology only on the basis of employer or trade association performance examination because of the limited technical nature of the skills, competencies, and knowledge (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, credit for field experience in personnel supervision and education on the basis of institutional evaluation. Advanced standing in an apprentice training program in electronics or communications technology only on the basis of employer or trade association examination because of the limited technical nature of the skills, competencies, and knowledge (3/75).

MOS-31M-002

MULTICHANNEL COMMUNICATIONS
EQUIPMENT OPERATOR

31M20

31M40

Exhibit Dates: 3/74–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 313 (Area Communications).

Description

Summary: Installs, operates, and maintains multichannel communications equipment, including transmitters, receivers, carrier terminals, repeaters, and associated multiplexing and communications devices. *Skill Level 20:* Performs minor electrical connections and mechanical adjustments on specific communications equipment and electrical generators; starts and adjusts power units to assure delivery of power at prescribed readings; checks equipment to determine readiness for operation; adjusts equipment to maintain efficiency circuits and operation of equipment at prescribed frequencies; maintains technical and administrative records pertaining to station operation; operates and performs preventive maintenance on light wheeled vehicles. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation, maintenance, and inspection of radio relay communications equipment; makes personnel assignments; conducts on-the-job training; demonstrates and instructs in proper operating techniques; requisitions supplies; prepares, reviews, and consolidates technical and administrative reports; maintains supply and maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in introduction to radio-telecommunications and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 1 semester hour in communications systems and additional credit in mechanical maintenance on the basis of institutional evaluation. Advanced standing in an apprentice training program in electronics or communications technology on the basis of employer or trade association performance examination (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in introduction to radio-telecommunications and 1 in communications techniques, and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 2 in personnel supervision, 2 in communications systems, 2 in maintenance management, and 1 in communications techniques, and additional credit in mechanical maintenance on the basis of institutional evaluation. Advanced standing in an apprentice training program in electronics or communications technology on the basis of employer or trade association performance examination (5/77).

MOS-31M-003

MULTICHANNEL COMMUNICATIONS
EQUIPMENT OPERATOR

31M10

31M20

31M30

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, and supervises multichannel communications equipment. *Skill Level 10:* Installs and operates multichannel communications equipment, including radio, communications security devices, and multiplexer equipment; performs elementary operating checks and replaces modules as needed. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and supervises the operation of multichannel communications equipment; applies fundamentals of radio procedures, communications security procedures, and precautions; oversees periodic and emergency maintenance; may supervise up to six persons. *Skill Level 30:* Supervises the installation and operation of multichannel communications systems; prepares and disseminates work schedules, operational procedures, and instructions; prepares traffic diagrams and administrative orders relative to system design; may supervise from five to nineteen lower skill level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in laboratory practices. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in laboratory practices. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in laboratory practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/79).

MOS-31N-001

TACTICAL CIRCUIT CONTROLLER

31N20

31N40

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 313 (Area Communication).

Description

Summary: Supervises and operates communications patching panels to establish interconnections between communications facilities. *Skill Level 20:* Terminates and patches circuits in accordance with patching orders; designates cable pairs to be used between loop and terminal; assists in testing local wire, radio, data, and teletypewriter circuits; operates test equipment, including multimeter, to identify circuit and equipment faults; operates telephone switchboard and teletypewriter components of patching panels; interprets system maps, overlays, and circuit diagrams; knows first aid procedures for electrical shock. NOTE: May have progressed to 31N20 from 31M20 (Multichannel Communications Equipment Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises circuit activities in a switching center or serves in a headquarters that supervises circuit control functions; supervises the installation and operation of systems control facilities; serves as a central office supervisor analyzing telephone traffic and preparing routine, rerouting, and alternate routing orders and pertinent diagrams, charts, and records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in introduction to management, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-31N-002

Tactical Circuit Controller

31N10

31N20

31N30

Exhibit Dates: 3/78–2/89.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or operates communications patching panels to establish interconnections between communications facilities. *Skill Level 10:* Terminates and patches circuits in accordance with patching orders; designates cable pairs to be used between loop and terminal; assists in testing local wire, radio, data, and teletypewriter circuits; operates test equipment, including oscilloscope, signal generators, and multimeters, to identify circuit and equipment faults; operates telephone switchboard and teletypewriter components of patching panels; interprets system maps, overlays, and circuit diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may supervise up to three Skill Level 10 personnel; troubleshoots communications equipment, including VHP, microwave, troposcatter, satellite, and other narrow or wide band systems; prepares circuit connection record and interprets routing charts and communications diagrams; maintains circuit control records; identifies sources of communications interference and circuit trouble. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises circuit activities in a switching center; supervises the installation and operation of systems control facilities; diagnoses and determines causes of malfunctions of circuits and equipment; interprets and prepares operating instructions, circuit routing charts, communications diagrams, route bulletins, circuit registers, and other pertinent diagrams, charts, and records; evaluates performance of lower skill level personnel; may supervise four or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in laboratory practices (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in laboratory practices and 3 in troubleshooting techniques (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in laboratory practices and 3 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision (10/79).

MOS-31N-003

Communications Systems/Circuit Controller

31N10

31N20

31N30

31N40

Exhibit Dates: Pending evaluation. 3/89–Present.

MOS-31Q-001

Tactical Satellite/Microwave Systems Operator

31Q10

31Q20

31Q30

Exhibit Dates: 9/87–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or performs installation, operation, and maintenance of microwave, troppocatter radio, satellite, and multiplexing equipment. *Skill Level 10:* Installs, operates, and maintains microwave, troposcatter radio satellite, multiplexing equipment, and associated power equipment and communications security devices; assembles, erects, and orients antennas; tunes, adjusts, and aligns equipment for maximum performance; adjusts multiplexing equipment for maximum efficiency; operates on voice frequency and teletype; performs satellite balancing procedures; employs test equipment and tools such as spectrum analyzers and voltmeters; corrects operational troubles; detects electronic countermeasures; interprets military maps and traffic diagrams; applies safety precautions around high voltages and performs emergency actions in event of injury. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in selection of site for systems equipment; makes alignment adjustments to maximum efficiency; monitors operations of system equipment; recognizes electronic countermeasures and employs corrective action; maintains station logs and provides technical guidance to subordinate personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises installation and performance of station equipment and personnel; instructs in proper operating procedures; maintains logs and records; prepares administrative and technical reports; requisitions supplies; provides assistance in complex or unusual operational problems; supervises and evaluates 5 or more personnel.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in electronic troubleshooting and repair, and 2 in satellite communication systems (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in electronic troubleshooting and repair, 2 in satellite communication systems, and 2 in record keeping (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in electronic troubleshooting and repair, 2 in satellite communication systems, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management (7/87).

MOS-31S-001

Field General COMSEC Repairman

31S20

31S30

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 314 (COMSEC Maintenance).

Description

Summary: Performs maintenance on communications security (COMSEC) equipment, including inspection, testing, diagnosis and isolation of defective components or modules, modification, repair, and calibration. *Skill Level 20:* Inspects, tests, and performs maintenance on communications security and compatible ancillary equipment and assemblies; uses associated special and common tools for tests, calibration, and diagnostic functions; locates and changes defective circuit modules; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots equipment to locate defective component; installs and tests modifications to equipment; uses oscilloscope, multimeter, and specialized test equipment; uses Ohm's Law; reads schematic diagrams and logic diagrams; demonstrates correct and acceptable soldering techniques for miniaturized electronic equipment to include the application of printed circuit repair techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC) and 1 in equipment maintenance or maintenance procedures. The skills, competencies, and knowledge are too limited and specialized to apply to an apprentice training program (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 2 in electronic devices (solid-state and vacuum tubes), 2 in basic digital computer circuits, and 1 in equipment maintenance or maintenance procedures. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction on the basis of employer or trade association performance examination (3/76).

MOS-31S-002

FIELD GENERAL COMSEC REPAIRER

31S10
31S20
31S30
31S40

Exhibit Dates: 3/78–8/83.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs communications security (COMSEC) equipment maintenance, including inspection, testing, diagnosis and and isolation of defective components or modules, modification, repair, and calibration. *Skill Level 10:* Inspects, tests, and maintains communications security and compatible ancillary equipment and assemblies; uses associated special and common tools for tests, calibration, and diagnostic functions; locates and changes defective circuit modules; keeps equipment maintenance records and submits appropriate maintenance reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; troubleshoots equipment to locate defective components; installs and tests modifications to equipment; uses oscilloscope, multimeter, and specialized test equipment; uses Ohm's law; reads schematic diagrams and logic diagrams; demonstrates correct and acceptable soldering techniques, including the application of printed circuit repair techniques for miniaturized electronic equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises subordinate personnel who control and safeguard measures for communications security; schedules workloads and workflow; develops maintenance test procedures; instructs subordinates in proper maintenance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and instructs subordinate personnel in maintenance procedures; coordinates the flow of supplies; prepares maintenance work schedules; prepares special reports regarding equipment maintenance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC) and 1 in equipment maintenance or maintenance procedures (9/81).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 2 in electronic devices (solid-state), 2 in basic digital circuits, and 1 in equipment maintenance or maintenance procedures (9/81).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 2 in electronics devices (solid-state), 2 in basic digital circuits, 2 in personnel supervision, and 1 in equipment maintenance or maintenance procedures. In the upper-division baccalaureate category, 3 semester hours in personnel management (9/81).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hours in personnel management and 3 in job shop management (9/81).

MOS-31S-003

FIELD GENERAL COMSEC REPAIRER

31S10
31S20
31S30
31S40

Exhibit Dates: 9/83–3/86. (Effective 3/86, MOS 31S was discontinued and its duties were incorporated into MOS 29P, Communications Security Maintenance Chief, and 29S, Field Communications Security Equipment Repairer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs and/or supervises limited maintenance on communication security (COMSEC) equipment, including inspecting, testing, calibrating, modifying, and diagnosing for defects; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by the additional skill identifier X9), also performs the following duties: Performs communications security (COMSEC) equipment maintenance and repair, including inspection, testing, diagnosis, and isolation of defects down to the component level. *Skill Level 10:* Maintains electronic communication equipment in serviceable condition, including testing and diagnosing to isolate malfunction and replace modules; uses calibration equipment for aligning and adjusting; prepares and maintains equipment maintenance records and submits appropriate reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, and performs module-level repairs on communication security equipment; assists, instructs, and provides technical guidance to lower-skill-level personnel; prepares and maintains COMSEC accounting reports and records, supply parts and records, and equipment records. *Skill Level 30:* May have progressed to 31S30 from 31S20 or 31T20 (Field Systems COMSEC Repairer); supervises subordinate personnel who control and safeguard measures for communications security; schedules workloads and workflow, and maintenance test procedures; instructs subordinates in proper maintenance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; develops testing procedures; prepares and maintains required records and reports; prepares and submits technical reports concerning work progress and supply requirements; develops, directs, or conducts appropriate training programs.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics and 2 in equipment maintenance or maintenance procedures; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by the additional skill identifier X9), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronics test equipment and instrumentation (2/84).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity and electronics, 3 in equipment maintenance or maintenance procedures, and 3 in shop management; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by additional skill identifier X9), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronics test equipment and instrumentation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in equipment maintenance or maintenance procedures, and 3 in shop management; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by additional skill identifier X9), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronics test equipment and instrumentation (2/84).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in equipment maintenance or maintenance procedures, 3 in shop management, and 3 in personnel supervision; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by additional skill identifier X9), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronics test equipment and instrumentation (2/84).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in equipment maintenance or maintenance procedures, 3 in shop management, 3 in personnel supervision, and 3 in principles of management; if served as General COMSEC Maintenance at Specialized Repair Activities (identified by additional skill identifier X9), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures),and 3 in electronics test equipment and instrumentation. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (2/84).

MOS-31T-001

FIELD SYSTEMS COMSEC REPAIRMAN

31T20
31T30

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 314 (COMSEC Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on communications security (COMSEC) equipment, including calibration, modification, and diagnosis of defects. *Skill Level 20:* Maintains electronic communications equipment in serviceable condition, including testing and diagnosing to isolate malfunctions and replace modules; uses multimeter and oscilloscope; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level*

30: Able to perform the duties required for Skill Level 20; inspects, tests, and repairs communications security equipment; utilizes complex schematic, logic, and wiring diagrams and technical publications; repairs miniaturized electronic equipment; uses Ohm's Law, oscilloscope, multimeter, and specialized test equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), and 3 in control circuits (alarm, timing, synchronizing, and power). Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid-state devices, 3 in basic solid-state circuits, and 3 in electronic test equipment and instrumentation. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-31T-002

Field Systems COMSEC Repairer

31T10

31T20

Exhibit Dates: 3/78–8/83.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on communications security (COMSEC) equipment, including calibration, modification, and diagnosis of defects. *Skill Level 10:* Maintains electronic communications equipment in serviceable condition, including testing and diagnosing to isolate malfunctions and replace modules; uses multimeter and oscilloscope; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, and performs module-level repairs on communications security equipment; utilizes complex schematic, logic, and wiring diagrams and technical publications; repairs miniaturized electronic equipment; uses oscilloscope, multimeter, and specialized test equipment.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC) (10/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in communications circuits, and 3 in electronic test equipment and instrumentation (10/79).

MOS-31T-003

Field Systems COMSEC Repairer

31T10

31T20

Exhibit Dates: 9/83–3/86. (Effective 3/86, MOS 31T was discontinued and its duties were incorporated into MOS 29S, Field Communications Security Equipment Repairer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Inspects, tests, and performs limited maintenance on communications security (COMSEC) equipment, including calibration, modification, and diagnosis of defects; if served as COMSEC System Maintenance at Specialized Repair Activities (identified by the additional skill identifier X8), also performs the following duties: performs communications security COMSEC equipment maintenance and repair, including inspection, testing, diagnosis, and isolation of defects down to the component level. *Skill Level 10:* Maintains electronic communication equipment in serviceable condition, including testing and diagnosing to isolate malfunction and replace modules; uses calibration equipment for aligning and adjusting; prepares and maintains equipment maintenance records and submits appropriate reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, and performs module-level repairs on communication security equipment; assists, instructs, and provides technical guidance to lower-skill-level personnel; prepares and maintains COMSEC accounting reports and records, supply parts and records, and equipment records.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, and 2 in equipment maintenance or maintenance procedures; if served as COMSEC System Maintenance at Specialized Repair Activities (identified by the additional skill identifier X8), additional credit as follows: 3 semester hours in telecommunications circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronic test equipment and instrumentation (2/84).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in equipment maintenance or maintenance procedures, and 3 in shop management, if served as COMSEC System Maintenance at Specialized Repair Activities (identified by the additional skill identifier X8), additional credit as follows: 3 semester hours in telecommunication circuitry, 3 in circuit analysis (diagnostic procedures), and 3 in electronic test equipment and instrumentation (2/84).

MOS-31U-001

Tactical COMSEC Maintenance Chief

31U40

31U50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 31U was discontinued and its functions were incorporated into MOS 31S, Field General COMSEC Repairer, and 32Z50 Communications-Electronics Maintenance Chief.)

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 314 (COMSEC Maintenance).

Description

Summary: Supervises and coordinates installation, maintenance, repair, modifications, overhaul, and inspection of communications security (COMSEC) systems. NOTE: Able to perform the duties of 31S30 (Field General COMSEC Repairman) or 31T30 (Field Systems COMSEC Repairman). *Skill Level 40:* Supervises 6-12 subordinate technicians in the installaton, maintenance, and repair of electronic communications equipment; supervises the safeguarding of classified information and material, signal security practices, and safety precautions; supervises the management of equipment of maintenance records and supply inventory; provides subordinates with technical guidance, including the use of oscilloscope and multimeter; diagnoses and evaluates complex causes for defective equipment; coordinates workflow; prepares technical reports and correspondence; develops test precedures for subordinates to use in determining the extent of repairs required and adequacy of repairs completed. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a maintenance chief; instructs Skill Level 40 supervisors in the application of maintenance procedures; evaluates the efficiency and effectiveness of maintenance operations and training procedures; supervises the modification of equipment and provides on-the-job training in the maintenance of modified equipment.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid-state devices, 3 in basic solid-state circuits, and 3 in electronic test equipment and instrumentation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid-state devices, 3 in basic solid-state circuits, 3 in electronic test equipment and instrumentation, 2 in personnel supervision, 3 in introduction to management, 3 in human relations, and 3 in maintenance shop operation. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 for a technical elective, and 3 in industrial arts. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 for an internship in education, 3 for a technical elective, and 3 in industrial arts. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-31V-001

Tactical Communications Systems Operator/Mechanic

31V10
31V20
31V30
31V40
31V50

Exhibit Dates: 3/78–8/87.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, supervises, and performs preventive maintenance on tactical communications and selected electronic equipment in tactical units. *Skill Level 10:* Installs and operates tactical radio equipment; performs limited maintenance, such as module replacement, antenna repair, HF and VHF ground and air-to-ground tactical equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise up to four operator/mechanics; plans and implements the installation of tactical communication systems; may serve as chief of a communication section; supervises communication center cryptographic operations in a tactical unit. *Skill Level 40:* Able to perform the duties required for Skill Level 30; coordinates activities with signal support and maintenance units; keeps units commander and staff advised on communication matters; conducts training program for unit personnel; determines communication requirements and assigns duties; prepares administrative and technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and plans tactical radio and wire communications; coordinates operating activities of subordinate communication units in establishment of effective communication systems; selects communication sites and advises commander on communication matters; may supervise 38 or more personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications and 3 in elementary broadcasting (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications and 3 in elementary broadcasting (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, 3 in personnel supervision, 3 in technical report writing, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management (10/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, 6 in personnel supervision, 3 in technical report writing, 3 in maintenance management, and 3 in introduction to management. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 6 in personnel management (10/79).

MOS-31V-002

Unit Level Communications Maintainer

31V10
31V20

Exhibit Dates: 9/87–Present.

Career Management Field: 31 (Communications Electronics Operations).

Description

Summary: Installs, operates, supervises, and performs preventive maintenance on tactical communications and selected electronic equipment in tactical units. *Skill Level 10:* Installs and operates tactical radio equipment; performs limited maintenance, such as module replacement, antenna repair, HF and VHF ground and air-to-ground tactical equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises, maintains, and checks the preparation and documentation of equipment maintenance records; conducts on-the-job training programs.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics communications and 3 in basic electronics laboratory (6/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics communications, 3 in basic electronics laboratory, 2 in personnel supervision, and 3 in record keeping (6/88).

MOS-31W-001

Tactical Electronics Maintenance Chief

31W40
31W50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 31W was discontinued and its functions were incorporated into MOS 31E, Field Radio Repairer; MOS 31J, Teletypewriter Repairer; MOS31V, Tactical Communications Systems Operator/Mechanic; and MOS 32Z, Communications-Electronics Maintenance Chief; effective 3/88, MOS 31W was reestablished (Mobile Subscriber Equipment Communications Chief) – see exhibit MOS-31W-002.)

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 312 (Tactical Electronics Maintenance).

Description

Summary: Supervises maintenance (rebuilding and repair to the component level) of electronic communications equipment. *Skill Level 40:* Organizes, supervises, and inspects activities of the maintenance shop; prepares lesson plans and instructs subordinate repair specialists in on-the-job training; reviews, consolidates, and prepares technical reports pertaining to electronic communications equipment maintenance activities; establishes work priorities; supervises equipment inspection and storage; diagnoses and determines causes of unusual equipment malfunctions; interprets complex specifications and circuit, schematic, and wiring diagrams; explains complex concepts and demonstrates correct repair procedures and utilization of special test equipment and tools. NOTE: May have progressed to 31W40 from 31L40 (Multichannel Communications Equipment Repairman), 31B20, 31B30 (Field Communications-Electronics Equipment Mechanic), or 36L30 (Electronic Switching Systems Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; as the principal noncommissioned officer, supervises 30 or more persons (and, as a maintenance chief at Grade E-9, supervises more than 50 persons); supervises and assists in making complex modifications to electronic communications equipment; assists superiors in the continuous appraisal of electronic communications equipment maintenance, operations, and training situations; provides technical guidance to subordinate maintenance personnel; as first sergeant of a company (approximately 200 enlisted personnel), serves as an administrator, personnel director, training director, and inspector. NOTE: May have progressed to 31W50 from 31W40, 31E40 (Field Radio Repairman), 31J40 (Teletypewriter Repairman), 26L40 (Tactical Microwave Systems Repairman), or 31U50 (Tactical COMSEC Maintenance Chief).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic electronics (AC/DC) theory and laboratory, 1 in elementary algebra, 3 in amplifier circuits and devices, 6 in radio frequency circuit functions and analysis, 6 in electronic communications systems, and 2 in instrument applications. In the lower-division baccalaureate/associate degree category, 2 semester hours in DC circuit theory and laboratory, 2 in AC circuit theory and laboratory, 2 in electronic devices, 3 in electronic communication systems, 3 in systems maintenance and repair, 3 in basic electronics with laboratory, 3 in personnel supervision, and 3 in maintenance shop operation. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, 3 for a technical elective, and 3 in industrial arts. Advanced standing in an electronic apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 for an internship in education, 3 in introduction to management, 3 in maintenance management, 3 for a technical elective, and 3 in industrial arts; if the duty assignment was first sergeant of a company at grade E-8 or maintenance chief at grade E-9, 3 additional semester hours in personnel management. In the graduate degree category, credit in personnel management on the basis of institutional evaluation. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-31W-002

MOBILE SUBSCRIBER EQUIPMENT
COMMUNICATIONS CHIEF

31W40

31W50

Exhibit Dates: 3/88–Present.

Career Management Field: 31 (Signal Operations).

Description

Summary: Plans, coordinates, directs, provides technical assistance, and supervises the installation, operation and maintenance of Mobile Subscriber Equipment (MSE). *Skill Level 40:* Assigns, supervises and coordinates duties of subordinate personnel concerning setup and operation of MSE equipment records and reports; supervises and conducts training in operating techniques, equipment, utilization and maintenance; manages, develops, and supervises maintenance system; monitors adequacy and effectiveness of maintenance programs and supply support. NOTE: May have progressed to 31W40 from 31D30 (Mobile Subscriber Equipment Transmission System Operator) or 31F30 (Mobile Subscriber Equipment Network Switching System Operator). *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, coordinates and directs deployments; performs liaison between command, staff, operations and maintenance personnel; prepares and supervises the preparation of technical studies, evaluation reports and associated records.

Recommendation, Skill Level 40

In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in managment problems (6/90).

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in management problems (6/90).

MOS-31X-001

COMMUNICATIONS SYSTEMS/CIRCUIT
CONTROL SUPERVISOR SYSTEMS

31X40

Exhibit Dates: 9/87–2/89. (Effective 3/89, MOS 31X was discontinued and its duties were incorporated into MOS 31N, Communications Systems/Circuit Controller.)

Career Management Field: 31 (Communications Electronics Operations).

Description

Skill Level 40: Directs, plans, and coordinates the operation of communications system facilities; manages the installation and new construction of communications systems; manages personnel engaged in maintenance of communications system quality; prepares technical reports; maintains system documentation; conducts briefings for staff and maintenance personnel; performs liaison with staff, operations, and maintenance personnel; manages human resources function for personnel engaged in the signal quality control function including telephone switchboards, radio frequency, satellite, and microwave communications systems; manages training programs. NOTE: May have progressed to 31X40 from 31N30 (Tactical Circuit Controller) or 32D30 (Communications System Circuit Controller.)

Recommendation, Skill Level 40

In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (6/88).

MOS-31Y-001

COMMUNICATIONS SYSTEMS SUPERVISOR

31Y40

Exhibit Dates: 9/87–Present.

Career Management Field: 31 (Communications Electronics Operations).

Description

Skill Level 40: Directs, coordinates, and manages the installation, operation, and maintenance of manual and automated communications equipment, systems, and facilities; provides technical guidance concerning all aspects of communications systems employment, maintenance, and logistical support; prepares technical reports; maintains system documentation; conducts briefings for staff and maintenance personnel; performs liaison with staff, operations, and maintenance personnel; manages human resources functions for personnel engaged in the maintenance and operations of wire and cable systems, switchboards, radio teletype, relay, satellite, and microwave communications; conducts training programs. NOTE: May have progressed to 31Y40 from 13C30 (Single Channel Radio Operator), 31L30 (Wire Systems Installer), 31M30 (Multichannel Communications Systems Operator), 31Q30 (Tactical Satellite/Microwave Systems Operator), 36L30 (Transportable Automatic Switching Systems Operator/Maintainer), or 36M30 (Switching Systems Operator).

Recommendation, Skill Level 40

In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (6/88).

MOS-31Z-001

AREA COMMUNICATIONS CHIEF

31Z40

31Z50

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), subfield 313 (Area Communications).

Description

Summary: Supervises, coordinates, and directs the installaton, operation, and maintenance of integrated electronic communications systems. *Skill Level 40:* Supervises and coordinates the installation, operation, and maintenance of integrated electronic communications center facilities, including wire, telephone central, carrier, radio relay, message center, and cryptographic activities; determines location of facilities, capabilities of equipment within the system, and appropriate use of circuits, lines, and equipment; conducts training in all phases of operating the communications system; collects, analyzes, and distributes material pertaining to signal intelligence; assists officer in the appraisal of general signal intelligence and operations. NOTE: May have progressed to 31Z40 from 31E20 (Field Radio Repairman), 31D40 (Pershing Communications Specialist), 31M40 (Multichannel Communications Equipment Operator), 31N40 (Tactical Circuit Controller), or 72E40 (Telecommunications Center Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and directs the installation, operation, and maintenance of major integrated electronic communications systems; prepares orders, line route maps, circuit and traffic diagrams, and related technical reports and materials; assists in planning, utilization of resources, operation of communications system, and maintenance support for the entire system; assigns duties and coordinates the activities of administrative, operating, and maintenance personnel in the employment of wire, radio relay, radio teletype, telephone, and message handling facilities; determines the effectiveness of system operation, adequacy of communication plant, and the need for additional equipment to meet unusual or added traffic demands; recommends changes in location, types or quantities of equipment, alternate routes, and establishment of switching centers; may serve as the first sergeant of a company (at grade E-8), supervising approximately 200 persons. NOTE: May have progressed to 31Z50 from 31Z40, 31M40 (Multichannel Communications Equipment Operator), 31N40 (Tactical Circuit Controller), 31G50 (Tactical Communications Chief), 31J40 (Teletypewriter Repairman), or 31U50 (Tactical COMSEC Maintenance Chief).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance shop operation, 3 in technical writing, 3 in map reading, and 3 in industrial safety. NOTE: Credit recommendations for technical expertise in the area of electronic communications may be obtained through the exhibits for previously held MOS's. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 for field experience in management, 3 in a technical elective, 3 in industrial arts, and 3 for an internship in education. There is no recommendation for advanced standing in an apprentice training program because the skills are administrative and supervisory in nature (3/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, 3 in a technical elective, 3 in industrial arts, 3 for an internship in education, 3 in human relations, and 3 in industrial management; if the duty assignment was first sergeant of a company or chief signal NCO, 3 additional semester hours in personnel management; if the duty assignment was sergeant major, 3 additional semester hours for field experience in management and 3 in personnel management. There is no recommendation for advanced standing in an apprentice training program because the skills are administrative and supervisory in nature (3/76).

MOS-31Z-002

COMMUNICATIONS-ELECTRONICS OPERATIONS CHIEF

31Z40
31Z50

Exhibit Dates: 3/78-8/87.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises, coordinates, and directs the installation, operation, and maintenance of integrated electronic communications systems. *Skill Level 40:* NOTE: May have progressed to 31Z40 from 05C30 (Radio Teletype Operator), 36E30 (Cable Splicer), 26R30 (Strategic Satellite/Microwave Systems Operator), 31M30 (Multi-Channel Communications Equipment Operator), or 31N30 (Tactical Circuit Controller); able to supervise, assist, and inspect the duties performed by personnel working in the above MOS's; supervises and coordinates the installation, operation, and maintenance of integrated electronic communications center facilities, including wire, telephone central, carrier, radio relay, message center, and cryptographic activities; determines location of facilities, capabilities of equipment within the system, and appropriate use of circuits, lines, and equipment; conducts training in all phases of operating the communications system; collects, analyzes, and distributes material pertaining to signal intelligence; assists officer in the appraisal of general signal intelligence and operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40. NOTE: May have progressed to 31Z50 from 31V50 (Tactical Communications Systems Operator/Mechanic), 72G50 (Data Communication Switching Center Specialist), 36C50 (Wire Systems Installer/Operator), 26Q40 (Tactical Satellite/Microwave System Operator), 32D40 (Station Technical Controller), 36D40 (Antenna Installer Specialist), 72E40 (Telecommunications Center Operator), or 72H40 (Central Office Operations Operator); able to supervise, assist, and inspect duties performed by personnel working in the above MOS's; supervises and directs the installation, operation, and maintenance of major integrated electronic communications systems; prepares orders, line route maps, circuit and traffic diagrams, and related technical reports and materials; assists in planning, utilization of resources, operation of communications system, and maintenance support for the entire system; assigns duties and coordinates the activities of administrative, operating, and maintenance personnel in the employment of wire, radio relay, radio teletype, telephone, and message-handling facilities; determines the effectiveness of system operation, adequacy of communication plant, and the need for additional equipment to meet unusual or added traffic demands; recommends changes in location, types, or quantities of equipment, alternate routes, and establishment of switching centers; may serve as the first sergeant of a company (at pay grade E-8), supervising approximately 200 persons.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 in a technical elective. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management; if served as an instructor, 3 semester hours for a practicum in education. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 for a technical elective. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, 3 in introduction to management, and 3 in personnel management; if served as an instructor, 3 semester hours for practicum in education; if duty position was Communications-Electronics Operations First Sergeant (designated on records as 31Z5M), or Chief Communications-Electronics NCO, 3 additional semester hours in personnel management; if rank was sergeant major, 3 additional semester hours in personnel management and 3 for field experience in management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/79).

MOS-31Z-003

COMMUNICATIONS-OPERATIONS CHIEF

31Z50

Exhibit Dates: 9/87-Present.

Career Management Field: 31 (Communications Electronics Operations).

Description

Skill Level 50: Supervises, coordinates, and directs the installation, operation, and maintenance of integrated electronics communications systems; manages the entire communication facility; performs liaison between civilian, command staff, and operations and maintenance personnel; plans, organizes, directs, and supervises the deployment of integrated communications systems including site selection, personnel assignments, and budget development. NOTE: May have progressed to 31Z50 from 31G40 (Tactical Communications Chief), 31Y40 (Communications Systems Supervisor), 31X40 (Communications Systems/Circuit Control Supervisor), 72E40 (Tactical Telecommunications Center Operator), or 72G40 (Automatic Data Telecommunications Center Operator).

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 3 semester hours in organizational management and 3 for field experience in management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (6/88).

MOS-32D-001

FIXED STATION TECHNICAL CONTROLLER

32D20
32D40

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or insures fidelity and continuity of Army communications circuits. *Skill Level 20:* Prevents and corrects conditions which disrupt fidelity, continuity, and operation of communications circuits; tests communications circuits and teletype equipment; uses signal generators, meters, distortion analyzers, and monitoring aids; interprets diagrams to determine mode of keying and levels at various points along transmission paths; applies techniques to counteract continuity and fidelity jamming by hostile forces; keeps logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel and equipment; maintains system network operation; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity (DC current, test equipment, and diagrams), 3 in basic electronics (AC current and test equipment), 3 in electronic circuits, and 3 in electronic communications principles. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC current, test equipment, and diagrams), 3 in basic electronics (AC current and test equipment), 3 in electronic circuits, and 3 in electronic communications principles. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in basic electricity (DC current, test equipment, and diagrams), 3 in basic electronics (AC current and test equipment), 3 in electronic circuits, and 3 in electronic communications principles. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-32D-002

STATION TECHNICAL CONTROLLER

32D10
32D20
32D30
32D40

Exhibit Dates: 3/78-8/87.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or ensures the quality and continuity of communications. *Skill Level 10:* Performs operational tests on circuits, channels, and equipment to ensure high quality operation and maximum efficiency; uses communications test equipment, including signal generators, meters, distortion analyzers, oscilloscopes, and voltmeters; determines overall circuit conditions from test results; directs radio frequency changes. *Skill Level 20:* Able to perform the duties required for Skill Level 10; maintains required logs and records and provides data for preparation of pertinent reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises technical control activities; assigns duties; evaluates performance of lower-skill-level personnel; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans and schedules work assignments; develops, directs, or conducts local training programs; compiles and submits technical and administrative reports; coordinates resolution of communications difficulties between local and distant facilities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in basic electronic communications, and 3 in circuit analysis (10/81).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in basic electronic communications, 3 in circuit analysis, and 3 in technical report writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in basic electronic communications, 3 in circuit analysis, and 3 in technical report writing (10/81).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in basic electronic communications, 3 in circuit analysis, 3 in technical report writing, and 3 in personnel supervision (10/81).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in basic electronic communications, 3 in circuit analysis, 3 in technical report writing, 3 in personnel supervision, and 3 in human relations (10/81).

MOS-32D-003

Communications Systems Circuit Controller

32D10

32D20

32D30

Exhibit Dates: 9/87–3/89. (Effective 3/89, MOS 32D was discontinued and its duties were incorporated into MOS 31N, Communications Systems/Circuit Controller.)

Career Management Field: 31 (Communications Electronics Operations).

Description

Summary: Tests and maintains the quality and continuity of telephone and radio frequency communications systems. *Skill Level 10:* Performs operational tests on a wide range of communication equipment to ensure high quality operation and maximum efficiency; uses communications test equipment including signal generators, meters, distortion analyzers, and oscilloscopes; determines overall circuit conditions from test results; isolates system-level malfunctions. *Skill Level 20:* Able to perform the duties required for Skill Level 10; maintains logs and records; provides data for preparation of pertinent reports; serves as a shift supervisor. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises technical control activities; assigns duties; manages lower skill level personnel; conducts on-the-job training.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in electronic systems troubleshooting and maintenance, 3 in basic electronics laboratory, and 3 in electronics communication (6/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in electronic systems troubleshooting and maintenance, 3 in basic electronics laboratory, 3 in electronics communication, and 2 in personnel supervision (6/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in electronic systems troubleshooting and maintenance, 3 in basic electronics laboratory, 3 in electronics communications, 3 in personnel supervision, and 2 in maintenance management (6/88).

MOS-32E-001

Fixed Plant Carrier Repairman

32E20

32E40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 32E was discontinued and its functions were incorporated into MOS 26V, Strategic Microwave Systems Repairer.)

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises and performs installation, operation, or maintenance on fixed station carrier, control terminal, multiplex, and a submarine cable terminal equipment. *Skill Level 20:* Makes minor adjustments on equipment; replaces malfunctioning equipment; advises superiors of equipment failure or malfunction; keeps technical and administrative records; performs emergency testing and inspects parts; interprets schematics and diagrams; replaces and repairs electric motors and adjusts relays, dials, and switches. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises technical operation and maintenance of the equipment; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in direct current, 3 in alternating current, 3 in communications systems, and 2 in solid-state devices, and additional credit in electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in direct current, 3 in alternating current, 3 in communications systems, and 2 in solid-state devices, and additional credit in electronics on the basis of institutional evaluation (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in direct current, 3 in alternating current, 3 in communications systems, and 2 in solid state devices, and additional credit in electronics on the basis of institutional evaluation (3/76).

MOS-32F-001

Fixed Ciphony Repairman

32F20

32F40

Exhibit Dates: 10/73–2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or performs maintenance on fixed ciphony communications security (COMSEC) equipment. *Skill Level 20:* Performs all levels of maintenance on fixed ciphony equipment; adjusts, repairs, and overhauls equipment; isolates and diagnoses malfunctions using electrical and electronic theory; removes, examines, and replaces faulty components and parts; traces circuit continuity; reads schematic and wiring diagrams; keeps maintenance logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation and repair of fixed COMSEC equipment; assigns duties; advises, instructs, and assists subordinates in difficult phases of diagnoses; requisitions supplies and prepares administrative reports; supervises subordinate personnel in the handling of classified information and materials.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in commercial and residential wiring, 2 in digital circuit theory, 2 in AC and DC theory, 2 in electronic test equipment, and 2 in advanced circuit theory. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electronics, 2 in commercial and residential wiring, 2 in electronic instrumentation, and 1 in introduction to digital circuits. Advanced standing in an electronic technician apprentice training program only on the basis of employer or trade association performance examination because of the military nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 4 semester hours in industrial and residential wiring, 3 in basic electronics, 3 in digital circuits, 2 in electronic instrumentation, 2 in electromechanical systems, 3 in human relations, 2 in personnel supervision, and 2 in maintenance supervision. Advanced standing in an electronic technician apprentice

training program only on the basis of employer or trade association performance examination because of the military nature of the skills, competencies, and knowledge (6/76).

MOS-32F-002

FIXED CIPHONY REPAIRER

32F10
32F20
32F30
32F40

Exhibit Dates: 3/78-2/86. (Effective 3/86, MOS 32F was discontinued and its duties were incorporated into MOS 29F, Fixed Communications Security Equipment Repairer, and MOS 29P, Communications Security Maintenance Chief.)

Career Management Field: 29 (Communications-Electronics Management).

Description

Summary: Repairs and performs maintenance on ciphony communications security equipment. *Skill Level 10:* Repairs equipment according to the appropriate directives and standards; makes operating adjustments and performs routine maintenance; traces circuit continuity; performs authorized equipment modifications in accordance with modification work orders; aligns, adjusts, and test-operates repaired equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; makes regular and emergency repairs to equipment; determines equipment readiness and serviceability; disassembles or removes assemblies and components and replaces faulty items. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel in installation, maintenance, repair, modification, and inspection of equipment; assures the safeguarding of classified defense information; prepares work schedules; may supervise from 5 to 9 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; makes continuous appraisal of maintenance operations and training situations; provides technical guidance to lower skill level personnel; coordinates and supervises repair activities and personnel; may supervise 9 or more persons. NOTE: May have progressed to 32F40 from 32F30 or 32G30 (Fixed Cryptographic Equipment Repairer).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in solid-state circuits, 3 in digital circuits, and 3 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semeter hours in introduction to electronics, 2 in AC/DC circuits, 1 in solid-state circuits, 2 in digital circuits, and 1 in troubleshooting techniques (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 6 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 4 in troubleshooting techniques (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 6 in digital circuits, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 6 in digital circuits, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32G-001

FIXED CRYPTOGRAPHIC EQUIPMENT REPAIRMAN

32G20
32G40

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or performs maintenance on fixed cryptographic systems communications security (COMSEC) equipment. *Skill Level 20:* Performs all levels of maintenance on fixed systems digital communications security equipment; adjusts, repairs, and overhauls equipment; applies electronic theory and analysis techniques in diagnosis and isolation of malfunctions; removes, examines, and replaces faulty components and parts; traces circuit continuity; properly uses, calibrates, and cares for tools and test equipment; keeps maintenance logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation and maintenance of fixed system COMSEC equipment; assigns duties; advises, instructs, and assists subordinates in difficult phases of diagnoses; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in commercial and residential wiring, 2 in digital circuit fundamentals, 2 in DC and AC theory, 2 in electronic test equipment, and 2 in advanced circuit theory. In the lower-division baccalaureate/associate degree category, 3 semester hours in digital circuit fundamentals, 2 in basic electronics, 2 in commercial and residential wiring, and 2 in electronic instrumentation. Advanced standing in an electronic technician apprentice training program only on the basis of employer or trade association performance examination because of the military nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 5 semester hours in digital computer circuits, 4 in industrial and residential wiring, 3 in basic electronics, 2 in electronic instrumentation, 2 in electromechanical systems, 3 in human relations, 2 in personnel supervision, and 2 in maintenance supervision. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-32G-002

FIXED CRYPTOGRAPHIC EQUIPMENT REPAIRER

32G10
32G20
32G30

Exhibit Dates: 3/78-2/86. (Effective 3/86, MOS 32G was discontinued and its duties were incorporated into MOS 29F, Fixed Communications Security Equipment Repairer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Repairs and performs maintenance on cryptographic communications equipment. *Skill Level 10:* Performs minor maintenance and repairs; applies electronic theory and analysis techniques to find and replace defective components; makes operating adjustments on equipment; adjusts, aligns, and test-operates repaired items to assure proper functioning. *Skill Level 20:* Able to perform the duties required for Skill Level 10; makes emergency repairs on equipment; makes determinations of location of systems malfunctions, using localization procedures and techniques. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel in installation, maintenance, repair, modification, and inspection of equipment; supervises personnel in preparation of work orders, record keeping, and ordering of stock items; schedules work assignments; prepares administrative and technical reports; may supervise 13 or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in solid-state circuits, 3 in digital circuits, and 3 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 1 in solid-state circuits, 2 in digital circuits, and 1 in troubleshooting techniques (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 6 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 4 in troubleshooting techniques (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 6 in digital circuits, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32H-001

Fixed Station Radio Repairman

32H20
32H40

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises and performs installation, operation, and maintenance on fixed station radio equipment. *Skill Level 20:* Installs, operates, and repairs fixed station radio receiver and transmitter equipment; makes frequency and calibration adjustments; replaces defective radio equipment with operational units; interprets circuit, schematic, and cable diagrams; maintains records on equipment status; uses related equipment, such as antennas and cables; inspects and tests equipment for malfunction; locates faulty components and replaces them with operational components or parts; employs radio troubleshooting techniques with electronic test equipment; operates associated communications equipment, such as carrier and teletypewriters; applies safety precautions pertaining to high voltage. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation, maintenance, and operation of fixed station radio equipment; assigns personnel to duties; advises and instructs personnel; diagnoses and determines causes of equipment malfunction; writes technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals (direct current), 3 in electronics fundamentals (alternating current), 3 in electronic circuits, and 3 in electronic devices (solid-state and vacuum tubes). In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronics fundamentals (direct current), 3 in electronics fundamentals (alternating current), 3 in radio transmitters and receivers system theory, 3 in electronic circuits, and 3 in electronic devices (solid-state and vacuum tube). In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals (direct current), 3 in electronics fundamentals (alternating current), 3 in radio transmitters and receivers system theory, 3 in electronic circuits, 3 in electronic devices (solid-state and vacuum tube), 3 in human relations, and 3 in personnel supervision. In an electronic technician apprentice training program 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-32H-002

Fixed Station Radio Repairer

32H10
32H20
32H30

Exhibit Dates: 3/78-6/86. (Effective 7/86, MOS 32H was discontinued and its functions were incorporated into MOS 29E, Communications-Electronics Radio Repairer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs, adjusts, aligns, maintains, and troubleshoots fixed high-frequency radio stations, including transmitters, receivers, and antenna systems. *Skill Level 10:* Uses voltmeters, ohmmeters, oscilloscopes, spectrum analyzers, and signal generators; performs preventive and corrective maintenance on receivers, transmitters, and antenna systems; troubleshoots to component level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; aligns receivers and transmitters to perform to specifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation and maintenance of fixed radio stations; advises, instructs, and assigns workloads to subordinate personnel; may supervise more than 20 persons; prepares, reviews, and consolidates technical and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid-state circuits, and 2 in electronic communications. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid-state circuits, and 2 in electronic communications (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electronic communications (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electronic communications. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 4 in electronic communications, 3 in personnel supervision, 3 in human relations, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32Z-001

Fixed Station Chief

32Z40
32Z50

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises installation, operation, and maintenance of fixed transmitter, receiver, or terminal equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 32D (Fixed Station Technical Controller), 32E (Fixed Station Carrier Repairman), 32F (Fixed Ciphony Repairman), 32G (Fixed Cryptographic Equipment Repairman), or 32H (Fixed Station Repairman); supervises and technically assists in the installation, operation, and maintenance of strategic transmitter, receiver, terminal, microwave, radio relay, message center, data processing, and cryptographic and satellite communications ground station equipment; conducts on-the-job training; oversees station operation and schedules maintenance, diagnoses and resolves equipment malfunctions; prepares technical reports; supervises up to 15 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises the installation, operation, and maintenance of integrated strategic communications systems in a large fixed station installation or serves in a communications headquarters; determines requirements, assigns duties, and coordinates activities of subordinate personnel; plans and supervises technical operations, maintenance of facility equipment, and training of personnel; supervises from 15-30 personnel; may serve as first sergeant of a company, supervising approximately 200 persons; advises company commander on all matters concerning enlisted personnel and is responsible for all enlisted personnel actions; directs and coordinates company administration; disseminates instructions and information to subordinate enlisted supervisors. NOTE: May have progressed to 32Z50 from 32Z40, 32D40 (Fixed Station Technical Controller), 32E40 (Fixed Station Carrier Repairman), 32F40 (Fixed Ciphony Repairman), 32G40 (Fixed Crypotographic Equipment Repairman), 32H40 (Fixed Station Repairman), 26P50 (Radio Propagation Specialist), 26V50 (Strategic Microwave Systems Repairman), or 26Y50 (Satellite Communications Ground Station Equipment Repairman).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 6 for field experience in management, 3 in maintenance management, and 2 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, 3 in industrial arts education (electronics), and 3 in personnel management; if the duty assignment was chief instructor at a formal training facility, 3 additional semester hours for an internship in education (6/76).

MOS-32Z-002

Communications-Electronics
Maintenance Chief

32Z40

32Z50

Exhibit Dates: 3/78–2/87. (Effective 3/87, MOS 32Z was discontinued and its functions were incorporated into MOS 29W, Communications Maintenance Support Chief, MOS 29X, Communications Equipment Maintenance Chief, and MOS 29Z, Communications Electronics Maintenance Chief.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Supervises and coordinates the performance of maintenance, calibration, and installation of transmitters, receivers, or terminal communications equipment. *Skill Level 40:* NOTE: May have progressed to 32Z40 from any of the following MOS's: 31E (Field Radio Repairer); 31J (Teletypewriter Repairer); 32H (Fixed Station Radio Repairer); 35E (Special Electronic Devices Repairer); 36L (Electronic Switching Systems Repairer); 26C (Combat Area Surveillance Radar Repairer); and 26B (Weapons Support Radar Repairer); able to supervise, assist, and inspect the duties performed by personnel working in the above MOS's; organizes and supervises personnel and activities of shops and units engaged in the use of communications equipment; reviews and prepares technical reports regarding equipment and personnel; maintains records pertaining to equipment needs of personnel and authorizes supply needs: coordinates the logistics necessary to support the personnel under his command; sets up maintenance, calibration, and installation activities; provides guidance regarding unusual equipment malfunctions; instructs in new equipment and procedures; may supervise up to 40 persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40. NOTE: May have progressed to 32Z50 from 32Z40 or from Skill Level 40 of any of the following MOS's: 31S (Field General COMSEC Repairer); 35B (Electronic Instrument Repairer); 36H (Dial/Manual Central Office Repairer); 26L (Tactical Microwave Systems Repairer); 26V (Strategic Microwave Systems Repairer); 26Y Satellite Communications Ground Station Equipment Repairer); 32F (Fixed Ciphony Repairer); or 35H50 (Calibration Specialist); able to supervise, assist, and inspect duties performed by personnel working in the above MOS's; supervises the installation, operation, and maintenance of integrated strategic communications headquarters; determines requirements, assigns duties, and coordinates activities of subordinate personnel; plans and supervises technical operations, maintenance of facility equipment, and training of personnel; supervises up to 70 persons; may serve as first sergeant of a company, supervising approximately 200 persons; advises company commander on all matters concerning enlisted personnel and is responsible for all enlisted personnel actions; directs and coordinates company administration; disseminates instructions and information to enlisted supervisors.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 for a technical elective. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management; if served as an instructor, 3 semester hours for a practicum in education (10/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 6 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 for a technical elective. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, 3 in introduction to management, and 3 in personnel management; if served as an instructor, 3 additional semester hours for a practicum in education; if the duty position was first sergeant (designated on records as 32Z5M), 3 additional semester hours in personnel management; if rank was sergeant major, 3 additional semester hours in personnel management, and 3 for field experience in management (10/79).

MOS-33B-001

General Intercept Equipment
Repairman

33B20

Exhibit Dates: 10/73–2/74. (Effective 3/74, MOS 33B was discontinued.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Skill Level 20: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. Performs maintenance on mobile and fixed station general intercept equipment including high frequency receivers, single and dual tract magnetic recorders-reproducers, and special demodulators; dismantles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electrical, electronic, and mechanical tests with test equipment and schematic diagrams; isolates defective circuits and parts; determines causes of malfunctions; repairs or replaces defective circuitry, parts, and components; aligns electronic circuits; performs authorized modification of equipment; makes authorized substitution of components and parts and fabricates simple parts not requiring machine tooling; test operates repaired equipment; prepares and keeps maintenance records and reports; requisitions parts or supplies; observes safety precautions.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (9/79).

MOS-33C-001

Intercept Receiving Systems
Repairman

33C20

33C40

Exhibit Dates: 10/73–2/76. (Effective 3/76, MOS 33C was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or assembles, operates, and performs maintenance on intercept receiving systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Operates and performs maintenance on intercept receiving systems in mobile and fixed stations; assembles, modifies, checks, and inspects intercept receiving systems, positions, and facilities; dismantles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electrical, electronic, and mechanical tests with advanced test equipment, schematic diagrams, logic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunction; repairs or replaces defective circuitry parts and components; aligns electronic circuits; adjusts mechanical performance of equipment to meet prescribed standards; makes authorized equipment modifications; fabricates parts; test-operates repaired equipment to ensure performance standards are met; prepares and keeps maintenance records and reports; uses pulse and spectrum analyzers, sweep generators, frequency counters, and noise figure meters; uses special and common hand tools; operates microwave, radar, and special purpose systems for repair of equipment; provides technical assistance and advice. NOTE: May have progressed to 33C20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises intercept receiving systems maintenance activities; diagnoses and determines causes of unusual cases of equipment malfunction; explains and interprets complex operating and maintenance problems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication (9/79).

MOS-33D-001

INTERCEPT RECORDING SYSTEMS REPAIRMAN

33D20
33D40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33D was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on intercept recording systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Performs maintenance on intercept recording systems in mobile and fixed stations; assembles, modifies, checks, and inspects intercept recording/reproducing systems, positions, and facilities; interconnects power supplies, audio, video, direct-current amplifiers, and mechanical tape drive assemblies; aligns electronic components for prescribed gain and frequency response in audio and video amplifiers; performs electrical, electronic, and mechanical tests with advanced test equipment, schematic diagrams, logic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunction; dismantles equipment; repairs or replaces defective components, circuitry, and parts; fabricates parts; inspects and adjusts to fine tolerances, motor torque and speed, drive roller and brake tensions, and recording-reproducing head alignment; test-operates repaired equipment to ensure performance standards are met; provides technical assistance and advice; prepares and keeps records applicable to maintenance function. NOTE: May have progressed to 33D20 from 33B20 (General Intercept Equipment Repairman. *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises maintenance activities; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication (9/79).

MOS-33F-001

INTERCEPT DEMULTIPLEX SYSTEMS REPAIRMAN

33F20
33F40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33F was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on intercept demultiplex systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Dismantles and cleans equipment; assembles, modifies, checks and inspects equipment systems, positions, and facilities; interconnects components; performs electronic and mechanical tests with advanced test equipment, schematic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunctions; repairs or replaces defective circuitry, parts, and components; aligns electronic circuits; adjusts mechanical performance of equipment to meet prescribed standards; makes authorized equipment modifications; fabricates parts; test-operates repaired equipment to insure that performance standards are met; provides technical advice and assistance; prepares and keeps maintenance records and reports. NOTE: May have progressed to 33F20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises maintenance activities; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications sytems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication (9/79).

MOS-33G-001

ECM/DF SYSTEMS REPAIRMAN

33G20
33G40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33G was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on electronic countermeasures and direction-finding systems, positions, and facilities. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Performs maintenance on electronic countermeasures and direction-finding equipment; dismantles and cleans equipment; assembles, modifies, checks, and inspects equipment; interconnects antennas, receivers, transmitters, jammers, and associated equipment; performs electrical, electronic, and mechanical tests to insure compliance with performance standards; isolates defective circuitry and parts; determines causes of malfunctions; repairs or replaces defective components, circuitry and parts; aligns electronic circuits; makes authorized equipment modifications; fabricates simple parts; test-operates equipment; provides technical advice and assistance; prepares and keeps maintenance records. NOTE: May have progressed to 33G20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; instructs lower skill level personnel; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication (9/79).

MOS-33M-001

ELECTRONIC WARFARE/INTERCEPT
STRATEGIC SYSTEMS ANALYST AND
COMMAND AND CONTROL
SUBSYSTEMS REPAIRER

33M20
33M30
33M40

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Supervises or performs unit, intermediate, and depot maintenance on bus controllers, time code generators, microcomputers, and peripheral equipment. *Skill Level 20:* Replaces, repairs, and installs electronic warfare/intercept command and control equipment according to manufacturers' instructions; conducts electrical and mechanical tests using wiring diagrams and technical manuals; performs preventive maintenance on computers and computer peripheral devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as maintenance team leader or assistant team leader; serves as quality assurance inspector and equipment calibration coordinator; manages, counsels, and evaluates subordinate personnel; develops maintenance procedures; prepares and reviews technical reports; maintains a technical library; requisitions spare parts; maintains records; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as team leader or shop foreman; assigns personnel to maintenance teams and supervises team activities; conducts and monitors on-the-job training programs; counsels and evaluates subordinates and determines their training requirements; prepares status reports and maintains administrative and maintenance files. NOTE: May have progressed to 33M40 from 33M30, 33P30, Electronic Warfare/Intercept Strategic Receiving Subsystems Repairer, or 33Q30, Electronic Warfare/Intercept Strategic Processing/Storage Subsystems Repairer.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33M20 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33M20 and 102-33M30 (5/87).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours in office management and 3 in personnel management. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33M20 and 102-33M30 (5/87).

MOS-33P-001

ELECTRONIC WARFARE/INTERCEPT
STRATEGIC RECEIVING SUBSYSTEMS
REPAIRER

33P10
33P20
33P30

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Supervises or performs preventive maintenance on receivers, direction finders, antenna control, multiplexers, demultiplexers, and other equipment associated with RF and receiving subsystems. *Skill Level 10:* Troubleshoots electronic warfare/intercept receiving equipment and support equipment down to the component level; installs receiving equipment and support equipment according to manufacturers' specifications; performs tests using volt-ohm-meters, oscilloscopes, signal generators, spectrum analyzers, and other test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in conducting on-the-job training and quality assurance inspections; assists as service school instructor; performs advanced electrical and mechanical tests using wiring diagrams, signal flow charts, technical manuals, troubleshooting charts, and other diagnostic materials; supervises work performed by Skill Level 10 technicians. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as maintenance team leader or assistant team leader; serves as quality assurance inspector and equipment calibration coordinator; manages, counsels, and evaluates subordinate personnel; develops maintenance procedures; prepares and reviews technical reports; maintains a technical library; requisitions spare parts; maintains records; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in troubleshooting techniques. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33P10 (5/87).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33P10 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronics shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33P10 and 102-33P30 (5/87).

MOS-33Q-001

ELECTRONIC WARFARE/INTERCEPT
STRATEGIC PROCESSING/STORAGE
SUBSYSTEMS REPAIRER

33Q10
33Q20
33Q30

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Supervises or performs maintenance on electronic warfare/intercept processing/storage subsystems, multiplexers, recorder-reproducers, oscillographs, control units, video amplifiers, power supplies, and other associated equipment. *Skill Level 10:* Uses voltmeters, ohmmeters, oscilloscopes, signal generators, power meters, spectrum analyzers, and other testing devices; conducts electrical and mechanical tests using wiring diagrams, signal flow charts, technical manuals, troubleshooting charts, and job performance aids; uses high reliability soldering techniques; bench tests to ensure alignment; troubleshoots and repairs to the component level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs harmonic, wow and flutter, and other distortion tests, and takes corrective action; tests analog and digital circuits to determine course of pulse, spectra, time phase and amplitude deterioration, frequency shifting and bandpass reduction/expansion; assists in conducting formal/informal on-the-job training; serves as quality assurance inspector and as assistant service school instructor. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the performance of unit, intermediate, and depot maintenance on electronic warfare/intercept equipment; manages, counsels, and evaluates subordinate personnel; maintains records; requisitions spare parts; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in troubleshooting techniques. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33Q10 (5/87).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33Q10 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronics shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33Q10 and 102-33Q30 (5/87).

MOS-33R-001

ELECTRONIC WARFARE/INTERCEPT
AVIATION SYSTEMS REPAIRER

33R10
33R20
33R30
33R40

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Repairs, supervises, or performs unit, intermediate, or depot maintenance on electronic-warfare intercept, airborne systems, equipment, and assemblies. *Skill Level 10:* Performs maintenance on aviation equipment including wide-band receivers, recorders, modulators, multiplexers, demodulators, antennas, monitors, and direction-finding and positioning equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs maintenance on additional equipment, including various airborne and air-to-ground intercept, recording, countermeasure, and computer peripheral devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the maintenance on electronic warfare intercept airborne equipment; manages, counsels, and evaluates subordinate personnel; requisitions spare parts; prepares and reviews technical reports; maintains technical library; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as maintenance team leader or foreman; prepares status reports and maintains administrative and maintenance files. NOTE: May have progressed to 33R40 from 33R30 or 33V30, Electronic Warfare/Intercept Aerial Sensor Repairer.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in troubleshooting techniques. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33R10 (5/87).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33R10 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33R10 and 102-33R30 (5/87).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours in office management and 3 in personnel management. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33R10 and 102-33R30 (if progressed from 33R30) or 102-33V10 (if progressed from MOS 33V) (5/87).

MOS-33S-001

EW/INTERCEPT SYSTEMS REPAIRER
(EW/INTERCEPT SYSTEMS REPAIRMAN)

33S10
33S20
33S30
33S40
33S50

Exhibit Dates: 3/76–2/85. (Effective 3/85, MOS 33S was discontinued and its duties were incorporated into MOS 33M, Electronic Warfare/Intercept Strategic Systems Analyst and Command and Control Subsystems Repairer, MOS 33P, Electronic Warfare/Intercept Strategic Receiving Subsystems Repairer, MOS 33Q, Electronic Warfare/Intercept Strategic Processing/Storage Subsystems Repairer, MOS 33R, Electronic Warfare/Intercept Aviation Systems Repairer, MOS 33T, Electronic Warfare/Intercept Tactical Systems Repairer, and MOS 33Z, Electronic Warfare/Intercept Systems Maintenance Supervisor.)

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Supervises or performs maintenance on equipment that operates throughout the frequency spectrum, including receivers, multichannel magnetic sound recorders-reproducers, countermeasures sets, direction finder sets, and special demodulators used in mobile and fixed stations. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 10:* Connects equipment to power sources; disassembles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electronic and mechanical tests using test equipment, schematic diagrams, logic diagrams, and equipment performance standards; analyzes operation of malfunctioning equipment to locate defective components, subassemblies, and modules; repairs or replaces defective circuitry, parts, and components; aligns simple electronic circuits and adjusts mechanical performance of equipment to meet prescribed standards; has knowledge of transistors and integrated circuits; makes authorized substitutions of components and fabricates simple parts not requiring machine tooling; test-operates repaired equipment to insure performance and quality standards are met; prepares and maintains maintenance records and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interconnects antennas, receivers, transmitters, demultiplexers, preamplifiers, frequency converters, power supplies, audio and video amplifiers, and associated equipment according to specifications; uses advanced test measuring and diagnostic equipment; aligns complex electronic components for gain and frequency response in amplifiers; prepares, maintains, and reviews maintenance records and reports; provides technical assistance, guidance, and advice to subordinates on repair and maintenance of electronic systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; checks system interfacing to insure that performance meets required system standards; performs quality control inspections of maintenance performed; recommends design changes on unsatisfactory equipment, positions, and facilities; prepares and consolidates technical reports and maintenance records; diagnoses unusual cases of system malfunctions; interprets and explains complex operating and maintenance problems; supervises and instructs subordinate personnel and knows supply procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities and assigns work to subordinate personnel; assists in the supervision of personnel making complex modifications and repairs; instructs and demonstrates diagnostic and repair procedures and use of advanced test equipment and tools; plans and supervises maintenance for mobile and fixed station facilities; recommends changes in work procedures; assists in preparation of maintenance schedules; makes oral presentations concerning maintenance activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a maintenance manager of an activity of up to 175 persons; prepares lesson plans; approves changes in work procedures; reports on unsatisfactory equipment and circuitry; recommends equipment design changes and reports on efficiency of changes performed; assists in technical inspections and evaluates the effectiveness of maintenance procedures and practices; supervises personnel performing complex modifications and repairs on intercept and deception-jamming systems; evaluates subordinates; advises commander on matters of personnel welfare, morale, assignment, utilization, promotion, privileges, discipline, and training; interprets and explains technical literature on the operation and maintenance of general and special types of intercept and deception-jamming systems; prepares maintenance schedules; may serve as a chief instructor in a formal training facility; may have experience as the enlisted commander of a detachment; may have served as the first sergeant of a company.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid-state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associ-

ate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid-state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 3 in shop management, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in resource management, and 3 in personnel management; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education (6/77).

MOS-33T-001

ELECTRONIC WARFARE/INTERCEPT
TACTICAL SYSTEMS REPAIRER

33T10

33T20

33T30

33T40

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Repairs, supervises, or performs unit, intermediate, or depot maintenance on electronic warfare/intercept equipment and assemblies. *Skill Level 10:* Performs maintenance on equipment including HF, VHF, UHF, and MF receivers, narrowband recorder-reproducers, tactical antennas and controls, modulators and demodulators, multiplexers and demultiplexers, signal monitors, direction-finding and electronic countermeasures equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs harmonic distortion, wow and flutter tests on tactical narrowband recorders; tests analog and digital circuits to determine the cause of pulse, spectra, time phase and amplitude deterioration, frequency shifting and bandpass reduction/expansion; assists in conducting formal and informal on-the-job training; provides technical guidance to subordinate personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the performance of maintenance activities; manages, counsels, and evaluates subordinate personnel; maintains records; requisitions spare parts; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as maintenance team leader or foreman; organizes and monitors performance of maintenance activities; prepares status reports and maintains applicable administrative and maintenance files.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in troubleshooting techniques. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33T10 (5/87).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandaotry course, 102-33T10 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33T10 and 102-33T30 (5/87).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronic shop practices, 3 in office procedures, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours in office management and 3 in personnel management. NOTE: For additional credit, check official records to verify completion of the mandatory courses, 102-33T10 and 102-33T30 (5/87).

MOS-33V-001

ELECTRONIC WARFARE/INTERCEPT AERIAL
SENSOR REPAIRER

33V10

33V20

33V30

Exhibit Dates: 3/87–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Repairs, supervises, or performs unit, intermediate, or depot maintenance on electronic warfare intercept airborne sensor systems, associated data links, and assemblies. *Skill Level 10:* Performs maintenance on aviation equipment including side-looking radars, signal processors, monitors, receiving-transmitting equipment, encoding and decoding devices and aircraft annotation equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and assists subordinates; repairs selected specialized equipment and performs technical inspections of sensor modules and assemblies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; counsels subordinates; assigns, monitors, and inspects work; develops maintenance procedures; supervises installation of certain aerial sensor systems; supervises acquisition of parts; diagnoses unusual and complex malfunctions of aerial sensor systems and recommends modifications of sensor systems; maintains technical library; writes reports.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in troubleshooting techniques. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33V10 (5/87).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory and 3 in electronic shop practices. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33V10 (5/87).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in electronics shop practices, 3 in office procedures, and 3 in human relations. NOTE: For additional credit, check official records to verify completion of the mandatory course, 102-33V10 (5/87).

MOS-33Z-001

INTERCEPT SYSTEMS MAINTENANCE
SUPERVISOR

33Z40

33Z50

Exhibit Dates: 10/73–2/76. (Effective 3/76, MOS 33Z was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer; effective 3/85, MOS 33Z was reestablished–see exhibit MOS-33Z-002.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises maintenance on intercept equipment. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 40:* Able to perform the duties required for MOS 33C (Intercept Receiving Systems Repairman), MOS 33D

(Intercept Recording Systems Repairman), MOS 33F (Intercept Demultiplex Systems Repairman), and MOS 33G (ECM/DF Systems Repairman); serves as maintenance supervisor on intercept systems; establishes work priorities and assigns repair specialists; assists in supervision of personnel making complex authorized modifications on intercept and deception-jamming systems; explains complex electronic, mechanical, and solid-state concepts; instructs and demonstrates diagnostic and repair procedures and utilization of special test equipment and tools; diagnoses causes of unusual equipment malfunction; determines technical operating difficulties; plans and supervises operations of maintenance shop in tactical unit and fixed station facility. NOTE: May have progressed to 33Z40 from 33C40 (Intercept Receiving System Repairman), 33D40 (Intercept Recording Systems Repairman), 33F40 (Intercept Demultiplex Systems Repairman), or 33G40 (ECM/DF Systems Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as maintenance chief at battalion, field station, or higher headquarters; prepares lesson plans and demonstrations; recommends changes in work procedures; reports on unsatisfactory equipment and circuitry within intercept and deception-jamming systems; recommends equipment design changes; assists in technical inspections; prepares technical reports and maintenance records; provides technical guidance to maintenance personnel performing complex repairs on equipment; prepares maintenance schedules.

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid-state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid-state electronics, 3 in technical mathematics, 3 in human relations, 3 in shop management, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in resource management, and 3 in personnel management; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education (9/79).

MOS-33Z-002

Electronic Warfare/Intercept
Systems Maintenance
Supervisor

33Z50

Exhibit Dates: 3/85–Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Skill Level 50: Supervises unit, intermediate, and depot maintenance on all types of electronic warfare/intercept equipment; plans layout and design of maintenance and facilities; identifies training requirements and develops training plans; serves as liaison between staff command, site and unit personnel; prepares technical evaluations, reports, and correspondence pertaining to maintenance operations. NOTE: May have progressed to 33Z50 from 33R40, Electronic Warfare/Intercept Aviation Systems Repairer, 33T40, Electronic Warfare/Intercept Tactical Systems Repairer, or 33M40, Electronic Warfare/Intercept Strategic Systems Analyst and Command and Control Subsystems Repairer.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in applied psychology. In the upper-division baccalaureate category, 3 semester hours in technical writing, 3 in a management elective, 3 in industrial education, 3 in counseling, 3 for an education internship, and 3 for field experience in management (5/87).

MOS-34B-001

Tabulating Equipment Repairman

34B10

34B20

34B30

34B40

Exhibit Dates: 9/75–8/78.

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on electrical accounting machines. *Skill Level 10:* Inspects, tests, adjusts, and maintains electrical accounting machine equipment; locates and determines causes of malfunction; replaces pins, gears, arms, shafts, and rollers; cleans, oils, and lubricates equipment; reads wiring diagrams and mechanical blueprints; computes voltage, amperage, and resistance factors; employs safety precautions when working with high voltages. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects electrical accounting equipment to insure proper operation; adjusts or repairs improperly working electrical accounting equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a senior tabulating equipment repairman; performs or assists in supervising maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as chief tabulating equipment repairman; supervises 5 or more tabulating equipment repairmen.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals and 3 in office equipment repair (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, and 3 for field experience in office machine repair (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, 3 for field experience in office machine repair, and 3 in human relations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, 3 for field experience in office machine repair, 3 in human relations, and 3 for field experience in maintenance management (5/76).

MOS-34B-002

Punch Card Machine Repairer

34B10

34B20

34B30

34B40

Exhibit Dates: 9/78–8/85. (Effective 9/85, MOS 34B was discontinued.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Performs or supervises maintenance on punch card equipment. *Skill Level 10:* Inspects, tests, adjusts, and maintains punch-card-related equipment; locates and determines causes of malfunctions; replaces pins, gears, arms, shafts, and rollers; cleans, oils, and lubricates equipment; reads wiring diagrams and mechanical blueprints; computes voltage, *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects electrical punch card equipment to insure proper operation; adjusts or repairs improperly working punch card equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a senior punch card equipment repairman; performs or assists in supervising maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as chief punch card repairman; supervises several punch card equipment repairmen.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in electromechanical fundamentals. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals (9/81).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semes-

ter hours in electrical fundamentals and 3 in electromechanical device repair (9/81).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in electromechanical device repair, and 3 in human relations (9/81).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in electromechanical device repair, 3 in human relations, and 3 for field experience in maintenance management (9/81).

MOS-34C-001

DECENTRALIZED AUTOMATED SERVICE SUPPORT SYSTEM COMPUTER REPAIRER

34C20

34C30

34C40

Exhibit Dates: 3/79–8/87. (Effective 9/87, MOS 34C was discontinued and its functions were incorporated into MOS 39D, DAS3 Computer Systems Repairer and MOS 39V, Computerized Systems Maintenance Chief.)

Career Management Field: 74 (Automatic Data Processing).

Description

Summary: Supervises or performs maintenance on the Decentralized Automated Service Support System Center (DAS3). *Skill Level 20:* Inspects, adjusts, and repairs the DAS3 computer system, including the peripheral equipment; determines areas of malfunction by inspecting components and running software programs; interprets circuit and schematic diagrams; using simple algebraic formulas, computes voltage, amperage, and resistance factors; tests equipment with special diagnostic test programs and special test equipment, including ohmmeters, oscilloscopes, tube checkers, transistor checks, flip-flop circuit checkers, pulse code board testing devices, and pulse generators; disassembles malfunctioning equipment and replaces faulty components; performs preventive maintenance on computer and associated equipment; prepares and keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; repairs console panels, memory units, card readers, and peripheral equipment; manages inventory control. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises or performs support maintenance; keeps personnel records and assigns duties.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity/electronics and 3 in fundamentals of digital logic (10/81).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic electricity/electronics, 3 in fundamentals of digital logic, and 2 in digital system maintenance. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity/electronics, 3 in fundamentals of digital *logic, 2 in digital system maintenance, and 3* in personnel supervision (10/81).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity/electronics, 3 in fundamentals of digital logic, 2 in digital system maintenance, 3 in personnel supervision, 3 in fundamentals of management, and 3 in human relations (10/81).

MOS-34D-001

ADPS (AUTOMATIC DATA PROCESSING SYSTEMS) REPAIRMAN

34D20

34D50

Exhibit Dates: 10/73–8/75. (Effective 9/75, MOS 34D was discontinued and its functions were incorporated into the other data processing equipment maintenance MOS's in subfield 742.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs on-site maintenance and malfunction isolation of digital computers, peripheral equipment, and subscriber terminals (input/output devices); reads and interprets schematic diagrams, truth tables, logic diagrams, and flow charts. *Skill Level 20:* Applies electronic and logic theory in trouble diagnosis; uses test equipment such as VOM and oscilloscope for troubleshooting and repair; understands digital computer principles and operation; performs flow chart and diagnostic routine operations; lubricates and cleans equipment as required. *Skill Level 50:* Able to perform the duties required for Skill Level 20; provides technical assistance for complex problem diagnosis; supervises on-site computer maintenance and repair; schedules maintenance periods and coordinates work flow; supervises Skill Level 20 personnel, providing technical guidance and appraising performance.

Recommendation, Skill Level 20

In the vocational certificate category, a minimum of 18 semester hours in computer science, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, a minimum of 12 semester hours in computer science, and additional credit on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction in office machine repair, and additional hours on the basis of employer or trade association performance examination (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, a minimum of 18 semester hours in computer science, additional credit in computer science on the basis of institutional evaluation, and 3 semester hours for a practicum in business management. In the lower-division baccalaureate/associate degree category, a minimum of 12 semester hours in computer science, additional credit in computer science on the basis of institutional evaluation, and 3 semester hours for a practicum in business management. In the upper-division baccalaureate category, 3 semester hours for a practicum in business management. In an electronic technician apprentice training program, 3,000 clock hours of experience and 150 contact hours of related instruction in office machine repair (2/75)

MOS-34E-001

NCR 500 COMPUTER REPAIRER
(NCR 500 COMPUTER REPAIRMAN)

34E20

34E30

34E40

Exhibit Dates: 9/75–8/85. (Effective 9/85, MOS 34E was discontinued.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the NCR 500 computer. *Skill Level 20:* Performs routine maintenance on NCR 500 equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; prescribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; repairs console panels, processor, memory unit, arithmetic, power supply, card reader and controller, punched card peripheral equipment, and auxiliary units; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on NCR 500 equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, and 2 in instrument applications. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34F-001

DSTE REPAIRER
(DSTE REPAIRMAN)

34F20
34F30
34F40

Exhibit Dates: 10/73–2/87. (Effective 3/87, MOS 34F was discontinued and its duties were incorporated into MOS 29G, Digital Communications Equipment Repairer.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on Digital Subscriber Terminal Equipment (DSTE). *Skill Level 20:* Performs routine maintenance on DSTE equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; prescribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs inspections on systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on DSTE equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, and 2 in instrument applications. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technican (certified) apprentice training program, 1000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34G-001

FIRE CONTROL COMPUTER REPAIRER
(FIRE CONTROL COMPUTER REPAIRMAN)

34G10
34G20
34G30

Exhibit Dates: 9/75–8/81. (Effective 9/81, MOS 34G was discontinued and its duties were incorporated into MOS 34Y, Field Artillery Computer Repairer, and MOS 45G, Tactical Fire Control Systems Repairer.)

Career Management Field: 63 (Mechanical Maintenance), subfield 643 (Armament Maintenance).

Description

Summary: Supervises or performs maintenance on fire control gun directional digital computer, viewer computer systems, laser rangefinders, electronic analog computers and related test equipment. *Skill Level 10:* Maintains field artillery digital automatic computer system, AR-85Z viewer computer, electronic analog computers, and laser rangefinders; uses and maintains special electronic and mechanical systems test equipment and electrician's and mechanic's hand tools; determines causes of malfunctions and removes and replaces defective electronic, electrical, and mechanical components; seals, spot paints, and purges and charges laser rangefinder components with nitrogen, as required; interprets complex schematic diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs support and depot maintenance on AR-85A viewer computer; provides technical guidance to Skill Level 10 personnel; supervises or installs equipment modifications; diagnoses complex malfunctions; conducts on-the-job training; maintains maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; instructs Skill Level 10 and 20 personnel in troubleshooting, proper repair methods, and maintenance techniques and procedures; establishes maintenance priorities and schedules and assigns work; performs final inspection and testing of repaired equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in use and care of hand and power tools, 3 in the use and maintenance of testing equipment, 3 in electrical wiring systems, and 3 in basic electronics, and additional credit in these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, and 3 in technical mathematics and additional credit in electronics, electricity, applied physics, mathematics, and computer maintenance on the basis of institutional evaluation. In an electronics technician apprentice training program, 500 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in use and care of hand and power tools, 3 in use and maintenance of testing equipment, 3 in electrical wiring systems, and 5 in basic electronics, and additional credit in these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in technical mathematics, 6 in shop practices, and 3 in personnel supervision and training, and additional credit in electronics, electricity, mathematics, applied physics, and computer maintenance on the basis of institutional evaluation. In an electronics technician apprentice training program, 1,500 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in technical mathematics, 3 in personnel supervision, 6 in shop practices, and 1 in records administration, and additonal credit in electronics, electricity, mathematics, applied physics, and computer maintenance on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management, only if the duty assignment was fire control computer repair foreman. In an electronics technician apprentice training program, 3,000 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-34H-001

ADMSE REPAIRMAN

34H20
34H30
34H40

Exhibit Dates: 9/75–2/87. (Effective 3/87, MOS 34H was discontinued and its functions were incorporated into MOS 29H, Automatic Digital Message Switch Equipment Repairer and MOS 29U, Digital Equipment Maintenance Chief.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on Automatic Digital Message Switch equipment (ADMSE). *Skill Level 20:* Performs routine maintenance on ADMS equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; perscribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs inspections on systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on ADMSE equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, and 2 in instrument applications. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, and 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34J-001

UNIVAC 1004/1005, DCT-9000 SYSTEM REPAIRER
(UNIVAC 1004/1005, DCT-9000 SYSTEM REPAIRMAN)

34J20
34J30
34J40

Exhibit Dates: 9/75–8/85. (Effective 9/85, MOS 34J was discontinued.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the univac 1004/1005, DCT-9000 computer system and peripheral equipment. *Skill Level 20:* Performs maintenance on computer input-output equipment (card and paper tape processors); follows schematic diagrams and maintenance manuals in determining the nature, location, and extent of malfunctions in either electrical or mechanical equipment; uses specialized test equipment, including multimeters, oscilloscopes, transistor-and-tube-checkers, and pulse generators; performs inspections, adjustments, repairs, and modifications as specified in official technical manuals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections of systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on UNIVAC and DCT-9000 systems.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuits applications, 2 in basic mathematics or introduction to algebra, 2 in basic electronics (AC/DC theory), 2 in amplifier devices (tubes, transistors), 2 in basic electronics laboratory, and 1 in instrument applications. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics theory/laboratory and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20.

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics theory/laboratory, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34K-001

IBM 360 REPAIRER
(IBM 360 REPAIRMAN)

34K20
34K30
34K40

Exhibit Dates: 9/75–8/87. (Effective 9/87, MOS 34K was discontinued and its functions were incorporated into MOS 39K, IBM 360 Automated Data Processing Repairer and MOS 39V, Computerized Systems Maintenance Chief.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the IBM 360 computer and peripheral equipment. *Skill Level 20:* Performs maintenance on the IBM 360 computer and peripheral equipment, including console control panels, processor, memory unit, arithmetic, power supply, card reader and controller, and auxiliary units; uses specialized equipment, including multimeters, oscilloscopes, tube- and transistor-testers, and pulse generators; performs preventive and routine maintenance of tools and test equipment; interprets technical manuals and schematic diagrams; adjusts, troubleshoots, and repairs various electrical devices, electronic circuit components and electromechanical systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections and adjustments with diagnostic test programs and special equipment; may supervise up to 15 lower skill level personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on IBM 360 computer system.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electromechanical devices, 3 in electronic circuit applications, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 2 in digital-logic systems, and 1 in instrument applications. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 2 in basic electronics, 2 in transistor theory, and 2 in introduction to computer circuits. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 2 in basic electronics, 2 in transistor theory, 2 in introduction to computer circuits, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34L-001

ADMS Peripheral Equipment Repairman

34L20
34L30
34L40

Exhibit Dates: 9/75-8/77. (Effective 9/77, MOS 34L was discontinued and its functions were incorporated into MOS 34H, ADMSE Repairer. In 3/85, MOS 34L was reestablished; see exhibit MOS-34L-002).

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the Automatic Digital Message Switching (ADMS) peripheral equipment. *Skill Level 20:* Performs maintenance on ADMS peripheral equipment, including punched card subsystem, card reader, high speed printer subsystem, magnetic tape subsystem, and Systems Command Terminal; interprets technical manuals and schematic diagrams; uses specialized test equipment, including multimeters, oscilloscopes, tube- and transistor-checkers, and pulse generators; performs preventive and routine maintenance on electrical devices, electronic circuit components, and electromechanical apparatus; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections and adjustments; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on ADMS peripheral equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic circuit applications, 3 in electromechanical devices and systems, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 1 in instrument applications, and 1 in logic and digital principles. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34L-002

Field Artillery Digital Systems Repairer

34L10
34L20
34L30

Exhibit Dates: 3/85-7/86. (Effective 7/86, MOS 34L was redesignated MOS 39L; see exhibit MOS-39L-001.)

Career Management Field: 74 (Automatic Data Processing).

Description

Summary: Performs and supervises intermediate maintenance on gun, rocket and missile fire control, directional, digital computer systems, meteorological computers, motor fire control calculations, remotely piloted vehicle control stations and peripheral equipment. *Skill Level 10:* Operates and performs intermediate level maintenance on digital fire control systems and peripheral support equipment; fault detection and correction is at the board level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; uses knowledge of digital electronics and computer system concepts to isolate and correct complex problems; keeps records on maintenance procedures; supervises Skill Level 10 personnel; conducts on-the-job training; oversees installation of modifications on equipment; plans and recommends establishment of procedures for receipt, storage, inspection, testing, and repair of components. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation and maintenance performed by subordinate personnel; prepares work schedules and coordinates overall activities; conducts training and counseling sessions.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance (6/89).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance, 3 in personnel supervision, and 3 in maintenance management (6/89).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance, 3 in principles of supervision, 3 in maintenance management, and 3 in communication skills (oral and written) (6/89).

MOS-34M-001

SDS 920 Equipment Repairman

34M20
34M30
34M40

Exhibit Dates: 9/75-2/77. (Effective 3/77, MOS 34M was discontinued.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on SDS 920 computer, including peripheral equipment and auxiliary units. *Skill Level 20:* Interprets schematic diagrams and maintenance manuals in determining the nature, location, and extent of malfunctions in either electrical or mechanical equipment; uses specialized test equipment, including multimeters, oscilloscopes, transistor- and tube-checkers, and pulse generators; performs inspections, adjustments, repairs, and modifications from technical manuals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections of systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on SDS 920 computer systems.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic circuit applications, 3 in electromechanical devices and systems, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 1 in instrument applications, and 1 in logic and digital principles. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, and 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34T-001

TACTICAL COMPUTER SYSTEMS REPAIRER

34T10
34T20
34T30
34T40

Exhibit Dates: 9/85-9/87. (Effective 9/87, MOS 34T was discontinued and its duties were incorporated into MOS 39T (Tactical Computer Systems Repairer.)

Career Management Field: 74 (Automatic Data Processing).

Description

Summary: Performs and supervises maintenance on tactical data communications/computer systems. *Skill Level 10:* Prepares and updates maintenance forms and requests; utilizes test equipment, diagnostic programs and manuals to isolate faults; replaces faulty modules; verifies status of equipment; checks for proper operation of all equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes and interprets circuit diagrams, logic diagrams, and other technical literature; provides technical guidance to lower skill level personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns specific duties to skill level 10 and 20 personnel; establishes workload, work schedules, and priorities; responsible for quality control inspections; evaluates and counsels subordinates; provides technical assistance to subordinates; maintains technical library; initiates and maintains forms and records; responsible for records pertaining to repair parts; prepares and reviews administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; counsels, evaluates, and supervises lower skill level personnel; plans and supervises on-the-job training; advises personnel, supervisors, and commanders on operational matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in computer system repair (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in computer system repair and 2 in recordkeeping (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in computer system repair, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 4 semester hours in computer system repair, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (7/87).

MOS-34Y-001

FIELD ARTILLERY TACTICAL FIRE DIRECTION SYSTEMS REPAIRER (FIELD ARTILLERY COMPUTER REPAIRER)

34Y10
34Y20
34Y30

Exhibit Dates: 9/81-9/87. (Effective 9/87, MOS 34Y was redesignated MOS 39Y; see exhibit MOS-39Y-001.)

Career Management Field: 74 (Automatic Data Processing).

Description

Summary: Performs direct and general support maintenance on field artillery tactical fire direction systems, variable format entry devices, and related test equipment. *Skill Level 10:* Makes detailed tests through stages of equipment using voltmeters, ohmmeters, oscilloscopes, logic probes and other test equipment to localize and isolate malfunctions; replaces faulty components at the integrated circuit board level; may replace resistors, capacitors, integrated circuits, and other discrete components in emergency situations; maintains tools and test equipment; test-operates computer controlled system; checks and maintains electromechanical subsystems including motors, generators, servos and mechanical actuators; interprets complex block diagrams, schematics, and technical manuals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; checks maintenance performed by Skill Level 10 personnel; inspects systems for wear and possible future problem areas; supervises system repair contact team; interfaces with system users to identify cause of malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; has complete responsibility for supervising a multi-million dollar maintenance van; directs and coordinates the activities of 5 to 10 subordinate personnel; performs performance appraisals; conducts on-the-job training; establishes work priorities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in circuit diagnosis and 3 in computer system maintenance and repair (11/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in circuit diagnosis, 6 in computer system maintenance and repair, 3 in recordkeeping, and 1 in personnel supervision (11/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in circuit diagnosis, 6 in computer system maintenance and repair, 3 in recordkeeping, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/85).

MOS-34Z-001

ADPS (AUTOMATIC DATA PROCESSING SYSTEMS) MAINTENANCE SUPERVISOR

34Z50

Exhibit Dates: 9/75-8/87. (Effective 9/87, MOS 34Z was discontinued and its functions were incorporated into MOS 39X, Electronics Maintenance Chief and MOS 29Z, Communications Electronics Maintenance Chief.)

Career Management Field: 74 (Automatic Data Processing), subfield 742 (Data Processing Equipment Maintenance).

Description

Skill Level 50: Supervises Skill Level 40 personnel in subfield 742 (data processing equipment maintenance); supervises automatic data processing (ADP) maintenance activities; diagnoses and evaluates complex malfunctions; determines length of time, tools, and parts required to repair malfunctioning computer or related equipment; provides technical guidance to subordinate personnel and to superiors; evaluates quality of maintenance work, corrects faulty work practices, and instructs maintenance personnel in proper work procedures; may serve as a chief instructor at a formal training facility. NOTE: May have progressed to 34Z50 from any MOS in subfield 742.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in industrial arts education, and 3 for field experience in management, and 3 additional semester hours for field experience in management on the basis of institutional evaluation; if the duty assignment was chief instructor, 3 semester hours for an internship in education. NOTE: Consult the exhibits for previously held MOS's for credit recommended for automatic data processing equipment maintenance (6/76).

MOS-35B-001

ELECTRONIC INSTRUMENT REPAIRMAN

35B20
35B30
35B40

Exhibit Dates: 10/73-4/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs maintenance calibration and support maintenance on radiation detectors, lie detectors, and electrical/electronic measuring and test equipment. *Skill Level 20:* Performs checks to detect malfunction or nonfunction of instruments and extent of maintenance required; disassembles, repairs, and retests instruments; uses common and specialized hand tools, measuring instruments, and testing devices; performs basic Ohm's law computations; interprets schematic and wiring diagrams. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed testing on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, spectrum analyzers, microwave/radar test equipment, differential and digital voltmeters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises repair and maintenance calibration of electronic test equipment; instructs subordinates in support maintenance procedures; schedules repair operations; keeps records; maintains a supply of spare parts; prepares administrative and technical reports; diagnoses unusual cases of malfunction or nonfunction; supervises a minimum of eight persons.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in instrumentation laboratory or electronic maintenance, and 6 in introductory electricity/electronics. In the lower-division baccalaureate/associate degree category, 6 semester hours in introductory electricity/electronics, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in instrumentation laboratory or electronic maintenance, and 3 in electronic troubleshooting. In the lower-division baccalaureate/associate degree category, 6 semester hours in electricity/electronics, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 3,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in instrument laboratory or electronic maintenance, and 3 in electronics troubleshooting. In the lower-division baccalaureate/associate degree category, 6 semester hours in introductory electricity/electronics, 3 in personnel management practicum, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in maintenance management, and credit in industrial arts and for a practicum in business management on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

MOS-35B-002

ELECTRONIC INSTRUMENT REPAIRMAN

35B20
35B30
35B40

Exhibit Dates: 5/77–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs maintenance, repair, and calibration of radiac instruments, polygraph equipment, and electrical/electronic measuring and test equipment. *Skill Level 20:* Tests instruments and equipment to determine cause of malfunction; dismantles assemblies to inspect, remove, and replace components; repairs circuit wiring; performs calibration and final test of repaired equipment to comply with technical manual instructions, manufacturers' specifications, or equipment standards; tests electrical/electronic equipment, including ammeters, voltmeters, vacuum tube voltmeters, signal generators, tube and transistor testers, oscilloscopes, frequency meters and counters; uses common and specialized hand tools, measuring instruments, and testing devices; performs basic Ohm's law computations; interprets schematic and wiring diagrams; tests, troubleshoots, repairs, and adjusts radiac instruments to specified tolerances. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed tests on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, precision frequency meters, spectrum analyzers, panoramic indicators, microwave/radar test equipment, summation bridges, differential and digital voltmeters; performs final testing and calibration. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a minumum of 8 subordinates engaged in the repair and calibration of electronic test equipment; diagnoses unusual causes of malfunction; assigns personnel to specific duties; demonstrates proper maintenance procedures, practices, and techniques; plans and schedules repair, maintenance calibration, and certification of equipment; keeps equipment records; inventories and requisitions parts and supplies; establishes files of technical publications; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in introductory electricity/electronics, 3 in technical mathematics, and 3 in instrumentation laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, and 2 in technical mathematics, and additional credit in instrumentation on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction (5/77).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in electricity/electronics, 6 in instrumentation laboratory, and 3 in technical mathematics. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, 3 in instrumentation laboratory, and 2 in technical mathematics. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in electricity/electronics, 6 in instrumentation laboratory, 3 in technical mathematics, 3 in electronics troubleshooting, and 1 in use of technical publications. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, 3 in instrumentation laboratory, 2 in technical mathematics, 3 in human relations, 3 in personnel supervision, 2 in recordkeeping, and 1 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in maintenance management and additional credit in industrial arts and for field experience in management on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (5/77).

MOS-35B-003

ELECTRONIC INSTRUMENT REPAIRER

35B10
35B20
35B30
35B40

Exhibit Dates: 3/78–8/83. (Effective 9/83, MOS 35B was discontinued and its functions were incorporated into MOS 35H, Calibration Specialist.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs maintenance, repair, and calibration of radiac instruments, polygraph equipment, and electrical/electronic measuring and test equipment. *Skill Level 10:* Performs maintenance, repair, calibration, and testing of electrical and electronic test measuring and diagnostic equipment; troubleshoots equipment; dismantles equipment to inspect, remove, and replace components; repairs circuit wiring; adjusts, aligns, and performs maintenance calibration of repaired equipment using vacuum tube voltmeters, multimeters, signal generators, oscilloscopes, frequency meters, and counters; uses common and specialized tools; performs basic Ohm's law computations; interprets schematics and wiring diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs maintenance on test measuring diagnostic equipment; provides technical guidance to Skill Level 10 personnel; utilizes electronic equipment in electronic maintenance vans and computer automatic test equipment; inspects, troubleshoots, repairs, calibrates test sets in support of telephone, telegraph, teletype, microwave, radar, radio/carrier, and avionics equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed tests on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, precision frequency meters, spectrum analyzers, panoramic indicators, microwave/radar test equipment, summation bridges, differential and digital voltmeters; performs final testing and calibration; inspects and checks maintenance performed for adequacy and suitability; establishes production and quality control procedures; requisitions parts and supplies; maintains records, references, and reports; keeps equipment records; establishes files of technical literature; assigns duties. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises from 5-9 lower skill level personnel; plans and schedules repairs; supervises overall repair functions; instructs personnel in maintenance procedures, practices, and techniques; prepares administrative and technical reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic AC/DC theory, 3 in technical mathematics, and 3 in instrument laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory and 3 in instrument laboratory (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic AC/DC theory, 3 in technical mathematics, 3 in instrument laboratory, and 3 in transistor theory. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, and 3 in basic electronics (10/79).

Recommendation, Skill Level 30
In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, 3 in basic electronics, and 3 in human relations (10/79).

Recommendation, Skill Level 40
In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, 3 in basic electronics, 3 in human relations, 3 in personnel supervision, and 3 in introduction to management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/79).

MOS-35C-001

Automatic Test Equipment Repairer

35C10
35C20
35C30

Exhibit Dates: 3/82–6/86. (Effective 7/86, MOS 35C was discontinued and its functions were incorporated into MOS 39B, Automatic Test Equipment Operator Maintainer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description
Summary: Supervises, operates, maintains, and performs maintenance on automatic test equipment. *Skill Level 10:* Repairs electronic equipment such as printed circuit boards and modules; uses schematic diagrams and logic plots; uses specialized tools; requisitions replacement parts and completes necessary records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and performs organizational maintenance on the automatic test facility; operates test facility and performs test set-up of the equipment being tested; performs measurements and adjustments on the tested equipment as indicated by computer readout; operates the computing facility associated with the automatic tester; completes records and performs quality control on the unit under test; repairs automatic tester by replacement of faulty assembly or printed circuit boards. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operation and maintenance of automatic electronic test equipment; provides technical guidance to lower-skill-level personnel; coordinates maintenance activities with other units; assigns duties; troubleshoots and repairs computer and peripheral equipment; uses schematic, logic, and signal flow diagrams; inspects overall maintenance activities and insures quality performance; maintains records and writes required reports; establishes and maintains technical library and insures proper maintenance of supply.

Recommendation, Skill Level 10
In the vocational certificate category, 3 semester hours in basic electronic shop procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics (2/84).

Recommendation, Skill Level 20
In the vocational certificate category, 3 semester hours in electronic shop procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics and 3 in automatic diagnostic procedures (2/84).

Recommendation, Skill Level 30
In the vocational certificate category, 3 semester hours in electronic shop procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in automatic diagnostic procedures, and 3 in personnel supervision (2/84).

MOS-35D-001

Meteorological Equipment Repairman

35D20
35D30

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 35D was discontinued and its functions were incorporated into MOS 26B, Weapons Support Radar Repairer; MOS 35E, Special Electrical Devices Repairer; and MOS 93F, Field Artillery Meteorological Crewman.)

Career Management Field: 00 (Exceptional Management Specialities), subfield 000 (Special Assignment).

Description
Summary: Performs maintenance on electrical, electronic, and electro-mechanical weather equipment employed in meteorological units. *Skill Level 20:* Performs operational maintenance; assists in siting and operating meteorological equipment; keeps test and maintenance records; assists in maintaining proper supply levels of spare parts and expendable supplies; repairs circuit wiring; traces circuit continuity to identify malfunctions; troubleshoots such items as radiosonde, radio direction finder, radiosonde recorder, and frequency standard. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs direct and general support maintenance on electronic and electrical meteorological equipment; troubleshoots and repairs equipment such as barometric pressure, temperature, and wind measuring and recording instruments; inspects repairs and determines the adequacy of maintenance performed. NOTE: May progress from 35D30 to 35H50 (Calibration Specialist).

Recommendation, Skill Level 20
In the lower-division baccalaureate/associate degree category, 5 semester hours in basic electronics, 4 in fundamentals of DC and AC electrical circuits, and 3 in electrical and electronic laboratory (11/75).

Recommendation, Skill Level 30
In the lower-division baccalaureate/associate degree category, 5 semester hours in basic electronics, 4 in DC and AC electrical circuits, 3 in electrical and electronic laboratory, 3 in technical report writing, 3 in electronic circuits, and 3 in electronic tests and measurements (11/75).

MOS-35E-001

Special Electrical Devices Repairman

35E20
35E30
35E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 352 (Electrical/Electronic Devices Maintenance).

Description
Summary: Performs complex maintenance procedures on specialized electrical and electronic measurement equipment; assists with maintenance of electro-optical vision equipment and detection equipment; applies schematic tracing skills and basic electronics theory in troubleshooting malfunctions; performs repairs, replacements, or modifications in compliance with technical manuals; uses specialized tools and test equipment in diagnosing symptoms and in locating problems in circuits down to discrete electrical components; regularly updates maintenance manual, records, and supply stock. *Skill Level 20:* Performs maintenance on electronic orientation, surveillance, measurement, vision, and detection equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise up to 5 persons in a maintenance facility. *Skill Level 40:* Able to perform the duties required for Skill Level 30; possesses advanced knowledge and more varied experience on specialized electrical and electronic equipment; supervises from 10 to 30 persons; prepares technical reports; plans maintenance activities; gives direction and instruction in resolving complex maintenance problems.

Recommendation, Skill Level 20
In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronic instrumentation, and 3 in electro-optics applications or electromechanical applications, 1 in technical mathematics, and 1 in semiconductor theory and applications. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 3 in basic electronics laboratory applications. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

Recommendation, Skill Level 30
In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory applications, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

Recommendation, Skill Level 40
In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory applications, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

MOS-35E-002

Special Electronic Devices Repairer

35E10
35E20
35E30

Exhibit Dates: 3/78–9/87. (Effective 9/87, MOS 35E was discontinued and its duties were incorporated into MOS 39E, Special Electronics Device Repairer.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs complex maintenance procedures on specialized electrical and electronic measuring equipment. *Skill Level 10:* Assists with maintenance of electro-optical vision equipment and detection equipment; applies schematic tracing skills and basic electronic theory in troubleshooting malfunctions; performs repairs, replacement, or modifications in compliance with technical manuals; uses specialized tools and test equipment in diagnosing symptoms and in locating problems in circuits down to discrete electrical components; regularly updates maintenance manuals, records, and supply stock; examines, tests, and observes equipment in operation to determine defects; localizes and determines cause of malfunctions; removes and replaces faulty major components, subassemblies and individual parts; uses test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; troubleshoots and repairs faulty equipment; observes and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance on special electrical devices equipment; maintains records, references and reports; prepares technical reports; provides assistance; gives direction and instructions in resolving complex maintenance problems; diagnoses causes of unusual malfunctions; may supervise six or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronics instrumentation, 3 in electro-optics applications or electromechanical applications, 1 in technical mathematics, and 1 in semiconductor theory. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 3 in basic electronics laboratory applications. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronics instrumentation, 3 in electro-optics applications or electromechanical applications, 1 in technical mathematics, 1 in semiconductor theory, and 2 in technical report writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (10/79).

MOS-35F-001

Nuclear Weapons Electronics Specialist

35F10
35F20

Exhibit Dates: 3/76–9/84. (Effective 9/84, MOS 34F was discontinued and its functions were incorporated into MOS 55G, Nuclear Weapon Maintenance Specialist.)

Career Management Field: 55 (Ammunition).

Description

Summary: Performs maintenance on highly specialized electronic equipment associated with nuclear weapons and nuclear weapons trainers. *Skill Level 10:* Under close supervision of 35F20 personnel, assists in performing maintenance functions using multimeters and electronic hand tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs maintenance, diagnoses malfunctions, replaces defective parts, and test-operates repaired equipment; uses multimeters, oscilloscopes, and electrical/electronic hand tools; interprets schematic diagrams and technical publications; keeps records of work performed.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in basic electricity and 1 in care and use of tools and test equipment. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity, 2 in electrical/electronic troubleshooting, 2 in electrical/electronic maintenance, and 1 in care and use of tools and test equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in electrical/electronics maintenance and 1 in basic electricity. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

MOS-35G-001

Biomedical Equipment Repairman
(Medical Equipment Repairman)

35G20

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 354 (Medical Equipment Maintenance).

Description

Skill Level 20: Performs routine maintenance on non-complex medical equipment, including electrical-electronic, mechanical, and optical equipment; repairs and installs mechanical equipment including sterilizers, stills, anesthesia apparatus, resuscitators, dental operating units, operating tables and lamps, food carts, hospital beds, etc., dismantles and cleans equipment; checks for wear and repairs simple mechanical and electrical defects; installs water, air, and steam lines and tests for leakage and fit; uses volt-ohm-milliameter.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in medical equipment maintenance, 2 in shop operations (procedures), and 1 in basic electricity laboratory (5/76).

MOS-35G-002

Biomedical Equipment Repairer

35G10
35G20

Exhibit Dates: 3/78–2/80.

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Performs routine maintenance on non-complex medical equipment. *Skill Level 10:* Performs routine maintenance on electrical-electronic, mechanical, and optical equipment; repairs and installs mechanical medical equipment, including sterilizers, stills, anesthesia apparatus, resuscitators, dental operating units, operating tables and lamps, food carts, hospital beds, etc.; dismantles and cleans equipment; installs water, air, and steam lines; performs routine tests on medical equipment to determine leakage currents and calibration. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in DC and AC circuit fundamentals, 6 in theory of operation and troubleshooting medical equipment, and 2 in shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in medical equipment maintenance and repair and 2 in shop practices (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in DC and AC circuit fundamentals, 6 in theory of operation and troubleshooting medical equipment, and 2 in shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in medical equipment maintenance and repair and 2 in shop practices (11/79).

MOS-35G-003

Biomedical Equipment Specialist,
Basic

35G10
35G20

Exhibit Dates: 3/80–Present.

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Performs routine maintenance on medical equipment. *Skill Level 10:* Performs routine maintenance and repair on electrical, analog and digital electronic, mechanical, and optical equipment; repairs and installs mechanical medical equipment, including sterilizers, stills, anesthesia apparatus, resuscitators, dental operating units, operating tables and lamps, food carts, hospital beds, etc.; dismantles and cleans equipment; installs water, air, and steam lines;

performs routine tests on medical equipment to determine leakage currents and calibration. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in DC and AC circuit fundamentals, 6 in theory of operation and troubleshooting medical equipment, and 2 in shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in medical equipment maintenance and repair and 2 in shop practices (10/82).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in DC and AC circuit fundamentals, 6 in theory of operation and troubleshooting medical equipment, and 2 in shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in medical equipment maintenance and repair and 2 in shop practices (10/82).

MOS-35H-001

Calibration Specialist

35H20
35H40
35H50

Exhibit Dates: 10/73-2/75.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs complex calibration procedures at secondary reference or transfer reference level on electrical, electronic, pressure, vacuum, hydraulic, and mechanical test and measuring instruments and devices; performs linear measurements in all aspects of metrology; compares standards of measurement and references; performs minor electronic maintenance; checks and evaluates condition of equipment. *Skill Level 20:* Calibrates transfer standards to reference standards; checks and adjusts secondary standards for calibration against primary standards; calibrates test and system support equipment within design accuracy; computes voltage, current, and resistance factors; evaluates condition of test and measuring equipment and makes minor repairs. *Skill Level 40:* Able to perform the duties required for Skill Level 20; competent in error analysis; diagnoses unusual malfunctions of sophisticated equipment; performs complex calibration procedures; plans calibration loops and performs final check-out operations in closing calibration loops; recognizes and adheres to standards of accuracy to which secondary reference standards must be certified; teaches subordinates how to use and interpret calibration procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a first-line supervisor; interprets and initiates changes in company policies; directs and coordinates the administrative activities of the company; supervises subordinates; conducts on-the-job training. NOTE: May have progressed to 35H50 from 35H40, 35B40 (Electronic Instrument Repairman), 35E40 (Special Electrical Devices Repairman), 35U50 (Biomedical Equipment Maintenance Chief), or 35P50 (Avionic Equipment Maintenance Supervisor).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic algebra and trigonometry, 6 in fundamentals of DC and AC electrical circuits, 6 in basic electronics with laboratory, 6 in communication electronics with laboratory, 6 in electronic instrumentation with laboratory, and 6 in laboratory techniques, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic algebra and trigonometry, 3 in fundamentals of DC and AC electrical circuits, 3 in basic electronics with laboratory, 3 in communication electronics with laboratory, 3 in electronic instrumentation with laboratory, and 3 in laboratory techniques. In the upper-division baccalaureate category, 6 semester hours in industrial arts or technical electives and additional credit on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. In the upper-division baccalaureate category, 3 semester hours in industrial arts or technical electives and additional credit on the basis of institutional evaluation. In an apprentice training program, 5,000 clock hours of experience and 360 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in basic algebra and trigonometry, 6 in fundamentals of DC and AC electrical circuits, 6 in basic electronics with laboratory, 6 in communications electronics with laboratory, 6 in electronic instrumentation with laboratory, 6 in laboratory techniques, and 3 in office management, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic algebra and trigonometry, 3 in fundamentals of DC and AC electrical circuits, 3 in basic electronics with laboratory, 3 in communication electronics with laboratory, 3 in electronic instrumentation with laboratory, 3 in laboratory techniques, 3 in personnel supervision, and 3 in office management. In the upper-division baccalaureate category, 6 semester hours in industrial arts or technical electives, 3 in personnel management, and 3 for field experience in management or administration, and additional credit in technical areas on the basis of institutional evaluation; and 3 additional semester hours for field experience in education only if the duty assignment was chief instructor. In an electronic instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-35H-002

Calibration Specialist

35H20
35H30
35H40
35H50

Exhibit Dates: 3/75-2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs complex calibration procedures at secondary reference or transfer reference level on electrical, electronic, pressure, vacuum, hydraulic, and mechanical test and measuring instruments and devices; performs linear measurements in all aspects of metrology; compares standards of measurement and references; performs minor electronic maintenance; checks and evaluates condition of equipment. *Skill Level 20:* Applies knowledge of operational characteristics of tests, measurement, and diagnostic equipment; performs calibration of electronic equipment using secondary transfer standards; must be capable of performing calibrations in all transfer level parameters or measurement, including AC voltage and current, DC voltage and current, resistance, capacitance, inductance, frequency, time interval, rise time, RF power frequency response, distortion, phase, standing wave ratio, attenuation, magnetic field strength, photometric brightness, irradiance, sound pressure, relative humidity, temperature, viscosity, specific gravity, length, gas and liquid flow, mass torque, vacuum, hydraulic pressure, and pneumatic pressure; prepares and affixes calibration certificates, tags, labels and correction charts; recommends changes to calibration procedures and other technical publications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs calibrations using more sophisticated techniques and standards to obtain a much greater degree of precision and accuracy; operates secondary reference standards in a controlled environment and determines specific effect on the measurement process; calibrates all secondary reference standards; prepares technical reports and charts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs check-out operations in closing calibration loop; diagnoses and determines causes of unusual cases of malfunction or nonfunction of electrical and electronic devices; supervises or executes installation and location of equipment; instructs, explains, and interprets technical literature, schematics, specifications, and calibration procedures; organizes technical operations for calibration teams; operates a quality control and production control program for calibration operations and calibration equipment repair. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a first-line supervisor in a calibration laboratory or facility; plans, coordinates, and supervises activities pertaining to training and technical operation of the facility to which assigned; develops and reviews correspondence relating to calibration activities; coordinates the efforts of the technical support elements of a calibration activity in support of the calibration laboratory and teams; prepares interservice/intraservice agreements relative to calibration support. NOTE: May have progressed to 35H50 from 35H40, 35B40 (Electronic Instrument Repairman), 35E40 (Special Electrical Devices Repairman), 35U50 (Biomedical Equipment Maintenance Chief), or 35P50 (Avionic Equipment Maintenance Supervisor).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, and 2 in AC circuit laboratory. In the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, and 2 in AC circuit laboratory. In the upper-division baccalaureate category, 3 semester hours in electronic instrumentation fundamentals and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 3 in laboratory techniques, 2 in technical writing, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, 2 in AC circuit laboratory. In the upper-division baccalaureate category, 3 semester hours in electronic instrumentation fundamentals and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 3 in laboratory techniques, 3 in personnel supervision, 3 in human relations, 2 in technical writing, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, and 2 in AC circuit laboratory. In the upper-division baccalaureate category, 6 semester hours in technical electives, 3 in electronic instrumentation fundamentals, and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours in technical electives, 3 in electronic instrumentation fundamentals, and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

MOS-35H-003

CALIBRATION SPECIALIST

35H10
35H20
35H30
35H40
35H50

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs calibration and repair duties on all common test, measuring, and diagnostic equipment; performs maintenance on all calibration standards and accessories; performs maintenance on electrical, electronic, pressure, vacuum, hydraulic, and mechanical measuring instruments. *Skill Level 10:* Calibrates and repairs test, measuring, and diagnostic equipment, including meters and other low-level systems; maintains calibration and maintenance records; assists with more advanced repair and calibration procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs crosscheck of low-level calibration standards; maintains records applicable to these and other calibration and maintenance functions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides direct supervision, quality control, technical support and coordination of unit activities; supervises on-the-job training; supervises a calibration team and prepares their work schedule; performs calibration using more sophisticated and accurate standards including the following: flow rate, viscosity, specific gravity, phase, sound pressure level, irradiance, photometric, brightness, magnetic field strength, etc.; performs cross-checks of reference standards and maintains standard levels. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and provides on-the-job training to lower skill level personnel; maintains calibration files to provide historical, production, and scheduling information for control of operations; conducts liaison with supported units to schedule production advice on test, measuring, and diagnostic equipment; provides quality control by sample inspection against standards; previews correspondence and prepares interservice agreements relative to calibration support; establishes schedules; supervises the development and presentation of new equipment and technology training; may supervise four or more personnel, or if duty position is Calibration Operations NCO, may supervise five or more calibration teams. *Skill Level 50:* Able to perform the duties required for Skill Level 40 as principal noncommissioned officer of a calibration facility, performs technical and administrative duties; plans, coordinates, and supervises training and operation activities; prepares correspondence; advises superiors on technical calibration matters; may supervise five or more calibration teams.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 1 in digital circuits, 1 in solid-state circuits, 1 in communications principles, 2 in instrumentation, 3 in troubleshooting techniques, 2 in physics, and 2 in mathematics (algebra and trigonometry) (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 4 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), and 3 in microwave circuits. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 4 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), and 3 in microwave circuits (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 2 in human relations, 2 in personnel supervision, and 2 in maintenance management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 3 in human relations, 3 in personnel supervision, and 2 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management; if the duty position was calibration operations NCO, 3 additional semester hours in management problems (5/79).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 3 in human relations, 3 in personnel supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours for field experience in management, and 3 in management problems (5/79).

MOS-35J-001

AIRCRAFT FIRE CONTROL REPAIRMAN

35J20

35J40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 35J was discontinued and its functions were incorporated into MOS 68J, Helicopter Missile Systems Repairer, and MOS 68K, Aircraft Components Repair Supervisor.)

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs support maintenance on optical electrical/electronic components of aircraft armament subsystems, printed cards, and systems peculiar to electronic test equipment for all aircraft armament subsystems. *Skill Level 20:* Performs support maintenance on aircraft fire control equipment; interprets electrical/electronic schematics and systems diagrams; employs standard and systems peculiar test equipment to troubleshoot and isolate malfunctions; replaces or adjusts faulty components; performs final checkout; performs support maintenance on test equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 5 or more persons performing maintenance on electrical/electronic aircraft armament fire control subsystems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in basic electricity. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity and 2 in personnel supervision (11/75).

MOS-35K-001

AVIONICS MECHANIC

35K20

Exhibit Dates: 10/73-8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 353 (Avionics Maintenance).

Description

Skill Level 20: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; troubleshoots and maintains communications, navigation, and flight control systems, and onboard avionics equipment; isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

MOS-35K-002

AVIONIC MECHANIC

35K10

35K20

Exhibit Dates: 9/77-9/89. (Effective 9/89, MOS 35K was discontinued and its functions were incorporated into MOS 68N, Avionic Mechanic.)

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on communications, navigation, and flight control systems, and onboard avionics equipment. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35L-001

AVIONIC COMMUNICATIONS EQUIPMENT REPAIRMAN

35L20

Exhibit Dates: 10/73-8/77.

Career Management Field: 35 (Electrical/Electronic Equipment Maintenance), subfield 353 (Avionics Maintenance).

Description

Skill Level 20: Performs highly complex maintenance procedures on transistorized and vacuum tube avionic radio communications equipment; uses knowledge in basic electronics and schematic tracing to troubleshoot equipment; uses specialized hand tools and test equipment to perform diagnostic tests of malfunctions down to discrete circuit components; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces parts, performs repairs, or modifies equipment in compliance with technical manuals and modification orders; assists in the updating of maintenance manuals, records, and supply stock; assists in on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic AC and DC theory, 3 in basic AC and DC laboratory applications, 3 in radio communications theory, 3 in radio communications laboratory, 3 in transmitter/receiver repair, 1 in elementary algebra, 1 in basic amplifier circuit theory, and 1 in instrument applications laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in radio communications theory, 3 in introductory electronics, 1 in basic DC circuit theory, 1 in basic AC circuit theory, 1 in semiconductor theory, and additional credit in electronics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35L-002

AVIONIC COMMUNICATIONS EQUIPMENT REPAIRER

35L10

35L20

Exhibit Dates: 9/77-9/89. (Effective 9/89, MOS 35L was discontinued and its functions were incorporated into MOS 68L, Avionic Communications Equipment Repairer.)

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on avionic communications equipment. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill

Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35M-001

Avionic Navigation Equipment
Repairman

35M20

Exhibit Dates: 10/73–8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 353 (Avionics Maintenance.

Description

Skill Level 20: Performs preventive maintenance and repair to the component level on such items as marker beacons, radio direction finders, VOR and glidescopes, omnirange receivers, position fixers, airborne TACAN, and ground beacons; locates and diagnoses causes of equipment malfunction or nonfunction with common and specialized handtools and test equipment; determines repair procedures; interprets schematic diagrams and technical literature; traces circuitry; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces faulty assemblies and components; test-operates repaired equipment for proper functioning; alters or modifies equipment using prescribed procedures; performs preventive maintenance on tools and test equipment; inspects completed work for accuracy and completeness; keeps maintenance records and completes supply forms.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics, 6 in avionic instrumentation, 3 in basic AC/DC theory, 3 in basic AC/DC laboratory applications, 2 in systems maintenance and repair, and 1 in elementary algebra. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 2 in electronic systems, 1 in DC circuit analysis, 1 in AC circuit analysis, 1 in electronic devices, 1 in instrumentation, and additional credit in electronics and technical mathematics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35M-002

Avionic Navigation and Flight
Control Equipment Repairer

35M10

35M20

Exhibit Dates: 9/77–9/89. (Effective 9/89, MOS 35M was discontinued and its functions were incorporated into MOS 68Q, Avionic Flight Systems Repairer.)

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs preventive maintenance on avionic navigation and flight control equipment, including marker beacons, radio direction finders, VOR and glidescope receivers, automatic flight control, stability augmentation, automatic stabilization, radar altimeter, aircraft magnetic compass and altitude-heading equipment. *Skill Level 10:* Localizes and diagnoses causes of equipment malfunction or nonfunction with common and specialized hand tools and test equipment; replaces fuses, burned-out lamps, test equipment batteries, worn cords, cables, and other faulty components or individual parts; traces circuitry; tests, aligns, and adjusts equipment to insure maximum operating efficiency; test-operates repaired equipment for proper functioning; alters or modifies material in accordance with modification work orders and prescribed procedures; schedules and performs operator maintenance on tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in basic electronics, 6 in avionic instrumentation, 3 in basic AC/DC electronics theory, 3 in basic AC/DC electronics laboratory applications, and 2 in systems maintenance and repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 1 in DC circuit analysis, 1 in AC circuit analysis, 2 in electronic systems, 1 in electronic devices, 1 in instrumentation, and credit in technical mathematics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for a technical elective (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 3 semester hours for a technical elective and 4 in aviation maintenance management (5/78).

MOS-35N-001

Avionic Flight Control Equipment
Repairman

35N20

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 35N was discontinued and its functions were incorporated into MOS 35M, Avionic Navigation and Flight Control Equipment Repairer, and MOS 35P, Avionic Equipment Maintenance Supervisor.)

Career Management Field: 35 (Electrical/Electronic Equipment Maintenance), subfield 353 (Avionics Maintenance).

Description

Skill Level 20: Performs complex maintenance procedures on avionic flight systems, such as automatic flight control, stability augmentation, aircraft magnetic compass, and computer-assist navigational equipment; troubleshoots equipment using concepts in basic electronics, electromechanical devices, and schematic tracing; uses specialized handtools and test equipment to perform diagnostic tests of malfunctions down to discrete circuit components; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces parts and performs repairs or modifications on equipment in accordance with specified standards; assists in the updating of maintenance manuals, records, and supply stock; assists in on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in radio frequency circuit analysis, 3 in radio frequency circuit laboratory applications, 3 in basic AC/DC theory, 3 in basic AC/DC laboratory applications, 2 in electromechanical systems, 1 in elementary algebra, 1 in basic amplifier circuit concepts, and 1 in instrument applications laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics theory, 3 in basic electronics laboratory applications, 2 in electronic circuits and systems, 1 in elementary algebra, and additional credit in electronics and technical mathematics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) or in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35P-001

Avionic Equipment Maintenance
Supervisor

35P40

35P50

Exhibit Dates: 10/73–8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 353 (Avionics Maintenance).

Description

Summary: Supervises the maintenance of avionic equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 of at least one of the following MOS's: 35K (Avionics Mechanic), 35L (Avionic Communications Equipment Repairman), 35M (Avionic Navigation Equipment Repairman), 35N (Avionic Flight Control Equipment Repairman), 35R (Avionic Radar Equipment Repairman); assists in the diagnosis of complex malfunctions; inspects and checks maintenance work for adequacy and suitability; implements quality and production control procedures; assigns duties to personnel; instructs in maintenance practices, procedures, and techniques; conducts on-the-job training; assists in complex equipment modification. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises, administers, and coordinates all avionic maintenance activities for 30 or more mechanics and repairmen; plans and schedules maintenance; keeps equipment records; requisitions spare parts and supplies; reviews and takes appropriate action on all technical information and directives; provides technical advice.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in maintenance supervision and 3 in advanced electronics systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic communication devices, 3 in personnel supervision, and 3 in human relations (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management (3/76).

MOS-35P-002

AVIONIC EQUIPMENT MAINTENANCE SUPERVISOR

35P30

35P40

35P50

Exhibit Dates: 9/77–9/89. (Effective 9/89, MOS 35P was discontinued and its functions were incorporated into MOS's 68N, 68L, 68P, 68Q, 68R, and 67Z.)

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Supervises maintenance of aviation communications equipment and electrical/electronic systems equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of at least one of the following MOS's: 35K (Avionic Mechanic), 35L (Avionic Communications Equipment Repairer), 35M (Avionic Navigation/Flight Control Equipment Repairer), or 35R (Avionic Special Equipment Repairer); assists in the diagnosis of complex malfunctions; inspects and checks maintenance work for adequacy; implements quality and production control procedures; assigns duties to personnel; instructs in maintenance practices, procedures, and techniques; conducts on-the-job training; assists in complex equipment modifications; supervises from 5-10 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of at least one of the following MOS's: 35P, 26D (Ground Control Approach Radar Repairer), 26E (Aerial Surveillance Sensor Repairer), 26K (Aerial Electronic Warning/Defense Equipment Repairer), or 26M (Aerial Surveillance Radar Repairer); supervises, administers and coordinates aviation communications and electrical/electronic systems equipment maintenance activities; plans and schedules maintenance; supervises the maintenance of equipment records and the requisition of spare parts and supplies; supervises from 8-29 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises, administers, and coordinates all avionic maintenance activities for 30 or more mechanics and repairers; assists in preparation of plans, policies, and procedures for maintenance operations; applies production, quality control, and other maintenance management principles and procedures.

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in advanced electronics systems and 3 in maintenance supervision. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic communications, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hour for field experience in management, 3 in shop management, and 3 in introduction to management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management (5/78).

MOS-35R-001

AVIONIC RADAR EQUIPMENT REPAIRMAN

35R20

Exhibit Dates: 10/73–8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 353 (Avionics Maintenance).

Description

Skill Level 20: Inspects, tests, and performs preventive maintenance and repair to the module and component level on items such as radar altimeters, terrain following/avoidance radars, doppler navigation radars, and station-keeping radars; test-operates malfunctioning equipment; refers to circuit diagrams; performs detailed tests using voltmeters, ohmmeters, signal generators, oscilloscopes, and other test instruments to localize and isolate the faulty stage or component; determines extent of maintenance required; replaces faulty components to include transistors, solid-state devices, electronic switches, resistors, and capacitors; adjusts relays, dials, and controls using common or specialized handtools; cleans components of dust, rust, and foreign matter; test-operates, aligns, and comparison-checks repaired equipment with specialized test equipment; alters or modifies equipment using prescribed procedures; advises superiors about modifications and maintenance changes; keeps tools and test equipment in operating condition; keeps and completes maintenance and supply forms.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics, 6 in basic electronics laboratory applications, 6 in avionics instrumentation, 2 in systems maintenance and repair, and 1 in elementary algebra. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 2 in electronic systems, 1 in DC circuit analysis, 1 in AC circuit analysis, 1 in electronic devices, 1 in instrumentation, 1 in radar systems, and additional credit in electronics and technical mathematics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) or 3 in technical electives. In an electrician or electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-35R-002

AVIONIC SPECIAL EQUIPMENT REPAIRER

35R10

35R20

Exhibit Dates: 9/77–9/89. (Effective 9/89, MOS 35R was discontinued and its functions were incorporated into MOS 68R, Avionic Radar Repairer.)

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on special avionics equipment, including terrain following avoidance radar, doppler navigation radar, weather radar, station keeping radar, and inertial navigation systems. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35S-001

ELECTRONIC BIOMEDICAL EQUIPMENT REPAIRMAN

35S20

35S40

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 354 (Medical Equipment Maintenance).

Description

Summary: Repairs or supervises the repair of complex medical equipment (with the exception of x-ray and ancillary equipment) that functions on the basis of electrical, electronic, hydraulic, pressurized gas, steam, and optical principles. *Skill Level 20:* Able to perform the duties required for Skill Level 20 MOS 35G (Biomedical Equipment Repairman); assembles, inspects, installs, adjusts, lubricates, and test-operates medical equipment, including electrocardiographs, electroencephalographs, patient monitoring systems, pulmonary equipment, short-wave diathermy apparatus, blood cell counters, spectrophotometers, ultrasonic therapy and treatment apparatus, heart-lung machines, and radioisotope monitoring and measuring equipment; troubleshoots faulty equipment using volt-ohm-milliameters, signal generators, oscilloscopes, solid-state testing apparatus, and other test equipment; repairs faulty equipment and insures proper calibration; renders technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, and technical literature; prepares maintenance forms and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises repair, inspection, and testing of electronic medical equipment; assigns duties to subordinate personnel and instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; prepares reports of unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in medical equipment repair, 5 in technical mathematics, 3 in AC theory and laboratory, 3 in tube theory and laboratory, 3 in DC theory and laboratory, 3 in transistor theory and laboratory, 3 in instrumentation techniques, 3 in physics, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours in medical equipment repair, 5 in technical mathematics, 3 in AC theory and laboratory, 3 in tube theory and laboratory, 3 in DC theory and laboratory, 3 in transistor theory and laboratory, 3 in instrumentation techniques, 3 in physics, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices and procedures. In the upper-division baccalaureate category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in medical equipment repair, 5 in technical mathematics, 3 in tube theory and laboratory, 3 in DC theory and laboratory, 3 in AC theory and laboratory, 3 in transistor theory and laboratory, 3 in instrumentation techniques, 3 in physics, 3 in shop practices, 2 in personnel supervision, 2 in human relations, 2 in digital theory and laboratory, 2 in chemistry, 2 in anatomy and physiology, 2 in maintenance management, 2 in technical report writing, 1 in medical terminology, and 1 in medical equipment safety practices and procedures. In the upper-division baccalaureate category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

MOS-35S-002

ELECTRONIC BIOMEDICAL EQUIPMENT
REPAIRER
35S10
35S20
35S30

Exhibit Dates: 3/78–2/80. (Effective 3/80, MOS 35S was discontinued and its functions were incorporated into MOS 35U, Biomedical Equipment Specialist, Advanced.)

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Repairs or supervises the repair of complex medical equipment (with the exception of x-ray and ancillary equipment) that functions on the basis of electrical, electronic, hydraulic, pressurized gas, steam, and optical principles. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 35G (Biomedical Equipment Repairer); assembles, inspects, installs, adjusts, lubricates, and test-operates medical equipment, including electrocardiographs, electroencephalographs, patient monitoring systems, pulmonary equipment, short-wave diathermy apparatus, blood cell counters, spectrophotometers, ultrasonic therapy and treatment apparatus, heart-lung machines, and radioisotope monitoring and measuring equipment; troubleshoots faulty equipment using volt-ohm-milliameters, signal generators, oscilloscopes, transistor testing apparatus, and other test equipment; repairs faulty equipment and insures proper calibration. *Skill Level 20:* Able to perform the duties required for Skill Level 10; renders technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, and technical literature; prepares maintenance forms and reports. NOTE: May have progressed to 35S20 from 35S10 or 35G20 (Biomedical Equipment Repairer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises repair, inspection, and testing of electronic medical equipment; assigns duties to lower skill level personnel and instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; prepares reports of unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in medical terminology, 2 in chemistry, 3 in physics, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 4 in medical equipment repair, and 3 in electronics shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 4 in medical equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, and 3 in physics, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in medical terminology, 2 in chemistry, 3 in physics, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 4 in medical equipment repair, and 3 in electronics shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 4 in medical equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, and 3 in physics, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in medical terminology, 2 in chemistry, 3 in physics, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 6 in medical equipment repair, and 3 in electronics shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 6 in medical equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, 3 in physics, 3 in personnel supervision, 2 in human relations, and 2 in technical report writing, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation (11/79).

MOS-35T-001

X-RAY BIOMEDICAL EQUIPMENT
REPAIRMAN
35T20
35T40

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 354 (Medical Equipment Maintenance).

Description

Summary: Repairs all types of medical x-ray equipment which functions on the basis of mechanical, hydraulic, electrical, electronic, solid state, and optical principles. *Skill Level 20:* Able to perform the duties required for Skill Level 20 of MOS 35G (Biomedical Equipment Repairman); inspects, installs, adjusts, maintenance-calibrates, test-operates, rebuilds, and maintains all types of x-ray equipment and ancillary equipment such as rapid film changers, dye contrast injection apparatus, cineradiography, closed-circuit television, and image intensifiers; employs test equipment such as volt-ohm-milliameters, vacuum tube or solid-state voltmeters, digital voltmeters, signal generators, and oscilloscopes to localize malfunction to the component level; determines utility requirements such as water, waste, or electrical lines and outlets for equipment; provides technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, technical literature, and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assigns duties to subordinate personnel; instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in tube theory and laboratory, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 3 in physics, 3 in instrumentation techniques, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices. In the lower-division baccalaureate/associate degree category, 5 semester hours in technical mathematics, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in tube theory and laboratory, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 3 in physics, 3 in instrumentation techniques, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices. In the upper-division baccalaureate category and in the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 5 semester hours in technical mathematics, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in tube theory and laboratory, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 3 in physics, 3 in instrumentation techniques, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 2 in personnel supervision, 2 in human relations, 2 in technical report writing, 2 in maintenance management, 1 in medical terminology, and 1 in medical equipment safety practices. In the upper division baccalaureate category and in the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

MOS-35T-002

X-Ray Biomedical Equipment Repairer

35T10
35T20
35T30

Exhibit Dates: 3/78–2/80. (Effective 3/80, MOS 34T was discontinued and its functions were incorporated into MOS 35U, Biomedical Equipment Specialist, Advanced.)

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Repairs all types of x-ray equipment, including subsystems based on mechanical, hydraulic, electrical, electronic, and optical principles. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 35G (Biomedical Equipment Repairer); inspects, installs, adjusts, calibrates, tests, and maintains all types of x-ray equipment and ancillary equipment including rapid film changers, dye contrast inspection apparatus, cineradiography, closed circuit television and image intensifiers; uses test equipment including volt-ohm-milliameters, vacuum tube or solid-state voltmeters, digital voltmeters, transistor checkers, signal generators, and oscilloscopes; keeps equipment maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. NOTE: May have progressed to 35T20 from 35T10 or 35G20 (Biomedical Equipment Repairer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns duties; instructs in proper repair procedures; ensures proper maintenance of records; prepares technical and administrative reports pertaining to unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, and repair of equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in physics, 2 in chemistry, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 4 in x-ray equipment repair, and 3 in electronics shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, [illegible] in electrical/electronics construction methods, 1 in electrical safety, 4 in x-ray equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, and 3 in physics, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10.

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in physics, 2 in chemistry, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistory theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 6 in x-ray equipment repair, and 3 in electronics shop practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 6 in x-ray equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, 3 in physics, 3 in personnel supervision, 2 in human relations, and 2 in technical report writing, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation (11/79).

MOS-35U-001

Biomedical Equipment Maintenance Chief

35U50

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), subfield 354 (Medical Equipment Maintenance).

Description

Skill Level 50: Able to perform the duties required for Skill Level 40 of MOS 35S (Electronic Biomedical Equipment Repairman) or 35T (X-Ray Biomedical Equipment Repairman); serves as a first-line supervisor in a medical equipment maintenance section; supervises all levels of maintenance on all types of medical equipment; plans and lays out medical maintenance facilities; plans workflow, assigns duties, and instructs in maintenance work techniques; makes periodic checks of equipment to determine degree of maintenance effectiveness; establishes and maintains procedures to assure an effective preventive maintenance program for medical equipment; enforces hospital safety directives that apply to medical equipment and associated electronic test equipment; reacts expeditiously to emergency breakdowns of equipment utilized in electrically sensitive patient areas; supervises or assists in establishing reports control system, preparation of equipment maintenance reports, and surveys of medical equipment; provides advice on the advantages of contract maintenance versus in-house maintenance for specific medical systems; advises procurement personnel on function and safety capabilities of technical medical equipment and systems; recommends replacement of medical equipment based upon usage factors and personal experience.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management, 3 in personnel supervision, 3 in technical report writing, and 3 in shop management. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in industrial arts education (electronics), and additional credit in biomedical engineering on the basis of institutional evaluation. In the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation. NOTE: Award additional credit on the basis of previously assigned MOS–either 35S40 (Electronic Biomedical Equipment Repairman) or 35T40 (X-ray Biomedical Equipment Repairman) (6/76).

MOS-35U-002

Biomedical Equipment Maintenance Chief

35U40
35U50

Exhibit Dates: 3/78–2/80.

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Supervises maintenance on all types of medical equipment. *Skill Level 40:* Able to perform the duties required for MOS 35S (Electronic Biomedical Equipment Repairer) or MOS 35T (X-ray Biomedical Equipment Repairer); establishes procedures for the proper operation and maintenance of biomedical equipment; ensures that all test and measuring equipment is calibrated properly; plans workflow and assigns duties; conducts in-service training programs; establishes maintenance and inventory records; advises and assists superiors in administrative, fiscal, personnel and supply matters; monitors requisitioning, storage, issue, and utilization of supplies and equipment. NOTE: May have progressed to 35U40 from 35S30 (Electronic Biomedical Equipment Repairer) or 35T30 (X-ray Biomedical Equipment Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises medical equipment maintenance operations; writes, develops, and coordinates regulations and policies pertaining to biomedical instrumentation material maintenance programs; provides guidance to subordinate units in the development of annual training programs; determines need for and schedules personnel for attendance at specialized manufacturer's courses; serves as team chief for medical maintenance assistance and instruction teams.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management and 3 in record keeping. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, and 3 in personnel management, and credit in biomedical engineering on the basis of institutional evaluation (11/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in record keeping, 3 in public speaking, and 3 in technical writing. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, 6 in personnel management, and 6 in industrial arts education (electronics), and credit in biomedical engineering on the basis of institutional evaluation (11/79).

MOS-35U-003

BIOMEDICAL EQUIPMENT SPECIALIST, ADVANCED

35U20
35U30
35U40
35U50

Exhibit Dates: 3/80–Present.

Career Management Field: 91 (Medical), subfield 915 (Biomedical Equipment Repair).

Description

Summary: Provides periodic scheduled service and repairs all types of medical equipment which employ mechanical, hydraulic, high- and low-pressure gas and steam, electrical, electronic, solid state, digital, logic, radiological, and optical principles or supervises biomedical equipment repair functions. *Skill Level 20:* Must be able to perform duties of Biomedical Equipment Specialist, Basic (35G10); provides periodic scheduled service and repairs medical equipment which employ mechanical, hydraulic, high- and low-pressure gas and steam, electrical, electronic, solid state, digital, logic, radiological, and optical principles; develops sequence of operating events from schematic diagrams; unpacks, inspects, inventories, assembles, calibrates, installs, adjusts, cleans, lubricates, repairs, and tests all types of biomedical equipment such as electrocardiographs, electroencephalographs, patient monitoring systems, pulmonary equipment, diathermy apparatus, blood cell counters, spectrophotometers, ultrasonic therapy and treatment apparatus, heart-lung machines, radioisotope monitoring and measuring equipment, and X-ray systems with ancillary equipment such as tables, rapid film changers, dye contrast injection apparatus, automatic film processors, cinerography, closed circuit television, and image intensifiers; utilizes knowledge of electrical/electronic theory, including function of solid state devices, integrated circuits, servo systems, photoelectric cells, instrumentation and automation, digital principles, readout systems, and vacuum, cathode-ray, and X-ray tubes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance and supervision to Skill Level 20 personnel; develops and establishes procedures for operation of biomedical equipment maintenance activity; establishes and maintains procedures to assure effective preventive maintenance program; assures that test diagnostic and measuring equipment is calibrated in conformance with Army calibration program; determines personnel requirements; organizes work schedules; assigns duties; instructs in maintenance techniques; monitors personnel performance; counsels subordinates; prepares evaluation reports; ensures adherence to standards of conduct, cleanliness, technical accuracy, and safety regulations in all areas of activity; prepares and conducts in-service training programs; advises and assists in administrative, fiscal, personnel, and supply matters; advises commander on specific medical systems, including requirement for utilities, and advantages and disadvantages of contract versus in-house maintenance; advises procurement personnel of functional and safety aspects of technical medical equipment and systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises organizational, direct, and general support maintenance of biomedical equipment; organizes and supervises inspection and maintenance teams. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises medical equipment maintenance operations; writes, develops, and coordinates command-wide regulations and policies relating to logistical material maintenance programs; provides technical information and guidance to subordinate units; participates in review and approval of subordinate unit submissions; evaluates unit maintenance programs and institutes methods for upgrading such programs; monitors utilization of medical equipment maintenance personnel and associated material assets of subordinate units; determines need for and schedules personnel for attendance at specialized manufacturers' courses; performs as team chief for medical maintenance assistance and instruction teams.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in technical mathematics, 3 in DC circuits and laboratory, 3 in AC circuits and laboratory, 1 in medical terminology, 3 in physics, 3 in transistor laboratory and theory, 3 in electronic circuit theory, 3 in instrumentation, 2 in digital theory, 1 in medical equipment safety practices, 3 in electronics shop practices, 3 in x-ray equipment repair, and 3 in medical equipment repair. In the lower-division baccalaureate/associate degree category, 1 semester hour in medical terminology, 3 in AC/DC circuits theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronic construction methods, 1 in electrical safety, 3 in instrumentation, 2 in digital theory, 3 in x-ray equipment repair, and 3 in medical equipment repair (10/82).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in technical mathematics, 3 in DC circuits and laboratory, 3 in AC circuits and laboratory, 1 in medical terminology, 3 in physics, 3 in transistor laboratory and theory, 3 in electronic circuit theory, 3 in instrumentation, 2 in digital theory, 1 in medical equipment safety practices, 3 in electronics shop practices, 6 in x-ray equipment repair, and 6 in medical equipment repair. In the lower-division baccalaureate/associate degree category, 1 semester hour in medical terminology, 3 in AC/DC circuits theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronic construction methods, 1 in electrical safety, 3 in instrumentation, 2 in digital theory, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in personnel supervision, 2 in human relations, and 2 in technical writing (10/82).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 1 semester hour in medical terminology, 3 in AC/DC circuits theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronic construction methods, 1 in electrical safety, 3 in instrumentation, 2 in digital theory, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in personnel supervision, 2 in human relations, 2 in technical writing, 3 for field experience in management, and 3 in record keeping. In the upper-division baccalaureate category, 3 semester hours in industrial psychology, 3 in introduction to management, and 3 in personnel management (10/82).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 1 semester hour in medical terminology, 3 in AC/DC circuits theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronic construction methods, 1 in electrical safety, 3 in instrumentation, 2 in digital theory, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in personnel supervision, 2 in human relations, 3 in technical writing, 3 for field experience in management, 3 in recordkeeping, and 3 in public speaking. In the upper-division baccalaureate category, 3 semester hours in industrial psychology, 3 in introduction to management, 6 in personnel management, and 6 in industrial arts education (electronics) (10/82).

MOS-36C-001

TELEPHONE INSTALLER AND LINEMAN (LINEMAN)

36C20
36C40
36C50

Exhibit Dates: 10/73–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Can identify tools, materials, hardware, and supply nomenclature used in wood pole construction and, to a limited extent, in formal underground systems; climbs and works on wood structures, using tools and techniques compatible with industry practice; has some knowledge of telephone line cable practices; MOS 36C equates directly with the trade classification of installer as used by both the telephone and cable television industries. *Skill Level 20:* Knows line work processes, including safety practices, first aid procedures, and tools and equipment nomenclature; performs maintenance on wood pole lines and, to a limited degree, formal underground systems. *Skill Level 40:* Able to perform the duties required for Skill Level 20; functions as a telephone installer crewleader, supervising from 8 to 32 persons (one to four pole line construction teams); makes routine maintenance checks from a prescribed list; uses some specialized installation and operational techniques; records work and personnel information. NOTE: May have progressed to 36C40 from 36C20 or 36K40 (Tactical Wire Operations Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; could serve as a telephone installer foreman, if this position existed in industry, or as an installer-dispatcher with a large telephone system; installs and repairs cables; follows circuit charts; prepares technical and administrative reports; keeps limited records; supervises training. NOTE: May have progressed to 36C50 from 36C40, 36D40, 36D50 (Antennaman), 36E40 (Cable Splicer), or 36H50 (Dial Central Office Repairman).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen). In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in telephone installation. In a telephone lineman or cable television apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction lineman or a utility lineman apprentice training program, 500 clock hours of experience and 30 contact hours of related instruction. In a telephone cable splicer or a network lineman apprentice training program, 250 clock hours of experience and 20 contact hours of related instruction. NOTE: The skills and knowledge of this MOS classification are usually regarded by industry as achieved by a trainee program rather than through formal apprenticeship (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, 2 for field experience in education, and 3 in personnel supervision. In a telephone lineman or a cable television apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction lineman or a utility lineman apprentice training program, 500 clock hours of experience and 30 contact hours of related instruction. In a telephone cable splicer or a network lineman apprentice training program, 250 clock hours of experience and 20 contact hours of related instruction. NOTE: The skills and knowledge of this MOS classification are usually regarded by industry as achieved by a trainee program rather than through formal apprenticeship (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 6 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 6 in personnel supervision, 4 in telephone installation, and 4 for field experience in education. In a telephone lineman or cable television apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction lineman or utility lineman apprentice training program, 500 clock hours of experience and 30 contact hours of related instruction. In a telephone cable splicer or a network lineman apprentice training program, 250 clock hours of experience and 20 contact hours of related instruction. NOTE: The skills and knowledge of this MOS classification are usually regarded by industry as achieved by a trainee program rather than through formal apprenticeship (2/75). In March 1976, 35C50 was reevaluated and the following additional recommendation was made: In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, and 3 in human relations; if the duty assignment was first sergeant or operations sergeant at paygrade E-8, 3 additional semester hours in personnel management; and/or if the duty assignment was chief instructor at a formal training facility or chief training NCO at paygrade E-9, 3 additional semester hours for an internship in education (3/76).

MOS-36C-002

WIRE SYSTEMS INSTALLER/OPERATOR

36C10

36C20

36C30

36C40

36C50

Exhibit Dates: 3/78–8/83.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, supervises, and performs operator maintenance on wire and cable communications systems. MOS 35C equates directly with the trade classification of installer as used by both the telephone and cable television industries. *Skill Level 10:* Installs and operates telephones and switchboards; installs, splices, and loads wire and cable circuits; climbs poles to perform cable operations. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises installation, operation, and performance of operator maintenance by subordinate personnel; schedules operator shift personnel, and estimates material needs for tactical communications installations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; coordinates and supervises all phases of wire/cable and distribution systems; assigns working crews and coordinates shift personnel; instructs and assists in training unit personnel; may supervise 7-15 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all phases of wire/cable installation and operations; coordinates shift personnel; prepares reports on installation and maintenance; coordinates and supervises training; may supervise 30 or more persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, monitors, and/or supervises installation, operation, maintenance, and training of personnel for wire and cable communications systems; may serve as principal noncommissioned officer; could serve as a telephone installer foreman, if this position existed in industry, or as an installer-dispatcher with a large telephone system.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen). In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in telephone installation (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, and 2 in personnel supervision (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, and 3 in personnel supervision (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, 3 in personnel supervision, and 2 in instructional techniques. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in introduction to management (10/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 6 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 6 in personnel supervision, 4 in telephone installation, and 4 in instruction techniques. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in human relations; if the duty assignment was first sergeant or wire systems operations sergeant, 3 additional semester hours in personnel management (10/79).

MOS-36C-003

Wire System Installer

36C10
36C20
36C30
36C40

Exhibit Dates: 9/83–9/87. (Effective 9/87, MOS 36C was discontinued and its functions were incorporated into MOS 31Y, Communications Systems Supervisor and MOS 31L, Wire Systems Installer.)

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Performs or supervises the installation, operation, and maintenance of wire and cable communication systems, and auxiliary equipment; operates a variety of heavy construction equipment. *Skill Level 10:* Installs, operates, and performs operator maintenance on wire and cable systems, including auxiliary equipment; climbs poles; clears and maintains rights of way; assists in the construction of tactical wire/cable and pole lines; operates construction equipment; maintains and tests cable communication system using a variety of test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; coordinates and supervises team member activities in construction, installation, and maintenance of wire/cable systems; coordinates logistic requirements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and coordinates all phases of construction, installation, and maintenance of wire/cable systems; schedules workload; estimates time, supplies, personnel, and equipment requirements; checks maintenance performed by lower-skill-level personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all phases of wire and cable communication system construction, installation, operation, and maintenance performed by lower-skill-level personnel; plans and conducts training and prepares all required reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electronic testing procedures (2/84).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic testing procedures and 3 in construction technology/heavy equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction technology/heavy equipment and 3 in personnel supervision (2/84).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronic testing procedures and 3 in construction technology/heavy equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction technology/heavy equipment, 3 in personnel supervision, and 3 in plant management (2/84).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronic testing procedures and 3 in construction technology/heavy equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction/heavy equipment, 3 in personnel supervision, 3 in plant management, and 3 in principles of management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (2/84).

MOS-36D-001

Antennaman

36D20
36D40
36D50

Exhibit Dates: 3/74–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Erects, anchors, and braces antenna towers complete with electrically controlled directional or fixed antennas; makes electrical connections of control and transmission cables between antennas and ground equipment; inspects, repairs, and tests electrical devices used to rotate antennas. *Skill Level 20:* Performs basic precedures and techniques involved in the installation of pole and steel tower antennas; bores holes and erects poles using motorized equipment; transports, assembles, and disassembles antenna towers using manual and motorized equipment; constructs antenna base and braces towers; adjusts tower guy wires for proper tension; has a basic knowledge of tower and antenna configuration for different operational requirements. *Skill Level 40:* Able to perform the duties required for Skill Level 20; organizes, supervises, and coordinates antenna installation, maintenance, and rehabilitation; instructs 8-30 subordinate antennamen in approved techniques for antenna installation and maintenance; estimates time, supplies, personnel, and equipment required for installation of antennas and towers. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer of an antenna maintenance team in a unit operating independently (without an officer); performs technical and administrative duties including writing reports, providing technical guidance to personnel related to complex construction and rehabilitation of antenna installations, and interpreting new technical literature.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in heavy equipment operation (boring and tower erection equipment), 3 in basic electricity (DC circuits), 3 in basic electrical motors and servos, and 3 in antennas (basic electronics). In the lower-division baccalaureate/associate degree category, 3 semester hours in heavy equipment operation (boring and tower erection equipment), 3 in basic electricity (DC circuits), 3 in basic electrical motors and servos, and 3 in antennas (basic electronics). In a radio-television repairman apprentice training program, 500 clock hours of experience in antenna installation and maintenance (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in heavy equipment operation (boring and tower erection equipment), 3 in basic electricity (DC circuits), 3 in basic electrical motors and servos, 3 in antennas (basic electronics), 3 in introduction to management, and 3 in human relations. In a radio-television repairman apprentice training program, 500 clock hours of experience in antenna installation and maintenance (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management. In a radio-television repairman apprentice training program, 500 clock hours of experience in antenna installation and maintenance (3/76).

MOS-36D-002

Antenna Installer Specialist

36D10
36D20
36D30
36D40

Exhibit Dates: 3/78–2/84. (Effective 3/84, MOS 36D was discontinued and its functions were incorporated into MOS 36C, Wire System Installer, with ASI F2, Antenna Installation.)

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Selects site, erects, anchors and braces antenna towers and antenna systems; makes connections of transmission cable or waveguide between antenna and ground equipment; inspects and performs preventive maintenance and repairs on towers and bases. *Skill Level 10:* Performs basic procedures of antenna tower erection; assists in determining proper site, constructing base and antenna support towers, adjusting guy wires for correct tension; uses motorized equipment for drilling base holes and erecting towers and poles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs basic procedures of installation of pole and steel tower antennas; bores holes and erects poles using motorized equipment; transports, assembles and disassembles antenna towers; attaches and adjusts guy wires and braces; has basic knowledge of tower and antenna configuration for different operational requirements and climatic conditions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; organizes, supervises, and coordinates antenna installation, maintenance, and repair; instructs subordinate antennamen in approved techniques for antenna installation and maintenance; estimates time, supplies, equipment, and personnel necessary for tower installation or repair; may supervise 3 or more antenna installers. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs technical and administrative duties attached to performance of the duty of team chief; supervises 3 or more antenna crews or 8 or more installer specialists; writes reports, provides technical guidance to personnel on maintenance, installation, and interpretation of new techical literature; supervises on-the-job training of antenna team.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electricity, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity, 3 in antenna maintenance, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, 2 in human relations, 2 in maintenance management, and 2 in personnel supervision, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, 3 in human relations, 3 in maintenance management, and 3 in personnel supervision, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/79).

MOS-36E-001

CABLE SPLICER

36E20
36E40

Exhibit Dates: 10/73-2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Splices all types of communication cables. *Skill Level 20:* Prepares, tests, and joins insulated conductors in multiple-conductor cables; splices and seals spliced openings on nonquadded, quadded, coaxial, and video cables in aerial, trenched, underground, submarine, or buidling installations; tests, troubleshoots, and repairs pressurized and nonpressurized multiconductor telephone cable; locates and installs cable terminals; terminates and connects cables to distribution boxes and distribution frames; operates mechanical ladders and hydraulic booms; climbs poles and operates pump equipment; repairs cables and cable terminals, complying with standard splicing practices and safety procedures; interprets line route maps, overlays, circuit diagrams, detail splice diagrams, cable route prints, cable plant records, splicing diagrams, and symbols commonly used in cable communications system diagrams; employs cable splicer handtools, electrical test sets, cable splicer auxiliary equipment, and common construction tools. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 4-10 cable splicers; demonstrates splicing techniques and procedures; interprets specifications on the construction of manholes, cable vaults, and cable huts; prepares central office cable records, detail splicing diagrams, and cable route prints; reviews, consolidates, and prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical cable installation and 3 in electronics fundamentals (DC circuits). In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation and 3 in electronics fundamentals (DC circuits). In a cable splicer apprentice training program, 500 clock hours of experience (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation, 3 in electronics fundamentals (DC circuits), 3 in introduction to management, and 3 in human relations. In a cable splicer apprentice training program, 500 clock hours of experience (3/76).

MOS-36E-002

CABLE SPLICER

36E10
36E20
36E30

Exhibit Dates: 3/78-2/84. (Effective 3/84, MOS 36E was discontinued and its functions were incorporated intp MOS 36C, Wire Systems Installer, with ASI F6, Cable Splicing.)

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Splices various types of communication cable. *Skill Level 10:* Prepares, tests, and joins insulated conductors in multiple-conductor cables; splices and seals spliced openings on nonquadded and quadded cables in aerial, trenched, underground, and building installations (and possibly submarine installations); tests, troubleshoots, and repairs pressurized and nonpressurized multiconductor telephone cable; locates and installs cable terminals; terminates and connects cables to distribution boxes and distribution frames; operates mechanical ladders and hydraulic booms; climbs poles and operates pump equipment; repairs cables and cable terminals, complying with standard splicing practices and safety procedures; interprets line route maps, overlays, circuit diagrams, cable route prints, cable plant records, splicing diagrams, detail splice diagrams, cable route prints, cable plant records, splicing diagrams, and symbols commonly used in cable communications system diagrams; employs cable splicer hand tools, electrical test sets, cable splicer auxiliary equipment, and common construction tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; directs personnel concerning compliance with standard and local splicing practice; locates cable faults using specialized equipment and directs personnel in the repair of the faults. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises 4-10 cable splicers; demonstrates splicing techniques and procedures; interprets specifications on the construction of manholes, cable vaults, and cable huts; prepares central office cable records, detail splicing diagrams, and cable route prints; reviews, consolidates, and prepares technical and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation and 3 in cable splicing techniques (9/81).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. (9/81).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical cable installation and 3 in cable splicing techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation, 3 in cable splicing techniques, and 3 in personnel supervision (9/81).

MOS-36G-001

MANUAL CENTRAL OFFICE REPAIRMAN

36G20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 36G was discontinued and its functions were incorporated into MOS 36H, Dial/Manual Central Office Repairer.)

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Skill Level 20: Maintains manual central office telephone exchange equipment; wires mainframe, switchboard, relay racks, and related units; performs minor maintenance on equipment including replacement or repair of broken wires, jumpers, and cables; adjusts openings between contacting parts; tests and changes spring tensions; conducts operating and electrical tests and compares results with specified standards; reconditions components, replaces parts, and rewires equipment; reads circuit and wiring diagrams; computes voltage, amperage, and resistance factors involving simple algebraic formulas.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity. Advanced standing in a telephone exchange repairman apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-36H-001

DIAL CENTRAL OFFICE REPAIRMAN

36H20
36H40
36H50

Exhibit Dates: 10/73-2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Installs, maintains, and repairs inside and outside plant dial telephone equipment. *Skill Level 20:* Installs wiring; mechanically secures mainframes; conducts tests; inspects, adjusts, and tests relays; troubleshoots and repairs or replaces defective components such as relays, wiring, and terminal boards; assists in identifying cable troubles. NOTE: May have progressed to 36H20 from 36G30 (Manual Central Office Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans installation, operation, and maintenance procedures and techniques; normally supervises 15 to 25 persons; allocates resources; interprets wiring diagrams, specifications, color-code charts, and technical literature pertaining to wire communications systems; demonstrates installation, operation, and maintenance techniques; diagnoses unusual cases of equipment malfunction. *Skill Level 50:* Able to perform the duties required for Skill Level 40; normally supervises more than 25 persons; statistically analyzes the system for planning and operational loading; prepares work schedules, directs record keeping, requisitions supplies; reviews, consolidates, and prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory. In a P.B.X. installer (telephone and telegraph) apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a telephone repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a central office installer-repairman apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic electricity/electronics with laboratory. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory, 3 in introduction to management, 3 in personnel supervision, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours in communications electricity and 3 for field experience in management. In a telephone repairman or P.B.X. installer (telephone and telegraph) apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a central office installer-repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in basic electricity/electronics with laboratory. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory, 3 in introduction to management, 3 in personnel supervision, 3 in human relations, and 3 in technical writing. In the upper-division baccalaureate category, 3 semester hours in communications electricity and 6 for field experience in management. In a telephone repairman or P.B.X. installer (telephone and telegraph) apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a central office installer-repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-36H-002

DIAL/MANUAL CENTRAL OFFICE REPAIRER

36H10
36H20
36H30
36H40

Exhibit Dates: 3/78–2/86. (Effective 3/86, MOS 36H was discontinued and its duties were incorporated into MOS 29N, Telephone Central Office Repairer, and MOS 32Z, Communications-Electronics Maintenance Chief.)

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs, maintains, and repairs central office telephone exchange equipment. *Skill Level 10:* Installs wiring; replaces or repairs system components; conducts operating and electrical tests; uses schematic diagrams to diagnose and locate malfunctions; uses general purpose and special electronic meters to test for signals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists Skill Level 10 personnel in locating and repairing system malfunctions; conducts technical inspection of central office equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation, operation, and maintenance of central office telephone exchange equipment; diagnoses unusual cases of equipment malfunction; prepares and maintains technical and administrative records and reports; prepares work schedules; may supervise from six to eight persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans for and supervises the installation, operation and maintenance activities; prepares work schedules and specific assignments; requisitions supplies; monitors and corrects faulty work procedures; advises superiors about optimum utilization; may supervise eight or more persons; may be in charge of several central offices.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid state circuits, and 2 in electronic communications (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in troubleshooting techniques, 3 in solid state circuits, and 4 in electronic communications (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid state circuits, and 4 in electronic communications. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid state circuits, 4 in electronic communications, 3 in maintenance management, 2 in personnel supervision, 3 in human relations, and 2 in recordkeeping. In the upper-division baccalaureate category, 2 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid state circuits, 4 in electronic communications, 3 in maintenance management, 3 in personnel supervision, 3 in human relations, and 3 in recordkeeping. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in office management (5/79).

MOS-36K-001

TACTICAL WIRE OPERATIONS SPECIALIST (FIELD WIREMAN)

36K20
36K40

Exhibit Dates: 10/73–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Installs and maintains field wire communications systems and performs related operating duties in field telephone centers. *Skill Level 20:* Installs and maintains field telephone and switchboards; climbs poles and constructs field wire lines; recovers and services field wire; uses grid and line route maps; employs lineman's common hand tools and testing devices; locates and repairs shorts, grounds, opens, and other damage in wire communications systems; operates switchboards and prepares, edits, transmits, and routes messages. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 4-8 field wiremen in the installation, operation, and maintenance of field wire communications systems; allocates resources and assigns workloads; demonstrates techniques of wire and cable installation and maintenance; interprets maps, overlays, and wire construction requirements.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC circuits) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity (DC current) and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC current), 3 in map reading, 3 in introduction to management, and 3 in human relations (3/76).

MOS-36K-002

TACTICAL WIRE OPERATIONS SPECIALIST

36K10
36K20

Exhibit Dates: 3/78–9/84. (Effective 9/84, MOS 36K was discontinued and its functions were incorporated into MOS 31K, Combat Signaler.)

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs and maintains field wire communications systems and performs related operating duties in field telephone centers. *Skill Level 10:* Installs field telephones and switchboards; climbs poles and constructs field telephones and switchboards; climbs poles and constructs field wire lines; recovers and services field wire; uses grid and line route maps; employs lineman's common hand tools; locates and repairs shorts, grounds, opens, and other damage in wire communications systems; operates switchboards and prepares, edits, transmits, and routes messages. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises 8 or more field wiremen in the installation, operation, and maintenance of field wire communications systems; allocates recources and assigns workloads; demonstrates techniques of wire and cable installation and maintenance; interprets maps, overlays and wire construction requirements.

Recommendation, Skill Level 10

Credit is not recommended because of the limited or specialized nature of the skills, competencies, and knowledge (9/81).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision (9/81).

MOS-36L-001

Electronic Switching Systems
Repairman

36L20
36L30

Exhibit Dates: 3/77-2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Installs and maintains automatic electronic switching equipment. *Skill Level 20:* Conducts and records results of visual and operational checks; interprets data to localize system malfunctions; performs maintenance on operator console; analyzes, troubleshoots, repairs, and replaces faulty equipment assemblies, subassemblies, and circuit cards; performs and interprets diagnostic tests; uses common and specialized measuring devices, test equipment, and handtools; conducts all operational tests in switching equipment to determine cause of complex malfunctions; initiates manual and programmed interconnections between subsystems and isolated malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and provides technical guidance to lower-skill-level personnel; analyzes and diagnoses complex subsystem malfunctions; inspects for correct maintenance procedures, techniques, and routines; programs control memory circuits.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), and 3 in microprocessor fundamentals. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), and 3 in microprocessor fundamentals (10/81).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), 3 in microprocessor fundamentals, and 3 in personnel supervision (10/81).

MOS-36L-002

Transportable Electronic Switching
Systems Repairer
(Electronic Switching Systems
Repairer)

36L10
36L20
36L30

Exhibit Dates: 3/78-3/81.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs and maintains automatic electronic switching equipment. *Skill Level 10:* Conducts and records results of visual and operational checks; interprets data to localize system malfunctions; performs maintenance on operator console; analyzes and troubleshoots, repairs and/or replaces faulty equipment assemblies, subassemblies, and circuit cards; performs and interprets diagnostic tests; employs common and specialized measuring devices, test equipment, and handtools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts all operational tests on switching equipment to determine the causes of complex malfunctions; initiates manual and programmed interconnections between subsystems and malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and provides technical guidance to lower-skill-level personnel; analyzes and diagnoses complex subsystem malfunctions; ensures that correct maintenance procedures, techniques, and routines are followed; programs control memory circuits.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, and 3 in systems maintenance (10/81).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), and 3 in microprocessor fundamentals. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), and 3 in microprocessor fundamentals (10/81).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in technical mathematics, 3 in electronic communications, 3 in digital fundamentals, 6 in systems maintenance, 3 in computer maintenance, 3 in programming (machine language), 3 in microprocessor fundamentals, and 3 in personnel supervision (10/81).

MOS-36L-003

Transportable Electronic Switching
Systems Operator/Maintainer
(Transportable Electronic Switching
Systems Repairer)

36L10
36L20
36L30

Exhibit Dates: 4/81-Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises, installs, operates, and performs maintenance on transportable automatic circuit switches and central office equipment and installed communication security devices; performs preventive maintenance on vehicles and power generators. *Skill Level 10:* Installs, initializes, and performs maintenance on automatic switching systems, automatic message switching central systems and ancillary equipment; uses specialized test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance and guidance regarding installation and operation; performs off-line adjustments of the equipment; maintains maintenance and repair records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns specific duties to skill level 10 and 20 personnel; establishes workload, work schedules, and priorities; responsible for quality control inspections; evaluates and counsels subordinates; provides technical assistance to subordinates; maintains technical library; initiates and maintains forms and records; responsible for records pertaining to repair parts; prepares and reviews administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 3 in electronic troubleshooting and repair. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 5 in electronic troubleshooting and repair, and 2 in recordkeeping. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 5 in electronic troubleshooting and repair, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (7/87).

MOS-36M-001

Wire Systems Operator

36M10

36M20

36M30

Exhibit Dates: 9/83–Present.

Career Management Field: 31 (Communications-Electronics Operation).

Description

Summary: Installs, operates, maintains, and supervises manual, semiautomatic and automatic switchboards, systems, telephone central offices, and auxiliary equipment. *Skill Level 10:* Installs, programs, initiates, operates, and performs operator and organizational maintenance on switchboards, telephone central offices, and assigned equipment; makes appropriate message log entries and uses route diagrams to handle proper switching procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises the installation, operation, and maintenance of switchboards, telephone central offices, assigned equipment, vehicles, and power generation equipment; trains and advises skill level 10 personnel on all assigned duties; monitors operator proficiency, responsiveness, cooperation, tact, and voice discipline; maintains station logs. *Skill Level 30:* Supervises, performs administrative functions, and coordinates the installation, operation, and maintenance performed by subordinate personnel; prepares work schedules and coordinates overall activities; conducts training and coordinates all phases of switchboard communications activities within the unit.

Recommendation, Skill Level 10

Credit is not recommended because of the limited or specialized nature of the skills, competencies, and knowledge. If ASI was J7, WHCA Console Control Operations, credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (2/84).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (2/84).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in principles of management. If ASI was J7, WHCA Console Control Operations, additional credit as follows: In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (2/84).

MOS-39B-001

Automatic Test Equipment Operator/Maintainer

39B10

39B20

39B30

Exhibit Dates: 7/86–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Operates, maintains, and supervises maintenance on automatic test equipment. *Skill Level 10:* Operates automatic test equipment. *Skill Level 20:* Able to perform the duties required for Skill level 10; maintains automatic test equipment; uses knowledge of digital electronics, microprocessors, and computer system concepts to troubleshoot equipment; uses oscilloscopes, meters, signal generators and logic probes to locate faults; keeps records on maintenance procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns specific duties to skill level 10 and 20 personnel; responsible for quality control inspections; evaluates and counsels subordinates; provides technical assistance to subordinates; maintains technical library; initiates and maintains forms and records; responsible for records pertaining to repair parts; prepares and reviews administrative reports.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 5 in electronic troubleshooting and repair, 3 in digital electronics, 3 in microprocessors, 3 in computer systems repair, and 2 in recordkeeping (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 5 in electronic troubleshooting and repair, 3 in digital electronics, 3 in microprocessors, 3 in computer systems repair, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management (7/87).

MOS-39C-001

Target Acquisition/Surveillance Radar Repairer

39C10

39C20

39C30

Exhibit Dates: 7/86–Present.

Career Management Field: 29 (Communications Electronics Maintenance).

Description

Summary: Performs or supervises maintenance on target acquisition and ground level surveillance radars and associated equipment. *Skill Level 10:* Uses oscilloscopes and multimeters to troubleshoot equipment to the component level; repairs equipment by adjusting, aligning, and replacing defective components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs complex maintenance tasks; provides technical assistance to skill level 10 personnel; keeps maintenance records and forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns specific duties to skill level 10 and 20 personnel; establishes workload, work schedules, and priorities; responsible for quality control inspections; evaluates and counsels subordinates; maintains technical library; initiates and maintains forms and records; responsible for records pertaining to repair parts; prepares and reviews administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 2 in electronic troubleshooting and repair (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 4 in electronic troubleshooting and repair, and 2 in recordkeeping (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 4 in electronic troubleshooting and repair, 2 in recordkeeping, 3 in principles of supervision, and 3 in maintenance management (7/87).

MOS-39D-001

Decentralized Automated Service Support System

39D10

39D20

39D30

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Communications Electronics Maintenance).

Description

Summary: Supervises or performs maintenance on a military version of a commercial data processing computer. *Skill Level 10:* Working under direct supervision, inspects, adjusts, and repairs computer system components including Central Processing Unit (CPU), disk drives, tape drives, video terminals, printers, modems, and card readers/punches; uses vendor-supplied diagnostic software to localize system malfunctions; uses vendor-supplied documentation and test equipment to repair to the board and component level; uses standard electronic test and measurement equipment to troubleshoot and repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and provides on-the-job training to lower skill level personnel, manages inventory control. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares, reviews and consolidates technical and administrative reports, maintains files, records, and technical library; assigns duties; establishes workload, work schedules, and repair priorities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, and 3 in computer systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 20
In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, and 6 in computer systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 30
In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, 6 in computer systems troubleshooting and maintenance, 3 in record keeping, 3 in principles of supervision, and 2 in maintenance management (6/88).

MOS-39E-001

SPECIAL ELECTRONIC DEVICES REPAIRER

39E10
39E20
39E30

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Communications Electronics Maintenance).

Description
Summary: Supervises or performs maintenance on specialized military combat equipment such as night vision, threat detection, and mine detection equipment; uses schematic diagrams and basic electronic troubleshooting skills in identifying and correcting malfunctions down to the component level; regularly updates maintenance manuals, records, and supplies. *Skill Level 10:* Working under direct supervision, inspects, adjusts, and repairs electronic surveillance, measurement, vision, and detection equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; assists in solving unique problems found in a wide range of equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares, reviews, and consolidates technical and administrative reports and requests; maintains files and records; assigns duties; establishes workload, work schedules, and repair priorities; conducts on-the-job training programs.

Recommendation, Skill Level 10
In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in basic electronics laboratory, and 3 in electronic systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 20
In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in basic electronics laboratory, and 6 in electronic systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 30
In the lower-division baccalaureate/associate degree category, 1 semester hour in AC circuits, 1 in DC circuits, 3 in basic electronics laboratory, 6 in electronic systems troubleshooting and maintenance, 3 in record keeping, 3 in principles of supervision, and 2 in maintenance management (6/88).

MOS-39G-001

AUTOMATED COMMUNICATIONS COMPUTER SYSTEMS REPAIRER

39G10
39G20
39G30

Exhibit Dates: 9/89–Present.

Career Management Field: 29 (Signal Maintenance).

Description
Summary: Performs maintenance and repair on computer systems (mainframes, minicomputers, and microcomputers) and related peripheral equipment including tape and disk drives, printers, CRT monitors, data/voice I/O equipment, and on measurement and test equipment; performs troubleshooting techniques including visual inspections, diagnostics, the use of built-in self-test equipment, and standard laboratory equipment such as oscilloscopes, logic probes, multimeters, logic analyzers, and time domain reflectometers. *Skill Level 10:* Performs repairs to the board level; may also perform component level repair; follows written procedures, schematics, and assembly language listings in troubleshooting procedures and diagnostics; performs modifications; repairs cables; requests parts; maintains service records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to subordinate personnel; tests repaired or modified equipment for compliance with specifications; requests logistical support; prepares and maintains technical and maintenance management records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes workloads, work schedules, and repair priorities; performs and supervises quality inspections; establishes and maintains on-the-job training programs; reviews technical and maintenance management reports; provides technical assistance to lower level maintenance and repair activities.

Recommendation, Skill Level 10
In the lower-division baccalaureate/associate degree category, 3 semester hours in digital fundamentals, 3 in electronic systems troubleshooting and maintenance, and 3 in solid state electronics (6/90).

Recommendation, Skill Level 20
In the lower-division baccalaureate/associate degree category, 3 semester hours in digital fundamentals, 3 in electronic systems torubleshooting and maintenance, 3 in solid state electronics, 3 in computer systems and organization, and 3 in computer systems troubleshooting and maintenance (6/90).

Recommendation, Skill Level 30
In the lower-division baccalaureate/associate degree category, 3 semester hours in digital fundamentals, 3 in electronic systems troubleshooting and maintenance, 3 in solid state electronics, 3 in computer systems and organization, and 3 in computer systems troubleshooting and maintenance, 3 in principles of supervision, and 3 in maintenance management (6/90).

MOS-39K-001

IBM AUTOMATIC DATA PROCESSING SYSTEMS REPAIRER

39K10
39K20
39K30

Exhibit Dates: 9/87–9/89. (Effective 9/89, MOS 39K was discontinued and its functions were incorporated into MOS 29J, Teletypewriter Equipment Repairer.)

Career Management Field: 29 (Communications Electronics Maintenance).

Description
Summary: Supervises or performs maintenance on a military version of a commercial data processing computer (IBM 360). *Skill Level 10:* Working under direct supervision, inspects, adjusts, and repairs computer system components including Central Processing Unit (CPU), tape drives, disk drives, video terminals, printers, modems, and card readers/punches; uses vendor-supplied diagnostic documentation and test equipment to troubleshoot and repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides on-the-job training; provides technical guidance to lower skill level personnel; manages inventory control. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; prepares, reviews, and consolidates technical and administrative reports and requests; maintains files, records, and technical library; assigns duties; establishes workload, work schedules, and repair priorities.

Recommendation, Skill Level 10
In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, and 3 in computer systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 20
In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, and 6 in computer systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 30
In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, 6 in computer systems troubleshooting and maintenance, 3 in principles of supervision, 2 in maintenance management, and 3 in recordkeeping (6/88).

MOS-39L-001

FIELD ARTILLERY DIGITAL SYSTEMS REPAIRER

39L10
39L20
39L30

Exhibit Dates: 7/86–Present.

Career Management Field: 29 (Signal Maintenance).

Description
Summary: Performs and supervises intermediate maintenance on gun, rocket and missile fire control, directional, digital computer systems, meteorological computers, motor fire control calculations, remotely piloted vehicle control stations and peripheral equipment. *Skill Level 10:* Operates and performs intermediate level maintenance on digital fire control systems and peripheral

support equipment; fault detection and correction is at the board level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; uses knowledge of digital electronics and computer system concepts to isolate and correct complex problems; keeps records on maintenance procedures; supervises Skill Level 10 personnel; conducts on-the-job training; oversees installation of modifications on equipment; plans and recommends establishment of procedures for receipt, storage, inspection, testing, and repair of components. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation and maintenance performed by subordinate personnel; prepares work schedules and coordinates overall activities; conducts training and counseling sessions.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance (6/89).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance, 3 in personnel supervision, and 3 in maintenance management (6/89).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic systems troubleshooting and maintenance, 3 in principles of supervision, 3 in maintenance management, and 3 in communication skills (oral and written) (6/89).

MOS-39T-001

TACTICAL COMPUTER SYSTEMS REPAIRER

39T10

39T20

39T30

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Communications Electronics Maintenance).

Description

Summary: Supervises or performs maintenance on a military version of a commercial desktop data processing microcomputer. *Skill Level 10:* Working under direct supervision, inspects, adjusts, and repairs computer system components including Central Processing Unit (CPU), hard disk drives, tape drives, video terminals, printers, and modems; uses vendor-supplied diagnostic software to localize system malfunctions. *Skill Level 20:* Able to perform the duties required for Skill Level 10; has a basic knowledge of systems software and related utilities. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; prepares, reviews, and consolidates technical and administrative reports; maintains files, records, and technical library; assigns duties; establishes workload, schedules, and repair priorities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, and 3 in computer systems troubleshooting and maintenance (6/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, 6 in computer systems troubleshooting and maintenance, and 3 in computer systems and organizations (6/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 1 semester hour in DC circuits, 1 in AC circuits, 2 in digital principles, 6 in computer systems troubleshooting and maintenance, 3 in computer systems and organizations, 2 in maintenance management, 3 in record keeping, and 3 in principles of supervision (6/88).

MOS-39V-001

COMPUTERIZED SYSTEMS MAINTENANCE CHIEF

39V40

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Signal Maintenance).

Description

Skill Level 40: Supervises and manages direct and general support level maintenance of computerized systems such as field artillery digital and tactical fire direction systems, and automated communications computer systems; determines requirements and assigns duties; coordinates activities involving installation and maintenance of minicomputers, peripherals, test and measuring equipment; prepares, reviews and consolidates technical reports; implements standard operating procedures; organizes and conducts on-the-job training programs; instructs and counsels subordinate personnel; performs liaison among staff, operations, and maintenance personnel; determines effectiveness of performance to meet workload standards; reads, interprets, and explains complex concepts, specifications circuits, schematic and wiring diagrams and minicomputer and mainframe organization. NOTE: May have progressed to 39V40 from 39D30 (Descentralized Automated Services Support System Computer Systems Repairer), 39G30 (Automated Communications Computer Systems Repairer), 39B30 (Automatic Test Equipment Operator/Maintainer), or 39Y30 (Field Artillery Tactical Fire Direction Systems Repairer).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in computer systems and organization, 3 in principles of supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (6/90).

MOS-39W-001

RADAR/SPECIAL ELECTRONIC DEVICES MAINTENANCE CHIEF

39W40

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Signal Maintenance).

Description

Skill Level 40: Supervises the electronic maintenance shop operations by interpreting daily production reports and visual display loads of equipment in the shop; determines work priorities, parts needs, test equipment status and personnel qualifications; assists subordinates in troubleshooting equipment; coordinates installation of new equipment; prepares and maintains records associated with a daily and planned maintenance program; prepares and maintains support stockage lists; determines causes of and reports unusual maintenance failures; organizes and conducts formal and on-the-job training programs for shop personnel. NOTE: May have progressed to 39W40 from 39C30 (Target Acquisition/Surveillance Radar Repairer) or 39E30 (Special Electronic Devices Repairer).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of supervision and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (6/90).

MOS-39X-001

ELECTRONICS EQUIPMENT MAINTENANCE CHIEF

39X50

Exhibit Dates: 9/87–Present.

Career Management Field: 29 (Signal Maintenance).

Description

Skill Level 50: Supervises the electronic maintenance mission of the radar/special electronic devices, automatic data processing, and automatic test equipment facility; determines work priorities and requirements; assigns and coordinates activities of shop personnel; applies policies and procedures for facility/unit/station management; prepares, maintains, and uses maintenance records and reports associated with routine and planned maintenance programs; plans and coordinates training in communication, operations procedures, and maintenance programs; assists staff in continuous appraisal of electronic equipment. NOTE: May have progressed to 39X50 from 39V40 (Computerized Systems Maintenance Chief) or 39W40 (Radar/Special Electronic Devices Maintenance Chief).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of supervision and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in management problems (6/90).

MOS-39Y-001

FIELD ARTILLERY TACTICAL FIRE DIRECTION SYSTEMS REPAIRER

39Y10

39Y20

39Y30

Exhibit Dates: 7/86–Present.

Career Management Field: 29 (Communications Electronics Maintenance).

Description

Summary: Performs direct and general support maintenance on field artillery tactical fire direction systems, variable format entry devices, and related test equipment. *Skill Level 10:* Makes detailed tests through stages of equipment using voltmeters, ohmmeters, oscilloscopes, logic probes and other test equipment to localize and isolate malfunctions; replaces faulty components at the integrated circuit board level; may replace resistors, capacitors, integrated circuits, and other discrete components in emergency situations; maintains tools and test equipment; test-operates computer controlled system; checks and maintains electromechanical subsystems including motors, generators, servos and mechanical actuators; interprets complex block diagrams, schematics, and technical manuals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; checks maintenance performed by Skill Level 10 personnel; inspects systems for wear and possible future problem areas; supervises system repair contact team; interfaces with system users to identify cause of malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; has complete responsibility for supervising a multi-million dollar maintenance van; directs and coordinates the activities of 5 to 10 subordinate personnel; performs performance appraisals; conducts on-the-job training; establishes work priorities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in circuit diagnosis and 3 in computer system maintenance and repair (11/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in circuit diagnosis, 6 in computer system maintenance and repair, 3 in recordkeeping, and 1 in personnel supervision (11/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in circuit diagnosis, 6 in computer system maintenance and repair, 3 in recordkeeping, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/85).

MOS-41B-001

TOPOGRAPHIC INSTRUMENT REPAIRMAN

41B20

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 812 (Surveying).

Description

Skill Level 20: Maintains, disassembles, repairs, tests, adjusts, and reassembles all topographic and cartographic instruments.

Recommendation, Skill Level 20

In the vocational certificate category, 22 semester hours in surveying and cartographic instrument repair and 2 in use and care of tools and equipment. In the lower-division baccalaureate/associate degree category, 4 semester hours in instrument repair and 2 in use and care of tools and equipment (12/75).

MOS-41B-002

TOPOGRAPHIC INSTRUMENT REPAIR SPECIALIST

41B10

41B20

Exhibit Dates: 3/77-3/90. (Effective 3/90, MOS 41B was discontinued and its duties were incorporated into MOS 82B, Construction Surveyor, and MOS 82D, Topographic Surveyor.)

Career Management Field: 81 (Topographic Engineering), subfield 812 (Surveying).

Description

Summary: performs maintenance on topographic survey and cartographic equipment. *Skill Level 10:* Inspects equipment for damaged, defective, or malfunctioning parts or assemblies; adjusts and performs operational tests on equipment; checks optics for such conditions as lens aberrations, parallax, tilt of recticule, and scratched lens; disassembles equipment and replaces defective parts with standard items; interprets blueprints, and military or manufacturers' specifications; isolates and corrects trouble; lays and fabricates unobtainable metal parts or coordinates their fabrication with machinist, welders, or other specialists; makes sketches or diagrams used in disassembling and reassembling equipment or fabricating parts; applies principles of basic electricity when making minor electrical repairs; makes precision bits and clearances using precision measuring instruments; requisitions and inventories spare parts; prepares maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; controls quality of topographic instrument maintenance to final inspection of repairs performed; estimate cost of repairs, parts, and labor; prepares and reviews maintenance records and reports; schedules and assigns duties; fabricates special tools; overhauls and rebuilds equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in survey and optical instrument repair, 3 in basic surveying, and 2 in care and use of tools and equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in survey and optical instrument repair, 3 in basic surveying, 2 in care and use of tools and equipment, and credit in optics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in survey and optical instrument repair, 3 in basic surveying, 2 in use and care of tools and equipment, and 2 in recordkeeping and credit in optics on the basis of institutional evaluation (5/78).

MOS-41C-001

FIRE CONTROL INSTRUMENT REPAIRMAN

41C10

41C20

41C40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 636 (Armament Maintenance).

Description

Summary: Performs maintenance on fire control instruments and related equipment. *Skill Level 10:* Assists in maintenance, repair, and modification of binoculars, aiming circles, telescopes, range finders, and periscopes; uses hand tools, power tools, and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, repairs, and synchronizes fire control systems; tests, adjusts, and repairs optical systems; checks and repairs electrical circuits, using instruments such as ohmmeters, voltmeters, and null-voltage test sets; conducts operating tests to insure that instruments perform within specified tolerances and performance standards. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises subordinate personnel; plans the use of facilities and equipment; administers shop safety programs; requisitions parts, equipment, and supplies; conducts final operating instrument tests.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand and power tools (3/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of hand and power tools and 3 in applied physics. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics and additional credit on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in use and care of hand and power tools, 1 in records administration, and 3 in applied physics. In the lower-division baccalaureate/associate degree category, 1 semester hour in shop management, 3 in personnel supervision, and 3 in applied physics, and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in administration and additional credit on the basis of institutional evaluation (3/75).

MOS-41C-002

FIRE CONTROL INSTRUMENT REPAIRER
(FIRE CONTROL INSTRUMENT REPAIRMAN)

41C10

41C20

41C30

41C40

Exhibit Dates: 9/75-8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Supervises or performs maintenance on fire control instruments and related equipment. *Skill Level 10:* Performs maintenance on fire control instruments and related equipment including binoculars, aiming circles, telescopes, rangefinders, and mechanical/electrical ballistic computers and output devices mounted in vehicles; utilizes hand and power tools and testing equipment in the removal, repair, replacement, and synchronization of fire control systems used in tanks and self-propelled and towed artillery; tests optical instruments for conditions such as parallax, lens aberration, tilt of reticle, and deviations in line of sight; traces circuits by referring to schematic diagrams; tests instruments to insure performance within specified standards and tolerances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs preliminary and final inspection of fire control instruments and related equipment; is a first-line supervisor in direct and general support units; conducts on-the-job training; prepares maintenance records.

Skill Level 30: Able to perform the duties required for Skill Level 20; supervises fire control instrument maintenance activities; organizes the shop layout; establishes and administers a shop safety program; requisitions repair parts and materials; uses technical publications; performs final operating tests. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises fire control instrument and fire control computer maintenance activities. NOTE: May have progressed to 41C40 from 41C30 or 34G30 (Fire Control Computer Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, a minimum of 3 semester hours in applied physics, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,000 clock hours of experience and 60 contact hours of related instruction, if the duty assignment of fire control instrument repairman was held for a minimum of one year (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, 1 in use and care of tools, and 1 in records administration. In the lower-division baccalaureate/associate degree category, a minimum of 3 semester hours in applied physics and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In an industrial pyrometry and instrument repairman or recording instrument maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, if the duty assignment of fire control instrument repairman was held for a minimum of one year (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, 3 in shop practices and procedures, 1 in use and care of tools, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 2 in shop practices and procedures, 2 in personnel supervision, 1 in records administration, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In an industrial pyrometry and instrument repairman or recording instrument maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 3 in personnel supervision, 2 in shop practices and procedures, and 1 in records administration, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-41C-003

FIRE CONTROL INSTRUMENT REPAIRER

41C10

41C20

41C30

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on fire control instruments and related equipment. *Skill Level 10:* Performs maintenance on fire control instruments and related equipment, including binoculars, aiming circles, telescopes, rangefinders, and ballistic computers; uses hand and power tools and testing devices to remove, repair, replace, and synchronize fire control systems; traces circuits using schematic diagrams; replaces defective parts, and performs operating tests to insure performance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; troubleshoots and diagnoses fire control instruments; supervises and provides technical assistance to Skill Level 10 personnel; conducts on-the-job training and prepares maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; instructs and supervises lower-skill-level personnel; plans and organizes work schedules; applies management principles and techniques; performs quality control checks and technical inspections; requisitions parts and materials; establishes and supervises a shop safety program.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 3 in optical equipment repair laboratory and 1 in use and care of hand and power tools (7/82).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical equipment repair laboratory, 1 in use and care of hand and power tools, and 1 in recordkeeping. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 3 in optical equipment repair laboratory, 1 in use and care of hand and power tools, 1 in recordkeeping, 3 in shop practices, and 2 in personnel supervision (7/82).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 3 in optical equipment repair laboratory, 1 in use and care of hand and power tools, 1 in recordkeeping, 3 in shop practices, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and additional credit in management on the basis of institutional evaluation (7/82).

MOS-41E-001

CAMERA REPAIRMAN

41E20

Exhibit Dates: 10/73–2/77.

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 20: Performs maintenance and repair on still and motion picture cameras and on darkroom equipment; demonstrates a knowledge of light, light sources, darkroom procedures, films, photo-chemistry, and operation of single-lens-reflex, twin-lens-reflex, and large-format cameras (including lens and shutter assemblies, film transport/release machanisms, and camera bodies).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 6 for field experience in photography, 3 in audio-visual equipment repair, 3 in troubleshooting concepts, and 3 in use of test equipment (5/76).

MOS-41E-002

AUDIO-VISUAL EQUIPMENT REPAIRER
(AUDIO-VISUAL EQUIPMENT REPAIRMAN)

41E10

41E20

Exhibit Dates: 3/77–9/89. (Effective 9/89, MOS 41E was discontinued.)

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Performs maintenance and repair on still cameras, motion picture cameras, darkroom equipment, and audio-visual equipment. *Skill Level 10:* Demonstrates a knowledge of light, light sources, darkroom procedures, film, photo-chemistry, operation of single-lens-reflex, twin-lens-reflex and large-format camera (including lens and shutter assemblies, film transport/release mechanism, and camera bodies), projects, and audio equipment; assists in troubleshooting faulty equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel; troubleshoots faulty equipment.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics (light and sound), 3 in troubleshooting concepts, 3 in audio-visual equipment operation, 3 in care and use of testing equipment, 6 in basic photography, 3 in audio-visual equipment repair, 6 for field experience in photography, and credit in technical mathematics (as it relates to electricity) and basic electronics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics (light and sound), 3 in troubleshooting concepts, 3 in troubleshooting techniques, 3 in audio-visual equipment operation, 3 in care and use of testing equipment, 6 in basic photography, 3 in audio-visual equipment repair, 6 for field experience in photography, and credit in technical mathematics (as it relates to electricity) and basic electronics on the basis of institutional evaluation (5/78).

MOS-41F-001

Projector Repairman

41F20

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 41F was discontinued and its functions were incorporated into MOS 41E, Audio-Visual Equipment Repairman.)

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 20: Inspects, troubleshoots, repairs, and test-operates projection equipment.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in physics of visual phenomena, light, and sound, 6 in troubleshooting concepts, 3 in audio-visual equipment repair, and 3 in use of test equipment (5/76).

MOS-41G-001

Surveillance Photographic Equipment Repairman

41G20

Exhibit Dates: 10/73-8/77.

Career Management Field: 26 (Non-Integrated Radar Maintenance), subfield 263 (Airborne Surveillance Equipment Repair).

Description

Skill Level 20: Inspects and test-operates photographic equipment to detect and determine general faults; replaces minor defective parts or replaceable assemblies and adjusts items to operating conditions; disassembles malfunctioning equipment into component assemblies and systems for further inspection; gauges mechanical parts to detect wear and misalignment; straightens or replaces bent mechanical parts and components; replaces and adjusts optical elements; paints and refinishes equipment cases and containers; inspects and tests electrical and electronic equipment to ascertain condition and functioning; repairs electronic circuits associated with cameras; assembles repaired equipment and test-operates and makes adjustments to assure proper functioning; stores tools and testing equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in shop practices, 1 in industrial science, 3 in introductory electronics, 2 in AC/DC circuits, 2 in electronic devices, 2 in systems maintenance, 2 in intermediate circuits, 1 in electronic instrumentation, and additional credit in machine shop on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 3 in introductory electronics, 2 in AC/DC circuits, 2 in electronic devices, and 1 in electronic instrumentation. In the upper-division baccalaureate category, 6 semester hours in advanced photography. In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-41G-002

Aerial Surveillance Photographic
Equipment Repairer

41G10
41G20

Exhibit Dates: 9/77-9/84.

Career Management Field: 28 (Aviation Communications-Electronics Systems Maintenance).

Description

Effective 9/84, MOS 41G was discontinued and its functions were incorporated into MOS 26E, Aerial Radar Sensor Repairer and MOS 26F, Aerial Photoactive Sensor Repairer.

Recommendation

Credit may be granted on the basis of institutional evaluation.

MOS-41H-001

Photographic Equipment Repair Chief

41H40

Exhibit Dates: 10/73-3/77. (Effective 3/77, MOS 41H was discontinued and its functions were incorporated into MOS 26T, Radio/Television Systems Specialist and MOS 84T, TV/Radio Broadcast Operations Chief.)

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 40: Able to perform the duties required for Skill Level 20 of MOS 41E (Camera Repairman), 41F (Projector Repairman), or 41G (Surveillance Photographic Equipment Repairman); supervises a photographic equipment repair center consisting of 10 to 20 photographic equipment maintenance personnel; develops procedures and standards and inspects repaired equipment to assure high standard of work performance; assigns duties; applies production line procedures for the maintenance of photographic equipment; corrects improper techniques and procedures and explains proper methods; interprets and explains technical literature and diagrams; requisitions supplies; prepares technical and administrative reports.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 6 for field experience in photography, 6 in troubleshooting concepts, 3 in use of test equipment, 6 in audio-visual equipment repair, 3 in introductory electronics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in maintenance management or industrial management (5/76).

MOS-41J-001

Office Machine Repairman

41J20
41J40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 631 (Precision Devices).

Description

Summary: Performs general maintenance on office machines, excluding electronic calculators and accounting equipment. *Skill Level 20:* Diagnoses the causes of malfunctions; repairs, adjusts, cleans, and lubricates office machines; tests machine to determine the effectiveness of adjustments and repairs. *Skill Level 40:* Able to perform the duties required for Skill Level 20; diagnoses more complex malfunctions; supervises maintenance activities; makes final inspections; orders, stores, and distributes parts; establishes shop policies and procedures; supervises a minimum of five persons.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in office machine repair laboratory. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a business machines mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in office machine repair. In the lower-division baccalaureate/associate degree category, or in the upper-division baccalaureate category, a minimum of 3 semester hours in management and additional credit on the basis of institutional evaluation. Journeyman status (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) as a business machine mechanic (2/75).

MOS-41J-002

Office Machine Repairer
(Office Machine Repairman)

41J10
41J20
41J30
41J40

Exhibit Dates: 9/75-2/89. (Effective 3/89, MOS 41J was discontinued.)

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Precision Devices).

Description

Summary: Performs general maintenance on office machines, excluding electronic calculators and accounting equipment. *Skill Level 10:* Assists in maintaining office machines; adjusts office machines. *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes condition and operating efficiency of office machines; diagnoses causes of malfunctions; determines maintenance requirements and replaces defective or excessively worn parts and assemblies; disassembles, repairs, cleans, adjusts, tightens, lubricates, reassembles, and test-operates machines. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the maintenance of office machines; inspects machines with complex malfunctions to determine the extent of repairs required; makes final inspection of machines maintained or repaired by Skill Level 10 and 20 personnel; instructs Skill Level 10 and 20 personnel in general and specialized repair operations; keeps maintenance records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises office machine maintenance activities of a large unit or in a repair shop; usually supervises a minimum of 14 persons; instructs personnel on repair on non-electric and electric typewriters, adding machines, and calculators.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, and 3 in office machine repair laboratory. In the lower-division baccalaureate/associate degree category, 1 semester hours in use and care of hand tools, 2 in shop practices and procedures, and 3 in basic electricity. In a business machine or office machine repairman apprentice training program, 1,000 clock hours of experience and 60 contact hours of related instruction, only IF the duty assignment of office machine repairman was held for a minimum of one year (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, and 6 in office machine repair laboratory. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, and 3 in basic electricity, and additional credit in electricity and office machine repair on the basis of institutional evaluation. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, only IF the duty assignment of office machine repairman was held for a minimum of one year (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 9 in office machine repair laboratory, 1 in records administraion, and 2 in personnel supervision. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 1 in records administration, and 2 in personnel supervision, and additional credit in electricity, office machine repair, records administration, and personnel supervision on the basis of institutional evaluation. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-41K-001

REPRODUCTION EQUIPMENT REPAIRMAN

41K20

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

Repairs printing equipment, including duplicators, offset presses, process cameras, and bindery, platemaking, and other machines.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 1 in platemaking operation, and 6 for field experience in graphic arts, and credit in mechanical maintenance on the basis of institutional evaluation (5/76).

MOS-41K-002

REPRODUCTION EQUIPMENT REPAIR SPECIALIST

41K10

41K20

Exhibit Dates: 3/77-2/81. (Effective 2/81, MOS 41K was discontinued and its functions were incorporated into MOS 83F, Photolithographer.)

Career Management Field: 81 (Topographic Engineering), subfield 813 (Photolithographer).

Description

Summary: Performs maintenance on printing equipment. *Skill Level 10:* Repairs printing equipment including duplicators, offset presses, process cameras, bindery, platemaking, stripping and other machines; assists in troubleshooting faulty equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; troubleshoots faulty equipment; schedules and coordinates equipment maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, and 2 in platemaking operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 2 in platemaking operation, 3 for field experience in graphic arts, 3 in use and care of testing equipment, 1 in troubleshooting techniques, and credit in mechanical maintenance on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 2 in platemaking operation, 6 for field experience in graphic arts, 3 in use and care of tools and testing equipment, 3 in troubleshooting techniques, and credit in mechanical maintenance on the basis of institutional evaluation (5/78).

MOS-42C-001

BRACE SPECIALIST

42C20

42C40

Exhibit Dates: 10/73-8/76.

Career Management Field: 91 (Medical), subfield 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs the construction, repair, and adjustment of orthopedic prosthetic appliances. *Skill Level 20:* Designs and constructs prosthetic devices such as braces, splints, corsets, and corrective footwear from impressions, blueprints, sketches, or other types of specifications, makes mold of limb or deformity or draws pattern from measurements; cuts and fashions devices from metal, plastic, and leather, using welding equipment, forge, riveting machine, drill, and handtools; fabricates and constructs artificial limbs; fits assembled appliance to patient; repairs, readjusts, and refits worn of defective appliances. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises fabrication and fitting of orthopedic appliances; organizes work schedules and assigns duties; instructs personnel in work techniques and procedures; inspects completed prostheses to insure construction according to specifications; requisitions, stores, and issues equipment and supplies.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (including spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in anatomy and physiology, and 2 in shop practices (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (including spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in anatomy and physiology, 3 in human relations, 3 in shop management, and 2 in shop practices (3/76).

MOS-42C-002

ORTHOTIC SPECIALIST

42C10

42C20

42C30

42C40

Exhibit Dates: 9/76-Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Designs, fabricates, fits, adjusts, and repairs orthotic devices. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); assists in designing, fabricating, fitting, adjusting, and repairing orthotic appliances; makes impressions of injured body members and fabricates orthotic appliances of metal, plastic, synthetics, resins, plaster, leather, rubber, textiles, and adhesives, using welding, soldering, forging, riveting, sewing, laminating, brazing, woodworking, pattern and template machines and equipment, and all types of power and hand tools; adjusts constructed appliances and fits to patient; repairs, readjusts, reworks, and refits worn and defective appliances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; measures patient in operating room and molds temporary plastic socket; designs, fabricates, and tests experimental devices for which there are no models or standard pattern; adapts techniques to fit local requirements and available equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance for Skill Level 10 and 20 personnel; instructs subordinates in work techniques and procedures; inspects completed appliances. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities; organizes work schedules and assigns duties; supervises the equipment maintenance program; makes sure the shop is safe, clean, and orderly; determines personnel requirements and prepares and conducts training programs; evaluates personnel performance; prepares administrative, technical, and personnel reports; coordinates orthopedic activities with other elements of the medical treatment facility; advises and assists physicians in professional, fiscal, technical, and administrative matters; establishes stock level for supplies and equipment and supervises the requisitioning, storing, and issuing of supplies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 24 semster hours in orthotic techniques (including spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (including spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 3 in human relations, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 3 in human relations, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (including spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 3 in human relations, 3 in personnel supervision, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology. In the upper-division baccalaureate category, 2 semester hours in medical facility management (6/77).

MOS-42D-001

Dental Removal Prosthetic Specialist

42D10
42D20
42D40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs basic and advanced procedures in the fabrication and repair of removable dental prosthetic appliances. *Skill Level 10:* Performs basic procedures in the fabrication and repair of removable and fixed dental prosthetic appliances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs advanced removable dental laboratory techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 20; performs with high degree of competency all dental prosthetic techniques; supervises overall operation of a dental laboratory. NOTE: May have progressed to 42D40 from 42D20 or 42F20 (Dental Fixed Prothetic Specialist).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in dental anatomy, 3 in dental materials, 5 in complete dentures, and 5 in removable partial dentures (2/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in dental anatomy, 3 in dental materials, 5 in complete dentures, and 5 in removable partial dentures (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 10 semester hours in fixed and removable prosthesis, 9 in dental laboratory, 5 in complete dentures, 3 in dental anatomy, 3 in dental materials, and 1 in ethics of business management (2/75).

MOS-42D-002

Dental Laboratory Specialist

42D10
42D20
42D30
42D40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 911 (Dental).

Description

Summary: Supervises or performs basic and advanced procedures in fabrication and repair of dental prosthodontic appliances. *Skill Level 10:* Able to perform the duties required for 91E10 (Dental Specialist); performs primary procedures in fabrication and repair of removable and fixed dental prosthodontic appliances; reviews and processes prosthodontic prescriptions and consultation requests; prepares and uses basic dental laboratory materials; fabricates casts from preliminary impressions; fabricates final impression trays for complete, immediate complete, removable, and fixed partial dentures; prepares impressions and pours final casts for complete, immediate complete, removable, and fixed partial dentures; fabricates stabilized and nonstabilized occlusion rims for complete, immediate complete, removable, and fixed partial dentures; replaces missing or broken teeth and repairs fractured bases on complete and removable partial dentures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs basic dental laboratory procedures; uses facebrow and measurements to mount casts on adjustable articulator; employs mold guide, occlusion rims, registrations, markings, and interarch measurements to select denture teeth; fabricates maxillary and mandibular complete dentures using conventional and liquid resin techniques; fabricates immediate complete dentures with surgical templates; fabricates removable partial denture prostheses; modifies dental laboratory techniques to fabricate removable complete and partial dentures for cases with variant interarch and interridge relationships; repairs, relines, rebases, and duplicates removable complete and partial dentures; fabricates and repairs basic orthodontic, pedodontic, periodontic, and surgical appliances; fabricates and repairs conventional fixed partial dentures, including crowns, inlays, and performed pontics; fabricates transitional fixed partial dentures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs advanced dental laboratory procedures or assists in managing a small dental laboratory; fabricates ceramic and porcelain fused-to-metal crowns and fixed partial dentures; fabricates fixed and removable precision appliances; fabricates complex orthodontic, pedodontic, periodontic, and surgical appliances; assists in fabricating maxillofacial appliances; performs quality control procedures; establishes work priorities and assigns duties; organizes work schedules; demonstrates and explains work techniques and procedures to subordinates; evaluates personnel performance; supervises operational maintenance program of laboratory equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large dental laboratory or a section of a Regional Dental Activity; advises and assists dentists in personnel matters, supply economy procedures, and fiscal, technical, and administrative matters; prepares administrative and technical reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in anatomy and tooth morphology, 1 in dental materials, and 1 in complete dentures (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 1 in dental anatomy, and 1 in dental materials (6/77).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 4 in dental ceramics, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 2 in orthodontic procedures, 2 in dental anatomy, 1 in dental materials, and 1 in dental anatomy (occlusion), and additional credit in personnel supervision, field experience in management, and communication skills on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 4 in dental ceramics, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 2 in orthodontic procedures, 2 in dental anatomy, 2 in personnel supervision, 2 for field experience in management, 2 in oral communication skills, 1 in health care management, 1 in dental materials, and 1 in dental anatomy (occlusion) (6/77).

MOS-42E-001

OPTICAL LABORATORY SPECIALIST

42E20
42E40
42E50

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs the preparation of prescription lenses. *Skill Level 20:* Makes, duplicates, and inserts prescription lenses in spectacle frames and gas masks. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises optical laboratory operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises the functions of the optical laboratory section of a medical depot, providing technical guidance to personnel repairing complex optical equipment; prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics and 12 for an optical internship (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 6 in management and supervision, and 15 for an optical internship (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 9 in management and supervision, and 15 for an optical internship (2/75).

MOS-42E-002

OPTICAL LABORATORY SPECIALIST

42E10
42E20
42E30
42E40
42E50

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Makes prescription lenses or supervises optical laboratories. *Skill Level 10:* Makes, duplicates, and inserts prescription lenses; selects proper stock to fill requirements of spectacle prescription; computes and records curvature and thickness and marks lenses for surfacing; prepares lenses for blocking and surfacing; grinds and polishes lenses to prescribed specifications; locates and identifies optical center, optical axis, and cutting line on lenses; chucks lenses for edging; edges lenses to correct size and shape; hardens glass lenses to required impact resistance; selects and assembles frame components; mounts lenses and aligns frames; prepares completed spectacles for shipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; edits prescriptions and maintains records of prescriptions received by optical unit; calculates and records amount of prism required to permit necessary decentration; calculates and records distance required between top of bifocal or trifocal segments and distance-optical-center to produce prescribed segment height; dyes plastic lenses to specified tints; maintains files of completed spectacle prescriptions; prepares surface work sheets for plastic len coating; calculates and records positonal effective lens power; maintains inventory of supplies and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small optical laboratory; inspects completed spectacles for compliance with prescription requirements and quality standards; assigns duties and trains subordinates in work techniques and procedures; determines stock levels; maintains supply records; requisitions, stores, and issues supplies; supervises preventive maintenance of equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a medium-sized optical laboratory; maintains records of cost data and expenditures; make sure the laboratory is safe, clean, and orderly; supervises quality control procedures; established work priorities; organizes work schedules; evaluates personnel performance; plans layout areas; prepares technical, personnel, and administrative reports; coordinates activities to the optical laboratory with medical treatment facilities; advises and assists professionals in fiscal, technical, and administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises a large optical laboratory; prepares periodic laboratory reports; determines manpower requirements; drafts budget estimates; prepares operating procedures for optical unit.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, and 5 in physics (optics) (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 1 in anatomy and physiology, and 1 in office procedures (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 1 in anatomy and physiology, and 1 in personnel supervision (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 3 in personnel supervision, 3 for field experience in management, and 1 in anatomy and physiology (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 3 in personnel supervision, 3 for field experience in management, 3 in introduction to management, and 1 in anatomy and physiology. In the upper-division baccalaureate category, 3 semester hours in medical facility management and 3 in management problems (6/77).

MOS-42F-001

DENTAL FIXED PROSTHETIC SPECIALIST

42F20

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 42F was discontinued and its functions were incorporated into MOS 42D, Dental Laboratory Specialist.)

Career Management Field: 91 (Medical), subfield 911 (Prosthetic Appliances).

Description

Skill Level 20: Able to perform the duties required for 42D10 (Dental Removable Prosthetic Specialist); fabricates and repairs fixed prosthodontic appliances; interprets dentists' prescriptions; pours impressions; prepares models (indices, saws out, and trims dies); waxes, casts, veneers, and finishes crowns and bridges for conventional fixed prostheses; waxes and casts substructures for ceramic crowns and bridges; prepares metal to receive porcelain; applies and bonds procelain to metal with porcelain furnace; grinds, polishes, and finishes fixed prostheses.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in beginning crown and bridge (conventional) and 5 in advanced crown and bridge (ceramics) (3/76). NOTE: See the recommendation for 42D10 (Dental Removable Prosthetic Specialist) in exhibit MOS-42D-001.

MOS-43E-001

PARACHUTE RIGGER

43E20
43E40
43E50

Exhibit Dates: 10/73–2/77.

Career Management Field: 00 (Exceptional Management Specialties), subfield 000 (Special Assignment).

Description

Summary: Is a qualified parachutist; packs personnel parachutes and aircraft cargo; fabricates, assembles, repairs, and rigs airdrop equipment. *Skill Level 20:* Packs and tests personnel parachutes; fabricates, rigs, and assembles airdrop equipment; loads, positions, and secures cargo for airdrop. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs parachute riggers; inspects the work of parachute riggers. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a midlevel manager assisting with planning, coordinating, and supervising all parachute and airdrop activities; normally supervises more than 36 persons.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in parachute inspection and rigging and 5 in airfreight (on-board) management. In the upper-division baccalaureate category, 3 semester hours in technical electives (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in airfreight (on-board) management, and 3 in personnel management. In the upper-division baccalaureate category, 3 semester hours in technical electives (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in airfreight (on-board) management, and 6 in personnel management. In the upper-division baccalaureate category, 3 semester hours in technical electives and 3 in personnel management (2/75).

MOS-43E-002

PARACHUTE RIGGER

43E10
43E20
43E30
43E40
43E50

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), subfield 762 (Service).

Description

Summary: Is a qualified parachutist; packs aircraft cargo and personnel parachutes; fabricates, assembles, repairs, and rigs airdrop equipment. *Skill Level 10:* Packs and repairs cargo and personnel parachutes; rigs, fabricates, and assembles airdrop equipment; loads, positions, and secures cargo for airdrops; tests hooks and releases; utilizes repair equipment for parachutists; reads maps; loads, unloads, receives, inspects, inventories, and stores air equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; conducts routine and in-storage inspections of airdrop equipment; tests ripcord and canopy release assemblies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small- and medium-size activities engaged in packing and repairing parachutes and rigging and loading supplies and equipment for airdrop; assigns packers, repairers, riggers, and inspectors; instructs personnel on job requirements and techniques and inspects work in progress; inspects working area to insure a clean and safe working environment; plans and supervises operational equipment maintenance programs; establishes supply requirements; requisitions, stores, and issues supplies and equipment; establishes, develops, and maintains operational and maintenance records and prepares periodic reports; may supervises up to 35 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large activities engaged in packing and repairing parachutes and rigging and loading of supplies and equipment for airdrop; may supervise up to 50 persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer in airdrop equipment support company; may supervise more than 50 persons, or serve in staff positions.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in parachute inspection and rigging and 1 in map reading (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in parachute inspection and rigging, 5 in air freight (on-board) management, and 1 in map reading (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, and 1 in map reading. In the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, 1 in map reading, 2 in technical report writing, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, 3 in inventory control, 3 in safety procedures, and 2 in records administration (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, 1 in map reading, 3 in personnel supervision, 3 in human relations, 2 in technical report writing, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, 3 in inventory control, 3 in safety procedures, 3 in records administration, and 3 in introduction to management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in personnel management, 6 for field experience in management, 3 in records administration, 3 in inventory control, 3 in safety procedures, and 3 in introduction to management (5/78).

MOS-43J-001

TEXTILE REPAIRMAN

43J10
43J20
43J40

Exhibit Dates: 10/74–2/76. (Effective 3/76, MOS 43J was discontinued and its functions were incorporated into MOS 43M, Fabric Repairman.)

Career Management Field: 57 (Field Service), subfield 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair and alteration of clothing and other textile items. *Skill Level 10:* Assists in repair and alteration of textile items and clothing; operates electric and pedal-driven sewing, stitching, and patching equipment; performs minor repairs and some preventive maintenance on textile repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs textile items; sizes, fits, and sews worn or damaged clothing; maintains and operates mobile textile repair facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises textile repair personnel; performs complex mending, alteration, and renovation of clothing and textile items; demonstrates and instructs in machine sewing operations; demonstrates the operation of mobile units and other field operations; supervises the maintenance of textile repair equipment and related activities in mobile and fixed shop operations; assigns personnel to work positions; inspects completed work for accuracy; estimates supply requirements.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operation and 4 for field experience in sewing operations (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operation and 6 for field experience in sewing operations (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in introduction to management (11/75).

MOS-43K-001

CANVAS REPAIRMAN

43K10
43K20
43K40

Exhibit Dates: 10/74–2/76. (Effective 3/76, MOS 43K was discontinued and its functions were incorporated into MOS 43M, Fabric Repairman.)

Career Management Field: 57 (Field Service), subfield 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair of canvas and webbed items and related equipment. *Skill Level 10:* Assists in the repair of canvas equipment and canvas and webbed items; operates electric and pedal-driven equipment for repair of canvas covers, tarpaulins, and other canvas and webbed items; performs minor repairs and preventive maintenance on canvas repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs canvas and webbed items; inspects repairable canvas equipment and webbed items for damage; tests tensile strength of canvas and repairs with approved test equipment; adjusts and performs preventive maintenance on canvas and webbed item repair equipment. *Skill Level*

40: Able to perform the duties required for Skill Level 20; supervises the repair of canvas repair equipment; directs personnel in setting up canvas repair equipment for repair and salvage operations; inspects repaired canvas and webbed items; directs the salvage of canvas and canvas equipment; instructs personnel in repair and salvage techniques; assigns personnel to work positions.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operation and 4 for field experience in sewing operations (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operation and 6 for field experience in sewing operations (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-43M-001

FABRIC AND LEATHER REPAIR FOREMAN

43M40

Exhibit Dates: 10/73–2/76.

Career Management Field: 57 (Field Services), subfield 573 (Textile Renovation).

Description

Skill Level 40: Serves as fabric and leather foreman; able to perform the duties required for 43J40 (Textile Repairman) or 43K40 (Canvas Repairman); supervises personnel involved in the classification, hand and machine repair and alteration, and fabrication of textile, canvas, clothing, webbed, and leather items; instructs subordinates in repair and salvage procedures and techniques; schedules maintenance of fabric and leather equipment; supervises movement and placement of mobile repair facilities and other field operations; schedules and expedites work schedules of personnel.

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introductory organization management, 2 in personnel management, 2 in records administration, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours in introduction to management and administration and 3 for field experience in management (11/75).

MOS-43M-002

FABRIC REPAIRMAN

43M10

43M20

43M40

Exhibit Dates: 3/76–2/77.

Career Management Field: 57 (Field Services), subfield 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair of textile, canvas, or webbed equipment and clothing. *Skill Level 10:* Assists in the repair and alteration of textile items and clothing, canvas equipment, and canvas and webbed items; operates electric and pedal-driven sewing, stitching, and patching equipment; performs minor repairs and some preventive maintenance on canvas repair and textile equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs textile, canvas, and webbed items and clothing; inspects repairable canvas equipment and webbed items for damage; sizes, fits, and sews worn or damaged clothing; adjusts sewing machines and replaces minor parts; lubricates equipment and performs preventive maintenance before, during, and after operation. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs in the repair, alteration, and salvage of textile, canvas, and webbed items and clothing; assigns duties and schedules work; inspects completed work for accuracy and quality control; inspects irreparable items to assure that all salvageable parts have been removed; estimates supply requirements; coordinates fabric repair activities and preventive maintenance in mobile and fixed shop conditions; submits progress reports; supervises 15 to 30 fabric repairmen.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operations and 4 for field experience in sewing operations (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operations and 6 for field experience in sewing operations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, 3 in introductory organization management, 2 in personnel management, 2 in records administration, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours in introduction to management and administration and 3 for field experience in management (5/76).

MOS-43M-003

FABRIC REPAIR SPECIALIST

43M10

43M20

43M30

43M40

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), subfield 762 (Service).

Description

Summary: Repairs or supervises the repair of textile and canvas items, webbed equipment and clothing. *Skill Level 10:* Repairs textile and canvas items; determines repair requirement; operates sewing, stitching and patching equipment; performs minor repairs and preventive maintenance on canvas repair and textile equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs quality assurance inspections; inspects, classifies and determines repairability of textile, canvas and webbed items; salvages repairable parts. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and coordinates small and medium-sized operations and preventive maintenance activities in mobile and fixed textile and canvas repair shop; establishes quality control standards; establishes work schedules and assignments; supervises from 8 to 30 persons; evaluates personnel performance; counsels personnel and prepares evaluation reports; maintains records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-sized operations and preventive maintenance activities in textile and canvas repair shop; supervises more than 31 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operations and 4 for field experience in sewing operations (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operations and 6 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in power sewing machine operations and 8 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, and 2 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, 3 in introductory organization management, and 2 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (5/78).

MOS-44B-001

METAL BODY REPAIRMAN

44B20

44B40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Repairs and straightens metal body panels, fenders, and sheet metal parts;

repairs radiators and fuel tanks, and modifies related parts and components. *Skill Level 20:* Determines nature and extent of damage and the repairs required; uses hand tools, power tools, and hydraulic jacks; cuts, welds, brazes, and solders body components; disassembles, repairs, reassembles, and installs fuel tanks, radiators, and similar items; prepares surfaces for painting by sanding, masking, and cleaning; selects, matches, and applies paint to surfaces. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the repair, repainting, and installation of metal body components, radiators, and fuel tanks; determines tools, equipment, and work requirements to repair extensive body damages; performs the more difficult tasks such as forming and forging; assigns work and projects to subordinate personnel and inspects their work; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in basic auto body repair. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair and 3 in basic gas welding, and additional credit on the basis of institutional evaluation. In an auto body repairman apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic auto body repair, 3 in basic gas welding, 3 in shop practices and procedures, and 9 in body refinishing. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair, 9 in body refinishing, 3 in basic gas welding, and 3 in personnel supervision, and additional credit on the basis of institutional evaluation. In an auto body repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction (2/75).

MOS-44B-002

Metal Worker

44B10
44B20
44B30
44B40

Exhibit Dates: 9/75-8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Welds metal articles and parts; repairs, repaints, and installs metal body components, radiators, and fuel tanks, and modifies other related items; supervises machine shop activities. *Skill Level 10:* Welds ferrous and nonferrous metals using oxyacetylene or arc welding equipment; determines nature and extent of damage, repairs required, and the welding methods to be employed by examining shape of parts, type of metal, and thickness of section to be welded; selects appropriate welding rod and flux to produce secure bond; makes butt, corner, edge, lap, tee, tack, and slot welds from flat, vertical, and overhead welding positions; make body and fender repairs; prepares surfaces for painting by filling, sanding, masking, and cleaning; selects, matches, and mixes paints and applies to surfaces by brushing or spraying; repairs radiators, fuel tanks, and similar items by straightening, soldering, patching, tube rodding and splicing, plugging core sections, replacing cores, and pressure testing of leaks; uses hand tools, measuring devices, metal shears, drills, metal saws, dolly blocks, bending irons, mallets, sanders, and hydraulic jacks. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; demonstrates and performs more difficult phases of working metals by cutting, forming, welding, forging, and brazing; fabricates complex parts. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects incoming work and determines nature and extent of damage to metal parts and subassemblies; schedules, assigns, and coordinates work according to availability and capability of personnel and equipment; instructs subordinate supervisors in applications of maintenance policies, procedures, and work performance; supervises on-the-job training programs; supervises preparation of shop records and reports and the receipt, maintenance, and issue of shop tools, equipment, and parts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs as metalworking foreman, machine shop foreman, or toolmaker foreman. NOTE: May have progressed to 44B40 from 44E30 (Machinist).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in basic auto body repair and 3 in basic gas welding. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair and 3 in basic gas welding, and additional credit on the basis of institutional evaluation. In an auto body repairman, painter, or radiator repairman apprentice training program, 1,000 clock hours of experience and 220 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In an auto body repairman, painter, or radiator repairman apprentice training program, 2,000 clock hours of experience and 250 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair, 9 in auto body refinishing, and 3 in basic welding; if the duty assignment was welder foreman or metal worker foreman, 3 additional semester hours in personnel supervision. In an auto body repairman, painter, or radiator repairman apprentice training program, 3,000 clock hours of experience and 275 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In an auto body repairman, painter, or radiator repairman apprentice training program, 4,000 clock hours of experience and 300 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-44B-003

Metal Worker

44B10
44B20

Exhibit Dates: 9/80-Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Repairs and straightens metal body panels, fenders, and sheet metal parts; repairs and installs radiators and fuel tanks; welds ferrous and non-ferrous metals. *Skill Level 10:* Repairs damaged metal body components with hammer, dolly blocks, spoon, and hydraulic jacks; removes and replaces body trim; cuts, grinds, and installs safety glass; cleans, repairs, and installs radiators and fuel tanks; prepares surface for painting by filling, sanding, masking, and cleaning; welds ferrous and non-ferrous metals, using oxyacetylene, electric arc and inert gas welding equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; demonstrates and performs more difficult phases of working metal by forming, welding, forging, and brazing; fabricates complex parts.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in automotive body repair, 3 in welding, and 3 in radiator repair (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in automotive body repair, 6 in welding, and 3 in radiator repair (7/82).

MOS-44C-001

Welder

44C20
44C40

Exhibit Dates: 10/73-8/75. (Effective 9/75, MOS 44C was discontinued and its functions were incorporated into MOS 44B, Metal Worker.)

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Welds ferrous and nonferrous metals in vertical, flat, and overhead positions, using gas, including inert gas, and electric arc equipment; welds butt, corner, edge, lap, tee, tack, and slot joints; brazes and burns metals; uses hand tools, measuring devices, and power equipment such as shares, drills, and metal saws; fabricates complex parts; identifies metals; determines welding method to be used. *Skill Level 20:* Selects proper rod and flux; prepares metal and fastens it securely to prevent warpage and distortion; works from blueprints and sketches. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises welding operations; demonstrates and performs smithing operations; inspects welds for warpage, distortion, cracks, and hardness; lays out complex projects and assigns jobs to subordinate personnel; plans and conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in welding (general). In the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in welding (general) and additional credit on the basis of institutional evaluation. In a welder (general) apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in welding (general). In the lower-division baccalaureate/associate degree category, 15 semester hours in welding (general) and additional credit on the basis of institutional evaluation. In a welder (general) apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction; journeyman status achieved through employer or trade association evaluation (2/75).

MOS-44E-001

MACHINIST

44E20

44E40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Fabricates, repairs, and modifies metallic and nonmetallic parts, using all types of machine tools such as engine lathes, milling machines, boring machines, and grinders; machines pieces according to specifications, tooling instructions, and standard charts, applying knowledge of machine methods; reads blueprints and job order for product specifications. *Skill Level 20:* Lays out and sets up work; establishes and marks necessary reference points, centerlines, and machining guidelines; computes and set up proper machine speeds to attain correct cutting speeds, setups, and depth of cut and feed; clamps or fastens work in holding devices or to machines; selects, grinds, and affixes cutting tools; performs toolbit grinding and setting; adjusts and controls machines; checks dimensions of finished work, using measuring devices such as squares, rules, scales, calipers, micrometers, and thread gages; employs shop mathematics, charts, and tables; interprets simple drawings and sketches. *Skill Level 30:* Able to perform the duties required for Skill Level 20; designs, fabricates, modifies and repairs jigs, fixtures, dies, and special tools; sets and adjusts tools; applies heat-treating procedures, including annealing, normalizing, hardening, case hardening, and tempering; works within close precision tolerances of .001 inch; uses standard and nonstandard practices in accomplishing unusual machining jobs; inspects completed work and tests parts to determine proper performance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a fully qualified machinist; sets up and operates machine tools; fits and assembles parts to make or repair mechanisms, tools, or machines; applies knowledge of mechanics, shop mathematics, metal properties, and layout proceures; reads sketches, blueprints, and descriptions of parts; supervises machine operations and determines work request validity; assigns work in accordance with priority of jobs, availability of equipment, and abilities of machinists; inspects equipment and machines to determine condition and supervises adjustments and repairs; enforces safety regulations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a machinist or a machinist setup operator (2/75).

MOS-44E-002

MACHINIST

44E10
44E20
44E30

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Supervises or performs the fabrication, repair, and modification of metallic and nonmetallic parts. *Skill Level 10:* Fabricates, repairs, and modifies metallic and nonmetallic parts to blueprint specifications utilizing such machines as engine lathes, grinders, milling machines, vertical bandsaws, and drill presses and their associated attachments, accessories, and tools; interprets job orders, blueprints, and specifications; lays out and sets up work; establishes and marks necessary reference points, centerlines, and machining guidelines; computes and sets up proper machine speeds to attain correct cutting speeds, setups, and depth of cut and feed; clamps or fastens work in holding devices or to machines; selects, grinds, and affixes cutting tools; performs toolbit grinding and setting; adjusts and controls machines; checks dimensions of finished work, using measuring devices such as squares, rules, scales, calipers, micrometers, and thread gauges; employs shop mathematics, charts, and tables; interprets blueprints and sketches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs as a machinist and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; designs, fabricates, modifies, and repairs jigs, fixtures, dies, and special tools to facilitate metal working operations; performs as machine shop or toolmaker foreman; determines nature and extent of work to be performed and method of its accomplishment; employs standard parctices of machining, such as toolbit angles, proper cutting speeds for various materials, and methods of setting and adjusting tools to suit materials; applies heat-treating procedures, including annealing, normalizing, hardening, case hardening, and tempering; grinds and sharpens tools such as drills, toolbits, and reamers; works to dimensions as precise as tolerances of .001 inch; uses technical instruction in accomplishing unusual machining jobs involving standard and nonstandard practices; converts specifications and instructions to machining operations; inspects completed work and tests parts; requisitions sufficient supplies of expendable tools and materials.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of insitutional evaluation. In a machinist apprentice training program, a minimum of 4,000 clock hours of experience and 288 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, a minimum of 15 semester hours in a machinist or machinist setup operator program, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist or machinist setup operator program, and additional credit on the basis of institutional evaluation; if the duty assignment was either machine shop foreman or machine operator foreman, 3 additional semester hours for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management if the duty assignment was either machine shop foreman or machine operator foreman. In a machinist apprentice training program, a minimum of 6,000 clock hours of experience and 432 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-44E-003

Machinist

44E10
44E20
44E30
44E40

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 632 (Metalworking).

Description

Summary: Performs and supervises the fabrication, repair, and modification of metallic and nonmetallic parts; supervises metal work shop activity. *Skill Level 10:* Fabricates, repairs, and modifies metallic and nonmetallic parts using utility grinders, power cutoff saws, armature undercutters, arbor and hydraulic presses, drill presses and their associated attachments, accessories, and tools; interprets job orders, blueprints, sketches, and specifications; lays out and sets up work; establishes and marks necessary reference points, centerlines, and matching guidelines; computes and sets up proper machine speeds to attain correct cutting speeds, and depth of cut and feed; checks dimensions of finished work, using measuring devices such as squares, rules, scales, calipers, micrometers, and thread gauges; operates hand tools such as files, taps, dies, punches, hammers, screwdrivers, and wrenches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; fabricates, repairs, and modifies metallic and nonmetallic parts, using such machines as milling machines, shapers, vertical and horizontal bandsaws, lathes, and tool and cutter grinders; applies heat treating procedures; conducts on-the-job training. *Skill Level 30:* Able to perform the duties required for 44E20 or 44B20 (Metal Worker); supervises support maintenance/metalworking shop; performs final inspection and approves disposition of completed work; supervises preparation of shop records and reports; assists in planning and setting up of maintenance shops to obtain maximum utilization; schedules, assigns, and coordinates work; may supervise up to 19 lower-skill-level personnel. NOTE: May have progressed to 44E30 from 44E20 or 44B20 (Metal Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs as support maintenance machine shop supervisor or metal worker supervisor; performs support maintenance administrative functions and supervises the preparation of records and training of lower-skill-level personnel; may supervise 20 or more lower-skill-level personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in machine shop laboratory, and 3 in machine shop theory (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in machine shop laboratory and 4 in machine shop theory (7/82).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in machine shop laboratory and 4 in machine shop theory. In the lower-division baccalaureate/associate degree category, 8 semester hours in machine shop laboratory, 4 in machine shop theory, and 3 in personnel supervision (7/82).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 8 semester hours in machine shop laboratory, 4 in machine shop theory, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (7/82).

MOS-45B-001

Small Arms Repairer
(Small Arms Repairman)

45B10
45B20
45B30

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Supervises or performs repair and limited overhaul of small arms and other infantry weapons. *Skill Level 10:* Cleans components of dirt, rust, and corrosion; lubricates moving parts; disassembles weapons and determines condition of components; measures degree of wear with precision measuring instruments; repairs and refinishes weapons by honing, grinding, sandblasting, degreasing, and soldering; reassembles weapons, makes adjustments, checks dimensions and tolerances, and tests weapons' mechanisms; tests fire weapons; uses common and specialized mechanics tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises inspection, repair, and technical service assistance teams; maintains records; evaluates the condition of small arms and determines the maintenance or repairs required; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand and power tools, 2 in use and care of precision testing equipment, and additional credit in a mechanical repairman program on the basis of institutional evaluation. In a maintenance mechanic or repairman (gun repairman) apprentice training program, 500 clock hours of experience and 70 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a maintenance mechanic or repairman (gun repairman) apprentice training program, 1,000 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand and power tools, 2 in use and care of precision testing equipment, 2 in personnel supervision, and 1 in records administration, and additional credit on the basis of institutional evaluation. In a maintenance mechanic or repairman (gun repairman) apprentice training program, 1,200 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45B-002

Small Arms Repairer

45B10
45B20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs or supervises the performance of maintenance, repair, and overhaul of small arms. *Skill Level 10:* Disassembles weapons and cleans components of dirt, rust, and corrosion; inspects components for defects; performs repairs by grinding, sandblasting, soldering, and fitting component parts; replaces defective parts; lubricates and reassembles weapons; fits and adjusts parts to ensure smooth operation; uses common and specialized hand tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; troubleshoots and diagnoses small arms malfunctions; provides technical guidance and assistance to Skill Level 10 personnel; supervises technical service assistance teams.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in use and care of hand tools and 2 in use and care of precision test equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand tools, 2 in use and care of precision test equipment, and 3 in basic firearms repair (7/82).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in use and care of hand tools and 2 in use and care of precision test equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand tools, 2 in use and care of precision test equipment, 3 in basic firearms repair, and additional credit in basic firearms repair on the basis of institutional evaluation (7/82).

MOS-45D-001

Self-Propelled Field Artillery
Turret Mechanic

45D10
45D20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Troubleshoots and performs maintenance on armament, fire control, and related components of field artillery systems. *Skill Level 10:* Removes, repairs, installs, and tests armament, sighting, fire control, electrical, and mechanical systems; repairs and adjusts previously diagnosed malfunctions of mechanical, electrical, and hydraulic systems; troubleshoots mechanical, electrical, and hydraulic systems using hand tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; diagnoses and troubleshoots to component level; isolates malfunctions using schematic diagrams; tests and inspects components; conducts on-the-job training and completes maintenance records.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in basic electricity, and 1 in use and care of hand tools (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in basic electricity, 1 in use and care of hand tools, 1 in records administration, and 1 in industrial safety (7/82).

MOS-45E-001

XM1 Tank Turret Mechanic

45E10

45E20

Exhibit Dates: 3/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs maintenance on armament, fire control, and related components of tanks. *Skill Level 10:* Services, repairs, and adjusts armament and fire control systems; performs corrective maintenance on mechanical, electrical, and hydraulic components; performs site adjustments and test-operates equipment; troubleshoots and repairs mechanical, electrical, and hydraulic systems using schematic diagrams; uses power tools, hand tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; diagnoses and troubleshoots to component level; conducts on-the-job training and completes maintenance records.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in basic electricity, and 1 in use and care of hand tools (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in basic electricity, 1 in use and care of hand tools, 1 in records administration, and 1 in industrial safety (7/82).

MOS-45G-001

Fire Control System Repairer
(Tactical Fire Control System
Repairer)

45G10

45G20

45G30

Exhibit Dates: 9/81–Present.

Career Management Field: 63 (Mechanical Maintenance, subfield 634 (Armament Maintenance).

Description

Summary: Performs and supervises maintenance of laser, infra-red laser devises, and electronic ballistic computers. *Skill Level 10:* Uses electronic and mechanical test equipment to perform troubleshooting and diagnostic procedures; traces circuits, uses schematic diagrams, hand and power tools; repairs circuit boards and practices laser safety precautions; has a workable knowledge of the multimeter, oscilloscope and other special meters; visually inspects circuits and removes and replaces defective electrical and electronic components; has a thorough knowledge and understanding of electrical and electronic theory. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs inspection and testing of repaired equipment; conducts on-the-job training; prepares reports and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower-skill-level personnel in troubleshooting and proper maintenance procedures and practices; prepares reports and records; plans work schedules and maintenance priorities; administers the shop safety program.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in electrical shop, 5 in electrical fundamentals, and 5 in electronic fundamentals. In the lower-division baccalaureate/associate degree category, 1 semester hour in electrical shop, 5 in electrical/electronics theory, and 2 in computer fundamentals (2/84).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in electrical shop, 5 in electrical fundamentals, and 5 in electronic fundamentals. In the lower-division baccalaureate/associate degree category, 1 semester hour in electrical shop, 5 in electrical/electronics theory, and 2 in computer fundamentals (2/84).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in electrical shop, 5 in electrical/electronics theory, 2 in computer fundamentals, and 3 in personnel supervision (2/84).

MOS-45J-001

Aircraft Armament Repairman

45J20

45J40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 45J was discontinued and its functions were incorporated into MOS 68J, Helicopter Missile Systems Repairer, and MOS 68K, Aircraft Components Repair Supervisor.)

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on components and weapons of aircraft armament subsystems. *Skill Level 20:* Performs maintenance on mechanical, electrical, and hydraulic components, and on weapons of aircraft armament subsystems; inspects or performs final checkout of subsystems. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 5 or more persons performing aircraft armament maintenance activities.

Recommendation, Skill Level 20

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision (11/75).

MOS-45K-001

Tank Turret Repairman

45K20

45K40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 636 (Armament Maintenance).

Description

Summary: Performs maintenance on turret mechanisms and weapons of tanks, cupolas, and similar equipment; diagnoses malfunctions; repairs turrets, cupolas, and weapons; tests turret systems. *Skill Level 20:* Determines the nature and causes of malfunctions; repairs loading, firing, and recoil mechanisms; repairs turret-cupola hydraulic systems and wiring systems; analyzes and tests continuity of circuits; uses power tools and hand tools; keeps maintenance records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; determines maintenance required; supervises maintenance; establishes work schedules and priorities; conducts on-the-job training; supervises a minimum of five persons. NOTE: May have progressed to 45K40 from 45K20, 45N20 (Tank Turret Mechanic), 45P20 (Sheridan Turret Mechanic), or 45R20 (Missile Tank Turret Mechanic).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation and/or performance examination. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and training and additional credit on the basis of institutional evaluation. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (2/75).

MOS-45K-002

Tank Turret Repairer
(Tank Turret Repairman)

45K10
45K20
45K30

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on turret mechanisms and weapons of tanks, cupolas, and similar equipment; diagnoses malfunctions; repairs turrets, cupolas, weapons; tests turret systems. *Skill Level 10:* Determines the nature and causes of malfunctions; repairs loading, firing, and recoil mechanisms; repairs turret-cupola hydraulic systems and wiring systems; analyzes and tests continuity of circuits; rewires circuits; tests and adjusts equipment in accordance with prescribed limits and tolerances; uses power, hand, and special tools and precision instruments; keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and conducts some on-the-job training for Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; determines the category of maintenance required; establishes on-the-job training programs, workload schedules, and priorities; inspects equipment and prepares inspection reports; supervises a minimum of 9 persons. NOTE: May have progressed to 45K30 from 45K20, 45N20 (Tank Turret Mechanic) 45P20 (Sheridan Turret Mechanic), or 45R20 (Missile Tank Turret Mechanic).

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation and/or performance examination. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in the selection, use, and care of hand and power tools, 2 in hydraulics, and 2 in electrical wiring systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and additional credit in hydraulics and electrical wiring systems on the basis of institutional evaluation. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in the selection, use, and care of hand and power tools, 2 in hydraulics, and 2 in electrical wiring systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management, and additional credit in hydraulics and electrical wiring systems on the basis of institutional evaluation. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

MOS-45K-003

Tank Turret Repairer

45K10
45K20
45K30

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance and repair on turret mechanisms and weapons. *Skill Level 10:* Performs maintenance and repair of mechanical and hydraulic turret mechanisms and weapons; replaces bearings; cleans and repairs parts; removes and disassembles components for repair; uses precision instruments and hand tools; traces circuits and analyzes electrical problems using schematic diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; troubleshoots and diagnoses turret mechanisms and weapons; isolates causes of malfunctions; determines necessary repairs, and performs final tests and inspections to assure performance; conducts on-the-job training; completes maintenance records. *Skill Level 30:* Able to perform the duties required for 45K20, 45B20 (Small Arms Repairer), or 45L20 (Artillery Repairer); performs, supervises, and inspects maintenance; may supervise up to 19 lower-skill-level personnel in armament maintenance section; plans and organizes work schedules; instructs personnel; establishes a shop safety program. NOTE: May have progressed to 45K30 from 45K20, 45B20 (Small Arms Repairer) or 45L20 (Artillery Repairer).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in hydraulics, 1 in basic electrical wiring, and 1 in use and care of hand tools (7/82).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in hydraulics, 2 in basic electrical wiring, 2 in use and care of hand tools, 3 in troubleshooting techniques (hydraulic and electrical systems), 1 in record keeping, and 2 in personnel supervision. In the lower-division baccalaureate/associate degree category, 2 semester hours in hydraulics, 2 in basic electrical wiring, 2 in use and care of hand tools, 3 in troubleshooting techniques (hydraulic and electrical systems), 1 in record keeping, and 2 in personnel supervision (7/82).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in hydraulics, 2 in basic electrical wiring, 2 in use and care of hand tools, 3 in troubleshooting techniques (hydraulic and electrical systems), 1 in record keeping, 3 in personnel supervision, and 3 for field experience in management, and additional credit in troubleshooting techniques (hydraulic and electrical systems) on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management and additional credit in management on the basis of institutional evaluation (7/82).

MOS-45L-001

Artillery Repairer
(Artillery Repairman)

45L10
45L20
45L30

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on artillery turrets, artillery weapons, and similar equipment. *Skill Level 10:* Performs maintenance on light, medium, and heavy self-propelled artillery and turret mechanisms, towed artillery, air defense artillery, and similar equipment; lubricates moving parts; uses common and specialized hand tools; measures tolerances with precision instruments and special tools; applies proper rigging procedures for hoisting heavy equipment and material; traces, tests, repairs, or replaces circuits; inspects equipment and prepares inspection reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; evaluates the condition of equipment to determine the kind of maintenance required; establishes workload schedules and priorities; conducts on-the-job training, inspects the work of subordinates; prepares records, forms and reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices and 2 in the care and use of tools and precision equipment, and additional credit in basic electricity on the basis of institutional evaluation. In a millwright apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a millwright apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices, 2 in the care and use of tools and precision equipment, 2 in personnel supervision, and 1 in records administration, and additional credit in basic electricity on the basis of institutional evaluation. In a millwright apprentice training program, 1,000 clock hours of experience (12/75).

MOS-45L-002

Artillery Repairer

45L10
45L20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on artillery turrets, weapons and similar equipment. *Skill Level 10:* Performs maintenance on light, medium, and heavy self-propelled and towed artillery, turret mechanisms and similar equipment; lubricates moving parts; uses common and specialized hand tools; measures tolerance with precision instruments and special tools; applies proper rigging procedures for hoisting heavy equipment and material; traces, tests, repairs or replaces circuits. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices and 2 in use and care of tools and precision test equipment (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices and 2 in use and care of tools and precision test equipment (7/82).

MOS-45M-001

Aircraft Armament Subsystem
Mechanic

45M20
45M40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 45M was discontinued and its functions were incorporated into MOS 68K, Aircraft Components Repair Supervisor, and MOS 68M, Helicopter Weapon Systems Repairer.)

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft armament subsystems. *Skill Level 20:* Examines armament systems and fire control equipment for malfunctions or defects; determines maintenance required and writes appropriate repair orders; removes, disassembles, repairs, assembles, installs, tests, and adjusts weapons and components; performs modifications, synchronization, boresighting, and aligment; performs final checkout of complete system; keeps records and assists in stacking replacement items. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises aircraft armament maintenance activities; diagnoses unusual malfunctions; establishes maintenance controls and performance standards; conducts on-the-job training.

Recommendation, Skill Level 20

Credit is not recommended because the skills and knowledge are military in nature (2/75).

Recommendation, Skill Level 40

Credit in management and human relations on the basis of institutional evaluation (2/75).

MOS-45N-001

Tank Turret Mechanic

45N10
45N20

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on conventional tank turret/cupola systems. *Skill Level 10:* Inspects, tests, troubleshoots, repairs, and adjusts electrical, hydraulic, fire control, mechanical, and firing systems; replaces components; cleans and lubricates turret/cupola systems; uses schematic diagrams; uses repair parts publications and orders parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in hydraulics and 4 in basic electricity, and additional credit in hydraulics, electricity, and mechanics on the basis of institutional evaluation. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45P-001

Sheridan Turret Mechanic

45P10
45P20

Exhibit Dates: 9/75–8/80. (Effective 9/80, MOS 45P was discontinued and its functions were incorporated into MOS 45R, Missile Tank Turret Mechanic.)

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on Sheridan tank turret and related equipment. *Skill Level 10:* Inspects, tests, troubleshoots, repairs, and adjusts electrical traversing and elevation system, firing systems, gun launcher system, fire control system, cupola systems, and turret mounted weapons; cleans and lubricates systems; replaces components; uses technical and repair parts publications and electrical diagrams; modifies systems; keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in basic electricity, and additional credit in basic electricity and mechanics on the basis of institutional evaluation. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience (electrical) and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience (electrical) and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45R-001

Missile Tank Turret Mechanic

45R10
45R20

Exhibit Dates: 9/75–8/81. (Effective 9/81, MOS 45R was discontinued.)

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Summary: Performs maintenance on missile tank turret system and related equipment. *Skill Level 10:* Performs as missile tank turret mechanic; inspects and tests stabilization systems, electro-hydraulic elevation and transverse system, recoil system, fire control systems, firing systems, gun launcher system, cupola systems, test equipment, and turret mounted weapons; troubleshoots turret cupola systems with fire control, stabilization, simulator sensor, electrical and air flow filter turret test equipment; troubleshoots, adjusts, removes, and replaces prescribed components of turret systems; cleans and lubricates systems; interprets technical publications; keeps maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in hydraulics, 4 in basic electricity, and 2 in use and care of testing equipment, and additional credit in hydraulics, basic electricity, and mechanics on the basis of institutional evaluation. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associ-

ate degree category, the recommendation is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45T-001

Bradley Fighting Vehicle System
Mechanic
(Improved TOW Vehicle/Infantry
Fighting Vehicle/Cavalry
Fighting Vehicle Turret
Mechanic)

45T10

45T20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Performs maintenance of vehicular-mounted turret armaments including turret weapons systems, fire control systems, and related electrical, mechnical, and hydraulic systems. *Skill Level 10:* Inspects, services, removes, replaces, adjusts, tests, and corrects previously diagnosed malfunctions of sighting and fire control systems and the vehicular-mounted turret electrical, mechanical, and hydraulic systems; cleans and maintains spare parts and hand tools; performs repair techniques as a member of a maintenance team; applies information from technical manuals and common schematic diagrams; completes applicable maintenance forms and records and practices safety precautions. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical supervision to skill level 10 personnel; troubleshoots malfunctions using measuring and diagnostic equipment; interprets complex schematic diagrams; knows and applies map reading, traffic management, radio communication, and convoy operations skills.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

Recommendation, Skill Level 20

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

MOS-45Z-001

Armament Maintenance Supervisor
(Armament Maintenance Foreman)

45Z40

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Supervises, schedules, and assigns work to repair crews engaged in maintenance of all armament materiel; estimates time required to perform specific jobs; procures parts, supplies, and materiel; determines the method of repair or fabrication; applies information contained in technical publications; conducts on-the-job training; applies test and inspection procedures. NOTE: May have progressed to MOS 45Z40 from 45B30 (Small Arms Repairman), 45K30 (Tank Turret Repairman), or 45L30 (Artillery Repairman).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (12/75).

MOS-45Z-002

Armament/Fire Control Maintenance
Supervisor

45Z40

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 634 (Armament Maintenance).

Description

Supervises repair crews engaged in maintenance of all armament/fire control material; understands test and inspection procedure applicable to armament/fire control maintenance; plans and organizes work area layout to gain maximum efficiency and utilization of time, tools, equipment, and personnel; schedules, designs, and coordinates work according to availability and capabilities of personnel and equipment; estimates time required for specific maintenance effort; applies production control and quality control principles and procedures to maintenance operation; performs maintenance-related administrative functions and supervises the preparation of records and reports, and training of lower-skill-level personnel; may supervise 20 or more personnel engaged in mechanical maintenance. NOTE: May have progressed to 45Z40 from 45G30 (Fire Control Systems Repairer), 41C30 (Fire Control Instrument Repairer), or 45K30 (Tank Turret Repairer).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (7/82).

MOS-46D-001

Improved Hawk Mechanical Systems
Repairman

46D20

46D40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 46D was discontinued and its functions were incorporated into MOS 24L, Improved Hawk Launcher and Mechanical System Repairman.)

Career Management Field: 23 (Air Defense Missile Maintenance), subfield 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the electrical, hydraulic, hydropneumatic, mechanical, and electro-mechanical portions of the Improved Hawk system. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances and determines shortcomings and deficiencies with common and system special-design test equipment; performs load-testing, maintenance calibration, and repair of job-related tools and equipment; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, 1 in shop practices, 3 in technical mathematics, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in mechanics, 3 in technical mathematics, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in mechanics, 3 in technical mathematics, 3 in personnel supervision, 3 in human relations, 3 for field experience in management, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (2/76).

MOS-46L-001

Sergeant Electrical-Mechanical
Repairman

46L20

46L40

Exhibit Dates: 10/74–8/77. (Effective 9/77, MOS 46L was discontinued.)

Career Management Field: 21 (Ballistic Missile Repair), subfield 212 (Sergeant Missile Repair).

Description

Summary: Supervises or performs maintenance on the electrical, mechanical, and hydraulic portions of the Sergeant missile system. *Skill Level 20:* Inspects, tests, aligns, and repairs electrical and mechanical portions of the missile rocket motor, control, finds, and drag brakes; performs maintenance of the azimuth orientation system, less theodolite; inspects, tests and adjusts items to specific tolerances and determines shortcomings and deficiencies in electrical, mechanical, and hydraulic assemblies with common and system special-design test equipment; removes malfunctioning assemblies; performs calibration and repairs on tools and equipment; provides technical assistance to support units. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in hydraulic laboratory, 2 in basic electricity laboratory, and 2 in systems maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in hydraulic laboratory, 2 in basic electricity laboratory, and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

MOS-46N-001

PERSHING ELECTRICAL-MECHANICAL REPAIRMAN

46N20
46N40

Exhibit Dates: 10/73-8/77.

Career Management Field: 21 (Ballistic Missile Repair), subfield 211 (Pershing Missile Repair).

Description

Summary: Supervises or performs routine maintenance on the electrical, mechanical, and hydraulics portions of the Pershing missile system. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances; determines shortcomings and deficiencies in electrical, mechanical, electromechanical, hydraulic, pneumatic, and hydropneumatic assemblies, subassemblies, and circuits, using special-design test equipment; repairs or removes, replaces, and determines the serviceability of defective components and parts; performs quality control measures; performs checkouts and inspections of equipment; prepares maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 5-15 persons; establishes workloads and repair priorities; implements quality control measures; conducts on-the-job training; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in mechanical maintenance. Fully qualified to enter an apprentice training program (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, and 3 for field experience in management. Fully qualified to enter an apprentice training program (3/76).

MOS-46N-002

PERSHING ELECTRICAL-MECHANICAL REPAIRER

46N10
46N20
46N30

Exhibit Dates: 9/77-2/85.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), subfield 271 (Ballistic/Land Combat Systems Maintenance).

Description

Summary: Supervises or performs maintenance on the electrical, mechanical, and hydraulic portions of the Pershing missile system. *Skill Level 10:* Performs maintenance on the Pershing missile system erecter-launcher, some missile sections, systems structures, missile containers, ground handling equipment, power distribution sets, and related training devices; inspects, tests, and adjusts components to specific tolerances; determines short-comings and deficiencies in electrical, mechanical, electromechanical, hydraulic, pneumatic and hydro-pneumatic assemblies, subassemblies, and circuits with common and system special-design test equipment; removes and replaces defective components and parts; prepares maintenance and supply forms and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel; installs equipment modifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor; organizes and conducts on-the-job training; supervises maintenance and inspection teams; establishes and keeps maintenance records.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and equipment, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in use and care of tools and equipment, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and equipment, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and equipment, 1 in personnel supervision, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation; if the duty position was Pershing Electrical-Mechanical Supervisor, 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-46N-003

PERSHING ELECTRICAL-MECHANICAL REPAIRER

46N10
46N20
46N30
46N40

Exhibit Dates: Pending evaluation. 3/85-Present.

MOS-46Q-001

JOURNALIST

46Q10
46Q20
46Q30
46Q40

Exhibit Dates: Pending evaluation. 3/89-Present.

MOS-46R-001

BROADCAST JOURNALIST

46R10
46R20
46R30
46R40

Exhibit Dates: Pending evaluation. 3/89-Present.

MOS-46Z-001

PUBLIC AFFAIRS CHIEF

46Z50

Exhibit Dates: Pending evaluation. 3/89-Present.

MOS-51A-001

CONSTRUCTION AND UTILITIES WORKER

51A10

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 51A was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist; MOS 51C, Structures Specialist; MOS 51N, Water Treatment and Plumbing Systems Specialist; MOS 51R, Electrician; and MOS 52C, Utilities Equipment Repairer.)

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Assists in the performance of various construction and utilities maintenance duties; may have experience in one or more of the following areas: painting, material handling, carpentry, masonry, electricity, sheet metal working, heating and ventilating equipment, refrigeration and air conditioning equipment, water supply, and sewage disposal.

Recommendation

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (12/75).

MOS-51B-001

CARPENTER

51B20

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Fabricates, erects, and maintains wooden articles and structures; examines blueprints, sketches, and drawings; orders materials and tools; performs preventive maintenance on tools and equipment; coordinates carpentry work with journeymen in other fields; assesses damaged articles and structures and determines how to repair them; inspects finished work; explains and demonstrates methods and procedures for construction helpers. NOTE: May have progressed to 51B20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 20 semester hours in carpentry (2/75).

MOS-51B-002

CARPENTRY AND MASONRY SPECIALIST (CARPENTER)

51B10
51B20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 514 (Contruction Engineering).

Description

Summary: Performs general and heavy carpentry or masonry duties in fabrication, erection, maintenance, and repair of wooden and masonry structures, and a variety of wooden articles. *Skill Level 10:* Uses basic carpentry tools and materials in building layout, framing, sheathing, fabricating, and roofing wooden structures; assists in erection of rough timber structures such as trestles, bridges, and wharves; assists in repair and renovation of all types of structures; uses basic masonry tools in construction of concrete walls, piers, and columns; places anchor bolts, rebars, and welded wire mesh; mixes mortar to specifications; lays brick and concrete blocks; maintains concrete mixes; cleans, lubricates, and sharpens woodworking and masonry tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; interprets construction drawings and blueprints; computes material requirements and prepares building layout; constructs wooden or concrete foundation and erects building framework; installs flooring, walls, partitions, exterior siding, roofing, and stairs; fabricates and installs doors, windows, and screens; installs interior finishing such as cabinets, hardware, and wallboard; mixes, pours, finishes, and cures concrete; constructs concrete wall, pier, and column forms; selects mix specifications for mortar and grout; selects brick and concrete block pattern, and joint type; installs lintels and finishes joints; cuts, trims, and faces stone, brick, and concrete blocks; installs and finishes tile; maintains carpentry and masonry tools and publications.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in carpentry, 9 in masonry, and 3 in tool use and care (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in tool use and care, 3 in blueprint reading, 3 in applied mathematics, 9 in carpentry, 9 in masonry, and additional credit in carpentry and masonry on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in blueprint reading, 3 in applied mathematics, and 3 in industrial arts (construction methods) (2/80).

MOS-51C-001

STRUCTURES SPECIALIST

51C20
51C30

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Lifts and moves heavy objects, services cargo handling gear, and positions and joins heavy beams, fabricated pieces or trusses, and other structural assemblies. *Skill Level 20:* Serves as a rigger, using various rigging tools and assemblies and a wide combination of rope, wire rope, knot, and handling gear, including block and tackle; makes rough construction drawings. NOTE: May have progressed to 51C20 from 51A10 (Construction and Utilities Worker). *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a structures specialist; reads construction blueprints and other building plans; joins members by using bolts and rivets or by arc welding; uses oxyacetylene torch; performs preventive maintenance on tool and equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in blueprint reading, 2 in use and care of tools, and 2 in rigging (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in blueprint reading, 2 in use and care of tools, 2 in rigging, 2 in welding, 2 in carpentry, and 1 in construction drafting (6/76).

MOS-51C-002

STRUCTURES SPECIALIST

51C10
51C20

Exhibit Dates: 3/78–9/87. (Effective 9/87, MOS 51C was discontinued.)

Career Management Field: 51 (General Engineering), subfield 514 (Construction Engineering).

Description

Summary: Fabricates, assembles, erects, and repairs rigging devices, trusses, and other structural assemblies, petroleum pipeline systems, and sheet metal items. *Skill Level 10:* Assists in assembly of items used in construction rigging, construction and installation of petroleum pipelines, pumping stations, and fuel storage facilities, and in fabrication of sheet metal items; selects tackle for hoisting using fiber rope, and chain; assembles shears, derricks, gin poles, tripods, scaffolds, and boatswains chairs; assists in construction of towers, tramways, cable ways, and bridges; assists in erection of prefabricated and pre-engineered buildings; clears and stakes pipeline route; inspects, cleans, and maintains pipefitting, riveting, rigging, and other special tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assembles items used in construction rigging and rigid frame structures; constructs and installs petroleum pipelines, pumping stations, and fuel storage facilities; fabricates sheet metal items; interprets construction plans and blueprints; installs valves, manifolds, pressure regulators and pumps.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in construction blueprint reading, 3 in rigging, and 2 in general technology (tools, riveting, drilling, etc.) (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in construction blueprint reading, 3 in rigging, 2 in general technology (tools, riveting, drilling, etc.), and 4 in general construction (2/80).

MOS-51D-001

MASON

51D20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51D was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist.)

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Skill Level 20: Serves as a mason; reads blueprints in order to determine materials required and procedures to be followed; utilizes various tools; prepares proper cement and mortar mix as required and specified; lays blocks and bricks in the construction of foundations and walls; constructs forms and places concrete. NOTE: May have progressed to 51D20 from 51A10 (Construction and Utilities Worker).

Recommendation, Skill Level 20

In the vocational certificate category, 20 semester hours in masonry. In the lower-division baccalaureate/associate degree category, semester hours in masonry and 3 in mathematics (12/75).

MOS-51E-001

CAMOUFLAGE SPECIALIST

51E20
51E40
51E50

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 51E was discontinued and its functions were incorporated into MOS 12B, Combat Engineer, and MOS 12Z, Combat Engineering Senior Sergeant.)

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Constructs, selects, erects, and places decoys, nets, screens, drapes, and other camouflage devices. *Skill Level 20:* Fabricates camouflage materials and decoys; erects such items by rigging and supports; rigs and hoists them into position using anchors and shears of self design and construction, blocks and tackle, highline, and tramway; builds and erects scaffolds; paints, selects and applies garnishing materials with adhesives, and alters surface textures. NOTE: May have progressed to 51E20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; designs and sketches items to be fabricated; requisitions materials and equipment. *Skill Level 50:* Able to perform the duties required for Skill Level 40; interprets and supervises the execution of policy and operation procedures; assists in planning, coordinating, and supervising all company support activities; advises superiors on personnel matters.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in rigging and rough structure fabrication in a millwright or similar curriculum or 2 semester hours in concrete form construction in a carpentry curriculum. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum and 2 in introduction to management (12/75).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum, 3 in introduction to management, and 3 for field experience in management (12/75).

MOS-51F-001

PIPELINE SPECIALIST

51F20
51F40
51F50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51F was discontinued and its functions were incorporated into MOS 51C, Structures Specialist; MOS 51H, Construction Engineering Supervisor; and MOS 51Z, General Engineering Supervisor.)

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Constructs and installs pipelines, pumping stations, and fuel storage facilities. *Skill Level 20:* Clears and prepares right-of-way access and terminal sites; assists in the construction of necessary bridges, ditches, and pipeline cradles; assists in assembling pipelines and installs pumping stations; operates pumps, combats petroleum fires, and exercises safety precautions; uses common and specialized tools. NOTE: May have progressed to 51F20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 15-25 persons; assists in planning pipeline systems; selects pumping station sites and supervises construction and equipment installation; reads blueprints, topographical maps, profile maps, and performance flow charts; supervises work crews and coordinates activities with surveying personnel; inspects completed projects; assists in the demolition of pipeline facilities; conducts on-the-job training; demonstrates and explains pipeline installation and operation; prepares reports pertaining to operations, training, and intelligence. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company of up to 120 persons; plans, coordinates, and supervises all company activities; advises company commander on all enlisted personnel matters and is responsible for all enlisted personnel actions; conducts meetings with subordinate supervisors; directs company administration; initiates corrective actions when necessary; directs training; may also serve as chief instructor in a formal training facility.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in heavy equipment operation, 1 in use and care of tools, 1 in pump maintenance, 1 in fire safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 2 semester hours in heavy equipment operation, 2 in construction methods, 1 in fire safety, and 1 in first aid (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in heavy equipment operation, 2 in blueprint and map reading, 1 in use and care of tools, 1 in pump maintenance, 1 in fire safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in construction management, 3 in personnel supervision, 3 in human relations, 2 in principles of fluid hydraulics, 2 in blueprint and map reading, 2 in heavy equipment operation, 2 in construction methods, 1 in fire safety, and 1 in first aid (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 for field experience in management, 3 in personnel management, and 3 in construction management; and, if the duty assignment was chief instructor at a formal training facility, 3 additional semester hours for an internship in education (6/76).

MOS-51G-001

SOILS ANALYST

51G20

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Surveys, samples, tests, analyzes, evaluates, and classifies soil and aggregates; studies soils with respect to origin, distribution, and composition; performs physical testing and experimental work in field and laboratory to determine engineering characteristics of soils and construction materials such as concrete, aggregate, bituminous, and other base materials; classifies soils according to standard engineering classifications; designs pavement mixes and inspects construction; investigates programs of stabilization and drainage of soils used as foundations for roads, dams, buildings, and other structures; advises on soil use in construction.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in soils, aggregates, and mix design, and 5 in soils, bituminous, and concrete laboratory (12/75).

MOS-51G-002

MATERIALS QUALITY SPECIALIST
(SOILS ANALYST)

51G10
51G20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 511 (Technical Engineering).

Description

Summary: Surveys, samples, tests, evaluates, and classifies soils and aggregates; investigates and recommends solutions for soil stabilization; designs pavement mixes and inspects construction. *Skill Level 10:* Surveys, samples, tests, analyzes, evaluates, and classifies soils and aggregates; studies soils with respect to origin, distribution, and composition; performs physical testing and experimental work in the field and laboratory to determine engineering characteristics of soils and construction materials such as concrete, aggregates, bituminous, and other base materials; classifies soils according to standard engineering classifications. *Skill Level 20:* Able to perform the duties required for Skill Level 10; designs pavement mixes and inspects construction; inspects and investigates problems of stabilization and drainage of soils used as foundations for roads, dams, buildings, and other structures; advises on soil use in construction.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in soil and concrete testing laboratory, 3 in soil classification, 3 in concrete mix design, and 3 in bituminous mix design. In the lower-division baccalaureate/associate degree category, 3 semester hours in soil and concrete testing laboratory (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in soil and concrete testing laboratory, 3 in soil classification, 3 in concrete mix design, 3 in soil stabilization, and 3 in bituminous mix design. In the lower-division baccalaureate/associate degree category, 3 semester hours in soil and concrete testing laboratory, 3 in concrete and bituminous mix design, and 3 in soil engineering (2/80).

MOS-51H-001

CONSTRUCTION FOREMAN

51H40
51H50

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Supervises construction and repair of structures and facilites such as barracks, warehouses, sheds, jetties, wharves, fixed bridges, and storage tanks. *Skill Level 40:* Estimates runoff for drainage areas, supply needs, and time requirements for construction projects; estimates utilities requirements for various types of structures; computes stresses; employs heavy construction equipment, standard construction techniques, and general engineering principles in projects; reinforces existing structures to correct faulty construction or to increase load capacity; enforces safety regulations; has responsibility for on-site utilization and supervision of personnel. NOTE: May have progressed to 51H40 from 51B20 (Carpenter), 51C30 (Structures Specialist), 51D20 (Mason), 51G20 (Soils Analyst), 51R20 (Electrician), or 81B20 (Construction Draftsman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, coordinates, and supervises activities pertaining to organization, training, and technical operation of a construction company; assists in planning construction procedures, specifications, and work schedules, and in determining material needs; schedules use of heavy equipment; conducts on-the-job training by adapting training guides, programs, and tests to fit needs; keeps records of construction projects and training. NOTE: May have progressed to 51H50 from 51H40 (Utilities Foreman), 62N50 (Construction Machine Supervisor), 82B40 (Construction Surveyor), or 00B40 (Diver).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in records administration, 3 in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 9 semester hours in construction management, or 3 semester hours in introduction to management and 6 for field experience in management, and additional credit in management on the basis of institutional evaluation (12/75).

MOS-51H-002

CONSTRUCTION ENGINEERING SUPERVISOR (CONSTRUCTION FOREMAN)

51H30
51H40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Engineering).

Description

Summary: Supervises construction and repair of buildings, warehouses, fixed bridges, port facilities, and petroleum pipelines, and tanks and related equipment. *Skill Level 30:* Supervises construction and repair operations involving single structures or designated elements of military complexes, port facilities, or piepline systems; provides direct supervision to personnel performing duties of carpentry and masonry specialists and of structural specialists; reads and interprets construction drawings; estimates material, time, utility, and labor requirements; computes material stress factors under varying conditions; directs earth-moving machines during minor clearing and leveling operations; inspects structures and facilities to ensure compliance with specifications and quality of workmanship; reinforces existing structures to correct faulty construction or increase load capacity; supervises construction rigging operations; assists in planning pipeline systems and supervises installation and repair of pipelines, pumping stations, and storage tanks; conducts on-the-job training; directs operator maintenance on assigned vehicles; supervises performance of electrical and plumbing services on construction and repair projects. NOTE: May have progressed to 51H30 from 51B20 (Carpentry and Masonry Specialist) or 51C20 (Structures Specialist). *Skill Level 40:* Supervises construction and repair projects involving simultaneous operation of several small elements; interprets construction drawings and specifications; devises network flow diagrams, such as critical path method for company-size or smaller projects; schedules work and equipment; prepares bills of material or material take-off lists; requisitions construction material; records and reports construction progress; coordinates work activities of supporting units; ensures compliance with directives, construction drawings, specifications, and verbal orders; develops and supervises vehicle and equipment operator maintenance program.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in blueprint reading, 3 in construction methods, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in blueprint reading, 3 in construction methods, 3 in personnel supervision, 3 in records administration, 3 in construction project planning, and 3 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in construction project management, 3 in introduction to management, and 6 for field experience in management (2/80).

MOS-51J-001

HEATING AND VENTILATING SPECIALIST

51J20
51J30

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51J was discontinued and its functions were incorporated into MOS 51C, Structures Specialist, and MOS 52C, Utilities Equipment Repairer).

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: Fabricates, assembles, erects, and repairs sheet metal items of tin, copper, terneplate, and metal alloy stock. *Skill Level 20:* Reads blueprints; selects, lays out, cuts, and bends metal stock; beads sheet metal pieces; joins metal sections, utilizing slip joints, rivets, nails, bolts, solder, and weld; uses hand tools and power machines. NOTE: May have progressed to 51J20 from 51A10 (Construction and Utilities Worker). *Skill Level 30:* Able to perform the duties required for Skill Level 20; installs and repairs heating units and nonrefrigerated air conditioning and ventilating units; heating units may be gas, oil, or coal fired, using hot air, steam, or hot water to transfer head; works with other tradesmen in installing electrical controls, blower units, and air ducts.

Recommendation, Skill Level 20

In the vocational certificate category, 20 semester hours in a sheet metal program. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 2 in blueprint reading, 3 in sheet metal laboratory, and 1 in care and use of hand and power tools (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 20 semester hours in a sheet metal program or 15 semester hours in a heating program. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial technology, 3 in technical mathematics, 3 in sheet metal laboratory, 2 in blueprint reading, 2 in heating laboratory, and 1 in care and use of hand and power tools, and additional credit in applied science and personnel supervision on the basis of institutional evaluation (12/75).

MOS-51K-001

PLUMBER

51K20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51K was discontinued and its functions were incorporated into MOS 51N, Water Treatment and Plumbing Systems Specialist; in 3/81, MOS 51K was reestablished - see exhibit MOS-51K-002.) Treatment and Plumbing Systems Specialist.)

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Skill Level 20: Installs and repairs pipe systems and fixtures for water, gas, steam, petroleum, compressed air, and disposable systems for water and waste; cuts, connects, and seals joints; suspends, lays, or insulates cast iron and steel pipe, copper tubing, fiber, cement, or other pipe, and tests for leaks; determines correct pipe and tubing sizes, fitting requirements, proper venting and slopes for flow or drainage; plans work on the basis of furnished construction drawings, specifications, or sketches, using appropriate reference material to select required tools and materials; inspects, maintains, and repairs plumbing systems, including valves and other mechanisms, ruptured pipes and tubing. NOTE: May have progressed to 51K20 from 51A10 (Construction and Utilities Worker).

Recommendation, Skill Level 20

In the vocational certificate category, 34 semester hours in a plumbing program. In the lower-division baccalaureate/associate degree category, 24 semester hours in a plumbing program or sanitation technology curriculum (12/75).

MOS-51K-002

PLUMBER

51K10
51K20

Exhibit Dates: 3/81–Present.

Career Management Field: 51 (General Engineering).

Description

Summary: Installs and repairs plumbing pipe systems and fixtures. *Skill Level 10:*

Assists in installation and repair of pipe systems, plumbing fixtures, and equipment; reads and interprets drawings, plans, and specifications; installs, tests, troubleshoots, and repairs pipe systems for water, air, oil, gas, and sewage; services plumbing tools and equipment; assists in laying and clearing mine fields; primes and emplaces demolitions; constructs and removes wire, obstacles, emplacements, and bunkers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs, maintains, and repairs pipe systems, fixtures, and equipment; explains and demonstrates techniques and procedures used in plumbing and pipefitting; conducts inspections of plumbing facilities.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in general plumbing (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 12 semester hours in general plumbing (9/85).

MOS-51L-001

Heating and Cooling Specialist

51L20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51L was discontinued and its functions were incorporated into MOS 52C, Utilities Equipment Repairer.)

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Installs, maintains, regulates, adjusts and repairs conventional refrigeration equipment, general purpose air conditioning units, and multifuel forced air heaters; disassembles major components, removes and replaces faulty individual parts, and reassembles; repairs electric wiring in control circuits and repairs electro-menchanical controls; prepares and tests brine solutions; performs preventive maintenance on equipment, and organizational maintenance on gasoline engines; utilizes safety procedure applicable to toxic gases, pressurized components and electricity; instructs other personnel in operation of equipment. NOTE: May have progressed to 51L20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 20 semester hours in heating and air conditioning. In the lower-division baccalaureate/associate degree category, 12 semester hours in heating and air conditioning, and additional credit in physical sciences, general mathematics, and supervision on the basis of institutional evaluation (12/75).

MOS-51M-001

Firefighter

51M20

51M40

Exhibit Dates: 10/73–2/78.

Career Management Field: 00 (Exceptional Management Specialties), subfield 000 (Special Assignment).

Description

Summary: Serves as chief or member of a firefighting unit. *Skill Level 20:* Operates all types of extinguishers; knows which extinguishers to use for different types of fires; employs demolition methods when necessary; rescues trapped or injured personnel; administers first aid; employs explosion hazard meter as necessary; records firefighting equipment; maintains equipment in operable condition. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and directs firefighting and rescue units; identifies types of fires; supervises the administration of first aid; supervises maintenance of firefighting and rescue equipment to ensure proper operating condition; inspects for fire regulation violations; recommends and enforces fire prevention regulations; inspects buildings, facilities, and installations that have been damaged by fire to determine the cause of the fire; prepares recurring and special fire reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 5 semester hours in introduction to fire science and fire prevention and 1 in first aid (2/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in introduction to fire science and fire prevention, 3 in first aid, 3 in communication skills, and additional credit in fire science and fire prevention on the basis of institutional evaluation (2/75).

MOS-51M-002

Firefighter

51M10

51M20

51M30

51M40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 513 (Fire Protection).

Description

Summary: Supervises or performs firefighting, rescue, salvage and fire protection operations. *Skill Level 10:* Operates all types of fire extinguishers for different types of fires; administers first aid; performs basic firefighting duties, including selection of nozzles and hoses for applying water or fog stream on various types of fires; maintains firefighting equipment; operates firefighting vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts performance-oriented training sessions; performs as general crew chief in firefighting and investigation of fires. *Skill Level 30:* Performs the duties of fire chief/fire inspector; supervises fire prevention and equipment maintenance; monitors and evaluates training procedures; inspects for fire regulation violations; serves as principal noncommissioned officer of fire company or team chief of crash rescue team, consisting of four or more persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and directs firefighting and rescue units; identifies type of fires; recommends and enforces fire prevention regulators; inspects building facilities and installations after fires to determine damage and cause of fires; maintains records and reports; supervises two or more fire companies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science and 1 in first aid (2/80).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 3 in fire prevention, and 2 in first aid (2/80).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 6 in fire prevention, 2 in first aid, 3 in fire investigation, and 3 in fire administration. In the upper-division baccalaureate category, 3 semester hours in personnel management (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 6 in fire prevention, 2 in first aid, 6 in fire investigation, 6 in fire administration, and 3 in technical report writing or communications. In the upper-division baccalaureate category, 3 semester hours in personnel management, and 3 for field experience in management (2/80).

MOS-51N-001

Water Supply Specialist

51N20

51N40

51N50

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: Produces and distributes potable water to supported field units. *Skill Level 20:* Checks sources of water for suitability; tests and analyzes raw water samples for contamination and other characteristics and identifies necessary treatments; sets up and operates mobile or portable water treatment equipment; checks and controls the process of water purification, including sedimentation, coagulation, pH value, turbidity, chlorination, and filtration; prepares standard solutions for water tests; operates pumps, engines, and vehicles; makes appropriate adjustments, replaces defective water-related components and performs preventive maintenance tasks; makes connections for distribution of purified water to users and maintains supply. NOTE: May have progressed to 51N20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; locates suitable water sources and determines potential supply volume; verifies suitability of actions taken by subordinates in testing, analysis, and treatment of water; supervises the installation, operation, and maintenance of equipment for production and distribution of potable water; prescribes standard or special methods as required; instructs and supervises the training of subordinates, evaluates their performance, and employs personnel management techniques. *Skill Level 50:* Able to perform the duties required for Skill Level 40; assists in planning, coordinating, and supervising all company support activities; advises superiors on personnel matters.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control and 2 in introduction to management (12/75).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control, 3 in introduction to management, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (12/75).

MOS-51N-002

WATER TREATMENT AND PLUMBING SYSTEMS SPECIALIST
(WATER SUPPLY SPECIALIST)

51N10
51N20
51N30

Exhibit Dates: 3/78–2/81.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: Produces and distributes potable water to support field units. *Skill Level 10:* Installs and repairs pipe systems, plumbing fixtures and equipment, and assists in set-up, operation, and maintenance of field water points; must be able to identify types and quantities of materials used and know layout of plumbing fixtures; connects and installs appropriate pipes, valves, couplings, and fittings; installs sanitary fixtures, including all plumbing components; assists in field-site preparation, set-up, and maintenance of water production equipment and performs basic water analysis tests. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower skill level personnel; develops field water sources and water points; operates varied and complex water treatment equipment and produces potable water; analyzes raw water and treated water for various contaminants and determines chemical content and physical characteristics; operates fixed waste-water-treatment facilities; chemically treats waste; performs all organizational maintenance necessary for proper performance of water and waste-water-treatment equipment, including basic electrical, mechanical, hydraulic, and pneumatic control devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises installation, operation, and maintenance of water supply and waste-water-treatment plants and systems; is responsible for the management, repair, and supply and administration of the facilities and prepares reports incident to the proper operation of the treatment systems.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in water purification and 3 in waste treatment. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in water purification, 3 in waste treatment, 3 in water and sewage facilities operation, and 3 in utility plumbing. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification and 3 in water supply (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in water purification, 3 in waste treatment, 3 in utility plumbing, and 6 in water and sewage facilities operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, 3 in personnel supervision, and 3 for field experience in supervision (2/80).

MOS-51N-003

WATER TREATMENT SPECIALIST

51N10
51N20
51N30
51N40

Exhibit Dates: 3/81–2/87. (Effective 3/87, MOS 51N was discontinued and its duties were incorporated into MOS 77W, Water Treatment Specialist.)

Career Management Field: 92 (Petroleum).

Description

Summary: Supervises or performs installation, operation, and maintenance of water supply and treatment equipment and systems. *Skill Level 10:* Assists in water reconnaissance and set-up, operation, and maintenance of water points; assists in site preparations, set-up, operation, troubleshooting, and maintenance of water purification equipment and storage facilities; operates and maintains equipment used in production of potable water in field locations; performs water quality analysis tests. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs, operates, and maintains water supply equipment and systems; provides technical guidance to lower skill-level personnel; conducts water reconnaissance, develops water sources and water points and analyzes both raw and treated water; supervises operation of water purification equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation, operation, and maintenance of water supply and treatment systems; provides direct supervision to individual water team functions; inspects operational condition of equipment and systems; prepares reports incident to the operation and maintenance of water supply systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; develops and supervises operation of area water supply and treatment plan; directs water reconnaissance and water point development for divisional areas; manages operation and insures quality control of water supply and purification activities.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in waste treatment. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in waste treatment, 3 in water and sewage facility operation, and 3 in utility plumbing. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification and 3 in water supply (9/85).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in waste treatment, 3 in utility plumbing, and 6 in water and sewage facility operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, and 3 in personnel supervision (9/85).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in waste treatment, 3 in utility plumbing, and 12 in water and sewage facility operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/85).

MOS-51P-001

UTILITIES FOREMAN

51P40

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Skill Level 40: Plans and supervises the construction, installation, maintenance, and repair of water supply, waste disposal, electrical service, refrigeration, heating, and ventilation systems; estimates material, manpower, and equipment requirements; advises personnel on technical problems encountered; performs or supervises related administrative activities. NOTE: May have detailed knowledge of one or more of the following areas: heating and ventilating, plumbing, heating and cooling, and industrial gas production, through previous MOS experience in the general engineering career management field (51).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in industrial arts, 3 in technical mathematics, 3 in industrial technology (utilities maintenance), and 3 in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in utilities construction management or 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-51P-002

UTILITIES ENGINEERING SUPERVISOR
(UTILITIES FOREMAN)

51P40

Exhibit Dates: 3/78–2/81. (Effective 3/81, MOS 51P was discontinued and its functions were incorporated into MOS's 51H, Construction Engineering Supervisor, and 51N, Water Treatment and Plumbing System Specialist.)

Career Management Field: 51 (General Engineering) subfield 512 (Utilities Engineering).

Description

Skill Level 40: Supervises installation, operation, maintenance, repair, and conducts inspections of utilities systems, including water and sewage treatment plants, interior/exterior electrical distribution systems, building and grounds (including roads and street), air-conditioning and refrigeration, and power generation equipment; may have detailed knowledge of one or more of the above systems; solves installation and maintenance problems; analyzes utility systems; prepares the utility budget and operation and maintenance reports. NOTE: May have progressed to 51P40 from 51R30 (Electrician) or 51N30 (Water Treatment and Plumbing Systems Specialist).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in industrial arts, 3 in technical mathematics, 3 in industrial technology (utilities maintenance), and 6 in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in utilities construction management and 6 for field experience in management (2/80).

MOS-51Q-001

TERRAIN ANALYST

51Q20

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 51Q was redesignated MOS 81Q; see exhibit MOS-81Q-001.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 811 (Drafting).

Description

Compiles, analyzes, and disseminates current and accurate data pertaining to a geographical area or region, including natural terrain features, population and industrial centers, transportation networks, and utility systems, for use in mapping, construction, and other operations; interprets conditions of travel and land use; interprets studies and reports as they relate to terrain and man-made features; coordinates and participates in the preparation of technical and special reports and map overlays; applies engineering techniques in the analysis of aerial photographs and other data; knows the principles of map compilation and interpretation; keeps records and files of completed studies; keeps data current through consultation with pertinent government agencies.

Recommendation

In the lower-division baccalaureate/associate degree category, 8 semester hours in land use planning, 6 in aerial photographic interpretation, 3 in geography, 3 in terrain analysis, 3 in cartography, and 1 in geology. In the upper-division baccalaureate category, 8 semester hours in land use planning and 3 in aerial photographic interpretations. In the graduate degree category, 6 semester hours in research techniques in geography (12/75).

MOS-51R-001

ELECTRICIAN

51R20
51R30
51R40
51R50

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: NOTE: The scope of duties performed in this MOS varies considerably throughout the Army; duties performed may include installation, inspection, maintenance, and repair on low- and high-voltage electrical systems in building and electrical distribution systems. *Skill Level 20:* Duties may include performing user maintenance on electrical test equipment and tools; performing minor maintenance on small electrical motors, generators, and controllers; performing elementary algebraic electrical calculations of voltage, current, resistance, and power; serving as marine electrician aboard vessels; installing low-voltage electrical lighting and outside distribution apparatus and hardware such as cables, conduits, outlets, panels and poles, crossarms, insulators, and conductors; taking emergency action in the event of injury to other persons. *Skill Level 30:* Duties may include those required for Skill Level 20 and installing, maintaining, inspecting, and repairing high-voltage electrical transmission systems; erecting poles and towers for power transmission and maintaining auxiliary equipment; estimating size and capacity of conductors and transformers to serve a specific area; performing cable tests for malfunctions and splicing cable; using electrical instruments to measure voltage, current, and phase angle; using and testing hot-line protective equipment; taking emergency action in case of injury, including first aid for electrical shock. *Skill Level 40:* Duties may include those required for Skill Level 20 or 30 and supervising the installation, maintenance, and repair of high-voltage electric transmission systems; advising on complex construction work, sequence of work operations, and work procedures; instructing subordinates in erection and maintenance of high-voltage electric transmission systems; planning complete installation for wiring of buildings. *Skill Level 50:* Duties may include those required for Skill Level 40 and serving as a first-line supervisor or mid-level manager; establishing workloads and maintenance priorities; implementing quality control measures; conducting on-the-job training; providing technical assistance; serving as the personnel director for over 50 persons.

Recommendation, Skill Level 20

Credit in basic electricity on the basis of institutional evaluation. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity. In the upper-division baccalaureate category, a minimum of 3 semester hours in industrial electricity and electronics (in programs preparing students for careers as power use advisors, electrical equipment sales agents, and company technical representatives). Advanced standing in a constuction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity. In the upper-division baccalaureate category, 6 semester hours in industrial electricity and electronics (in programs preparing students for careers as power use advisors, electrical equipment sales agents, and company technical representatives), and 2 in introduction to management. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity. In the upper-division baccalaureate category, 6 semester hours in industrial electricity and electronics (in programs preparing students for careers as power use advisors, electrical equipment sales agents, and company technical representatives), 3 in introduction to management, and 3 for field experience in management. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-51R-002

ELECTRICIAN

51R10
51R20
51R30

Exhibit Dates: 3/78–2/81.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: Supervises or performs installation and maintenance of electrical systems and equipment. *Skill Level 10:* Installs interior electrical systems and equipment, using conduit, service wire, fuse panels, switches, outlets, junction and outlet boxes; installs service entrances and lighting fixtures; checks operational condition of circuits, using test equipment; splices and taps conductors; if exterior lineman experience is included, assists in exterior electrical construction and service. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises installation; inspects and maintains interior electrical systems; interprets plans; makes sketches of wiring diagrams, specifications, and blueprints; inspects interior system components for compliance with specifications; installs and maintains electric motors and controls; if exterior lineman experience is included, also performs the following duties: maintains exterior electrical distribution systems and equipment; serves as exterior lineman; erects service poles; installs crossarms, insulators, primary conductors, transformers, and service drops; uses components and tools for hotline maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises installation, maintenance, and repair of interior electric distribution systems and equipment; estimates manpower and requirements and prepares bills of materials necessary for electrical construction; plans work assignments; supervises maintenance of special-purpose safety equipment and tools during electrical construction; if exterior lineman experience is included, also supervises installation of underground electrical distribution systems.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (2/80).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in industrial electricity, and 3 in industrial motors and controls (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in industrial electricity, 3 in industrial motors and controls, 3 in industrial electrical and distribution systems, 3 in blueprint reading, and additional credit in related electrical courses on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in industrial electricity, 3 in industrial motors and controls, 3 in industrial electrical and distribution systems, 3 in electrical blueprint reading, 2 in personnel supervision, and additional credit in related electrical courses on the basis of institutional evaluation (2/80).

MOS-51R-003

INTERIOR ELECTRICIAN

51R10

51R20

Exhibit Dates: 3/81–Present.

Career Management Field: 51 (General Engineering).

Description

Summary: Supervises or performs installation and maintenance of interior electrical systems and equipment; installs conduit service drops, fuse panels, switches, outlet, and lighting; follows National Electrical Code for installations. *Skill Level 10:* Installs service entrances from weatherhead to service panel and branch circuits, service protective panels, function and outlet boxes, thin wall, flexible, rigid, metallic, and non-metallic conduit, metallic and non-metallic sheathed cable, switches, outlets, and special electrical equipment; uses test equipment including multimeter, voltmeter, ammeter, and megger to test circuits. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises installation and maintenance of interior electrical systems; provides technical guidance to Skill Level 10 personnel; plans system layout using blueprints, sketches, specifications, and wiring diagrams; inspects systems for proper installation in accordance with the National Electrical Code.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in residential wiring (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in residential wiring (9/85).

MOS-51T-001

TECHNICAL ENGINEERING SUPERVISOR

51T30

51T40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 511 (Technical Engineering).

Description

Summary: Supervises or participates in construction site development, including technical investigation surveying, development of construction plans and specifications, and performing quality control inspections. *Skill Level 30:* Supervises technical engineering relating to construction surveying, drafting, and testing of construction materials; conducts surveys and preliminary engineering inspections; prepares layouts and detail drawings of pavements, structures, buildings, and utility systems from sketches and specified design criteria. Assists in inspection of all phases of construction and repair. NOTE: May have progressed to 51T30 from 51G20 (Materials Quality Specialist), 82B (Construction Surveyor), or 81B (Technical Drafting Specialist). *Skill Level 40:* Able to perform the duties required for SKill Level 30; provides technical guidance to lower-skill-level personnel; plans and supervises preparation and layout of drawings; performs simple load calculations to ensure construction of safe facilities; prepares network flow diagrams, such as critical path method.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in civil engineering technology, 3 in materials testing, 3 in introduction to surveying, 3 in personnel supervision, and 6 in engineering drafting (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in engineering management and 6 in construction project planning (2/80).

MOS-51Z-001

GENERAL ENGINEERING SUPERVISOR

51Z50

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 510 (General Engineering).

Description

Skill Level 50: Provides staff supervision to units engaged in structural building and repair and provision of water and utilities services; serves as principal noncommissioned officer in an engineering combat (heavy) company or in an engineer combat battalion; may serve in an engineer section at engineer brigade or higher headquarters; directs and coordinates activities of staff personnel to insure proper integration of all construction and utility operations; assists in appraisal of training status, construction planning, and material requests; inspects structural facilities and water and utility production and distribution systems; supervises performance of combat engineer missions. NOTE: May have progressed to 51Z50 from 51T40 (Technical Engineering Supervisor), 52E40 (Prime Power Production Specialist), 51P40 (Utilities Engineering Supervisor), 51M40 (Firefighter), 51H40 (Construction Engineering Supervisor), 00B40 (Diver), 62N40 (Construction Equipment Supervisor), or 53B40 (Industrial Gas Production Specialist).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in records administration, 3 in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in construction management, 3 in personnel management, and 6 for field experience in management, and additional credit in engineering and management on the basis of institutional evaluation (2/80).

MOS-52B-001

POWER GENERATION EQUIPMENT OPERATOR/MECHANIC

52B20

52B30

Exhibit Dates: 10/73–9/74.

Career Management Field: 52 (Power Production), subfield 512 (Electric Power Production).

Description

Summary: Operates and performs routine maintenance on general and multipurpose portable generator sets. *Skill Level 20:* Operates and performs preventive maintenance on portable generators, arc welders, and frequency converters equipped with electric motors or with diesel or gas engines; uses mechanical and electrical handtools, and measuring and testing devices; computes voltage, amperage, and resistance; computes electrical power requirements, selects number of generators needed; determines phase rotation and load cable sizes; starts and synchronizes generators and sets control devices to attain power output; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs organizational maintenance on multipurpose portable generators, frequency converters, switch gear, load bands, control panels; uses special tools and test equipment; troubleshoots, adjusts, diagnoses, and replaces assemblies.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in power plant operation. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a power plant operator apprentice training program, 1,000 clock hours of experience and 262 contact hours of related instruction (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in power plant operation. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a power plant operator apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-52B-002

POWER GENERATION EQUIPMENT OPERATOR/MECHANIC

52B10

52B20

52B30

Exhibit Dates: 10/74–2/78. (Effective 3/78, MOS 52B was discontinued and its functions were incorporated into MOS 52D, Power Generation Equipment Repairer, and MOS 63B, Power Generation and Wheel Vehicle Mechanic.)

Career Management Field: 52 (Power Production), subfield 521 (Electric Power Production).

Description

Summary: Operates and performs routine maintenance on general and multipurpose portable generator sets. *Skill Level 10:* Performs as substation electrical helper or power generation helper; performs routine tests and minor repairs on motors, generators, starting and control equipment, and auxiliary equipment; applies fundamentals of AC and DC electricity to motors and generators; loads and unloads tools and equipment; performs preventive maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and performs maintenance on general purpose portable generators, arc welders, frequency converters equipped with AC or DC electric motors, diesel or gasoline engines, and auxiliary equipment; performs mechanical and electrical installations, adjustments, maintenance repairs, or modifications; applies fundamentals of electronics and mechanics; interprets technical manuals and traces schematic diagrams; performs diagnostic tests with specified electronics and pneumatic measuring instruments, including multimeters, amp probes, diode and transistor tester, tachometers, motor-generator testers, pressure guage, and engine-timing equipment; monitors engine and generator operation with the use of various tachometers, voltmeters, current meters, frequency meters, and watt meters; makes the necessary adjustments required to bring engines, generators, and loads within specified values for balanced and efficient operation; employs various mechanic's and electrician's handtools; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots, adjusts, diagnoses, replaces modules, and performs operational tests on equipment; performs maintenance on multi-purpose auxiliary generators, frequency converters, switch gears, load bands, control panels, and equipment; may supervise up to 15 subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in basic mathematics, 2 in basic electricity theory and laboratory, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in power generator systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 2 in power mechanics, 2 in applied electricity, and 2 in applied mechanics. Advanced standing in a power plant operator (electric power and light) apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic electricity theory and laboratory, 4 in power generator systems, 2 in basic mathematics, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power mechanics, 3 in applied electricity, and 3 in applied mechanics. In a power plant operator (electric power and light) apprentice training program, 1,000 clock hours of experience and 300 contact hours of related instruction (6/67).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in basic electrical theory and laboratory, 4 in power generator systems, 2 in basic mathematics, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power mechanics, 3 in applied electricity, and 3 in applied mechanics, and credit in personnel supervision and human relations on the basis of institutional evaluation. In a power plant operator (electric power and light) apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (6/76).

MOS-52C-001

POWER PACK SPECIALIST

52C20

Exhibit Dates: 10/73–2/78.

Career Management Field: 52 (Power Production), subfield 521 (Electric Power Production).

Description

Skill Level 20: Able to perform the duties required for 52B20 (Power Generation Equipment Operator/Mechanic); operates and performs maintenance on gas turbine driven generator sets and power pack units; diagnoses, troubleshoots, repairs, inspects, adjusts, and test-operates equipment; uses voltmeters and ohmmeters; may perform maintenance on related equipment, including internal-combustion engines and refrigeration and air conditioning equipment; applies theory of generators, pneumatics, hydraulics, and multiphase power production; reads electrical schematics and uses engine analyzers.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic electrical theory and laboratory, 4 in power generator systems, 2 in basic mathematics, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power mechanics, 3 in applied electricity, and 3 in applied mechanics, and additional credit in personnel supervision and human relations on the basis of institutional evaluation. In an industrial maintenance electrician apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (6/76).

MOS-52C-002

UTILITIES EQUIPMENT REPAIRER

52C10

52C20

52C30

Exhibit Dates: 3/78–2/84.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on heating and cooling equipment and associated equipment. *Skill Level 10:* Operates and performs maintenance on gas turbine driven generator sets and power pack units; inspects, diagnoses, troubleshoots, repairs, adjusts and test-operates equipment; uses electrical and mechanical test equipment, such as ohmmeters, voltmeters, and engine analyzers; performs maintenance on related equipment, including internal-combustion engines, and refrigeration and air conditioning equipment; applies theory of generators, pneumatics, hydraulics, and multi-phase powei production; reads electrical schematics and mechanical drawings. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel; determines extent of repair and overhaul required; diagnoses and isolates unusual malfunctions; purges and recharges refrigeration systems; repairs and installs heating, refrigerating and air conditioning equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects operational condition of equipment and systems; requisitions, stores, inventories, and issues special tools, test equipment, components, supplies, and provides necessary publications; prepares operation and maintenance reports; plans and schedules work assignments, priorities, inspection procedures, and shop assignments; solves complex installation and maintenance problems of all heating and cooling equipment; supervises from 6 to 14 persons; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in electrical theory and laboratory, 4 in power generator systems, 3 in basic mathematics, 2 in internal-combustion engines, 2 in generator/motor theory and laboratory, 2 in AC theory, 2 in fundamentals of diesel engines, 2 in fundamentals of refrigeration and air conditioning, and 2 in safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, and 3 in air conditioning and refrigeration (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, 3 in air conditioning and refrigeration, 3 in applied electricity, 3 in applied mechanics, and 3 in technical mathematics (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, 3 in air conditioning and refrigeration, 3 in applied electricity, 3 in applied mechanics, 3 in technical mathematics, 3 in personnel supervision, 3 in human relations, and 3 in introduction to management (10/79).

MOS-52C-003

Utilities Equipment Repairer

52C10
52C20
52C30

Exhibit Dates: 3/84–6/86.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Performs or supervises maintenance on refrigeration equipment, air conditioning units, multifuel forced-air heaters, high pressure air compressors, gasoline and diesel engines, and electrical motors. *Skill Level 10:* Performs maintenance primarily on equipment that does not require disassemby for repair; maintenance duties may include some system or equipment disassembly. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises 4-5 Skill Level 10 personnel; supervises maintenance and performs repairs requiring system disassembly, replacing of parts, and rebuilding. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises 25-50 lower-skill-level personnel; performs depot-level maintenance, final testing, and approval of repairs; schedules training; prepares maintenance schedules and inspection reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in air conditioning/refrigeration, 3 in small engine repair, and 3 in power mechanics (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in air conditioning/refrigeration, 3 in small engine repair, and 3 in power mechanics (9/85).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in air conditioning/refrigeration, 3 in small engine repair, 3 in power mechanics, 3 in personnel supervision, and 3 in maintenance management (9/85).

MOS-52C-004

Utilities Equipment Repairer

52C10
52C20
52C30

Exhibit Dates: 7/86–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Performs or supervises maintenance on refrigeration equipment, air conditioning units, multifuel forced-air heaters, high pressure air compressors, gasoline and diesel engines, and electrical motors. *Skill Level 10:* Performs maintenance primarily on equipment that does not require disassembly for repair; maintenance duties may include some system or equipment disassembly. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises 4–5 skill level 10 personnel; supervises maintenance and performs repairs requiring system disassembly, replacing of parts, and rebuilding. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises 25–50 subordinate personnel; performs depot-level maintenance, final testing, and approval of repairs; schedules training; prepares maintenance schedules and inspection reports. May progress to 52C30 from 52C20 or 63J20 (Quartermaster and Chemical Equipment Repairer).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in air conditioning/refrigeration, 3 in small engine repair, and 3 in power mechanics (7/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 5 semester hours in air conditioning/refrigeration, 3 in small engine repair, and 3 in power mechanics (7/88).

Recommendation, Skill Level 30

If progressed to 52C30 from 52C20, use the following credit recommendation: In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 6 semester hours in air conditioning/refrigeration, 3 in small engine repair, 3 in power mechanics, 3 in personnel supervision, and 3 in maintenance management. If progressed to 52C30 from 63J20, use the following credit recommendation: In the vocational certificate category, 1 semester hour in basic electricity laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in small appliance repair, 1 in use and care of hand tools, 1 in use of testing equipment, 3 in personnel supervision, and 3 in maintenance management (7/88).

MOS-52D-001

Power Generation Equipment Repairman

52D20
52D40

Exhibit Dates: 1/73–2/78.

Career Management Field: 52 (Power Production), subfield 521 (Electric Power Production).

Description

Summary: Supervises or performs maintenance on power generation equipment. *Skill Level 20:* Must be able to perform the duties of 52B30 (Power Generation Equipment Operator/Mechanic); repairs power generation equipment; disassembles, repairs, reassembles, tests, adjusts, and inspects major items, assemblies, subassemblies, and components of electrical equipment including motors, generators, portable power generator sets, frequency converters, arc welders, switch gear, electrical load banks, water purification sets, ion exchange units, electrical forklifts, battery charging panels, and light sets; repairs gas turbine, gasoline, and diesel engines; troubleshoots and diagnoses mechanical and electrical malfunctions; disassembles, repairs, and reassembles static and rotating exciters, and static and dynamic AC and DC voltage regulators and related equipment; rewinds AC and DC motors and generators; uses standard and special hand and power tools, and test equipment including gas turbine engine analyzer, automatic electrical tester, oscilloscopes, precision voltage and frequency meters, electronic tachometers, multimeters, and industrial analyzers. NOTE: May have progressed to 52D20 from 52B30 (Power Generation Equipment Operator/Mechanic) or 52C20 (Power Pack Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises repairs, overhauls, disassemblies/assemblies, tests, adjustments, and inspections of power generation equipment; conducts on-the-job training; establishes work priorities, work and shift schedules, shop administrative practices, and inspection procedures; prepares and keeps maintenance forms and records.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in AC/DC motor generator theory and laboratory, 4 in basic electricity/electronics theory and laboratory, 3 in industrial electricity, 2 in basic mathematics, 2 in semiconductor devices, 2 in instrument applications, 2 in fundamentals of small engine repair, 2 in fundamentals of combustion engine repair, 2 in fundamentals of diesel engine repair, 2 in fundamentals of turbine engine repair, and 2 in safety. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 3 in industrial safety, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

MOS-52D-002

Power Generation Equipment Repairer

52D10
52D20
52D30

Exhibit Dates: 3/78–2/84.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Supervises or performs support and maintenance functions of power generating equipment. *Skill Level 10:* Repairs and maintains power generation equipment and associated items such as arc welders, forklifts, and other materials handling equipment in addition to motor generators; determines condition of equipment, cause of malfunction, and need for repair; uses appropriate test procedures and test equipment, including multimeters and compression gauges, hand and power tools; repairs gasoline and diesel engines and electric motors. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel; repairs AC and DC voltage regulators, electrical and electronic load sensing governors, and control circuits; performs technical inspections. *Skill Level 30:* Able to perform the duties required for Skill Level 20; manages and supervises repair operations for power generating and similar equipment; conducts training of lower-skill-level personnel; inspects operational condition of equipment and installations; analyzes problems in power generation and associated equipment through maintenance histories, wiring diagrams and operating characteristics.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in AC/DC motor generator theory and laboratory, 3 in basic electricity/electronics, 2 in basic matematics, 2 in fundamentals of small engine repair, 2 in fundamentals of internal combustion engine repair, and 2 in fundamentals of diesel engine repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics and 3 in fundamentals of power mechanics (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in AC/DC motor generator theory and laboratory, 3 in basic electricity/electronics, 2 in basic mathematics, 2 in fundamentals of small engine repair, 2 in fundamentals of internal combustion engine repair, 2 in fundamentals of diesel engine repair, 3 in industrial electricity, 2 in electrical instrument applications, and 2 in safety. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics, 2 in technical mathematics, 6 in power mechanics, and 2 in industrial electricity (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics, 2 in technical mathematics, 6 in power mechanics, 2 in industrial electricity, 3 in human relations, 3 in personnel supervision, and 3 in introduction to management (10/79).

MOS-52D-003

POWER GENERATION EQUIPMENT
REPAIRER

52D10
52D20
52D30

Exhibit Dates: 3/84–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Supervises or maintains and overhauls power-generation equipment. *Skill Level 10:* Maintains engines by adjusting valves, carburators, ignition points, alternators, regulators, and solenoids; performs maintenance services such as lubrication, oil change, and radiator flushes; repairs small motor generators. *Skill Level 20:* Able to perform the duties required for Skill Level 10; repairs or overhauls starters, alternators, generators, voltage regulators, and control circuits; maintains and repairs diesel engines. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower-skill-level personnel; instructs in the use of tools and test equipment; conducts maintenance training and assigns duties.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in small engine repair (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in small engine repair, 3 in power generation equipment repair, and 3 in diesel engine maintenance (9/85).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in small engine repair, 3 in power generation equipment repair, 3 in diesel engine maintenance, 3 in personnel supervision, and 3 in maintenance management (9/85).

MOS-52E-001

POWER STATION OPERATOR

52E20
52E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 52 (Power Production), subfield 521 (Electric Power Production).

Description

Summary: Operates or supervises operation of substation or generating system. *Skill Level 20:* Operates and maintains generating station equipment; inspects, tests, modifies, and performs installations and preventive maintenance of substation or generating station electrical equipment; starts, stops, and regulates motor, gas engine, deisel engine, and turbine engine driven generators; makes required voltage, power, frequency, and phase compensations in order to maintain specified electrical requirements; performs engine or motor input/output power inspections, tests, and adjustments as needed for providing proper operation of generator; uses fundamental electronics knowledge, schematic tracing, and electronic instruments in performing diagnostic tests on systems, circuits, and components; uses multimeters, oscilloscopes, clamp-on ammeters, insulation testers, generator-motor testers, diode-transistor testers, signal generators, tachometers, impedance bridges, and pressure gauges; troubleshoots and repairs down to actual discrete electronic components in solid-state or saturable reactor voltage regulators; makes adjustments or repairs overall phases of gas engines or deisel engines, including oil changes, ignition system tune-ups, carburetor adjustments, engine disassembly, valve grindings, and starter motor repairs; is qualified to perform preventive maintenance and repairs of other similar electromechanical equipment including arc welders, air conditioners, refrigeration units, dehumidifiers and small engines; as a power station operator, measures, records, and interprets data from electrical, pneumatic, and hydraulic instruments; performs on-site maintenance, including draining oil, cleaning, examining, and replacing minor parts; operates boilers on steam powered floating plants; may be responsible for the supervision of other operators and mechanics. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises operation of generating station, substations, or portable power generators; supervises installations, preventive maintenance, safety, inspections, and parts and equipment requisitioning; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in AC/DC motor generator theory and laboratory, 4 in basic electricity/electronics theory and laboratory, 3 in industrial electricity, 2 in basic mathematics, 2 in semiconductor devices, 2 in instrument applications, 2 in fundamentals of small engine repair, 2 in fundamentals of combustion engine repair, 2 in fundamentals of diesel engine repair, 2 in fundamentals of turbine engine repair, and 2 in safety. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in AC/DC motor generator theory and laboratory, 4 in basic electricity/electronics theory and laboratory, 3 in industrial electricity, 2 in basic mathematics, 2 in semiconductor devices, 2 in instrument applications, 2 in fundamentals of small engine repair, 2 in fundamentals of combustion engine repair, 2 in fundamentals of diesel engine repair, 2 in fundamentals of turbine engine repair, and 2 in safety. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 3 in industrial safety, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

MOS-52E-002

PRIME POWER PRODUCTION SPECIALIST

52E20
52E30
52E40

Exhibit Dates: 3/78–9/90.

Career Management Field: 51 (General Engineering), subfield 512 (Utilities Engineering).

Description

Summary: NOTE: MOS 52E contains four specialties. Each specialty is identified by an Additional Skill Identifier (ASI), a letter and a number appended to the MOS designation. For example, appending ASI S2 to the MOS designation (52E20S2) designates Nuclear Power Plant Mechanic specialty. Addition of ASI S3 designates Nuclear Power Plant Electrician; ASI S4, Nuclear Power Plant Instrument Repairer; and ASI S5, Nuclear Power Plant Health Physicist. General duties for all skill levels of MOS 52E are described below, followed by a specific description for each specialty. Individual holding this MOS supervises, operates, installs, and maintains electric power plant and associated auxiliary systems, and equipment; inspects, adjusts, repairs, and replaces equipment/systems. *Skill Level 20:* Assists in the operation and maintenance of prime power plants and auxiliary systems and equipment; assists in starting, stopping, and regulating diesel engine, gas engine, and turbine engine driven generators to attain power output or perform emergency procedures; assists in controlling instrumentation, power conversion equipment, station service electrical system, associated pumps, and chemical feed systems; observes and interprets instrument readings; maintains records of routine and unusual indications; adjusts temperatures, pressures, flow rates, and process liquid levels by regulating appropriate controls; operates regulatory controls to minimize or eliminate hazards associated with radiation exposure, high pressure steam, and high voltages; inspects, tests, and performs operator preventive maintenance on nuclear and conventional power plant equipment and auxiliary systems and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates and maintains prime power plant; establishes start-up condition in power plants, and auxiliary systems and equipment; starts, stops, and regulates diesel engine, gas engine, and turbine engine driven generators to attain power output or perform emergency procedures; introduces control instrumentation, power conversion equipment, station service electrical systems, associated pumps, and chemical feed systems; brings plant to full power; manipulates nuclear power controls to adjust temperatures, pressures, flow rates, and process liquid levels; performs operator proventive maintenance on nuclear and conventional power plant equipment and auxiliary systems and equipment; conducts on-the-job training program; assists in establishing priorities and planning and scheduling work assignments; assists in establishing shop practices and inspection procedures; performs as shift supervisor in conventional power plant; provides technical guidance to Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation and maintenance of prime power plants and equipment; operates the control room in power plant; supervises preventive maintenance on nuclear/conventional power plant equipment and auxiliary systems and equipment; supervises on-the-job training program; plans, coordinates, and schedules work assignments, priorities, shop practices, and inspection procedures; spot checks work performance and informs subordinates of corrective action; prepares technical reports. For all skill levels: If ASI is S2, Nuclear Power Plant Mechanic, performs the following duties: installs, adjusts, repairs, replaces, and tests the operation of power plant mechanical equipment such as diesel engines, gas turbines, steam turbines, oil-fired high- and low-pressure boilers, oil purification systems, fuel and oil storage and transfer systems, air compressors, pumps, valves, heat exchangers, governing systems, piping systems, and hoisting equipment; perform nondestructive tests on equipment, components, and systems; fabricates parts by machining and welding metals and alloys; employs hand tools, precision-measuring devices, and electrical and pneumatic power tools; interprets schematics and mechanical drawings of equipment and systems to solve maintenance problems; performs as a member of refueling team and assists in preparing radioactive material for shipment and storage; performs scheduled and preventive maintenance on equipment and ensures historical and mechanical records are kept current. If ASI is S3, Nuclear Power Plant Electrician, performs the following duties: applies National Electric Code provisions that govern installation, modifications, and repair of electrical wiring and equipment in power plants; employs work safety practices while performing electrical maintenance; to solve maintenance problems, traces wiring and equipment diagrams related to plant electrical equipment and power distribution systems; troubleshoots electrical equipment by interpreting visual, mechanical, and audible symptoms; interprets mechanical and electrical problems that involve algebraic formulas; wires, repairs, and tests operation of switchgear, circuit breakers, motors, generators, transformers, high- and low-voltage distributors, transmission systems, and protective and synchronizing devices of power plant equipment; solders connections, splices cables, and makes cable and wire runs; installs, maintains, and troubleshoots batteries, inverters, battery chargers and motor generators; calibrates and maintains protective relays and associated auxiliary current transformers, potential transformers control wiring for generators, transformers, and motors; employs equipment such as multimeters, clamp-on ampmeters, meggers, high pot tester, phase rotation indicators, oscilloscopes and protective relay tests sets; performs scheduled preventive maintenance on electrical equipment/components and ensure that historical and maintenance records are kept current; assists in refueling operations and preparing radioactive materials for storage and shipment. If ASI is S4, Nuclear Power Plant Instrument Repairer, performs the following duties: troubleshoots all types of nuclear power plant instrumentation systems, using schematic and wiring diagrams; installs, calibrates, repairs, adjusts, and test instrumentation and control equipment; installs electrical, electronic, and pneumatic instruments; calibrates control, regulatory, and electronic instruments; repairs or replaces circuit wiring, coaxial cables, vacuum tubes, semiconductors, and saturable core devices; employs equipment such as multimeters, oscilloscopes, transistor test sets, signal generators, and pressure and vacuum comparators; adjusts and aligns conventional and solid-state electrical and electronic devices and pneumatic instruments used for motivation and control in other components of systems; interprets mechanical and electrical problems that involve algebraic formulas; interprets radiation survey instrument readings; performs scheduled preventive maintenance on equipment and maintains historical and maintenance records; assists in refueling operations and preparing radioactive materials for storage and shipment. If ASI is S5, Nuclear Power Plant Health Physicist, performs the following duties: monitors and treats process fluids for radioactivity and other impurities; prepares reagents and chemical standards; applies techniques for volumetric, gravimetric, colorimetric, and radio-chemical analysis of water; operates testing equipment and keeps it in operating condition; determines alpha, beta, gamma, and neutron activities in air, water, and solid samples; converts radiation levels into millicuries, interprets results in relation to maximum permissible concentrations prescribed by regulations; computes radiation levels, exposure time limits, accumulated dosages, and radiation counter efficiencies; employs slide rule, logarithm tables, and chemical and algebraic formulas; performs decontamination procedures; establishes and monitors plant radiological safety program; ensures that scheduled preventive maintenance on radiation monitoring equipment is performed; maintains historical and maintenance records; assists in refueling operations and preparing radioactive materials for storage and shipment.

Recommendation, Skill Level 20

If ASI is S2 (Mechanic), see credit recommendation in exhibit AR-1720-0004 in the Army courses volume of GUIDE; if ASI is S3 (Electrician), see exhibit AR-1720-0003; if ASI is S4 (Instrument Repairer), see exhibit AR-1720-0005; if ASI is S5 (Health Physicist), see exhibit AR-1720-0002. In addition, the following credit is recommended: In the vocational certificate category, 6 semester hours in the use and care of hand and power tools and 6 in troubleshooting techniques (mechanical and electrical). In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety and 6 in troubleshooting techniques (mechanical and electrical) (8/81).

Recommendation, Skill Level 30

If ASI is S2 (Mechanic), see credit recommendation in exhibit AR-1720-0004 in the Army courses volume of GUIDE; if ASI is S3 (Electrician), see exhibit AR-1720-0003; if ASI is S4 (Instrument Repair), see exhibit AR-1720-0005; if ASI is S5 (Health Physicist), see exhibit AR-1720-0002. In addition, the following credit is recommended: In the vocational certificate category, 6 semester hours in the use and care of hand and power tools and 6 in troubleshooting techniques (mechanical and electrical). In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 6 in troubleshooting techniques, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in industrial safety (8/81).

Recommendation, Skill Level 40

If ASI is S2 (Mechanic), see credit recommendation in exhibit AR-1720-0004 in the Army courses volume of GUIDE; if ASI is S3 (Electrician), see exhibit AR-1720-0003; if ASI is S4 (Instrument Repairer), see exhibit AR-1720-0005; if ASI is S5 (Health Physicist), see exhibit AR-1720-0002. In addition, the following credit is recommended: In the vocational certificate category, 6 semester hours in use and care of hand and power tools, 6 in troubleshooting techniques (mechanical and electrical), and 2 in technical writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 6 in troubleshooting techniques, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, and 2 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in industrial safety, 3 for field experience in management, and 3 in management problems (8/81).

MOS-52E-003

PRIME POWER PRODUCTION SPECIALIST

52E10
52E20
52E30
52E40

Exhibit Dates: Pending evaluation. 9/90–Present.

MOS-52F-001

TURBINE ENGINE DRIVEN GENERATOR REPAIRER

52F10
52F20
52F30

Exhibit Dates: 3/84–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Performs or supervises maintenance and overhaul of turbine engine driven generator sets and turbine engine prime movers of tactical generator sets. *Skill Level 10:* Performs maintenance on turbine engine driven generator and associated equipment such as turbine engines used as prime movers on other units; troubleshoots mechanical and electrical systems; interprets schematic diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; repairs or overhauls components and assemblies including starters, generators, fuel pumps, exciters, AC and DC voltage regulators, electric and electronic load-sensing governors, contractors, switches, and control circuits; diagnoses faults in systems and components. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical assistance, guidance, and supervision to lower-skill-level personnel; plans and organizes work schedules and assigns duties; establishes maintenance priorties and allocates work loads; performs final inspection and testing of repaired equipment; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 3 semester hours in turbine engine maintenance (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 6 semester hours in turbine engine maintenance (9/85).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical laboratory. In the lower-division baccalaureate/associate degree category, 6 semester hours in turbine engine maintenance, 3 in personnel supervision, and 3 in maintenance management (9/85).

MOS-52G-001

TRANSMISSION AND DISTRIBUTION SPECIALIST

52G10
52G20
52G30
52G40

Exhibit Dates: 3/81–Present.

Career Management Field: 51 (General Engineering).

Description

Summary: Supervises or installs and maintains electrical distribution systems. *Skill Level 10:* Installs and maintains electrical power distribution systems including poles, transformers, guy wires and service drops. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs inspection maintenance and repairs on 'hot' or 'power-on' transmission systems; repairs, calibrates and tests substation equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower-skill-level personnel; supervises power line and security/airport lighting installation; supervises operator-level maintenance on equipment and tools; insures adherence to proper safety and clearance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; estimates project manpower, equipment and materials requirements; coordinates work, maintenance, and planning schedules; advises on construction and maintenance procedures and safety training.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in power line installation and maintenance (9/85).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in power line installation and maintenance (9/85).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in power line installation and maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in maintenance management (9/85).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in power line installation and maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/85).

MOS-52H-001

NUCLEAR POWER PLANT MECHANIC OR OPERATOR

52H20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52H was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), subfield 522 (Nuclear Power Production).

Description

Skill Level 20: Operates and repairs mechanical systems and auxiliary and standby equipment of an Army nuclear power plant; reads schematic diagrams and mechanical drawings; introduces control instrumentation, power conversion equipment, station service electrical system, associated pumps, and chemical feed systems; observes and interprets instrument readings; interprets nuclear, mechanical, and electrical problems involving mathematical formulas; calibrates, adjusts, and tests operation of mechanical equipment, including turbines, control rod drives, pumps, air compressors, heat exchanges, economizers, chlorinators, and diesel-driven auxiliary generating equipment; uses handtools, precision-measuring devices, and electrically and pneumatically operated power tools. NOTE: An individual assigned MOS 52H may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulatons, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and technical writing on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in physics or engineering; and, for those persons with Army certification as a nuclear power plant operator, 15 additional semester hours in physics and/or engineering (6/76).

MOS-52J-001

NUCLEAR POWER PLANT ELECTRICIAN OR OPERATOR

52J20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52J was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), subfield 522 (Nuclear Power Production).

Description

Skill Level 20: Repairs electrical components of Army nuclear power plant equipment; observes instructions and records indications; adjusts temperature, pressures, flow rates, and process liquid levels; applies provisions of National Electrical Code governing installation, modification, and repair of electrical wiring and equipment; traces wiring and equipment diagrams; troubleshoots electrical systems; interprets nuclear, mechanical, and electrical problems involving mathematical formulas; wires, repairs, and tests operation of switchgear, circuit breakers, motors, transformers, generators, high and low voltage distributors, transmission systems, and protective and self-synchronizing devices; solders connections and splices cables; assists in refueling operations. NOTE: An individual assigned MOS 52J may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and technical writing on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in physics or engineering; and, for those persons with Army certification as a nuclear power plant operator, 15 additional semester hours in physics and/or engineering (6/76).

MOS-52K-001

Nuclear Power Plant Instrumentman or Operator

52K20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52K was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), subfield 522 (Nuclear Power Production).

Description

Skill Level 20: Operates controls and equipment and installs and repairs electrical, electronic, and pneumatic instrumentation; establishes startup conditions in power conversion equipment station service electrical system, control instrumentation, associated pumps, and chemical feed systems; observes and interprets instrument readings; operates diesel-driven auxiliary generating equipment; troubleshoots Army nuclear power plant instumentation systems, using schematic and and wiring diagrams; installs, calibrates, adjusts, repairs, and tests instrumentation and control equipment; installs electrical, electronic, and pneumatic instruments; repairs or replaces circuit wiring, coaxial cables, vacuum tubes, semiconductors, and saturable core devices; uses multimeters, oscilloscopes, transistor test sets, signal generators, and pressure and vacuum comparators; interprets nuclear, mechanical, and electrical problems involving mathematical formulas. NOTE: An individual assigned MOS 52K may have extensive additional training and experience as a Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and technical writing on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in physics or engineering; and, for those persons with Army certification as a nuclear power plant operator, 15 additional semester hours in physics and/or engineering (6/76).

MOS-52L-001

Nuclear Power Plant Process Control Specialist or Operator

52L20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52L was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), subfield 522 (Nuclear Power Production).

Description

Skill Level 20: Serves as a health physicist; conducts radiological surveys of personnel, equipment, work areas, and reactor elements, and carries out safety and decontamination procedures; establishes startup conditions in power conversion equipment, station service electrical system, control instrumentation, associated pumps, and chemical feed systems; observes and interprets instrument readings; sustains temperature, pressures, flow rates, and process liquid levels; interprets nuclear, mechanical, and electrical problems; operates diesel-driven auxiliary generating equipment; applies techniques for volumetric, gravimetric, colorimetric, and radiochemical analysis of water; determines alpha, beta, gamma, and neutron activities in air, water, and solid samples; converts radiation levels into millicuries; computes radiation levels, exposure time limits, accumulated dosages, and radiation counter efficiencies; employs slide rule, logarithm tables, and chemical and mathematical formulas; performs decontamination procedures; establishes and monitors plant radiological safety program. NOTE: An individual assigned MOS 52L may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder; also may be specialized in health physics, water chemistry, or instrumentation.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and technical writing on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in physics or engineering and 3 in health physics; and, for those persons with Army certification as a nuclear power plant operator, 15 semester hours in physics and/or engineering (6/76).

MOS-52M-001

Nuclear Power Plant Chief

52M40

52M50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52M was discontinued and its functions were incorporated into MOS 51Z, General Engineering Supervisor, and MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), subfield 522 (Nuclear Power Production).

Description

Summary: Supervises the operation and maintenance of an Army nuclear power plant. *Skill Level 40:* Able to perform the duties required for Skill Level 20 of 52H (Nuclear Power Plant Mechanic or Operator), 52J (Nuclear Power Plant Electrician or Operator), 52K (Nuclear Power Plant Instrumentman or Operator), or 52L (Nuclear Power Plant Process Control Specialist or Operator); when Army-certified as a senior reactor operator, serves as a nuclear power plant shift supervisor or, in a small nuclear power plant, as the maintenance supervisor; supervises operating and maintenance activities and takes appropriate actions to insure efficient and safe operation of the nuclear power plant; prepares technical and administrative reports on nuclear power plant operation and maintenance; instructs subordinates in plant operation and maintenance; makes independent technical decisions on small plant nuclear power facilities maintenance; supervises plant activities in the absence of plant supervisor or superintendent. NOTE: In some cases, an individual assigned 52M40 may NOT be Army-certified as a senior reactor operator and may instead perform the maintenance and special functions required for 52H20, 52J20, 52K20, or 52L20. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the maintenance supervisor in a large nuclear power plant or as the supervisor of a small or large nuclear power plant; serves as the first sergeant of a company; assists in planning, coordinating, and supervising all operations and activities; advises the company commander on all personnel matters; directs and coordinates company administration; directs and conducts on-the-job training; holds meetings with subordinate supervisors to provide instructions and guidance; inspects facilities to insure safety measures are followed; coordinates support activities, such as supply and food service; periodically serves as a chief instructor in a formal training facility.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, 3 in chemistry, 3 in technical writing, and 3 in human relations, and additional credit in personnel supervision on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering; and, for those persons with Army certification as a nuclear power plant operator, 15 additional semester hours in physics and/or engineering (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours in physics or engineering, 6 for field experience in management, 3 in introduction to management, 3 for an internship in education, 3 in industrial arts education (engineering technology), and 3 in health physics; and, for those persons with Army certification as a nuclear power plant operator, 15 additional semester hours in physics and/or engineering (6/76).

MOS-52X-001

Special Purpose Equipment Repairer

52X40

Exhibit Dates: 7/86–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Skill Level 40: Manages special purpose equipment repair facilities; (special purpose equipment includes utilities equipment (air conditioning, heating, refrigeration), power generation equipment, turbine engine driven generators, quartermaster and chemical equipment); supervises 25–60 persons; plans and organizes work area layout; applies production and quality control principles and procedures; trains and advises subordinates; performs maintenance administrative duties, including control of maintenance technical publication file and supervision of the preparation of records and reports.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (7/88).

MOS-53B-001

OXYGEN-ACETYLENE PRODUCTION SPECIALIST

53B20

53B40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), subfield 513 (Industrial Gas Production).

Description

Summary: Operates oxygen-acetylene plants to manufacture gaseous nitrogen, oxygen, and acetylene. *Skill Level 20:* Has some basic knowledge of applied science, such as laws of gases, liquification and separation of air, theory of cooling, fractional distillation, basic instrumentation, chemistry of acetylene, forms of energy, changes of state, theory of carbon dioxide, and hydrogen production; employs safety measures; combats fires caused by chemicals. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; isolates and corrects equipment malfunctions; coordinates plant operations and maintenance; enforces safety rules; writes routine, special, and technical reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in applied science and additional credit on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in applied science, 2 in personnel supervision, and 1 in technical writing, and additional credit on the basis of institutional evaluation (3/75).

MOS-53B-002

INDUSTRIAL GAS PRODUCTION SPECIALIST

53B10

53B20

53B30

53B40

Exhibit Dates: 3/78-8/86.

Career Management Field: 51 (General Engineering).

Description

MOS 53B was discontinued before an evaluation could be scheduled.

Recommendation

Credit may be granted on the basis of institutional evaluation.

MOS-53C-001

CARBON DIOXIDE-HYDROGEN PRODUCTION SPECIALIST

53C20

53C40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 53C was discontinued and its functions were incorporated into MOS 53B, Industrial Gas Production Specialist.)

Career Management Field: 51 (General Engineering), subfield 513 (Industrial Gas Production).

Description

Summary: Operates carbon dioxide-hydrogen production plants. *Skill Level 20:* Operates a mobile production plant to manufacture carbon dioxide, dry ice, and hydrogen; prepares site for equipment installation; positions trailers, and connects piping, hoses, and power lines; starts up, operates, and shuts down gas producing, solidification, and related equipment; changes cylinders and packs solid carbon dioxide; employs safety measures in handling hydrogen and carbon dioxide under high pressure and at extremely low temperatures and knows how to combat petroleum fires; performs preventive maintenance on equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 1-4 carbon dioxide or hydrogen generating complexes; coordinates plant operations and maintenance; enforces safety rules and makes inspections; supervises storage and issue of gaseous and solid products; compiles reports on hydrogen and carbon dioxide generation.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in fire safety, 2 in first aid and chemcial protection, and 2 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical protection and 1 in fire safety (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical protection, 1 in fire safety, and 3 in human relations; if grade E-6 was achieved, 3 additional semester hours in personnel supervision; if grade E-7 was achieved, 3 additional semester hours for field experience in management (6/76).

MOS-54A-001

CHEMICAL OPERATIONS ASSISTANT

54A10

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 54A was discontinued and its functions were incorporated into MOS 54C, Smoke and Flame Specialist; MOS 54D, Chemical Equipment Repairman; and MOS 54E, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Skill Level 10: Assists in technical operations in chemical units such as chemical decontamination, smoke and flame, and laboratory units; assists in the preparation, use, and handling of CBR (chemical, biological, and radiological warfare) weapons and munitions, decontaminants, herbicides, and riot control agents; assists in the operation of and performs preventive maintenance on chemical mechanical equipment, using common hand and power tools; learns, and complies with, safety precautions for handling chemicals and first aid procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in first aid and chemical safety, 2 in mechanical maintenance, and 2 in use and care of tools. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety (5/76).

MOS-54B-001

DECONTAMINATION SPECIALIST

54B20

54B40

54B50

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 54B was discontinued and its functions were incorporated into MOS 54E, Chemical Operations Specialist); effective 9/87, MOS 54B was reestablished with the title Chemical Operations Specialist–see exhibit MOS-54B-002.)

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs activities related to neutralizing and decontaminating harmful chemical agents. *Skill Level 20:* Able to perform the duties required for 54A10 (Chemical Operation Assistant); performs duties related to chemical decontamination; performs standard tests to determine type, degree, and extent of contamination; prepares decontaminants; drives vehicles; determines decontamination levels after treatments; cleans and performs preventive maintenance on decontamination equipment; reads and interprets maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel and equipment involved in a decontamination team of 8-25 persons; instructs in techniques, policies, and procedures of decontaminations; instructs in first aid for toxic warfare casualties; plans decontamination activities; estimates amounts of decontaminants to be used; supervises preparation of the decontamination agents; supervises operation of equipment for applying decontaminating agents; prepares relevant records and reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company; assists in planning, coordinating, and supervising all company activities; advises company commander on all personnel matters; coordinates operation of company food service and supply activities; assists in accomplishing unit training.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance, 3 in use and care of tools, 2 in first aid and chemical safety, and 1 in map reading. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety and 1 in map reading, and additional credit in applied chemistry on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in first aid and chemical safety, and 1 in map reading, and additional credit in applied chemistry on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management (5/76).

MOS-54B-002

Chemical Operations Specialist

54B10
54B20
54B30
54B40
54B50

Exhibit Dates: 9/87–Present.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or operates and maintains both smoke generating equipment and nuclear, biological, and chemical (NBC) detection and decontamination equipment; assists in the establishment, administration, and application of NBC defense measures. *Skill Level 10:* Readies and participates in preparation and operation of smoke generating equipment; performs NBC reconnaissance; operates and maintains identification/detection and decontamination equipment. *Skill Level 20:* Able to perform the duties required for SKill Level 10; plans and organizes smoke generating fuel supply teamwork schedules; assigns duties; instructs and supervises subordinates in work techniques and procedures; supervises reconnaissance/decontamination operations and serves as company NBC operations noncommissioned officer; prepares and evaluates reports; conducts training; assists in computation of radiation factors; observes operating efficiency and preparedness of unit; instructs and supervises in work techniques and procedures; prepares, processes, and distributes NBC intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; controls and coordinates supply and resupply efforts; supervises and coordinates maintenance of assigned equipment; responsible for reports concerning fuel and fog oil supplies; computes and plots NBC data; supervises reconnaissance and decontamination squads, and serves as an advisor. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans and organizes smoke platoon operations; assigns work to subordinates according to their capabilities; assigns work, establishes priorities, and inspects smoke production for compliance with operational procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports covering unit activities; assists command and staff officers in continuous appraisal of chemical operations and training situations; supervises NBC decontamination platoon; monitors NBC company technical operations, and serves as NBC advisor; reviews, consolidates, and prepares technical, personnel, and administrative reports and coordinates logistical needs. *Skill Level 50:* Able to perform the duties required for Skill Level 40; conducts operations and intelligence functions; prepares and maintains maps and operations information of NBC units and activities; prepares operations and inspection reports; prepares tactical NBC plans and training material; collects, interprets, analyzes, and evaluates NBC intelligence data; provides technical advice in handling, transporting, and storing chemical munitions; maintains NBC staff journals, files, records, and reports.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (9/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision and 1 in technical writing (9/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 2 in technical writing, 1 in records management, and 2 in human relations (9/88).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in technical writing, 1 in records management, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/88).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in management problems (9/88).

MOS-54C-001

Smoke and Flame Specialist

54C20
54C40
54C50

Exhibit Dates: 10/73–2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Operates or supervises the operation of smoke and flame equipment to provide smokescreens or flame support in combat operations. NOTE: Able to perform the duties required for 54A10 (Chemical Operations Assistant). *Skill Level 20:* Serves as smoke generator operator; operates and performs preventive maintenance on smoke and flame equipment; selects location to set up smoke equipment and smoke munitions; makes adjustments to smoke generators to obtain desired screening smoke; evaluates smokescreen effectiveness; serves as flame fuel equipment operator or as flamethrower driver; identifies targets and assists in loading and firing self-propelled flamethrowers; maintains flamethrowing equipment in operating condition; follows safety precautions and administers first aid for injury from chemical agents; reads maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor for a smoke section or platoon or a flamethrower section or platoon; prepares map overlays; supervises the transportation of smoke generating and flame equipment; assigns personnel; directs and conducts training; assists officers in the continuous appraisal of chemical operations and training; keeps records and prepares technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serving as operations sergeant, supervises activities pertaining to organization, training, and technical operations of chemical smoke generator battalion; serving as the first sergeant of a company, is a mid-level manager responsible for personnel actions, unit training, supplies, inspections, and tactical operations and directly supervises approximately 8-10 noncommissioned officers; may serve as a chief instructor in a formal training facility. NOTE: May have progressed to 54C50 from 54B40 or 54B50 (Decontamination Specialist).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in first aid and 1 in use and care of tools (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in first aid and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 2 in instructional methods (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, 1 semester hour in first aid and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 3 for public speaking, and 2 in instructional methods. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management (6/76).

MOS-54C-002

Smoke and Flame Specialist

54C10
54C20

Exhibit Dates: 3/77–2/81.

Career Management Field: 54 (Chemical).

Description

From 3/77 to 2/81, MOS 54C was discontinued for use in the active Army and retained for use in the Reserve Forces only; it was not evaluated during this time period. Exhibit MOS-54C-003 covers the dates 3/81–Present.

Recommendation

Credit may be granted on the basis of institutional evaluation.

MOS-54C-003

Smoke Operations Specialist

54C10
54C20
54C30
54C40

Exhibit Dates: 3/81–9/87. (Effective 9/87, MOS 54C was discontinued and its functions were incorporated into MOS 54B, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or operates and maintains smoke generating equipment in the field. *Skill Level 10:* Readies and participates in preparation and operation of smoke generating equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; plans and organizes smoke generating and fuel supply teamwork schedules; assigns duties; instructs and supervises subordinates in work techniques and procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; controls and coordinates supply and resupply efforts; supervises and coordinates maintenance of assigned equipment; responsible for reports concerning fuel and fog oil supplies. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans and organizes smoke platoon operations; assigns work to subordinates according to their capabilities; assigns work, establishes priorities, and inspects smoke production for compliance with operational procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports covering unit activities; assists command and staff officers in continuous appraisal of chemical operations and training situations.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (11/86).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision and 1 in technical writing (11/86).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 2 in technical writing, 1 in records management, and 2 in human relations (11/86).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in technical writing, 1 in records management, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/86).

MOS-54D-001

CHEMICAL EQUIPMENT REPAIRMAN

54D20
54D40
54D50

Exhibit Dates: 10/73–2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Repairs or supervises the repair of chemical equipment. NOTE: Able to perform the duties required for 54A10 (Chemical Operations Assistant). *Skill Level 20:* Performs maintenance on chemical equipment, such as gas masks, smoke generators, and flamethrowers, and on decontaminating equipment; inspects, tests, adjusts, and cleans equipment; disconnects and assembles equipment components such as carburetor, fuel pump, or furnace assembly; uses common handtools; performs rough repair of damaged metal parts, such as sawing and soldering; sews canvas pieces to repair gas masks; replaces irreparable components, such as broken gas mask eyepieces. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises from 9 to 40 persons involved in the repair of chemical equipment and may serve as a maintenance inspector; establishes priorities and assigns work; requisitions supplies; establishes work methods and performance standards; directs and conducts on-the-job training; keeps maintenance records and prepares technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serving as a first sergeant of a company, is a mid-level manager responsible for operations, personnel actions, unit training, supplies, and inspections; makes recommendations to officers on all related matters; holds meetings with subordinate noncommissioned officers to provide them instructions and guidance.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, 1 in use and care of tools, and 1 in map reading (basic surveying). In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in human relations, 3 in personnel supervision, 2 in instructional methods, and 2 in first aid and chemical safety (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management (6/76).

MOS-54D-002

CHEMICAL EQUIPMENT REPAIRER
(CHEMICAL EQUIPMENT REPAIRMAN)

54D10
54D20

Exhibit Dates: 3/77–8/80. (Effective 9/80, MOS 54D was discontinued and its functions were incorporated into MOS 63J, Quartermaster Equipment Repairer.)

Career Management Field: 63 (Mehcnaical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Repairs or supervises repair of chemical equipment such as compression spray units, internal-combustion engines, generators, and detection instruments; has knowledge of atomic structure, radiation theory and effects, chemical agents and first aid. *Skill Level 10:* Performs maintenance on chemical equipment such as smoke generators, flamethrowers, gas masks, decontamination equipment and dispersers; inspects, tests, adjusts, cleans, and lubricates equipment; maintains or replaces equipment components such as carburetor, fuel pump, or furnace assembly; uses common or specialized hand tools and test equipment; reads and uses technical literature in diagnosing and repairing equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; may supervise up to 15 Skill Level 10 personnel; performs technical inspection of chemical equipment; maintains records of maintenance performed.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, and 1 in care and use of tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, and 1 in care and use of tools (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, and 1 in care and use of tools; if the duty assignment was chemical equipment repair foreman, 2 semester hours in personnel supervision (5/78).

MOS-54E-001

CHEMICAL STAFF SPECIALIST

54E20
54E40
54E50

Exhibit Dates: 10/73–2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or assists in the establishment, administration, and application of chemical, biological, and radiological health programs. *Skill Level 20:* Supervises communities during emergencies and disasters; prepares reports and maintains records; understands chemical toxicology, radiation dangers, and the effect of weather on chemical and radiation hazards; uses testing and detecting equipment; identifies physiological and behavioral effects of chemical agents and administers first aid to affected personnel. NOTE: May have progressed to 54E20 from 54A10 (Chemical Operations Assistant). *Skill Level 40:* Able to perform the duties required for Skill Level 20; uses advanced techniques for detecting, identifying, and analyzing chemical agents; as a first-line supervisor, trains personnel and plans and coordinates the acquisition, storage, and use of chemical and radiological agents and materials. NOTE: May have progressed to 54E40 from 54E20, 54B40 (Decontamination Specialist), 54C40 (Smoke and Flame Specialist), 54D40 (Chemical Equipment Repairman), or 92D40 (Chemical Laboratory Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; as an experienced senior supervisor, trains several hundred personnel, appraises the effectiveness of technical operations involving chemical agents and materials, and analyzes chemical and radiological data. NOTE: May have progressed to 54E50 from 54E40 or 54D50 (Chemical Equipment Repairman).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in administration or management, 3 in biology, 3 in cartography or meteorology, 3 in educational techniques, 3 in general chemistry, 3 in health science, 3 in physics, and 6 in laboratory techniques (2/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in biology, 3 in cartography or meteorology, 3 in educational techniques, 3 in general chemistry, 3 in physics, 6 in administration or management, 6 in health sciences, and 9 in laboratory techniques (2/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in biology, 3 in cartography or meteorology, 3 in educational techniques, 3 in general chemistry, 3 in physics, 6 in administration or management, 6 in health sciences, and 9 in laboratory techniques (2/75).

MOS-54E-002

CHEMICAL OPERATIONS SPECIALIST

54E10
54E20
54E30
54E40
54E50

Exhibit Dates: 3/77-2/81.

Career Management Field: 54 (Chemical).

Description

Summary: Operates or supervises the use of chemical equipment such as smoke generators, flamethrowers, and decontamination equipment; assists in establishing, administering, and applying health programs in the chemical, biological, and radiological areas. *Skill Level 10:* Prepares liquid and dry decontaminants; operates power driven decontaminating apparatus and chemical and radiological detection equipment; assists in the establishment and operation of personnel decontamination station; performs maintenance on associated equipment; understands chemical and radiological hazards; has knowledge of biological vectors, nomograms, and map reading; identifies physiological and behavioral effects of agents and administers first aid. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as supervisor in groups of 8 - 15 persons; prepares intelligence reports; assists in analysis of reports, records, maps, and overlays relating to chemical, nuclear, biological activities; maintains files and records; prepares meteorological fallout predictions and computes chemical agent requirements for special operations; assists in computations of radiation factors. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing the duties of 54E20 and 54C20 (Smoke and Flame Specialist); supervises decontamination of equipment, supplies, and terrain zones; supervises operation of chemical equipment; supervises the organizing, training, and functioning of specialized units in nuclear or chemical operations; prepares reports, supply and maintenance records, and training records; assists in planning for employment of chemical personnel units; collects and analyzes information and data and coordinates special support functions with larger military groups. NOTE: May have progressed to 54E30 from 54E20 or 54C20 (Smoke and Flame Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; must be able to supervise personnel performing the duties of 54E30 and 92D30 (Chemical Laboratory Specialist); uses advanced techniques for detecting, identifying, and analyzing chemical agents; plans, coordinates, and supervises organization, training, and employment of chemical personnel units; instructs in methods techniques and policies; assists commanders and staff in preparing plans and written documents for tactical operations. NOTE: May have progressed to 54E40 from 54E30 or 92D30 (Chemical Laboratory Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer in a unit of 100 - 150 persons or to high level staffs; appraises the effectiveness of technical operations involving chemical agents; analyzes chemical, biological, and radiological reports and data.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, and 3 in applied mathematics. In the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, and 3 in applied mathematics (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 2 in records administration, 3 in human relations and 3 in personnel supervision (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 3 in records administration, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, credit as follows: If the person progressed to 54E40 from 54E30, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 3 in records administration, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 in educational techniques; if the person progressed to 54E40 from 92D30, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, 1 in chemical safety, and 3 in educational techniques; if served as a section chief, 3 additional semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, credit as follows: If the person progressed to 54E40 from 54E30, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 3 in records administration, 3 in human relations, 3 in personnel supervision, 6 for field experience in management, and 3 in educational techniques; if the person progressed to 54E40 from 92D30, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, 1 in chemical safety, 3 for field experience in management, and 3 in educational techniques; if served as a section chief, 3 additional semester hours in human relations, 3 in personnel supervision, and 3 for field experience in managment. In the upper-division baccalaureate category, 3 semester hours for field experience in managment, 3 in personnel management, and 3 in management problems (5/78).

MOS-54E-003

NUCLEAR, BIOLOGICAL, AND CHEMICAL (NBC) SPECIALIST

54E10
54E20
54E30
54E40

Exhibit Dates: 3/81-9/87. (Effective 9/87, MOS 54E was discontinued and its functions were incorporated into MOS 54B, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or operates and maintains nuclear, biological, and chemical (NBC) detection and decontamination equipment; assists in the establishment, administration, and application of NBC defense measures. *Skill Level 10:* Performs NBC reconnaissance; operates and maintains identification/detection and decontamination equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises reconnaissance/decontamination operations and serves as company NBC operations noncommissioned officer; prepares and evaluates reports; conducts training; assists in computation of radiation factors; observes operating efficiency and preparedness of unit; instructs and supervises in work techniques and procedures; prepares, processes, and distributes NBC intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; computes and plots NBC data; supervises reconnaissance and decontamination squads, and serves as an advisor. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises NBC decontamination platoon; monitors NBC company technical operations, and serves as NBC advisor; reviews, consolidates, and prepares technical, personnel, and administrative reports and coordinates logistical needs.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (11/86).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision and 1 in technical writing (11/86).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 2 in technical writing, 1 in records management, and 2 in human relations (11/86).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in technical writing, 1 in records management, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/86).

MOS-54Z-001

CHEMICAL SENIOR SERGEANT

54Z50

Exhibit Dates: 3/81–8/87. (Effective 9/87, MOS 54Z was discontinued and its functions were incorporated into MOS 54B, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Skill Level 50: Supervises chemical operations; supervises duties performed by MOS 54C40 (Smoke Operations Specialist) or MOS 54E40 (NBC Specialist); conducts operations and intelligence functions; prepares and maintains maps and operations information of NBC units and activities; prepares operations and inspection reports; prepares tactical NBC plans and training material; collects, interprets, analyzes, and evaluates NBC intelligence data; provides technical advice in handling, transporting, and storing chemical munitions; maintains NBC staff journals, files, records, and reports.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in introduction to management, and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in organizational behavior, and 3 in technical communications (11/86).

MOS-55B-001

AMMUNITION STORAGE AND OPERATIONS SPECIALIST

55B20

55B30

55B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 55 (Ammunition).

Description

Summary: Receives, inspects, classifies, stores, and issues ammunition; keeps records of warehouse transactions. *Skill Level 20:* Under supervision, works as a storekeeper, controlling stock and keeping inventory data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; functions as a senior storekeeper with a minimum of supervision; prepares and maintains files and special records systems; operates office equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line supervisor of storage facility personnel; organizes and manages warehouse operations; has in-depth knowledge of storage systems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office skills (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in office skills (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in office skills, records management, or personnel supervision. In the upper-division baccalaureate category, 3 semester hours in business administration (2/75).

MOS-55B-002

AMMUNITION SPECIALIST
(AMMUNITION STORAGE AND OPERATIONS SPECIALIST)

55B10

55B20

55B30

55B40

Exhibit Dates: 10/74–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Receives, inspects, classifies, stores, and issues ammunition; keeps records of warehouse transactions. *Skill Level 10:* Serves as an ammunition storage assistant or records clerk; assists in the receipt, storage, issue, and maintenance of all types of conventional and chemical ammunition, ammunition components, and explosives; loads, unloads, stacks, and stores ammunition supplies and explosives, including guided missiles, using materials handling equipment; prepares ammunition for shipment by bracing and staying loads; inventories ammunition in storage; assists in upkeep of operations area and facilities; applies safety precautions to ammunition storage, handling, and maintenance; assists in the routine destruction of unserviceable and irreparable conventional and chemical ammunition and explosives. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs emergency destruction of ammunition; prepares periodic statistical reports on issue, receipt and storage functions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower-skill-level personnel; plans and organizes ammunition storage facilities and maintenance operations; estimates requirements for personnel, tools, equipment, and supplies; supervises the establishment and maintenance of ammunition stock control records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises ammunition supply operations, including maintenance of non-nuclear ammunition; performs as technical advisor; prepares activity reports; assigns duties to subordinate personnel; supervises the setting up and camouflaging of ammunition supply and maintenance facilities.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in explosives (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management (6/76).

MOS-55D-001

EXPLOSIVE ORDANCE DISPOSAL SPECIALIST

55D10

55D20

55D30

55D40

55D50

Exhibit Dates: 3/76–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Supervises or performs disposal activities related to explosive devices. *Skill Level 10:* Assists in the location, identification, rendering safe, removal, and destruction of explosive ordnance other than nuclear fission or fusion materials; uses detection instruments to determine hazards and to define or delineate exclusion areas; decontaminates explosive devices as required; assists in isolating explosive and/or contaminated areas; removes obstructions surrounding explosive devices; makes photographs and radiographs; operates and performs maintenance on explosive disposal equipment, tools, and vehicular equipment, including radiac equipment, radios, and chemical detection equipment; cooperates with and supports law enforcement agencies and protection services. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs render-safe and disposal procedures for nuclear devices; destroys or neutralizes unserviceable and irreparable explosive conventional devices; reads and interprets radiographs, diagrams, drawings and technical literature; identifies all explosives by appearance and markings; performs radiation monitoring and evaluates existing and potential hazards associated with nuclear devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises 4 or more subordinate personnel; prepares technical intelligence and incident reports; develops and/or modifies render-safe procedures for conventional explosive devices; conducts classes; assists in unit administration, supply, security, and record management; assumes command of an explosive disposal team. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 5 or more subordinate personnel; performs administrative and supervisory activities for the disposal unit including personnel, supply, maintenance, security, training, and management; consolidates, edits, and reviews disposal reports; maintains liaison with supporting security units; coordinates operations and movements; prepares order and operating procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises entire disposal operation unit under direction of unit commander; coordinates operations and movements; supervises activities of several disposal teams over a wide geographical area; oversees and supervises coordination and liaison with supporting units; assumes command of unit in absence of commander.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in explosives or mechanical technology and 1 in photography (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in explosives or mechanical technology, 2 in blueprint interpretation, and 1 in photography; if the duty assignment was nuclear explosive ordnance specialist, 3 additional semester hours in nuclear technology (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in technical writing, 2 in maintenance management, 3 in human relations, and 3 in public speaking (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in radiation physics, 3 in introduction to management, and 3 for field experience in management (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing, 3 in maintenance management, 3 in human relations, 3 in public speaking, and 6 for innovative explosive devices. In the upper-division baccalaureate category, 3 semester hours in radiation physics, 3 in introduction to management, and 6 for field experience in management (6/76).

MOS-55G-001

Nuclear Weapons Maintenance Specialist

55G10

55G20

55G30

55G40

Exhibit Dates: 10/73–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Supervises or performs maintenance and surveillance of nuclear weapons, nuclear weapons trainers, and associated electrical, mechanical, and nuclear components. *Skill Level 10:* Assembles, tests, and adjusts electrical and mechanical components to insure proper operation; uses common and specialized handtools, power tools, and test equipment; performs surveillance and monitoring operations for radioactive matter; applies appropriate safety procedures; packages, unpacks, paints, and stencils weapons, components, and containers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; test-operates weapons components; receives, stores, and inspects (preissue and preload) nuclear components; uses radioactive survey equipment; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower-skill-level personnel in MOS 55G and 35F (Nuclear Weapons Electronics Specialist); calculates workloads, coordinates work activities, and makes assignments; prepares training charts, documents, and materials; strictly adheres to regulations and appropriate inspection techniques and procedures in the maintenance, modification, repair, transportation, and maintenance calibration of nuclear weapons and associated trainers, testers, and handling equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises, coordinates, and inspects maintenance facilities, activities, operations, and productivity; helps plan all maintenance activities; serves as an electronics technical advisor; reviews safety and fire regulations, standing operating procedures, and the utilization of equipment, and recommends changes; has office management responsibilities, including records and forms management, correspondence, security standards, and personnel processing.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in mechanical maintence, 2 in electrical maintenance, 2 in use and care of hand tools, power tools, and test equipment, 1 in safety practices and procedures, and 1 in shop operations. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in toxic material handling and 1 in nuclear technology. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in safety practices and procedures, 2 in electrical maintenance, 2 in use and care of hand tools, power tools, and test equipment, 2 in shop operations, and 1 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in maintenance management, 3 in human relations, 2 in toxic material handling, and 1 in nuclear technology, and additional credit in nuclear technology on the basis of institutional evaluation. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in maintenance management, 3 in human relations, 3 in office management, 3 in personnel supervision, 2 in toxic material handling, and 1 in nuclear technology, and additional credit in nuclear technology on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

MOS-55R-001

Ammunition Stock Control and Accounting Specialist

55R10

55R20

55R30

Exhibit Dates: 9/82–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Supervises, performs or assists in ammunition stock control and accounting duties. Duties are related to receipt, storage, issue and distribution of conventional and specific munitions, guided missiles and large rockets, munitions components, packaging materials, and explosives. *Skill Level 10:* Performs ammunition supply stock control and accounting duties using both automated and manual procedures; prepares and posts accountable stock records; prepares and processes issue, receipt, adjustment and rewarehousing documents as well as shipping documents and transaction and stock status reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; prepares periodic reports by compiling statistics on issue, receipt, adjustment, and storage functions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises manual and automated stock control operations; assigns duties and instructs subordinates in proper work techniques and procedures; plans and organizes work schedules and performs as technical advisor.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in supply procedures (4/86).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to inventory control (4/86).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to inventory control, 2 in records management, and 2 in personnel supervision (4/86).

MOS-55X-001

Ammunition Inspector

55X30

55X40

Exhibit Dates: 3/76–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Conducts inspections and tests to determine the serviceability of conventional and non-nuclear special ammunition, components, and related package materials. *Skill Level 30:* Inspects ammunition to determine deterioration; evaluates safety procedures; inspects incoming and outgoing ammunition shipments; inspects magazines, storage sites, and surrounding areas for storage safety; imspects ammunition destruction sites for safety condition; selects ammunition samples for tests, evaluations, or investigations; instructs in surveillance and safety techniques; performs function tests of selected ammunition items; maintains files. NOTE: May have progressed to 55X30 from 55B30 (Ammunition Specialist), 55D30 (Explosive Ordance Disposal Specialist), or 55G30 (Nuclear Weapons Maintenance Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as the principal advisor on ammunition surveillance and safety matters and provides technical guidance to subordinate personnel; reviews safety requirements; coordinates surveillance activities with civilian authorities and inspectors.

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in explosives, 3 in supply procedures, 3 in quality control, and 3 in safety inspection procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 1 in office procedures (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 in office procedures (6/76).

MOS-55Z-001

AMMUNITION SUPERVISOR

(AMMUNITION FOREMAN)

55Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 55 (Ammunition)

Description

Skill Level 50: Serves as the principal supervisor and advisor for the receipt, issue, classification, storage, surveillance, maintenance, disposition, and decontamination of conventional ammunition and nuclear and non-nuclear special ammunition; advises on packaging and rigging loads for movement by all types of transportation; assists in the selection and layout of ammunition storage facilities; recommends employment of and requirements for technical assistance teams, labor, equipment, and supplies; assists in the preparation of plans, policies, and procedures; prepares and reviews evaluations and reports on operations and training activities; analyzes ammunition stock with automatic data processing data; advises commander on all enlisted personnel matters. NOTE: May have progressed to 55Z50 from 55B40 (Ammunition Specialist), 55G40 (Nuclear Weapons Maintenance Specialist), or 55X40 (Ammunition Inspector).

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in business administration, 3 in human relations, and 6 for field experience in management (6/76).

MOS-57D-001

SAWYER

57D10

57D20

57D40

57D50

Exhibit Dates: 10/74–2/78. (Effective 3/78, MOS 57D was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist, and MOS 51H, Construction Engineering Supervisor.)

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Performs logging and sawmill operations. *Skill Level 10:* Serves as a lumberjack helper; assists in felling trees; trims branches; saws trunks into logs; lashes logs to skids or trucks and drags or hauls logs to sawmill; saws and stacks lumber at mill. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as lumberjack, millwright, timber cruiser, or lumber grader; distinguishes different species of trees and chooses proper saws; fells trees; grades lumber; services logging and sawmill equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 15 or more persons involved in logging and sawmill operations; understands the effects of logging operations on the terrain and selects cutting areas, taking into consideration the types of lumber required, efficiency, and protection of the terrain from overcutting; calculates lumber content of logs and estimates board footage of standing trees based on diameter and height; supervises drying and storing of lumber; explains and demonstrates logging and sawmill techniques. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager serving as first sergeant of a company; assists in planning, coordinating, and supervising company activities; advises commander on all personnel matters and handles personnel activities; holds meetings with subordinates and supervisors to provide them instructions and guidance; directs training.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in use of tools and credit in a lumber specialist, saw filer, sawyer, or millwright program on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, credit in forest resources technology or forest management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in use of tools and 2 in shop mathematics, and credit in a lumber specialist, saw filer, sawyer, or millwright program on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 in forest management, and additional credit in forest resources technology on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (6/76).

MOS-57E-001

LAUNDRY AND BATH SPECIALIST

57E10

57E20

57E40

57E50

Exhibit Dates: 10/74–2/77.

Career Management Field: 57 (Field Services), subfield 571 (Services).

Description

Summary: Performs or supervises laundry, bath, and inpregnation functions and related activities at fixed and mobile locations. *Skill Level 10:* Assists in the operation of laundry and bath equipment; operates fumigation and delousing equipment; assists in the maintenance of related equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates mobile laundry and bath equipment; troubleshoots and maintains related equipment; uses washing, impregnation, and contamination solutions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises field units providing laundry, bath and fumigation services; selects suitable operational sites; supervises setting up field units and equipment; coordinates the scheduling of personnel; supervises preventive maintenance of laundry, impregnation, fumigation, and bath equipment; supervises the training of personnel in techniques and operations; prepares reports related to laundry and bath operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as a mid-level manager, advises superiors on personnel matters, coordinates the operation of food service and supply operations; receives and maintains personnel reports; assists in conducting unit training.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (11/75).

Recommendation, Skill Level 20

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours in introduction to management, and 3 for field experience in management (11/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to management, 2 in personnel management, 3 in records administration, 1 in first aid, and 2 in safety techniques. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (11/75).

MOS-57E-002

Laundry and Bath Specialist

57E10
57E20
57E30
57E40
57E50

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), subfield 762 (Service).

Description

Summary: Performs or supervises laundry, bath, decontamination and reimpregnation functions. *Skill Level 10:* Operates laundry and bath equipment; operates fumigation and delousing equipment; installs, inspects, and operates generators, compressors, water pumps and water heaters; cleans, lubricates and performs preventive maintenance on laundry, bath and related equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines laundry sites, suitable water supplies, drainage, parking sites, and concealment; prepares facility layout; supervises marking, classifying, and washing operations; directs use of washing formulas, soaps, detergents, and other materials; establishes work priorities; prepares work schedules. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations of medium-size unit; supervises and coordinates with medical authorities; determines personnel requirements and plans and supervises training program. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-size units; establishes, evaluates and monitors unit training and preventive maintenance programs; prepares appropriate reports, operation plans, and orders; monitors mobile laundry and renovation operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer in field service company; advises superiors on personnel matters; assists in conducting unit training.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in institutional laundry (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in institutional laundry (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 2 in record keeping. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 2 in record keeping. In the upper-division baccalaureate category, 2 semester hours in introduction to management and 6 for field experience in management (5/78).

MOS-57F-001

Memorial Activities Specialist

57F10
57F20
57F40
57F50

Exhibit Dates: 10/74–2/76.

Career Management Field: 57 (Field Services), subfield 572 (Memorial Activities).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities; prepares topographic sketches and map overlays for temporary cemetery planning and for site searches and recovery operations. *Skill Level 10:* Under supervision, performs as a mortuary assistant. *Skill Level 20:* Able to perform the duties required for Skill Level 10; functions as a mortuary technician alone or as a senior team member. *Skill Level 40:* Able to perform the duties required for Skill Level 30; functions as a first-line supervisor of a mortuary operation; prepares reports and maintains records. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as a mid-level manager, plans, organizes, and directs mortuary service operations and is responsible for administrative services for subordinate staff.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit in mortuary sciences and map reading on the basis of institutional evaluation (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 3 semester hours in mortuary sciences and 3 in physical anthropology (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences and 3 in physical anthropology, and additional credit in mortuary sciences, speech, map reading, and report writing on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences and 3 in introduction to management (11/75).

Recommendation, Skill Level 50

In the vocational certificate category, 12 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary sciences, 3 in physical anthropology, and 3 in office administration, and additional credit in mortuary sciences, speech, map reading, and report writing, on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, and 3 for field experience in management (11/75).

MOS-57F-002

Memorial Activities Specialist

57F10
57F20
57F40
57F50

Exhibit Dates: 3/76–2/77.

Career Management Field: 57 (Field Services), subfield 572 (Memorial Activities).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities. *Skill Level 10:* Under supervision, serves as a mortuary assistant, assisting in the recovery, transportation, identification, and interment of remains. *Skill Level 20:* Able to perform the duties required for Skill Level 10; functions as a mortuary technician alone or as a team member; reads or indicates the location of graves on maps, sketches, or overlays; takes fingerprints or prepares teeth chart; writes descriptions of physical and anatomical characteristics; operates x-ray apparatus and camera. *Skill Level 40:* Able to perform the duties required for Skill Level 20; functions as a first-line supervisor of a mortuary operation; prepares topographical sketches and map overlays; prepares reports and records on processed remains, grave location, registers, master locator files, and memorial activities work. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a mid-level manager, directing and supervising mortuary activities operations; coordinates operations with combat units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and credit in mortuary sciences on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences, 3 in physical anthropology, 2 in anatomy and physiology, and 1 in map reading (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary sciences, 3 in physical anthropology, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in technical report writing, 2 in anatomy and physiology, and 1 in map reading. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences and 3 in introduction to management (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, 12 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 3 in physical anthroplogy, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in technical report writing, 2 in anatomy and physiology, and 1 in map reading. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in personnel management, 3 in introduction to management, 3 in mortuary sciences, and 3 in records administration (5/76).

MOS-57F-003

Graves Registration Specialist

57F10
57F20
57F30
57F40
57F50

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), subfield 762 (Service).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities. *Skill Level 10:* Serves as a mortuary assistant in recovery, transportation, identification, and interment of remains; reads or indicates the location of graves on maps, sketches, or overlays; determines recovery locations; records identification characteristics including fingerprints, skeletal and dental charts; operates cameras and assists x-ray operations; assists in burials, excavating of graves and cemetery maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises search and recovery operations for remains; instructs in special handling, marking, and shipping of contagious disease cases and contaminated remains; prepares location sketches and overlays; prepares work schedules and assigns personnel to work positions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-size graves registration activities; serves as graves registration noncommissioned officer in staff position; assists in post-mortem examinations; assists in special criminal investigations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-size graves registration activities; advises on health requirements for subordinates; coordinates and advises on military burials; assists in review of mortuary services contracts. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises memorial affairs and graves registration activities; provides technical and administrative advice and assistance on graves registration matters including acquisition of land for temporary cemeteries, and facility, manpower, and equipment requirements; establishes and maintains official records; serves on special boards and councils relative to technical activities; prepares reports on memorial affairs and graves registration activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in mortuary sciences and 1 map reading (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences, 1 in map reading, 2 in physical anthropology, and 2 in anatomy and physiology. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary science, 1 in map reading, 2 in physical anthropology, 3 in human relations, 2 in personnel supervision, and 2 in anatomy and physiology. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences and 3 for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, 12 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 2 in physical anthropology, 3 in human relations, 3 in personnel supervision, 2 in anatomy and physiology, and 1 in map reading. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, 3 for field experience in management, and 3 in personnel management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, 12 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 2 in physical anthropology, 3 in human relations, 3 in personnel supervision, 2 in anatomy and physiology, 1 in map reading, and 2 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, 6 for field experience in management, 3 in management, 3 in personnel management, and 3 in records administration (5/78).

MOS-57H-001

Cargo Handler

57H20
57H40
57H50

Exhibit Dates: 10/73–2/74.

Career Management Field: 65 (Transportation), subfield 651 (Terminal Service).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 20:* Performs the duties of rigger, longshoreman, member of a hatch gang, or assistant hatch foreman. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises one or more hatch gangs of longshoremen in loading and unloading cargo, employing stowage plans, loading plans, manifests, documentation forms, reports, and other cargo handling forms. *Skill Level 50:* Able to perform the duties required for Skill Level 40; equivalent to an assistant to a port captain or a marine operations specialist; plans, coordinates, and supervises all activities related to the stowage, loading, and discharging of dry cargo.

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours for a practicum in personnel management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel management, 3 in office management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in office management. In the graduate degree category, 3 semester hours in organization and management (2/75).

MOS-57H-002

Terminal Operations Specialist

57H10
57H20
57H40
57H50

Exhibit Dates: 3/74–2/76.

Career Management Field: 65 (Transportation), subfield 651 (Terminal Service).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 10:* Loads and unloads supplies and equipment from ships, docks, beaches, boxcars, aircraft, and warehouses; assists cargo checker; employs safety procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs the duties of rigger, longshoreman, member of a hatch gang, or assistant hatch foreman. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises one or more hatch gangs of longshoremen in loading and unloading cargo, employing stowage plans, loading plans, manifests, documentation forms, reports, and other cargo handling forms. *Skill Level 50:* Able to perform the duties required for Skill Level 40; equivalent to an assistant to a port captain or specialist; plans, coordinates, and supervises all activities related to the stowage, loading, and discharging of dry cargo.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours for a practicum in personnel management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, 13 semester hours in cargo handling, stowage and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel management, 3 in office management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in office management. In the graduate degree category, 3 semester hours in organization and management (5/76).

MOS-57H-003

Terminal Operations Coordinator

57H10
57H20
57H30
57H40

Exhibit Dates: 3/76-9/87. (MOS 57H has been redesignated MOS 88H; see exhibit MOS-88H-001.)

Career Management Field: 64 (Transportation), subfield 641 (Surface Operation).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 10:* Serves as cargo handler and checker; loads, unloads, checks, and tallies cargo; uses slings, nets, hooks, pallets, spreaders, lifting bars, winches, hoists, and other cargo-handling equipment; employs safety procedures; signals winchman, hoistman, or cargo equipment operator where to move cargo. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as hatch foreman or senior cargo checker and enforces safety practices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized terminal operation work force by planning and organizing work schedules, assigning duties, and designating work groups (hatch gangs) as required for each operation; advises on handling of all types of cargo and demonstrates techniques and use of equipment; coordinates heavy lift equipment and special terminal operations gear; prepares technical, personnel, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large terminal work force normally consisting of 56 or more subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 2 in report writing, 2 in cargo planning, 2 in cargo processing and documentation, and 1 in transportation of dangerous materials (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in records administration, 3 in report writing, 3 for field experience in management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials (5/76).

MOS-61B-001

Watercraft Operator

61B20
61B30
61B40

Exhibit Dates: 10/73-9/74.

Career Management Field: 65 (Transportation), subfield 653 (Marine).

Description

Summary: Performs the deck duties of an ordinary seaman, able seaman, and deck hand; operates towboats. *Skill Level 20:* Rigs tows; operates and performs preventive maintenance on deck machinery; performs tasks requiring marlinspike seamanship; is lead deck hand on towing vessels. *Skill Level 30:* Able to perform the duties required for Skill Level 20; works as a lookout or helmsman; plots courses; knows the rules of the road; skills are comparable to those of able seaman (tugboat) and second-class towboat operator. *Skill Level 40:* Able to perform the duties required for Skill Level 30; can be in complete charge of towing vessels up to 300 gross registered tons; steers vessels; manages the crew; provides berthing and unberthing assistance to large vessels; plans vessel maintenance; ensures the safety of vessels and barges.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in seamanship (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in seamanship and 3 in basic navigation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in seamanship, 3 in basic navigation, and 3 in advanced navigation. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation and 3 in basic management (2/75).

MOS-61B-002

Watercraft Operator

61B10
61B20
61B30
61B40

Exhibit Dates: 10/74-9/87. (MOS 61B has been redesignated MOS 88K; see exhibit MOS-88K-001.)

Career Management Field: 64 (Transportation), subfield 642 (Marine Operations).

Description

Summary: Operates and performs deck duties on Army watercraft and, in some instances, amphibians. *Skill Level 10:* Performs general seaman duties; under close supervision, assists in docking, unloading, and anchoring watercraft; assists in loading and unloading cargo; stands lookout watch; assists in inspecting, servicing, and operating fire equipment, lifeboats, and rafts; performs preventive maintenance on and inspections of Army watercraft; maneuvers Army watercraft; uses simple sounding devices, aids to navigation, steering compass courses, and running lights; communicates with stations ashore and afloat, using accepted communications equipment and techniques; applies basic water safety and rescue procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and dispatches Army watercraft and, under close supervision, allocates and operates Army watercraft for a specific mission in accordance with navigational and communications rules and principles; keeps records of watercraft status and movements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of watercraft and small boat crew; knows capabilities and limitations of Army watercraft and assigns and dispatches them accordingly; provides berthing and unberthing services to large or oceangoing vessels; computes fuel requirements and plans maintenance; knows procedures for abandoning ship, including sea rescue and lifeboat operations; supervises embarking and debarking of troops; instructs subordinate personnel in watercraft operational practices, procedures, and techniques. NOTE: Some Skill Level 30 personnel are trained as operators of large amphibian vehicles and can supervise their operation. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the operations of a large boat crew or assists in controlling Army watercraft operations; coordinates work activities; reviews, consolidates, and prepares technical, personnel, and administrative reports; supervises up to 20 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in seamanship, 1 in piloting and navigation, 1 in communications, and 1 in safety (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, and 1 in safety (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation and 3 in human relations (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation, 3 in human relations, 3 in marine management, 3 for field experience in management, and 3 in personnel supervision (6/76).

MOS-61C-001

MARINE ENGINEER

61C20
61C30
61C40

Exhibit Dates: 10/73-2/76.

Career Management Field: 65 (Transportation), subfield 653 (Marine).

Description

Summary: Supervises or performs maintenance and repair of GM Series 71 and similar-size marine diesels, small gas engines, and auxiliary equipment on harbor towing and deep sea towing vessels. NOTE: Able to perform the duties required for 61B10 (Watercraft Operator). *Skill Level 20:* Performs routine maintenance such as changing strainers and filters and installing bearings and bushings as required; monitors engine room equipment to assure proper operation; skills are comparable to those of a licensed oiler on a towing vessel, an unlicensed engineer on towing vessels of 200 gross registered tons and under, an assistant mechanic in a marine diesel engine shop, or an outside machinist in a shipyard. *Skill Level 30:* Able to perform the duties required for Skill Level 20; tears down engines and auxiliary equipment and replaces or repairs parts as necessary; skills are comparable to those of a head mechanic in a marine diesel repair shop and are related to those of an auto mechanic. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises engine room operations on a towing vessel; advises on complex repair problems; instructs repairmen in proper maintenance procedures and safety techniques; applies production and quality control procedures to maintenance operations; skills are comparable to those of a foreman in a marine diesel repair shop or an assistant port engineer for a towing company.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in internal-combustion engine principles (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in internal-combustion engine operation, 3 in internal-combustion engine principles, 3 in internal-combustion engine repair, and 3 in basic refrigeration (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in internal-combustion engine operation, 3 in internal-combustion engine principles, 3 in internal-combustion engine repair, and 3 in basic refrigeration. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic management (2/75).

MOS-61C-002

WATERCRAFT ENGINEER

61C10
61C20
61C30
61C40

Exhibit Dates: 3/76-9/87. (MOS 61C has been redesignated MOS 88L; see exhibit MOS-88L-001.)

Career Management Field: 64 (Transportation), subfield 642 (Marine Operations).

Description

Summary: Supervises or performs maintenance on propulsion systems and auxiliary equipment of marine vessels, and in some instances, on amphibians. *Skill Level 10:* Under close supervision, performs maintenance on Army watercraft; applies safety precautions pertinent to starting, stopping, and operating main diesel engines, electrical machinery, and other auxiliary components installed on board Army watercraft; reads and records pressures and temperatures to insure safe and efficient operation of machinery; uses hand and power tools; assists in performing preventive maintenance inspections and correcting maintenance shortcomings and deficiencies on watercraft. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; computes fuel consumption, tank capacities, and pumping rates for loading and discharging; maintains a working knowledge of damage control, fire prevention, and federal, state, and local environmental pollution control regulations; adjusts or troubleshoots malfunctioning diesel engines, electrical machinery, and auxiliary equipment; makes emergency repairs or takes emergency damage control measures at sea; performs soldering and pipefitting; uses precision tools; interprets technical publications; replaces engine and auxiliary equipment subassemblies; performs preventive maintenance inspections on watercraft; in some instances, may also perform these duties on amphibians. *Skill Level 30:* Able to perform the duties required for Skill Level 20; evaluates job performance of subordinate enginemen; maintains a reference library of technical manuals and service bulletins; interprets technical blueprints; troubleshoots, repairs, purges, recharges, and tests watercraft refrigeration systems; uses special test equipment and instruments in repairing diesel engines and accessory items; assists supervisor in engineering maintenance functions; plans and organizes work schedules and assigns duties to subordinates; instructs subordinates in work production and quality control procedures; is capable of supervising a medium-sized watercraft maintenance facility; establishes physical layout of work site and ensures maintenance of an efficient, clean, and safe work environment; requisitions, issues, stores, and maintains records of supplies and equipment; coordinates work activities with other maintenance elements; recommends changes to technical publications as required; in some instances, may also perform these duties on amphibians. *Skill Level 40:* Able to perform the duties required for Skill Level 30; sueprvises a large marine maintenance facility; performs managerial duties as indicated in previous skill levels; estimates and prepares preliminary budget forecasts of supply and maintenance activities; allocates funds and resources for the efficient operation of supply and maintenance activities; establishes operating procedures on the basis of directives and information received from superiors.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in internal-combustion engine principles, 1 in internal-combustion engine operation, and 1 in shipboard operations (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 4 in internal-combustion engine operation, and 5 in shipboard operations, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, and 3 in human relations, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, 3 in human relations, 3 in introduction to management, 3 in personnel supervision, and 3 for field experience in management, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

MOS-61F-001

MARINE HULL REPAIRER
(MARINE HULL REPAIRMAN)

61F10
61F20
61F30
61F40

Exhibit Dates: 3/76-8/83. (Effective 9/83, MOS 61F was deleted and its functions were incorporated into MOS 44B, Metal Worker, and MOS 44E, Machinist.)

Career Management Field: 64 (Transportation), subfield 642 (Marine Operations).

Description

Summary: Repairs hulls and accessories of Army watercraft and amphibians. *Skill Level 10:* Assists in the repair of all types of marine hulls and accessories; assists in laying out, measuring, cutting, shaping, and fabricating plastic and metal structures and parts; joins, fastens, and caulks new or repaired portions of the ship's hull by pinning, bolting, cementing, riveting, or welding; cleans, finishes, and preserves metal surfaces; employs working drawings to produce required shape dimensions, and fit of plates, planking, framing, and fitting. *Skill Level 20:* Able to perform the duties required for Skill Level 10; repairs and inspects marine hulls and accessories and provides technical guidance to Skill Level 10 personnel; performs inspections to identify defects and to determine supplies and equipment required to effect maintenance; examines repaired hulls and assessories to insure that repaired watercraft and amphibians are seaworthy. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small facility involved in repairing marine hulls and accessories; estimates repair work in terms of time, material, manpower, and priorities; plans and organizes work schedules and assigns duties to subordinate personnel; instructs and supervises subordinates in work techniques and procedures; requisitions, issues, stores, and maintains records of supplies and equipment; prepares maintenance records, reports, and work orders; reviews, consolidates, and prepares technical, personnel, and administrative reports; performs nondestructive testing. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans, directs, and coordinates the activities of a large facility involved in repair of marine hulls and accessories; plans and directs marine salvage operations on stranded or sunken craft; estimates all costs and establishes priority of tasks; supervises and directs nondestructive testing on harbor craft and amphibians.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in welding theory, 3 in gas welding, 3 in inert gas welding, 3 in vessel fabrication and construction, and 3 in vessel maintenance (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in welding theory, 3 in gas welding, 3 in inert gas welding, 3 in vessel fabrication and construction, and 3 in vessel maintenance (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 in personnel supervision (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 for field experience in management, 3 in maintenance management, and 3 in personnel supervision (6/76).

MOS-61Z-001

MARINE SENIOR SERGEANT

61Z50

Exhibit Dates: 10/73–9/87. (MOS 61Z has been redesignated MOS 88Y; see exhibit MOS-88Y-001.)

Career Management Field: 64 (Transportation), subfield 642 (Marine Operations).

Description

Skill Level 50: Is a mid-level manager responsible for approximately 150 subordinate personnel engaged in watercraft operation and maintenance; assists in planning, implementing, and coordinating administrative activities, operations, and training programs; prepares, edits, and consolidates reports, records, plans, and training materials. NOTE: May have progressed to 61Z50 from 61B40 (Watercraft Operator), 61C40 (Watercraft Engineer), or 61F40 (Marine Hull Repairman).

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 in records administration; if the duty assignment was chief instructor, 3 additional semester hours for an internship in education (6/76).

MOS-62B-001

ENGINEER EQUIPMENT REPAIRMAN

62B10
62B20
62B30
62B40
62B50

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Maintains and repairs construction and off-the-road equipment. *Skill Level 10:* is a heavy equipment repairman helper; changes oil and filters; lubricates equipment; drains and flushes radiators; repairs tires and tubes; uses pioneer tools, winches, and related equipment; serves as a recovery vehicle or wrecker crewman; serves as a toolroom keeper. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects equipment for damage and wear; services and adjusts engine, clutches, carburetors, fuel systems, cooling systems, electrical components, brakes, and transmission assemblies; rigs construction equipment; repairs or replaces wheel bearings; operates recovery vehicles and wreckers; uses oxyacetylene and electric welding equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects, disassembles, and repairs power transmission units, engines, gears, shafts, and track and steering assemblies; reconditions and assembles such units as final drives, hydraulic systems, and crawler assemblies; uses precision measuring devices and power shop tools. *Skill Level 40:* Able to perform the duties required for Skill Level 30; organizes and coordinates maintenance shop activities; establishes work schedules and priorities; instructs and supervises subordinate personnel; applies quality and production control procedures; test-operates repaired equipment; supervises keeping of records; prepares reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; assists superiors in establishing maintenance policies and procedures; instructs subordinate supervisors; plans, coordinates, and oversees all maintenance activities; conducts on-the-job training; may serve as a chief instructor in a mechanical maintenance school.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of tools and 3 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 3 semester hours in heavy equipment mechanics. In a heavy equipment mechanic apprentice training program, 700 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in basic welding, and 6 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic welding and 6 in heavy equipment mechanics. In a heavy equipment mechanics apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in basic welding, and 15 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic welding and 15 in heavy equipment mechanics, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In a heavy equipment mechanic or a heavy-duty truck mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in records administration, 3 in welding, and 15 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 1 semester hour in records administration, 2 in personnel supervision, 3 in welding, and 15 in heavy equipment mechanics, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or a diesel truck mechanic (3/75).

Recommendation, Skill Level 50

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in records administration, 3 in welding, and 15 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 1 semester hour in records administration, 3 in welding, 3 in personnel supervision, and 15 in heavy equipment mechanics, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation; if the duty assignment was chief instructor, a minimum of 3 semester hours for field experience in education and additional credit in education on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or a diesel truck mechanic (3/75).

MOS-62B-002

CONSTRUCTION EQUIPMENT REPAIRMAN
(ENGINEER EQUIPMENT REPAIRMAN)

62B10
62B20
62B30
62B40

Exhibit Dates: 9/75–2/78.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on engineer construction equipment, including powered bridging equipment. *Skill Level 10:* Performs maintenance on gasoline, diesel, and electrically powered engineer construction and associated equipment; performs preventive maintenance, including changing oil, replacing oil filters and air cleaners, draining and flushing radiators, and tightening body and chassis clamps and bolts; inspects, disassembles, repairs, and reassembles carburetors, fuel systems, cooling systems, electrical systems, transmission assemblies, and brake systems; reconditions and assembles such units as clutches, steering clutches, final drives, crawler assemblies, hydraulic systems, and track and stabilizer assemblies; uses hand tools, test equipment, powered shop tools, and oxyacetylene and electrical welding equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; diagnoses malfunctions and determines the level of maintenance to be performed; establishes work priorities; writes work orders and makes assignments; instructs subordinate personnel in inspection, maintenance, and testing practices and procedures; applies quality and production control procedures; performs final inspection of repaired equipment; supervises keeping of work records; prepares reports of unit activities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises engineer equipment maintenance and repair activities of a large unit, depot, or subordinate units; supervises between 15 and 60 mechanics.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in heavy equipment mechanics, 1 in basic welding, and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in heavy equipment mechanics and 1 in basic welding. In a heavy equipment mechanic or diesel mechanic apprentice training program, 500 clock hours of experience and 315 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a heavy equipment mechanic or diesel mechanic apprentice training program, 1,500 clock hours of experience and 315 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in heavy equipment mechanics, 3 in welding, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 15 semester hours in heavy equipment mechanics, 3 in welding, 2 in personnel supervision, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation. In a heavy equipment mechanic or diesel mechanic apprentice training program, 6,000 clock hours of experience and 550 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 15 semester hours in heavy equipment mechanics, 3 in welding, 3 in personnel supervision, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in heavy equipment management, on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or diesel mechanic on the basis of employer or trade association performance examination (12/75).

MOS-62B-003

CONSTRUCTION EQUIPMENT REPAIRER

62B10
62B20
62B30
62B40

Exhibit Dates: 3/78–Present.

Career Management Field: 63 (Mechanical Maintenence), subfield 633 (Machine Maintenance).

Description

Summary: Supervises or performs maintenance on engineering construction equipment, including powered bridging equipment and power generation equipment. *Skill Level 10:* Performs maintenance on gasoline, diesel, and electrically powered construction and associated equipment; performs preventive maintenance, including all servicing; isolates malfunctions by using appropriate electric or hydraulic diagnostic equipment and technical publications; inspects, disassembles, repairs, and reassembles carburetors, fuel systems, cooling systems, electrical systems, transmission assemblies, and brake systems; reconditions and assembles clutches, steering clutches, final drives, hydraulic systems, and crawler assemblies; removes and overhauls engines; uses hand tools, test equipment, powered shop tools, and oxyacetylene and electrical welding equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs and records results of technical inspections; uses and maintains specialized shop equipment, test sets, and technical publications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and inspects maintenance of engineering construction equipment; determines extent of repair and overhaul needed for equipment; controls requisitioning, storage, inventory of tools and supplies; plans and schedules work assignments and priorities; performs complex diagnosis and repair of all equipment; supervises record keeping and prepares activity reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides general management and supervision for maintenance on all engineering construction equipment, power generation equipment, and associated items; observes performance of lower skill level personnel; ensures compliance with safety regulations and practices; inspects work to ensure compliance with standard operating procedures, safety standards and technical publications; analyzes productivity and work quality; participates in research and development activities.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in heavy equipment mechanics, 1 in basic welding, and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in heavy equipment mechanics and 1 in basic welding (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in heavy equipment mechanics, 1 in basic welding, and 1 in use and care of tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in heavy equipment mechanics and 1 in basic welding (7/79).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in use and care of tools, and 1 in records maintenance. In the lower-division baccalaureate/associate degree category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in records maintenance, and 2 in personnel supervision (7/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in records maintenance, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (7/79).

MOS-62C-001

ENGINEER MISSILE EQUIPMENT SPECIALIST

62C20
62C30
62C40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 62C was discontinued and its functions were incorporated into MOS 52C, Utilities Equipment Repairer, and MOS 62B, Construction Equipment Repairer.)

Career Management Field: 52 (Power Production), subfield 521 (Electric Power Production).

Description

Summary: Installs, maintains, and repairs air compressors, gasoline engines, air conditioning units, elevators, and power generation equipment. *Skill Level 20:* Installs, maintains, and repairs portable generators, air compressors, gasoline engines, air conditioning units, and missile elevators; uses mechanical and electrical hand tools, and measuring and testing devices; isolates, diagnoses, and repairs equipment malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; removes and replaces faulty assemblies and subassemblies; determines type of maintenance required; fabricates metal parts; test-operates new or repaired equipment; uses test equipment to trace electrical and refrigeration circuits; establishes on-the-job training programs; may supervise up to 9 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; determines workload and prepares schedules and inspection reports; performs final inspection and test-operations on repaired equipment; supervises up to 18 persons.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in air conditioning and refrigeration mechanics, 5 in basic electricity, 5 in electrical wiring, 5 in motor and generator repair, and 5 in diesel mechanics. In the lower-division baccalaureate/associate degree category, 8 semester hours in air conditioning and refrigeration repair, 3 in electrical wiring and controls, 3 in applied electricity, 3 in power mechanics, and 3 in diesel mechanics. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a construction electrician (residential) (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in air conditioning and refrigeration mechanics, 5 in basic electricity, 5 in electrical wiring, 5 in motor and generator repair, 5 in diesel mechanics, and 2 in fabrication processes. In the lower-division baccalaureate/associate degree category, 9 semester hours in air conditioning and refrigeration repair, 4 in applied electricity, 3 in electrical wiring and controls, 3 in power mechanics, 3 in diesel mechanics, and 2 in human relations, and additional credit in personnel supervision on the basis of institutional evaluation. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a construction electrician (residential) (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 9 semester hours in air conditioning and refrigeration repair, 4 in applied electricity, 3 in electrical wiring and controls, 3 in power mechanics, 3 in diesel mechanics, 3 in human relations, 3 in personnel supervision, and 2 in introduction to management. In the upper-division baccalaureate category, 3 semester hours in industrial arts. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a construction electrician (residential) (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction (6/76).

MOS-62D-001

ASPHALT EQUIPMENT OPERATOR

62D20

62D40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 62D was discontinued and its functions were incorporated into MOS 62H, Concrete and Asphalt Equipment Operator, and MOS 62N, Construction Equipment Supervisor.)

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Summary: Operates self-powered machines and accessories used in asphalt heating and dedrumming equipment, asphalt producing, and surfacing operations. *Skill Level 20:* Operates soil mixing, aggregate drying, asphalt distributing, and asphalt finishing machines to produce, lay, and finish asphalt products and surfaces; sets equipment controls for optimum efficiency; notes and corrects or assists in correcting any malfunctions or definciencies in the operation of equipment; cleans, lubricates, inspects, and services paving machines. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel engaged in asphalt producing and paving operations; supervises all phases of asphalt production and surfacing operations; interprets information contained in material graduation percentage charts; estimates work loads and schedules personnel and equipment for continuous asphalt producing and surfacing operations; prepares operational reports as to hours, tonnage, and yardage output; keeps production and allied operations records.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in asphalt paving machine operation and technology, 10 in asphalt plant operation and technology, 5 in construction material processing and storage, and 5 in basic construction equipment operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction materials processing and application, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment; and additional credit on the basis of institutional evaluation (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 10 semester hours in asphalt paving machine operation and technology, 10 in asphalt plant operation and technology, 5 in construction material processing and storage, 5 in basic construction equipment operation, and 1 in record keeping. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 3 in construction management, 3 for field experience in management, 2 in personnel supervision, 1 in record keeping, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment; and additional credit on the basis of institutional evaluation, up to a maximum total of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours of construction design and 2 in methods of construction, and additional credit in management on the basis of institutional evaluation, up to a maximum total of 9 semester hours (12/75).

MOS-62E-001

CRAWLER TRACTOR OPERATOR

62E20

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Skill Level 20: Operates crawler tractors and attachments, including towed scrapers; performs land-clearing, stripping, grubbing, earth-moving, and demolition tasks; spreads earth and rock fill; detects and identifies equipment malfunctions and assists in repairs; performs preventive maintenance such as cleaning, inspecting, lubricating, and minor adjustments and repairs.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in heavy equipment operation and 5 in mechanical maintenance (12/75).

MOS-62E-002

HEAVY CONSTRUCTION EQUIPMENT OPERATOR

62E10

62E20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 515 (Construction Equipment Operation).

Description

Summary: Operates crawler and wheeled tractors with dozer attachments, scoop loader, motorized grader, and towed or self-propelled scraper. *Skill Level 10:* Clears, grubs, strips, rough-grades, excavates, backfills, levels, slopes, cuts, ditches, and stockpiles with crawler, wheeled tractor with dozer attachment, and scoop loader; under supervision, operates motorized grader and towed or self-propelled scooper; loads equipment for movement and drives tractor-trailer for hauling; performs operator maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; strips, scarifies, cuts, fills, spreads, backfills, backblades, ditches, and slopes with motorized grader; removes overburden; loads and spreads with tractor-scraper; windrows, blends, and spreads asphalt road mix; mixes soil stabilization materials; performs surface and drainage maintenance; performs operator maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in heavy equipment operation and 5 in mechanical maintenance (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in heavy equipment operation and 5 in mechanical maintenance (7/79).

MOS-62F-001

CRANE OPERATOR

62F20

62F30

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Summary: Operates cranes and crane shovels of stationary, crawler, and truck-mounted types used to hoist and transport heavy objects and to perform excavation. *Skill Level 20:* Operates crane with hook and block operated by single drum; receives instructions from a supervisor on a specific work assignment; performs preoperation inspection and servicing on crane and related equipment; moves crane to and from worksite; determines lift and rigging requirements; performs after-operation inspection and maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates and maintains crane shovel with clamshell, dragline, shovel backhoe, piledriver, and related attachments; connects attachments and reaves cable.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in single-drum crane operation (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 10 semester hours in single-drum crane operation, 1 in powertrains and undercarriages, and 1 in rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in revolving shovel and crane equipment and 1 in material hoisting and handling (12/75).

MOS-62F-002

Lifting and Loading Equipment
Operator

62F10

62F20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 515 (Construction Equipment Operation).

Description

Summary: Operates cranes and crane shovels of stationary, crawler, and truck-mounted types; operates rough terrain forklifts. *Skill Level 10:* Drives wheel-mounted cranes; loads crane shovel on vehicle for transports; maneuvers boom with spreader, hook, sling, or other device to attach, lift, swing, or lower loads in response to signals; directs rigging load and estimates safe lifting capacity; loads and unloads containerized, palletized, and unpalletized items on various types of surfaces; assists in operation of crane shovel with attachments; performs operator maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs ditching, sloping, excavating, and stockpiling with dragline; digs, loads, and stockpiles with clamshell; ditches and excavates with backhoe; performs pile setting and driving operations; levels, face cuts, and excavates with shovel front; operates special-purpose heavy cranes at industrial facilities; performs operator maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in crane operation and 5 in equipment maintenance (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in crane operation and 5 in equipment maintenance (7/79).

MOS-62G-001

Quarryman

62G20

62G30

62G40

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operaton).

Description

Summary: Operates electric, pneumatic, and internal combustion powered machines used in drilling, crushing, grading, and cleaning gravel and rock; detonates explosives to blast rock in quarries and at construction sites. *Skill Level 20:* Performs as a quarry machine operator; determines screen sizes and crusher settings to produce specification aggregate; indentifies kind and quality of aggregate by simple field tests; notes and corrects or assists in correcting any machine malfunctions or deficiencies; performs preventive maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs as powderman; able to use explosives above ground, underground, and underwater; determines hole spacings and power changes; operates rock drills. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises all phases of quarry operations.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in crusher operation and 5 in aggregate sampling and field testing. In the lower-division baccalaureate/associate degree category, 2 semester hours in crushing, screening, and washing plants and 1 in construction materials handling and storage (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in crusher operation, 5 in aggregate sampling and field testing, and 2 in mining. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 2 in crushing, screening, and washing plants, 1 in construction materials handling and storage, 1 in mining and tunneling, and 1 in functions of grade stakes (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in field supervision, 5 in crusher operation, 5 in aggregate sampling and field testing, and 2 in mining. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in field supervision, 2 in crushing, screening and washing plants, 1 in recordkeeping, 1 in construction materials handling and storage, 1 in mining and tunneling and 1 in functions of grade stakes. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-62G-002

Quarrying Specialist

62G10

62G20

62G30

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 515 (Construction Equipment).

Description

Summary: Operates or supervises the operation of electric, pneumatic, and internal combustion powered machines used in drilling, crushing, grading, and cleaning gravel and rock; detonates explosives to blast rock in quarries and at construction sites. *Skill Level 10:* Under supervision, assembles, erects, adjusts, and operates the crushing, screening, conveying, and washing units; operates rock drills; maintains tools and equipment; assists powder man. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; determines screen sizes and crusher setting to produce aggregate to specifications; identifies the type and quality of aggregate by simple field tests; notes and corrects or assists in correcting machine malfunctions and deficiencies; performs routine maintenance; performing as blaster, is able to transport and use explosives; determines drilling pattern, depth, and spacing of bore holes; operates various rock drills. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all phases of quarry operation.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in machine operation (8/79).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in machine operation, 5 in testing and sampling, and 2 in personnel supervision and training. In the lower-division baccalaureate/associate degree category, 2 semester hours in machine operation, 1 in testing and sampling, and 2 in personnel supervision (8/79).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in machine operation, 5 in testing and sampling, 3 in personnel supervision and training, and 6 in plant management. In the lower-division baccalaureate/associate degree category, 2 semester hours in machine operation, 1 in testing and sampling, 3 in personnel supervision and training, 3 in plant management, and 3 in construction management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (8/79).

MOS-62H-001

Concrete Paving Equipment Operator

62H20

62H40

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Summary: Operates self-powered machines used in concrete producing and paving operations. *Skill Level 20:* Sets up concrete producing and surfacing equipment; operates concrete batching plant, and mixing, spreading, and finishing machines to produce concrete by formula or specifications and to spread concrete to desired thickness; sets equipment controls for optimum efficiency; notes equipment malfunctions or deficiencies and repairs or assists in the repair of equipment; performs equipment maintenance services such as cleaning, lubricating, inspecting, and minor adjustments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises all phases of concrete producing and paving operations; supervises personnel and assigns work; interprets and utilizes information contained in material gradation charts; prepares operational reports; instructs subordinate personnel.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in concrete paving machine operation and technology, 10 in concrete plant operation and technology, 5 in construction material processing and storage, and 5 in basic construction equipment operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment, and additional credit on the basis of institutional evaluation up to a maximum total of 30 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 10 semester hours in concrete paving machine operation and technology, 10 in concrete plant operation and technology, 5 in construction material processing and storage, 5 in basic construction equipment operation, and 1 in record keeping. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 3 in construction management, 3 for field experience in management, 2 in personnel supervision, 1 in record keeping, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades, and plans, and 1 in paving equipment, and additional credit on the basis of institutional evaluation up to a minimum of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours in construction design and 2 in methods of construction, and additional credit in management on the basis of institutional evaluation up to a maximum of 9 semester hours (12/75).

MOS-62H-002

CONCRETE AND ASPHALT EQUIPMENT
OPERATOR
62H10
62H20
62H30

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 515 (Construction Equipment Operator).

Description

Summary: Supervises or operates all equipment used in concrete and asphalt production and paving. *Skill Level 10:* Operates concrete mobile mixer truck; assists plant equipment operator in operation of equipment and machines used in asphalt production and paving; loads unmixed materials in concrete mobile mixer; adjusts controls to obtain required mix proportion and slump at the job site; assists in operation of spreading and finishing equipment; assists in erection, operation, and maintenance of asphalt producing plant; operates asphalt distributor and aggregate spreader; assists in operation of asphalt paving and surfacing equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates all equipment and machines used in asphalt production and paving and concrete paving operations; erects, operates, and maintains asphalt plant; directs preparation and placement of concrete with mobile mixer truck. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all aspects of asphalt and concrete production and paving operations; plans and directs layout and erection of asphalt plant; supervises production of hot plant mix asphalt; directs asphalt placing and rolling operations; supervises concrete mobile mixer truck use and employment; supervises concrete and asphalt equipment maintenance and training programs.

Recommendation, Skill Level 10

In the vocational certificate category, if the individual has experience in the operation of asphalt paving equipment, 5 semester hours in operation of asphalt paving equipment; if the individual has experience in the operation of concrete equipment, 5 semester hours in operation of concrete equipment (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in handling and storage of materials, and additional credit as follows: If the individual has experience in the operation of asphalt paving equipment, 5 semester hours in operation of asphalt paving equipment; if the individual has experience in the operation of concrete equipment, 5 semester hours in the operation of concrete equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in construction material processing and application (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in construction material processing and application, 3 in construction management, and 2 personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (2/80).

MOS-62J-001

GENERAL CONSTRUCTION MACHINE
OPERATOR
62J20
62J30

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Summary: Operates a variety of equipment in support of construction projects, including air compressors, drilling equipment, pumps, soil processing equipment, and materials application equipment; possesses a basic understanding of soils mechanics, strength of materials, hydrology, mechanics, concrete, and asphalt. *Skill Level 20:* Performs as a utility equipment operator; selects proper bits, power units, and attachments for drills, air compressors, pumps, and rotary equipment; notes and assists in repairing equipment malfunctions; performs preventive and operational maintenance and inspects equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as well driller, drilling water wells and developing existing dug wells; possesses sufficient knowledge of geology, hydrology, and soils to make a finite analysis of drill cores to determine whether the strata being examined can produce the desired amount of water; installs well casings; prepares and analyzes electronic well logs; performs preventive maintenance on electronic well-logging equipment; sets up well screens and pumping equipment; grouts and gravel-packs wells; analyzes terrain and geologic features to determine the best probable location for a well; follows proper safety procedures associated with drilling operations; maintains records of drilling operations and product output.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in construction equipment operation and 10 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 5 semester hours in construction equipment operation and 5 in mechanical maintenance (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 40 semester hours and certification as a well drilling superintendent. In the lower-division baccalaureate/associate degree category, 5 semester hours in construction equipment operation, 5 in mechanical maintenance, 3 in electricity and electronics, and 3 in geology and hydrology (12/75).

MOS-62J-002

GENERAL CONSTRUCTION EQUIPMENT
OPERATOR
62J10
62J20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (Engineering), subfield 515 (Construction Equipment Operation).

Description

Summary: Operates a variety of equipment in support of construction projects, including air compressors and special-purpose construction machines engaged in compaction, ditching, pumping, augering, and well-drilling operations. *Skill Level 10:* Operates pneumatic wood borer, rock drill, air blower gun attachment, nail driver, sump pump, paving breaker, chain and circular saw, grinder, concrete vibrator, and backfill temper; operates power roller over foundations, filler stones and cover stone courses and surface treatments, asphalt macadam, road mix and hot-mix pavement; operates water distributor in compaction and dust control operations; performs operator maintenance; assists in operation of ditching machines. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates utility tractor with loader and backhoe, general purpose excavators and attachments, earth auger, and ditching machines; performs leveling, backfilling, rough grading, stockpiling, ditch digging, and loading with utility tractor loader and backhoe; drills vertical and angled holes of appropriate diameter to proper depth with earth auger for demolitions support, fence posts, power poles, and anchor posts.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in machine operation and 10 in equipment maintenance (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 15 semester hours in machine operation and 15 in equipment maintenance (7/79).

MOS-62K-001

GRADER OPERATOR

62K20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62K was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator.)

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Skill Level 20: Operates construction motor grader and attachments under supervision; performs inspections and service on equipment; interprets information on surveyors' grade stakes; judges terrain and determines required action to alter variation to conform to constuction design; spreads and grades aggregate-asphalt and soil-asphalt road mixes.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in motor grader operation, 5 in machine maintenance, and 1 in grades and grade stakes. In the lower-division baccalaureate/associate degree category, 3 semester hours in material processing and application, 2 in construction plans, 2 in power sources and power systems, and 1 in grades and grade stakes (12/75).

MOS-62L-001

WHEELED TRACTOR OPERATOR

62L20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62L was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator.)

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Skill Level 20: Operates wheeled tractors, rubber-tired dozers with attachments, self-propelled scrapers, and heavy-duty quarry trucks; interprets the information on grade stakes.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in wheeled tractor operation (2/75).

MOS-62M-001

ROUGH TERRAIN FORKLIFT AND LOADER OPERATOR

62M20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62M was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator, and MOS 62F, Lifting and Loading Equipment Operator.)

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Skill Level 20: Operates rough-terrain forklifts and scoop loaders.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in forklift and scoop loader-operation (2/75).

MOS-62N-001

CONSTRUCTION MACHINE SUPERVISOR

62N40

62N50

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), subfield 514 (Construction Equipment Operation).

Description

Summary: Supervises construction machinery operations and operator and crew maintenance of equipment. *Skill Level 40:* Performs duties comparable to those of a civilian assistant job superintendent on a construction site; has technical skills, competencies, and knowledge equivalent to those acquired through an associate degree program in operating engineer technology; supervises employment of all kinds of construction machinery in support of construction operations; organizes machinery operations phases of construction projects; estimates equipment and operator requirements for specific jobs; coordinates construction machinery operations with related construction work; observes machine operations and inspects finished products; enforces safety rules; prepares reports on personnel, machine operations, training, and work progress; evaluates subordinates' work performance. NOTE: May have progressed to 62N40 from 51G20 (Soils Analyst), 62E20 (Crawler Tractor Operator), 62F30 (Crane Operator), 62J30 (General Construction Machine Operator),62K20 (Grader Operator), 62L20 (Wheeled Tractor Operator), or 62M20 (Rough Terrain Forklift and Loader Operator). *Skill Level 50:* Able to perform the duties required for Skill Level 40; manages more than 200 persons engaged in a variety of construction equipment operation activities; performs duties comparable to those of a civilian construction superintendent or operations manager; as the principal noncommissioned officer in a construction equipment company, assists in planning, coordinating, and supervising all company activities; advises superiors on personnel matters. NOTE: May have progressed to 62N50 from 62N40, 62D40 (Asphalt Equipment Operator), 62G40 (Quarryman), or 62H40 (Concrete Paving Equipment Operator).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours in construction equipment, 25 for field experience in construction equipment operation, 3 in material processing and application, 3 in introduction to electricity, hydraulics, and pneumatics, 1 in basic power trains and undercarriages, 1 in welding, rigging, soils, and compaction, 1 in fuels, oils, and lubricants, 1 in surveying (grades, grade stakes, and plans), and 1 in records administration. In the upper-division baccalaureate category, 3 semester hours in introduction to management, and 3 for field experience in management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in introduction to management, and additional credit in construction management up to a maximum total of 30 semester hours (12/75).

MOS-62N-002

CONSTRUCTION EQUIPMENT SUPERVISOR

62N30

62N40

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering) subfield 515 (Construction Equipment Operation).

Description

Summary: Supervises construction equipment, quarry, paving, and plant equipment operations. *Skill Level 30:* Provides general supervision to personnel operating loading, lifting, heavy and general construction equipment; supervises and coordinates activities of all above equipment, including drilling operations; determines most efficient type and application of equipment to be used in construction, maintenance, and repair projects; estimates equipment and operator requirements for specific jobs; conducts on-the-job training and assists in supervision of unit engaged in construction equipment operations; maintains records; assists job superintendent at civilian construction site. NOTE: May have progressed to 62N30 from 62J20 (Heavy Construction Equipment Operator), or 62F20 (Lifting and Loading Equipment Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides general supervision over all phases of construction operations; coordinates the activities of personnel, equipment, and machinery; prepares operational reports; keeps production records; equivalent to job superintendent on civilian construction site.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in construction management, 3 in record keeping, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in maintenance management (8/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hour for field experience in management, 3 in personnel management, 3 in maintenance management, and 3 in report writing (8/79).

MOS-63B-001

WHEEL VEHICLE MECHANIC

63B20

63B40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Automotive Maintenance).

Description

Summary: Diagnoses malfunctions and repairs internal-combustion engines, accessories, powertrains, and chassis components of wheel vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, control linkage, clutches, and brakes; performs tune ups; operates wreckers. *Skill Level 20:* Replaces engine components such as fuel pumps, generators, regulators, brake shoes and fittings, and winches; road-tests vehicles; prepares and keeps maintenance forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; establishes shop practices and procedures; plans and organizes work schedules and the use of facilities and equipment; instructs and supervises subordinate personnel; applies production and quality control principles; requisitions parts, tools, and supplies.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, up to 9 semester hours may be granted on the basis of institutional evaluation (3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in truck mechanics). In an automotive, diesel, or truck mechanic apprentice training program, 400 clock hours of experience and 70 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in truck mechanics, and 1 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in truck mechanics, and 3 in personnel supervision and training, and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 6,000 clock hours of experience and 140 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-63B-002

Wheel Vehicle Mechanic

63B10

63B20

63B30

Exhibit Dates: 9/75–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Diagnoses malfunctions and repairs internal-combustion engines, accessories, powertrains, and chassis components of wheel vehicles; adjusts operating mechanisms such as value tappets, carburetors, governors, ignition system points, control linkage, clutches, and brakes; performs tune-ups; operates wreckers. *Skill Level 10:* Replaces engine components such as fuel pumps, generators, starters, regulators, radiators, universal joints, brake shoes, engine mounts, and lines and fittings; adjusts operating mechanisms; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices and procedures; requisitions spare parts, tools, and supplies.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 400 clock hours of experience and 70 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 1,500 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 2 in personnel supervision, and 1 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 2,000 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-63B-003

Light Wheel Vehicle Mechanic
(Light Wheel Vehicle/Power
Generation Mechanic)

63B10

63B20

63B30

63B40

63B50

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Diagnoses malfunctions and performs and supervises corrective maintenance on internal-combustion engines and power generating units including accessories, powertrains, and chassis components of wheel vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, control linkage, clutches, and brakes; performs tune-up and recommends appropriate power generating equipment to accommodate specific electrical loads; operates wreckers. *Skill Level 10:* Replaces engine components such as fuel pumps, generators, starters, regulators, radiators, universal joints, brake shoes, engine mounts, and lines and fittings; adjusts operating mechanism, including power generating units; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; able to diagnose problems and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63B, 63S (Heavy Wheel Vehicle Mechanic), or 63Y (Track Vehicle Mechanic); plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices, procedures, and safety. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs related administrative functions and supervises the preparation of records, reports, and training of maintenance personnel; initiates action necessary to requisition repair parts and supplies; responsible for control of technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates lower-skill-level personnel; determines training requirements and quality control principles; develops operation plans, policies, and procedures.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems) (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and additional credit on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and 2 in personnel supervision, and additional credit in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 2 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 3 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in applied psychology (9/82).

MOS-63C-001

TRACK VEHICLE MECHANIC

63C20
63C40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Diagnoses wheel and track vehicles, using test equipment and sequential tests; applies knowledge of internal combustion engines and accessories, power trains, and chassis components of track vehicles; road-tests vehicles; operates wreckers. *Skill Level 20:* Performs preventive maintenance and general servicing work, including tune-up, on both gasoline and diesel combustion engines; keeps maintenance operating forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, planning and organizing work schedules, shop practices, and use of facilities and equipment; instructs and supervises subordinate personnel; requisitions parts, tools, and supplies.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in industrial truck mechanics. In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in industrial truck mechanics on the basis of institutional evaluation. In an automotive, diesel, or industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, and 5 in industrial truck mechanics. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in personnel supervision, and 1 in records administration, and additional credit on the basis of institutional evaluation. In an automotive, diesel, or industrial truck mechanic apprentice training program, a minimum of 6,000 clock hours of experience and 214 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-63C-002

TRACK VEHICLE MECHANIC

63C10
63C20
63C30
63C40

Exhibit Dates: 9/75-8/80. (Effective 9/80, MOS 63C was discontinued and its functions were incorporated into MOS's 63B, 63D, 63N, 63R, 63S, 63T, and 63Y.)

Career Management Field: 63 (Mechanical Maintenance, subfield 633 (Machinery Maintenance).

Description

Summary: Applies knowledge of operating principles of internal-combustion engines, accessories, powertrains, and chassis components to wheel and track vehicles. *Skill Level 10:* Performs detailed diagnoses of wheel and track vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, linkage, clutches, and brakes; times magnetos, distributors, injectors, and pumps; replaces components such as fuel pumps, starters, carburetors, generators, regulators, universal joints, brakes shoes, and drive sprockets; road-tests vehicles; prepares and keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes work schedules and shop practices; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate maintenance practices and procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 63C, 63B (Wheel Vehicle Mechanic), or 63F (Recovery Specialist); supervises maintenance on track and wheel vehicles; supervises vehicle recovery operations and tire and tube activities.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 6 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems) and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 500 clock hours of experience and 267 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 1,500 clock hours of experience and 267 contact hours of related instruction and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, truck, or diesel mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, truck, or diesel mechanics, (including engines and related systems, powertrain systems, and chassis systems) 2 in personnel supervision, and 1 in records administration, and additional credit in an automotive, diesel, or truck mechanics program on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 4000 clock hours of experience and 267 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 15 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 1 in records administration, and additional credit in automotive mechanics, diesel mechanics, and truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, only if the duty assignment was tire repair foreman or recovery sergeant. In an automotive, diesel, or truck mechanic apprentice training program, 6,000 clock hours of experience and 267 contact hours of related instruction (12/75).

MOS-63D-001

SELF-PROPELLED FIELD ARTILLERY SYSTEM MECHANIC

63D10
63D20
63D30
63D40
63D50

Exhibit Dates: 9/80-Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs and supervises maintenance on tracked and wheel vehicles. *Skill Level 10:* Services, lubricates, removes, and replaces components and assemblies such as engine, fuel, cooling, final drive, track and suspension; performs corrective maintenance on hydraulic, mechanical, and electrical systems and/or components; employs tests, measuring, and diagnostic equipment in troubleshooting; operates wrecker. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63D and 45D (Self-propelled Field Artillery Turret Mechanic); plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices, procedures, and safety; utilizes salvage techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs related administrative functions and supervises the preparation of records, reports, and training of maintenance personnel; initiates action necessary to requisition repair parts and supplies; responsible for control of technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates subordinates; determines training requirements; develops operation plans, policies, and procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems) (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and additional credit on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), and 2 in personnel supervision, and additional credit in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 2 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 3 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in applied psychology (9/82).

MOS-63E-001

M1 ABRAMS TANK SYSTEM MECHANIC (XM1 TANK SYSTEM MECHANIC)

63E10
63E20
63E30
63E40
63E50

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs and supervises maintenance and recovery operations on M1 tanks, including automotive, turret, fire control, and chemical protection systems. *Skill Level 10:* Troubleshoots and performs organizational maintenance on automotive systems and components of M1 Tank, Recovery Vehicle (M88/A1), M113 family vehicles, and 1/4 ton and 2 1/2 ton tactical trucks; services, lubricates, replaces, removes, installs, repairs, and adjusts, purges and tests following systems, components, and assemblies: the engine fuel exhaust, cooling, electrical, transmission, final drive, track and suspension, steering controls, hull, chemical protection system, miscellaneous accessories, and special purpose kits; prepares vehicles for operation under abnormal conditions by sealing, waterproofing, and servicing with special fuel and lubricants; performs corrective organizational maintenance on previously-diagnosed malfunctions of mechanical, electrical, and hydraulic systems and/or components; test-operates equipment as required and observes for evidence of abnormal operations; employs applicable test, measuring, and diagnostic equipment in conjunction with technical publications to perform troubleshooting actions and test continuity of electrical circuits; troubleshoots mechanical, electrical, and hydraulic systems; interprets schematic diagrams; operates hand and power operated tools and equipment; performs or assists in vehicle recovery and evacuation operations. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to lower-skill-level personnel; diagnoses automotive systems and components at the organizational maintenance level; troubleshoots to component level; isolates and identifies causes of malfunctions; operates vehicle for diagnoses and inspection purposes; interprets complex schematic diagrams; conducts on-the-job training; completes applicable maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs as M1 Tank System Mechanic, fulfilling duties of both automotive (MOS 63E20) and turret (MOS 45E20) mechanics; plans and organizes work schedules and assigns duties; instructs and supervises lower-skill-level personnel in troubleshooting and proper organizational maintenance practices and procedures; supervises maintenance training, including preventive maintenance training of equipment operators; performs or supervises on-site maintenance as a member or leader of an on-site maintenance team; performs inspections and tests repaired equipment; evaluates work performance of lower-skill-level personnel; determines training requirements, and recommends corrective action; assists in preparation of maintenance operation plans, policies, and procedures; supervises or prepares technical studies, evaluations, special reports, correspondence, and records pertaining to organizational maintenance operations, training, and related operations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs as M1 Tank Maintenance Supervisor (Master Mechanic) for company maintenance personnel; plans and organizes work area layout to gain maximum efficiency and utilization of time, equipment, and personnel; supervises and instructs lower-skill-level maintenance personnel in proper maintenance practices, procedures, and techniques; supervises maintenance administration personnel; initiates necessary maintenance management and repair parts supply corrective actions; employs rapid and accurate techniques to determine proper maintenance and repair parts requirements to return damaged system to serviceable condition; establishes and controls a file of organizational maintenance technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; performs as M1 Senior Tank Maintenance Supervisor (Senior Master Mechanic) for battalion maintenance section and personnel; supervises organizational maintenance on assigned track and wheeled vehicles and upkeep of hand and powered tools; plans workflow, assigns duties, and instructs in maintenance techniques; supervises processing of work orders; evaluates work performance of lower-skill-level personnel; determines training requirements, and recommends corrective action; assists in preparation of maintenance operation plans, policies, and procedures; supervises or prepares technical studies, evaluations, special reports, correspondence, and records pertaining to organizational maintenance operations, training and related operations.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in automotive fundamentals (2/84).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive fundamentals (2/84).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive fundamentals and 3 in personnel supervision (2/84).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive fundamentals, 3 in personnel supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (2/84).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive fundamentals, 3 in personnel supervision, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours in personnel management, 6 for field experience in management, and 3 in management problems (2/84).

MOS-63F-001

RECOVERY SPECIALIST

63F10
63F20
63F30

Exhibit Dates: 9/75-8/80. (Effective 9/80, MOS 63F was discontinued and its functions were incorporated into MOS's 63B, 63D, 63H, 63N, 63R, 63S, 63T, 63W, and 63Y.)

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Operates and performs operator maintenance on all types of wreckers, recovery vehicles, and associated equipment and accessories. *Skill Level 10:* Performs recovery and evacuation operations for abandoned, damaged, disabled, or mired light or heavy wheel or track vehicles; prepares recovery vehicle equipment for use; maneuvers recovery vehicles, selecting the most desirable positions for wreckers, trailers, full tracked recovery vehicles or transporters; uses winches, cranes, booms, jacks, block and tackle gear; applies lines and rigs; performs operator maintenance on recovery vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance for Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, organizes, and supervises recovery operations; assigns duties; conducts on-the-job training; requisitions spare parts, tools, and supplies; schedules and coordinates equipment for periodic maintenance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in an automotive mechanics program. In a rigger apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in an automotive mechanics program. In a rigger apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semeter hours in an automotive mechanics program, 2 in personnel supervision, and 1 in records administration, and additional credit on the basis of institutional evaluation. In a rigger apprentice training program, 1,000 clock hours of experience (12/75).

MOS-63G-001

FUEL AND ELECTRICAL SYSTEMS REPAIRER
(FUEL AND ELECTRICAL SYSTEMS
REPAIRMAN)

63G10
63G20

Exhibit Dates: 9/75-8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Removes, disassembles, and repairs fuel and electrical systems and components. *Skill Level 10:* Diagnoses and performs direct and general support maintenance on fuel and electrical systems of wheel and track vehicles and material handling equipment; tests, adjusts, and repairs fuel and electrical system components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in fuel and electrical systems. In the lower-division baccalaureate/associate degree category, 9 semester hours in fuel and electrical systems, and additional credit on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or heavy-duty equipment mechanic apprentice training program, 500 clock hours of experience and 400 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in fuel and electrical systems. In the lower-division baccalaureate/associate degree category, 9 semester hours in fuel and electrical systems, and additional credit on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or heavy-duty equipment mechanic apprentice training program, 1,500 clock hours of experience and 400 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-63G-002

FUEL AND ELECTRICAL SYSTEMS REPAIRER

63G10
63G20

Exhibit Dates: 9/80-Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on fuel and electrical systems, brake components, vehicles, engines of power generating equipment and materials-handing equipment. *Skill Level 10:* Tests and repairs fuel and electrical systems and components such as fuel pumps, fuel injection pumps, batteries, generators, distributors, and ignition systems; rebuilds components such as carburetors, fuel injection pumps, generators, distributors, fuel injectors, master cylinders, brake chambers, and wheel cylinders; repairs disc brake calipers; turns brake drums; relines brake shoes. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; troubleshoots and uses diagnostic equipment to identify malfunctions in fuel and electrical systems; modifies equipment and recommends repair procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

MOS-63H-001

AUTOMOTIVE REPAIRMAN

63H20
63H30
63H40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Automotive Maintenance).

Description

Summary: Disassembles, reassembles, and tests transmissions, engines, differentials, brakes, and other automotive components. *Skill Level 20:* Uses measuring and hand tools such as calipers, micrometers, wrenches, and torches; under supervision, repairs, adjusts, replaces, and overhauls engines, clutches, transmissions, differentials, steering assemblies, hydraulic cylinders, and brakes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots electrical and mechanical failures; repairs, overhauls, and installs fuel systems and electrical components; applies information contained in technical and trade manuals; instructs and assists subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises a minimum of six subordinates; plans and organizes work schedules; writes job tickets; prepares maintenance forms and records; requisitions parts, supplies, and equipment; keeps a file of technical publications; applies production and quality control precedures and standards.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, chassis systems, and electrical and fuel systems). In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, chassis systems, and electrical and fuel systems) and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, chassis systems, and electrical and fuel systems) and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, chassis systems, and electrical and fuel systems), 1 in records administration, and 2 in personnel supervision. In the upper-division baccalaureate category, credit in automotive technology on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as an automotive, truck, heavy-duty truck, or equipment mechanic (2/75).

MOS-63H-002

AUTOMOTIVE REPAIRMAN

63H10
63H20
63H30
63H40

Exhibit Dates: 9/75–2/77.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Disassembles, reassembles, and tests transmissions, engines, differentials, brakes, and other automotive components. *Skill Level 10:* Under supervision, repairs, adjusts, replaces, and overhauls engines, clutches, transmissions, differentials, steering assemblies, hydraulic cylinders, and brakes; uses measuring and hand tools such as calipers, micrometers, wrenches, and torches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs maintenance on engine, powertrain, and chassis components of wheel and track vehicles and material-handling equipment, excluding the propulsion motor on electric material-handling equipment; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises automotive maintenance and fuel and electrical system repair operations; performs complete technical inspection of fuel and electrical systems repairs and repair or overhaul of engine powertrain and chassis components; plans and organizes work schedules; assigns duties; instructs subordinate personnel in proper maintenance practices, procedures, and techniques; applies quality and production control procedures; uses and keeps a file of technical publications; requisitions spare parts, tools, and supplies. NOTE: May have progressed to 63H30 from 63H20 or 63G20 (Fuel and Electrical Systems Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises repair of automotive and quartermaster equipment; supervises a minimum of 20 subordinate personnel. NOTE: May have progressed to 63H40 from 63H30 or 63J30 (Quartermaster Equipment Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 500 clock hours of experience and 400 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems) and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems) and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 1,500 clock hours of experience and 400 contact hours of related instruction (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in shop practices and procedures, and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 2 in personnel supervision, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in management or administration on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in shop practices and procedures, and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 2 in personnel supervision, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in management, administration, and automotive technology on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as an automotive, truck, heavy-duty truck, or equipment mechanic (12/75).

MOS-63H-003

AUTOMOTIVE REPAIRER
(AUTOMOTIVE REPAIRMAN)

63H10
63H20
63H30
63H40

Exhibit Dates: 3/77–8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on wheel and track vehicles and materials-handling equipment, excluding propulsion motor on electrical materials-handling equipment. *Skill Level 10:* Diagnoses and analyzes engine, powertrain, and chassis component malfunctions by visual and auditory examination and by use of test equipment; isolates causes of malfunctions by systematic elimination of possible trouble; tests, repairs, overhauls, adjusts and replaces assemblies, subassemblies and components such as engines (gasoline, diesel, and multifuel), clutches, transmissions, differentials, steering assemblies, transfer case and hydraulic cylinders and components by replacing valves, shafts, gears, bearings, rings and seals, using jacks pullers, gauges and jigs. *Skill Level 20:* Performs the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel in accomplishment of these duties. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63H or 63G (Fuel and Electrical Systems Repairman); supervises automotive maintenance and fuel and electrical system repair operations or performs complete technical inspection of fuel and electrical system repairs and repair or overhaul of engine powertrain and chassis components; understands and applies information contained in technical publications to maintenance requirements; uses all types of measuring and testing equipment for alignment, adjustments, and functioning of components and assemblies; plans and organizes work schedules; assigns duties, supervises and instructs subordinate personnel in proper maintenance practices, procedures and techniques; applies production and quality control procedures; keeps file of technical publications; secures spare parts, tools, and supplies. NOTE: May have progressed to 63H30 from 63H20 or 63G20 (Fuel and Electrical Systems Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 63H or 63J (Quartermaster Equipment Repairman); supervises repair of automotive, chemical, and quartermaster equipment; serves as section chief, platoon sergeant, repair control sergeant or maintenance sergeant. NOTE: May have progressed to 63H40 from 63H30 or 63J30 (Quartermaster Equipment Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in auto mechanics (including engines and related systems, powertrain system, and chassis systems) and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 1 in use and care of hand tools, and additional credit in auto mechanics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems) and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 1 in use and care of hand tools, and additional credit in auto mechanics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in shop practices and procedures, and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics (including engines and related systems, powertrain systems, and chassis systems), 1 in use and care of hand tools, 2 in personnel supervision, 3 in shop management, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in management or administration on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in management, administration, and automotive technology on the basis of institutional evaluation (5/78).

MOS-63H-004

Track Vehicle Repairer

63H10

63H20

63H30

63H40

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs and supervises maintenance on wheel and track vehicles and materials-handling equipment. *Skill Level 10:* Diagnoses and analyzes engine, powertrain, and chassis component malfunctions; tests, repairs, overhauls, adjusts, and replaces assemblies, subassemblies and components such as engines (gasoline, diesel, and multifuel), clutches, transmissions, differentials, steering assemblies, transfer case and hydraulic cylinders and components by replacing valves, shafts, gears, bearings, rings and seals, using jacks, pullers, gauges and jigs; operates wreckers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; determines serviceability of components using measuring devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63H, 63G (Fuel and Electrical Systems Repairer), or 63W (Wheel Vehicle Repairer); performs and supervises maintenance and completes technical inspections; repairs or overhauls engine powertrains and chassis components; understands and applies information contained in technical publications to maintenance requirements; uses types of measuring and testing equipment for alignment, adjustments, and functioning of components and assemblies; plans and organizes work schedules; assigns duties; supervises recovery operations; administers safety programs. NOTE: May have progressed to 63H30 from 63H20, 63G20 (Fuel and Electrical Systems Repairer), or 63W20 (Wheel Vehicle Repairer). *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 63H or 63J (Quartermaster and Chemical Equipment Repairer); supervises maintenance and repair of equipment and vehicles (automotive, chemical, and quartermaster); applies production and quality control procedures. NOTE: May have progressed to 63H40 from 63J30 (Quartermaster and Chemical Equipment Repairer).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems) (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive mechanics (including engines and related systems, powertrain systems, chassis systems) and additional credit in automotive mechanics on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 15 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems), and 2 in personnel supervision, and additional credit in automotive mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in management or administration on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems). In the lower-division baccalaureate/associate degree category, 15 semester hours in automotive mechanics (including engines and related systems, powertrain systems, and chassis systems), 3 in personnel supervision, and 2 in records administration, and additional credit in automotive mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

MOS-63J-001

Quartermaster Equipment Repairman

63J10

63J20

63J30

Exhibit Dates: 9/75–2/77.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on quartermaster machinery and special purpose equipment. *Skill Level 10:* Disassembles, repairs, reassembles, adjusts, and tests various types of quartermaster machinery and equipment such as sewing machines, stoves, gasoline lanterns, laundry units, bath units, bakery units, and special purpose equipment; performs maintenance on electrical circuits contained in this machinery and equipment; uses supply and technical literature, regulations, and manufacturers' catologs in performing maintenance and making repairs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns, schedules, and supervises personnel engaged in installing, repairing, and maintaining quartermaster machinery and equipment; performs technical inspections.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small appliance repair. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair. In a sewing machine repairman apprentice training program, 100 clock hours of experience (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small appliance repair. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair. In a sewing machine repairman apprentice training program, 200 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small appliance repair. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair and 3 for field experience in personnel management. In a sewing machine repairman apprentice training program, 300 clock hours of experience (12/75).

MOS-63J-002

Quartermaster Equipment Repairer
(Quartermaster Equipment
Repairman)

63J10

63J20

63J30

Exhibit Dates: 3/77–6/86.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on chemical, quartermaster, and special-purpose equipment. *Skill Level 10:* Disassembles, repairs, reassembles, adjusts and tests various types of quartermaster machinery and equipment such as sewing machines, gasoline lanterns, laundry units, bath units, or bakery units, and special-purpose equipment, including petroleum, oil, and lubricants equipment; performs maintenance on electrical circuits; performs welding, plumbing, and pipefitting tasks; uses supply and technical literature, regulations, and manufacturers' catalogs in performing maintenance and keeping records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; if serves as foreman, supervises from 6 to 10 persons. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing duties of 63J20 and 54D20 (Chemical Equipment Repairman); supervises, assigns, and schedules personnel engaged in the repair and maintenance of chemical equipment, and quartermaster machinery and equipment; may serve as technical inspector; plans work activities and schedules work requests; supervises from 11 to 40 persons. NOTE: May have progressed to 63J30 from 63J20 or 54D20 (Chemical Equipment Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small appliance repair. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair and 1 in use and care of hand tools (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair and 1 in use and care of hand tools; if the duty position was quartermaster equipment repair foreman, 3 additional semester hours in shop management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair and 3 for field experience in management; if the duty position was equipment repair foreman, chemical equipment repair foreman, or protection mask repair foreman, 3 additional semester hours in shop management (5/78).

MOS-63J-003

Quartermaster and Chemical
Equipment Repairer

63J10
63J20

Exhibit Dates: 7/86–Present.

Career Management Field: 63 (Mechanical Maintenance).

Description

Summary: Supervises or performs maintenance on chemical, quartermaster, and special-purpose equipment. *Skill Level 10:* Disassembles, repairs, reassembles, adjusts, and tests various types of quartermaster machinery and equipment such as sewing machines, gasoline lanterns, laundry units, bath units, or bakery units and special-purpose equipment, including petroleum, oil, and lubricants equipment; performs maintenance on electrical circuits; performs welding, plumbing, and pipefitting tasks; uses supply and technical literature, regulations, and manufacturers' catalogs in performing maintenance and in keeping records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to skill level 10 personnel; if serves as foreman, supervises from 6 to 10 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in basic electricity laboratory. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair, 1 in use and care of hand tools, and 1 in use of testing equipment (7/87).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in basic electricity laboratory. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair, 1 in use and care of hand tools, and 1 in use of testing equipment (7/87).

MOS-63N-001

M60A1/A3 Tank System Mechanic

63N10
63N20
63N30
63N40
63N50

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs and supervises maintenance on tracked and wheel vehicles. *Skill Level 10:* Services, lubricates, removes, and replaces components and assemblies such as engine, fuel, cooling, final drive, track and suspension; performs corrective maintenance on hydraulic, mechanical, and electrical systems and/or components; employs tests, measuring, and diagnostic equipment in troubleshooting; operates wrecker. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63N and 63R (M60A2 Tank System Mechanic), and 45N (M60A1/A3 Tank Turret Mechanic); plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices, procedures, and safety; utilizes salvage techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs related administrative functions and supervises the preparation of records, reports, and training of maintenance personnel; initiates action necessary to requisition repair parts and supplies; responsible for control of technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates subordinates and determines training requirements; develops operation plans, policies, and procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and 2 in personnel supervision, and additional credit in automotive, diesel, or truck mechanics for a minimum total of 11 semester hours (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 2 in records administration, and additional credit in automotive, diesel, or truck mechanics for a minimum total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 3 in records administration, and additional credit in automotive, diesel, or truck mechanics for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in applied psychology (9/82).

MOS-63R-001

M60A2 Tank System Mechanic

63R30
63R40
63R50

Exhibit Dates: 9/80–8/81. (Effective 9/81, MOS 63R was discontinued.)

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs and supervises maintenance on tracked and wheel vehicles. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63N (M60A1/A3 Tank System Mechanic) or 45R (M60A2 Tank Turret Mechanic); plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices, procedures, and safety; utilizes salvage techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs related administrative functions and supervises the preparation of records, reports, and training of maintenance personnel; initiates action necessary to requisition repair parts and supplies; responsible for control of technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates subordinates; determines training requirements; develops operation plans, policies and procedures.

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and 2 in personnel supervision, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 2 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of insitutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 3 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in applied psychology (9/82).

MOS-63S-001

Heavy Wheel Vehicle Mechanic

63S10
63S20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on heavy wheel vehicles and materials-handling equipment. *Skill Level 10:* Replaces engine components such as fuel pumps, generators, starters, regulators, radiators, universal joints, brake shoes, engine mounts, and lines and fittings; adjusts operating mechanisms; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; troubleshoots and uses diagnostic equipment to identify malfunctions.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

MOS-63T-001

ITV/IFV/CFV System Mechanic

63T10
63T20
63T30
63T40
63T50

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 635 (Weapon System Maintenance).

Description

Summary: Performs and supervises maintenance on tracked and wheel vehicles. *Skill Level 10:* Services, lubricates, removes, and replaces components and assemblies such as engine, fuel, cooling, final drive, track and suspension; performs corrective maintenance on hydraulic, mechanical, and electrical systems and/or components; employs tests, measuring, and diagnostic equipment in troubleshooting; operates wrecker. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 63T or 45T (ITV/IFV/CFV Turret Mechanic); plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices, procedures and safety; utilizes salvage techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs related administrative functions and supervises the preparation of records, reports, and training of maintenance personnel; initiates action necessary to requisition repair parts and supplies; responsibile for control of technical publications. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates subordinates; determines training requirements; develops operation plans, policies, and procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics and 2 in personnel supervision, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation (9/82).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 2 in records administration, and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (9/82).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 3 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in applied psychology (9/82).

MOS-63W-001

Wheel Vehicle Repairer

63W10
63W20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on wheel vehicles, materials-handling equipment (except the motor on electrical materials-handling equipment). *Skill Level 10:* Performs maintenance on engines, clutches, transmissions, differentials, steering assemblies, transfer cases, and hydraulic cylinders; repairs components by replacing valves, shafts, gears, bearings, rings, and seals; operates wrecker. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; troubleshoots and uses diagnostic equipment to identify malfunctions; modifies equipment and recommends repair procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

MOS-63Y-001

Track Vehicle Mechanic

63Y10
63Y20

Exhibit Dates: 9/80–Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on track vehicles. *Skill Level 10:* Replaces engine components such as fuel pumps, generators, starters, regulators, radiators, universal joints, brake shoes, engine mounts, and lines and fittings; adjusts operating mechanisms; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and supervision to Skill Level 10 personnel; troubleshoots and uses diagnostic equipment to identify malfunctions.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics (9/82).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, and additional credit on the basis of institutional evaluation (9/82).

MOS-63Z-001

MECHANICAL MAINTENANCE SUPERVISOR

63Z50

Exhibit Dates: 9/75-8/80.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Skill Level 50: Supervises organizational, direct, and general support maintenance on all types of mechanical equipment; assists in making plans and establishing policies and procedures for maintenance units; plans facilities and workflow; assigns duties; instructs in maintenance work techniques; evaluates performance of subordinate personnel; interprets company policy and standard operating procedures; assists in accomplishing unit training. NOTE: May have progressed to 63Z50 from Skill Level 40 of any MOS in the mechanical maintenance career management field (63).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in personnel supervision, 3 in records administration, and 3 in leadership. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in records administration, 3 in leadership, and 3 for field experience in management, and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management, and additional credit on the basis of institutional evaluation (12/75).

MOS-63Z-002

MECHANICAL MAINTENANCE SUPERVISOR

63Z50

Exhibit Dates: 9/80-Present.

Career Management Field: 63 (Mechanical Maintenance), subfield 633 (Machinery Maintenance).

Description

Skill Level 50: Manages and supervises all phases of maintenance on all types of mechanical equipment; plans layout of maintenance shops and facilities; supervises production and quality control; evaluates work performance and training requirements; assists in preparing maintenance policies and special reports. NOTE: May have progressed to 63Z50 from Skill Level 40 of any MOS in the mechanical maintenance career management field (63).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in records administration, and 6 for field experience in management, and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management, and additional credit on the basis of institutional evaluation (9/82).

MOS-64C-001

MOTOR TRANSPORT OPERATOR

64C20
63C30
64C40
64C50

Exhibit Dates: 10/73-2/76.

Career Management Field: 65 (Transportation), subfield 652 (Motor Transport).

Description

Summary: Operates wheel vehicles to transport personnel and cargo. *Skill Level 20:* Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; knows safety rules and practices; insures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates vehicles with a capacity of over five tons such as tractor-trailers and tank trucks. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises motor pool activities; schedules, routes, and controls movements of motor transport equipment. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates motor transport operations; assists in planning, coordinating, and supervising all supporting activities; prepares studies, routine and special reports, and records on motor transport operations; supervises personnel and technical operations.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in motor vehicle operation (single-unit truck) (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck and tractor-trailer) (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 6 semester hours in transportation management and 3 in motor maintenance management (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 9 semester hours in motor transportation management, 6 in motor maintenance management, and 6 for field experience in education (driver training) (2/75).

MOS-64C-002

MOTOR TRANSPORT OPERATOR

64C10
64C20
64C30
64C40

Exhibit Dates: 3/76-9/87. (MOS 64C has been redesignated MOS 88M; see exhibit MOS-88M-001.)

Career Management Field: 64 (Transportation), subfield 641 (Surface Operations).

Description

Summary: Operates wheel vehicles to transport personnel and cargo. *Skill Level 10:* Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; knows safety rules and practices; insures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher; depending on the type of unit to which assigned, may also perform the same duties for tractors, semitrailers, tank transporters, and other vehicles with a capacity of more than five tons. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small motor transport activity; participates in convoy operations and organization, including planning, the establishment of control measures, and the observance of civil laws and pertinent military regulations; reviews and prepares operations reports; determines the number of vehicles required for a given operation; schedules route and controls movements of motor transport equipment; may perform or direct driver testing functions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large motor transport activity.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 3 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 4 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 4 additional semester hours in motor vehicle operation. In the lower-division baccalaureate/associate degree category, 6 semester hours in motor vehicle transportation management and 3 in motor maintenance management; if the duty assignment was driver test sergeant, 3 additional semester hours for an internship in education (driver training) (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 6 semester hours in motor transportation management, 3 in motor maintenance management, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management; if the duty assignment was driver test sergeant, 3 additional semester hours for an internship in education (driver training) (5/76).

MOS-64Z-001

TRANSPORTATION SENIOR SERGEANT

64Z50

Exhibit Dates: 3/76-9/87. (MOS 64Z has been redesignated MOS 88Z; see exhibit MOS-88Z-001.)

Career Management Field: 64 (Transportation), subfield 641 (Surface Operations).

Description

Skill Level 50: Supervises operation and control of movement of personnel and cargo by air, rail, motor transport, and water; prepares tactical plans and training material; evaluates transportation operations; assists in planning, coordinating, and supervising all supporting activities; prepares studies, routine and special reports, and records on transportation operations; supervises personnel and technical operations. NOTE: The job description for 64Z50 reflects recent changes and indicates proficiency in MOS 71N40 (Traffic Management Coordinator) 64C40 (Motor Transport Operator), and 57H40 (Terminal Operations Coordinator). However, personnel holding MOS 64Z50 since May 1976 may not possess expertise in all these MOS's. With the additional experience and training that is planned, personnel should be fully qualified in the near future.

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in transportation operations. In the lower-division baccalaureate/associate degree category, 9 semester hours in transportation operations, 3 in records administration, and 3 in report writing. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 for field experience in education (5/76).

MOS-65B-001

LOCOMOTIVE REPAIRER
(LOCOMOTIVE REPAIRMAN)

65B10
65B20
65B30
65B40

Exhibit Dates: 3/76–9/87. (MOS 65B has been redesignated MOS 88P; see exhibit MOS-88P-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Supervises or enforces mainenance on nonelectric sections of locomotives. *Skill Level 10:* Inspects locomotives to diagnose malfunctioning parts; accompanies locomotive operator on test runs and observes functions of locomotives; cleans and lubricates components as required; performs technical inspections on locomotives and auxiliary equipment to insure proper maintenance has been performed; interprets technical drawings and sketches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs initial and final inspections on locomotives scheduled for maintenance; supervises and instructs repairmen in methods and techniques of repairs; enforces safety practices; prepares technical reports on locomotives and estimates personnel, supplies, parts, and equipment necessary to restore locomotives, tanks, and tank cars to efficient operating condition; plans, organizes, and coordinates work activity of subordinates engaged in maintaining, inspecting, and repairing locomotives and auxiliary equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 65B or 65F (Locomotive Electrician); supervises or controls repairs of mechanical and electrical portions of locomotives.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in locomotive maintenance. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in locomotive maintenance. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance, 3 in personnel supervision, and 3 in industrial management (5/76).

MOS-65D-001

RAILWAY CAR REPAIRER
(RAILWAY CAR REPAIRMAN)

65D10
65D20
65D30
65D40

Exhibit Dates: 3/76–9/87. (MOS 65D has been redesignated MOS 88Q; see exhibit MOS-88Q-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Supervises or performs maintenance on railway passenger, freight, and hospital cars. *Skill Level 10:* Dismantles and reassembles major components and auxiliary equipment; examines wheels, axles, journals, journal bearings, and draft gear for structural and safety defects; inspects cars for defects which interfere with proper loading and makes necessary repairs; repairs handbrake mechanisms, gear ratchets, linkage, center sills, and body bolsters; straightens bent sections of bodies; paints and stencils railway cars; performs technical inspection of railway cars to insure proper maintenance; interprets technical blueprints and sketches; assists in salvage and rehabilitation of cars. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; inspects railway cars prior and subsequent to maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 65D or 65E (Airbrake Repairman); plans, organizes, coordinates, and supervises work activity of a railway car section team; instructs repairmen in proper maintenance techniques and safety procedures; calculates personnel and material requirements for specific repair work; maintains records and prepares detailed technical reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large repair facility (normally, a minimum of 39 lower skill level personnel) involved in repairing railway cars and airbrake systems of locomotives and cars.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in practices and procedures of railroad car repair (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in practices and procedures of railroad car repair. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in practices and procedures of rairoad car repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 1 in technical writing (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in practices and procedures of railroad car repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in technical writing (5/76).

MOS-65E-001

AIRBRAKE REPAIRER
(AIRBRAKE REPAIRMAN)

65E10
65E20

Exhibit Dates: 3/76–9/87. (MOS 65E has been redesignated MOS 88R; see exhibit MOS-88R-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Inspects, services, and repairs airbrake systems of locomotives and cars. *Skill Level 10:* Inspects airbrake components and system for defects; dismantles, cleans, and lubricates components; removes and replaces defective parts; tests and adjusts components for maximum efficiency of airbrake system; makes appropriate entries in parts and log books; prepares written reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

MOS-65F-001

LOCOMOTIVE ELECTRICIAN

65F10
65F20
65F30

Exhibit Dates: 3/76–9/87. (MOS 65F has been redesignated MOS 88S; see exhibit MOS-88S-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Supervises or performs repairs on electrical portions of diesel-electric systems of diesel electric locomotives. *Skill Level 10:* Inspects, dismounts, dismantles, cleans, repairs, and replaces defective components of electrical systems of diesel-electric locomotives, including generators, traction motors, auxiliary motors, reversers, contactors, relays, and regulators; load-tests repaired electrical components; restores commutator surfaces, rebands armatures, and repairs armature bearings; calibrates electric measuring instruments; reads schematic wiring diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized activity involved in repairing electrical portions of electrical systems of diesel-electric locomotives; interprets complex wiring diagrams; prepares shop layouts; develops plans for utilization of personnel, materials, and equipment; conducts on-the-job training; requisitions tools, parts and supplies.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in repair of electrical systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in shop management, and 3 in human relations (5/76).

MOS-65G-001

RAILWAY SECTION REPAIRER
(RAILWAY SECTION REPAIRMAN)

65G10
65G20
65G30
65G40

Exhibit Dates: 3/76–9/87. (MOS 65G has been redesignated MOS 88T; see exhibit MOS-88T-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Performs and/or supervises maintenance, repair and clean-up of railway tracks, roadbeds, switches, and other railway facilities. *Skill Level 10:* Performs inspection, repair, clean-up, and maintenance of railway right-of-way and adjoining structures including switches, signals, degree of elevation, track curvature, and tie spacing; controls the issuing of repair and maintenance equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines need for repair and construction equipment and arranges for movement to job site; conducts on-the-job training in minor repairs, emphasizing safety to both train and work repair crews; supervises limited size maintenance, repair, and clean-up crews. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized crews (normally 29-38 subordinate personnel or 2 section gangs); adjusts work assignments to best reflect capabilities of subordinate personnel; prepares reports relating to the maintenance, repairs, and clean-up of railway right-of-way facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the maintenance, repair, and clean-up activities of a large-scale railway facility, normally consisting of more than 39 subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in railroad operations (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in railroad operations (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 7 semester hours in railroad operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 7 semester hours in railroad operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 6 for field experience in management (5/76).

MOS-65H-001

LOCOMOTIVE OPERATOR

65H10
65H20
65H30
65H40

Exhibit Dates: 3/76–9/87. (MOS 65H has been redesignated MOS 88U; see exhibit MOS-88U-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Operates steam, electric, and diesel-electric locomotives and related equipment. *Skill Level 10:* Operates steam, electric, and diesel-electric locomotives and related equipment; fires and sustains steam pressure by either hand or stoker firing of coal-burning locomotives; and assists in performing the duties required for Skill Level 20. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets specific operating instructions; efficiently operates locomotives and trains, observing appropriate gauges and meters; lubricates moving parts of locomotive; interprets and executes operating instructions; inspects equipment for proper operating condition; interprets train orders; compiles performance and delay reports for each trip; submits locomotive inspection reports, noting needed corrective action for defects. *Skill Level 30:* Able to perform the duties required for Skill Level 20; reviews operation and inspection reports; investigates schedule delays, accidents, and unusual operating incidents and recommends corrective action; assigns specific duties to locomotive operators and other crewmen, and monitors performance of these personnel; provides on-the-job training; enforces safety procedures; coordinates maintenance of locomotives; prepares technical, personnel, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of steam, electric, and diesel-electric locomotives and related equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in steam, electric, and diesel-electric mechanics, 3 in operation and maintenance of locomotive engines, and 3 in railway safety (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in steam, electric, and diesel-electric mechanics, 3 in operation and maintenance of locomotive engines, and 3 in railway safety (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in operation and maintenance of locomotive engines, 3 in steam, electric, and diesel mechanics, and 3 in railway safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in report writing, and 1 in safety (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 3 in report writing, and 1 in safety (5/76).

MOS-65J-001

TRAINSMAN

65J10
65J20
65J40

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transportation), subfield 654 (Railway).

Description

Summary: Serves as yardmaster, conductor, or brakeman in the make-up and movement of railway cars and trains. *Skill Level 10:* Assists in disassembly, cleaning, and reassembly of major components of locomotives and cars; moves tools and supplies to and from worksites; positions and braces heavy material or parts for repairmen; lubricates locomotives and cars; services storage batteries. *Skill Level 20:* Performs as brakeman in car coupling and uncoupling operations; lubricates cars and insures that they are properly loaded, braced, and lashed; prepares reports, lists, and records of yard and road railway operations. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises brakeman operations and serves as conductor and yardmaster in the movement and makeup of railway cars and trains, receives and prepares required train orders, forms, and records; conducts on-the-job training.

Recommendation, Skill Level 10

Credit on the basis of institutional evaluation. NOTE: Skill Level 10 was not evaluated during the time period of this exhibit, because it was added to MOS 65J in 3/75, one month after Skill Levels 20 and 40 were evaluated.

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in railroad operation (brakeman) (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in railroad operation (conductor and yardmaster). In the lower-division baccalaureate/associate degree category, 6 semester hours in management (2/75).

MOS-65J-002

TRAIN CREW MEMBER
(TRAINMAN)

65J10

65J20

65J30

65J40

Exhibit Dates: 3/76–9/87. (MOS 65J has been redesignated MOS 88V; see exhibit MOS-88V-001.)

Career Management Field: 64 (Transportation), subfield 653 (Railway Operations).

Description

Summary: Serves as yardmaster, conductor, or brakeman in the make-up and movement of railway cars and trains. *Skill Level 10:* Performs as a brakeman; receives orders for switching and performs car coupling and uncoupling operations; applies safety rules; gives and interprets railway signals for train control and operation; places placarded cars in trains and insures that cars are properly loaded and lashed for safe handling; prepares and interprets train orders; prepares reports and forms for yard and railway operations; inspects rolling stock to determine operating condition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a conductor; supervises the operation of a railroad train and coordinates train movements; reviews and interprets train orders and time tables; instructs and supervises enginemen and brakemen in connecting and disconnecting trains and cars and switching cars to sidings or spurs. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as an assistant yardmaster; supervises and trains personnel in railway yard operation, including the handling, classification, and switching of trains and cars; maintains record of daily movement of railway cars; assures adherence to railway safety procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports covering railway yard activities. *Skill Level 40:* Supervises railway yard operations by performing the duties required for Skill Level 30 at a higher level, normally supervising two Skill Level 30 yardmasters.

Recommendation, Skill Level 10

In the vocational certificate category, 7 semester hours in the make-up and movement of railway cars and trains (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 6 for field experience in management (5/76).

MOS-65K-001

RAILWAY MOVEMENT COORDINATOR

65K10

65K20

65K30

65K40

Exhibit Dates: 3/76–9/87. (MOS 65K has been redesignated MOS 88W; see exhibit MOS-88W-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Summary: Supervises train dispatching or operates railway stations, railway signals and switches, and assists in control and coordination of train movements. *Skill Level 10:* Accounts for car and train movements by compiling records reflecting locations of all rolling stock; keeps records of arriving and departing trains; computes operational and statistical reports on traffic volume, demurrage, expediting, and train movements; requisitions cars, supervises loading, compiles and checks bills of lading (waybills), and seals cars; receives requisitions for empty cars and directs movement to loading areas; establishes liaison with other operating personnel and civilian carrier operating personnel to insure safe and prompt handling of freight. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises receipt and transmission of messages relating to train movements; reviews transit time; coordinates and arranges for train crews; establishes close liaison with representatives of civilian and military railroads; supervises on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides staff supervision to lower-grade personnel in railway operating activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management, 3 in personnel supervision, and 3 in human relations (5/76).

MOS-65Z-001

RAILWAY SENIOR SERGEANT

65Z50

Exhibit Dates: 10/73–9/87. (MOS 65Z has been redesignated MOS 88X; see exhibit MOS-88X-001.)

Career Management Field: 64 (Transportation), subfield 643 (Railway Operations).

Description

Skill Level 50: Supervises and coordinates maintenance-of-way and maintenance of equipment and railway operations, including the overall supervision of 65B40 (Locomotive Repairman), 65D40 (Railway Car Repairman), 65G40 (Railway Section Repairman), 65H40 (Locomotive Operator), 65J40 (Trainman), and 65K40 (Railway Movement Coordinator) personnel; advises superiors on all matters relating to operations, maintenance, and repair; monitors and controls railway passenger and freight traffic; prepares operational reports, training material, and programs.

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 3 semester hours in records administration, 3 in personnel management, 3 in human relations, 3 for field experience in management, 3 in maintenance management, 3 in introduction to management, and 6 in transportation management (5/76).

MOS-66G-001

UTILITY AIRPLANE TECHNICAL INSPECTOR
UTILITY/CARGO AIRPLANE
TECHNICAL INSPECTOR

66G20

66G30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66G was discontinued and its duties were incorporated into MOS 67G, Utility Airplane Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on utility or cargo airplanes to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66G20 from 67G20, Utility Airplane Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in

aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66H-001

OBSERVATION AIRPLANE TECHNICAL INSPECTOR

66H20

66H30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66H was discontinued and its duties were incorporated into MOS 67H, Observation Airplane Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on observation airplanes to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66H20 from 67H20, Observation Airplane Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66J-001

AIRCRAFT ARMAMENT TECHNICAL INSPECTOR

66J30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66J was discontinued and its duties were incorporated into MOS 68J, Aircraft Armament/Missile Systems Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Performs duties as an aircraft armament technical inspector; inspects and makes operational checks on armament systems and subsystems to isolate malfunctions using special test sets and applicable manuals and publications; plans and directs inspection activities; performs maintenance trend analysis; provides technical guidance and training to armament repairers on proper maintenance techniques and procedures; participates in armament system test flights. NOTE: Progressed to 66J30 from 68J30, Aircraft Fire Control Repairer.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in quality control, 3 in maintenance management, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66N-001

UTILITY HELICOPTER TECHNICAL INSPECTOR

66N20

66N30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66N was discontinued and its duties were incorporated into MOS 67N, UH-1 Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on UH-1 utility helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66N20 from 67N20, Utility Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66R-001

AH-64 ATTACK HELICOPTER TECHNICAL INSPECTOR

66R20

66R30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66R was discontinued and its duties were incorporated into MOS 67R, AH-64 Attack Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on AH-64 attack helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66R20 from 67R20, AH-64 Attack Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66S-001

SCOUT HELICOPTER TECHNICAL INSPECTOR

66S20

66S30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66S was discontinued and its duties were incorporated into MOS 67S, OH-58D Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on OH-58D scout helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66S20 from 67S20, Scout Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66T-001

TACTICAL TRANSPORT HELICOPTER TECHNICAL INSPECTOR

66T20

66T30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66T was discontinued and its duties were incorporated into MOS 67T, UH-60 Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on UH-60 tactical transport helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66T20 from 67T20, Tactical Transport Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66U-001

MEDIUM HELICOPTER TECHNICAL INSPECTOR

66U20

66U30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66U was discontinued and its duties were incorporated into MOS 67U, CH-47 Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on CH-47 medium helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66U20 from 67U20, Medium Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66V-001

OBSERVATION/SCOUT HELICOPTER TECHNICAL INSPECTOR

66V20

66V30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66V was discontinued and its duties were incorporated into MOS 67V, Observation/Scout Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on OH-58A/C observation/scout helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66V20 from 67V20, Observation/Scout Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66X-001

HEAVY LIFT HELICOPTER TECHNICAL INSPECTOR

66X20

66X30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66X was discontinued and its duties were incorporated into MOS 67X, Heavy Lift Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on CH-54 heavy lift helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66X20 from 67X20, Heavy Lift Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-66Y-001

AH-1 ATTACK HELICOPTER TECHNICAL INSPECTOR

66Y20

66Y30

Exhibit Dates: 3/84–3/90. (Effective 3/90, MOS 66Y was discontinued and its duties were incorporated into MOS 67Y, AH-1 Attack Helicopter Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs technical inspections on AH-1 attack helicopters to determine maintenance requiements and to insure that appropriate maintenance has been performed. *Skill Level 20:* Trains and provides technical guidance to repairers on proper maintenance techniques and safety procedures; checks airplane flight and maintenance records to determine adherence to prescribed maintenance standards; maintains technical library; inspects sytems, subsystems, and components according to applicable technical publications and checklists before, during, and after airplane maintenance and modifications; computes basic aircraft weight and balance records; checks and troubleshoots systems; participates in maintenance test flights; annotates records of required maintenance; evaluates operational readiness of airplanes and recommends corrective action; inspects crash-damaged airplanes and estimates time, parts, and costs to repair; insures compliance with aircraft configuration control, Army Oil Analysis Program and test measuring and diagnostic calibration. NOTE: Progressed to 66Y20 from 67Y20, AH-1 Attack Helicopter Repairer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, directs, and supervises technical inspections; provides technical guidance to subordinate personnel; evaluates technical training programs; prepares evaluation reports on subordinate personnel; performs maintenance trend analysis and checks maintenance supply documents to insure compliance with product quality control standards.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, and 3 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 3 in technical electives, 3 in aviation maintenance management, 3 in quality control, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

MOS-67B-001

O-1/U-6 AIRPLANE REPAIRMAN

67B20

67B40

Exhibit Dates: 9/75–2/77. (Effective 3/77, MOS 67B was discontinued and its functions were incorporated into MOS 67G, Airplane Repairer.)

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance, excluding any repair of system components, on 0-1 and U-6 airplanes; supervises or serves as crewman in target aircraft units. *Skill Level 20:* Readies, assists in launching, and conducts scheduled and special inspections of target aircraft; diagnoses operational defects, services systems, and adjusts or replaces parts or assemblies as authorized by maintenance doctrine and maintenance allocation charts; tightens, adjusts, removes, and replaces components, assemblies and subassemblies with common and special tools and precision measuring instruments; removes and replaces defective engine carburetors, fuselage components, seat belts, shoulder harnesses, seats, upholstery, propeller accessories, hydraulic system components, gages, and instruments; adjusts and replaces electrical system components; installs spark plugs, engines, cowlings, horizontal and vertical stabilizers, battery, wings, parachute, and parachute release mechanism on target aircraft for launching; maintains target aircraft engines, airframes, and wings; performs preflight checkout of target aircraft. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel involved in the launch, remote control, and recovery of target aircraft; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; keeps records on aircraft maintenance operations; estimates man-hour and parts requirements to repair airplanes and associated equipment; performs duties of airfield service supervisor; conducts on-the-job training; prepares, reviews, and consolidates technical and administrative reports pertaining to target aircraft equipment maintenance.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance, 3 in shop procedures and practices, and 1 in technical writing. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop procedures and practices, 3 in personnel supervision, 1 in technical writing, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was maintenance supervisor section chief, section sergeant, or maintenance supervisor platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67C-001

U-1A Airplane Repairman

67C20
67C40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 67C was discontinued and its functions were incorporated into MOS 67G, Airplane Repairer.)

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance, excluding any repair of system components, on U-1A airplanes. *Skill Level 20:* Performs maintenance on airplanes, including inspecting, checking, troubleshooting, and repairing malfunctions in the airframe, powerplant, and their associated systems; uses common and special tools and precision measuring instruments; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; loads, lashes, and unloads cargo. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises organizational, direct, and general support maintenance activities and applies production control, quality control, and other maintenance management principles and procedures to shop operations; evaluates damage and estimates man-hour and parts requirements to repair airplanes and associated equipment; instructs lower-skill-level personnel in safety principles and procedures; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67F-001

Airplane Technical Inspector

67F20
67F40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 67F was discontinued and its functions were incorporated into MOS 67W, Aircraft Quality Control Supervisor.)

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on fixed-wing airplanes. *Skill Level 20:* Determines maintenance required and ensures that maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots aircraft systems; advises repairmen on proper maintenance standards and procedures; maintains records and technical library; interprets technical publications and solves problems arising in aircraft maintenance and modification; applies quality control techniques. NOTE: Must be able to perform the duties of Skill Level 20 of any fixed-wing aircraft maintenance MOS. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is the principal noncommissioned officer in an aviation maintenance unit; applies quality control techniques and procedures to maintenance operations; plans, directs, schedules, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair fixed-wing aircraft.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 in technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 20 semester hours in aircraft maintenance, 6 in technical electives, and 5 in quality control. In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 6 in technical electives, 5 in quality control, and 3 in personnel management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 in technical electives, and 3 in personnel management (11/75).

MOS-67G-001

U-8/U-21 Airplane Repairman

67G20
67G40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs line and shop maintenance, excluding any repair of system components, on U-8 and U-21 airplane. *Skill Level 20:* Performs maintenance on aircraft systems, ground support equipment, landing gear, power plant (reciprocating and turboprop) and related systems, hydraulic and related systems, propellers, flight controls, instruments, electrical systems, and accessories. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to line and shop operations; prepares records and reports on aircraft maintenance operations; utilizes and enforces safety principles and procedures.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or aviation maintenance management (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, or in the upper-division baccalaureate category, 4 semester hours in aviation maintenance management or airframe systems management (2/75).

MOS-67G-002

Airplane Repairer

67G10
67G20
67G30

Exhibit Dates: 3/77–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises line and shop maintenance of light aircraft excluding any repair of system components, or conducts maintenance inspections. *Skill Level 10:* Performs maintenance and minor repair on aircraft systems, ground support equipment, accessories and appliances of fixed-wing light aircraft; prepares aircraft for extensive inspections by removing inspection plates, panels, floorboards, and auxiliary equipment; removes and replaces subsystem components including starters, generators, inventers, voltage regulators, lights, batteries, pumps, reservoirs, valves, hydraulic cylinders, and hoses; assists in removal and installation of subsystem assemblies such as engines, propellers, and main wheels; uses aircraft maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a crew chief on light fixed-wing aircraft; provides technical guidance to Skill Level 10 personnel; removes and replaces major components; performs maintenance operational checks; diagnoses and troubleshoots all systems on light-wing aircraft; uses and interprets technical manuals, directives, work standards, and operational policies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as a technical inspector on light fixed-wing aircraft; plans work flow; applies quality control principles and other maintenance management principles to shop and flight line operations; supervises and evaluates work performance in aircraft maintenance, supply, and safety techniques; assists in performing aircraft weight and balance checks.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control; if the duty position was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, or 9 semester hours in management electives (5/78).

MOS-67G-003

Utility/Cargo Airplane Repairer

67G10
67G20
67G30
67G40

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Supervises and performs maintenance on utility airplanes at the unit, intermediate, and component levels, excluding repair of system components. *Skill Level 10:* Performs air crewmember duties, removes and installs sub-system such as engines, propellers, and landing gear; removes and installs components including starters, generators, inverters, batteries, pumps and hydraulic units; services and lubricates the airplane and the airplane sub-systems; prepares airplane for maintenance inspections; performs scheduled and special inspections and maintenance checks; assists in diagnosing and troubleshooting; prepares airplane for air or surface shipment and taxis aircraft; uses and performs maintenance on ground support equipment and special tools; prepares forms, records and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance and operational checks and scheduled inspections; accomplishes diagnostic and troubleshooting duties on aircraft sub-systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies production and quality control and other management principles to shop and flight line operation; plans work flow; instructs personnel and conducts training programs in maintenance, supply, and safety techniques; supervises the preparation of forms, records and reports on aircraft maintenance and supply procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the training of personnel; prepares evaluations, special reports, and maintenance records; plans and lays out airplane maintenance areas, repair shops, and facilities requirements; assists in the preparation of plans and policies and controls the flow of work orders, requisitions, and correspondence.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology and 3 in personnel supervision (10/84).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology, 3 in personnel supervision, and 3 in aircraft maintenance management (10/84).

MOS-67H-001

OV-1 Airplane Repairman

67H20
67H40

Exhibit Dates: 10/73–8/81.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components, on OV-1 airplanes. *Skill Level 20:* Performs maintenance on airplanes, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; uses hand and power tools, special tools, precision measuring instruments, and diagnostic test equipment; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans workflow; evaluates damage and estimates man-hour and parts requirements to repair OV-1 airplanes and associated equipment; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; provides instruction in safety principles, procedures, and techniques.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic airframe maintenance or basic airplane maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance or basic airplane maintenance, 3 in shop practices and procedures, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was either maintenance supervisor section sergeant or maintenance supervisor platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67H-002

Observation Airplane Repairer

67H10
67H20
67H30

Exhibit Dates: 9/81–3/89.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Supervises and performs maintenance on observation airplanes at the unit, intermediate, and component levels, excluding repair of system components. *Skill Level 10:* Removes and installs sub-system assemblies such as engine, propellers, and landing gear; removes and installs components including starters, generators, inverters, batteries, pumps, and hydraulic units; services and lubricates the airplane and the airplane sub-systems; prepares airplane for maintenance inspections; performs scheduled and special inspections and maintenance checks; assists in diagnosing and troubleshooting; prepares airplane for air or surface shipment and taxis aircraft; uses and performs maintenance on ground support equipment and special tools; prepares forms, records, and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance and operational checks and scheduled inspections; accomplishes diagnostic and troubleshooting duties on aircraft sub-systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies production and quality control and other management principles to shop and flight line operation; plans work flow; instructs personnel and conducts training programs in maintenance, supply, and safety techniques; supervises the preparation of forms, records, and reports on aircraft maintenance and supply procedures.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology and 3 in personnel supervision (10/84).

MOS-67H-003

Observation Airplane Repairer

67H10
67H20
67H30
67H40

Exhibit Dates: 3/89–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Supervises and performs maintenance on observation airplanes at the unit, intermediate, and component levels, excluding repair of system components. *Skill Level 10:* Removes and installs sub-system assemblies such as engine, propellers, and landing gear; removes and installs components including starters, generators, inverters, batteries, pumps, and hydraulic units; services and lubricates the airplane and the airplane sub-systems; prepares airplane for maintenance inspections; performs scheduled and special inspections and maintenance checks; assists in diagnosing and troubleshooting; prepares airplane for air or surface shipment and taxis aircraft; uses and performs maintenance on ground support equipment and special tools; prepares forms, records, and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance and operational checks and scheduled inspections; accomplishes diagnostic and troubleshooting duties on aircraft sub-systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies production and quality control and other management principles to shop and flight line operation; plans work flow; instructs personnel and conducts training programs in maintenance, supply, and safety techniques; supervises the preparation of forms, records, and reports on aircraft maintenance and supply procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the training of personnel; prepares evaluations, special reports, and maintenance records; plans and lays out airplane maintenance areas, repair shops, and facilities requirements; assists in the preparation of plans and policies and controls the flow of work orders, requisitions, and correspondence.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology (10/84).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology and 3 in personnel supervision (10/84).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in aircraft maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft maintenance technology, 3 in personnel supervision, and 3 in aircraft maintenance management (10/84).

MOS-67N-001

UH-1 Helicopter Repairman

67N20
67N40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on UH-1 helicopters. *Skill Level 20:* Inspects, replaces, and repairs parts of the UH-1 helicopter; conducts scheduled and special inspections; troubleshoots and diagnoses all systems to detect malfunctions and isolate defective components; uses common and special tools and precision measuring instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; applies maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; supervises a minimum of six subordinates; employs shop safety principles and procedures; evaluates damage and estimates repair requirements; does more complicated repair work; performs duties of airfield service supervisor.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 1 in records administration, and 2 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in management principles or personnel administration (2/75).

MOS-67N-002

Utility Helicopter Repairer

67N10
67N20
67N30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on utility helicopters, excluding repairs of systems components, or conducts maintenance inspections. *Skill Level 10:* Assists in the removal and installation of subsystem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopters for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of utility helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as utility helicopter crew chief; provides technical guidance to Skill Level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on utility helicopters; plans work flow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control; if the duty position was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management; or 9 semester hours in management electives (5/78).

MOS-67R-001

AH-64 Attack Helicopter Repairer

67R10
67R20
67R30
67R40

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on attack helicopters, excluding repairs of system components. *Skill Level 10:* Assists in the removal and installation of subsytem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopter for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of attack helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as attack helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on attack helicopters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft; if duty position is section chief, serves as the principal noncommissioned officer in a section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all maintenance activities; diagnoses complex malfunctions; determines personnel and parts requirements; coordinates work schedules and assigns duties; applies production, quality control, and other maintenance management principles and procedures; prepares evaluations, special reports, and maintenance records; supervises technical training programs; assists in the preparation of plans and policies; controls the flow of work orders, requisitions, and correspondence; plans the layout of helicopter maintenance areas, shops, and facilities. NOTE: May have progressed to 67R40 from 67R30, 66R30, AH-64 Attack Helicopter Technical Inspector, 67S30, Scout Helicopter Repairer, or 66S30, Scout Helicopter Technical Inspector.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, and 3 in personnel supervision; if duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, 6 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67S-001

OH-58D Helicopter Repairer
(Scout Helicopter Repairer)

67S10
67S20
67S30

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on scout helicopters, excluding repairs of system components. *Skill Level 10:* Assists in the removal and installation of subsystem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopters for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenace forms and records; may perform duties of scout helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as scout helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on utility helicopters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft; if duty position is section chief, serves as the principal noncommissioned officer in a section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, and 3 in personnel supervision; if duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67T-001

Tactical Transport Helicopter Repairer

67T10
67T20
67T30

Exhibit Dates: 9/78–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on tactical transport helicopters, excluding repairs of system components, or conducts maintenance inspections. *Skill Level 10:* Assists in the removal and installation of subsystem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopters for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of utility helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as tactical transport helicopter crew chief; provides technical guidance to Skill Level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on utility helicppters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic helicopter maintenance (9/81).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (9/81).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, and 3 in personnel supervision; if the duty assignment was maintenance supervisor section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management; or 9 semester hours in management electives (9/81).

MOS-67T-002

UH-60 Helicopter Repairer
(Tactical Transport Helicopter Repairer)

67T10
67T20
67T30
67T40

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on tactical transport helicopters, excluding repairs of system components. *Skill Level 10:* Assists in the removal and installation of subsytem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopter for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of tactical transport helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as tactical transport helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on tactical transport helicopters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft; if duty position is section chief, serves as the principal noncommissioned officer in a section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all maintenance activities; diagnoses complex malfunctions; determines personnel and parts requirements; coordinates work schedules and assigns duties; applies production, quality control, and other maintenance management principles and procedures; prepares evaluations, special reports, and maintenance records; supervises technical training programs; assists in the preparation of plans and policies; controls the flow of work orders, requisitions, and correspondence; plans the layout of helicopter maintenance areas, shops, and facilities. NOTE: May have progressed to 67T40 from 67T30, 66T30, Tactical Transport Helicopter Technical Inspector, 67N30, Utility Helicopter Repairer, or 66N30, Utility Helicopter Technical Inspector.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, and 3 in personnel supervision; if duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 4 semester hours in basic helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, 6 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67U-001

CH-47 HELICOPTER REPAIRMAN

67U20
67U40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding any teardown repair of system components, on CH-47 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated system; uses hand and power tools, special tools, precision measuring instruments, and diagnostic test equipment; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; applies production control and other maintenance management principles and procedures to shop operations; evaluates damage and estimates man-hour and parts requirements to repair CH-47 helicopters and associated equipment; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was either maintenance supervisor section chief or maintenance supervisor section platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67U-002

MEDIUM HELICOPTER REPAIRER

67U10
67U20
67U30

Exhibit Dates: 3/77-2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on medium helicopters, excluding the repair of system components, or conducts maintenance inspections. *Skill Level 10:* Performs medium helicopter maintenance; assists in the removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, roter hubs, and rotor blades; prepares helicopters for major inspections; assists in maintenance operational checks; uses maintenance forms and records; may perform duties of medium helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance operational checks; performs all scheduled and special aircraft inspection maintenance tasks; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs maintenance on cargo (heavy) helicopters; may serve as aircraft technical inspector; plans work flow; applies quality control, production control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of the aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control; if the duty position was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management; or 9 semester hours in management electives (5/78).

MOS-67U-003

CH-47 HELICOPTER REPAIRER
(MEDIUM HELICOPTER REPAIRER)

67U10
67U20
67U30
67U40

Exhibit Dates: 3/84-Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on medium helicopters, excluding repairs of system components. *Skill Level 10:* Assists in the removal and installation of subsytem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopter for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of medium helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as medium helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on medium helicopters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft; if duty position is section chief, serves as the principal noncommissioned officer in a section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all maintenance activities; diagnoses complex malfunctions; determines personnel and parts requirements; coordinates work schedules and assigns duties; applies production, quality control, and other maintenance management principles and procedures; prepares evaluations, special reports, and maintenance records; supervises technical training programs; assists in the preparation of plans and policies; controls the flow of work orders, requisitions, and correspondence; plans the layout of helicopter maintenance areas, shops, and facilities. NOTE: May have progressed to 67U40 from 67U30, 66U30, Medium Helicopter Technical Inspector, 67X30, Heavy Lift Helicopter Repairer, or 66X30, Heavy Lift Helicopter Technical Inspector.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, and 3 in personnel supervision; if duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, 6 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67V-001

OH-6/OH-58 Helicopter Repairman

67V20

67V40

Exhibit Dates: 3/74–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components, on OH-6/OH-58 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; loads, lashes, and unloads cargo. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities and applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was maintenance supervision platoon sergeant, 6 semester hours in aviation management, or 3 semester hours in introduction to management and 3 for field experience in managment (11/75).

MOS-67V-002

Observation/Scout Helicopter
Repairer

67V10

67V20

67V30

Exhibit Dates: 3/77–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on observation/scout helicopters, excluding the repair of systems components, or conducts maintenance inspections. *Skill Level 10:* Performs maintenance on observation/scout helicopters; assists in the removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, rotor hubs and rotor blades; prepares helicopters for major inspections; assists in maintenance operational checks; uses maintenance form and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance operational inspection checks; troubleshoots rotor system malfunctions; performs all scheduled and special aircraft inspection maintenance tasks; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as aircraft technical inspector; applies quality control, production control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control; if the duty position was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management; or 9 semester hours in management electives (5/78).

MOS-67V-003

Observation/Scout Helicopter
Repairer

67V10

67V20

67V30

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on observation/scout helicopters, excluding the repair of systems components. *Skill Level 10:* Performs maintenance on observation/scout helicopters; assists in the removal and installation of subsystem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopters for major inspections; assists in maintenance operational checks; uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to skill level 10 personnel; performs maintenance operational inspection checks; troubleshoots rotor system malfunctions; performs all scheduled and special aircraft inspection maintenance tasks; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies quality control, production control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of aircraft; if duty position is section chief, serves as the principle noncommissioned officer in a section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance, 2 in quality control, 3 in aviation maintenance management, and 3 in personnel supervision; if the duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67W-001

Helicopter Technical Inspector

67W20

67W40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on rotory-wing aircraft and life support equipment. *Skill Level 20:* Performs technical inspections on rotary-wing aircraft to determine maintenance requirements and to insure that maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots helicopter systems; advises repairmen on proper maintenance standards and procedures; maintains records and technical library; interprets technical publications and resolves problems arising in helicopter maintenance and modification; applies quality control techniques. NOTE: Required to have attained Skill Level 20 in at least one rotary-wing aircraft maintenance MOS (67N, U, V, X, or Y). *Skill Level 40:* Able to perform the duties required for Skill Level 20; acts as the principal non-commissioned officer in an aviation maintenance battalion, group, or higher headquarters for helicopter inspection; supervises maintenance personnel; plans, directs, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair helicopters.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 in technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 in technical electives (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 20 semester hours in aircraft maintenance, 6 in technical electives, and 5 in quality control. In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 6 in technical electives, 5 in quality control, and 3 in personnel management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 in technical electives, and 3 in personnel management (2/75).

MOS-67W-002

Aircraft Quality Control Supervisor

67W30

67W40

Exhibit Dates: 3/77–2/84. (Effective 3/84, MOS 67W was discontinued and its functions were incorporated into MOS's in the 66 series at paygrade E-6 and MOS's in the 67 series at paygrade E-7.)

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on rotary-wing aircraft and life support equipment. *Skill Level 30:* Performs technical inspections on rotary-wing aircraft to determine maintenance requirements and insure maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots helicopter systems; advises repairers on proper maintenance standards and procedures; maintains records and technical libraries; interprets technical publications and resolves problems arising in helicopter maintenance and modification; applies quality control techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as principal non-commissioned officer in an aviation maintenance unit; supervises maintenance personnel; plans, directs, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair helicopters.

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 for technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 for technical electives (5/78).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 for technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 for technical electives, and 3 in production management (5/78).

MOS-67X-001

CH-54 Helicopter Repairman

67X20

67X40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding any teardown repair of system components, on CH-54 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; uses hand and power tools, precision measuring instruments, and diagnostic test equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; evaluates damage and estimates manhour and parts requirements to repair CH-54 helicopters and associated equipment; instructs in safety principles, procedures, and techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67X-002

Heavy Lift Helicopter Repairer

67X10

67X20

67X30

Exhibit Dates: 3/77–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding repair of system components. *Skill Level 10:* Performs maintenance and repair, including preparation for inspections and heavy-lift helicopters; removes and replaces subsystem components such as wheels, tires, starters, generators, inverters, voltage regulators, valves, hydraulic cylinders, and hoses; assists in maintenance operational checks; uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may serve as heavy lift helicopter crew chief; provides technical guidance to Skill Level 10 personnel; removes and replaces aircraft powerplant, powertrain components, flight controls, and flight control hydraulic components; troubleshoots rotor system malfunctions; performs maintenance operational checks; performs all scheduled and special inspection maintenance tasks; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans work flow; applies production control, quality control and other maintenance management principles to shop and flight line operations; prepares forms and records; performs technical inspections; certifies airworthiness of aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance (heavy). In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance (heavy). In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy), 2 in quality control, 2 in aviation maintenance management, and 3 in human relations; if the duty position was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, or 9 semester hours in management electives (5/78).

MOS-67X-003

Heavy Lift Helicopter Repairer

67X10
67X20
67X30

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding repair of system components. *Skill Level 10:* Performs maintenance and repair, including preparation for inspections of heavy lift helicopters; removes and replaces subsystem components such as wheels, tires, starters, generators, inverters, voltage regulators, valves, hydraulic cylinders, and hoses; assists in maintenance operational checks; uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may serve as heavy lift helicopter crew chief; provides technical guidance to skill level 10 personnel; removes and replaces aircraft powerplant, powertrain components, flight controls, and flight control hydraulic components; troubleshoots rotor system malfunctions; performs maintenance operational checks; performs all scheduled and special inspection maintenance tasks; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans work flow; applies production control, quality control, and other maintenance management principles to shop and flight line operations; prepares forms and records; certifies airworthiness of aircraft.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy), 2 in quality control, 3 in aviation maintenance management, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67Y-001

AH-1G Helicopter Repairman

67Y20
67Y40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components, on AH-1G helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; performs duties of crew chief. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities and supplies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; evaluates damage and estimates man-hour and parts requirements to repair AH-1G helicopters and associated equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 2 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant, 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-67Y-002

Attack Helicopter Repairer

67Y10
67Y20
67Y30

Exhibit Dates: 3/77–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, rotor hubs and rotor blades on attack helicopters, or conducts technical inspections. *Skill Level 10:* Assists in the performance of maintenance on helicopters, including inspecting, checking, troubleshooting and repairing malfunctions of components or units in the airframe, powerplant, and associated systems; prepares helicopters for extensive inspection and maintenance; uses and performs user maintenance on common and special tools and ground support equipment; prepares and uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; troubleshoots rotor system malfunctions; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance; may perform as aircraft technical inspector; applies production control, quality control, and other maintenance management principles to shop and flight line operations; prepares forms, records, and reports on helicopter maintenance and supply operations; instructs personnel in helicopter maintenance, supply and safety techniques; performs technical inspections of aircraft before, during, and after repair or modification; monitors maintenance operational checks and test flights; certifies airworthiness of aircraft; assists in performing aircraft weight and balance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or for a management elective), and 2 in quality control; if the duty assignment was maintenance supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, or 9 semester hours in management electives (5/78).

MOS-67Y-003

AH-1 Attack Helicopter Repairer

67Y10

67Y20

67Y30

67Y40

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on attack helicopters, excluding repairs of system components. *Skill Level 10:* Assists in the removal and installation of subsytem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopter for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of attack helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as attack helicopter crew chief; provides technical guidance to skill level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on attack helicopters; plans workflow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; certifies airworthiness of the aircraft; if duty position is section chief, serves as the principal noncommissioned officer in a section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all maintenance activities; diagnoses complex malfunctions; determines personnel and parts requirements; coordinates work schedules and assigns duties; applies production, quality control, and other maintenance management principles and procedures; prepares evaluations, special reports, and maintenance records; supervises technical training programs; assists in the preparation of plans and policies; controls the flow of work orders, requisitions, and correspondence; plans the layout of helicopter maintenance areas, shops, and facilities. NOTE: May have progressed to 67Y40 from 67Y30, 66Y30, AH-1 Attack Helicopter Technical Inspector, 67V30, Observation/Scout Helicopter Repairer, or 66V30, Observation/Scout Helicopter Technical Inspector.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance and 2 in aviation maintenance management (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, and 3 in personnel supervision; if duty position was section chief, 3 additional semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 7 semester hours in basic helicopter maintenance, 3 in aviation maintenance management, 2 in quality control, 6 in personnel supervision, and 1 in records administration. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-67Z-001

Aircraft Maintenance Senior Sergeant

67Z50

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Skill Level 50: Supervises fixed-wing aircraft and/or helicopter maintenance on any operational level with varying fleet sizes; plans, coordinates, and controls maintenance activities on a supervisory or management level in addition to perticipating in technical problem solving; when assigned to a unit in which no technical participation is involved, plans, coordinates, and controls personnel activities of varying organizational groups. NOTE: Must be able to perform the duties of Skill Level 40 of any MOS in the aviation maintenance career management field (67).

Recommendation, Skill Level 50

In the vocational certificate category, 20 semester hours in airframe maintenance (helicopter and fixed-wing), 20 in powerplant maintenance (helicopter and fixed-wing) and 20 in systems maintenance (helicopter and fixed-wing). In the lower-division baccalaureate/associate degree category, 15 semester hours in airframe maintenance (helicopter and fixed-wing), 15 in powerplant maintenance (helicopter and fixed-wing), 15 in systems maintenence (helicopter and fixed-wing), 9 in technical electives, 3 in industrial organization, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in airframe maintenance (helicopter and fixed-wing), 3 in powerplant maintenance (helicopter and fixed-wing), 3 in systems maintenance (helicopter and fixed-wing), 3 in technical electives, 3 in production management, and 9 in aviation maintenance management or 3 in introduction to management and 6 for field experience in management (11/75).

MOS-67Z-002

Aircraft Maintenance Senior Sergeant

67Z40

67Z50

Exhibit Dates: 3/77–2/84.

Career Management Field: 67 (Aviation Maintenance), subfield 671 (Aircraft Maintenance).

Description

Summary: Supervises maintenance on fixed-wing aircraft and helicopters. *Skill Level 40:* Plans, coordinates, and controls maintenance activities; participates in technical problem-solving; supervises the preparation of work orders, requisitions, reports, and correspondence; applies production control and other maintenance management principles and procedures; advises in diagnosing complex malfunctions; assists in determining maintenance requirements; enforces shop safety principles and procedures. NOTE: May have progressed to 67Z40 from 67G30 (Airplane Repairer), 67N30 (Utility Helicopter Repairer), 67U30 (Medium Helicopter Repairer), 67V30 (Observation/Scout Helicopter Repairer), 67X30 (Heavy Lift Helicopter Repairer), or 67Y (Attack Helicopter Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer of an aircraft maintenance unit; plans and lays out aircraft maintenance areas and component repair shops and facilities; insures that proper maintenance techniques have been employed by use of quality assurance inspections; supervises and participates in preparation of studies, evaluations, special reports, and records pertaining to aircraft maintenance and components repair operations, training, and related activities; applies production, quality control, and other maintenance management principles and procedures; processes work orders and allocates maintenance responsibilities. NOTE: May have progressed to 67Z50 from 67Z40 or 68K40 (Aircraft Component Repair Supervisor).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in maintenance supervision. In the lower-division baccalaureate/associate degree category, 3 semester hours for technical electives, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management (5/78).

MOS-67Z-003

Aircraft Maintenance Senior Sergeant

67Z50

Exhibit Dates: 3/84–Present.

Career Management Field: 67 (Aircraft Maintenance).

Description

Skill Level 50: Supervises aircraft maintenance at either unit, intermediate, or depot levels on activities having a mix of aircraft maintenance and/or component repair; serves as the principal noncommissioned officer in aircraft maintenance activities and may become first sergeant; plans and lays out aircraft maintenance areas and component repair shops and facilities; insures that proper maintenance techniques have been employed by use of quality assurance inspections; supervises and participates in preparation of studies, evaluations, special reports, and records pertaining to aircraft maintenance and component repair operations, training and related activities; applies production quality control, and other maintenance management principles and procedures; processes work orders and allocated maintenance responsibilities. NOTE: May have progressed to 67Z50 from 67G40, Utility Airplane Repairer, 67T40, Tactical Transport Helicopter Repairer, 67R40, AH-64 Attack Helicopter Repairer, 67H40, AH-1 Attack Helicopter Repairer, 67U40, Medium Helicopter Repairer, 68K40, Aircraft Components Repair Supervisor, or 68J40, Aircraft Fire Control Repairer.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing, 3 in applied psychology, and 3 in interpersonal communications. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 6 in management problems (7/87).

MOS-68B-001

AIRCRAFT TURBINE ENGINE REPAIRMAN

68B20
68B30
68B40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Maintains aircraft turbine (jet) engines and components. *Skill Level 20:* Diagnoses and corrects single turbine engine malfunctions; disassembles engines and components, examines parts and components for wear or damage, determines the type and extent of repairs required, and reassembles engines and components; adjusts engines to operate at peak efficiency; uses and interprets technical publications; uses diagnostic equipment; preserves and stores turbine engine system. *Skill Level 30:* Able to perform the duties required for Skill Level 20; reinstalls and rigs turbine engines on multiple turbine engines. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans the utilization and work flow of resources and facilities; applies production control, quality control, and other maintenance management principles and procedures; prepares records and technical reports; instructs personnel in engine maintenance and safety procedures; supervises the final adjustment of aircraft turbine engines.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 15 semester hours in aircraft engine (turbine) maintenance and 6 in technical electives. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 16 semester hours in aircraft engine (turbine) maintenance and 6 in technical electives. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 16 semester hours in aircraft engine (turbine) maintenance, 6 in technical electives, and 3 in maintenance management. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

MOS-68B-002

AIRCRAFT POWERPLANT REPAIRER

68B10
68B20
68B30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Performs or supervises maintenance on turbine engines and their components. *Skill Level 10:* Performs maintenance on turbine powerplants including assisting in powerplant removal; removes, replaces, services, prepares, preserves, and cleans engine assemblies or components; performs maintenance on ground support equipment; uses and performs maintenance on common and special tools; uses certain aircraft forms and records; prepares requests for turn-ins and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose malfunctions to specific engine components; disassembles, repairs, reassembles, adjusts, and tests turbine engine systems, subsystems and components; maintains select ground support equipment; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms and records; conducts on-the-job training; supervises and evaluates work performance in powerplant maintenance; may serve as technical inspector; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in turbine engine maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 12 semester hours in turbine engine maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives) and 3 in aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in turbine engine maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective); if the duty assignment was aircraft powerplant repair supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68D-001

AIRCRAFT POWERTRAIN REPAIRMAN

68D20
68D40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft powertrains and components. *Skill Level 20:* Diagnoses and locates malfunctions; removes, disassembles, repairs, and reinstalls powertrain components; insures proper clearances and alignment of parts utilizing shimming and precision measuring equipment; interprets technical literature, blueprints, and schematic diagrams; completes forms and maintains records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 20 or more persons; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; instructs personnel in aircraft powertrain maintenance and safety techniques; supervises final alignment and adjustment of aircraft powertrain components.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in helicopter component maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in helicopter component maintenance, 6 in technical electives, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours in helicopter component maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management (11/75).

MOS-68D-002

AIRCRAFT POWERTRAIN REPAIRER

68D10
68D20
68D30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Performs maintenance and repair, or supervises maintenance on helicopter powertrain subsystems and components. *Skill Level 10:* Performs maintenance and tests; assists with inspections on helicopter powertrain subsystems and components; removes and replaces powertrain quills, transmissions-adapting parts, and rotary wing hub oil tanks; obtains and prepares oil samples for analysis; applies corrosion preventive procedures; cleans, preserves, and stores components; performs maintenance on select ground support equipment; uses and performs maintenance on common and special tools; uses certain aircraft forms and records; prepares request for turn-in and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose malfunctions; performs nondestructive inspections on aircraft components; disassembles, repairs, reassembles, adjusts, and tests powertrain components, systems, and subsystems; balances main and tail rotor hub assembly and aligns main rotor and hub assembly; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as technical inspector; plans work; applies production control, quality control, and other maintenance management principles; supervises and evaluates personnel work performance; conducts on-the-job training; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in helicopter component maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in helicopter component maintenance and 3 for technical electives) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 12 semester hours in helicopter component maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours hours aviation maintenance technology (or 12 in helicopter component maintenance and 3 for technical electives), and 3 in aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in helicopter component maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in helicopter component maintenance and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety and 3 in human relations (or a management elective); if the duty position was aircraft powertrain repair supervisor, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68E-001

AIRCRAFT ROTOR AND PROPELLER REPAIRMAN

68E20
68E30
68E40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 68E was discontinued and its duties were incorporated into MOS 68B, Aircraft Powerplant Repairer; 68D, Aircraft Powertrain Repairer; and 68G, Aircraft Structural Repairer.)

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises or performs maintenance on helicopter rotor blades, airplane propeller systems, and allied equipment. *Skill Level 20:* Performs maintenance on helicopter rotor blade assemblies and components; applies metal working and bonding techniques; balances and aligns main and tail rotor; applies hydraulic and electrical fundamentals in the repair, modification, and lubrication of propellers, rotor blades, assemblies and components; isolates malfunctions with special test equipment; utilizes non-destructive and precision test equipment; interprets technical literature, blueprints, and schematic diagrams; preserves and stores rotor blades and components; prepares forms, records, and reports; inspects and tests repaired units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs direct and general support maintenance on fixed and constant speed propeller assemblies and components. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises direct and general support maintenance on helicopter rotor blades, airplane propeller systems and allied equipment; plans workflow in terms of resources and other maintenance management principles and procedures to shop operations; instructs personnel in rotor and propeller systems maintenance and safety techniques; supervises final alignment/adjustment of rotor and propeller systems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance and 4 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance, 6 in technical electives, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours in rotary wing and propeller maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management (11/75).

MOS-68F-001

AIRCRAFT ELECTRICIAN

68F20
68F30
68F40

Exhibit Dates: 10/74–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises or performs maintenance on aircraft electrical/electronic systems and aircraft crew station instruments. *Skill Level 20:* Removes, disassembles, inspects, repairs, assembles, and reinstalls electrical/electronic elements of assemblies and components; applies troubleshooting techniques and diagnoses malfunctions in solid state and transistorized systems; repairs, replaces, splices, and solders electrical/electronic components; interprets technical literature, blueprints, and wiring schematic diagrams; prepares aircraft maintenance forms, records, and reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies principles of electricity, electronics, gyroscopic motion, pneumatics, and hydraulics applicable to the repair of aircraft instruments; performs technical inspections to insure that completed repairs meet prescribed specifications; uses forms and records designed for quality control. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises up to 20 or more persons; plans work flow; orients and instructs personnel and conducts on-the-job training programs in aircraft electrical/electronic and instrument system maintenance, supply, and safety techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance and 4 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance, 6 in technical electives, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours in aircraft electrical system maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management (11/75).

MOS-68F-002

AIRCRAFT ELECTRICIAN

68F10
68F20
68F30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises or performs maintenance on aircraft electrical/electronic systems and aircraft crew station instruments. *Skill Level 10:* Removes and replaces electrical/electronic elements of assemblies and components, including electrical wiring, aircraft battery systems, and instruments; applies proper soldering techniques during circuitry repair; cleans, preserves, and stores electrical/electronic components and aircraft instruments; uses and performs maintenance on common and special tools; maintains and repairs ground support equipment; uses certain aircraft forms and records; prepares request for turn-in and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose and localize malfunctions to specific electrical/electronic components including solid-state and transistorized subsystems; disassembles, repairs, reassembles, adjusts, and tests electrical/electronic elements of assemblies and components; applies principles of pneudraulics applicable to troubleshooting of interfacing electropneudraulic systems and components; repairs and replaces printed circuits; repairs nickel-cadmium batteries; applies principles of electricity/electronics, gyroscopic motion, pneumatics, and hydraulics, applicable to repair of aircraft instrument subsystems; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as technical inspector; plans work flow; applies production control, quality control, and other maintenance management principles; supervises and evaluates personnel work performance; conducts on-the-job training; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in aircraft electrical systems maintenance and repair and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology and 3 in aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology, 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective); if the duty position was aircraft electrician supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68G-001

AIRFRAME REPAIRMAN

68G20
68G30
68G40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises or performs line and shop maintenance; is proficient in repairing aircraft structures, reading blueprints and drawings, forming metals, welding, and painting. *Skill Level 20:* Makes airframe structural repairs by fabrication of new parts, by using approved fasteners, rivets, and special purpose bolts, and by welding; prepares airframe surfaces for painting. *Skill Level 30:* Able to perform the duties required for Skill Level 20; as a senior repairman, inspects airframes and components before, during, and after repair or modification to insure that prescribed specifications are met; does the more complicated repair work. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as a first-line supervisor, oversees the repair of airframe structures; completes maintenance forms and records; plans work loads and work flow; assures quality and production control; instructs personnel in airframe maintenance and in safety regulations and techniques; applies management principles and procedures to shop operations.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in aviation maintenance technology or airframe structures. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance technology or aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in aviation maintenance technology or airframe structures. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology or aviation maintenance management. In the upper-division baccalaureate category, 9 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in aviation maintenance technology or airframe structures and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance management and 3 in personnel supervision. In the upper-division baccalaureate category, 9 semester hours in aviation maintenance management or aviation maintenance engineering technology and 3 in personnel administration (2/75).

MOS-68G-002

AIRCRAFT STRUCTURAL REPAIRER

68G10
68G20
68G30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises, inspects, or performs maintenance and repair of aircraft structure. *Skill Level 10:* Makes airframe structural repairs by fabrication of new parts, by using approved fasteners, rivets, special-purpose fasteners, and fiberglass materials; prepares airframe surfaces for painting; mixes and applies primers and paints to aircraft; uses and maintains shop tool and equipment; uses field and technical manuals to make specific repairs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects airframes and components before, during, and after repair of modification to insure that specifications are met; performs welding maintenance; uses precision measuring gauges and instruments; determines shop and bench stock requirements; prepares or assists in the preparation of requests for parts, tools, and supplies; interprets blueprints; coordinates work load; applies maintenance management principles and procedures to shop operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance; may perform technical inspections on aircraft structures and control surfaces; conducts and supervises on-the-job training; assures quality and production control; applies management principles and procedures to shop operations; may supervise from 6 to 19 persons; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in airframe structures, 3 for technical electives, and additional credit in airframe structures on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in airframe structures and 3 for technical electives), and additional credit in airframe structures or aviation maintenance technology on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in airframe structures and 3 for technical electives), and 3 in aviation maintenance management, and additional credit in airframe structures or aviation maintenance technology on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in airframe structures and 3 for technical electives, and additional credit in airframe structures on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 12 semester hours in aviation maintenance technology (or 9 in airframe structures and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 *in flight safety, and 3 in human relations (or a management elective),* and additional credit in aviation maintenance technology or airframe structures on the basis of institutional evaluation; if duty position was aircraft structural repair supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68H-001

Aircraft Hydraulics Repairman

68H20

68H40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft hydraulic and pneumatic systems and components. *Skill Level 20:* Diagnoses and corrects hydraulic/pneumatic system and component malfunctions; examines parts and components; resurfaces valves and valve seats; hones and polishes cylinders; replaces bushings, bearings, and sleeves on equipment; employs precision measuring instruments and gages; tests component functions with specialized liquid, gas, air, and test equipment; performs modifications; interprets technical literature and schematic diagrams; prepares aircraft maintenance forms, records, and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 20 or more persons; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; instructs personnel in aircraft hydraulic/pneumatic system and components maintenance and safety techniques; supervises final alignment and adjustment of aircraft hydraulic/pneumatic systems and components onto airframe.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft hydraulic system maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft hydraulic system maintenance, 6 in technical electives, and 3 in maintenance management. In the upper-division baccalaureate category, 6 semester hours in aircraft hydraulic system maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management.(11/75).

MOS-68H-002

Aircraft Pneudraulics Repairer

68H10

68H20

68H30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Supervises, inspects, or performs maintenance on aircraft hydraulic systems. *Skill Level 10:* Removes and installs tubing assemblies, hoses, valves, pressure transmitters, and switches; services filters, shock absorbers/struts; repairs tubing assemblies, hydraulic and pneumatic valves; flushes and bleeds hydraulic systems; uses and performs maintenance on common and special tools; prepares request for turn-in and repair parts; uses certain aircraft forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose and localize malfunctions to hydraulic systems, subsystems, and components; disassembles, repairs, reassembles, adjusts, and tests hydraulic systems, subsystems, and components; maintains selected items of ground support equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies production/quality control and maintenance management principles and procedures to shop operations; plans workflow; conducts and supervises on-the-job training; may perform technical inspections of electrical/electronic and subsystems components before, during, and after repair or modification; may supervise from 6 to 19 persons.

Recommendation, Skill Level 10

In the vocational certificate category [illegible] semester hours in aircraft hydraulic system maintenance and 3 for technical electives and additional credit in aircraft hydraulic system maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in aircraft hydraulic system maintenance and 3 for technical electives), and 3 in aviation maintenance management, and additional credit in aviation maintenance technology or aircraft hydraulic system maintenance on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for SKill Level 10. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in aircraft hydraulic system maintenance and 3 for technical electives, and additional credit in aircraft hydraulic system maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 12 semester hours in aviation maintenance technology (or 9 in aircraft hydraulic system maintenance and 3 in technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective), and additional credit in aviation credit in aviation maintenance management or aircraft hydraulic system maintenance on the basis of institutional evaluation; if the duty position was aircraft pneudraulics repair supervisor section chief, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68J-001

Helicopter Missile Systems Repairer

68J10

68J20

68J30

Exhibit Dates: 3/77–2/80.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Maintains helicopter anti-tank missile systems, related fire control material and specialized test sets. *Skill Level 10:* Under close supervision, handles, stores, arms, prepares, loads, and unloads aircraft armanent ammunition and missiles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks; removes, disassembles, repairs, assembles, installs, tests, and adjusts missile system, fire control, and supporting weapon components; tests, troubleshoots, and repairs special test sets and electronic, hydraulic, and mechanical components using schematics and technical drawings; implements authorized modifications; maintains records; demonstrates proper work procedures to lower-skill-level personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs in-depth maintenance of anti-tank missile, fire control, and supporting weapon subsystems; plans, establishes, and supervises on-the-job training; implements production, quality control, and safety procedures; may supervise from 5 to 9 persons.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, and additional credit in electronics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, 1 in safety, and additional credit in electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, 1 in safety, 1 in personnel supervision, and additional credit in electronics on the basis of institutional evaluation; if the duty position was Helicopter Missile System Repair Supervisor, 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-68J-002

Aircraft Fire Control Repairer

68J10

68J20

68J30

Exhibit Dates: 3/80–2/84.

Career Management Field: 67 (Aircraft Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Performs electrical and electronic maintenance on aircraft fire control systems, armament systems, and ground support equipment. *Skill Level 10:* Removes, installs, assembles, disassembles, and performs maintenance on aircraft fire control systems; repairs and/or replaces electrical and electronic components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; tests and troubleshoots electrical and electronic components of fire control systems using schematics and test equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance and performs technical inspection of fire control systems; plans and supervises on-the-job training; supervises 8 or more lower-skill-level personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics (7/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in troubleshooting techniques (electrical and electronics), and 3 in use and care of hand tools and test equipment (7/82).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity/electronics, 3 in troubleshooting techniques (electrical and electronics), 3 in use and care of hand tools and test equipment, and 1 in industrial safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in troubleshooting techniques (electrical and electronics), 3 in use and care of hand tools and test equipment, 3 in personnel supervision, and 1 in industrial safety (7/82).

MOS-68J-003

AIRCRAFT FIRE CONTROL REPAIRER

68J10
68J20
68J30
68J40

Exhibit Dates: 3/84–3/89.

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs electrical and electronic maintenance on aircraft fire control systems, armament systems, and ground support equipment. *Skill Level 10:* Removes, installs, assembles, disassembles, and performs maintenance on aircraft fire control systems; repairs and/or replaces electrical and electronic components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; tests and troubleshoots electrical and electronic components of fire control systems using schematics and test equipment. *Skill Level 30:* Able to perform the duties required for SKill Level 20; supervises maintenance and performs technical inspection of fire control systems; plans and supervises on-the-job training; supervises 8 or more lower skill level personnel. NOTE: May have progressed to 68J30 from 68J20 or 68M20, Aircraft Weapons System Repairer. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all maintenance activities; determines personnel and parts requirements; coordinates work schedules and assigns duties; applies production, quality control, and other maintenance management principles and procedures; prepares evaluations, special reports, and maintenance records; supervises technical training programs; assists in the preparation of plans and policies; controls the flow of work orders, requisitions, and correspondence; plans the layout of aircraft weapons and fire control systems maintenance areas and facilities; advises personnel in diagnosing complex malfunctions. NOTE: May have progressed to 68J40 from 68J30 or 66J30, Aircraft Armament Technical Inspector.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in troubleshooting techniques (electrical and electronics), and 3 in use and care of hand tools and test equipment (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in troubleshooting techniques (electrical and electronics), 3 in use and care of hand tools and test equipment, 3 in personnel supervision, and 1 in industrial safety (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in troubleshooting techniques (electrical and electronics), 3 in use and care of hand tools and test equipment, 3 in personnel supervision, 1 in industrial safety, and 3 in maintenance management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (7/87).

MOS-68J-004

AIRCRAFT ARMAMENT/MISSILE SYSTEMS REPAIRER

68J10
68J20
68J30
68J40

Exhibit Dates: Pending evaluation. 3/89–Present.

MOS-68K-001

AIRCRAFT COMPONENTS REPAIR SUPERVISOR

68K40

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Skill Level 40: Able to perform the duties required for Skill Level 30 in at least one of the following MOS's: 68B (Aircraft Power Plant Repairer), 68D (Aircraft Powertrain Repairer), 68F (Aircraft Electrician), 68G (Aircraft Structural Repairer), 68H (Aircraft Pneudraulics Repairer), 68J (Helicopter Missile System Repairer), or 68M (Helicopter Weapon Systems Repairer); supervises maintenance operations of aircraft components repairs; plans work loads in terms of resources and facilities; applies production control, quality control, and other maintenance management principles to aircraft components repair; supervises and evaluates the work performance of a minimum of 20 lower skill level personnel; orients and instructs lower skill level personnel; conducts on-the-job training programs.

Recommendation, Skill Level 40

In the upper-division baccalaureate category, 3 semester hours in maintenance management and 3 for field experience in personnel management (5/78).

MOS-68L-001

AVIONIC COMMUNICATIONS EQUIPMENT REPAIRER

68L10
68L20
68L30

Exhibit Dates: Pending evaluation. 9/89–Present.

MOS-68M-001

HELICOPTER WEAPON SYSTEM REPAIRER

68M10
68M20
68M30

Exhibit Dates: 3/77–2/80.

Career Management Field: 67 (Aviation Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Maintains helicopter armament subsystems, weapons, and specialized tests, excluding missile systems. *Skill Level 10:* Under close supervision, handles, stores, arms, prepares, loads, and unloads aircraft armament ammunition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks; removes, installs, and adjusts armament subsystems, including electrical, hydraulic, and mechanical components; uses schematics and technical drawings; performs boresighting and alignment checks; implements modifications; maintains records; demonstrates proper work procedures to lower skill level personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs in-depth maintenance of helicopter armament systems and support equipment, excluding missile systems; plans, establishes, and supervises on-the-job training; implements production, quality control, and safety procedures; may supervise from 5 to 9 persons.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies and knowledge are uniquely military in nature (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in use and care of tools and test equipment, 1 in precision measuring techniques, and credit in mechanical systems on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, and credit in mechanical systems on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in use and care of tools and test equipment, 2 in mechanical systems, 1 in precision measuring techniques, 1 in safety, and credit in electricity and hydraulics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 2 in a mechanical systems elective, 1 in personnel supervision, 1 in safety, and credit in electricity and hydraulics on the basis of institutional evaluation; if the duty position was helicopter weapons system supervisor, 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-68M-002

AIRCRAFT WEAPON SYSTEMS REPAIRER

68M10
68M20
68M30

Exhibit Dates: 3/80–2/84.

Career Management Field: 67 (Aircraft Maintenance), subfield 672 (Aircraft Component Repair).

Description

Summary: Performs mechanical and hydraulic maintenance on aircraft weapons systems, associated armament systems, and ancillary ground support equipment. *Skill Level 10:* Assists in the performance of mechanical and hydraulic maintenance of aircraft weapons systems; uses proper safety procedures; under close supervision, handles, loads, unloads, installs, removes, assembles, and disassembles aircraft weapons systems. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs unit and intermediate mechanical and hydraulic maintenance on aircraft weapons systems; performs operational checks and troubleshoots systems including built-in tests; removes, installs, and adjusts armament subsystems, including elecrtrical, hydraulic and mechanical components; uses schematics and technical drawings; performs boresighting and alignments checks; implements modifications; maintains records; demonstrates safety procedures and proper work procedures to Skill Level 10 personnel; conducts on-the-job training. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance and performs technical inspections of aircraft weapons systems; plans, supervises, organizes, and implements quality control practices, safety procedures, and on-the-job training; may supervise 9 or more lower-skill-level personnel.

Recommendation, Skill Level 10

Credit is not recommeded because the skills, competencies, and knowledge are uniquely military in nature (7/82).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in care and use of tools and test equipment, 1 in precision measuring techniques, 2 in mechanical systems, and 1 in safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in care and use of tools and test equipment, 1 in precision measuring techniques, 2 in mechanical systems, and 1 in safety (7/82).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in care and use of tools and test equipment, 2 in mechanical systems, 1 in precision measurement, 1 in safety, and 3 in personnel supervision (7/82).

MOS-68M-003

AIRCRAFT WEAPON SYSTEMS REPAIRER

68M10
68M20

Exhibit Dates: 3/84–3/89. (Effective 3/89, MOS 68M was discontinued and its duties were incorporated into MOS 68J, Aircraft Fire Control Repairer.)

Career Management Field: 67 (Aircraft Maintenance).

Description

Summary: Performs mechanical and hydraulic maintenance on aircraft weapons systems, associated armament systems, and ancillary ground support equipment. *Skill Level 10:* Assists in the performance of mechanical and hydraulic maintenance on aircraft weapons systems; uses proper safety procedures; under close supervision, handles, loads, unloads, installs, removes, assembles, and disassembles aircraft weapons systems. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs unit and intermediate mechanical and hydraulic maintenance on aircraft weapons systems; performs operational checks and troubleshoots systems, including built-in tests; removes, installs, and adjusts armament subsystems, including electrical, hydraulic, and mechanical components; uses schematics and technical drawings; performs boresighting and alignment checks; implements modifications; maintains records; demonstrates safety procedures and proper work procedures to skill level 10 personnel; conducts on-the-job training.

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in care and use of tools and test equipment, 1 in precision measuring techniques, 2 in mechanical systems, and 1 in safety (7/87).

MOS-68N-001

AVIONIC MECHANIC

68N10
68N20
68N30

Exhibit Dates: Pending evaluation. 9/89–Present.

MOS-68P-001

MAINTENANCE SUPERVISOR

68P40

Exhibit Dates: Pending evaluation. 9/89–Present.

MOS-68Q-001

AVIONIC FLIGHT SYSTEMS REPAIRER

68Q10
68Q20
68Q30

Exhibit Dates: Pending evaluation. 9/89–Present.

MOS-68R-001

AVIONIC RADAR REPAIRER

68R10
68R20
68R30

Exhibit Dates: Pending evaluation. 9/89–Present.

MOS-71B-001

CLERK-TYPIST

71B10
71B20
71B30

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 71B was discontinued and its functions were incorporated into MOS 71G, Medical Records Specialist, MOS 71L, Administrative Specialist, MOS 73C, Finance Specialist, and MOS 73D, Accounting Specialist.)

Career Management Field: 71 (Administration), subfield 711 (General Administration).

Description

Summary: Performs general clerical, typing, and related duties. *Skill Level 10:* Prepares letters and other office communications; handles mail, uses the telephone, and performs other office administrative functions; uses and maintains office machines and manages records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; types at a level comparable to that required upon completion of a beginning typing course. *Skill Level 30:* Able to perform the duties required for Skill Level 20; types at a level comparable to that required upon completion of an intermediate typing course.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office practices (12/74).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office practices and 3 in typing (12/74).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in office practices and 6 in typing (12/74).

MOS-71C-001

STENOGRAPHER

71C20
71C30

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), subfield 711 (General Administration).

Description

Summary: Takes and transcribes dictation of correspondence, telephone conversations, meetings, and other information for typewritten records; prepares duplicating stencils and masters and operates stencil and fluid duplicators; acts as receptionist; schedules appointments; prepares correspondence, forms, memoranda, orders, circulars, and bulletins; maintains records and files; processes incoming and outgoing mail; performs other related clerical and administrative duties. *Skill Level 20:* Takes dictation at 90 to 120 words per minute and types at 45 or more words per minute. NOTE: May have progressed to 71C20 from 71B30 (Clerk-Typist). *Skill Level 30:* Takes dictation at 120 or more words per minute and types at 55 or more words per minute.

Recommendation, Skill Level 20

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 6 in broadcasting station management, and 3 in records administration (5/76).

MOS-71R-002

BROADCAST SPECIALIST

71R10

71R20

71R30

71R40

Exhibit Dates: 3/77–3/89. (Effective 3/89, MOS 71R was discontinued and its duties were incorporated into MOS 46R, Broadcast Journalist.)

Career Management Field: 84 (Public Affairs and Audio-visual).

Description

Summary: Supervises or participates in the operation of a radio and television broadcast center. *Skill Level 10:* Prepares scripts; announces, performs, and gives play-by-play coverage of events; operates and performs preventive and emergency maintenance on sound equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as script supervisor, producer, and director of radio and television programs. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as station manager and coordinates programs and broadcast activities within the Armed Forces Network.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, and 3 for field experience in television production (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, 2 for field experience in television production, 3 in human relations, and 1 for field experience in broadcasting (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, 3 for field experience in television production, 3 in human relations, 3 for field experience in broadcasting, 3 in documentary production, 3 in news and public affairs, and 3 in personnel supervision (5/78).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 for field experience in television production, 3 in oral interpretation, 3 in human relations, 3 for field experience in broadcasting, 3 in documentary production, 3 in news and public affairs, 3 in personnel supervision, and 6 for field experience in management. In the upper-division baccalaureate category, 6 semester hours in broadcast management, 3 in records administration, and 3 in personnel management (5/78).

MOS-71S-001

ATTACHE SPECIALIST

71S20

71S30

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 71S was discontinued and its functions were incorporated into MOS 71L, Administrative Specialist.)

Career Management Field: 71 (Administration), subfield 711 (General Administration).

Description

Summary: Performs general administrative and office duties in support of Defense Army Attache office located in an embassy of the United States of America; able to perform the duties required for MOS 71B20 (Clerk-Typist). *Skill Level 20:* Types at a minimum speed of 35 words per minute; drafts and assembles correspondence; answers or responds to inquiries; operates duplicating equipment; prepares, computes, and processes vouchers for payment; drives and performs operator maintenance on sedan; establishes and keeps administrative and intelligence files; uses intelligence procedures to route classified correspondence, to file intelligence data, and to safeguard classified information in the office; assists the attache in collecting, integrating, tabulating, writing, and disseminating intelligence information; prepares distribution lists for intelligence reports; types and proofreads intelligence reports; coordinates with United States intelligence and embassy personnel to facilitate the flow and exchange of intelligence information. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs cryptographic functions, including encrypting and and decrypting messages, the preparation of reports on cryptographic operation, and the safeguarding of cryptographic materials; instructs less experienced personnel in proper work techniques and procedures.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, and 1 in business machines (duplicating) (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, and 1 in business machines (duplicating). In the lower-division baccalaureate/associate degree category, 6 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, 1 in business machines (duplicating), 3 in human relations, and 3 for field experience in office management (5/76).

MOS-71U-001

CARD AND TAPE WRITER

71U20

71U40

Exhibit Dates: 10/73–8/75. (Effective 9/75, MOS 71U was redesignated MOS 74B.)

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates keypunch, verifier, paper tape punch, and keytape machine to translate input data into machine-readable form; corrects any errors which may occur in the transcribing process. *Skill Level 20:* Able to prepare program drum cards for keypunch, follow record format specifications, and load and unload the machines. NOTE: May have progressed to 71U20 from 71B10 (Clerk-Typist). *Skill Level 40:* Able to perform the duties required for Skill Level 10; supervises the conversion of input data into machine-readable format and maintains quality control; trains and assigns work to subordinates; maintains workload records; initiates operating changes; requisitions, stores, and issues supplies and equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in keypunch operation (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in keypunch operation and 3 in office administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration (12/75).

MOS-72B-001

COMMUNICATIONS CENTER SPECIALIST

72B10

72B20

72B30

72B40

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 72B was discontinued and its functions were incorporated into MOS 72E, Telecommunications Center Specialist.)

Career Management Field: 72 (Communications and Audio Visual), subfield 721 (Communications Operations).

Description

Summary: Supervises communications center activities or operates automatic, semiautomatic, and manual teletypewriter equipment, cryptodevices, and related office equipment to send, receive, and route messages of a technical or classified nature. *Skill Level 10:* Performs as a messenger. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates teletypewriter and associated office equipment; maintains administrative records in a communications control center. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a senior telecommunications and office equipment operator working alone or as a member of a team; enforces security regulations; maintains records systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor of teletypewriter operators, with responsibility for the management of a medium-sized or large communications section; reviews machine accounting processes; plans, organizes, and coordinates use of personnel and equipment; may supervise 30 or more persons.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (3/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in typewriting or office machine operation or technical report writing (3/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting or office machine operation or technical report writing (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in typewriting or office machine operation and 3 in technical report writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting or office machine operation, 3 in technical report writing, 3 in management, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in management and 3 in personnel supervision on the basis of institutional evaluation (3/75).

MOS-72C-001

CENTRAL OFFICE SWITCHBOARD
OPERATOR
(TELEPHONE SWITCHBOARD OPERATOR)

72C20
72C40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 72C was discontinued and its functions were incorporated into MOS 36C, Wire Systems Installer/Operator.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or performs operator maintenance on manual, semi-automatic, and automatic switchboards and auxiliary equipment. *Skill Level 20:* Assists in the implacement of mobile switchboards; places local and long distance calls; checks circuits to ascertain proper functioning; reads traffic and cabling diagrams; uses handtools, such as electrician's knife and screwdriver. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; schedules operators; instructs operators on proper techniques and routing of calls; maintains updated traffic diagrams for operator reference; maintains station logs; requisitions supplies; supervises preventive maintenance on switchboards and auxiliary equipment; prepares operational and administrative reports.

Recommendation, Skill Level 20

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management (3/76).

MOS-72E-001

TELECOMMUNICATIONS CENTER SPECIALIST

72E10
72E20
72E30
72E40

Exhibit Dates: 10/74–2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates telecommunications center equipment and remote data terminal devices or performs functions related to these operations. *Skill Level 10:* Processes and delivers messages and performs related clerical functions in telecommunications centers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assigns switch center or telecommunications center equipment for operation; installs and operates teletypewriter equipment; performs and records preventive maintenance on all equipment utilized; reproduces and distributes messages. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares and maintains the files necessary for accounting of cryptomaterial. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor; coordinates work activities in a data communications terminal; makes work assignments; coordinates equipment phase-down in event of power failure; prepares, conducts, and supervises on-the-job training of subordinate personnel; reviews accounting procedures and recommends necessary improvements; provides technical information on communications center operations to superiors; prepares final reports.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics and 3 for field experience in communications center operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in records administration (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in records administration, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-72E-002

TELECOMMUNICATIONS CENTER OPERATOR

72E10
72E20
72E30
72E40

Exhibit Dates: 3/78–2/81.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or operates telecommunications center equipment and remote data terminal devices in either fixed-station or mobile mode; operates on-line and off-line cryptographic equipment for message security; receives, processes, and sends messages, including typing, using teletype, telegraph, and computer equipment. *Skill Level 10:* Receives, processes, and transmits messages, coded or uncoded; performs related clerical, typing, and administrative functions; installs and operates teletypewriter and automated data equipment; selects telecommunication equipment for on-line operation; prepares papertape and card messages, and uses security procedures for transmission; performs and maintains records of preventative maintenance on equipment and associated vehicles and generators; maintains message reference files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and performs administrative functions in telecommunications centers, including preparing and maintaining files; applies secure procedures for handling of high-precedence material and cryptomaterial; advises shift supervisor; insures accurate and secure handling of messages, and prepared reports of telecommunication operations. NOTE: Duties may also include computer equipment training and operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of a fixed or mobile communication center and remote terminals; coordinates activities in the center and supervises training; prepares reports of center operations; conducts audits and reviews of cryptomaterial; supervises 7-13 persons and evaluates their performances; coordinates routing of message traffic with switching centers. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operations of telecommunications center; coordinates organizational training and technical operations; supervises office management, including clerical, administrative, and accounting procedures; makes work assignments; supervises 14 or more personnel in telecommunications operations, and evaluates their capabilities, including written evaluation reports; provides technical information to commander and staff sections; prepares final periodic reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, and 2 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics and 2 in typing (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, 2 in typing, and 3 for field experience in communications center operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics, 2 in typewriting, and 3 in records administration; if duties included computer equipment operation, 1 additional semester hour in computer operations (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics, 2 in typing, 3 in records administration, and 3 in personnel supervision; if duties included computer equipment operation, 1 additional semester hour in computer operations. In the upper-division baccalaureate category, 3 semester hours in personnel management (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, 2 in typing, 3 for field experience in communications center operations, and 2 in office practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics, 2 in typing, 3 in records administration, 3 in personnel supervision, and 3 for field experience in office management; if duties included computer equipment operation, 2 additional semester hours in computer operations. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in office management (10/79).

MOS-72E-003

Combat Telecommunications Center
Operator

72E10
72E20
72E30
72E40

Exhibit Dates: 3/81-Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Operates, monitors, and supervises record telecommunications equipment or assemblies. *Skill Level 10:* Processes and delivers messages; performs related clerical and administrative functions within combat telecommunications centers; prepares messages in proper format; performs message reproduction and distribution functions; operates on-line and off-line cryptographic equipment using appropriate systems and materials; installs, operates, and does routine maintenance on telecommunications equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; processes messages; supervises and performs administrative functions in combat telecommunications centers; maintains files necessary for adequate accounting and control of crypotographic material; coordinates handling of messages in combat telecommunication centers. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of combat telecommunications centers and remote terminals; establishes and supervises on-the-job training; evaluates capabilities of lower-skill-level personnel; reviews the control and accounting procedures for cryptographic material and recommends improvements. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the overall operation of combat telecommunications centers; coordinates organizational training and technical operation of center; evaluates capabilities of subordinate personnel; makes work assignments and coordinates efforts with other units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in office procedures (2/84).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing and 3 in office procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, and 3 in office management (2/84).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in typing and 3 in office procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in office management, and 3 in personnel supervision (2/84).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in typing and 3 in office procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in office management, 3 in personnel supervision, and 3 in principles of management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (2/84).

MOS-72F-001

Data Communications Terminal
Specialist

72F20
72F40

Exhibit Dates: 10/73-9/74. (Effective 10/74, MOS 72F was discontinued and its functions were incorporated into MOS 72E, Telecommunications Center Specialist.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Operates communications terminal equipment, including teletypewriter, cards, tapes, and cryptographic and associated devices. *Skill Level 20:* Processes and delivers messages; reviews data presented for adherence to procedures, format, routing, and precedence for input to an automated data communications network; operates control equipment to integrate teletype systems with digital network; performs preventive maintenance on data communications terminal equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises data communications terminal operations, personnel, and equipment maintenance activities; prepares technical and administrative reports; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in communications equipment operation, 3 in digital data transmission, 3 in basic mathematics, 2 in typing, 1 in electronic communication theory, 1 in electronic equipment maintenance, 1 in digital principles, and 1 in AC and DC circuits (3/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in communications equipment operation, 3 in digital data transmission, 3 in basic mathematics, 3 in office management, 3 in personnel supervision, 2 in typing, 1 in electronic communication theory, 1 in electronic equipment maintenance, 1 in digital principles, and 1 in AC and DC circuits; if pay grade E-7 was achieved, 3 additional semester hours for field experience in data communications (3/75).

MOS-72G-001

Data Communications Switching
Center Specialist

72G20
72G40
72G50

Exhibit Dates: 3/75-2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Operates and monitors data communications equipment and peripheral devices in an automatic digital message switching center. *Skill Level 20:* Operates data communications equipment, including system control to monitor and direct digital message switching center operations; processes and transmits messages; understands circuit and message switching capabilities of data communications switching center equipment; assigns computer and peripheral equipment configurations for message processing on-line operation, off-line operation, and maintenance functions; prepares messages for transmission in paper tape or card form; prepares system flow of data to and from digital computers connected to electromechanical devices; operates peripheral equipment such as card readers, card punches, magnetic tape stations, high-speed printers, control consoles, off-line message processor, and teletypewriters; prepares station logs, assures adequate supplies, keeps files, indexes tapes, and prepares in-station message-handling efficiency statistics. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a shift supervisor or traffic service supervisor; supervises switching center shift operations applicable to console and console traffic service operations, programming, technical control, and terminal activities; coordinates routing of traffic with other stations and equipment maintenance, directs and conducts on-the-job training; prepares reports on such topics as circuit and equipment outages, traffic statistics, software and hardware deficiencies, program patches, circuit restoral actions, procedural problems. NOTE: May have progressed to 72G40 from 72G20 or 72E40 (Telecommunications Center Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a data communications supervisor or manager; performs office management functions; assists in problem-solving pertinent to programming, tributaries, equipment, maintenance, and administration; prepares administrative and technical report on cryptographic and data communications center operation; supervises organization, training, and technical operations. NOTE: May have progressed to 72G50 from 72G40, 72E40 (Telecommunications Center Specialist), 72H40 (Central Office Operations Specialist), or 72C40 (Central Office Switchboard Operator).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of data communications. In the upper-division baccalaureate category, 3 semester hours in principles of data communications (6/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of data communications, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in principles of data communications and 3 for field experience in management (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of data communications, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 in technical writing. In the upper-division baccalaureate category, 3 semester hours in principles of data communications, 3 for field experience in management, and 3 in introduction to management (6/76).

MOS-72G-002

Data Communications Switching Center Specialist

72G10
72G20
72G30
72G40
72G50

Exhibit Dates: 3/78–2/81

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises, operates, and monitors data communications equipment and peripheral devices in automatic digital message switching center. *Skill Level 10:* Operates data communications equipment; processes and transmits messages through automatic digital networks; prepares messages for transmission in paper, tape, or card form; operates card readers, card punches, magnetic tape transports, magnetic tape stations, high-speed printers, and teletypewriters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates digital computers to receive, process, store, and forward data communications; assigns computer and peripheral equipment for online processing; prepares messages for encoding; maintains files; operates off-line message processor and teletypewriters; prepares station message-handling efficiency statistics. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor; ensures message protection and efficiency of high-speed traffic channels; employs automatic digital message switching start-up and restoring procedures; takes appropriate action to correct equipment malfunction, data discrepancies, or circuitry failure; prepares logs of equipment status and significant events. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as data communications supervisor; supervises switching center operations, including console, traffic service operations, programming, and technical control; facilitates routing traffic by coordination with various organizations and other stations; corrects discrepancies and faulty work practices; prepares, conducts, and supervises on-the-job training; prepares and submits technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer; supervises all aspects of the operations of a data communications switching center; implements regulations and directives applicable to data communications systems operations; prepares technical and administrative reports; supervises training procedures.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures (10/81).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures and 3 in computer system analysis (10/81).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in data processing procedures, 3 in computer system analysis, and 3 in technical report writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures, 3 in computer system analysis, 3 in technical report writing, and 3 in personnel supervision (10/81).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures, 3 in computer system analysis, 3 in technical report writing, 3 in personnel supervision, and 3 in human relations (10/81).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures, 3 in computer system analysis, 3 in technical report writing, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, and 3 in management problems (10/81).

MOS-72G-003

Automatic Data Telecommunications Center Operator

72G10
72G20
72G30
72G40

Exhibit Dates: 3/81–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises, operates, and monitors data communications equipment and peripheral devices in automatic switching center. *Skill Level 10:* Operates data communications equipment; processes and transmits messages through automatic digital networks; prepares messages for transmission in paper tape, magnetic tape, and disc form; operates card readers, card punches, magnetic tape transports, magnetic tape stations, high-speed printers, and teletypewriters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates digital computers to receive, process, store, and forward data communications; assigns computer and peripheral equipment for online processing; prepares messages for encoding; maintains files; operates off-line message processor and teletypewriters; prepares station message-handling efficiency statistics. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor; ensures message protection and efficiency of high-speed traffic channels; employs automatic digital message switching start-up and restoring procedures; takes appropriate action to correct equipment malfunction, data discrepancies, or circuitry failure; initiates computer programs to operate equipment; prepares logs of equipment status and significant events. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as data communications supervisor; supervises switching center operations, including console, traffic service operations, programming, and technical control; facilitates routing traffic by coordination with various organizations and other stations; corrects discrepancies and faulty work practices; prepares, conducts, supervises on-the-job training and evaluates personnel; prepares and submits technical reports, including technical information on crypotographic operations.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures (2/84).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in data processing procedures and 3 in introduction to telecommunications networks. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures and 3 in introduction to telecommunications networks (2/84).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures, 3 in introduction to telecommunication networks, 3 in personnel supervision, and 3 in technical report writing (2/84).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing procedures, 3 in introduction to telecommunications networks, 3 in personnel supervision, 3 in technical report writing, and 3 in principles of management. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (2/84).

MOS-72H-001

CENTRAL OFFICE OPERATIONS SPECIALIST

72H20

72H40

Exhibit Dates: 10/74–2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates switchboards and radio consoles providing communications to the President and other persons and offices of the executive branch of the government. *Skill Level 20:* Able to perform the duties required for Skill Level 20 of MOS 72C (Central Office Switchboard Operator); sets up and operates voice transmissions equipment to provide ground and air communications; makes continuity checks to ensure all local and nationwide circuits are working; maintains a roster showing current locations of staff, cabinet, and military officials and aides; maintains charts, circuitry logs, and worldwide locator systems pertaining to presidential communications networks; uses security regulations; employs proper telephone operator procedures; installs switchboards and radiophone interfaced equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises central office communications operations; initiates training programs and sets standards for training of central office personnel; oversees preventive maintenance of switchboard and auxiliary equipment; coordinates with telephone companies, both domestic and foreign, for placement of telephone service and long-line circuits; instructs and demonstrates proper work procedures and techniques; estimates traffic loads and equipment utilization; supervises the installation and maintenance of radio and telephone communications equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in elementary broadcasting, and 3 in small instrument repair (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in record keeping, 3 in elementary broadcasting, and 3 in small instrument repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in elementary broadcasting, 3 in small instrument repair, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in systems management (3/76).

MOS-72H-002

CENTRAL OFFICE OPERATIONS OPERATOR

72H10

72H20

72H30

72H40

Exhibit Dates: 3/78–2/87. (Effective 3/87, MOS 72H was discontinued and its functions were incorporated into ASI J7, White House Communications Agency Console Control Operations.)

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or operates switchboards, radio consoles, and other telecommunications equipment used to provide communications to the President, Vice-President, Secret Service, and other members of the Executive Branch of the government; integrates networks from ground units, mobile units, and air-to-ground units. *Skill Level 10:* Operates communications equipment including switchboards and radio consoles; sets up and operates voice transmission equipment to provide ground and air communications; makes continuity checks to ensure all local and nationwide circuits are working; maintains rosters showing current locations of staff, cabinet and military officials and aides, using computer-accessed data; maintains charts, telephone call logs, and worldwide locator systems pertaining to presidential communications networks; provides telecommunications between and among members of the Executive Branch, using matrix calls, conference calls, mobile phone calls, and special-handling calls. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs and operates mobile telecommunications facilities including switchboards, radio telephone equipment and telephones, wherever the President or other executive members travel; uses security regulations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs duties as chief operator, or supervises section members at telecommunications facility; supervises the installation of a mobile facility; certificated as a Senior Controller; estimates traffic loads and equipment utilization. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs duties as shift supervisor or section chief in the operation of communication systems; certificated as a Shift Supervisor; maintains current locator data for all designated persons in the Executive Branch, updating computer information on a daily basis; responsible for records and recordkeeping within the telecommunications center; coordinates installation and operations of mobile facilities; coordinates with telephone companies, both domestic and foreign, for placement of switchboard, auxiliary equipment and satellite voice communications; arranges for telephone services and long-line circuits; ensures continuity of voice transmission networks; provides emergency communications for the Executive Branch as required.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, and 3 in introduction to voice communications networks (10/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, 3 in introduction to voice communications networks, and 3 in recordkeeping (10/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, 3 in introduction to voice communications networks, 3 in recordkeeping, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in systems management (10/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 1 semester hour in computer literacy, 2 in files management, 3 in introduction to voice communications networks, 3 in recordkeeping, and 6 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in systems management and 3 for field experience in management (10/87).

MOS-73C-001

FINANCE SPECIALIST

73C20

73C30

73C40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), subfield 713 (Finance).

Description

Summary: Receives and disburses cash; keeps financial records pertaining to payroll, travel, commercial accounts, and leave. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Under supervision, disburses, collects, and keeps custody of cash, checks, and bonds; balances and reconciles cash blotter and check register; exchanges foreign currency and military payment certificates; counsels and assists persons with pay and allowance problems; reviews accuracy of data, coding, numbering, and processing of documents, correspondence, and computer input and output for the Army pay system; posts and annually reviews military leave records; keeps records and prepares reports for income taxes and FICA; prepares statements of legal residence; keeps pay accounts for civilian employees, including payroll control registrar and leave accounts; determines the validity of commercial bills by examining supporting and substantiating documents; processes valid bills for payment and keeps bills, register, and file of documents; prepares, processes, and makes payment of vouchers for supplies, equipment, and non-personnel services; applies computer-oriented language in recording data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs quality assurance audits of pay, leave, travel, disbursement, and collection records; performs comprehensive reviews of on-site personnel financial records; detects errors, determines the causes, and initiates corrective changes; verifies procedures for examination and determination of entitlements; conducts pay inquiry analyses and procedural reviews; modifies procedures to improve efficiency, insure accuracy, and assure proper financial accountability; interprets and applies directives, regulations, and other legal requirements on civilian, military, and personnel travel and dislocation allowances; interprets and applies Comptroller General decisions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as a first-line supervisor, plans and organizes work schedules, assigns duties, and instructs subordinates in proper work techniques and procedures; prepares administrative, technical, and personnel reports; provides liaison with finance organizations.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in business communications, 3 in introduction to credit, 2 in office practices, and 1 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in government payroll procedures, 2 in office practices, 1 in typing, and 1 in personal finance and credit (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in office management, 3 in office accounting, 3 in introduction to credit, 3 in business communications, 2 in office practices, and 2 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in government payroll procedures, 3 in office management, 2 in office practices, 2 in typing, and 1 in personal finance and credit (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in office accounting, 3 in introduction to credit, 3 in business communications, 3 in report writing, 3 in office management, 2 in office practices, and 2 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, business communications, 3 in government payroll procedures, 3 in office management, 3 in personnel supervision, 3 in report writing, 2 in office practices, 2 in typing, and 1 in personal finance and credit (3/75).

MOS-73C-002

FINANCE SPECIALIST

73C10
73C20
73C30
73C40

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), subfield 713 (Finance).

Description

Summary: Completes forms, verifies data, computes amounts, and prepares reports of activity pertaining to pay, leave, travel, and personal finance records of military personnel. *Skill Level 10:* Determines entitlements to pay, prepares input, and verifies leave and earnings; prepares pay vouchers; verifies, corrects, and maintains files of personal financial records; operates calculator and other office equipment; answers inquiries from service members. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; computes, reviews, verifies, and corrects items related to travel reports and allowances; disburses, collects, and prepares reconciliation reports; performs quality assurance audits and special reviews, and reports findings. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise from 4-18 lower skill level personnel; prepares reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may supervise from 3-24 personnel in a large finance organization.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office procedures, and 2 in office machines (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, and 3 in office procedures (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in business mathematics, 2 in office machines, 3 in office procedures, and 2 in office management. In the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, 3 in office procedures, 2 in office management, and credit in human relations on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in business mathematics, 2 in office machines, 2 in business communications, 3 in office procedures, and 3 in office management. In the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, 2 in business communications, 3 in office procedures, 3 in office management, and credit in human relations and personnel supervision on the basis of institutional evaluation (6/78).

MOS-73D-001

ACCOUNTING SPECIALIST

73D20
73D30
73D40

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), subfield 713 (Finance).

Description

Summary: Conducts fiscal accounting, internal review, and budget operations. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Under supervision, analyzes, records, reconciles, and reports accounting transactions; keeps general, subsidiary, and cost accounting ledgers, journals, and fund control records; keeps vouchers and other files to support ledger entries; prepares cost reports and correspondence concerning funds and supply transactions; reviews requests for funds for legality, conformity with policy, and availability; keeps control accounts of consumer funds, financial property, stock funds, and industrial funds. *Skill Level 30:* Able to perform the duties required for Skill Level 20; under supervision, performs budgeting and internal review operations at military bases and higher levels of command; advises superiors on policies and procedures pertaining to budgeting and internal review; assists superiors in the development of instructions for data collection and the preparation and analysis of budget reports; prepares reports, estimates, and analyses required for budget management purposes. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor; plans and coordinates all phases of accounting, internal review, and budget operations; instructs subordinates in work techniques and procedures; reviews subordinates' work; plans and coordinates with the data processing center all activities that pertain to mechanized accounting, such as processing daily business, preparing reports, and changes in regulations that affect input and output; assists in designing mechanized accounting systems; coordinates the preparation activities for visits by Army Audit Agency and General Accounting Office representatives.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in clerical record keeping, 3 in business mathematics, 3 in business communications, 2 in accounting principles, 2 for field experience in accounting, and 1 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 2 in accounting principles, 2 for field experience in accounting, and 1 in typing (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in clerical record keeping, 3 in business mathematics, 3 in business communications, 3 in office management, 2 in accounting principles, and 1 in typing; if pay grade E-7 was achieved, add 4 semester hours for field experience in accounting. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in office management, 2 in principles of accounting, and 1 in typing; if pay grade E-7 was achieved, 4 additional semester hours for field experience in accounting (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in clerical record keeping, 2 in accounting principles, 6 for field experience in accounting, 3 in business mathematics, 3 in business communications, 3 in office management, 3 in introduction to data processing, and 1 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in office management, 3 in personnel supervision, 3 in introduction to data processing, 2 in principles of accounting, 4 for field experience in accounting, and 1 in typing (3/75).

MOS-73D-002

ACCOUNTING SPECIALIST

73D10
73D20
73D30
73D40

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), subfield 713 (Finance).

Description

Summary: Records, verifies, and reconciles data in accordance with Army accounting procedures. *Skill Level 10:* Records and verifies data; prepares error-correction documents and reports; maintains files; operates calculator and other office equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; prepares expense reconciliations; interprets budget guidelines from higher headquarters and develops cost factors; develops activity budget submissions, reports, estimates, and analyses; conducts audit of accounting records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel; may supervise 4-14 persons; plans and coordinates accounting operations; reviews reports for completeness and correctness. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises more than 15 persons; supervises operations in a large accounting activity.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in office procedures, 1 in business mathematics, and 2 in office machines (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 2 in record keeping, and 1 in accounting (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 1 in accounting, and 2 in office management. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 1 in accounting, and 2 in office management, and credit in human relations on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 2 in accounting, 3 in office management, and 3 in management principles. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 2 in accounting, 3 in office management, and 3 in management principles, and credit in human relations and personnel supervision on the basis of institutional evaluation (6/78).

MOS-73Z-001

FINANCE SENIOR SERGEANT

73Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 71 (Administration), subfield 713 (Finance).

Description

Skill Level 50: Able to perform the duties required for Skill Level 30 of MOS 73C (Finance Specialist), and 73D (Accounting Specialist); supervises or performs finance operations, accounting operations, or comptroller functions at military installations, agencies, or commands; supervises and reviews payroll accounting procedures and records, travel disbursements, and internal review and budget functions; performs staff functions such as research and preparation of financial accounting statements and statistical reports; as a finance operations chief at pay grade E-8, supervises a minimum of 25 persons; as a finance operations chief at pay grade E-9, supervises a minimum of 60 persons. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer) or 71S (Attache Specialist).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours for field experience in accounting, 3 in payroll accounting, 3 in business communications, 1 in filing, and additional credit as follows: if the duty assignment was division chief at pay grade E-8, 4 semester hours in office management, 4 in personnel supervision, and 2 in budgeting and systems; if the duty assignment was finance operations chief at pay Grade E-8, 5 semester hours in office management, 5 in personnel supervision, and 3 in budgeting and systems; if the duty assignment was finance operations chief at pay grade E-9, 6 semester hours in office management, 6 in personnel supervision, and 4 in budgeting and systems. In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in accounting, 3 in business communications, and additional credit as follows: if the duty assignment was division chief at pay grade E-8, 4 semester hours in personnel supervision and 4 in office management; if the duty assignment was finance operations chief at pay grade E-8, 5 semester hours in personnel supervision, 5 in office management, and 1 in accounting systems; if the duty assignment was finance operations chief at grade E-9, 6 semester hours in personnel supervision, 6 in office management, and 2 in accounting systems. In the upper-division baccalaureate category, 3 semester hours in introduction to management, and additional credit as follows: if the duty assignment was either division chief at pay grade E-8 or finance operations chief at pay grade E-8, 3 semester hours for field experience in management; if the duty assignment was finance operation chief at pay grade E-9, 6 semester hours for field experience in management (11/75).

MOS-74B-001

CARD AND TAPE WRITER

74B10

74B20

Exhibit Dates: 9/75–2/86. (Effective 3/86, MOS 74B was discontinued.)

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates keypunch, verifier, paper tape punch, and keytape machine to translate input data into machine-readable orm; corrects any errors which may occur in the transcribing process. *Skill Level 10:* Able to prepare program drum cards for keypunch, follow record format specifications, and load and unload the machines. NOTE: May have progressed to 74B10 from 71B10 (Clerk-Typist). *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises the conversion of input data into machine-readable format and maintains quality control; trains and assigns work to subordinates; maintains workload records; initiates operating changes; requisitions, stores, and issues supplies and equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in keypunch operation (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in keypunch operation and 3 in office administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration (12/75).

MOS-74D-001

ADPS MACHINE OPERATIONS SPECIALIST

74D20

74D40

Exhibit Dates: 10/73–8/75.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates or supervises the operation of a computer console and computer peripheral equipment; operates or supervises the operation of unit-record equipment. *Skill Level 20:* Able to operate unit-record devices such as sorters, interpreters, reproducers, card processors, and collators; wires control panels; able to operate computer peripheral equipment such as card reader/punch, printers, tape duplicators, tape units, and optical scanners. *Skill Level 40:* Able to perform the duties required for Skill Level 20; able to supervise control panel wiring and operation of unit-record equipment and computer peripheral devices.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in unit-record operation (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in unit-record operation and 3 in office administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration (12/75).

MOS-74D-002

COMPUTER/MACHINE OPERATOR

74D10

74D20

74D30

74D40

Exhibit Dates: 9/75–12/76.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates or supervises the operation of a computer console and computer peripheral equipment; operates or supervises the operation of unit-record equipment. *Skill Level 10:* Operates unit-record devices such as sorters, interpreters, reproducers, card processors, collators, and decollators; operates computer peripheral equipment such as card reader/punch, printers, tape and disk units, and optical scanners; may prepare wiring diagrams and wire control panels; performs functions of a scheduling clerk and tape librarian. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates the console of small, medium, or large scale computer systems; interprets system flow charts; supervises all activities within a tape library. NOTE: May have progressed to 74D20 from 74D10 or 74B10 (Card and Tape Writer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of a computer console, peripheral computer equipment, and unit-record equipment. NOTE: May have progressed to 74D30 from 74D20 or 74B20 (Card and Tape Writer). *Skill Level 40:* Able to perform the duties required for Skill Level 30; schedules production and prepares work schedules; assigns duties and instructs personnel in work techniques.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in unit-record operation and 2 in computer operations (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in unit-record operation and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 1 semester hour in computer operations management (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in unit-record operation and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 2 semester hours in computer operations management (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in unit-record operations and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 4 semester hours in computer operations management, 3 in human relations, 3 for field experience in management, and additional credit in personnel supervision on the basis of institutional evaluation (6/76).

MOS-74D-003

COMPUTER/MACHINE OPERATOR

74D10
74D20
74D30
74D40

Exhibit Dates: 1/77–Present.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates electronic computer console and auxiliary equipment. *Skill Level 10:* Performs computer console supporting activities; mounts magnetic disk and tape; operates line printers; keeps a magnetic tape library. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates a computer system consisting of a central processing unit, magnetic tape units and/or disk storage units in a nonmultiprogramming or nonmultiprocessing environment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates a computer system in multiprogramming and multiprocessing environment; operates a computer system which has remote-inquiry stations and a program-interrupt capability. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises computer system and auxiliary equipment operator personnel; prepares production schedules.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, and 2 in computer system operations (9/81).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, and 3 in computer system operations (9/81).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 2 in computer operating systems, and 1 in introduction to systems analysis and design. In the upper-division baccalaureate category, 2 semester hours in computer operating systems and 1 in introduction to systems analysis and design (9/81).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 3 in operations management, 3 in personnel supervision, 2 in computer operating systems, and 1 in introduction to systems analysis and design. In the upper-division baccalaureate category, 3 semester hours in operations management, 3 in personnel supervision, 2 in computer operating systems, and 1 in introduction to systems analysis and design (9/81).

MOS-74E-001

COMPUTER SYSTEMS OPERATOR

74E10
74E20
74E30
74E40

Exhibit Dates: 10/73–8/75. (Effective 9/75, MOS 74E was discontinued and some of its functions were incorporated into MOS 74D, Computer/Machine Operator.)

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Operates electronic computer console and auxiliary equipment. *Skill Level 10:* Performs computer console supporting activities; mounts magnetic disk and tape; operates ADP equipment; keeps a magnetic tape library. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates a computer system consisting of a central processing unit, magnetic tape units and/or disk storage units in a nonmultiprogramming or nonmultiprocessing environment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates a computer system in multiprogramming and multiprocessing environment; operates a computer system which has remote-inquiry stations and a program-interrupt capability. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises computer system and auxiliary equipment operator personnel; prepares production schedules.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, 2 in unit-record machine operations, and 2 in computer system operations (3/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, 3 in computer system operations, and 2 in unit-record machine operations (3/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 2 in unit-record machine operations, 2 in computer operating systems, and 1 in introduction to systems analysis and design. In the upper-division baccalaureate category, 2 semester hours in computer operations systems and 1 in introduction to systems analysis and design (3/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 3 in operations management, 3 in personnel supervision, 2 in unit-record machine operations, 2 in computer operating systems, and 1 in introduction to systems analysis and design. In the upper-division baccalaureate category, 3 semester hours in operations management, 3 in personnel supervision, 2 in computer operating systems, and 1 in introduction to systems analysis and design (3/75).

MOS-74F-001

COMPUTER PROGRAMMER

74F20

Exhibit Dates: 10/73–8/75.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Skill Level 20: Analyzes, writes, tests, and implements computer programs and/or conducts data system studies involving investigation, evaluation, development, and implementation of new or modified data processing systems for an application area; develops procedures necessary for reducing data processing applications into detailed instructions, routines, and codes; constructs flow charts and block diagrams to outline necessary computer programs from flow charts; tests, debugs, and implements programs; produces necessary documentation.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in mathematics, 3 in introduction to computer programming/data processing, 3 in Assembler language programming, 3 in computer file organization, 3 in advanced programming techniques, 3 in systems and program design, 3 in ANSI COBOL programming, and 3 in computer operating systems, and additional credit for programming skills in other programming languages (FORTRAN, RPG, etc.) on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in advanced programming techniques, 3 in systems and program design, and 3 in computer operating systems, and additional credit on the basis of institutional evaluation (3/75).

MOS-74F-002

Programmer/Analyst

74F10
74F20
74F30
74F40

Exhibit Dates: 9/75-12/76.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Analyzes, writes, tests, and implements computer programs and/or conducts data system studies involving investigation, evaluation, development, and implementation of new modified data processing systems for an application area. *Skill Level 10:* Assist Assists in preparation, editing, testing, and implementation of computer programs; prepares and analyzes program and system flow charts; prepares program documentation; reviews and revises computer programs; writes simple Assembler and COBOL programs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes, writes, edits, tests, and implements computer programs; sorts, merges, and processes runs; writes detailed program specifications for minor problems; may supervise computer activities. NOTE: May have progressed to 74F20 from 74F10, 74B10 (Card and Tape Writer), or 74D10 (Computer/Machine Operator). *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs or assists in supervising programming and systems studies in personnel, intelligence, transportation, supply, maintenance, medical, finance, and data communications areas; develops procedures to produce flow charts, block diagrams, and detailed instructions, routines, and codes for data processing application. NOTE: May have progressed to 74F30 from 74F20, 74B20 (Card and Tape Writer), or 74D20 (Card and Tape Writer), or 74D20 (Computer/Machine Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises systems analysis and programming activities; supervises, advises, guides, and evaluates programmers and system analysts.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, and 3 in systems analysis and design. In the upper-division baccalaureate category, 3 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, and 4 in systems analysis and design. In the upper-division baccalaureate category, 4 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, and 6 in systems analysis and design. In the upper-division baccalaureate category, 6 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, 6 in systems analysis and design, 3 in systems and programming management, 3 in human relations, 3 for field experience in management, and additional credit in personnel supervision on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in systems analysis and design, 3 in systems and programming management, 3 in human relations, and 3 for field experience in management (6/76).

MOS-74F-003

Programmer/Analyst

74F10
74F20
74F30
74F40

Exhibit Dates: 1/77-Present.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Summary: Analyzes, writes, tests, and implements computer programs and/or conducts data system studies involving investigations, evaluation, development, and implementation of new or modified data processing systems for an application area. *Skill Level 10:* Assists in the preparation, editing, testing, and implementation of computer programs; prepares and analyzes program and system flow charts; prepares program documentation; reviews and revises computer programs; writes simple Assembler and COBOL programs, as well as programs in other universal languages (FORTRAN, RPG, BASIC). *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes, writes, edits, tests, and implements computer programs; sorts, merges, and processes runs; writes detailed program specifications for minor problems; may supervise computer programming activities. NOTE: May have progressed to 74F20 from 74B10 (Card and Tape Writer), or 74D10 (Computer/Machine Operator). *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies advanced programming techniques; produces computer operations documentation; performs or assists in supervising programming and systems studies in personnel, intelligence, transportation, supply, maintenance, medical, finance, and data communications areas; develops procedures to produce flow charts, block diagrams, and detailed instructions, routines, and codes for data processing application. NOTE: May have progressed to 74F30 from 74F20, 74B20 (Card and Tape Writer), or 74D20 (Computer/Machine Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises systems analysis and programming activities; supervises, advises, guides, and evaluates programmers and systems analysts.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in systems analysis and design, 3 in Assembler language programming, 3 in ANSI COBOL programming, and additional credit in other programming languages on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in systems analysis and design (9/81).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in computer file organization, 4 in systems analysis and design, 3 in Assembler language programming, 3 in ANSI COBOL programming, and additional credit in other programming languages on the basis of institutional evaluation. In the upper-division baccalaureate category, 4 semester hours in systems analysis and design (9/81).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in computer file organization, 8 in systems analysis and design, 3 in computer operating systems, 3 in advanced programming techniques, 3 in Assembler language programming, 3 in ANSI COBOL programming, and additional credit in other programming languages on the basis of institutional evaluation. In the upper-division baccalaureate category, 8 semester hours in systems analysis and design, and 3 in advanced programming techniques (9/81).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in computer file organization, 8 in systems analysis and design, 3 in computer operating systems, 3 in advanced programming techniques, 3 in systems and programming management, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 for field experience in management, 3 in human relations, and additional credit in personnel supervision and other programming languages on the basis of institutional evaluation. In the upper-division baccalaureate category, 8 semester hours in systems analysis and design, 3 in system and programming management, 3 in advanced programming techniques, 3 in human relations, and 3 for field experience in management (9/81).

MOS-74G-001

ADP (Automatic Data Processing)
Systems Analyst

74G20

Exhibit Dates: 10/73-8/75. (Effective 9/75, MOS 74G was discontinued and some of its functions were incorporated into MOS 74F, Programmer/Analyst.)

Career Management Field: 74 (Automatic Data Processing, subfield 741 (Data Processing Equipment Operations).

Description

Skill Level 20: Conducts systems studies involving investigation, evaluation, and development of data processing systems for and in conjunction with a user; performs design and prepares detailed systems specifications, including those for all files and programs required; implements new or modified systems and prepares appropriate systems documentation; able to train the system user in the operation of the new system. NOTE: May have progressed to 74G20 from 74C20 (Data Analysis Specialist), 74D20 (ADPS Machine Operation Specialist), 74D20 (ADPS Machine Operation

Specialist), or 74F20 Computer Programmer).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in systems analysis, 3 in data processing principles, and 3 in computer file organization. In the upper-division baccalaureate category, 6 semester hours in systems analysis (12/75).

MOS-74Z-001

DATA PROCESSING NCO

74Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 74 (Automatic Data Processing), subfield 741 (Data Processing Equipment Operations).

Description

Skill Level 50: Supervises a data processing installation including systems analysts, computer programmers, computer operators, and related support groups; delegates task areas to key subordinates and manages their activities; maintains a current knowledge of accepted systems and programming standards, personnel procedures, and office operation techniques; knows the basic principles of systems analysis, computer hardware, and unit-record equipment; possesses an overall understanding of computer programming. NOTE: May have detailed knowledge in one or more of the following areas: computer operations, computer equipment maintenance, computer programming, and systems analysis, through previous MOS experience in the automatic data processing career management field (74).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in unit record data processing, 3 in data processing principles, 2 in computer operations, and 1 in computer programming. In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in management, 3 in data processing principles, 3 in introduction to management, 3 in office management, 3 in personnel management, 2 in business systems analysis, and 1 in computer programming. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in office management, 3 in personnel management, and 2 in business systems analysis (12/75).

MOS-75B-001

UNIT CLERK

75B20

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Skill Level 20: Performs clerical and related administrative functions, including typing, filing, serving as a receptionist, ordering office supplies, and completing forms.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in office procedures (11/75).

MOS-75B-002

PERSONNEL ADMINISTRATION SPECIALIST

75B10

75B20

Exhibit Dates: 9/77-2/82.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Performs clerical and administrative functions. *Skill Level 10:* Types and completes forms; prepares correspondence; maintains files; maintains charts; orders office supplies; serves as a receptionist; answers inquiries and arranges appointments; provides input data for computer system. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing and 1 in office procedures and credit in business communications on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and 2 in business communications (6/78).

MOS-75B-003

PERSONNEL ADMINISTRATION SPECIALIST

75B10

75B20

75B30

Exhibit Dates: 3/82-Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Performs clerical and administrative functions regarding general personnel matters. *Skill Level 10:* Types and completes forms and records; prepares, reviews, and processes specific personnel reports; maintains files; answers telephone and serves as receptionist; receives and dispatches mail; provides input data for computer system. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel; composes correspondence. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns work to lower-skill-level personnel; counsels staff and clients on personnel matters; reviews and compiles data for reports and personnel actions; evaluates work of assigned staff.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in typing and 1 in office procedures (3/84).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, and 1 in business communications (3/84).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in business communications, 3 for a practicum in office procedures, 3 in personnel supervision, and 2 in office management (3/84).

MOS-75C-001

PERSONNEL MANAGEMENT SPECIALIST

75C20

75C40

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Supervises or participates in the occupational classification and management of manpower resources. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75B (Unit-Clerk). *Skill Level 20:* Classifies, assigns, and reassigns personnel based on evaluation of credentials and qualifications; is familiar with interview techniques and interviews personnel as part of the evaluative process; processes reports, training and assignment requests, and personnel assignments and promotions; monitors personnel management records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel management function and is capable of supervising up to 8 subordinate personnel management specialists; plans, organizes, and supervises work activities; coordinates personnel management actions with other agencies as necessary.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in interview techniques, and 2 in typing. In the upper-division baccalaureate category, 3 semester hours in principles of vocational counseling (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in interview techniques, 3 in personnel supervision, and 2 in typing. In the upper-division baccalaureate category, 3 semester hours in office management principles and practices, 3 in principles of vocational counseling, and 3 for field experience in management (11/75).

MOS-75C-002

PERSONNEL MANAGEMENT SPECIALIST

75C10

75C20

Exhibit Dates: 9/77-2/82.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Participates in the occupational classification and management of manpower resources. *Skill Level 10:* Compares personnel records with classification standards to determine qualifications of individuals; recommends duty positions and reclassifications based on such determinations; maintains files; types forms and correspondence; able to type 20 words per minute; may interview incoming personnel. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and credit in interview techniques on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 20
In the vocational certificate category, 1 semester hour in typing, 3 in office procedures, and credit in interview techniques on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 3 in office procedures, and credit in interview techniques on the basis of institutional evaluation (6/78).

MOS-75C-003

Personnel Management Specialist

75C10
75C20
75C30

Exhibit Dates: 3/82–Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description
Summary: Participates in the occupational classification of personnel. *Skill Level 10:* Compares personnel records with classification standards to recommend assignment of individuals; types forms and correspondence; may interview personnel; provides input for computer system and maintains files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; coordinates and makes work assignments; supervises and evaluates performance of staff; organizes training programs; provides counseling on personnel matters.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in office procedures and 2 in typing (3/84).

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in typing, and 1 in business communications (3/84).

Recommendation, Skill Level 30
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in typing, 1 in business communications, 3 for a practicum in office procedures, 2 in office management, 2 in human relations, and 3 in personnel supervision (3/84).

MOS-75D-001

Personnel Records Specialist

75D20
75D40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description
Summary: Initiates and maintains military personnel records or supervises their initiation and maintenance. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75B (Unit-Clerk). *Skill Level 20:* Posts information extracted from several sources on enlisted and officer personnel records; examines records for accuracy and completeness and initiates actions to correct deficiencies; prepares and processes questionnaires; prepares and maintains emergency data and beneficiary records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 33 persons; plans, organizes, and assigns work to subordinates; coordinates activities with other personnel workers; reviews and checks personnel records and information for accuracy; initiates action to change operating procedures, policies, and regulations, when necessary; is responsible for requisitioning, storing, and issuing office supplies and equipment.

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in typing, and 3 in business communications or technical writing (11/75).

Recommendation, Skill Level 40
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in typing, 3 in business communications or technical writing, and 3 in office management. In the upper-division baccalaureate category, 3 semester hours in office management and 2 for field experience in personnel supervision (11/75).

MOS-75D-002

Personnel Records Specialist

75D10
75D20

Exhibit Dates: 9/77–2/82.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description
Summary: Initiates and maintains military personnel records or supervises their initiation and maintenance. *Skill Level 10:* Posts information from several sources on enlisted and officer personnel records; examines records for accuracy and completeness and initiates actions to correct deficiencies; prepares and types correspondence and forms; maintains files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises up to nine Skill Level 10 personnel; plans, organizes, and assigns work; reviews and checks personnel records and information for accuracy; coordinates activities with other personnel workers.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in business communications or technical writing, and 3 in record keeping (6/78).

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in business communications or technical writing, 3 in record keeping, and 2 in office management (6/78).

MOS-75D-003

Personnel Records Specialist

75D10
75D20
75D30

Exhibit Dates: 3/82–Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description
Summary: Initiates and maintains military personnel records or supervises records initiation and maintenance. *Skill Level 10:* Types correspondence, memorandums, and forms; prepares computer input data for personnel records; maintains files and posts regulations changes; initiates, prepares, and verifies a variety of personnel records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel; drafts correspondence and reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; determines personnel requirements; assigns duties and organizes work schedules; prepares and conducts training; evaluates and counsels personnel; monitors and audits personnel records; reviews computer system input and reconciles with output.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in office procedures, 2 in typing, and 2 in filing or records management (3/84).

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in typing, 2 in filing or records management, and 2 in business communications or technical writing (3/84).

Recommendation, Skill Level 30
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in typing, 2 in filing or records management, 3 in business communications or technical writing, 2 in office management, 3 in personnel supervision, and 3 for a practicum in office procedures (3/84).

MOS-75E-001

Personnel Actions Specialist

75E20
75E40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description
Summary: Supervises and processes special and routine personnel actions concerning members of the military services; counsels and assists military personnel with personal affairs relating to benefits, rights, and privileges. Related entry-level civilian occupations include personnel clerk, personnel supervisor, or personnel counselor. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75D (Unit Clerk). *Skill Level 20:* Performs general office duties relative to processing personnel actions; advises and assists military personnel who may be entitled to military benefits;

assists in correspondence concerning Social Security benefits; acts as an information referral source in directing individuals with personal affairs problems to appropriate organizations and support facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises subordinates who are involved in processing personnel actions and/or assisting and counseling in certain personal affairs; reviews and checks the accuracy of personnel actions; performs office management functions with regard to procedures, policies, and regulations.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in personal finance, 2 in business communications, 2 in communication skills, 2 in office management, and 1 in filing. In the lower-division baccalaureate/associate degree category, 2 in personal finance, 2 in business communications, and 1 in office management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in office management, 3 in personnel supervision, 2 in personal finance, 2 in business communications, and 1 in filing. In the lower-division baccalaureate/associate degree category, 3 semester hours in office management, 3 in personnel supervision, 2 in personal finance, and 2 in business communications. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 2 for field experience in management (11/75).

MOS-75E-002

Personnel Actions Specialist

75E10
75E20

Exhibit Dates: 9/77–2/82.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Processes personnel actions concerning service members and their dependents. *Skill Level 10:* Completes forms required for training, schools, awards and decorations, release and resignation, transfer, reenlistment, retirement, and casualties; provides information on benefits; types forms, correspondence, and messages; maintains related files. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and credit in business communications on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 3 in office procedures, and 2 in business communications (6/78).

MOS-75E-003

Personnel Actions Specialist

75E10
75E20
75E30

Exhibit Dates: 3/82–Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Processes personnel actions concerning service members and their dependents. *Skill Level 10:* Completes forms required for training schools, awards and decorations, release, transfer, reenlistment, retirement, and casualties; provides information on veterans, social security, and retirement benefits; types forms, correspondence, and messages; verifies information; prepares computer input data; handles incoming and outgoing telephone calls; maintains and updates files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; determines personnel requirements, work priorities, duty assignments, and work schedules; prepares and conducts training programs; prepares administrative, technical, and personnel reports; advises and counsels individuals on personnel matters; supervises personnel action activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in typing and 2 in office procedures (3/84).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, and 2 in business communications (3/84).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in business communications, 3 for a practicum in office procedures, and 3 in personnel supervision (3/84).

MOS-75F-001

Personnel Information System
Management Specialist

75F10
75F20
75F30

Exhibit Dates: 3/82–Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Operates and manages personnel information systems and assists or supervises users of systems. *Skill Level 10:* Analyzes, processes, distributes, and maintains personnel files; reviews input data for accuracy and prepares system documents; operates keypunch machines, optical scan equipment and other data reduction devices, such as IBM 129, DATA 200, and computer components; monitors accuracy of personnel files, and makes corrections as necessary; knows and performs automated interface procedures with other automated systems; types entries onto forms and records; maintains files within Army Functional Files System. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates personnel information systems and trains system users; provides technical assistance to Skill Level 10 personnel; controls incoming/outgoing automatic data information transmissions; prepares output distribution plan; visits system users, and gives assistance or formal instruction as needed. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises personnel information systems, assigns duties, organizes work schedules, and insures work completion; determines training needs of subordinate personnel and conducts training programs; reviews reports to assess system performance; develops production schedules; maintains liaison with managers of interfaced systems; establishes and maintains office procedures; prepares administrative and technical reports; counsels subordinate personnel and prepares evaluation reports; may supervise 4 to 9 personnel; establishes stock level of needed supplies and blank forms.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in computer systems operations and 2 in data processing (3/84).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in computer system operations, 3 in data processing, 2 in computer file organization, and 1 in office procedures (3/84).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in computer system operations, 3 in data processing, 2 in office procedures, 2 in personnel supervision, and 2 in computer file organization (3/84).

MOS-75Z-001

Personnel Senior Sergeant

75Z40
75Z50

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Supervises all aspects of personnel operations, including personnel management, personnel records, and personnel actions; plans and organizes workload and makes work assignments; instructs subordinate personnel; reviews, consolidates, and drafts reports and surveys; researches specific policies and procedures relating to officer and enlisted personnel administration; as a mid-level manager, advises superiors on personnel administrative activities. NOTE: Able to perform the duties required for 75C40 (Personnel Management Specialist), 75D40 (Personnel Records Specialist), or 75E40 (Personnel Actions Specialist). *Skill Level 40:* Supervises up to 18 persons in segment of a large personnel office or in a small or medium-sized personnel office. *Skill Level 50:* Supervises up to 24 persons in a large segment of a large personnel office or serves as the principal noncommissioned officer of a large personnel office.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in typing, 3 in office procedures, 3 in business communications or technical writing, and 3 in office management. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in business communications or technical writing, 3 in office management, 3 in personnel supervision, and 3 in managerial principles. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in vocational counseling techniques, 3 in applied psychology, and 6 in personnel management, and additional credit in management on the basis of institutional evaluation (11/75).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in vocational counseling techniques, 3 in applied psychology, 6 in personnel management, 3 for field experience in management, and additional credit in management on the basis of institutional evaluation (11/75).

MOS-75Z-002

Personnel Senior Sergeant

75Z30
75Z40
75Z50

Exhibit Dates: 9/77–2/82.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Supervises all aspects of personnel operations, including personnel administration, personnel management, personnel records, and personnel actions. *Skill Level 30:* Plans and organizes workload and makes work assignments; instructs subordinate personnel; supervises up to 5 persons in a segment of a large personnel office or in a small personnel office; reviews, consolidates, and drafts reports and surveys; researches specific policies and procedures relating to officer and enlisted personnel administration; reviews data prepared for computer input and reconciles output; as a mid-level manager, advises superiors on personnel administrative activities. NOTE: May have progressed to 75Z30 from 75B20 (Personnel Administration Specialist), 75C20 (Personnel Management Specialist), 75D20 (Personnel Records Specialist), or 75E20 (Personnel Actions Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises up to 18 persons in a segment of a large personnel office or in a small or medium-sized personnel office. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises up to 24 persons in a large segment of a large personnel office or serves as the principal noncommissioned officer of a large personnel office.

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in office procedures, 3 in office management, and 3 in business communications or technical writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, 3 in introduction to computer concepts, 3 in human relations, and 2 in personnel supervision (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, and 3 in computer concepts, and 3 semester hours in records management on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, 3 in introduction to computer concepts, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, and 3 in records management on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (6/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in personnel management and 6 for field experience in management (6/78).

MOS-75Z-003

Personnel Sergeant

75Z40
75Z50

Exhibit Dates: 3/82–Present.

Career Management Field: 71 (Administration), subfield 712 (Personnel).

Description

Summary: Supervises the operation of a personnel office, including personnel administration, personnel management, personnel records, and information systems. *Skill Level 40:* Supervises performance of legal, reenlistment, and administrative matters, as well as personnel actions; reviews, consolidates, and drafts reports and surveys; researches specific policies and procedures relating to officer and enlisted personnel administration; reviews data prepared for computer input and reconciles output; as a mid-level manager, advises superiors on personnel administrative activites; supervises up to 18 persons in a segment of a large personnel office or in a small or medium-sized personnel office. NOTE: May have progressed to 75Z40 from 75B30 (Personnel Administration Specialist), 75C30 (Personnel Management Specialist), 75D30 (Personnel Records Specialist), 75E30 (Personnel Actions Specialist), or 75F30 (Information System Management Specialist); *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises up to 39 persons in a large segment of a large personnel office or serves as the principal noncommissioned officer of a large personnel office; may also perform the duties of a First Sergeant.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, and 3 in computer concepts, and 3 in records management on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, 3 in introduction to computer concepts, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, and 3 in records management on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (3/84).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in personnel management, and 6 for field experience in management (3/84).

MOS-76A-001

Supplyman

76A10

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 76A was discontinued and its functions were incorporated into 76Y10, Unit and Organization Supply Specialist and Armorer.)

Career Management Field: 76 (Supply).

Description

Skill Level 10: As a storekeeper or warehouse clerk, receives, inventories, inspects, issues, delivers, and transfers property; stores property to provide for rotation of stocks within established sensitive, classified, radioactive, hazardous, and inflammable storage areas; provides for protection of personnel; prevents deterioration, contamination, and destruction of property; uses technical catalogs; knows stock record accounting methods; uses various office machines to maintain the records systems.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in office machine operations, 1 in records management, and 1 in elementary logistics (3/75).

MOS-76C-001

Equipment Records and Parts Specialist

76C10
76C20

Exhibit Dates: 9/80–Present.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Maintains records for repair parts inventory, equipment use, and equipment maintenance. *Skill Level 10:* Obtains or prepares repair parts lists; locates information using catalog data and technical manuals; prepares repair parts requests; receives, stores, and issues repair parts; keeps inventory records of repair parts; prepares and maintains records on equipment usage, operation, and maintenance; initiates, receives, and maintains manual control records; may initiate, receive, and maintain automated maintenance control records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; obtains repair parts to meet equipment maintenance needs; assists in planning maintenance needs for the unit.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in record keeping and 2 in inventory control; if person worked with automated maintenance control records, 2 semester hours in computer operations (9/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in record keeping and 2 in inventory control; if person worked with automated maintenance control records, 2 semester hours in computer operations (9/82).

MOS-76D-001

MATERIEL SUPPLYMAN

76D10

76D20

76D30

76D40

Exhibit Dates: 3/76–2/78.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Manages, receives, stores, maintains, preserves, and issues major end items and repair part supplies. *Skill Level 10:* Prepares and maintains stock records including inventory, stock control, and accounting reports; operates office machines; prepares requests, processes receipts, maintains prescribed stock levels, and maintains maintenance records; uses catalogs in identification of major assemblies, subassemblies, and associated repair parts; performs technical edit, stock accounting, and application by researching catalogs, manuals, publications, parts lists, microfiche, and other means; visually inspects, verifies, and classifies incoming equipment and repair parts; maintains locator card system; participates in location surveys and inventories; performs as equipment maintenance clerk; codes equipment and maintenance data for automated data processing application. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; reviews requests for major and controlled items; visually inspects salvage material to determine proper disposition; utilizes automatic data processing to assist in management. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes major end items and repair parts supply operations; organizes, plans and controls warehouse and storage activities; directs personnel in supply/inventory control management functions; determines repair part requirements and space allocation; conducts inspections and analyzes supply activities for efficiency; determines materiel-handling equipment; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as commodity manager; assists in appraisal of supply operations and training; performs inspections and provides technical assistance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, and 2 in parts management (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in parts management, 2 in inventory control, and 2 in office machines (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 2 in inventory control, 2 in office machines, and 2 in office procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 2 in inventory control, 2 in office machines, and 2 in office procedures (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 3 for field experience in management, 2 in inventory control, 2 in office machines, and 2 in office procedures (6/76).

MOS-76D-002

MATERIEL SUPPLY SPECIALIST

76D10

76D20

76D30

76D40

Exhibit Dates: 3/78–8/80. (Effective 9/80, MOS 76D was discontinued and its functions were incorporated into MOS 76C, Equipment Records and Parts Specialist, MOS 76P, Stock Control Specialist, and MOS 76V, Storage Specialist.)

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Manages, receives, stores, maintains, preserves, and issues major end items and repair part supplies. *Skill Level 10:* Prepares and maintains stock records, including inventory, stock control, and accounting reports; operates office machines; prepares requests, processes receipts, maintains prescribed stock levels, and maintains maintenance records; uses catalogs in identification of major assemblies, subassemblies, and associated repair parts; performs technical edit, stock accounting, and application by researching catalogs, manuals, publications, parts lists, microfiche, and other means; visually inspects, verifies, and classifies incoming equipment and repair parts; maintains locator card system; participates in location surveys and inventories; performs as equipment maintenance clerk; codes equipment and maintenance data for automated data processing application; operates a direct exchange parts store, exchanging new parts for unserviceable ones; maintains inventory, records, forms, and disposal procedures necessary for the parts store. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; reviews requests for major and controlled items; visually inspects salvage material to determine proper disposition; utilizes automatic data processing to assist in management. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes major end items and repair parts supply operations; organizes, plans, and controls warehouse and storage activities; directs personnel in supply/inventory control management functions; determines repair part requirements and space allocation; conducts inspections and analyzes supply activities for efficiency; determines materiel handling equipment requirements; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as commodity manager; assists in appraisal of supply operations and training; performs inspections and provides technical assistance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, and 2 in parts management (1/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in parts management, 2 in inventory control, and 2 in office machines (1/82).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 2 in inventory control, 2 in office machines, and 2 in office procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 2 in inventory control, 2 in office machines, and 2 in office procedures (1/82).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 3 for field experience in management, 2 in inventory control, 2 in office machines, and 2 in office procedures (1/82).

MOS-76J-001

MEDICAL SUPPLYMAN

76J10

76J20

76J30

76J40

Exhibit Dates: 3/76–2/77.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Requests, receives, inventories, stores, preserves, issues salvage, controls stock, and accounts for medical supplies and equipment. *Skill Level 10:* Transports and handles medical supplies and equipment; inventories medical supplies and assists in financial inventory accounting; determines requisition objectives and verifies quantities and quality of materials received; performs in-storage care and preservation of medical supplies, including special procedures for handling pharmaceuticals, biologicals, blood fractions, and medicines; assists in medical materiel serviceability inspections; interprets medical terminology and vocabulary directly related to supply functions; operates office machines; keeps medical supply files and records. *Skill Level 20:*

Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small medical supply, stock control, or storage activity; plans medical supply and equipment operations; assigns duties, plans workloads, and instructs personnel in work techniques and procedures; directs inventory management activities; controls stock rotation and establishes delivery control activities; reviews and prepares technical, personnel, and administrative reports on medical supply activities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a medium-sized medical stock control, or storage activity.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, and 1 in medical terminology (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, and 1 in medical terminology (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in warehouse practices, 3 in record keeping, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in personnel supervision, 3 for field experience in management, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology (6/76).

MOS-76J-002

MEDICAL SUPPLYMAN

76J10
76J20
76J30
76J40
76J50

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Services), subfield 761 (Supply).

Description

Summary: Supervises or performs requisitioning, receipt, inventory management, storage, preservation, stock control, and accounting of medical supplies and equipment. *Skill Level 10:* Transports and handles medical supplies and equipment; inventories and issues medical supplies; performs in-storage care and preservation; applies special procedures for handling, storage, packaging and shipping pharmaceuticals, biologicals, blood fractions, and medicines; interprets medical terminology and vocabulary directly related to supply function; operates office machines; keeps administrative and medical supply files; assists in keeping records on equipment operation and maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; responsible for local purchasing. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small-size medical supply, stock control, or storage activity; plans medical supply and equipment operations; assigns duties, plans workloads, and instructs personnel in work techniques and procedures; responsible for budgeting and managing funds; works with automated property book system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervise medium-size medical supply, stock control, or storage activity. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises a large-size medical supply, stock control, or storage activity or serves as principal noncommissioned officer of medical depot; analyzes medical logistical management data.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, 1 in medical terminology, 1 in filing, and credit in record keeping and office management on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, 1 in medical terminology, 2 in office management, and 2 in filing (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, and 2 in computer concepts. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, 2 in computer concepts, and 3 in human relations (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, 2 in computer concepts, and 3 for field experience in management. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, 2 in computer concepts, 3 in human relations, and 3 for field experience in management. In the upper-division baccalaureate category, 3 for field experience in management.

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, 2 in computer concepts, and 6 for field experience in management. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in budgeting practices, 2 in inventory control, 2 in office machines, 2 in office procedures, 1 in medical terminology, 2 in filing, 3 in office management, 2 in computer concepts, 3 in human relations, 3 for field experience in management, and 3 in personnel supervison. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel supervision; if served as principal non-commissioned officer, 3 semester hours in personnel management (6/78).

MOS-76P-001

STOCK CONTROL SUPPLYMAN

76P10
76P20

Career Management Field: 92 (Petroleum).

Description

Summary: Operates and maintains petroleum storage, dispensing, and distribution facilities and pipeline systems. *Skill Level 20:* Serves as a petroleum pump operator, tank farm attendant, pipeline patrolman, or cleaning and packaging specialist; cleans and fills petroleum containers; maintains pipeline systems, pressure reducing stations, and dispensing equipment, including booster, transfer, and main-line pumps; applies firefighting and fire prevention techniques; visually inspects outgoing products to insure proper quantity and packaging and to detect contamination or deterioration; gages storage tanks; makes temperature and volume conversions to account for and inventory petroleum products; takes samples for laboratory examination; loads, unloads, and cleans tank cars, tank trucks, and storage trucks. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises from 7 persons in a pump station crew to more than 49 in a pipeline crew; estimates requirements for personnel, storage space, and equipment; uses product cycles to minimize product contamination; performs quality surveillance procedures to determine causes of product contamination and to carry out petroleum reclamation and salvage; supervises petroleum dispatching through work assignments and review of work plans. *Skill Level 50:* Able to perform the duties required for Skill Level 40 of MOS 76W or 92C (Petroleum Laboratory Specialist); as the principle noncommissioned officer in a large petroleum operation, assists officers in the planning, coordination, and supervision of petroleum storage and distribution and in the appraisal of operations and training; supervises and inspects work performed by subordinate noncommissioned officers; collects and prepares material pertaining to petroleum operations and training; may serve as the first sergeant of a company, a mid-level managerial position involving personnel, supply, training, and inspection responsibilities.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 for field experience in management, and 3 in industrial safety; and if the duty assignment was petroleum pipeline supervisor at pay grade E-6 or if pay grade E-7 was achieved, 3 additional semester hours in personnel supervision and 2 in technical writing (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 for field experience in management, 3 in introduction to management, 3 in industrial safety, 3 in office administration, 3 in record keeping, 3 in technical writing, and 2 in material management (6/76).

MOS-76W-002

PETROLEUM SUPPLY SPECIALIST

76W10
76W20
76W30
76W40
76W50

Exhibit Dates: 9/76-3/87. (The designator for MOS 76W has been changed to MOS 77F; see exhibit MOS-77F-001.)

Career Management Field: 92 (Petroleum).

Description

Summary: Operates and maintains petroleum storage, dispensing and distribution facilities and pipeline systems. *Skill Level 10:* Receives and dispenses bulk and packaged petroleum products; operates equipment such as forklift trucks, conveyors, and cranes in loading, unloading, moving, and storing petroleum supplies; marks petroleum containers for proper identification; conducts safety inspections of storage facilities; performs basic preventive maintenance on petroleum storage and handling equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises aircraft refueling; assures adherence to safety procedures; maintains inventory records of petroleum products; inspects petroleum storage sites; may supervise small petroleum storage or dispensing activity; maintains pipeline systems and pressure reducing stations; applies fire fighting and fire prevention techniques. *Skill Level 30:* Able to perform the duties required for Skill Level 20; schedules, orders, dispatches and otherwise recommends movement of petroleum products; supervises pipeline or pump station operation and petroleum supply storage facilities; uses product cycles to minimize product contamination in storage facilites or pipelines; supervises dispersion and camouflage of supplies and equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; insures compliance with fire and safety regulations; coordinates petroleum operations at staff level; furnishes required reports on equipment to higher headquarters; performs quality surveillance; may supervise up to sixteen persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as the principal noncommissioned officer in a large petroleum operation, assists commissioned officers in the planning, coordination, and supervision of petroleum storage and distribution and in the appraisal of operations and training; supervises and inspects work performed by subordinate noncommissioned officers; collects and prepares material pertaining to petroleum operations and training; may serve as a first sergeant of a company, a mid-level managerial position involving personnel, supply, training, and inspection responsibilities. NOTE: May have progressed to 76W50 from 76W40 or 92C40 (Petroleum Laboratory Specialist).

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in fire safety (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in personnel supervision (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, 2 in pump safety, 2 in technical writing, and 3 in industrial safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 3 in personnel supervision, 3 for field experience in personnel supervision, 3 in human relations, and 2 in technical writing (11/77).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in technical writing, 2 in fire safety, 2 in basic mathematics, 2 in pump maintenance, and 3 in industrial safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 3 in personnel supervision, 3 for field experience in personnel supervision, 3 in human relations, 3 in technical writing, 3 in record keeping, 3 in office administration, and 2 in material management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/77).

MOS-76X-001

SUBSISTENCE SUPPLYMAN

76X10
76X20
76X30
76X40

Exhibit Dates: 3/76–2/78.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Receives, stores,issues, distributes inventories, sells and ships subsistence (food) supplies. *Skill Level 10:* Receives and checks accuracy of quantities of subsistence supplies received; checks orders received for quality and segregates damaged supplies; stores supplies and maintains locator records; issues stock and performs inventories; performs stock control and accounting, and requests supplies to maintain stock levels; operates office machines and material handling equipment; checks quality and quantity of outgoing supplies and prepares shipment; performs operator maintenance and service on equipment; distributes field rations; performs commissary store functions including stocking, pricing, and inventory; maintains supply records and files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises food distribution and small commissary operations; plans and coordinates supply activities; directs supply personnel; applies principles of automatic data processing to supply system; conducts on-the-job training; checks accuracy of work; inspects warehouse cooler and freezer units; recommends corrective action and improved methods in the supply procedures; administers stock control; performs sales functions in commissary stores; analyzes statistical data and reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized commissary or food supply activity. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large commissary or food supply activity; interprets and uses annual food plans; manages food reserve stocks; insures compliance with food supply policies.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices and 2 in office machines; if the duty assignment included commissary work, 3 semester hours in retail sales (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, and 2 in business mathematics; if the duty assignment included commissary work, 3 semester hours in retail sales (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, 2 in business mathematics, 2 in inventory control, and 2 in office procedures; if the duty assignment included commissary work, 3 semester hours in retail sales. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in personnel supervision, 2 in office machines, 2 in business mathematics, 2 in inventory control, and 2 in office procedures; if the duty assignment included commissary work, 3 semester hours in retail sales (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in warehouse practices, 3 in record keeping, 3 in personnel supervision, 2 in office machines, 2 in business mathematics, 2 in inventory control, and 2 in office procedures; if the duty assignment included commissary work, 3 semester hours in retail sales (6/76).

MOS-76X-002

SUBSISTENCE SUPPLY SPECIALIST

76X10
76X20
76X30
76X40

Exhibit Dates: 3/78–Present.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Receives, stores, issues, distributes, inventories, and ships subsistence (food) supplies; works or supervises foodstuff warehousing operations, including receipt and storage of commodities in freezers, refrigerators, or dry storage bins, and distribution to organizations, commissaries, and dining facilities. *Skill Level 10:* Receives and checks accuracy of quantities received and their condition; segregates damaged supplies; stores supplies and maintains locator records; issues stock and performs inventories; performs stock control and accounting and requisitions supplies to maintain stock levels; operates office machine and warehouse-handling equipment; checks quality and quantities of outgoing supplies and checks documents; distributes rations to each separate organization or account; may perform commissary store functions, including stocking, pricing of goods, and inventory, security, and construction of display of goods; serves as cashier. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises food distribution and small commissary operations; plans and coordinates supply activities; directs supply personnel; applies principles of automatic data processing to supply system; conducts on-the-job training; checks accuracy of work; inspects warehouse coolers and freezer units; recommends corrective action to minimize spoilage and improve supply procedures; administers stock control; performs sales functions in commissary stores; analyzes statistical data and reports; prices stock; computes resale item prices and reorders; maintains commissary consumption records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized commissary or food supply activity; maintains monthly and quarterly records for each individual account which is supplied by the warehouse; maintains inventory control for 50 to 60 separate accounts, and for all items. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large commissary or food supply activity; interprets and uses annual food plans; manages food reserve stock; performs advisory duties in planning and coordinating food reserve stocks; performs advisory duties in planning and coordinating food storage and distribution operations; ensures compliance with food supply policies.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices and 2 in office machines; if the duty assignment included commissary work, 3 semester hours in retail sales (1/82).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, and 2 in business mathematics; if the duty assignment included commissary work, 3 semester hours in retail sales (1/82).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, 2 in business mathematics, 2 in inventory control, and 2 in office procedures; if the duty assignment included commissary work, 3 semester hours in retail sales. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in personnel supervision, 2 in office machines, 2 in business mathematics, 2 in inventory control, and 2 in office procedures; if the duty assignment included commissary work, 3 semester hours in retail sales (1/82).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours for field experience in management (1/82).

MOS-76Y-001

UNIT/ORGANIZATION SUPPLYMAN

76Y10
76Y20
76Y30
76Y40

Exhibit Dates: 3/76–2/78.

Career Management Field: 76 (Supply and Service), subfield 761 (Supply).

Description

Summary: Supervises or performs duties connected with the requisition, receipt, storage, accounting, and issuance of organizational, installation, and individual supplies. *Skill Level 10:* Serves as unit supply clerk; prepares supply records and forms, inventory control listings and count cards, and inventory adjustment reports; practices safety in storage operations; loads and unloads supplies and operates forklifts; operates office machines and keeps administrative files; performs salvage operations; uses supply publications; prepares clothing for issue and processes laundry; determines supply needs by consulting property books records; maintains the security of small arms. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; establishes priorities and assigns work; conducts on-the-job training; maintains automated supply accounting system; computes supply usage factors; supervises the issue, handling, storage, and security of sensitive items and small arms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises personnel in a large supply activity (serving over 450 military personnel); trains and supervises personnel in external load rigging for rotary wing aircraft. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves on the staff at a battalion headquarters; analyzes statistical data to ascertain trends, conformity to standards, and efficiency; improves supply methods and procedures; coordinates supply activities with other units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office procedures, 2 in office machines, and 1 in typing (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in personnel supervision, 3 in human relations, 3 in record keeping, 3 in office administration, 3 in inventory control, 2 in office machines, and 1 in typing (6/76).

MOS-76Y-002

UNIT SUPPLY SPECIALIST

76Y10
76Y20
76Y30
76Y40

Exhibit Dates: 3/78–Present.

Career Management Field: 76 (Supply and Services), subfield 761 (Supply).

Description

Summary: Supervises or performs duties connected with the requisition, receipt, storage, accountability, and issuance of individual, organizational, and installation supplies, clothing, and equipment. *Skill Level 10:* Serves as a unit supply clerk; prepares supply records and forms, inventory control listings and count cards, and inventory reports; uses supply catalogs in requisitioning and distributing supplies; uses typewriter, adding machines, calculators, copier, and microfiche in performing duties; keeps administrative files; practices safety, security, and accountability in storage operations; prepares, reviews, and corrects property listings and annexes; posts transactions to records; prepares clothing for issue; processes laundry, including laundry rosters and payroll deduction forms for laundry; maintains security and records for weapons; prepares weapons reports and ammunition reports for commander. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; establishes priorities and assigns work; conducts on-the-job training; inspects completed work, records, and reports for accuracy and for compliance with directives; maintains automated supply accounting system; computes supply usage factors; applies principles of automatic data processing input filing, processing, and output techniques; supervises the issue, handling, and security of sensitive items and small arms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises supply personnel in a large supply activity (serving over 450 military personnel); trains and supervises personnel in external load rigging for rotary wing aircraft; provides technical assistance to Records Specialists and Parts Specialists; assures professional development of subordinates. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves on the staff at a battalion headquarters; may supervise other supply sergeants in the Supply Career Management Field (76); analyzes statistical data to determine trends; coordinates logistical activities; reviews policies; improves supply methods and procedures; conducts assistance visits and develops training programs; coordinates supply activities with other units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office procedures, 2 in office machines, and 1 in typing (1/82).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing. In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing (1/82).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in record keeping, 3 in office procedures, 3 in inventory control, 2 in office machines, and 1 in typing (1/82).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in record keeping, 3 in office administration, 3 in inventory control, 2 in office machines, and 1 in typing. In the upper-division baccalaureate category, 3 semester hours for field experience in management (1/82).

MOS-76Z-001

SENIOR SUPPLY SERGEANT

76Z50

Exhibit Dates: 10/73–2/78.

Career Management Field: 76 (Supply and Service), subfield 760 (Supply General).

Description

Skill Level 50: Able to perform the duties required for Skill Level 40 of any MOS in the supply career management field (76); serves as a mid-level manager, supervising personnel engaged in large supply and service operations such as laundry, bath, graves registration, decontamination, transportation, property disposal, medical supply, commissary operations, and resupply by airdrops; analyzes reports and appraises supply operations and training; manages stock control and accounting, procurement, and inventory control; supervises storage, receiving, issue, materials handling, supply locator systems, facility safety, and supply security operations; coordinates supply support data systems, salvage operations, and repair parts supply procedures; supervises the preparation of operating instructions, reports, and related technical material; recommends units for assignment to support special operations.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office administration, 3 in personnel supervision, 3 in inventory control, 3 in office procedures, 3 in warehouse practices, 3 in business mathematics, 2 in office machines, and 1 in typing. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in records administration, 3 in human relations, and 6 for field experience in management (6/76).

MOS-76Z-002

Senior Supply Sergeant

76Z50

Exhibit Dates: 3/78–Present.

Career Management Field: 76 (Supply and Service), subfield 760 (Supply General).

Description

Skill Level 50: Able to perform the duties required for Skill Level 40 of any MOS in the supply career management field (76); serves as a midlevel manager, supervising personnel engaged in large supply and service operations such as laundry, bath, graves, registration, decontamination, transportation, property disposal, medical supply, commissary operations, and resupply by airdrops; analyzes reports and appraises supply operations and training; manages stock control and accounting, procurement, and inventory control; supervises storage, receiving, issue, materiel handling, supply locator systems, facility safety, and supply security operations; coordinates supply support data systems, salvage operations, and repair parts supply procedures; supervises the preparation of operating instructions, reports, and related technical material; recommends units for assignment to support special operations. May be assigned as First Sergeant, with the following duties; assists the commander in planning, supervising, inspecting, developing, and executing unit policy; advises commander on enlisted personnel matters; provides counsel and guidance to subordinate personnel; coordinates administration of the unit and support services; may serve as the principal noncommissioned officer in a unit of approximately 150 personnel.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in office administration, 3 in personnel supervision, 3 in inventory control, 3 in office procedures, 3 in warehouse practices, 3 in business mathematics, 2 in office machines, and 1 in typing. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in records administration, 3 in human relations, and 6 for field experience in management (1/82).

MOS-77F-001

Petroleum Supply Specialist

77F10
77F20
77F30
77F40
77F50

Exhibit Dates: 3/86–Present.

Career Management Field: 77 (Petroleum and Water).

Description

Summary: Operates and maintains petroleum storage, dispensing and distribution facilities and pipeline systems. *Skill Level 10:* Receives and dispenses bulk and packaged petroleum products; operates equipment such as forklift trucks, conveyors, and cranes in loading, unloading, moving, and storing petroleum supplies; marks petroleum containers for proper identification; conducts safety inspections of storage facilities; performs basic preventive maintenance on petroleum storage and handling equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises aircraft refueling; assures adherence to safety procedures; maintains inventory records of petroleum products; inspects petroleum storage sites; may supervise small petroleum storage or dispensing activity; maintains pipeline systems and pressure reducing stations; applies fire fighting and fire prevention techniques. *Skill Level 30:* Able to perform the duties required for Skill Level 20; schedules, orders, dispatches and otherwise recommends movement of petroleum products; supervises pipeline or pump station operation and petroleum supply storage facilities; uses product cycles to minimize product contamination in storage facilites or pipelines; supervises dispersion and camouflage of supplies and equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; insures compliance with fire and safety regulations; coordinates petroleum operations at staff level; furnishes required reports on equipment to higher headquarters; performs quality surveillance; may supervise up to sixteen persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as the principal noncommissioned officer in a large petroleum operation, assists commissioned officers in the planning, coordination, and supervision of petroleum storage and distribution and in the appraisal of operations and training; supervises and inspects work performed by subordinate noncommissioned officers; collects and prepares material pertaining to petroleum operations and training; may serve as a first sergeant of a company, a mid-level managerial position involving personnel, supply, training, and inspection responsibilities. NOTE: May have progressed to 77F50 from 77F40, 77L40 (Petroleum Laboratory Specialist), or 77W40 (Water Treatment Specialist).

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in fire safety (10/88).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance (10/88).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, and 2 in pump maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in personnel supervision (10/88).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in fire safety, 2 in basic mathematics, 2 in pump safety, 2 in technical writing, and 3 in industrial safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 3 in personnel supervision, 3 for field experience in personnel supervision, 3 in human relations, and 2 in technical writing (10/88).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in technical writing, 2 in fire safety, 2 in basic mathematics, 2 in pump maintenance, and 3 in industrial safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 3 in personnel supervision, 3 for field experience in personnel supervision, 3 in human relations, 3 in technical writing, 3 in record keeping, 3 in office administration, and 2 in material management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/88).

MOS-77L-001

Petroleum Laboratory Specialist

77L10
77L20
77L30
77L40

Exhibit Dates: 3/86–Present.

Career Management Field: 77 (Petroleum and Water).

Description

Summary: Performs or supervises physical and chemical tests on petroleum products to determine suitability for intended use. *Skill Level 10:* Prepares laboratory equipment for operation; prepares reagents; calibrates instruments; obtains petroleum test samples; performs preventive maintenance on technical laboratory equipment; performs specification tests, including water content, sediment, color, carbon residue, penetration, and oxidation stability; performs quality surveillance tests; uses fire prevention and safety control measures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; employs cooperative fuel research engine to test fuels; prepares laboratory reports; evaluates test results with specification requirements and makes product recommendations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes calibration program; assists in establishment of quality surveillance programs; supervises medium-sized petroleum laboratory activities; plans work schedules and assigns duties; makes inspections of laboratory to insure proper procedures are being followed and work is being done efficiently; supervises inspection of anti-icing additives and corrosion inhibitors during pipeline transfers; supervises placement, setting up and maintenance of laboratory equipment; coordinates petroleum product storage and distribution activities; reviews work reports and evaluates results; maintains inventory control and performs all related supply activity; insures adherence to laboratory fire and safety procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large petroleum laboratory; assists and plans quality surveillance operations; applies principles of OSHA and EPA regulations; determines methods of reclaiming or downgrading contaminated and deteriorated petroleum products; performs quality surveillance of loading and unloading bulk shipments to insure safety and to prevent contamination; insures proper sampling and laboratory analysis of petroleum products; monitors sampling, testing, use, and blending of additives; makes reports on analysis results, environmental considerations, contracts for petroleum products, transporting, and storage; generally supervises from four to ten persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 3 semester hours in petroleum products analysis, 2 in applied chemistry, 1 in chemical safety, and 1 in first aid (10/88).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 2 in applied chemistry, 1 in chemical safety, and 1 in first aid (10/88).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 2 in applied chemistry, 1 in chemical safety, and 1 in first aid (10/88).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 3 in technical writing, 3 in human relations, 2 in applied chemistry, 2 in industrial safety, 1 in chemical safety, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/88).

MOS-77W-001

WATER TREATMENT SPECIALIST

77W10
77W20
77W30
77W40

Exhibit Dates: 3/86–Present.

Career Management Field: 77 (Petroleum and Water).

Description

Summary: Supervises or performs installation, operation, and maintenance of water supply and treatment equipment and systems. *Skill Level 10:* Assists in water reconnaissance and set-up, operation, and maintenance of water points; assists in site preparations, set-up, operation, troubleshooting, and maintenance of water purification equipment and storage facilities; operates and maintains equipment used in production of potable water in field locations; performs water quality analysis tests. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs, operates, and maintains water supply equipment and systems; provides technical guidance to subordinate personnel; conducts water reconnaissance; develops water sources and water points and analyzes both raw and treated water; supervises operation of water purification equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation, operation, and maintenance of water supply and treatment systems; provides direct supervision to individual water team functions; inspects operational condition of equipment and systems; prepares reports incident to the operation and maintenance of water supply systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; develops and supervises operation of area water supply and treatment plan; directs water reconnaissance and water point development for divisional areas; manages operation and insures quality control of water supply and purification activities.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in waste treatment. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification (10/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in waste treatment, 3 in water and sewage facility operation, and 3 in utility plumbing. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification and 3 in water supply (10/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in waste treatment, 3 in utility plumbing, and 6 in water and sewage facility operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, and 3 in personnel supervision (10/88).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in waste treatment, 3 in utility plumbing, and 12 in water and sewage facility operation. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/88).

MOS-79D-001

REENLISTMENT NCO
(CAREER COUNSELOR)

79D30
79D40
79D50

Exhibit Dates: 3/78–Present.

Career Management Field: 79 (Recruitment and Retention).

Description

Summary: Counsels military personnel with regard to reenlistment and performs related reenlistment duties. *Skill Level 30:* Contacts, interviews, and advises enlisted personnel about reenlistment prerequisites, options, obligations, opportunities, and benefits; assists in designing individual career plans, using personnel records and data from interview and counseling sessions; relates physical, mental, and moral qualifications of individuals to prescribed standards, and determines if service schooling is needed; processes reenlistment documents; handles related administrative tasks of maintaining publications, compiling data, preparing reports, planning reenlistment ceremonies, and performing follow-ups. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides technical guidance to Skill Level 30 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and evaluates lower skill level personnel; assigns duties; recommends reenlistment policy changes and develops and assesses reenlistment programs.

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in salesmanship and 1 in technical report writing. In the lower-division baccalaureate/associate degree category, 2 semester hours in public speaking, 2 in interview techniques, 1 in educational techniques, 1 in record keeping, and 1 in technical report writing. In the upper-division baccalaureate category, 1 semester hour for field experience in counseling (7/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 2 semester hours in public speaking, 3 in interview techniques, 2 in educational techniques, 1 in record keeping, and 1 in technical report writing. In the upper-division baccalaureate category, 2 semester hours for field experience in counseling and 2 in vocational counseling (7/79).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in public speaking, 3 in interview techniques, 2 in educational techniques, 1 in record keeping, 1 in technical report writing, and 2 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in counseling, 2 in vocational counseling, and 1 in personnel management (7/79).

MOS-81A-001

GENERAL DRAFTSMAN

81A10

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 81A was discontinued and its functions were incorporated into 81B20, Construction Draftsman, 81C10, Cartographer, and 81E10, Illustrator.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 811 (Drafting).

Description

Skill Level 10: Performs general drafting duties; traces drawings, organizational charts and diagrams, posters, and other drafting work; uses mathematics when applicable; utilizes basic drafting tools, instruments, and materials; lay out drawings to scale, applying dimensions, detail, and conventional symbols; letters free hand or with mechanical guides; receives, stores, and manages supplies and other materials.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in basic drafting (12/75).

MOS-81B-001

Construction Draftsman

81B20
81B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Prepares working drawings for the construction field. *Skill Level 20:* Prepares orthographic drawings (shape description only); prepares maps and plots plans from surveyor's notes. NOTE: May have progressed to 81B20 from 81A10 (General Draftsman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans, lays out, and completes working drawings for the construction field; supervises 14 or more personnel engaged in the same activities.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 30 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 8 semester hours in construction drafting, 3 in algebra, 3 in trigonometry, 2 in communication skills, and 2 in personnel supervision (2/75).

MOS-81B-002

Construction Draftsman

81B20

Exhibit Dates: 10/74–2/78.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Skill Level 20: Prepares working drawings for the construction field; prepares orthographic drawings (shape description only); prepares maps and plots plans from surveyor's notes; NOTE: May have progressed to 81B20 from 81A10 (General Draftsman).

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (2/75).

MOS-81B-003

Technical Drafting Specialist

81B10
81B20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 511 (Technical Engineering).

Description

Summary: Drafts detailed working plans for construction of bridges, roads, railroads, piers, buildings, and utilities installation. *Skill Level 10:* Assists in performance of construction or design drafting; prepares drawings and plans of miscellaneous structures and mechanical and electrical devices, using standard drafting equipment; plots profiles for construction of roads, railroads and other construction projects from survey notes or contour maps; prepares charts and graphs to portray various data. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; reviews, modifies, and corrects finished drawings to conform to specifications and assists design officer in modification design of steel, concrete and wood structues.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 30 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 8 semester hours in construction drafting, 3 in algebra, 3 in trigonometry, 2 in communication skills, and 2 in personnel supervision (7/79).

MOS-81C-001

Cartographic Specialist
(Cartographic Draftsman)

81C20
81C30
81C40
81C50

Exhibit Dates: 10/74–2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 811 (Drafting).

Description

Summary: Supervises or performs cartographic drafting activities, compilation or revision of planimetric and topographic maps, or construction of scale models of terrain. *Skill Level 20:* Draws or scribes cultural, topographic, hydrographic, or other features on drawings, transparent overlays, and scribing surfaces for reproduction of maps. NOTE: May have progressed to 81C20 from 81A10 (General Draftsman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; compiles and revises planimetric and topographic maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises cartographic drafting, map compiling, or model-making activities. NOTE: May have progressed to 81C40 from 81C20, 81C30, 81E20 (Illustrator), or 81Q20 (Terrain Intelligence Analyst). *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, coordinates, administers, and supervises activities pertaining to the compiling, preparation, and revision of topographic and hydrographic maps from aerial photographs and other data. NOTE: May have progressed to 81C50 from 81C40 or 81Q20 (Terrain Intelligence Analyst).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 3 in mechanical drawing, and 3 in aerial photographic interpretation (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, and 3 in aerial photographic interpretation (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, 3 in aerial photographic interpretation, and 3 in introduction to management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, 3 in aerial photographic interpretation, 3 in introduction to management, 3 in personnel supervision, and 3 for field experience in management (12/75).

MOS-81C-002

Cartographer

81C10
81C20
81C30
81C40

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), subfield 811 (Cartography).

Description

Summary: Supervises or performs cartographic drafting activities, or compiles or revises planometric and topographic maps. *Skill Level 10:* Draws or scribes cultural, topographic, hydrographic, or other features on drawings, transparent overlays and scribing surfaces for reproduction of maps; compiles and revises planometric and topographic maps; constructs mosaics from aerial photograph; constructs map projections and grids; uses photo interpretation methods for delineating aerial photographs; performs field classification of aerial photographs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; keeps records and requests supplies; makes recommendations to supervisors. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises cartographic laboratory; edits computations, map compilation base, manuscripts, overlays, color proofs, and color separation drawings; makes production recommendation and maintains files; may supervise more than 12 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; determines work priorities; supervises final inspection and editing of maps; plans, coordinates, and administers activities of cartographic laboratory with other units; may supervise more than 30 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, and 3 in aerial photographic interpretation (6/78).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 for field experience in cartography, 3 in aerial photographic interpretation, and credit in human relations on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechnical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 for field experience in cartography, 3 for field experience in management, and 3 in human relations (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 for field experience in cartography, 3 in introduction to management, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management (6/78).

MOS-81E-001

Illustrator

81E20

Exhibit Dates: 10/73–2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 811 (Drafting).

Description

Skill Level 20: Illustrates, drafts, and lays out illustrations for posters, graphs, charts, tests, training aids, and for other purposes; interprets basic materials furnished for final illustration; measures model dimensions; appropriately lays out work; makes illustrations with inks, charcoal, oil paints, water colors, pencils, crayons, and pastels, using drafting instruments and other artist materials; selects appropriate materials and instruments and mixes colors; designs, executes, and prepares freehand and mechanical drawings; mounts and retouches photographs and drawings; prints and letters signs; maintains illustration equipment.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in mechanical drawing, 2 in commercial art, and 2 in principles of illustration, and additional credit on the basis of institutional evaluation (12/75).

MOS-81E-002

Illustrator

81E10

81E20

81E30

Exhibit Dates: 3/77–9/89. (Effective 9/89, MOS 81E was discontinued and its functions were incorporated into MOS 25Q, Graphics Documentation Specialist.)

Career Management Field: 84 (Public Affairs and Audio Visual).

Description

Summary: Designs, drafts, and lays out copy for posters, graphs, charts, tests, training aids, and for other purposes; uses creativity to portray specific productions. *Skill Level 10:* Serves as designer; selects oil paints, water colors, inks, charcoal, pencils, and crayons; selects and mixes colors and shades of colors; makes designs with ink, crayon, pastels, drafting instruments, and other artistic materials; prepares mechanical drawings to illustrate equipment and weapons; mounts photographs with electrical press, dry mounting paper, mounting board, and tacking iron; paints and letters signs; interprets blueprints, sketches, photographs, drawings, charts, technical manuals, and graphs; measures dimension of model, and determines proper method of laying out work and most appropriate manner of presentation; designs and executes freehand drawings of persons, scenic views, still life, and cartoons; retouches drawings and photographs to correct faults and to color reproductions; performs preventive maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; reviews work orders and notes; writes, sketches, or gives oral instructions; reviews completed work for artistic quality and technical accuracy.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in graphics design, 2 in calligraphy, 3 in mechanical drawing, 3 in principles of typography, 3 in development of audio-visual aids, and 3 in cartography applications (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in graphics design, 2 in calligraphy, 3 in mechanical drawing, 3 in principles of typography, 3 in development of audio-visual aids, and 3 in cartography applications (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in graphics design, 2 in calligraphy, 3 in mechanical drawing, 3 in principles of typography, 3 in development of audio-visual aids, 3 in cartography applications, 3 for field experience in management, 3 in technical illustrations, and credit in human relations on the basis of institutional evaluation (5/78).

MOS-81Q-001

Terrain Intelligence Analyst

81Q20

Exhibit Dates: 10/74–2/77. (Effective 3/77, MOS 81Q was discontinued and its functions were incorporated into MOS 81C, Cartographer; in 9/83, the designator 81Q was reestablished–see exhibit MOS-81Q-002.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 811 (Drafting).

Description

Skill Level 20: Compiles, analyzes, and disseminates current and accurate data pertaining to a geographical area or region, including natural terrain features, population and industrial centers, transportation networks, and utility systems, for use in mapping, construction, and other operations; interprets conditions of travel and land use; interprets studies and reports as they relate to terrain and man-made features; coordinates and participates in the preparation of technical and special reports and map overlays; applies engineering techniques in the analysis of aerial photographs and other data; knows the principles of map compilation and interpretation; keeps records and files of completed studies; keeps data current through consultation with pertinent government agencies.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 8 semester hours in land use planning, 6 in aerial photographic interpretation, 3 in geography, 3 in terrain analysis, 3 in cartography, and 1 in geology. In the upper-division baccalaureate category, 8 semester hours in land use planning and 3 in aerial photographic interpretations. In the graduate degree category, 6 semester hours in research techniques in geography (12/75).

MOS-81Q-002

Terrain Analyst

81Q10

81Q20

81Q30

81Q40

Exhibit Dates: 9/83–Present.

Career Management Field: 81 (Topographic Engineering).

Description

Summary: Performs or supervises the performance of terrain analysis activities to include reconnaissance, collection and maintenance of source materials, data extraction, analysis and synthesis, and prediction of terrain and weather effects. *Skill Level 10:* Participates in the collection of data or physical and cultural terrain features; uses stereoscopic and monocular instruments to extract terrain data from remotely sensed imagery and existing topographic products; records analysis results on overlays; adds to geographic data base; employs basic drafting techniques; assists in preparation of manuscripts that accompany maps and charts; reviews terrain descriptions and records findings; assists senior personnel. *Skill Level 20:* Able to perform the duties required for SKill Level 10; provides technical guidance to subordinate personnel; uses various techniques to measure terrain data from remotely sensed imagery and existing topographic products; estimates conditions not available from existing sources; manipulates data and transforms results to product specifications; edits finished manuscripts for completeness and accuracy; uses data base information to predict the effects of weather on terrain; compiles analysis, overlays and narrative for publication as special maps or terrain studies; inspects and edits completed work. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical assistance to subordinate personnel and superiors; supervises and conducts on-the-job training; supervises and maintains administrative, intelligence, and reference files; supervises division level terrain analysis team; advises commanding officer. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises terrain analysis activities in corps or theater Army terrain teams or higher unit level; coordinates collection requirements; plans and coordinates organization, training, and technical operations; relates to numerous other staff elements in the Army.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in physical geography, 3 in aerial photographic interpretation, and 3 in technical communications. In the upper-division baccalaureate category, 3 semester hours in photogrammetry and 3 in geographic field methods (7/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in physical geography, 3 in aerial photographic interpretation, and 3 in technical communications. In the upper-division baccalaureate category, 3 semester hours in photogrammetry, 3 in geographic field methods, 3 in terrain analysis, and 3 in cartography (7/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in physical geography, 3 in aerial photographic interpretation, 3 in technical communications, 3 in project management, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in photogrammetry, 3 in geographic field methods, 3 in terrain analysis, 3 in cartography, and 3 in advanced photogrammetry (7/88).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in photogrammetry, 3 in geographic field methods, 3 in terrain analysis, 3 in cartography, 3 in advanced photogrammetry, 3 for field experience in management, and 3 in management problems (7/88).

MOS-81Z-001

Topographic Engineering Supervisor

81Z50

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), subfield 810 (Topographic Engineering, General).

Description

Skill Level 50: Supervises topographic surveying, cartography, and photolithography activities; serves as first sergeant of a company or as a topographic operations sergeant; assists in topographic planning and control activities; assists in determining requirements and providing program and technical supervision of topographic mapping and other military intelligence programs, including geodetic and topographic surveying activities; assists in command supervision and coordination of map reproduction and topographic map supply programs. NOTE: May have progressed to 81Z50 from 81C40, Cartographer, 82D40, Topographic Surveyor, or 83F40, Photolithographer.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in graphic arts, 3 in record keeping, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, and 6 in printing management. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts), 3 in industrial management, 3 in plant organization, and 6 for field experience in management (6/78).

MOS-82A-001

Rodman and Tapeman

82A10

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 82A was discontinued and its functions were incorporated into 82B20, Construction Surveyor, and 82D10, Topographic Surveyor.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 812 (Surveying).

Description

Skill Level 10: Under supervision, assists topographic and construction survey party personnel in making land surveys and establishing reference points; assists survey party chief by removing minor terrain obstacles, carrying equipment, marking reference points and recording readings; aligns and positions stadia, level rods, and other target markers when directed by hand and/or verbal instructions; locates old and new markers; measures linear distance with tapes and angles of slope with hand level; reads verniers of targets; performs preventive maintenance on pertinent equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in surveying (12/75).

MOS-82B-001

Construction Surveyor

82B20

82B40

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), subfield 511 (Construction Engineering).

Description

Summary: Supervises or establishes relative position of points on earth's surface for use in construction projects. *Skill Level 20:* Reads maps and construction specifications; operates surveying instruments and equipment, such as alidade, plane table, level, transit, and theodolite; employs such instruments as aneroid barometer and compass; records observations and makes minor computations; makes mathematical computations involving use of formulas; determines azimuths and astronomical observations of the sun or polaris; makes measurements and sets appropriate reference points; maintains surveying equipment and instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs survey party personnel; responsible for initial study of construction area; assigns and coordinates work and manages its progress; supervises on-the-job training.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic land surveying (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic and advanced land surveying, 3 in introduction to management, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-82B-002

Construction Surveyor

82B10

82B20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), subfield 511 (Technical Engineering).

Description

Summary: Performs construction surveys to determine relative positions of points on the ground to provide data for construction layout and earthwork. *Skill Level 10:* Serves as construction surveyor; reads maps and places appropriate reference points for construction layout and earthwork; operates surveying instruments and equipment such as tape, alidade, plane table, level, transit and theodolite; employs such instruments as aneroid barometer and compass; records observations and makes minor computations; maintains and adjusts survey instruments and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; directs survey party and works independently while conducting construction surveys; conducts initial reconnaissance of construction area; interprets construction drawings and briefs survey party; directs use of stadia; establishes centerlines for horizontal curves and spirals, and gradelines for vertical curves; responsibilities include surveys for all features of bridges, buildings, sewer lines, roads, airfields and drainage; maintains records of survey party work.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic land surveying (7/79).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic and advanced land surveying and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (7/79).

MOS-82C-001

Artillery Surveyor

82C10

82C20

82C40

Exhibit Dates: 10/73–8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), subfield 172 (Target Acquisition).

Description

Summary: Engages in surveying activities. *Skill Level 10:* Marks survey stations; utilizes range poles and target sets; assists in performance of preventive maintenance on surveying instruments and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as chief of a surveying party; uses basic algebraic and trigonometric skills; uses tape, level, transit, and theodolite to perform surveys; computes azimuths and distances, coordinates, altimetric and trigonometric heights from field data; makes traverse computations;

uses the triangulation method of survey and computations. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises a survey party; reviews survey data.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (2/75).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in algebra and 1 in trigonometry. In the lower-division baccalaureate/associate degree category, 8 semester hours in surveying, 2 in algebra, and 1 in trigonometry (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in algebra and 1 in trigonometry. In the lower-division baccalaureate/associate degree category, 8 semester hours in surveying, 2 in algebra, 1 in trigonometry, 3 in personnel supervision, and 3 in communication skills (2/75).

MOS-82C-002

Field Artillery Surveyor

82C10
82C20
82C30
82C40

Exhibit Dates: 9/76-5/89

Career Management Field: 13 (Field Artillery), subfield 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Engages in surveying activities. *Skill Level 10:* Determines distance between survey stations; marks survey stations; operates and maintains survey equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; applies knowledge of basic algebra, basic geometry, and trigonometric functions and logarithms; computes azimuth and distance, coordinates, altimetric and trigonometric heights, and astronomic azimuths from field data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a survey party; selects starting station and method of survey; reviews survey data for accuracy; supervises maintenance of survey party equipment; instructs in survey procedures and techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates operations of several survey parties; prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos and credit in surveying on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, and 8 in surveying. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, and 8 in surveying (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, 8 in surveying, 2 in communication skills, 2 in human relations, 2 in personnel supervision, and 3 for field experience in management (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, 8 in surveying, 3 in communication skills, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management (4/77).

MOS-82C-003

Field Artillery Surveyor

82C10
82C20
82C30
82C40

Exhibit Dates: 6/89-Present

Career Management Field: 13 (Field Artillery).

Description

Summary: Engages in surveying activities. *Skill Level 10:* Determines distance between survey stations; marks survey stations; performs astronomic observations for determining locations; operates and maintains survey equipment including theodolite, laser-activated infrared distance measuring instrument, PADS inertial system gyroscope unit for locations, and the Backup Computer Systems (BUCS) (Hewlett-Packard Computer) for computations; knows manual computation formulas, equations, procedures, and forms, as well as ephemeris and logarithmic tables. *Skill Level 20:* Able to perform the duties required for Skill Level 10; applies knowledge of basic algebra, basic geometry, and trigonometric functions and logarithms; computes azimuth and distance, coordinates, altimetric, and trigonometric heights, and astronomic azimuths from field data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a survey party; selects starting station and method of survey; reviews survey data for accuracy; supervises maintenance of survey party equipment; instructs in survey procedures and techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates operations of several survey parties; prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and aerial photos, 2 in surveying, 1 in trigonometry, 1 in algebra, 1 in computer operations, and 1 in introduction to astronomy (6/89).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and aerial photos, 8 in surveying, 2 in algebra, 1 in trigonometry, 2 in computer operations, and 1 in introduction to astronomy (6/89).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and aerial photos, 8 in surveying, 2 in algebra, 1 in trigonometry, 2 in computer operations, 1 in introduction to astronomy, 2 in communication skills, and 3 in principles of supervision (6/89).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and aerial photos, 8 in surveying, 2 in algebra, 1 in trigonometry, 2 in computer operations, 1 in introduction to astronomy, 3 in communication skills, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (6/89).

MOS-82D-001

Topographic Surveyor

82D20
82D30
82D40
82D50

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 812 (Surveying).

Description

Summary: Supervises or conducts surveys and establishes relative position of points on earth's surface to provide control data for map making. *Skill Level 20:* Conducts topographic surveys; interprets maps and aerial photographs; operates surveying instruments and equipment such as alidade, plane tables, level, transit, theodolite, compass, and aneroid barometer; shoots routine azimuth shots on stellar bodies; determines exact location and measurements of points, lines, elevations, areas, and contours of earth's surface; records observations, makes minor computations, and prepares diagrams and map overlays for presentation of survey findings; makes mathematical computations involving logarithms and trigonometric principles and standard topographic survey formulas; consolidates and prepares topographic survey reports; inspects, cleans, lubricates, and adjusts surveying instruments and equipment. NOTE: May have progressed to 82D20 from 82A10 (Rodman and Tapeman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; conducts geodetic surveys; operates, uses, and performs preventive maintenance on topographic surveying instruments capable of first order accuracy; sets up, calibrates, and employs such instruments in Wild T-3 and/or T-4 Theodolites, Bamberg Broken Telescope Transit, precise chronometer, and chronograph or oscillograph in combination with astro amplifier and other timing instruments; prepares for and makes all observations for precise determination of azimuth or geodetic position; observes stars for longitude, latitude, and azimuth determination; interprets and records timing data for topographic computers. NOTE: May have progressed to 82D30 from 82D20, 82E20 (Topographic Computer), or 41B20 (Topographic Instrument Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises topographic surveying activities; studies and learns capabilities and limitations of all types of topographic survey equipment and systems; studies astronomical publications, such as star lists and ephemeris; determines composition and operational procedures and techniques of topographic survey parties; determines application of field survey activities to photogrammetric requirements; utilizes organic topographic stereophotogrammetric instruments; prepares records depicting type of survey, type of station, reference points used, and description of terrain; plans training and instructs subordinate personnel in all phases of topographic surveying; prepares and reviews technical, personnel, and administrative reports. NOTE: May have progressed to 82D40 from 82D20, 82D30, 82E20 (Topographic Computer), or 41B20 (Topographic Instrument Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer in a topographic surveying company, assists in planning, coordinating, and supervising all company activities; advises company commander on all personnel matters; provides subordinate supervisors with instructions; conducts training and inspections. NOTE: May have progressed to 82D50 from 82D40, 82E40, (Topographic Computer), or 82B40 (Construction Surveyor).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, and 6 for field experience in surveying (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours for field experience in surveying, 9 semester hours in engineering computations, 3 in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in advanced surveying, 3 in advanced geodetic surveying, 3 in technical writing, 3 in personnel supervision, and 3 in project management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 23 semester hours for field experience in surveying, 12 in engineering computations, 8 in project management, 5 in project layout, 6 in personnel supervision, 6 in advanced surveying, 3 in algebra, 3 in trigonmetry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in advanced geodetic surveying, 3 in technical writing, and 3 in introduction to management (12/75).

MOS-82D-002

TOPOGRAPHIC SURVEYOR

82D10
82D20
82D30
82D40

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), subfield 812 (Surveying).

Description

Summary: Supervises or conducts surveys to provide control data for map making and supervises or performs topographic or geodetic computations. *Skill Level 10:* Records topographic survey data, operates survey instruments, and performs topographic computations; conducts topographic surveys; interprets maps and aerial photographs; records measurements and other field data; computes horizontal distances from taped, electronic, or stadia measurement; computes angular closures and triangulations; computes differences in elevation from trigonometric, altimetry, and differential leveling; computes azimuths from stellar observations and from grid coordinates; employs planetable with alidade, theodolite, level, microwave, infrared, and baseline taping distance measuring equipment; operates programmable electronic calculator. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs geodetic computation and adjustments, and topographic survey observations to extend horizontal and vertical control; employs theodolite, precise levels, altimeter, lasers; makes field checks; obtains data to calibrate instruments; computes and adjusts second order surveys; computes elevation of tidal bench marks from tidal observations data for secondary stations; determines and writes required numbers and types of condition equation used in least squares adjustments; operates and writes programs for programmable electronic calculation; directs and controls personnel when acting as survey party chief. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing the duties of 82D20 or 41B20 (Topographic Instrument Repair Specialist); performs astronomic observations, computes geographic azimuths to verify topographic surveys, or supervises survey section or computing activities in a survey party; calibrates equipment; performs survey reconnaissance, evaluates field data and results obtained; computes geographic positions to include elevation, from observation derived from triangulations, trilateration, traverse and spirit leveling; computes astronomic and la-place azimuth, latitude, and longitude from astronomical observations; computes gravity survey field data and earth tide gravity correction; evaluates and verifies results of all computations; supervises programming of electronic calculators. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises geodetic or topographic surveying party and computing activities of survey operations; plans work schedule; collects relevant data; supervises reconnaissance; plans and arranges for field party support in remote areas; coordinates surveying and computing activities; assigns duties, plans training, and instructs personnel; supervises field survey activities in support of photogrammetric requirements; prepares, reviews, and consolidates technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, and 3 in engineering computations. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations (6/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, 3 in dataprocessing, and 6 for field experience in surveying (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, 3 in engineering computations, and 3 in technical writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in personnel supervision, 6 in engineering computations, 9 for field experience in surveying, 3 in data processing, and 3 in human relations (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, 3 in engineering computations, 3 in technical writing, and 3 in record keeping. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in technical writing, 3 in personnel supervision, 9 in engineering computations, 12 for field experience in surveying, 3 in human relations, 3 in introduction to management, and 3 in data processing. In the upper-division baccalaureate category, 3 semester hours in personnel management and 5 in project layout (6/78).

MOS-82E-001

TOPOGRAPHIC COMPUTER

82E20
82E30
82E40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 82E was discontinued and its functions were incorporated into MOS 82D, Topographic Surveyor.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 812 (Surveying).

Description

Summary: Supervises or performs geodetic or topographic computations. *Skill Level 20:* Performs topographic, computations, such as determining exact positions of points and distances between points under various map construction systems, transforming geographic coordinates to linear distances, and computing taped and stadia traverse and baseline measurements using natural and log functions of angles; studies assembled data compiled from surveyor's notes; determines appropriate algebraic formula and method of computation to be used; makes projection, grid, and triangulation computations by application of geometry to notes from astrological observations;

performs fundamental computations and adjustments for third and lower order triangulation, traverse, vertical control, and special surveying schemes; performs fundamental computations involved in construction of military and geographic grids for maps; performs computations required for third and lower order astronomic azimuth and position observations, and solar observations; performs conversion computations for grid and geographic coordinates. NOTE: May have progressed to 82E20 from 82A10 (Rodman and Tapeman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as geodetic computer; measures time, records, time values by numerical and graphical means, and employs time data in making first order computations; computes azimuth and length of long lines (over 250 miles), and computes transformation of coordinates from one grid zone to another adjacent or more distant zone; performs la-place azimuth computations in addition to all common astronomical computations involving application of spherical trigonometry. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as chief topographic computer or as intelligence sergeant; coordinates surveying and computing activities, and performs related administrative duties; collects, prepares, and distributes material and data on intelligence matters, with special emphasis on intelligence matters peculiar to topographic operations; assigns work to subordinate personnel and conducts briefings.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, and 6 for field experience in engineering (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours for field experience in engineering, 9 in engineering computations, 3 in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, 3 in advanced surveying, 3 in advanced geodetic surveying, 3 in technical writing, 3 in personnel supervision, and 3 in project management (12/75).

MOS-83A-001

PRINTER'S APPRENTICE

83A10

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 83A was discontinued and its functions were incorporated into MOS 83F, Offset Pressman.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

Skill Level 10: Assists in printing operations; installs and removes keybands and paper rollers and threads paper ribbon to monotype machines; operates and maintains multilith, bookbinding, photocopy, and photostat machines; sets up hand and machine cast type and arranges types cuts, spacers, quoins, and liners within chase; assembles and collates materials; cleans ink plates and press rollers; cuts and trims materials to required shapes and sizes; adjusts and sets paper cutting, perforating, drilling, punching, stitching, and folding machines; checks all materials printed for neatness and accuracy.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation (2/75).

MOS-83D-001

PROCESS PHOTOGRAPHER

83D20

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 83D was discontinued and its functions were incorporated into MOS 83E, Photo and Layout Specialist.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

Skill Level 20: Operates a process camera and develops film to produce line, half tone, and continuous tone negatives for offset printing; demonstrates understanding of darkroom chemistry, camera techniques, use of camera controls, proper settings of lens, use of filters, and selection of films. NOTE: May have progressed to 83D20 from 83A10 (Printer's Apprentice), or 83F10 (Offset Pressman).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in process camera operation and 6 for field experience in graphic arts (5/76).

MOS-83E-001

PLATEMAKER

83E20

Exhibit Dates: 10/73–2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

20 Prepares and processes lithographic plates for use in offset printing, performing as a journeyman platemaker; knows procedures for single and multiple layouts, bookwork double burns, multiple-color systems, and register systems; works with presensitized and wipe-on plates. NOTE: May have progressed to 83E20 from 83A10 (Printer's Apprentice), or 83F10 (Offset Pressman).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in platemaking for offset printing and 3 in stripping for offset printing (5/76).

MOS-83E-002

PHOTO AND LAYOUT SPECIALIST

83E10

83E20

Exhibit Dates: 3/77–8/87.

Career Management Field: 81 (Topographic Engineering), subfield 813 (Photolithographer).

Description

Summary: Operates lithographic copy cameras and prepares lithographic negatives and positives, flats, contact prints, color proofs, scribe and peel coats, and offset press plates. *Skill Level 10:* Operates copy cameras, film processors, and densitometers to produce negatives from camera-ready copy; selects correct materials, exposures, and chemicals; uses developer and fixer solutions; washes and dries negatives; operates platemaking equipment; produces rectified aerial prints; performs operator maintenance on photographic and platemaking equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; makes quality checks; performs detailed topographic process photography and lithographic stripping and platemaking.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic photography and 3 in platemaking (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic photography, 3 in platemaking, 3 in stripping for offset printing, and 3 for field experience in process photography (6/78).

MOS-83E-003

PHOTO AND LAYOUT SPECIALIST

83E10

83E20

83E30

Exhibit Dates: 9/87–Present.

Career Management Field: 81 (Topographic Engineering).

Description

Summary: Operates lithographic copy cameras and prepares lithographic negatives and positives, flats, contact prints, color proofs, scribe and peels coat products, and offset press plates. *Skill Level 10:* Operates copy cameras, film processors, and densitometers to produce negatives from camera-ready copy; selects correct materials, exposures, and chemicals; uses developer and fixer solutions; washes and dries negatives; performs stripping and/or platemaking activities; operates platemaking equipment; produces rectified aerial prints; performs operator maintenance on photographic and platemaking equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; makes quality checks; performs detailed topographic process photography and lithographic stripping and platemaking; performs preventive maintenance on automatic film processor; calibrates digital densitometers. *Skill Level 30:* Able to perform the duties required for SKill Level 20; supervises camera, photomechanical, layout and platemaking activities and personnel; assures quality of all operations; trains personnel in photolithographic operations; maintains supply inventory.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in process photography and 3 in platemaking and/or stripping for offset printing (based on institutional evaluation of the individual's experience (7/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in process photography, 3 in platemaking and/or stripping for offset printing (based on institutional evaluation of the individual's experience) and 3 for field experience in process photography (7/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in process photography, 3 in platemaking and/or stripping for offset printing (based on institutional evaluation of the individual's experience), 6 for field experience in process photography, and 3 in personnel supervision (7/88).

MOS-83F-001

Offset Pressman

83F10

83F20

83F40

Exhibit Dates: 10/74–2/77.

Career Management Field: 82 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

Summary: Operates duplicating and offset presses and supervises the operation of a pressroom. *Skill Level 10:* As a pressroom helper, assists in printing operations, including performing preventive maintenance on and operating multilith and photocopying equipment, storing supplies, loading and stacking paper, cleaning work area and equipment. *Skill Level 20:* Operates offset press to print multicolor work on light or heavy paper stock, using feeder, delivery, dampening, and inking assemblies; operates folding machines (16-page unit) and stitching machines; observes safety precautions and trains helpers. *Skill Level 40:* Able to perform the duties required for Skill Level 20; as a pressroom foreman, supervises multilith and offset press operators and bindery activities; schedules work and evaluates supply needs; coordinates pressroom printing and bindery activities; supervises equipment maintenance; explains and demonstrates the operation of lithograph and multilith machines and bindery techniques.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in offset press operation, 6 for field experience in graphic arts, 3 in platemaking, and 2 in ink and color. In the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 for field experience in graphic arts, 3 in platemaking, and 2 in ink and color (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 for field experience in graphic arts, 3 in platemaking, 2 in ink and color, 3 in human relations, 3 in personnel supervision, and 3 in printing management (5/76).

MOS-83F-002

Printing and Bindery Specialist (Photolithographer)

83F10

83F20

83F30

83F40

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), subfield 813 (Photolithographer).

Description

Summary: Operates bindery equipment, offset presses, and duplicating equipment and supervises photolithographic activities. *Skill Level 10:* Performs bindery operations and operates offset presses and duplicators to include servicing, adjusting, mixing of etch solutions, storing supplies, and cleaning work area and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; makes quality checks, detects equipment malfunctions, and demonstrates operation and maintenance procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing the duties of 83F20, 41K20 (Reproduction Equipment Repair Specialist, and 83E20, (Photo and Layout Specialist; supervises lithographic photography and platemaking, offset press and duplicating, and bindery operations in a small lithographic activity; may supervise more than 19 persons. NOTE: May have progressed to 83F30 from 83F20, 83E20, Photo and Layout Specialist, or 41K20, Reproduction Equipment Repair Specialist. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large photolithographic activity; organizes and controls work flow; prepares administrative and operational reports, and determines work and supply requirements; may supervise more than 30 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, and 3 for field experience in bindery operations (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, and 3 for field experience in reproduction operations (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, and 3 in stripping for offset printing. In the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, 3 in stripping for offset printing, 3 in human relations, and 3 in personnel supervision (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, 3 in stripping for offset printing, 3 in human relations, 3 in personnel supervision, 3 in technical report writing, and 3 for field experience in management (6/78).

MOS-83Z-001

Photolithography Chief

83Z40

83Z50

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 83Z was discontinued and its functions were incorporated into 81Z50, Topographic Engineering Supervisor, and into 83F30 and 83F40, Photolithographer.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), subfield 813 (Map Reproduction and Printing).

Description

Summary: Supervises process photography, photocopy, platemaking, and offset press activities. *Skill Level 40:* Able to perform the duties required for Skill Level 20 of MOS 83D (Process Photographer), 83E (Platemaker), or 83F (Offset Pressman); serving as the production manager of a printing plant, supervises photolithography activities; sets work priorities; schedules, routes, and dispatches materials; implements quality control and safety procedures; makes oral and written administrative reports on personnel and activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as first sergeant of a company, supervising as many as 200 persons; assists in planning, coordinating, and supervising all company activities; advises superiors on all personnel matters; holds meetings to disseminate instructions and information to subordinate supervisors; supervises training activities. NOTE: May have progressed to 83Z50 from 83Z40 (Offset Pressman).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 in process camera operation, 6 for field experience in graphic arts, 3 in platemaking, 3 in stripping for offset plates, 3 in ink and color, 3 in record keeping, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, and 6 in printing management. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts) (5/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts), 3 in industrial management, 3 in plant organization, and 6 for field experience in management (5/76).

MOS-84B-001

STILL PHOTOGRAPHER

84B20
84B40

Exhibit Dates: 10/73–2/77.

Career Management Field: 72 (Communications and Audio Visual), subfield 722 (Audio Visual).

Description

Summary: Takes still photographs for news releases, publications, and indentification, and for medical training, historical, and scenic purposes; performs preventive maintenance on photographic equipment; takes photos from moving and fixed positions; uses aerial cameras. *Skill Level 20:* Arranges subject matter for proper photographic emphasis; selects appropriate camera, film, and accessory equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises still photographers and motion picture cameramen; determines the quantity, types, and technical details of photographs to be taken; establishes work priorities and schedules; critiques completed work, advising on technical and artistic deficiencies; corrects faulty work practices of subordinates by instruction and demonstration of proper techniques; prepares technical and administrative reports. NOTE: May have progressed to 84B40 from 84B20 or 84C20 (Motion Picture Photographer).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in still photography (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in still photography. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 3 in personnel management, and 3 in technical writing (2/75).

MOS-84B-002

STILL PHOTOGRAPHIC SPECIALIST

84B10
84B20
84B30
84B40

Exhibit Dates: 3/77–9/89. (Effective 9/89, MOS 84B was discontinued and its functions were incorporated into MOS 25S, Still Documentation Specialist, and MOS 25Z, Visual Information Chief.)

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Takes ground and aerial still photographs; develops black and white and color film. *Skill Level 10:* Takes still photographs and processes prints in black and white and color with single-lens reflex, twin-lens reflex, and large formate cameras; takes photos for news releases, publications, identification, medical, historical, and other military purposes; performs preventive maintenance on equipment; understands proper photographic composition and is able to select the appropriate equipment, film, and accessories to obtain the desired results; processes motion picture film. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises still photographers and motion picture cameramen; establishes work priorities and schedules; critiques completed work and advises on technical and artistic deficiencies; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises from 10-24 lower skill level personnel; supervises the operation of a photographic laboratory; provides technical guidance to lower skill level personnel; requisitions supplies; prepares technical and administrative reports and records. NOTE: May have progressed to 84B30 from 84B20 or 84C20 (Motion Picture Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; able to supervise personnel performing the duties of 84B30 or 81E30 (Illustrator); serves as a mid-level manager, supervising from 12 to over 30 personnel in a photographic laboratory; assists superiors on personnel and operational matters; conducts on-the-job training and inspection of facilities. NOTE: May have progressed to 84B40 from 84B30 or 81E30 (Illustrator).

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in still photography, 3 in black and white darkroom procedures, 3 in color darkroom procedures, and 3 in motion picture processing. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 3 in black and white darkroom procedures, 3 in color darkroom procedures, and 3 in motion picture processing (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 4 in black and white darkroom procedures, 4 in color darkroom procedures, 3 in motion picture processing, and 3 in human relations (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 6 in black and white darkroom procedures, 6 in color darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, and 3 for technical electives (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 6 in black and white darkroom procedures, 6 in color darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 for technical electives. In the upper-division baccalaureate category, 3 semester hours in industrial arts education, 3 for field experience in management, and 3 in personnel management (5/78).

MOS-84C-001

MOTION PICTURE PHOTOGRAPHER

84C20

Exhibit Dates: 10/73–2/77.

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 20: Takes aerial photographs and pictures; performs preventive maintenance on photographic equipment; operates equipment and coordinates the shooting of documentary, training, or newsreel films.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in film production, 3 in basic photography, and 3 in cinematic techniques (5/76).

MOS-84C-002

MOTION PICTURE SPECIALIST

84C10
84C20

Exhibit Dates: 3/77–9/89. (Effective 9/89, MOS 84C was discontinued and its functions were incorporated into MOS 25P, Visual Information/Audio Documentation Systems Specialist.)

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Takes aerial photographs and motion pictures; operates and performs preventive maintenance on motion picture sound and magnetic tape recording equipment. *Skill Level 10:* Plans, set up, and operates movie equipment in a cinematography production (ground or aerial), under normal or adverse conditions; determines sound requirements and operates audio equipment; coordinates the shooting of documentary, training, or newsreel films. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; keeps production, supply, and maintenance records.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic cinematography, 3 in advanced cinematography, 3 in cinematic techniques, 3 in audio techniques, and 3 in audio recording (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic cinematography, 3 in advanced cinematography, 3 in cinematic techniques, 3 in audio techniques, 3 in audio recording, and 3 in record keeping (5/78).

MOS-84D-001

AUDIO SPECIALIST

84D20

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 84D was discontinued and its functions were incorporated into MOS 84C, Motion Picture Specialist, and MOS 84F, Audio/TV Specialist.)

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 20: Performs preventive and routine maintenance on audio equipment utilized in radio, television, and motion picture productions; determines the sound needs for a given situation; sets up and operates the necessary audio equipment.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in sound techniques, 3 in sound recording, and 3 in radio production (5/76).

MOS-84E-001

TV CAMERAMAN

84E20

84E40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 84E was discontinued and its functions were incorporated into **MOS 84F**, Audio/TV Specialist.)

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Skill Level 20: Operates and performs preventive maintenance on television cameras; sets up camera and associated equipment; knows basic video techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a senior television cameraman; supervises 3 to 6 television cameramen; coordinates work with other television specialists and directorial personnel; instructs camera crew in proper camera techniques; evaluates technical, artistic, and mechanical composition of camera work.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in studio techniques and 6 for a television workshop (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in studio techniques, 6 for a television workshop, and 3 in human relations (5/76).

MOS-84F-001

TV PRODUCTION SPECIALIST

84F20

84F40

Exhibit Dates: 10/73-2/77.

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Summary: Serves as producer or director in the preparation and production of live and recorded television presentations. *Skill Level 20:* Is responsible for preproduction planning, preparation, and coordination in the production of television programs, including scripting, rewriting, stage and lighting design, and collection of production materials. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises production personnel engaged in stage property, makeup, and other production and related technical activities; conducts rehearsals, telecasts, and recording sessions; views recordings to evaluate quality; assists in editing; prepares detailed reports on production activities. NOTE: May have progressed to 84F40 from 84F20, 84E40 (TV Cameraman), or 84D20 (Audio Specialist).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in television production, 3 in writing for instructional television, 3 in set design and lighting for television, and 3 for a television workshop (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in television production, 3 in writing for instructional television, 3 in set design and lighting for television, 3 for a television workshop, 3 in television directing, 3 in human relations, and 3 in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in advanced television production and 3 in advanced television directing (5/76).

MOS-84F-002

AUDIO/TV SPECIALIST

84F10

84F20

84F30

Exhibit Dates: 3/77-9/89. (Effective 9/89, MOS 84F was discontinued and its functions were incorporated into MOS 25P, Visual Information/Audio Documentation Systems Specialist.)

Career Management Field: 84 (Public Affairs and Audio Visual).

Description

Summary: Serves as producer in the preparation and production of live and recorded television presentations; operates and performs maintenance on equipment. *Skill Level 10:* Is responsible for preproduction planning, preparation, and coordination in the production of television programs, including scripting, rewriting, stage and lighting design, and collection of production materials. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises production personnel engaged in stage property, makeup, and other production and related technical activities; conducts rehearsals, telecasts, and recording sessions; reviews recordings to evaluate quality; assists in editing; prepares detailed reports on production activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, and 3 in technical aspects of broadcasting (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, 3 in technical aspects of broadcasting, and 3 for field experience in broadcasting (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semeter hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, 3 in technical aspects of broadcasting, 3 in human relations, 3 for field experience in broadcasting, 3 in television production, 3 in personnel supervision, and 3 in broadcast management. In the upper-division baccalaureate category, 3 semester hours in advanced television production and 3 in advanced television directing (5/78).

MOS-84G-001

PHOTOGRAPHIC LABORATORY SPECIALIST

84G10

84G20

84G40

84G50

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 84G was discontinued and its functions were incorporated into **MOS 84B**, Still Photographic Specialist, and **MOS 84Z**, Public Affairs/Audio Visual Chief.)

Career Management Field: 72 (Telecommunications and Audio Visual), subfield 722 (Audio Visual).

Description

Summary: Develops black and white and color film and does contact and projection printing. *Skill Level 10:* Serves as a photographic laboratory helper-trainee, assisting Skill Level 20 personnel in the development of film by setting up and cleaning equipment, monitoring solution temperature, and handling film as instructed under close supervision. *Skill Level 20:* Able to perform the duties required for Skill Level 10; processes black and white and color film, using a knowledge of photo-chemistry preparation, negative reading, paper selection, and cataloguing of negatives; processes motion picture film. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the operation of a photographic laboratory consisting of 5 to 25 subordinate photographic laboratory specialists; prepares work schedules and assigns laboratory tasks on a rotation basis to assure that subordinates obtain experience in all phases of photographic processing; evaluates work techniques, advises on technical problems, and conducts on-the-job training; requisitions supplies; prepares technical and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company; assists in planning, coordinating, and supervising all activities for a group of approximately 200 enlisted personnel; advises superiors on all personnel and operations matters; directs administrative activities; holds meetings with subordinate noncommissioned officers to provide them instructions and guidance; directs training; makes inspections.

Recommendation, Skill Level 10

Credit is not recommended because of the limited technical nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in black and white processing and 3 in color processing. In the lower-division baccalaureate/associate degree category, 3 semester hours in black and white processing, 3 in color processing, 3 in advanced color processing, 3 in darkroom procedures, and 3 in motion picture processing. In the upper-division baccalaureate category, 3 semester hours in color processing techniques and 3 for field experience in photography (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in black and white processing and 3 in color processing. In the lower-division baccalaureate/associate degree category, 3 semester hours in black and white processing, 3 in color processing, 3 in advanced color precessing, 3 in darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 6 for technical electives. In the upper-division baccalaureate category, 3 semester hours in color processing techniques, 6 for field experience in photography, and 3 in motion picture editing (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in color processing techniques, 6 for field experience in photography, 3 in motion picture editing, 3 in introduction to management, 3 for field experience in management, and 3 in industrial arts education (photography) (6/76).

MOS-84T-001

TV/RADIO BROADCAST OPERATIONS CHIEF

84T40

Exhibit Dates: 3/77-9/89. (Effective 9/89, MOS 84T was discontinued and its functions were incorporated into MOS 25Z, Visual Information Chief.)

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Skill Level 40: Supervises technical operations, production activities, and equipment maintenance; plans, directs, and participates in surveys for site locations of radio and TV stations, rebroadcasting, distribution, or relay systems; plans, directs, and conducts preproduction conferences with proponent agency, staff, and technical advisory personnel; provides TV production advice; prepares technical and administrative reports. NOTE: May have progressed to 84T40 from 84F30, Audio/TV Specialist or 26T30, Radio/TV Systems Technician.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast systems design, 3 in technical writing, and 3 in program development. In the upper-division baccalaureate category, 3 semester hours in personnel management, 6 in broadcast management, 6 for field experience in management, and additional credit in broadcast management, broadcast production, directing, and technical aspects of broadcasting on the basis of institutional evaluation (5/78).

MOS-84Z-001

PUBLIC AFFAIRS/AUDIO VISUAL CHIEF

84Z50

Exhibit Dates: 3/77-3/89. (Effective 3/89, MOS 84Z was discontinued and its duties were incorporated into MOS 46Z, Public Affairs Chief.)

Career Management Field: 84 (Public Affairs and Audio Visual).

Description

Skill Level 50: Supervises photographic operations, television equipment repair, radio broadcasting, Army command and public affairs programs, and television production; supervises, coordinates, and provides technical assistance in the operation of public affairs and audio-visual activities; determines equipment and personnel requirements for an activity; serves as liaison among staff, maintenance, and operating personnel; prepares administrative and technical reports; assigns duties. NOTE: May have progressed to 84Z50 from 71Q40, Journalist, 71R40, Broadcast Journalist, 84B40, Still Photographic Specialist, or 84T40, TV/Radio Broadcast Operations Chief.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 for field experience in management, 3 in personnel management, 3 in public relations, 3 in broadcast management, 3 in industrial managment, and 3 in industrial relations; if the duty assignment was broadcast supervisor, 3 additional semester hours in broadcast management; if the duty assignment was public affairs supervisor, 3 semester hours in public management (5/78).

MOS-88H-001

CARGO SPECIALIST

88H10

88H20

88H30

88H40

Exhibit Dates: 7/86-Present.

Career Management Field: 88 (Transportation).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 10:* Serves as cargo handler and checker; loads, unloads, checks, and tallies cargo; uses slings, nets, hooks, pallets, spreaders, lifting bars, winches, hoists, and other cargo-handling equipment; employs safety procedures; signals winchman, hoistman, or cargo equipment operator where to move cargo. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as hatch foreman or senior cargo checker and enforces safety practices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized terminal operation work force by planning and organizing work schedules, assigning duties, and designating work groups (hatch gangs) as required for each operation; advises on handling of all types of cargo and demonstrates techniques and use of equipment; coordinates heavy lift equipment and special terminal operations gear; prepares technical, personnel, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large terminal work force normally consisting of 56 or more subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 2 in report writing, 2 in cargo planning, 2 in cargo processing and documentation, and 1 in transportation of dangerous materiais (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in records administration, 3 in report writing, 3 for field experience in management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials (5/76).

MOS-88K-001

WATERCRAFT OPERATOR

88K10

88K20

88K30

88K40

Exhibit Dates: 7/86-Present.

Career Management Field: 88 (Transportation).

Description

Summary: Operates and performs deck duties on Army watercraft and, in some instances, amphibians. *Skill Level 10:* Performs general seaman duties; under close supervision, assists in docking, unloading, and anchoring watercraft; assists in loading and unloading cargo; stands lookout watch; assists in inspecting, servicing, and operating fire equipment, lifeboats, and rafts; performs preventive maintenance on and inspections of Army watercraft; maneuvers Army watercraft; uses simple sounding devices, aids to navigation, steering compass courses, and running lights; communicates with stations ashore and afloat, using accepted communications equipment and techniques; applies basic water safety and rescue procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and dispatches Army watercraft and, under close supervision, allocates and operates Army watercraft for a specific mission in accordance with navigational and communications rules and principles; keeps records of watercraft status and movements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of watercraft and small boat crew; knows capabilities and limitations of Army watercraft and assigns and dispatches them accordingly; provides berthing and unberthing services to large or oceangoing vessels; computes fuel requirements and plans maintenance; knows procedures for abandoning ship, including sea rescue and lifeboat operations; supervises embarking and debarking of troops; instructs subordinate personnel in watercraft operational practices, procedures, and techniques. NOTE: Some Skill Level 30 personnel are trained as operators of large amphibian vehicles and can supervise their operation. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the operations of a large boat crew or assists in controlling Army watercraft operations; coordinates work activities; reviews, consolidates, and prepares technical, personnel, and administrative reports; supervises up to 20 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in seamanship, 1 in piloting and navigation, 1 in communications, and 1 in safety (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, and 1 in safety (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation and 3 in human relations (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation, 3 in human relations, 3 in marine management, 3 for field experience in management, and 3 in personnel supervision (6/76).

MOS-88L-001

WATERCRAFT ENGINEER

88L10
88L20
88L30
88L40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Supervises or performs maintenance on propulsion systems and auxiliary equipment of marine vessels, and in some instances, on amphibians. *Skill Level 10:* Under close supervision, performs maintenance on Army watercraft; applies safety precautions pertinent to starting, stopping, and operating main diesel engines, electrical machinery, and other auxiliary components installed on board Army watercraft; reads and records pressures and temperatures to insure safe and efficient operation of machinery; uses hand and power tools; assists in performing preventive maintenance inspections and correcting maintenance shortcomings and deficiencies on watercraft. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; computes fuel consumption, tank capacities, and pumping rates for loading and discharging; maintains a working knowledge of damage control, fire prevention, and federal, state, and local environmental pollution control regulations; adjusts or troubleshoots malfunctioning diesel engines, electrical machinery, and auxiliary equipment; makes emergency repairs or takes emergency damage control measures at sea; performs soldering and pipefitting; uses precision tools; interprets technical publications; replaces engine and auxiliary equipment subassemblies; performs preventive maintenance inspections on watercraft; in some instances, may also perform these duties on amphibians. *Skill Level 30:* Able to perform the duties required for Skill Level 20; evaluates job performance of subordinate enginemen; maintains a reference library of technical manuals and service bulletins; interprets technical blueprints; troubleshoots, repairs, purges, recharges, and tests watercraft refrigeration systems; uses special test equipment and instruments in repairing diesel engines and accessory items; assists supervisor in engineering maintenance functions; plans and organizes work schedules and assigns duties to subordinates; instructs subordinates in work production and quality control procedures; is capable of supervising a medium-sized watercraft maintenance facility; establishes physical layout of work site and ensures maintenance of an efficient, clean, and safe work environment; requisitions, issues, stores, and maintains records of supplies and equipment; coordinates work activities with other maintenance elements; recommends changes to technical publications as required; in some instances, may also perform these duties on amphibians. *Skill Level 40:* Able to perform the duties required for Skill Level 30; sueprvises a large marine maintenance facility; performs managerial duties as indicated in previous skill levels; estimates and prepares preliminary budget forecasts of supply and maintenance activities; allocates funds and resources for the efficient operation of supply and maintenance activities; establishes operating procedures on the basis of directives and information received from superiors.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in internal-combustion engine principles, 1 in internal-combustion engine operation, and 1 in shipboard operations (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 4 in internal-combustion engine operation, and 5 in shipboard operations, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, and 3 in human relations, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, 3 in human relations, 3 in introduction to management, 3 in personnel supervision, and 3 for field experience in management, and additional credit in amphibian maintenance on the basis of institutional evaluation (6/76).

MOS-88M-001

MOTOR TRANSPORT OPERATOR

88M10
88M20
88M30
88M40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Operates wheel vehicles to transport personnel and cargo. *Skill Level 10:* Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; knows safety rules and practices; insures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher; depending on the type of unit to which assigned, may also perform the same duties for tractors, semitrailers, tank transporters, and other vehicles with a capacity of more than five tons. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small motor transport activity; participates in convoy operations and organization, including planning, the establishment of control measures, and the observance of civil laws and pertinent military regulations; reviews and prepares operations reports; determines the number of vehicles required for a given operation; schedules route and controls movements of motor transport equipment; may perform or direct driver testing functions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large motor transport activity.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 3 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 4 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck); if the duty assignment was heavy vehicle driver (tractor-trailer), 4 additional semester hours in motor vehicle operation. In the lower-division baccalaureate/associate degree category, 6 semester hours in motor vehicle transportation management and 3 in motor maintenance management; if the duty assignment was driver test sergeant, 3 additional semester hours for an internship in education (driver training) (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 6 semester hours in motor transportation management, 3 in motor maintenance management, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management; if the duty assignment was driver test sergeant, 3 additional semester hours for an internship in education (driver training) (5/76).

MOS-88N-001

TRAFFIC MANAGEMENT COORDINATOR

88N10
88N20
88N30
88N40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Coordinates the departure and arrival of freight and personnel by air, rail, highway, and water. *Skill Level 10:* Performs clerical duties associated with the logistics of freight and personnel movements; issues government and civilian shipping documents, including freight bills, bills of lading, and freight manifest sheets; assists military members in the preparation of travel itineraries, personal property shipping documents, and passenger movement forms. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-scale freight movement office; plans, directs, and controls operation of subordinate personnel; assists in the development of future transportation plans; supervises freight reconsignment, maintains liaison with military and civilian transportation facilities; reviews, consolidates and prepares reports covering transportation movement operations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises personnel at a large-scale freight movement office; when requested, reviews recommendations concerning facilities and site selection for depots, terminals, and railheads; advises superiors on present and future transportation capabilities and technical problems.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in traffic and transportation or physical distribution management (5/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in traffic and transportation or in physical distribution management, 3 in human relations, 3 in personnel supervision and additional credit in traffic and transportation or in physical distribution management on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and additional credit in traffic and transportation or in physical distribution management on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management (5/76).

MOS-88P-001

LOCOMOTIVE REPAIRER

88P10
88P20
88P30
88P40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Supervises or enforces mainenance on nonelectric sections of locomotives. *Skill Level 10:* Inspects locomotives to diagnose malfunctioning parts; accompanies locomotive operator on test runs and observes functions of locomotives; cleans and lubricates components as required; performs technical inspections on locomotives and auxiliary equipment to insure proper maintenance has been performed; interprets technical drawings and sketches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs initial and final inspections on locomotives scheduled for maintenance; supervises and instructs repairmen in methods and techniques of repairs; enforces safety practices; prepares technical reports on locomotives and estimates personnel, supplies, parts, and equipment necessary to restore locomotives, tanks, and tank cars to efficient operating condition; plans, organizes, and coordinates work activity of subordinates engaged in maintaining, inspecting, and repairing locomotives and auxiliary equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of MOS 88P or 88S (Locomotive Electrician); supervises or controls repairs of mechanical and electrical portions of locomotives.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance, 3 in personnel supervision, and 3 in industrial management (5/76).

MOS-88Q-001

RAILWAY CAR REPAIRER

88Q10
88Q20
88Q30
88Q40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Supervises or performs maintenance on railway passenger, freight, and hospital cars. *Skill Level 10:* Dismantles and reassembles major components and auxiliary equipment; examines wheels, axles, journals, journal bearings, and draft gear for structural and safety defects; inspects cars for defects which interfere with proper loading and makes necessary repairs; repairs handbrake mechanisms, gear ratchets, linkage, center sills, and body bolsters; straightens bent sections of bodies; paints and stencils railway cars; performs technical inspection of railway cars to insure proper maintenance; interprets technical blueprints and sketches; assists in salvage and rehabilitation of cars. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; inspects railway cars prior and subsequent to maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of MOS 88Q or 88R (Airbrake Repairer); plans, organizes, coordinates, and supervises work activity of a railway car section team; instructs repairmen in proper maintenance techniques and safety procedures; calculates personnel and material requirements for specific repair work; maintains records and prepares detailed technical reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large repair facility (normally, a minimum of 39 lower skill level personnel) involved in repairing railway cars and airbrake systems of locomotives and cars.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in practices and procedures of railroad car repair (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 1 in technical writing (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in technical writing (5/76).

MOS-88R-001

AIRBRAKE REPAIRER

88R10

88R20

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Inspects, services, and repairs airbrake systems of locomotives and cars. *Skill Level 10:* Inspects airbrake components and system for defects; dismantles, cleans, and lubricates components; removes and replaces defective parts; tests and adjusts components for maximum efficiency of airbrake system; makes appropriate entries in parts and log books; prepares written reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

MOS-88S-001

LOCOMOTIVE ELECTRICIAN

88S10

88S20

88S30

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Supervises or performs repairs on electrical portions of diesel-electric systems of diesel-electric locomotives. *Skill Level 10:* Inspects, dismounts, dismantles, cleans, repairs, and replaces defective components of electrical systems of diesel-electric locomotives, including generators, traction motors, auxiliary motors, reversers, contactors, relays, and regulators; load-tests repaired electrical components; restores commutator surfaces, rebands armatures, and repairs armature bearings; calibrates electric measuring instruments; reads schematic wiring diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized activity involved in repairing electrical portions of electrical systems of diesel-electric locomotives; interprets complex wiring diagrams; prepares shop layouts; develops plans for utilization of personnel, materials, and equipment; conducts on-the-job training; requisitions tools, parts and supplies.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in repair of electrical systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in shop management, and 3 in human relations (5/76).

MOS-88T-001

RAILWAY SECTION REPAIRER

88T10

88T20

88T30

88T40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Performs and/or supervises maintenance, repair, and clean-up of railway tracks, roadbeds, switches, and other railway facilities. *Skill Level 10:* Performs inspection, repair, clean-up, and maintenance of railway right-of-way and adjoining structures including switches, signals, degree of elevation, track curvature, and tie spacing; controls the issuing of repair and maintenance equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines need for repair and construction equipment and arranges for movement to job site; conducts on-the-job training in minor repairs, emphasizing safety to both train and work repair crews; supervises limited size maintenance, repair, and clean-up crews. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized crews (normally 29-38 subordinate personnel or 2 section gangs); adjusts work assignments to best reflect capabilities of subordinate personnel; prepares reports relating to the maintenance, repairs, and clean-up of railway right-of-way facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the maintenance, repair, and clean-up activities of a large-scale railway facility, normally consisting of more than 39 subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in railroad operations (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in railroad operations (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 6 for field experience in management (5/76).

MOS-88U-001

LOCOMOTIVE OPERATOR

88U10

88U20

88U30

88U40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Operates steam, electric, and diesel-electric locomotives and related equipment. *Skill Level 10:* Operates steam, electric, and diesel-electric locomotives and related equipment; fires and sustains steam pressure by either hand or stoker firing of coal-burning locomotives; and assists in performing the duties required for Skill Level 20. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets specific operating instructions; efficiently operates locomotives and trains, observing appropriate gauges and meters; lubricates moving parts of locomotive; interprets and executes operating instructions; inspects equipment for proper operating condition; interprets train orders; compiles performance and delay reports for each trip; submits locomotive inspection reports, noting needed corrective action for defects. *Skill Level 30:* Able to perform the duties required for Skill Level 20; reviews operation and inspection reports; investigates schedule delays, accidents, and unusual operating incidents and recommends corrective action; assigns specific duties to locomotive operators and other crewmen, and monitors performance of these personnel; provides on-the-job training; enforces safety procedures; coordinates maintenance of locomotives; prepares technical, personnel, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of steam, electric, and diesel-electric locomotives and related equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in steam, electric, and diesel-electric mechanics, 3 in operation and maintenance of locomotive engines, and 3 in railway safety (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in steam, electric, and diesel-electric mechanics, 3 in operation and maintenance of locomotive engines, and 3 in railway safety (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in operation and maintenance of locomotive engines, 3 in steam, electric, and diesel mechanics, and 3 in railway safety. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in report writing, and 1 in safety (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 3 in report writing, and 1 in safety (5/76).

MOS-88V-001

TRAIN CREW MEMBER

88V10

88V20

88V30

88V40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Serves as yardmaster, conductor, or brakeman in the make-up and movement of railway cars and trains. *Skill Level 10:* Performs as a brakeman; receives orders for switching and performs car coupling and uncoupling operations; applies safety rules; gives and interprets railway signals for train control and operation; places placarded cars in trains and insures that cars are properly loaded and lashed for safe handling; prepares and interprets train orders; prepares reports and forms for yard and railway operations; inspects rolling stock to determine operating condition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a conductor; supervises the operation of a railroad train and coordinates train movements; reviews and interprets train orders and time tables; instructs and supervises enginemen and brakemen in connecting and disconnecting trains and cars and switching cars to sidings or spurs. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as an assistant yardmaster; supervises and trains personnel in railway yard operation, including the handling, classification, and switching of trains and cars; maintains record of daily movement of railway cars; assures adherence to railway safety procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports covering railway yard activities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises railway yard operations; normally supervises two Skill Level 30 yardmasters.

Recommendation, Skill Level 10

In the vocational certificate category, 7 semester hours in the make-up and movement of railway cars and trains (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 6 for field experience in management (5/76).

MOS-88W-001

RAILWAY MOVEMENT COORDINATOR

88W10

88W20

88W30

88W40

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Summary: Supervises train dispatching or operates railway stations, railway signals and switches, and assists in control and coordination of train movements. *Skill Level 10:* Accounts for car and train movements by compiling records reflecting locations of all rolling stock; keeps records of arriving and departing trains; computes operational and statistical reports on traffic volume, demurrage, expediting, and train movements; requisitions cars, supervises loading, compiles and checks bills of lading (waybills), and seals cars; receives requisitions for empty cars and directs movement to loading areas; establishes liaison with other operating personnel and civilian carrier operating personnel to insure safe and prompt handling of freight. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises receipt and transmission of messages relating to train movements; reviews transit time; coordinates and arranges for train crews; establishes close liaison with representatives of civilian and military railroads; supervises on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides staff supervision to lower-grade personnel in railway operating activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in traffic and transporiation or in physical distribution management (5/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management, 3 in personnel supervision, and 3 in human relations (5/76).

MOS-88X-001

RAILWAY SENIOR SERGEANT

88Z50

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Skill Level 50: Supervises and coordinates maintenance-of-way and maintenance of equipment and railway operations, including the overall supervision of 88P40 (Locomotive Repairer), 88Q40 (Railway Car Repairer), 88T40 (Railway Section Repairer), 88U40 (Locomotive Operator), 88V40 (Train Crew Member), and 88W40 (Railway Movement Coordinator) personnel; advises superiors on all matters relating to operations, maintenance, and repair; monitors and controls railway passenger and freight traffic; prepares operational reports, training material, and programs.

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 3 semester hours in records administration, 3 in personnel management, 3 in human relations, 3 for field experience in management, 3 in maintenance management, 3 in introduction to management, and 6 in transportation management (5/76).

MOS-88Y-001

MARINE SENIOR SERGEANT

88Y50

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Skill Level 50: Is a mid-level manager responsible for approximately 150 subordinate personnel engaged in watercraft operation and maintenance; assists in planning, implementing, and coordinating administrative activities, operations, and training programs; prepares, edits, and consolidates reports, records, plans, and training materials. NOTE: May have progressed to 88Y50 from 88K40 (Watercraft Operator) or 88L40 (Watercraft Engineer).

Recommendation, Skill Level 50

In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 in records administration; if the duty assignment was chief instructor, 3 additional semester hours for an internship in education (6/76).

MOS-88Z-001

TRANSPORTATION SENIOR SERGEANT

88Z50

Exhibit Dates: 7/86–Present.

Career Management Field: 88 (Transportation).

Description

Skill Level 50: Supervises operation and control of movement of personnel and cargo by air, rail, motor transport, and water; prepares tactical plans and training material; evaluates transportation operations; assists in planning, coordinating, and supervising all supporting activities; prepares studies, routine and special reports, and records on transportation operations; supervises personnel and technical operations. NOTE: May have progressed to 88Z50 from 88M40 (Motor Transport Operator), 88N40 (Traffic Management Coordinator), or 88H40 (Cargo Specialist).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in transportation operations. In the lower-division baccalaureate/associate degree category, 9 semester hours in transportation operations, 3 in records administration, and 3 in report writing. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 for field experience in education (5/76).

MOS-91A-001

Medical Corpsman

91A10

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 91A was discontinued and its functions were incorporated into 91B10, Medical Specialist. In 9/84, MOS 91A was reinstituted; see exhibit MOS-91A-002.)

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Skill Level 10: Performs basic medical care and treatment; assists in setting up and moving emergency and temporary medical care facilities; performs duties related to emergency care and transportation of patients; performs general bedside nursing activities and procedures, including patient hygiene, collection and labeling of specimens, measurement and recording of patient vital signs, administration of treatments and simple medications as directed, and supervised physical and occupational therapeutic functions; assists in surgical procedures under supervision.

Recommendation, Skill Level 10

In the vocational certificate category, in the lower-division baccalaureate/associate degree category, or in the upper-division baccalaureate category, 7 semester hours in fundamentals of nursing, 4 in emergency nursing procedures, 1 in communicable disease nursing, 1 in health science, and 1 in surgical nursing procedures (2/75).

MOS-91A-002

Medical Specialist

91A10

91A20

Exhibit Dates: 9/84–Present.

Career Management Field: 91 (Medical).

Description

Summary: Administers emergency medical treatment to battlefield casualties; assists with out-patient care and treatment; assists with in-patient care and treatment under supervision of physician, nurse, physician's assistant or noncommissioned officer (NCO). *Skill Level 10:* Administers emergency treatment in the field; assists with out-patient and in-patient care; maintains health records and clinical files; assists with nursing care of patients including medical examinations; takes and records temperature, pulse, respiration, and blood pressure; applies and removes surgical, wound, or skin dressings; collects and prepares specimens for analysis; assists in clinic and dispensary; performs routine admission tests; administers immunizations; assists with treatment of patients with common diseases; provides emergency medical care; surveys and sorts casualties; determines requirements for and administers emergency treatment; assists with triage of mass casualties; performs duties related to emergency care. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; manages casualties until admission to medical facility; performs sorting and screening procedures on battlefield, dispensaries, or clinics; reads and interprets medical tags or records.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 3 in emergency nursing procedures, 3 in first aid, and 3 for an internship in emergency nursing procedures (9/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 3 in emergency nursing procedures, 3 in first aid, 6 for an internship in emergency nursing procedures, and 1 in principles of administration (9/85).

MOS-91B-001

Medical Specialist

91B10

91B20

91B40

Exhibit Dates: 10/74–8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises dispensary or field medical facilities; administers emergency treatment independently to battlefield casualties; assists with inpatient and outpatient care and treatment. *Skill Level 10:* Administers emergency treatment in the field; assists in transporting patients to medical facilities; performs general bedside nursing aide activities and procedures, including patient hygiene, collection and labeling of specimens, and measurement and recording of patient vital signs; performs field sanitation procedures, including water treatment and waste disposal. *Skill Level 20:* Able to perform the duties required for Skill Level 10; administers medications to relieve pain, prevent infection, or treat patients in shock; administers plasma, other blood derivatives, and vaccines; carries out medical asepsis, including disposal of infectious materials and wastes and decontamination of communicable disease area; assists physician in performing routine diagnostic tests, administering immunizations, and performing minor surgical procedures; sets up medical equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises paraprofessional medical service activities in fixed and tactical facilities; plans and organizes work schedules; assigns duties; instructs subordinate personnel in proper work techniques and procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports; manages dispensaries; assists in supervising the setting up of medical units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 2 in first aid, and 1 in environmental health (3/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in emergency nursing procedures, 2 in first aid, 2 in environmental health, 1 in administration of medications, 1 in surgical nursing procedures, and 1 in communicable disease nursing. In the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 2 in first aid, 2 in environmental health, 1 in administration of medications, 1 in surgical nursing procedures, and 1 in communicable disease nursing (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in patient care administration, 3 in personnel supervision, 2 in first aid, 2 in environmental health, 1 in administration of medications, 1 in surgical nursing procedures, and 1 in communicable disease nursing. In the upper-division baccalaureate category, if the duty assignment was chief dispensary NCO/detachment sergeant at pay grade E-7, 3 semester hours for field experience in management (3/76).

MOS-91B-002

Medical Specialist

91B10

91B20

91B30

91B40

91B50

Exhibit Dates: 9/76–8/82.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises dispensary or field medical facilities; administers emergency medical treatment to battlefield casualties; assists with inpatient and outpatient care and treatment; assists with technical and administrative management of medical treatment facilities. *Skill Level 10:* Administers emergency treatment in the field; assists in transporting patients to medical facilities; performs general bedside nursing aide activities and procedures, including patient hygiene, collection and labeling of specimens, and measurement and recording of patient vital signs; performs field sanitation procedures, including water treatment and waste disposal. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; manages the care and transportation of casualties until admitted to a medical facility; screens patients during sick call; assists physicians in patient care and minor surgical procedures; reads and interprets medical records, patient charts, and diagnostic reports and makes entries as required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises paraprofessional medical service activities in fixed and temporary facilities; plans and organizes work schedules; instructs subordinate personnel in first aid and patient care procedures; administers medications; prepares and conducts training programs; prepares technical and patient reports; coordinates activities of dispensary or clinic with other medical facility activities; maintains supply levels; supervises setting up of unit equipment and shelters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises paraprofessional medical service activities in large fixed and mobile treatment facilities; coordinates activities of wards, clinics, and combined medical care facilities; maintains intelligence information and records; supervises paraprofessional medical field activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principle noncommissioned officer of staff sections, hospitals, other medical facilities, or service teams; serves on special boards and councils incident to medical service activities; supervises general administrative functions in a medical or treatment facility; supervises functional activities within the Army medical department or multifunctional medical staff activities; assists command surgeon in technical supervision of subordinate medical activities; evaluates personnel and the operational effectiveness of medical facilities; advises superiors on administrative medical matters; keeps official records and patient files; establishes reports control systems; prepares periodic and special reports concerning assigned personnel, patients, and medical care and treatment; makes recommendations for improving working procedures and conditions; evaluates training programs and requirements; determines requirements and adequacy of medical service supporting elements such as ambulance, supply, and transportation. NOTE: May have progressed to 91B50 from 91B40, 91D40 (Operating Room Specialist), 91F40 (Psychiatric Specialist), 91G40 (Behavioral Science Specialist), 91H40 (Orthopedic Specialist), 91J40 (Physical Therapy Specialist), 91L40 (Occupational Therapy Specialist), 91N40 (Cardiac Specialist), 91P40 (X-ray Specialist), 91Q40 (Pharmacy Specialist), 91U40 (Ear, Nose, and Throat Specialist), 91V40 (Respiratory Specialist), 91W40 (Nuclear Medicine Specialist), 91Y40 (Eye Specialist), or 42C40 (Orthotic Specialist).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, and 1 in environmental health (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, and 3 for clinical experience (6/77).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 1 in administration of medication, 1 in surgical nursing, and 1 in communicable disease nursing. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 3 in personnel supervision, 1 in administration of medication, 1 in surgical nursing, and 1 in communicable disease nursing. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 3 in personnel supervision, 1 in administration of medication, 1 in surgical nursing, 1 in communicable disease nursing, 9 in administration or management, 6 in office management, 6 in introductory medical records administration, 6 for an internship in medical administration, and 3 in technical report writing. In the upper-division baccalaureate category, 3 semester hours in patient care administration, 3 in management of medical facilities, 3 in advanced medical records administration, 3 in management problems, 6 for field experience in management or for an internship in management of medical facilities, and 3 in personnel management, and additional credit in administration, management, medical records, administration, management of medical facilities, and for an internship in medical administration on the basis of institutional evaluation (6/77).

MOS-91B-003

MEDICAL SPECIALIST

91B10
91B20
91B30
91B40
91B50

Exhibit Dates: 9/82–9/84.

Career Management Field: 91 (Medical).

Description

Summary: Supervises field and clinical medical facilities; assists with technical and administrative management of medical treatment facilities under supervision of physician, nurse, or physician's assistant; administers emergency and routine out-patient medical treatment to battle and non-battle casualties; assists with out-patient care and treatment. *Skill Level 10:* Administers emergency treatment in the field; assists with out-patient and in-patient care; maintains health records and clinical files; assists with nursing care of patients including medical examinations; takes and records temperature, pulse, respiration, and blood pressure; applies and removes surgical, wound, or skin dressings; collects and prepares specimens for analysis; assists in clinic and dispensary; performs routine admission tests; administers immunizations; assists with treatment of patients with common diseases; provides emergency medical care; surveys and sorts casualties; determines requirements for and administers emergency treatment; assists with triage of mass casualties; performs duties related to emergency care. *Skill Level 20:* Able to perform the duties required for Skill Level 10; administers emergency and routine medical treatment to casualties including minor surgery and IV fluid administration; assists with out-patient care and supervises out-patient facilities under the supervision of a physician, nurse, or physician's assistant; establishes priorities for medical emergency care; stabilizes patients and accompanies them to medical facilities; provides guidance and supervision to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises activities in dispensaries, large clinics and field medical services; coordinates activities of clinic with the medical treatment facility; supervises ordering of supplies; determines personnel requirements and conducts training programs. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises paraprofessional medical services activities of wards, clinics, and combined medical care facilities; maintains intelligence information and records; supervises paraprofessional medical field activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principle noncommissioned officer of staff sections, hospitals, other medical facilities, or service teams; serves on special boards and councils incident to medical service activities; supervises general administrative functions in a medical or treatment facility; supervises functional activities within the Army medical department or multifunctional medical staff activities; assists command surgeon in technical supervision of subordinate medical activities; evaluates personnel and the operational effectiveness of medical facilities; advises superiors on administrative medical matters; keeps official records and patient files; establishes reports control systems; prepares periodic and special reports concerning assigned personnel, patients, and medical care and treatment; makes recommendations for improving working procedures and conditions; evaluates training programs and requirements; determines requirements and adequacy of medical service supporting elements such as ambulance, supply, and transportation. NOTE: May have progressed to 91B50 from 91B40, 42C40 (Orthotic Specialist), or 91C50 (Practical Nurse).

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 3 in emergency nursing procedures, 3 in first aid, and 3 for an internship in emergency nursing procedures (9/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 6 in emergency nursing procedures, 3 in first aid, 3 for an internship in emergency nursing procedures, and 3 in personnel supervision (9/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 6 in emergency nursing procedures, 3 in first aid, 3 for an internship in emergency nursing procedures, 3 in personnel supervision, 3 in supply management, and 1 in methods of instruction (9/85).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 6 in emergency nursing procedures, 3 in first aid, 3 for an internship in emergency nursing procedures, 3 in personnel supervision, 3 in supply management, and 1 in methods of instruction. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in patient care administration (9/85).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in fundamentals of nursing, 6 in emergency nursing procedures, 3 in first aid, 3 for an internship in emergency nursing procedures, 3 in personnel supervision, 3 in supply management, and 1 in methods of instruction. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in patient care administration, 3 in personnel management, and 3 in hospital administration (9/85).

91F30
91F40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Assists in the care and treatment of psychiatric, drug, and alcohol patients and in the management of a psychiatric facility, under the supervision of a psychiatric nurse. *Skill Level 10:* Able to perform the duties of 91B10 (Medical Specialist); assists with diagnostic procedures; observes, records, and reports significant patient behavior; identifies and responds to psychopathological behaviors; provides intensive care for patients who are receiving special treatment; participates in individual and group therapies and somatic therapy; safeguards confidentiality of patients' clinical records and reports; orients patients to the services and routines of the treatment facility; supervises personal hygiene of patients and assists them in meeting their physical needs; accompanies patients to appointments and therapeutic activities within treatment facility and local community; functions as a member of electroconvulsive therapy team; assists with general nursing care activities, measuring and recording vital signs, administering prescribed medications, and collecting and labeling specimens. *Skill Level 20:* Able to perform the duties required for Skill Level 10; dispenses medication; supervises patient activities, such as physical reconditioning, occupational therapy, recreational therapy, and group therapy. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists with management of psychiatric ward; organizes work schedules and assigns duties; evaluates personnel; requisitions, stores, and issues supplies and equipment; assists with in-service training programs; serves as a group facilitator, under professional supervision. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists with management of psychiatric nursing activity; advises and assists professional staff in technical, administrative, personnel, and fiscal matters; establishes work priorities; compiles management data; inspects facility to insure a comfortable, safe, and sanitary environment; coordinates activities with other elements of medical treatment facility; reviews and consolidates technical and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in psychiatric nursing, 3 in psychiatric therapies, 3 for clinical experience in mental health, 2 in abnormal psychology, and 2 in human development (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in psychiatric nursing, 3 in psychiatric therapies, 5 for clinical experience in mental health, 2 in abnormal psychology, and 2 in human development (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 5 semester hours for clinical experience in mental health, 3 in psychiatric nursing, 3 in psychiatric therapies, 3 in psychiatric ward management, 3 in personnel supervision, 2 in abnormal psychology, and 2 in human development (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91G-001

BEHAVIORAL SCIENCE SPECIALIST
(SOCIAL WORK/PSYCHOLOGY SPECIALIST)

91G20
91G40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Assists with management of mental health facility or assists professional staff in obtaining social case histories, collecting basic psychological data, and counseling. *Skill Level 20:* Assists psychologist, social worker, or psychiatrist in gathering social histories and psychological data and in counseling clients; interviews clients; administers and scores tests; records behavioral characteristics based on interviews and observations; conducts collateral interviews and abstracts and compiles pertinent information from clinical and other records; presents case study and recommendations orally and in writing; maintains a counseling relationship to ascertain adjustment of clients; assists in resolving adjustment problems, including physical trauma; assists in providing counseling services for personnel with marital problems, indebtedness, drug abuse, alcoholism, child and adolescent maladaptive behavior patterns; intervenes in a crisis situation; collects and organizes statistical data. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises preparation, dispatch, safeguarding, and filing of clinical reports and records; plans work schedules and assigns duties; supervises Skill Level 20 personnel, conducts in-service training programs and conferences; coordinates activities with other medical personnel; prepares, consolidates, and reviews technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in psychology (includes human growth and development, testing, behavioral concepts, and personality disorders), 3 in interviewing theory and skills, 3 in psychiatric treatment modalities, and 3 for a practicum in counseling (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in psychology (includes human growth and development, testing, behavioral concepts, and personality disorders), 3 in interviewing theory and skills, 3 in psychiatric treatment modalities, 3 for a practicum in counseling, 2 mental health facility management, and 1 personnel supervision (3/76).

MOS-91G-002

BEHAVIORAL SCIENCE SPECIALIST

91G10
91G20
91G30
91G40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Under professional supervision, assists with management of mental health activity or obtains social case histories; collects basic psychological data; performs counseling functions. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Spcialist); interviews clients; conducts collateral interviews and screens records; administers and scores intelligence tests under supervision; assists in determining client need for referral to a professional; records psychosocial data and behavior observations; orients and refers clients to military, civilian, and agency resources; prepares and presents cases for staffings and conferences; requests and transmits client records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; under professional supervision, provides supportive counseling and follow-up service to individuals experiencing a wide range of social or emotional problems; assists with group counseling and therapy sessions; leads discussion groups; assists in determination of need for hospitalization; under supervision, administers and scores achievement tests, objective personality tests, and test of organic impairment and records the results; assists patients with discharge planning; consults on management of individual behavioral problems; assists professional staff in setting up home health care programs and makes follow-up home visits; gathers statistical data; establishes and maintains clinical and general office files. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides advice and limited technical guidance to subordinate personnel; provides supportive counseling and crisis intervention services to clients; assists in staffing and coordination of highly complex cases; collects and organizes research data and makes statistical computations; assists in analysis of research data and report writing; compiles case load data and assigns clients to specific staff members; evaluates manpower requirements; prepares administrative reports; requisitions, stores, and issues supplies, equipment, publications, and training aids; develops work procedures and practices; prepares and conducts in-service training programs. *Skill Level 40:* Able to perform the duties required for Skill Level 30; under supervision, administers and records thematic projective tests; assists in determining program and management objectives and procedures; establishes work priorities and work schedules; assigns duties and instructs subordinates in work techniques and procedures; prepares and counsels personnel and prepares evaluation reports; coordinates activity of facility with related elements of the medical treatment facility; advises and assists professionals with fiscal, technical, and administrative matters, establishes stock level for supplies and equipment.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in clinical psychology and counseling, 3 in psychology, 3 in human relations, 1 in sociology, and 1 in psychological testing (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in clinical psychology and counseling, 3 in psychology, 3 in human relations, 3 in psychological testing, and 1 in sociology (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 8 semester hours in clinical psychology and counseling, 3 in psychology, 3 in human relations, 3 in psychological testing, 2 in personnel supervision, and 1 in sociology. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 8 semester hours in clinical psychology and counseling, 4 in psychological testing, 3 in psychology, 3 in human relations, 3 in personnel supervision, 3 in principles of administration, and 1 in sociology. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91H-001

ORTHOPEDIC SPECIALIST

91H20
91H40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Assists physician in treatment of patients with orthopedic conditions and injuries and/or assists with the management of orthopedic clinic. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); assists with minor surgery in orthopedic clinic (does not scrub in the operating room); prepares treatment area and lays out equipment and sterile/nonsterile supplies; transfers and prepares patient for surgery; assists in positioning patient on fracture table or other work surface and operates the fracture table under supervision of physician; assists with suturing in orthopedic clinic; changes dressings and bandages, removes sutures, and cleans and performs minor debridement of open wounds; fabricates, modifies, applies, and removes casts; constructs and applies splints; makes support bandages and slings; instructs patients regarding care of casts; assists with application of skeletal traction; applies skin traction to open stumps. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists with management of orthopedic clinic; organizes work schedules and assigns duties; instructs personnel in techniques and procedures; requisitions, stores, and issues supplies; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 7 semester hours for clinical experience in cast fabrication, modification, and application, 4 in anatomy and physiology, 2 in cast technique, 2 in orthopedic methods and materials, and 1 for clinical experience in traction application (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 7 semester hours for clinical experience in cast fabrication, modification, and application, 4 in anatomy and physiology, 3 in human relations, 3 in clinic management, 2 in cast technique, 2 in orthopedic methods and materials, and 1 for clinical experience in traction application (3/76).

MOS-91H-002

ORTHOPEDIC SPECIALIST

91H20
91H30
91H40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Assists physician in treating patients with orthopedic conditions and injuries or assists in managing an orthopedic clinic. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); under close supervision of a physician, treats orthopedic patients; may perform the duties required for Skill Level 20. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists with minor surgery in orthopedic clinic; prepares treatment area and patient for surgery or treatment; transfers patients with unstable fractures to fracture table or other work surface; operates fracture table and assists in positioning patient; changes dressings and bandages; removes sutures; cleans and performs minor debridement of open wounds; fabricates, modifies, and removes short and long leg and arm casts and hip and shoulder spica; rolls or manually shapes plaster around area to be immobilized; constructs and applies plaster and mechanized splints; makes support bandages and slings; instructs patients regarding care and danger of casts; assists in applying and adjusting skeletal traction. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing an orthopedic clinic; organizes work schedules; assigns duties; instructs subordinate personnel in work techniques and procedures; evaluates personnel performance and prepares evaluation reports; establishes safety procedures; inspects work area to insure a safe working environment; supervises operator maintenance on assigned equipment; requisitions, stores, and issues supplies and equipment; reviews, consolidates, and prepares technical, personnel, and administrative reports; coordinates activities of orthopedic clinic with other elements of treatment facility; assists physician with technical, personnel, and fiscal matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, credit in anatomy, physiology, principles of orthopedics, orthopedic methods and materials, and clinical application of orthopedic principles on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 5 semester hours in clinical application or orthopedic principles, 4 in principles of orthopedics, 4 in orthopedic methods and materials, 3 in clinical orthopedic assisting, 3 in anatomy, and 1 in physiology (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 5 semester hours in clinical application or orthopedic principles, 4 in principles of orthopedics, 4 in orthopedic methods and materials, 3 in clinical orthopedic assisting, 3 in anatomy, and 1 in physiology (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 5 semester hours in clinical application of orthopedic principles, 4 in principles of orthopedics, 4 in orthopedic methods and materials, 3 in clinical orthopedic assisting, 3 in anatomy, 3 in personnel supervision, 2 in communication skills, 2 in principles of management, 1 in health care management, and 1 in physiology. In the lower-division baccalaureate/associate degree category, credit in medical facility management on the basis of institutional evaluation (6/77).

MOS-91J-001

PHYSICAL THERAPY SPECIALIST

91J20
91J40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 913 (Physical Medicine).

Description

Summary: Administers heat, water, manual, and other selected physical therapy treatments to patients; works under the supervision of a physical therapist. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); administers treatments involving the use of hot and cold packs, infrared, diathermy, ultrasonic apparatus, ultraviolet lamps, whirlpool, and contrast and paraffin baths; conducts progressively graded conditioning exercises for patients; explains and demonstrates the use of exercise equipment for patients. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists with the management of the physical therapy section of a medical or treatment facility; inspects the facility; inspects the facility and equipment for safety hazards; organizes work schedules and assigns duties for a minimum of three personnel; assists the physical therapist with in-service training programs; orders, stores, and issues supplies; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in

health science and 6 in physical therapy (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in health science, 6 in physical therapy, and 6 in administration or management (2/75).

MOS-91J-002

Physical Therapy Specialist

91J10
91J20
91J30
91J40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Under the direction of a physical therapist and following medical prescription, supervises or administers physical therapy treatment and exercises to decrease physical disabilities and to promote physical fitness of patients. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); under close supervision, administers physical therapy treatments to patients. *Skill Level 20:* Able to perform the duties required for Skill Level 10; transports, positions, and drapes patients for treatment; administers treatment involving use of heat, ice, cervical and pelvic traction, ultraviolet light, ultrasound treatment, whirlpool, hydrotherapy, therapeutic massage, electrical stimulation, and manual exercise procedures; assists in performing postural drainage; instructs and assists patients with casts in ambulation and gait training; administers progressive resistance and physical reconditioning exercises; stores and issues supplies and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists with management of medium-sized physical therapy clinic; instructs and assists patients in exercise activities; performs exercise procedures for amputees and patients with central nervous system disorders; supervises operational management of unit, including personnel, supplies, equipment, and scheduling; prepares patient and administrative reports; coordinates activities of physical therapy clinic with other elements of medical treatment facility. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists with management of large physical therapy clinic; supervises integration of segmented and diversified physical therapy programs conducted in several clinics.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in health science (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in health science and 6 in physical therapy. In the lower-division baccalaureate/associate degree category, 6 semester hours in health science and 6 in physical therapy (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in health science, 6 in physical therapy, 2 in human relations, and 1 for field experience in management. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in health science, 6 in physical therapy, 3 in human relations, and 3 for field experience in management. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91L-001

Occupational Therapy Specialist

91L20
91L40

Career Management Field: 9 (Medical).

Description

Summary: Under the direction of a registered occupational therapist, assists patients in adapting skills for daily living and in work therapy activities; conducts interviews, administers tests, and assists patients with daily living activities to promote physical and mental health. *Skill Level 10:* Interviews, tests, teaches, and assists clients in occupational therapy activities; assists in evaluating test results; interprets physician's referrals to determine therapeutic strategies; arranges for and reports physiological and psychological patient responses; maintains progress records; measures, fabricates, fits, adjusts, and instructs in the use of adaptive devices; maintains equipment and supplies; maintains safe and comfortable work area. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in administering occupational therapy programs; plans ward, clinic, and recreational activity programs and assists with planning for home activity programs; teaches activities of daily living. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists with management of medium-sized occupational therapy clinic; prepares work schedules; instructs subordinates; evaluates personnel performance; prepares administrative and patient reports; coordinates activities of occupational therapy program; advises and assists therapist in personnel and administrative matters; maintains supply levels as needed; coordinates activities of occupational therapy clinic with other elements of the medical treatment facility. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists with management of a large occupational therapy clinic; coordinates integration of segmented and diversified occupational therapy programs conducted in several clinics; develops, supervises, and evaluates work method procedures and training programs; plans clinic layout and requests supporting services.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in occupational therapy skills, 3 for field experience in occupational therapy, 3 in creative arts, 3 in communication skills, and 3 in human relations (3/90).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in occupational therapy skills, 6 for field experience in occupational therapy, 6 in creative arts, 3 in communication skills, and 3 in human relations (3/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in occupational therapy skills, 6 for field experience in occupational therapy, 6 in creative arts, 3 in communication skills, 3 in human relations, 3 in principles of supervision, and 3 in patient care administration (3/90).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in occupational therapy skills, 6 for field experience in occupational therapy, 6 in creative arts, 3 in communication skills, 3 in human relations, 3 in principles of supervision, 3 in patient care administration, and 3 in educational techniques (3/90).

MOS-91N-001

CARDIAC LABORATORY SPECIALIST

91N20
91N30
91N40

Exhibit Dates: 3/74–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Assists with management of cardiac laboratory or records electrocardiograms (ECG) and vectorcardiograms or assists with specialized cardiac tests and examinations. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); sets up, calibrates, operates, and maintains electrocardiograph, vectorcardiograph, and phonocardiograph; attaches electrodes and conducts tests according to established procedures; transmits record to physician; cuts and mounts tracing for inclusion in medical record. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares and sets up equipment in sterile field for right and left cardiac catheterization, venous and arterial angiography, and insertion of temporary and permanent pacemakers; calibrates and operates multichannel physiologic recorders with attachments and monitors ECG, pressure curves, and other physiologic parameters; standardizes and operates electronic oximeters, dye curve densitometers, and wheatstone bridges; calibrates and operates blood gas analyzer; calculates test results, using standardized formulas; forms, molds, and refines special cardiovascular catheters, needles, and tubing; assists with resuscitation procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing cardiac laboratory; plans work schedules; assigns duties; trains personnel in work procedures and techniques; requisitions, stores, and issues supplies and equipment; enforces safety rules in use of equipment and medical gases; prepares, reviews, and consolidates technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour for cardiovascular technology and 1 for cardiovascular electronics (3/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular chemical analysis, 2 in physiological chemistry, 2 in pulmonary functions, 2 in cardiovascular technology, 2 in cardiovascular electronics, and 1 in technical mathematics (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular chemical analysis, 2 in physiological chemistry, 2 in pulmonary functions, 2 in cardiovascular technology, 2 in cardiovascular electronics, 1 in technical mathematics, 3 in human relations, 1 in personnel supervision, and 2 in laboratory management (3/76).

MOS-91N-002

CARDIAC SPECIALIST

91N10
91N20
91N30
91N40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Assists with management of cardiac clinic or performs specialized noninvasive cardiac tests and examinations. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); under close supervision, assists Skill Level 20 personnel. *Skill Level 20:* Sets up, calibrates, operates, and maintains electrocardiograph, vectorcardiograph, and phonocardiograph; attaches electrodes and conducts tests according to established procedures; transmits record to physician; cuts and mounts tracing for inclusion in medical records; administers endurance tests; under supervision, performs technical examination during operation of artificial pacemaker; performs cardiopulmonary resuscitation and uses defibrillator; performs maintenance on equipment; receives, stores, and maintains level of supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities and work schedules; assigns duties and instructs subordinates in procedures; inspects facilities; determines personnel requirements and conducts training programs; supervises operational maintenance program of laboratory and clinical equipment; evaluates and counsels personnel; establishes stock level for supplies and equipment and supervises requisition, storage, and issue of supplies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, and 1 in technical mathematics (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, and 1 in technical mathematics (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, 1 in technical mathematics, and 2 in personnel supervision (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, 1 in technical mathematics, 3 in personnel supervision, 3 in human relations, and 2 for field experience in management (6/77).

MOS-91P-001

X-RAY SPECIALIST

91P20

91P40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Operates or supervises the operation of fixed and portable x-ray equipment to take radiographs and to assist with treatment procedures. *Skill Level 20:* Operates x-ray machines, utilizing proper controls, voltage, current, exposure time, and safety precautions; applies principles of anatomy and physiology in determining essential factors of positioning in radiopathy; assists during fluoroscopic procedures, such as gastrointestinal studies, aortograms, arteriograms, venograms, cardiac catheterizations, urograms, and pneumogynecograms; connects and operates other equipment items used during fluoroscopy, such as cine camera, fluoroscopic viewers, rapid film changers, and automatic high-pressure injectors of contrast media. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises x-ray activities; inspects safety standards and initiates corrective action if necessary; organizes work schedules, assigns duties, and instructs personnel in technical procedures; supervises specialists in radiopathy procedures; requisitions, stores, and issues supplies; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in radiation protection, 6 in introductory radiologic technology, 9 for a radiologic internship, and 12 in radiologic technology procedures, positioning, contrast media, and intra-oral radiopathy (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in radiation protection, 3 in personnel management, 3 in equipment and supplies management, 6 in introductory radiologic techology, 12 for a radiologic internship, and 12 for radiologic procedures, positioning, contrast media, and intra-oral radiopathy (2/75).

MOS-91P-002

X-RAY SPECIALIST

91P10

91P20

91P30

91P40

Exhibit Dates: 9/76–2/84.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Operates or supervises the operation of fixed and portable x-ray equipment to take radiographs and to assist with treatment procedures. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); performs routine radiographic procedures; operates x-ray machines, utilizing proper exposure factors; applies radiation safety principles to protect self and patients from ionizing radiation; assists radiologists with fluoroscopic examination and simple special radiographic films by manual and automatic methods; performs routine patient administration, including the maintenance of radiographic records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assembles radiographs for reading; performs body section, stereoscopic foreign body localization, prenatal, and pediatric radiographic procedures; performs followup radiographic examinations of the digestive, urogenital, respiratory, vascular, and nervous systems; takes radiographs of the extremities, trunk, and skull, using portable equipment; assists with special radiographic and fluoroscopic procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs complex or specialized radiograph procedures or supervises a medium-sized x-ray activity; performs routine examinations or assists with special examinations of the urogenital, respiratory, vascular, and nervous systems; inspects x-ray activities for compliance with radiation safety procedures and initiates corrective action; organizes work schedules; assigns duties; instructs personnel in technical procedures; supervises preventive maintenance of equipment; supervises procedures to enable unit to function in a toxic environment; evaluates personnel performance and prepares evaluation reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large x-ray activity; inspects clinic to insure a safe, clean, orderly, comfortable environment for patients; establishes work priorities; reviews, consolidates, and prepares technical, administrative, and personnel reports; coordinates activities of clinic with other elements of the medical treatment facility.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours for a clinical internship, 6 in radiographic techniques, and 3 in radiation protection (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, and 3 in special radiographic procedures. In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, and 3 in special radiographic procedures (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, and 3 in personnel supervision. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in radiology department administration and credit in patient care administration on the basis of institutional evaluation (6/77).

MOS-91P-003

X-RAY SPECIALIST

91P10

91P20

91P30

91P40

91P50

Exhibit Dates: 3/84–Present.

Career Management Field: 91 (Medical).

Description

Summary: Operates or supervises the operation of fixed and portable x-ray equipment to take radiographs and to assist with treatment procedures. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); performs routine radiographic procedures; operates x-ray machines, utilizing proper exposure factors; applies radiation safety principles to protect self and patients from ionizing radiation; assists radiologists with fluoroscopic examination and simple special radiographic procedures; processes radiographic films by manual and automatic methods; performs routine patient administration, including the maintenance of radiographic records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assembles radiographs for reading; performs body section, stereoscopic foreign body localization, prenatal, and pediatric radiographic procedures; performs followup radiographic examinations of the digestive, urogenital, respiratory, vascular, and nervous systems; takes radiographs of the extremities, trunk, and skull, using portable equipment; assists with special radiographic and fluoroscopic procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs complex or specialized radiograph procedures or supervises a medium-sized x-ray activity; performs routine examinations or assists with special examinations of the urogenital, respiratory, vascular, and nervous systems; inspects x-ray activities for compliance with radiation safety procedures and initiates corrective action; organizes work schedules; assigns duties; instructs personnel in technical procedures; supervises preventive maintenance of equipment; supervises procedures to enable unit to function in a toxic environment; evaluates personnel performance and prepares evaluation reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large x-ray activity; inspects clinic to insure a safe, clean, orderly, comfortable environment for patients; establishes work priorities; reviews, consolidates, and prepares technical, administrative, and personnel reports; coordinates activities of clinic with other elements of the medical treatment facility. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises x-ray activity in large medical center; assumes departmental management duties including budget, personnel, and supply.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 9 semester hours for a clinical internship, 6 in radiographic techniques, and 3 in radiation protection (9/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, and 3 in special radiographic procedures (9/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, and 3 in personnel supervision. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (9/85).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in radiology department administration and credit in patient care administration on the basis of institutional evaluation (9/85).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, 3 in personnel supervision, and 3 for field experience in management. In the upper-division baccalaureate category, 6 semester hours in radiology department administration and credit in patient care administration on the basis of institutional evaluation (9/85).

MOS-91Q-001

PHARMACY SPECIALIST

91Q10
91Q20
91Q40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Works under the supervision of a registered pharmacist or a physician; compounds, manufactures, and packages pharmaceutical products; assists in dispensing pharmaceuticals. *Skill Level 10:* Prepares commonly used ointments, solutions, lotions, and syrups; pours, weighs, and measures dosages; grinds, heats, filters, dissolves, and mixes liquid or soluble drugs and chemicals; packages, labels, stores, and issues pharmaceuticals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets and verifies authenticity of prescriptions prepared by physicians, dentists, podiatrists, and veterinarians; assists a registered pharmacist in preparing drugs and medications, including narcotics and registered drugs; labels prescriptions; files signature cards and prescriptions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists with the management of pharmacy, assuring compliance with Federal and Army laws, rules, and regulations; keeps inventory of supplies; provides information regarding strength and composition of medications; supervises a minimum of five pharmacy personnel; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in general chemistry, 6 in general biology, 6 in laboratory techniques, and 6 in health sciences (2/75).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 9 semester hours in laboratory techniques, 6 in general chemistry, 6 in biology, 6 in health sciences, 3 in administration, and 3 for a pharmaceutical assistant internship. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 9 semester hours in administration, 9 in laboratory techniques, 9 for a pharmaceutical assistant internship, 6 in general chemistry, 6 in biology, and 6 in health sciences. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

MOS-91Q-002

PHARMACY SPECIALIST

91Q10
91Q20
91Q30
91Q40

Exhibit Dates: 9/76–2/84.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises or prepares, controls, and issues pharmaceutical products, under supervision of pharmacist or physician. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); under supervision, interprets, compounds, manufactures, and files presciption orders, bulk drug orders, or unit dose orders; performs storage, accounting, inventory, and control procedures for pharmaceuticals; operates and maintains manufacturing and packaging equipment; assists in setting up unit equipment and shelters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; issues and requisitions medications; evaluates prescription orders, bulk drug orders, or unit dose orders; checks drug orders for interactions, incompatibilities, and availability of dosage forms; issues medications to patients, wards, clinics, and other using agencies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides guidance to subordinate personnel; assists in pharmacy inspections; orders standard and non-standard supplies; maintains stock levels; supervises sections within pharmacy service. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in compiling information for meetings of Therapeutic Agent Board; assists in revision and update of hospital formulary or drug list; organizes work schedules; instructs personnel in procedures and conducts in-service training; evaluates personnel and prepares evaluation reports; sets stock levels and prepares requisitions; prepares technical, personnel, and administrative reports; coordinates pharmacy activities with other elements of medical treatment facility.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 5 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, 3 in personnel supervision, 2 in principles of administration, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics, and additional credit in medical facility management on the basis of institutional evaluation (6/77).

MOS-91Q-003

Pharmacy Specialist

91Q10
91Q20
91Q30
91Q40
91Q50

Exhibit Dates: 3/84–Present.

Career Management Field: 91 (Medical).

Description

Summary: Supervises or prepares, controls, and issues pharmaceutical products, under supervision of pharmacist or physician. *Skill Level 10:* Able to perform the duties required for Skill level 10 of MOS 91B (Medical Specialist); under supervision, interprets, compounds, manufactures, and files prescription orders, bulk drug orders, or unit dose orders; performs storage, accounting, inventory, and control procedures for pharmaceuticals; operates and maintains manufacturing and packaging equipment; assists in setting up unit equipment and shelters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; issues and requisitions medications; evaluates prescription orders, bulk drug orders, or unit dose orders; checks drug orders for interactions, incompatibilities, and availability of dosage forms; issues medications to patients, wards, clinics, and other agencies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides guidance to subordinate personnel; assists in pharmacy inspections; orders, standard and nonstandard supplies; maintains stock levels; supervises sections within pharmacy service. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in compiling information for meetings of Therapeutic Agent Board; assists in revision and update of hospital formulary or drug list; organizes work schedules; instructs personnel in procedures and conducts in-service training; evaluates personnel and prepares evaluation reports; sets stock levels and prepares requisitions; prepares technical, personnel, and administrative reports; coordinates pharmacy activities with other elements of medical treatment facility. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises pharmacy activities in large hospital, medical center, or general hospital; assists in establishment and operation of formal training programs; insures compliance with quality control standards for doctrinal material in formal training programs.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 5 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (9/85).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (9/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (9/85).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, 3 in personnel supervision, 2 in principles of administration, and 1 in inventory control, and additonal credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, phisiology, and laboratory techniques on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics, and additional credit in medical facility management on the basis of institutional evaluation (9/85).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, 3 in personnel supervision, 2 in principles of administration, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory, 2 in pharmaceutical mathematics, 3 in methods of instruction, 3 for field experience in management, and additional credit in medical facility management on the basis of institutional evaluation (9/85).

MOS-91R-001

Food Inspection Specialist

91R10
91R20
91R40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Inspects food and food products for quality, safety, and adherence to contractual specifications. *Skill Level 10:* Assists with food hygiene and quality assurance inspections, using principles of statistical sampling, food microbiology, laboratory analysis, and knowledge of food processing and preservation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts subsistence procurement inspections; inspects processing, handling, packaging, packing, and quality control procedures in canneries, slaughterhouses, and dairies and in waterfood, meatpacking and dehydration plants; examines poultry, eggs, fruit, vegetables, seafoods, meats, and dairy products; selects, prepares, and transmits samples for laboratory testing; reviews tests results for contractual requirements; records contractual deficiencies and violations and initiates recommendations for corrective action; develops and applies double and multiple statistical sampling procedures and switching techniques; reviews and updates publications relative to quality assurance procedures; assists veterinarian in antemortem and postmortem examination of food animals. *Skill Level 40:* Able to perform the duties required for Skill Level 20; trains subordinates in food inspection and sanitary control programs; analyzes reports and surveys and recommends remedial action; coordinates transportation, administration, and logistical support of food inspectors assigned from parent veterinary activity; reviews, consolidates, and prepares team inspection records and other technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in food science, 3 in inspection procedures and regulations, and 2 in microbiology (3/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 17 semester hours in food science, 4 in inspection procedures and regulations, and 2 in microbiology (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 17 semester hours in food science, 4 in inspection procedures and regulations, 3 in human relations, 3 in personnel supervision, and 2 in microbiology. In the upper-division baccalaureate category, if the duty assignment was chief food inspection NCO at pay grade E-8, 3 semester hours for field experience in management (3/76).

MOS-91R-002

Veterinary Specialist

91R10
91R20
91R30
91R40
91R50

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Inspects food and food products for quality, safety, and adherence to contractual specifications. *Skill Level 10:* Assists with food hygiene and quality assurance inspections, using principles of statistical sampling, food microbiology, laboratory analysis, and knowledge of food processing and preservation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts subsistence procurement inspections; inspects processing, handling, packaging, packing, and quality control procedures in canneries, slaughterhouses, and dairies, and in waterfood, meatpacking, and dehydration plants; examines poultry, eggs, fruit, vegetables, seafoods, meats, and dairy products; selects, prepares, and transmits samples for laboratory testing; reviews test results for contractual requirements; records contractual deficiencies and violations and initiates recommendations for corrective action; develops and applies double and multiple statistical sampling procedures and switching techniques; reviews and updates publications relative to quality assurance procedures; assists veterinarian in antemortem and postmortem examination of food animals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises procurement quality assurance and surveillance inspections; establishes work priorities; organizes work schedules; assigns duties; instructs subordinate personnel; supervises equipment maintenance programs; prepares and conducts training programs; evaluates personnel performance; maintains technical records; requisitions, stores, and issues supplies. *Skill Level 40:* Able to perform the duties required for Skill Level 30; trains subordinates in food inspection and sanitary control programs; analyzes reports and surveys and recommends remedial action; coordinates transportation, administration, and logistical support of food inspectors; reviews, consolidates, and prepares team inspection records and other technical, personnel, and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40 of MOS 91R, 91S (Environmental Health Specialist), or 91T (Animal Specialist); develops work methods and procedures; develops, directs, and evaluates training programs; coordinates activities of veterinary and environmental health activities; assists professional staff with technical, administrative, and fiscal matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 7 semester hours in food science, 6 in inspection procedures and regulations, and 1 in veterinary preventive medicine (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, and 2 in veterinary preventive medicine (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 2 in veterinary preventive medicine, and 2 in personnel supervision (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 3 in personnel supervision, 3 in human relations, and 2 in veterinary preventive medicine (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 3 in personnel supervision, 3 in human relations, 3 in principles of management, and 2 in veterinary preventive medicine. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (6/77).

91S20
91S40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Supervises or conducts surveys and inspections of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Inspects living quarters, food-handling establishments, water and waste disposal systems, work areas, barber shop and other facilities to detect deficiencies in sanitation standards and recommends corrective action; collects, identifies, preserves, and ships medically important arthropods and rodents; performs pest control procedures, including selection, safe handling, mixing, application, and disposal of pesticides; conducts environmental health surveys to determine compliance with standards and regulations; inspects facilities where ionizing and non-ionizing radiation is produced to identify and report potential health hazards; operates and maintains equipment used in inspections, surveys, and control procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs field studies and surveys to determine potential for and incidence of disease vectors; tests and recommends procedures to control insects resistant to insecticides; conducts on-the-job training for field sanitation teams in environmental sanitation and control of animal reservoirs and disease vectors. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans work schedules; assigns duties; instructs Skill Level 10 and 20 personnel in techniques and procedures; requisitions, stores, and issues supplies and equipment; assists in analyzing and evaluating data; prepares, reviews, and consolidates technical, administrative, and personnel reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, and 1 in occupational health practices (3/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, 1 in occupational health practices, 3 in pest management, and 3 for a practicum in environmental sanitation (3/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, 1 in occupational health practices, 3 in pest management, 3 for a practicum in environmental sanitation, and 2 in personnel administration (3/76).

MOS-91S-002

ENVIRONMENTAL HEALTH SPECIALIST

91S10
91S20
91S30
91S40

Exhibit Dates: 9/76–2/80.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Supervises, conducts, or assists in surveys and inspections and establishes control measures of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Conducts environmental health surveys and inspections and assists in environmental health laboratories by inspecting living quarters, food handling establishments, water systems, liquid and solid waste disposal systems, barber and beauty shops, swimming facilities, nurseries, and industrial areas; inspects personal hygiene practices; reports deviations from prescribed health standards and recommends corrective action; collects specimens and samples and submits them to the laboratory; mixes and applies insecticides, rodenticides, and repellants; performs bacteriological examination and chemical analysis of water and inspects for quarantine standards; performs operator maintenance on environmental health equipment; collects data for environmental health reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts environmental health surveys, inspections, and laboratory procedures; performs stream surveys; inspects hospital infectious waste control and disposal procedures; interviews food poisoning patients and tuberculosis, VD, and other communicable disease patients and contacts; conducts related communicable disease investigations; completes case and contact reports; assists with monitoring electromagnetic radiation; identifies medically important parasites, disease vectors, and their animal hosts and recommends insect control procedures; inspects and provides technical assistance for water supply systems, liquid and solid waste collection, treatment, and disposal; inspects and provides technical assistance for collection, treatment, and disposal of hazardous waste; performs operator maintenance on environmental health equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises environmental health sections; collects and analyzes data on occupational illness, injuries, and environmental health; organizes work schedules; assigns duties; instructs in work techniques and procedures; plans and conducts training programs; supervises operational maintenance program of assigned equipment; evaluates personnel performance and prepares evaluation reports as well as administrative, technical, and personnel reports; prepares supply and equipment requisitions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises environmental health activities; organizes environmental stress surveillance programs; coordinates toxicology data with poison control center; plans vector control program; analyzes and evaluates data pertaining to environmental health activities; determines personnel requirements and establishes work priorities; advises and assists professionals in supply, fiscal, technical, and administrative matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 15 semester hours in sanitation and disease control (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control and 9 in environmental science (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control, 9 in environmental science, 3 in human relations, and 3 in personnel administration (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (6/77).

MOS-91S-003

ENVIRONMENTAL HEALTH SPECIALIST

91S10
91S20
91S30
91S40
91S50

Exhibit Dates: 3/80–6/86.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Supervises, conducts, or assists in surveys and inspections and establishes control measures of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Conducts environmental health surveys and inspections and assists in environmental health laboratories by inspecting living quarters, food handling establishments, water systems, liquid and solid waste disposal systems, barber and beauty shops, swimming facilities, nurseries, and industrial areas; inspects personal hygiene practices; reports deviations from prescribed health standards and recommends corrective action; collects specimens and samples and submits them to the laboratory; mixes and applies insecticides, rodenticides, and repellants; performs bacteriological examination and chemical analysis of water and inspects for quarantine standards; performs operator maintenance on evironmental health equipment; collects data for environmental health reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts environmental health surveys, inspections, and laboratory procedures; performs stream surveys; inspects hospital infectious waste control and disposal procedures; interviews food poisoning patients and tuberculosis, VD, and other communicable disease patients and contacts; conducts related communicable disease investigations; completes case and contact reports; assists with monitoring electromagnetic radiation; identifies medically important parasites, disease vectors, and their animal hosts and recommends insect control procedures; inspects and provides technical assistance for water supply systems, liquid and solid waste collection, treatment, and disposal; inspects and provides technical assistance for collection, treatment, and disposal of hazardous waste; performs operator maintenance on environmental health equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises environmental health sections; collects and analyzes data on occupational illness, injuries, and environmental health; organizes work schedules; assigns duties; instructs in work techniques and procedures; plans and conducts training programs; supervises operational maintenance program of assigned equipment; evaluates personnel performance and prepares evaluation reports as well as administrative, technical, and personnel reports; prepares supply and equipment requisitions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises environmental health activities; organizes environmental stress surveillance programs; coordinates toxicology data with poison control center; plans vector control program; analyzes and evaluates data pertaining to environmental health activities; determines personnel requirements and establishes work priorities; advises and assists professionals in supply, fiscal, technical, and administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; writes, develops, and coordinates command-wide regulations and policies relating to environmental health services; evaluates training programs and recommends improvements in such programs; participates in studies, reviews, and makes recommendations regarding proposals; prepares and presents briefings; assists command environmental health officer in technical supervision of subordinate unit environmental health activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 15 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in environmental health, 3 for field exercises in prevention and control of communicable diseases, and 3 in entomological and pest management (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in environmental health, 3 for field exercises in prevention and control of communicable diseases, 3 in entomological and pest management, and 3 in environmental health administration), and 9 in environmental science (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in environmental health, 3 for field exercises in prevention and control of communicable diseases, 3 in entomological and pest management, and 3 in environmental health administration), 9 in environmental science, 3 in human relations, and 3 in personnel administration (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 6 for field experience in management (6/77).

PREVENTIVE MEDICINE SPECIALIST

91S10
91S20
91S30
91S40
91S50

Exhibit Dates: 7/86–Present.

Career Management Field: 91 (Medical).

Description

Summary: Supervises, conducts, or assists in surveys and inspections and establishes control measures of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Conducts environmental health surveys and inspections and assists in preventive medicine laboratories by inspecting living quarters, food handling establishments, water systems, liquid and solid waste disposal systems, barber and beauty shops, swimming facilities, nurseries, and industrial areas; inspects personal hygiene practices; reports deviations from prescribed health standards and recommends corrective action; collects specimens and samples and submits them to the laboratory; mixes and applies insecticides, rodenticides, and repellants; performs bacteriological examination and chemical analysis of water and inspects for quarantine standards; performs operator maintenance on preventive medicine equipment; collects data for environmental health reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts environmental health surveys, inspections, and laboratory procedures; performs stream surveys; inspects hospital infectious waste control and disposal procedures; interviews food poisoning patients and tuberculosis, VD, and other communicable disease patients and contacts; conducts related communicable disease investigations; completes case and contact reports; assists with monitoring electromagnetic radiation; identifies medically important parasites, disease vectors, and their animal hosts and recommends insect control procedures; inspects and provides technical assistance for water supply systems, liquid and solid waste collection, treatment, and disposal; inspects and provides technical assistance for collection, treatment, and disposal of hazardous waste. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises preventive medicine sections; collects and analyzes data on occupational illness, injuries, and environmental health; organizes work schedules; assigns duties; instructs in work techniques and procedures; plans and conducts training programs; supervises operational maintenance program of assigned equipment; evaluates personnel performance and prepares evaluation reports as well as administrative, technical, and personnel reports; prepares supply and equipment requisitions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises preventive medicine activities; organizes environmental stress surveillance programs; coordinates toxicology data with poison control center; plans vector control program; analyzes and evaluates data pertaining to preventive medicine activities; determines personnel requirements and establishes work priorities; advises and assists professionals in supply, fiscal, technical, and administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; writes, develops, and coordinates command-wide regulations and policies relating to environmental health services; evaluates training programs and recommends improvements in such programs; participates in studies, reviews, and makes recommendations regarding proposals; prepares and presents briefings; assists command environmental health officer in technical supervision of subordinate unit environmental health activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 15 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in preventive medicine, 3 for field exercises in prevention and control of communicable diseases, and 3 in entomological and pest management (9/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in preventive medicine, 3 for field exercises in prevention and control of communicable diseases, 3 in entomological and pest management, and 3 in preventive medicine administration), and 9 in environmental science (9/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control (6 semester hours in sanitation and disease control, 3 in laboratory exercises in preventive medicine, 3 for field exercises in prevention and control of communicable diseases, 3 in entomological and pest management, and 3 in preventive medicine administration), 9 in environmental science, 3 in human relations, and 3 in personnel administration (9/88).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (9/88).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 6 for field experience in management (9/88).

MOS-91T-001

VETERINARY SPECIALIST

91T20

91T40

Exhibit Dates: 10/73-8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Cares for and treats animals in field veterinary service facilities, research laboratories, and veterinary clinics. *Skill Level 20:* Restrains, isolates, and quarantines animals which have signs of communicable diseases; performs emergency treatment procedures; sets up equipment and assists veterinarian with examinations, surgical procedures, immunizations, and procedures to identify, prevent, and control zoonotic diseases; collects specimens for laboratory analysis and conducts, evaluates, and records the results of macroscopic and microscopic studies; examines animals for external parasites and prepares and examines slides to identify microscopic external and internal parasites; administers medications and innoculations, as prescribed; maintains laboratory animal colony, under supervision; makes appropriate entries on animal health records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises veterinary specialists in veterinary dispensary, animal hospital, laboratory animal colony, and animal farm; plans work schedules; trains veterinary specialists in work techniques and procedures; assures compliance with state, federal, and military regulations for handling, housing, and quarantine of animals; keeps inventory of all species of animals, laboratory and special diets, and equipment; evaluates animals to determine suitability for use in specific research projects; requisitions, stores, and issues supplies, equipment, and surgical instruments; reviews and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 3 in anatomy and physiology of animals, 2 in microbiology, 2 in aninal hygiene, 2 in screening for diseases in animal populations, 2 in medical and surgical procedures for animals, 1 in animal nutrition, 1 in pharmacology, and 1 in administration of medications; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 3 in anatomy and physiology of animals, 3 in personnel supervision, 3 in administration of veterinary service facilities, 2 in microbiology, 2 in animal hygiene, 2 in screening for diseases in animal populations, 2 in medical and surgical procedures for animals, 1 in animal nutrition, 1 in pharmacology, and 1 in administration of medications. In the upper-division baccalaureate category, 2 semester hours in veterinary science research; if the duty assignment is chief veterinary animal NCO at pay grade E-8, 3 additional semester hours for field experience in management; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (3/76).

MOS-91T-002

ANIMAL CARE SPECIALIST
(ANIMAL SPECIALIST)

91T10

91T20

91T30

91T40

Exhibit Dates: 9/76-2/78.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Under the direction of a veterinarian, supervises, performs, or assists in the care and treatment of small, medium-sized, and large animals. *Skill Level 10:* Assists in providing animal care, management, and treatment by feeding and watering small and medium-sized animals; cleans and sanitizes animal facility, equipment, and utensils; receives and identifies incoming animals; quarantines incoming and sick animals; administers parenteral and oral medications and immunizations; collects and prepares blood and urine samples and fecal specimens; performs common laboratory tests, such as examination for microfilaria; assists in taking radiographs; prepares animals and equipment for surgery and anesthesia; administers post-operative treatment and monitors post-operative recovery; provides emergency treatment when appropriate; records laboratory results in health records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides animal care, management, and treatment; prepares health and vaccination certificates for veterinarian's signature; requisitions, receives, stores, and inventories pharmaceuticals, supplies, and equipment; prepares reagents, emergency drugs, and special animal rations; maintains animal files, including registration, health data, and immunization record; identifies common animal diseases and performs standard treatment techniques; debrides and sutures superficial wounds; calculates and administers drugs; induces general anesthesia and operates anesthetic equipment; assists in surgical procedures; maintains operating room supplies and cleanliness; performs appropriate laboratory analyses; informs owners of proper treatment instructions and medications prescribed by veterinarian; supervises animal registry and animal pound. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small and medium-sized veterinary activities; organizes work schedules and assigns duties; instructs personnel in proper work techniques and procedures; evaluates personnel performance and prepares evaluation reports; establishes safety procedures; supervises operator maintenance on assigned equipment; conducts in-service training programs; supervises requisition of supplies and equipment; prepares, reviews, and consolidates technical, personnel, and administrative reports; inspects facility; assists veterinarian in personnel, supply, and fiscal matters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large veterinary activities.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques. In the lower-division baccalaureate/associate degree category, 2 semester hours in animal hygiene, 2 in animal diseases, 1 in microbiology, 1 in anatomy and physiology of animals, and 1 in administration of drugs; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 4 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 2 in animal hygiene, 2 in animal diseases, and 1 in surgical procedures for animals; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 4 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 3 in personnel supervision, 3 in technical report writing, 3 in office management, 2 in animal hygiene, 2 in animal diseases, and 1 in surgical procedures for animals; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in veterinary facility management and for field experience in management on the basis of institutional evaluation; if served as a researcher (and/or participated in research studies), additional credit on the basis of institutional evaluation (6/77).

MOS-91T-003

ANIMAL SPECIALIST

91T10
91T20
91T30
91T40

Exhibit Dates: 3/78–Present.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Under the direction of a veterinarian, supervises or provides care and treatment for small, medium-sized, and large animals. *Skill Level 10:* Provides animal care, management, and treatment; feeds and waters small and medium-sized animals; cleans and sanitizes animal facility, equipment, and utensils; receives and identifies incoming animals; quarantines incoming and sick animals; administers parenteral and oral medications and immunizations; collects and prepares blood and urine samples and fecal specimens; performs common laboratory tests, such as examination for microfilaria; assists in taking radiographs; prepares animals and equipment for surgery and anesthesia; administers post-operative treatment and monitors post-operative recovery; provides emergency treatment when appropriate; records laboratory results in health records; prepares health and vaccination certificates for veterinarian's signature; requisitions, receives, stores, and inventories pharmaceuticals, supplies, and equipment; prepares reagents, emergency drugs, and special animal rations; maintains animal files, including registration, health data, and immunization record; identifies common animal diseases and performs standard treatment techniques; debrides and sutures superficial wounds; calculates and administers drugs; induces general anesthesia and operates anesthetic equipment; assists in surgical procedures; maintains operating room supplies and cleanliness; performs appropriate laboratory analyses; informs owners of proper treatment instructions and medications prescribed by veterinarian; supervises animal registry and animal pound. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts on-the-job training and provides technical guidance to Skill Level 10 personnel; may supervise up to 9 persons. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small and medium-sized veterinary activities; organizes work schedules and assigns duties; instructs personnel in proper work techniques and procedures; evaluates personnel performance and prepares evaluation reports; establishes safety procedures; supervises operator maintenance on assigned equipment; conducts in-service training programs; supervises requisition of supplies and equipment; prepares, reviews, and consolidates technical, personnel, and administrative reports; inspects facility; assists veterinarian in personnel, supply, and fiscal matters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large veterinary activities.

Recommendation, Skill Level 10

In the vocational certificate category, 15 semester hours in veterinary laboratory techniques. In the lower-division baccalaureate/associate degree category, 2 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 3 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 2 in animal hygiene, 2 in animal diseases, and 1 in surgical procedures for animals. In the upper-division baccalaureate category, 6 semester hours in research on the basis of institutional review of scientific papers or projects (9/80).

Recommendation, Skill Level 20

In the vocational certificate category, 15 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 2 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 3 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 2 in animal hygiene, 2 in animal diseases, 1 in surgical procedures for animals, 3 in personnel supervision, and 3 in advanced veterinary laboratory techniques. In the upper-division baccalaureate category, 6 semester hours in research on the basis of institutional review of scientific papers or projects (9/80).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 2 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 3 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 3 in personnel supervision, 3 in technical report writing, 3 in office management, 2 in animal hygiene, 2 in animal diseases, 1 in surgical procedures for animals, and 3 in advanced veterinary laboratory techniques. In the upper-division baccalaureate category, 6 semester hours in research on the basis of institutional review of scientific papers or projects (9/80).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in veterinary facility management and for field experience in management on the basis of institutional evaluation; and 6 semester hours in research on the basis of institutional review of scientific papers or projects (9/80).

MOS-91U-001

EAR, NOSE, AND THROAT SPECIALIST

91U20
91U40

Exhibit Dates: 9/75–8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises or conducts routine diagnostic tests and assists in caring for and treating patients with ear, nose, and throat illnesses or injuries. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); administers and records patient responses to various labyrinthine tests; measures audiotory acuity with audiometer and tuning forks, records test results, makes graphs and interpolates to determine patients' test scores and need for further audiometric testing; irrigates patients' ears; assists physician with clinical procedures, such as Proetz position treatment, antral irrigation, control of nose and throat hemorrhage, dilation of salivary gland ducts and removal of calculi, reduction of nasal fractures, biopsies of the ears, nose, and throat; assists surgeon in removing cysts, nasal polyps, and other minor surgery; assists with application of post operative dressings and procedures; sterilizes and cares for instruments and equipment; performs and records results of special diagnostic tests, such as electronystagmography and acoustic bridge. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists in management of ENT clinics; instructs Skill Level 20 personnel in proper work techniques and procedures; organizes work schedules; assigns duties; sets priorities; inspects clinic and takes corrective action, as necessary; supervises maintenance program of clinical equipment; requisitions, stores, and issues supplies; prepares administrative and patient reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours for clinical experience in otolaryngology, 4 for clinical experience in audiometry, 3 in principles of audiometry, 3 in diseases and injuries of the ears, nose, and throat, and 1 in anatomy and physiology of the ears, nose, and throat (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 4 semester hours for clinical experience in otolaryngology, 4 for clinical experience in audiometry, 3 in principles of audiometry, 3 in diseases and injuries of the ears, nose, and throat, 1 in anatomy and physiology of the ears, nose, and throat, 2 in clinic management, and 1 in personnel supervision (3/76).

MOS-91U-002

EAR, NOSE, AND THROAT (ENT)
SPECIALIST
91U10
91U20
91U30
91U40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Conducts routine diagnostic tests and assists physician in care and treatment of ear, nose, and throat patients. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); administers and records patient responses to various diagnostic and labyrinthine tests; measures auditory acuity; irrigates patients' ears; sets up equipment and assists physician with clinical procedures; obtains specimens for culture and prepares laboratory requests; prepares equipment trays and basins; assists the physician in the performance of minor surgery; sterilizes and cares for instruments and equipment; operates resuscitation and oxygenation equipment; performs and records the results of diagnostic tests; assists audiologist in hearing aid evaluation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; administers prescribed medication. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in managing a small ear, nose, and throat clinic; organizes work schedules; assigns duties; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; prepares training programs; evaluates personnel performance and prepares evaluation reports; coordinates activities of ENT clinic with other elements of the medical treatment facility; assists physician with personnel, fiscal, and administrative matters; prepares, reviews, and consolidates technical and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large ear, nose, and throat clinic.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 4 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, and 1 in anatomy and physiology (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 7 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, 2 in principles of audiometry, and 1 in anatomy and physiology (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 7 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, 3 in personnel supervision, 2 in principles of audiometry, 2 in communication skills, 2 in principles of management, 1 in anatomy and physiology, and 1 in health care management. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91V-001

RESPIRATORY SPECIALIST
91V20
91V40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Operates equipment to deliver medicinal gases and drugs in aerosoled mist to respiratory system and performs diagnostic tests. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); administers oxygen and aerosols containing prescribed medications to aid ventilation; assists in operation of mechanical respiratory aids; observes and records response of patients and conditions requiring professional attention; operates spirometer to obtain diagnostic data; performs blood gas analyses; calculates respiratory volumes; prepares records of test results. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans work schedules; makes duty assignments; trains subordinate personnel in techniques and procedures; provides orientation to other hospital personnel; instructs on precautions and enforces safety regulations; responsible for purchases and inventories; prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic sciences (mathematics, chemistry, physics), 4 in anatomy and physiology, 1 in pharmacology, 2 in microbiology and immunology, 8 in cardiopulmonary physiology and resuscitation, 4 in clinical medicine, 1 in physical therapy, 4 in respiration therapy, and 8 in clinical experience in respiration therapy (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic science (mathematics, chemistry, physics), 4 in anatomy and physiology, 1 in pharmacology, 2 in microbiology and immunology, 8 in cardiopulmonary physiology and resuscitation, 4 in clinical medicine, 1 in physical therapy, 4 in respiration therapy, 8 in clinical experience in respiration therapy, 3 in personnel supervision, and 3 in human relations (3/76).

MOS-91V-002

RESPIRATORY SPECIALIST
91V10
91V20
91V30
91V40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Assists with the care and treatment of patients requiring respiratory assistance; performs pulmonary function tests under the supervision of a physician or anesthetist. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); administers respiratory therapy and performs pulmonary function tests; receives and interprets treatment request; prepares and tests equipment; mixes prescribed cardiopulmonary medications; verifies identity and instructs, orients, and positions patient for therapy; adjusts controls of intermittent positive pressure breathing (IPPB) apparatus and administers therapy; assesses tidal volume and adjusts apparatus to meet ventilatory changes; observes, corrects, and records patient response; administers aerosol and gas therapy; adjusts and maintains equipment during operation and observes safety regulations; administers pulmonary drainage procedures; percusses and virbrates patient; collects and visually analyzes sputum specimens for foreign substances; assists with cardiopulmonary resuscitation, evaluates effectiveness, and records results; prepares and tests nebulizer for administration of medication and adjusts for drug concentration; follows isolation procedures; disassembles, cleans, sterilizes, assembles, and tests respiratory therapy equipment; adjusts volume ventilator controls for initial operation and during therapy; observes and corrects patient response and evaluates ventilator effectiveness; weans patient from ventilator dependence; prepares, tests, and administers special volume ventilator equipment, such as chronic positive pressure breathing (CPPB), intermittent mandatory ventilation (IMV), chronic positive airway pressure (CPAP), and positive and expiratory pressure (PEEP); applies electromechanical monitors; evaluates airway patency; instills solution prior to tracheobronchial aspiration; hyperinflates and hyperoxgenates patient; aspirates tracheobronchial passage; inflates and deflates tracheostomy cuff; provides tracheostomy tube and stoma care; evaluates patient cardiorespiratory status; utilizes emergency ventilators; evaluates resuscitator's effectiveness; implements culturing procedures; applies corrective actions for contaminated equipment; reads and evaluates patient charts; instructs patient and family in breathing exercises and postural drainage procedures and evaluates ability to operate home therapy equipment; maintains safe, clean, and orderly work area; stores and maintains supplies and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 calibrates and slopes arterial blood gas analyzer; performs arterial blood gas procedures and interprets and records results; applies safety precautions relevent to pulmonary function testing; calculates data, and compares results; performs auscultation of lungs; receives and issues supplies and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in defibrillation of patient; plans and monitors culturing procedures; determines corrective action for contaminated equipment; inspects working areas to insure an orderly, clean, and safe environment for patients; supervises operational maintenance program of clinical equipment; prepares and conducts training programs; evaluates personnel performance and prepares evaluation reports; prepares administrative technical and patient reports; supervises packing, unpacking, loading, unloading, and setting up of unit equipment and shelters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises respiratory unit activities; applies and monitors safety procedures relevant to modular pulmonary function testing; administers test, calculates test data, records results, and compares results with normal predicted values; develops, implements, and evaluates training programs; compiles management data, evaluates and determines personnel requirements, and assists in the planning and operation of respiratory unit; coordinates activies of unit with other elements of the medical treatment facility; advises and assists professional staff in supply economy procedures and fiscal, technical, and administrative matters; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 30 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 8 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), and 1 in pharmacology (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 33 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 11 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), and 1 in pharmacology (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 33 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 11 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), and 1 in pharmacology (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 33 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 11 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), 1 in pharmacology, 3 in personnel supervision, and 3 in clinic management. In the upper-division baccalaureate category, credit in patient care administration, introduction to management, and for field experience in management on the basis of institutional evaluation (6/77).

MOS-91W-001

NUCLEAR MEDICINE SPECIALIST

91W20
91W40

Exhibit Dates: 9/75–8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Supervises or performs medical diagnostic and therapeutic procedures with isotopes. *Skill Level 20:* Able to perform the duties required for Skill Level 20 of MOS 91P (X-Ray Specialist) or 92B (Medical Laboratory Specialist); uses radioactive materials to aid in diagnosis and treatment of patients; operates radiological imaging devices and counters; makes scans of organs, such as brain, liver, thyroid, kidneys, pancreas, spleen, and lungs; labels pharmaceuticals with radioactive materials; calculates dosage, prepares dilution, and administers radiopharmaceuticals orally or by injection, under direct supervision of physician; performs blood volume determination, Schilling test, thyroid uptake, red cell survival time, and fat metabolism studies on collected specimens; performs assay procedures, such as thyroxine, cortisal, digoxin and insulin determinations, on biologic specimens, in vitro, using beta and gamma radioassay techniques; determines and records activity of radioisotope stocks and waste; operates detectors to determine presence of health hazards from therapeutic, diagnostic, and experimental radioactive isotopes; measures and records degree of contamination, controls spread of contamination, and institutes decontamination procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises operation of nuclear medicine facility; evaluates accuracy, efficiency, and safety of all techniques; conducts radiation safety program; requisitions, accounts for, and stores radioisotopes; disposes of stocks when radioactivity decays to nonusable level; reviews, consolidates, and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 12 semester hours for a practicum in nuclear medicine, 8 in nuclear medicine methodology, 2 in nuclear physics, 2 in nuclear instrumentation, 1 in radiopharmaceuticals, and 1 in radiation safety (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 12 semester hours for a practicum in nuclear medicine, 8 in nuclear medicine methodology, 3 in interpersonal relationships in health care, 3 in personnel supervision, 2 in nuclear physics, 2 in nuclear instrumentation, 2 in radiation safety, and 1 in radiopharmaceuticals (3/76).

MOS-91W-002

NUCLEAR MEDICINE SPECIALIST

91W10
91W20
91W30
91W40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises or performs medical diagnostic and therapeutic procedures with radioactive isotopes. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91P (X-Ray Specialist), 92B (Medical Laboratory Specialist) or 91B (Medical Specialist); prepares and administers radioisotopes to patients and operates radiological imaging devices and counters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks, standardizing procedures, and preventive maintenance on equipment; calculates dosage, prepares dilution, and administers it under direct supervision of physician; operates imaging device to make scans of organs, such as brain, liver, thyroid, pancreas, spleen, and lungs; makes photographs of images; collects appropriate specimens for procedures, such as blood volume determination, Schilling test, thyroid uptake, red cell survival time, and fat metabolism studies; performs assay procedures, using beta and gamma radioassay techniques; determines activity of radioisotope stocks and waste; determines presence of health hazards from therapeutic, diagnostic, and experimental radioactive isotopes; measures and records degree of contamination, controls spread of contamination, and institutes decontamination procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists with the management of a nuclear medicine facility; requisitions, accounts for, and stores radioisotopes used in the laboratory; is responsible for radiation safety program in laboratory area; supervises radiation survey, monitoring, and comtamination control procedures; disposes of stocks when radioactivity decays to nonusable level; establishes work priorities and procedures; organizes work schedules; assigns duties; establishes safety procedures; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; evaluates personnel performance and prepares evaluation reports; prepares patient, technical, and administrative reports; coordinates activities of nuclear medicine facility with other elements of the medical treatment facility; advises and assists professional staff with technical, administrative, and fiscal matters.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in algebra, and 6 in physics, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, and 6 in physics, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, 6 in physics, and 3 in advanced nuclear medicine procedures, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, 6 in physics, and 3 in advanced nuclear medicine procedures, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, 6 in physics, 3 in advanced nuclear medicine procedures, 3 in personnel supervision, and 3 in human relations, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in administration of nuclear medicine facility (6/77).

MOS-91X-001

HEALTH PHYSICS SPECIALIST

91X20
91X30
91X40

Exhibit Dates: 9/83–Present.

Career Management Field: 91 (Medical).

Description

Summary: Supervises or performs technologist-level health physics functions in support of radiation protection programs either in medical treatment facilities or other agencies operating under Army control. *Skill Level 20:* Conducts ionizing and non-ionizing radiation protection surveys, including diagnostic x-ray, nuclear medicine in-patient, sealed and unsealed source radiation therapy and teletherapy in research and vitro clinical laboratories, industrial facilities, gamma irradiators, waste storage and disposal areas, electronic microscope, laser, microwave equipment, ultraviolet and high intensity visible light source facilities, environmental radiation and occupational air sampling; evaluates out-patient potential hazards and development of improvement techniques to minimize risk of radiation exposure to workers; coordinates collections and disposal of radioactive waste with material users, calibrates radiation survey meters and other health physics-type detectors, monitors, and measuring equipment; arranges outside calibration support; conducts preliminary investigation of radioactive contamination incidents and apparent overexposure to radiation; prepares results of surveys; performs quality control procedures; develops and presents special radiation safety instruction for technician-level users. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assumes basic supervisory activities; supervises personnel dosimetry program; establishes work schedules and priorities; conducts non-routine radiation protection surveys; performs non-routine analysis; reports incidence of non-compliance; evaluates complex radiation activities for potential hazards; evaluates working conditions for workers; conducts studies to define radiation hazards; repairs and calibrates complex equipment; develops requirements for new equipment; prepares data for budget planning; conducts training of emergency team members. *Skill Level 40:* Able to perform the duties required for Skill Level 30; designs and conducts sophisticated radiation protection surveys; reviews plans for proposed construction of radiation facilities for design adequacy; conducts thorough investigations of unusual or complex radiation incidents.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of physical sciences, 4 in introduction to health physical sciences, 2 in environmental and legal aspects of radiation, 5 in medical x-ray survey procedures, and 5 for clinical experience in applied health physics (9/85).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of physical sciences, 4 in introduction to health physical sciences, 2 in environmental and legal aspects of radiation, 5 in medical x-ray procedures, 5 for clinical experience in applied health physics, 2 in oral communications, and 3 for field experience in radiation protection (9/85).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of physical sciences, 4 in introduction to health physical sciences, 2 in environmental and legal aspects of radiation, 5 in medical x-ray procedures, 5 for clinical experience in applied health physics, 3 in oral communications, and 6 for field experience in radiation protection (9/85).

MOS-91Y-001

EYE SPECIALIST

91Y20
91Y40

Exhibit Dates: 9/75–8/76.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Supervises or conducts routine dagnostic tests and assists in care and treatment of ophthomology or optometry patients. *Skill Level 20:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); measures visual acuity; neutralizes and records power or corrective lenses or fragments of lenses; measures and records color vision, accommodative ability, muscle balance, intraocular pressure, limits of central and peripheral visual field, corneal curvature and vertical height of palpebral fissure; takes necessary measurements for fitting spectacles; treats minor eye ailments and injuries; assists physician in performing minor surgery; maintains ophthalmology and optometry equipment and instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists in management of eye clinic; organizes work schedules and sets priorities; assigns duties; instructs Skill Level 20 personnel in proper work techniques and procedures; inspects clinic and initiates corrective action, if necessary; supervises maintenance of clinical equipment; requisitions, stores, and issues supplies; prepares administrative and patient reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours for clinical experience in ophthalmology, 3 for clinical experience in optometry, 2 in anatomy and physiology of the eye, 2 in principles of ophthalmology, and 2 in principles of optometry (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for clinical experience in ophthalmology, 3 for clinical experience in optometry, 2 in anatomy and physiology of the eye, 2 in principles of ophthalmology, 2 in principles of optometry, 2 in clinic management, and 1 in personnel supervision (3/76).

MOS-91Y-002

EYE SPECIALIST

91Y10
91Y20
91Y30
91Y40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Summary: Conducts routine diagnostic tests and assists in care and treatment of ophthalmology or optometry patients. *Skill Level 10:* Able to perform the duties required for Skill Level 10 of MOS 91B (Medical Specialist); conducts routine diagnostic tests, administers prescribed medications, and assists in caring for eye patients; determines purpose of patient visit; administers various visual tests and records results; measures accommodative ability; measures muscle balance with and without correction, near and distant; measures limits of central and peripheral field, intraocular pressure, interpupillary distance, bridge size, and temple length; performs minor repairs and adjustments to spectacles; instills drops and ointments in eye as prescribed; removes nonimbedded foreign objects from surface of eye or underside of lid; assists in obtaining specimens; assists the physician in performing minor surgery; maintains opthalmology and optomety equipment and instruments; performs prescribed sterilization procedures; performs ophthalmic photography; measures prismatic power of lenses; operates resuscitation and oxygenation equipment; instructs patients in insertion, removal, and care of contact lenses; prepares slides for weights and grams staining; applies and removes dressings as directed; performs emergency procedures as required; maintains inventory of supplies and equipment; *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in managing a small ophthalmology or optometry clinic; organizes work schedules and determines personnel requirements; assigns duties and established work priorities; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; evaluates personnel performance and prepares evaluation reports; coordinates activities of ophthalmology and optometry clinics with other elements of the medical treatment facility; assists physician with personnel, fiscal, and administrative matters; prepares patient and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large ophthalmology or optometry clinic.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 4 for a practicum in ophthalmology, 4 for a practicum in optometry, 2 in principles of optometry, and 1 in anatomy and physiology (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 6 for a practicum in ophthalmology, 6 for a practicum in optometry, 2 in principles of optometry, and 1 in anatomy and physiology (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 6 for a practicum in ophthalmology, 6 for a practicum in optometry, 2 in principles of optometry, 1 in anatomy and physiology, 3 in personnel supervision, 2 in communication skills, 2 in principles of management, and 1 in health care administration. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91Z-001

MEDICAL SENIOR SERGEANT

91Z50

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 91Z was discontinued and its functions were incorporated into MOS 91B, Medical Specialist.)

Career Management Field: 91 (Medical), subfield 912 (Patient Care).

Description

Skill Level 50: Supervises general administrative functions in a medical or treatment facility; advises superiors on administrative matters; establishes and supervises the maintenance of medical records and medical reporting systems; prepares periodic and special reports concerning assigned personnel, patients, and medical care and treatment operations; evaluates training programs and requirements and supervises or conducts individual or group training; assists command surgeon in technical supervision of subordinate medical activities, staff, and unit operations; makes recommendations for improving working conditions and procedures; determines requirements for and adequacy of medical service supporting elements such as ambulance, supply, and transportation. NOTE: Required to have attained Skill Level 40 or 50 in a least one other in the MOS in the medical career management field (91).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 26 semester hours in administration or management, 12 for an internship in medical administration, 6 in accounting, 6 in business machines operation, and 6 in medical records administration. In the upper-division baccalaureate category, a minimum of 17 semester hours in administration or management, 6 for an internship in medical administration, and 3 in medical records administration, and additional credit in accounting, business machines operation, administration or management, medical records administration, and for an internship in medical administration on the basis of institutional evaluation (2/75).

MOS-92B-001

MEDICAL LABORATORY SPECIALIST

92B20

92B30

92B40

Exhibit Dates: 10/73-8/76.

Career Management Field: 91 (Medical), subfield 914 (Medical Services).

Description

Summary: Supervises or performs bloodbanking procedures and elementary and advanced examinations of biological specimens to aid in diagnosis, treatment, and prevention of disease. *Skill Level 20:* Performs blood banking and elementary laboratory procedures related to immunohematology, hematology, biochemistry, serology, bacteriology, and parasitology; selects, pretests, and bleeds donors and stores and issues blood; determines ABO group and Rh type of donor and recipient; performs immunohemotology techniques, such as antibody detection and identification, antibody titers, and compatability testing; prepares and stores blood components; performs hematology tests and determinations, such as hemoglobin, cell counts, and sedimentation rate; conducts elementary biochemical tests relating to blood glucose, blood urea nitrogen, amlase, sodium and potassium chloride, and carbon dioxide; performs serology procedures, such as preparation of antigen emulsion, use of control sera, and cardiolipin microflocculation tests; tests urine and urine sediment to determine specific gravity, sugar, protein, ketone, blood, pathological constituents, and presence of formed elements and amorphous sediment; examines feces for presence of protozoa and helminths; prepares and sterilizes synthetic culture media; introduces specimens into appropriate media, incubates culture, prepares smears, makes stains, and examines slides under microscope; isolates and identifies bacterial organisms of the cocci family and common gramnegative microorganisms; calculates and records findings; collects and processes specimens for shipment to consultant laboratories. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs advanced procedures in all phases of clinical laboratory testing, including virology, mycology, histology, toxicology, and radiobiology; makes subcultures, tissue cultures, antimicrobial sensitivity determinations, and animal inoculations and autopsies; performs clinical parasitology procedures; performs fluorescent antibody agglutenation, complement fixation and other serological tests; processes tissue removed by biopsy, from autopsy, or discharged from body; performs biochemical analyses of blood, urine, sweat, spinal fluid, and tissue for carbohydrates, proteins, hemoglobins, lipids, hormones, minerals, electrolytes, vitamins, enzymes, pigments, and drugs; performs metabolic and liver and renal function tests; screens exfoliative cytology specimens; performs complete blood counts and identifies and reports erythrocyte and leukocyte maturation stages in normal and abnormal cells; performs special procedures in staining, preparation of bone marrow films, erythrocyte osmotic fragility studies, lupus erythematosus films, hemoglobin electrophoresis, detection of coagulation disorders, and abnormal cell morphology in anemias and leukemias; analyzes air, food, water, and biological fluids for radioactivity and makes radionuclide determinations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises medical laboratory activities; logs requests for laboratory procedures; establishes priorities; distributes workload; forwards specimens to consultant laboratories, as required; supervises Skill Level 20 and 30 personnel; conducts quality control program to assure validity of clinical laboratory results; assists with inspection of laboratory, notes discrepancies, and initiates corrective action; requisitions, stores, and issues supplies and equipment; reviews, consolidates, and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic procedures in hematology, 4 in basic procedures in clinical chemistry and urinalysis, 3 in basic procedures in immunohematology and serology, 3 in procedures in medical bacteriology, and 2 in basic procedures in parasitology (3/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 16 semester hours in advanced clinical chemistry, 8 in advanced hematology, 8 in advanced medical bacteriology, 4 in introduction to cytology, 4 in parasitology, 4 in immunology, 4 in histopathology, 4 in immunohematology and blook banking, 4 in mycology, 4 in virology, and 2 in anatomy and physiology (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 16 semester hours in advanced clinical chemistry, 8 in advanced hematology, 8 in advanced medical bacteriology, 4 in introduction to cytology, 4 in parasitology, 4 in immunology, 4 in histopathology, 4 in immunohematology and blood banking, 4 in mycology, 4 in virology, 2 in anatomy and physiology, 2 in medical laboratory management, and 1 in personnel supervision (3/76).

MOS-92B-002

MEDICAL LABORATORY SPECIALIST

92B10

92B20

92B30

92B40

92B50

Exhibit Dates: 9/76-Present.

Career Management Field: 91 (Medical), subfield 913 (Health Services).

Description

Summary: Performs bloodbanking procedures and elementary and advanced examinations of biological and environmental specimens to aid in diagnosis, treatment, and prevention of disease. *Skill Level 10:* Receives, collects, and labels specimens; calculates and records results of analyses; prepares laboratory specimens for the determination of parasites, plasmodium species, ABO group and Rh type blood; performs antihuman globulin, microhematocrit, and manual hemoglobulin procedures; performs manual white-blood-cell counts; prepares and examines thin-blood film slides and stain procedures; performs erythrocyte sedimentation rate procedures; determines specific gravity and performs chemical tests on urine to detect glucose, protein, blood, ketones, mucin, or melanogen; prepares urine samples for determination of PH, microscopic examination, cells, and mucous threads; innoculates bacteriological specimens and stains bacteriological smears and examines for stain reaction; prepares and sterilizes culture media; performs manual biochemical determinations on blood; examines semiautomatically for chlorides, sodium, and potassium; performs basic serological screening for syphillis and rheumatoid arthritis; performs basic preventive maintenance on laboratory equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs bloodbanking and elementary laboratory procedures to immunohematology, hematology, biochemistry, serology, bacteriology, and parasitology; selects, pretests, and bleeds donors and stores and issues blood; determines ABO group and Rh type of donor and recipient; performs immunohematology techniques, such as antibody titers and compatability testing; prepares and stores blood components; performs ABO subgrouping and DU testing to detect antibodies; performs complete blood count and cell counts; performs coagulation tests; uses automated, semiautomated, or manual procedures to determine cholesterol, total protein and A/G ratio, blood pH, pO2, and pCO2; performs basic serology procedures for syphillis, pregnancy, infectious mononucleosis, and arthritis; prepares red cell suspensions and dilutions; examines body fluids and feces for presence of protozoa, helminths, and extraintestinal parasites; prepares and sterilizes culture media; innoculates specimens for microscopic examination; isolates, identifies, and studies microorganisms such as streptococcus, staphylococcus, pneumococcus, and common gramnegative organisms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small medical laboratory or performs advanced procedures in all phases of blood banking and clinical laboratory testing, including virology, mycology, histology, and toxicology; performs complex laboratory tests, examinations, and analyses under general supervision and provides technical assistance to subordinate personnel; performs cultures, antimicrobial sensitivity determinations, and animal inoculations, including those taken from autopsies; performs clinical parasitology procedures; performs fluorescent antibody agglutinaton, complement fixation, and other seriological tests; processes tissue; performs biochemical analysis of blood, urine, sweat, and spinal fluid for carbohydrates, proteins, hemoglobins, lipids, hormones, minerals, electrolytes, vitamins, enzymes, pigments, and drugs; performs metabolic, liver function, and renal function tests; screens exfoliative cytology specimens; performs complete blood counts and identifies maturation stages in normal and abnormal cells; performs special procedures in staining and preparing bone marrow smears, erythrocyte osmotic fragility studies, lupus erythematosus determinations, detection of coagulation disorders, complex electrophoresis studies, and abnormal cell morphology in anemias and leukemias; analyzes air, food, water, and biological fluids for contaminants; supervises operator maintenance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises medium-sized medical laboratory; develops and supervises quality control measures and procedures; assigns duties; organizes work schedules; instructs subordinates; inspects laboratory; supervises operational maintenance; determines personnel requirements and prepares and conducts training program; evaluates personnel performance; prepares administrative, technical, and personnel reports; coordinates activities of medical laboratories with other units of medical facility; assists laboratory officer in administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises large medical laboratory activities.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in a certified laboratory assistant program. In the lower-division baccalaureate/associate degree category, 15 semester hours in a medical laboratory technician program (basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology) (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 24 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology) (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 54 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking, histopathology, mycology, virology, anatomy and physiology, cytology, parasitology, advanced clinical chemistry, advanced medical bacteriology, and advanced hematology; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology). In the upper-division baccalaureate category, credit in medical technology, chemistry, and biology on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 54 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking, histopatholgy, mycology, virology, anatomy and physiology, cytology, parasitology, advanced clinical chemistry, advanced medical bacteriology, advanced hematology; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology), 3 in personnel supervision, and 3 in principles of administration. In the upper-division baccalaureate category, credit in medical technology, chemistry, biology, and medical facility management on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 54 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking, histopatholgy, mycology, virology, anatomy and physiology, cytology, parasitology, advanced clinical chemistry, advanced medical bacteriology, advanced hematology; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology), 3 in personnel supervision, and 3 in principles of administration. In the upper-division baccalaureate category, credit in medical technology, chemistry, biology, and medical facility management on the basis of institutional evaluation (6/77).

MOS-92C-001

Petroleum Laboratory Specialist

92C20
92C40

Exhibit Dates: 10/73–8/76.

Career Management Field: 92 (Petroleum).

Description

Summary: Performs or supervises physical and chemical tests on petroleum products to determine suitability for intended use. *Skill Level 20:* Prepares reagents and glassware; calibrates and standardizes laboratory instruments; obtains petroleum test samples; performs complete specification tests, including determination of tetraethyl lead in gosoline, oxidation stability of petroleum products, and water separation; performs preventive maintenance on technical laboratory equipment; uses adequate fire prevention and safety control measures; prepares layouts and installs equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises petroleum laboratory testing activities and participates in quality surveillance programs; evaluates test results; supervises injection of anti-icing additives and corrosion inhibitors during pipeline transfers; establishes stock levels and requisitions and stores equipment, chemicals, reagents, and reference fuels; determines methods of reclaiming or downgrading contaminated and deteriorated petroleum products; plans work schedules, assigns duties, and trains personnel in laboratory techniques; prepares and reiews administrative and technical reports; supervises from four to ten or more persons.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical laboratory, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical laboratory, 2 in basic chemistry, 1 in chemical safety, 1 in first aid, 3 for field experience in management, 3 in human relations, and 3 in personnel supervision (5/76).

MOS-92C-002

Petroleum Laboratory Specialist

92C10
92C20
92C30
92C40

Exhibit Dates: 9/76–3/87. (The designator for MOS 92C has been changed to MOS 77L; see exhibit MOS-77L-001.)

Career Management Field: 92 (Petroleum).

Description

Summary: Performs or supervises physical and chemical tests on petroleum products to determine suitability for intended use. *Skill Level 10:* Prepares laboratory equipment for operation; prepares reagents; calibrates instruments; obtains petroleum test samples; performs preventive maintenance on technical laboratory equipment; performs specification tests, including water content, sediment, color, carbon residue, penetration, and oxidation stability; performs quality surveillance tests; uses fire prevention and safety control measures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; employs cooperative fuel research engine to test fuels; prepares laboratory reports; evaluates test results with specification requirements and makes product recommendations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes calibration program; assists in establishment of quality surveillance programs; supervises medium-sized petroleum laboratory activities; plans work schedules and assigns duties; makes inspections of laboratory to insure proper procedures are being followed and work is being done efficiently; supervises inspection of anti-icing additives and corrosion inhibitors during pipeline transfers; supervises placement, setting up and maintenance of laboratory equipment; coordinates petroleum product storage and distribution activities; reviews work reports and evaluates results; maintains inventory control and performs all related supply activity; insures adherence to laboratory fire and safety procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large petroleum laboratory; assists and plans quality surveillance operations; applies principles of OSHA and EPA regulations; determines methods of reclaiming or downgrading contaminated and deteriorated petroleum products; performs quality surveillance of loading and unloading bulk shipments to insure safety and to prevent contamination; insures proper sampling and laboratory analysis of petroleum products; monitors sampling, testing, use, and blending of additives; makes reports on analysis results, environmental considerations, contracts for petroleum products, transporting, and storage; generally supervises from four to ten persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 3 semester hours in petroleum products analysis, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 3 in technical writing, 3 in human relations, 2 in basic chemistry, 2 in industrial safety, 1 in chemical safety, and 1 in first aid. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/77).

MOS-92D-001

CHEMICAL LABORATORY SPECIALIST

92D20

92D40

92D50

Exhibit Dates: 10/73–2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs routine chemical and physical tests in a chemical laboratory. *Skill Level 20:* Balances equations; knows and uses basic gas laws; performs stoichiometric calculations; sets up laboratory equipment for chemical and physical tests; prepares and labels standard solutions and reagents; performs field sampling; performs routine laboratory analysis of chemicals with established formulas and procedures; conducts physical tests to determine durability, strength, and resistance to effects of climate or chemicals of items such as clothing, shoes, paints, plastics, metals, and ceramics; performs quantitative and qualitative analyses, including microanalytical; performs toxicological studies to determine irritability and permeability; determines beta and gamma energies and half-lives of unknown isotopes; keeps records and repair reports; requisitions, receives, stores, and inventories chemical supplies and equipment; understands and applies safety procedures. NOTE: May have progressed to 92D20 from 54A10 (Chemical Operations Assistant). *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of chemical laboratory personnel; estimates supply requirements based on current and projected workloads; improvises apparatus and procedures for special purposes; instructs subordinates in laboratory techniques and procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-lever manager involved in planning, coordinating, and supervising the activities of a chemical laboratory; advises company commander on all matters concerning enlisted personnel; assists company commander in planning and implementing unit training; coordinates operation of the unit food service and supply activities.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in basic instrumental analysis, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in basic instrumental analysis, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management (5/76).

MOS-92D-002

CHEMICAL LABORATORY SPECIALIST

92D10

92D20

92D30

Exhibit Dates: 3/77–6/86. (Effective 6/86, MOS 92D was discontinued.)

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs routine chemical, biological, and physical tests. *Skill Level 10:* Balances equations; knows and uses basic gas laws; performs stoichiometric calculations; sets up laboratory equipment for chemical and physical tests; prepares and labels standard solutions and reagents; performs field sampling; performs routine laboratory analysis of chemicals with established formulas and procedures; conducts physical tests to determine durability, strength, and resistance of items such as clothing, shoes, paints, plastics, metals, and ceramics to the effects of climate or chemicals; performs quantitative and qualitative analyses, including micro-analytical; performs toxicological studies to determine irritability and permeability; determines beta and gamma energies and half-lives of unknown isotopes; keeps records and repair reports; requisitions, receives, stores, and inventories chemical supplies and equipment; understands and applies safety procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as Section Chief and supervise up to 12 Chemical Laboratory Specialists; estimates supply requirements based on current and projected workloads; improvises apparatus and procedures for special purposes; instructs subordinates in laboratory techniques and procedures; performs field sampling and identification of chemical agents.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety (8/78).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety (8/78).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety; if served as a section chief, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management (8/78).

MOS-92E-001

CYTOLOGY SPECIALIST

92E20

92E30

92E40

Exhibit Dates: 9/81-Present.

Career Management Field: 91 (Medical).

Description

Summary: Provides professional support and service to pathologists by supervising or performing diagnostic cytology services and rendering diagnoses. *Skill Level 20:* Logs, processes, and examines variety of cellular samples of tissues and body fluids and renders diagnoses; examines microscope slides containing cells and processes cytological specimens from vagina and cervix, pleural fluid, gastric juice, bronchial washings, ascitic fluid, spinal fluid, prostatic fluid or needle aspiration, breast secretions or aspirates, urine, sputum, buccal smears, other body secretions, excretions, or scraping, bones and soft tissue tumors; identifies variety of cell types from various parts of body and interprets morphologic abnormalities; interprets variations that fall within normal limits and subtle variations in gross and microscopic appearance of cytologic specimens and correlates clinical history with microscopic findings; evaluates and interprets cellular morphologic changes associated with infectious processes including viral, bacterial, fungal, and parasitic diseases; identifies organisms where possible on morphologic basis; interprets endocrinologic states, including both normal variations and abnormal conditions, as shown by cellular reactions; evaluates cellular changes brought about by radiation, drugs, and other forms of therapy; applies knowledge of carcinogenesis to interpretation of premalignant and malignant cellular changes; recognizes and reports wide variety of neoplasms, including both epithelial and mesodermal; differentiates between carcinoma-in-situ and invasive squamous carcinoma; classifies and grades neoplasm according to current classification schemes; determines, where possible, whether neoplasm is primary or metastatic; prepares written diagnostic reports on all cases based on correlation of clinical data with results fo cytologic study; includes interpretation of benign versus malignant, classification or grade of neoplasm, and recommendations for the need of further diagnostic procedures in these reports; assists in, selects, and advises on proper mode of collection of cytologic specimens; recognizes and evaluates departures from expected performance norms and determines and accomplishes necessary actions for correcting procedural deficiencies; examines specimens describing color, viscosity, amount, and specific gravity; determines, selects, and smears portions for the specimen that may have particular pathological significance; prepares cell blocks for transmittal to histology; prepares cytocentrifuge preparations; stains and coverslips specimens; selects and performs quality control procedures; performs routine histology procedures; inspects, cleans, adjusts, and calibrates laboratory equipment; receives, packs, unpacks, inspects, and stores supplies and equipment; maintains statistics and compiles monthly reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to subordinate personnel; supervises small cytology section; inspects laboratory to ensure orderly, clean, and safe environment; organizes work schedules and assigns duties; instructs subordinates in work techniques and procedures; evaluates personnel performances and counsels personnel; prepares evaluation reports; establishes and maintains teaching file of interesting or unusual cases; implements and conducts in-service and performance-oriented training programs; evaluates and initiates new procedures; performs advanced cytologic procedures, including chromosomal analysis by karyotyping; establishes and administers program for correlation of cytologic diagnosis with histological findings; reports findings to pathologist; reviews findings with pathologist; advises and assists in administrative, fiscal, personnel, and supply matters; prepares administrative technical, and personnel reports; requisitions, safeguards, issues, and monitors effective utilization of supplies and equipment; establishes reports control system; prepares and reviews correspondence; supervises maintenance of office files and technical administrative publications library; supervises operational and preventive maintenance program of assigned equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises medium and large cytology laboratories; develops and supervises quality control program; participates in training of resident physicians in pathology; reviews and consolidates reports.

Recommendation, Skill Level 20

In the upper-division baccalaureate category, 4 semester hours in introduction to cytology, 3 in female genital tract (benign), 4 in female genital tract (malignant), 2 in respiratory tract cytology, 2 in gastrointestinal tract cytology, 3 in central nervous system and effusion, 2 in urinary tract cytology, 3 in fine needle aspiration cytology, 2 in research, 18 for clinical experience, and 1 in organizational management (3/90).

Recommendation, Skill Level 30

In the upper-division baccalaureate category, 4 semester hours in introduction to cytology, 3 in female genital tract (benign), 4 in female genital tract (malignant), 2 in respiratory tract cytology, 2 in gastrointestinal tract cytology, 3 in central nervous system and effusion, 2 in urinary tract cytology, 3 in fine needle aspiration cytology, 2 in research, 24 for clinical experience, 3 in organizational managment, and 3 in laboratory administration (3/90).

Recommendation, Skill Level 40

In the upper-division baccalaureate category, 4 semester hours in introduction to cytology, 3 in female genital tract (benign), 4 in female genital tract (malignant), 2 in respiratory tract cytology, 2 in gastrointestinal tract cytology, 3 in central nervous system and effusion, 2 in urinary tract cytology, 3 in fine needle aspiration cytology, 2 in research, 24 for clinical experience, 6 in organizational management, 6 in laboratory administration, and 3 in educational methodology (3/90).

MOS-93B-001

AEROSCOUT OBSERVER

93B10

93B20

93B30

Exhibit Dates: 9/87-Present.

Career Management Field: 93 (Aviation Operations).

Description

Summary: Participates in aerial observation, communication and navigation in the operation of the observation/scout helicopter (OH58A/C). *Skill Level 10:* Develops flight plan; navigates by navigation aids or dead reckoning; locates target and determines coordinates or deviation from known point; uses map graphics to control security of operation by other units; communicates by open as well as secure means; performs as a crew memeber; recognixes hazards and executes evasive action; prepares situation reports relative to communication and navigation; maintains aircrew training manuals; assists pilot with visual and instrument navigation; performs aerial reconnaissance; directs close air support; relays requests for close support; formulates and transmits pilot reports relative to weather; assists in emergency procedures and is able to act as the helicopter pilot in emergencies. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and provides technical guidance to subordinates; prepares operational maps; indicates location and deployment of enemy and friendly units; reproduces and distributes required reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides information for tactical deployment to the commander; supervises maintenance equipment and ammunition issues; prepares weight and balance computations; collects, evaluates, and coordinates with adjacent units; prepares and updates enemy/friendly situation map; evaluates and counsels subordinates.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in basic helicopter maneuvers and 2 in aerial navigation (4/90).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic helicopter maneuvers and 4 in aerial navigation (4/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic helicopter maneuvers, 4 in aerial navigation, and 3 in principles of supervision (4/90).

MOS-93C-001

AIR TRAFFIC CONTROL (ATC) OPERATOR

93C10

93C20

93C30

93C40

93C50

Exhibit Dates: 9/88–12/89.

Career Management Field: 93 (Aviation Operation).

Description

Summary: Provides both radar and nonradar air traffice control services for military and civilian air traffic during take-off, flight, and landing under Visual Flight Rules (VFR), Special Visual Flight Rules (SVFR), and Instrument Flight Rules (IFR). *Skill Level 10:* Controls takeoffs, flight, and landing of IFR/VFR/SVFR air traffic; provides flight following, enroute, terminal approach control and ground controlled approach services; operates radar; installs and moves ATC radar and associated equipment; applies FAA and Army air traffic rules and regulations; may hold an FAA radar controller certificate; issues special air traffic control instructions to aviators concerning airfield facilities, emergency landing areas, obstructions, landmarks, flying areas, restrictions, local regulations, weather advisories, and observed hazards that affect the safe operation of aircraft; keeps records and statistics, including tape recordings of voice radio communications, on daily air traffic operations; processes incoming and outgoing flight data information and analyzes air traffic; operates airfield lighting systems, light signals, and nonradar approach control boards; employs aeronautical charts, maps, radio, and ground communications; applies FAA and Army air traffic rules and regulations and may hold an FAA control tower operator certificate; controls vehicular traffic on airport movement area. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises inspection procedures, site operation, and record keeping; prepares shift duty rosters; administers facility training program and on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as ATC tower chief, plans, organizes, and supervises air traffic control tower activities; assigns duties, spot-checks work performed, instructs subordinates in work techniques and procedures, coordinates work activities, and establishes and supervises on-the-job training programs; prepares technical, personnel, and administrative reports; monitors the handling and storage of tape-recorded conversations between air traffic control personnel and aircraft pilots and other ATC facilities; maintains records and statistics on daily air traffic operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises all air traffic control operations in a large facility; assigns personnel; establishes physical layout of work sites and insures an efficient and safe environment; reviews, consolidates, and prepares technical, personnel, and administrative reports covering all phases of air traffic control operations.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in human relations, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in air traffic operations, air traffic control, or aviation management and additional credit on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in human relations, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in air traffic operations, air traffic control, or aviation management, 6 for field experience in management, 3 in introduction to management, 3 in personnel management, and additional credit for an internship in education on the basis of institutional evaluation (6/76).

MOS-93C-002

AIR TRAFFIC CONTROL (ATC) OPERATOR

93C10

93C20

93C30

93C40

93C50

Exhibit Dates: 1/90–Present.

Career Management Field: 93 (Aviation Operation).

Description

Summary: Provides both radar and nonradar air traffice control services for military and civilian air traffic during take-off, flight, and landing under Visual Flight Rules (VFR), Special Visual Flight Rules (SVFR), and Instrument Flight Rules (IFR). *Skill Level 10:* Controls takeoffs, flight, and landing of IFR/VFR/SVFR air traffic; provides flight following, enroute, terminal approach control and ground controlled approach services; operates radar; installs and moves ATC radar and associated equipment; applies FAA and Army air traffic rules and regulations; may hold an FAA radar controller certificate; issues special air traffic control instructions to aviators concerning airfield facilities, emergency landing areas, obstructions, landmarks, flying areas, restrictions, local regulations, weather advisories, and observed hazards that affect the safe operation of aircraft; keeps records and statistics, including tape recordings of voice radio communications, on daily air traffic operations; processes incoming and outgoing flight data information and analyzes air traffic; operates airfield lighting systems, light signals, and nonradar approach control boards; employs aeronautical charts, maps, radio, and ground communications; applies FAA and Army air traffic rules and regulations and holds an FAA control tower operator certificate; controls vehicular traffic on airport movement area. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises inspection procedures, site operation, and record keeping; prepares shift duty rosters; administers facility training program and on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as ATC tower chief, plans, organizes, and supervises air traffic control tower activities; assigns duties, spot-checks work performed, instructs subordinates in work techniques and procedures, coordinates work activities, and establishes and supervises on-the-job training programs; prepares technical, personnel, and administrative reports; monitors the handling and storage of tape-recorded conversations between air traffic control personnel and aircraft pilots and other ATC facilities; maintains records and statistics on daily air traffic operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises all air traffic control operations in a large facility; assigns personnel; establishes physical layout of work sites and insures an efficient and safe environment; reviews, consolidates, and prepares technical, personnel, and administrative reports covering all phases of air traffic control operations.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, and 3 in federal regulations (4/90).

Recommendation, Skill Level 20

and 20 In the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, and 3 in federal regulations (4/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal regulations, and 3 in principles of supervision (4/90).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in organizational management, 3 for field experience in management, and 6 in air traffic operations (4/90).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in organizational management, 6 for field experience in management, and 6 in air traffic operations (4/90).

MOS-93D-001

AIR TRAFFIC CONTROL SYSTEMS,
SUBSYSTEMS AND EQUIPMENT
REPAIRER

93D10
93D20
93D30
93D40
93D50

Exhibit Dates: 9/85–Present.

Career Management Field: 93 (Aviation Operations).

Description

Summary: Installs and performs maintenance on air traffic control communications equipment, navigational aids and landing systems. *Skill Level 10:* Performs installation of air traffic control and navigation aids; uses troubleshooting techniques to locate equipment malfunctions; tests, aligns, and adjusts equipment; maintains maintenance records, spare parts and tools; makes checks and admustments to associated avionic components; updates and uses technical manuals and trouble analysis charts; replaces faulty components and individual parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to skill level 10 personnel; accomplishes comparison checks and modifications to equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance and instruction to lower skill level personnel; assists in the establishment of production and quality control procedures; inspects work areas and maintenance equipment; assists in the diagnosis of complex malfunctions anad component modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises maintenance procedures and practices; conducts training programs for unit personnel; interprets and explains complex specifications, circuits, schematic and wiring diagrams; diagnoses and determines the causes of unusual equipment malfunctions; prepares technical reports; coordinates maintenance certification programs. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and evaluates maintenance and installation procedures and practices; assists in logistical appraisal of air traffic control systems; develops policies and procedures for unit management and determines the effectiveness of unit maintenance performance; supervises maintenance certification programs.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in advanced electronic laboratory and 2 in navigation/communications systems (7/87).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in advanced electronics laboratory, 3 in navigation/communications sytems, and 3 in instrument landing systems (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in advanced electronics laboratory, 3 in navigation/communications systems, and 3 in instrument landing systems (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in advanced electronics laboratory, 3 in navigation/communications systems, 3 in instrument landing systems, 3 in personnel supervision, and 2 in records administration. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in advanced electronics laboratory, 3 in navigation/communications systems, 3 in instrument landing systems, 3 in personnel supervision, and 3 in records administration. In the upper-division baccalaureate category, 3 semester hours in principles of management, 3 for field experience in management, and 3 in applied psychology (7/87).

MOS-93E-001

METEOROLOGICAL OBSERVER

93E20
93E30
93E40
93E50

Exhibit Dates: 10/73–2/78.

Career Management Field: 00 (Exceptional Management Specialties), subfield 000 (Special Assignment).

Description

Summary: Supervises or performs meteorological observations and weather forecasts. *Skill Level 20:* Performs routine and special weather observations, employing basic meteorological principles; takes upper air observations by pilot balloon and radiosonde systems; computes meteorological ballistic data; encodes meteorological data for transmission; interprets weather data and plots surface and upper air charts; performs preventive maintenance on standard and special meteorological equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides weather forcasts from surface and upper air meteorological charts; performs climatological analyses for use in research and development activities; prepares and issues routine and severe weather warnings. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the making and reporting of meteorological observations, forecasts, and special warnings; prepares, administers, and monitors meteorological team operations; supervises the preparation of routine and special reports; conducts on-the-job training; supervises 11 or more persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer of meteorological teams; at the division level, coordinates activities and use of meteorological teams; gathers and analyzes material for the improvement of meteorological training; supervises 29 or more persons.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, and 2 in electrical and electronics laboratory (11/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, and 2 in electrical and electronics laboratory (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, 3 in human relations, 3 for field experience in management, and 2 in electrical and electronics laboratory (11/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, 3 in human relations, 3 for field experience in management, 3 in introduction to management, and 2 in electrical or electronics laboratory. In the upper-division baccalaureate category, 3 semester hours in human relations and 3 for field experience in management (11/75).

93E50

Exhibit Dates: 3/78–2/87. (Effective 3/87, MOS 93E was discontinued.)

Career Management Field: 64 (Transportation), subfield 644 (Air Operations).

Description

Summary: Supervises or performs meteorological observations and weather forecasts. *Skill Level 10:* Performs routine and special weather observations, employing basic meteorological principles; installs primary instruments/equipment used for measuring and recording weather conditions; calibrates and orients gound-mounted instruments; assembles, inspects and activates airborne instruments; measures surface effects, including pressure, temperature, humidity, wind speed and direction; records data sent from radiosonde; reads and records elevation and azimuth data from theodolite in tracking balloons for upper-air conditions; performs calibration checks; erects and orients hemispherical radiometer and net exchange radiometer; computes meteorological data from raw data [illegible] both surface effects and effects aloft; evaluates recorded and computed data; compares barometer values, using standard chart or graph values, to assembled current data; constructs profiles and curves needed for analysis and prediction; converts and encodes meteorological data into standard message format for transmission to receiving agencies; performs calibration checks and maintenance on all standard and special meteorological equipment; performs preventive maintenance on vehicles. *Skill Level*

20: Able to perform the duties required for Skill Level 10; performs meteorolgoical observations and provides technical guidance to lower-skill-level. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and provides technical guidance to lower-skill-level personnel; trains team/section members, provides work schedules, selects station sites, determines coordinates and altitude of site, and selects locations for instruments and equipment; prepares meteorological observation plans; coordinates activities with other services and governmental agencies; coordinates support to Army research and development activities; provides maintenance supervision and administration; provides general management and administration of the station, including records, reports, counseling, evaluation of personnel, and preparation of efficiency reports; conducts inspections and advises commander on personnel matters, including promotions, awards and training; serves as weather forecaster, using data accumulated by meteorological observers; instructs and insures safety, fire prevention and first aid programs in section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 11 or more personnel in meteorological unit or station, including 2 or more forecasters; ensures the efficient, timely issuance of collected data and forecasts. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises functions at larger meteorological units; functions in units of 30 or more personnel with 4 or more forecasters; performs administrative and supervisory duties; serving as principal noncommission officer, exercises overall operating responsibility for meteorological activities in unit.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, and 2 in electrical/electronics laboratory (6/79).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, and 2 in electrical/electronics laboratory (6/79).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 2 in human relations, 3 in personnel supervision, and 3 in office management (6/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 3 in human relations, 3 in personnel supervision, 3 in office management, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (6/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 3 in human relations, 3 in personnel supervision, 3 in office management, and 6 for field experience in management. In the upper-division baccalaureate category, 3 semester hours in management problems and 6 for field experience in management (6/79).

MOS-93F-001

BALLISTIC METEOROLOGY CREWMAN

93F20

93F40

Exhibit Dates: 10/73–8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), subfield 172 (Target Acquisition).

Description

Summary: Supervises or participates in the operation of a meteorology observation station to obtain and report atmospheric data for artillery target acquisition. *Skill Level 20:* Operates and calibrates meteorological equipment; assembles, tests, and calibrates radiosonde transmitter and recorder; uses basic principles of meteorology in the evaluation and conversion of radiosonde data into data on temperature, humidity, atmospheric pressure, and wind speed and direction; performs operator maintenance on radio direction finder and other meteorological equipment; records data on charts. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises approximately 12 persons in the operation of the meterological observation station and the use of both ground and airborne equipment; using a basic knowledge of meteorology, assures proper calibration of electronic equipment and computation of recorded data; supervises routine maintenance of meteorological and communication equipment; establishes and maintains liaison with other weather installations both within and outside the Army.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, and 1 in technical writing. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 2 in map reading, 1 in technical writing, and 1 in electronics (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 3 in personnel supervision, 1 in technical writing, 3 in human relations, 2 in map reading, 3 for field experience in management, and 2 in electronics (3/76).

MOS-93F-002

FIELD ARTILLERY METEOROLOGICAL
CREW MEMBER
(FIELD ARTILLERY METEOROLOGICAL
CREWMAN)

93F10

93F20

93F30

93F40

Exhibit Dates: 9/76–5/89.

Career Management Field: 13 (Field Artillery), subfield 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Supervises or participates in operation of field artillery meteorological observation station. *Skill Level 10:* Operates meteorological equipment in meteorological observation station; participates in assembly and emplacement of meteorological equipment and appropriate generators; operates recorders; plots pressure and wind data; assembles and disassembles balloon inflation and launching equipment; inflates and releases balloons; assembles, tests, and adjusts radiosonde transmitter; evaluates and converts raw temperature, density, and wind data; performs operator maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as team chief during periods of extended operation; checks data and records; examines samples of data for quality control. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of meteorological section or station; selects station site; supervises emplacement, installation, calibration, maintenance, and operation of equipment; supervises preparation and distribution of ballistic meteorological messages; assigns, instructs, and supervises crewmen; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading (4/77).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading. In the lower-division baccalaureate/associate degree category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, 1 in map reading, and 2 in personnel supervision (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, 1 in map reading, 4 in personnel supervision, 3 in human relations, and 3 for field experience in management (4/77).

MOS-93F-003

FIELD ARTILLERY METEOROLOGICAL CREWMEMBER

93F10

93F20

93F30

93F40

Exhibit Dates: 6/89–Present.

Career Management Field: 13 (Field Artillery).

Description

Summary: Supervises or participates in operation of field artillery meteorological observation station. *Skill Level 10:* Operates meteorological equipment in meteorological observation station; participates in assembly and emplacement of meteorological equipment and associated generators; operates recorders; tabulates pressure and wind data; assembles, operates, and disassembles balloon inflation and launching equipment; installs, tests, and adjusts radio weather instrument (Rawin) sets and radiosonde transmitters; operates computer that converts raw temperature, pressure, and resultant wind velocities to digital data that presents temperature, density, and wind profiles; performs operator maintenance on equipment; has experience in use of rifle, grenade launcher, and machine gun operation; installs and operates digital and voice radio communication equipment; drives vehicles under various adverse conditions. *Skill Level 20:* Able to perform the duties required for Skill Level 10; employs applicable navigation aids to derive correct location; uses proper maps to best advantage; performs operational checks on Rawin set; is proficient in basic combat techniques; instructs Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as team chief during periods of extended operation; originates reports and checks data for quality control; makes operational checks on equipment; operates communication equipment; encodes and decodes meteorological data; serves as instructor and counselor to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of meteorological section or station; selects station sites; supervises emplacement, calibration, maintenance, and operation of equipment; supervises preparation and distribution of ballistic meteorological messages; assigns, instructs, and supervises crewmen; reviews, consolidates, and prepares technical, personnel, and administrative reports; counsels subordinate personnel.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 2 semester hours in general meteorology and 3 in meteorological instrumentation (6/89).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in general meteorology, 3 in meteorological instrumentation, 1 in technical writing, 1 in map reading, and 2 in meteorological observation (6/89).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in general meteorology, 3 in meteorological instrumentation, 3 in technical writing, 1 in map reading, 2 in meteorological observation, and 3 in principles of supervision (6/89).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (6/89).

MOS-93H-001

AIR TRAFFIC CONTROL (ATC) TOWER OPERATOR

93H20

93H40

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transporation), subfield 655 (Air Operations).

Description

Summary: Provides control tower and non-radar approach control services for military and civilian air traffic. *Skill Level 20:* Holds an FAA control tower operator certificate; controls air traffic operating under visual flight rules in the vicinity of the control tower; coordinates movements of aircraft operating under instrument flight rules with civil air traffic facilities; issues instructions to aircraft in accordance with published FAA and Army procedures and regulations; operates radio equipment, light signals, airport lighting systems, interphone equipment; keeps records, statistics, and recordings of radio communications; uses the operational features of various electronic navigation facilities and systems; informs aircraft personnel of hazardous conditions; prepares notices to airmen (NOTAMS). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; establishes training programs and conducts on-the-job training in air traffic control operations; administers safety programs; supervises the preparation of interfacility agreements; prepares recommendations for changes to air traffic control regulations; supervises inspections of the facility's navigational aids and radio communications equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, and 3 in federal aviation regulations. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 4 in personnel management. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or air traffic control or aviation management and additional credit on the basis of institutional evaluation (2/75).

MOS-93H-002

AIR TRAFFIC CONTROL (ATC) TOWER OPERATOR

93H10

93H20

93H30

93H40

Exhibit Dates: 3/76–9/88. (Effective 9/88, MOS 93H was discontinued and its duties were incorporated into MOS 93C, Air Traffic Control (ATC) Operator.)

Career Management Field: 64 (Transportation), subfield 655 (Air Operations).

Description

Summary: Provides control tower and non-radar approach control services for military and civilian air traffic. *Skill Level 10:* Operates air traffic control tower and controls military and civilian aircraft during take-off, flight, and landing under Visual Flight Rules (VFR), Special Visual Flight Rules (SVFR), and Instrument Flight Rules (IFR); issues special instructions to aviators concerning airfield facilities, emergency landing areas, obstructions, landmarks, flying areas, restrictions, local regulations, weather advisories, and observed hazards that affect the safe operation of aircraft; keeps records and statistics, including tape recordings of voice radio communications, on daily air traffic operations; processes incoming and outgoing flight data information and analyzes air traffic; operates airfield lighting systems, light signals, and non-radar approach control boards; employs aeronautical charts, maps, radio, and ground communications; applies FAA and Army air traffic rules and regulations and may hold an FAA control tower operator certificate; controls vehicular traffic on airport movement area. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises inspection procedures, site operation, and record keeping; prepares shift duty rosters; administers facility training program and on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as ATC tower chief, plans, organizes, and supervises air traffic control tower activities; assigns duties, spot-checks work performed, instructs subordinates in work techniques and procedures, coordinates work activities, and establishes and supervises on-the-job training programs; prepares technical, personnel, and administrative reports; may be a designated FAA control tower operator examiner.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in human relations, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in air traffic operations, air traffic control, or aviation management and additional credit on the basis of institutional evaluation (6/76).

MOS-93J-001

ATC (AIR TRAFFIC CONTROL) RADAR CONTROLLER

93J10

93J20

93J30

93J40

93J50

Exhibit Dates: 3/76–8/88. (Effective 9/88, MOS 93J was discontinued and its duties were incorporated into MOS 93C, Air Traffic Control Operator.)

Career Management Field: 64 (Transportation), subfield 644 (Air Operations).

Description

Summary: Provides air traffic control services, employing radar, during aircraft departure, flight, and approach. *Skill Level 10:* Provides terminal and approach control services for aircraft during take-off, flight, and landing; operates radar, issues special air traffic control instructions, keeps records, processes and analyzes air traffic data, and installs and moves ATC radar and associated equipment; applies FAA and Army air traffic rules and regulations; may hold an FAA radar controller certificate. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises record keeping and radar scope alignment procedures; administers facility training programs; prepares duty rosters; prepares recommended changes to air traffic control regulations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as air traffic control chief at a terminal and approach control facility; inspects facilities, prepares operating standards, evaluates operations, and recommends changes; monitors the handling and storage of tape-recorded conversations between air traffic control personnel and aircraft pilots and other ATC facilities; arranges for training and certification of subordinate personnel and instructs personnel in ATC procedures and FAA regulations; maintains records and statistics on daily air traffic operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40 of MOS 93J and MOS 93H (Air Traffic Control Tower Operator) and supervises these personnel; supervises all air traffic control operations in a large facility; assigns personnel; establishes physical layout of work sites and insures an efficient and safe environment; reviews, consolidates, and prepares technical, personnel, and administrative reports covering all phases of air traffic control operations.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, credit in air traffic operation or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or aviation management, and additional credit on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or aviation management, 6 for field experience in management, 3 in introduction to management, 3 in personnel management, and additional credit for an internship in education of the basis of institutional evaluation (6/76).

MOS-93P-001

FLIGHT OPERATIONS COORDINATOR

93P10

93P20

93P30

93P40

93P50

Exhibit Dates: 3/84–12/89.

Career Management Field: 93 (Aviation Operation).

Description

Summary: Schedules, clears, and dispatches aircraft. *Skill Level 10:* Processes cross-country and local flight clearances; coordinates flight plans with other agencies, such as the FAA; maintains flight information; prepares, types, and maintains records and reports on flight operations and activities; maintains current files on flying regulations and navigational aid information; arranges ground services for transient aircraft; interprets and posts teletype weather reports; understands terminology used in air navigation and is aware of air traffic control advisory procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises a small flight operations activity consisting of 5 to 12 subordinate personnel; schedules aircraft missions, dispatches aircraft, and performs associated administrative duties; plans and schedules work assignments of subordinate flight operations personnel; checks work of subordinates and instructs them in proper work techniques and procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports; assists in preparing pre-accident plans. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized flight operations activity consisting of 13 or more subordinate personnel; provides technical guidance to subordinate personnel; supervises the preparation of the situation map; prepares operations letters; assists administratively in aircraft accident investigations; assists in the preparation of letters of agreement, operations estimates, and operations orders. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large flight operations activity. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, and 2 in office practices (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, and 2 in office practices, and credit in personnel supervision on the basis of institutional evaluation. In the upper-division baccalaureate category, credit in aviation management or air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices. In the upper-division baccalaureate category, credit in aviation management or air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in aviation management or air traffic operations and additional credit on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in aviation management or air traffic operations, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and additional credit for an internship in education on the basis of institutional evaluation (6/76).

MOS-93P-002

AVIATION OPERATIONS SPECIALIST

93P10
93P20
93P30
93P40
93P50

Exhibit Dates: 1/90–Present.

Career Management Field: 93 (Aviation Operation).

Description

Summary: Schedules, clears, and dispatches aircraft. *Skill Level 10:* Processes cross-country and local flight plans with other agencies, such as the FAA; maintains flight information; prepares, types, and maintains records and reports on flight operations and activities; maintains current files on flying regulations and navigational aid information; arranges ground services for transient aircraft; interprets and posts teletype weather reports understands terminology used in air navigation and is aware of air traffic control advisory procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises a small flight operations activity consisting of 5 to 12 subordinate personnel; schedules aircraft missions, dispatches aircraft, and performs assiciated administrative duties; plans and schedules work assignments of subordinate flight operations personnel; checks work of subordinates and instructs them in proper work techniques and procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports; assists in preparing pre-accident plans. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized flight operations activity consisting of 13 or more subordinate personnel; provides technical guidance to subordinate personnel; supervises the preparation of the situation map; prepares operations letters; assists administratively in aircraft accident investigations; assists in the preparation of letters of agreement, operations estimates, and operations orders. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large flight operations activity; plans, coordinates, and supervises activities pertaining to organization, training, combat operations and combat intelligence; coordinates implementation of operations, training programs, and communications activities. NOTE: May have progressed to 93P40 from 93P30 or 93B30, Aeroscout Observer. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a mid-level manager; supervises the processing of operations and intelligence information at the bridage level.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, and 2 in office procedures (4/90).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, 2 in office procedures, and 3 in principles of supervision. In the upper-division baccalaureate category, 3 semester hours in aviation management (4/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to aircraft dispatchig, 3 in aircraft operations management, 3 in federal aviation regulations, 2 in office procedures, 3 in principles of suprevision, 3 in airfield management, and 3 in advanced aircraft dispatching. In the upper-division baccalaureate category, 3 semester hours in aviation management and 2 in organizational management (4/90).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in aviation management, 3 in organizational management, 3 in air traffic operations, and 3 for field experience in management (4/90).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in aviation management, 3 in organizational management, 3 in air traffic operations, and 6 for field experience in management (4/90).

MOS-94B-001

FOOD SERVICE SPECIALIST

94B20
94B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 94 (Food Service).

Description

Summary: Procures, prepares, and cooks food; identifies and uses appropriate equipment. *Skill Level 20:* Prepares meats, fruits, vegetables, salads, desserts, beverages, and dairy products for serving; performs small-scale baking and meat cutting; operates and performs preventive maintenance on kitchen equipment; has knowledge of hygiene and sanitation procedures. Alternative job paths are available with assignment either as cook leading to dining facility manager or meatcutter leading to chief meatcutter. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the scheduling of personnel and facilities and the preparation of foods; inspects food prior to serving; supervises operation and maintenance of kitchen equipment; supervises procurement and storage of food; applies accounting procedures; maintains inventories, records, and files; completes appropriate reports. NOTE: May have progressed to 94B40 from 94B20 or 00H20 (Enlisted Aide).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation and 3 in kitchen operations; if the duty assignment was cook, 3 semester hours in food service operation; if the duty assignment was meatcutter, 3 semester hours in meatcutting (1/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, and 2 in bookkeeping; if the duty assignment was cook, 3 semester hours in food service operations; if the duty assignment was meatcutter, 3 semester hours in meat cutting. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 6 for a food service internship, 3 in kitchen operations, 3 in menu planning, 3 in personnel supervision, and 3 in human relations; if the duty assignment was cook, 3 semester hours in food service operations; if the duty assignment was meatcutter, 3 semester hours in meat cutting. In the upper-division baccalaureate category, 6 semester hours for a food service internship (5/76).

Career Management Field: 96 (Military Intelligence).

Description

Summary: Interprets aerial and ground imagery developed by photographic and electronic means. *Skill Level 20:* Utilizes principles and techniques of photogrammetry and employs electronic, mechanical, and optical devices to study and interpret photographs and photographed scope presentations produced by radar and infrared senory devices; prepares map overlays, charts, mosaics, and other graphics; computes distances and field coordinates; prepares graphic and written reports on imagery interpretation findings. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises image interpretation activities; plans and organizes work schedules, assigns duties, and instructs subordinates in proper work techniques; establishes and maintains files. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager serving as the principal noncommissioned officer in a headquarters or as the first sergeant of a company; assists in planning, coordinating, and supervising all activities related to imagery interpretation; advises superiors on all personnel matters and is responsible for carrying out personnel actions; directs training; serves as inspector; prepares reports on intelligence, operations, and training; may serve as chief instructor at a formal training facility.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in map reading and 2 in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 2 in mechanical drawing, 2 in technical mathematics, and 1 in technical writing (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical writing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in mechanical drawing, and 2 in technical mathematics (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in office management, and 3 for field experience in management, if the duty assignment was chief instructor at a formal training facility, 3 semester hours for an internship in education (6/76).

MOS-96D-002

IMAGERY ANALYST
(IMAGE INTERPRETER)

96D10
96D20
96D30
96D40
96D50

Exhibit Dates: 9/76–3/89.

Career Management Field: 96 (Military Intelligence), subfield 962 (Technical Intelligence).

Description

Summary: Interprets aerial and ground imagery developed by photographic and electronic means. *Skill Level 10:* Utilizes principles and techniques of photogrammetry and employs electronic, mechanical, and optical devices to study and interpret photographs; assists in preparation of map overlays, plots, mosaics, charts, and other graphics; computes distances and field coordinates; assists in the preparation of written reports on image interpretation findings. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; studies and interpretes imagery produced by aerial senors systems and hand-held camera; determines physical and cultural features of the landscape; prepares maps; conducts briefings; computes areas and volumes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises image interpretation activities; prepares and edits reports; establishes and maintains report and photo library; plans and organizes work schedules and assigns duties; instructs subordinates in proper work techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in planning activities related to image utilization; instructs subordinates in proper image interpretation techniques; supervises preparation and maintenance of files. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager at company and higher level; prepares, coordinates, and supervises activities related to image interpretation; directs training; supervises staff and advises superiors. NOTE: May have progressed to 96D50 from 96D40, 96H40 (Aerial Sensor Specialists, OV-1D), or 17L40 (Aerial Sensor Specialist, OV-1B/C).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 2 in mechanical drawing, 2 in aerial photographic interpretation, 2 in photogrammetry, 1 in technical writing, and 1 in technical mathematics (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 2 in mechanical drawing, and 1 in technical writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 3 in physical geography, 2 in mechanical drawing, and 1 in technical writing (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 3 in technical writing, and 2 in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in physical geography, 3 in technical mathematics, 3 in technical writing, 3 in human relations, and 2 in mechanical drawing (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems (11/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems, 3 in personnel management, and 3 for field experience in management; if the duty assignment was instructor in a service school, 6 additional semester hours for a practicum in education (11/77).

MOS-96D-003

IMAGERY ANALYST

96D10
96D20
96D30
96D40
96D50

Exhibit Dates: 3/89–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Interprets aerial and ground imagery developed by photographic and electronic means. *Skill Level 10:* Utilizes principles and techniques of photogrammetry and employs electronic, mechanical, and optical devices to study and interpret photographs; assists in preparation of map overlays, plots, mosaics, charts, and other graphics; computes distances and field coordinates; assists in the preparation of written reports on image interpretation findings. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to subordinate personnel; studies and interpretes imagery produced by aerial sensor systems and hand-held camera; prepares maps; conducts briefings; computes areas and volumes; selects entry zones. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises image interpretation activities; assists air reconnaissance liaison officer and tactical surveillance officer; performs quality control on imagery analysis and reports; coordinates planning for ground and air reconnaissance and surveillance plans and requests; receives, evaluates and disseminates mission results; plans and organizes work schedules and assigns duties; instructs subordinates in proper work techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in planning activities related to image utilization; arranges priorities for conduct of operation; assists in planning; levies imagery reproduction requirements; supervises preparation of reconnaissance and surveillance plan; coordinates with collection agencies and requesters; instructs subordinates in proper image interpretation techniques; supervises preparation and maintenance of files. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises the duties of 96D40 and 96H40 (Aerial Intelligence Specialist); prepares and coordinates the surveillance plan; assists command and staff officers; coordinates operation requirements; prepares, coordinates, and supervises activities related to image interpretation; directs training; supervises staff and advises superiors. NOTE: May have progressed to 96D50 from 96D40 or 96H40 (Aerial Intelligence Specialist).

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 2 in mechanical drawing, 3 in aerial photographic interpretation, 3 in photogrammetry, 1 in technical writing, and 3 in technical mathematics (6/90).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in

map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 2 in mechanical drawing, and 1 in technical writing (6/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 3 in technical writing, 3 in principles of supervision, and 2 in mechanical drawing (6/90).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in managment problems and 3 for field experience in management (6/90).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 6 for field experience in management (6/90).

MOS-96F-001

PSYCHOLOGICAL OPERATIONS SPECIALIST

96F10
96F20
96F30
96F40
96F50

Exhibit Dates: 3/85–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises, coordinates, and participates in analysis, planning, production, and dissemination of tactical, strategic, and consolidation psychological operations (PSYOP). *Skill Level 10:* Assists in collecting and reporting PSYOP-related information; assists in processing information into intelligence to support PSYOP; assists in identifying intelligence collection requirements for PSYOP support; assists in evaluating and analyzing current intelligence, PSYOP studies and estimates to determine PSYOP targets; assists in establishment and maintenance of situation maps to provide current intelligence/PSYOP information and identification, disposition, and movement of enemy forces; assists in the design of PSYOP products; assists in the development and administration of surveys to evaluate the effects of planned and executed products; operates PSYOP dissemination equipment and assists in the delivery of PSYOP products; assists in the packaging of PSYOP products for delivery of various means; maintains journals, status boards, visual displays, charts, and graphs required to manage PSYOP, either manually or using automatic data processing equipment; prepares, stores, and retrieves information on PSYOP-related intelligence, plans, campaigns, and products; assists and performs intelligence functions as required; maintains and operates organizational communications equipment, generators, and organic PSYOP production and dissemination team equipment; assists in establishing and maintaining systematic cross-referenced PSYOP records and files; safeguards classified information. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; coordinates resource requirements for the development, production, and dissemination of PSYOP products; assists in the integration of PSYOP planning in support of conventional, special operations, and deception planning; develops and administers surveys to evaluate the effectiveness of PSYOP products; assists in determining the appropriate mix of media, relative to available assets, to disseminate PSYOP products; analyzes current intelligence holdings to identify intelligence gaps and subsequent intelligence collection requirements to support PSYOP; evaluates current intelligence, PSYOP studies, and estimates to determine PSYOP targets; assists in identifying psychological vulnerabilities and susceptibilities of PSYOP targets; assists in evaluating translations of captured enemy documents and intelligence information reports of interrogations; assists in the analysis of enemy foreign propaganda and other foreign media; informs superiors of information of immediate tactical PSYOP value; packages PSYOP products for delivery by various means; identifies and maintains information on the availability of products and delivery means; establishes and maintains reference files of translated material. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises receipt, analysis, and storage of PSYOP-related intelligence information; coordinates PSYOP intelligence collection requirements with supported command and higher headquarters; spot checks analyses performed by subordinates; plans and advises on PSYOP in direct and general support of operational forces; plans and implements PSYOP campaigns; assists in planning, identification, mobilization, and deployment of PSYOP resources; supervises propaganda writers, broadcast specialists, journalists, and illustrators to develop and produce PSYOP products; supervises PSYOP dissemination and delivery sections and teams; determines dissemination requirements for PSYOP products; assists in the conduct of liaison with the supported command; advises supported commands on psychological considerations of planning operations; provides specific guidance and training for subordinates; assists in preparing and conducting PSYOP training programs; analyzes enemy propaganda. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans and organizes work schedule and assigns specific tasks in support of tactical or strategic PSYOP missions; assists in supervision of the propaganda development and tactical operations centers; conducts general PSYOP training programs for the command; supervises planning and dissemination of PSYOP products; controls the execution of PSYOP campaigns; monitors preparation and production of PSYOP products and acquisition of resources necessary to support implementation of PSYOP campaigns; conducts liaison with supported commands; supervises intelligence analysts, interpreters, interrogators, and translators assigned or attached to PSYOP units. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and provides technical guidance to subordinate personnel; provides liaison to supported staff and commands; assists PSYOP commanders and staff officers in planning, organizing, directing, supervising, training, and coordinating activities pertaining to PSYOP at all levels of command.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in technical writing, 1 in record keeping, and 1 in audio-visual technology (12/88).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in technical writing, 1 in record keeping, 2 in audio-visual technology, 2 in records management, 1 in oral communications, and 2 in personnel supervision (12/88).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in technical writing, 1 in record keeping, 2 in audio-visual technology, 2 in records management, 2 in oral communications, 3 in personnel supervision, and 3 in business organization and management (12/88).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in principles of management (12/88).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in principles of management, and 3 in management problems (12/88).

MOS-96H-001

AERIAL SENSOR SPECIALIST (OV-1D)

96H10
96H20
96H30
96H40

Exhibit Dates: 9/76–3/89.

Career Management Field: 96 (Military Intelligence), subfield 963 (Tactical Intelligence Surveillance).

Description

Summary: Supervises or participates in aerial surveillance operations using ground data terminal systems to provide information and imagery of intelligence value. *Skill Level 10:* Performs aerial surveillance, including visual reconnaissance, search and rescue, radiological survey, and similar intelligence activities; operates aerial infrared, radar, photographic, or similar senor systems including associated data transmission links and ground data terminal stations; performs radio communications and aids aviator in aerial navigation; performs applicable electronic counter-countermeasures; assists in image interpretation; performs operator maintenance on sensors and associated equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; assists aviator in weather analysis, navigation computations, and aircraft preflight inspection procedures; operates or supervises the operation of aerial surveillance and associated equipment; troubleshoots sensor systems; records operation and maintenance data in equipment logs; utilizes interpretation keys in assisting image interpreter. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations and activities of a section; supervises inspections and operator maintenance of sensors and associated equipment; directs and conducts on-the-job training; assists in planning use of aerial surveillance systems; assists image interpreter in analysis and interpretation of imagery; conducts or participates in briefing headquarters staff on capabilities and limitations of aerial surveillance missions, and on the results obtained. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises aerial surveillance platoon operations; plans and organizes work schedules, assigns duties, and instructs section leaders in proper work techniques and procedures; critiques mission results; participates in planning use of aerial surveillance systems and advises commander on coordination of aerial and ground surveillance; coordinates personnel, equipment, operational supply, and maintenance support requirements.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in general mathematics, 1 in still camera techniques, and 1 in electric circuits. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 1 in still camera techniques, 1 in electric circuits, and 1 in maps and air photos. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in general mathematics, 1 in still camera techniques, and 1 in electric circuits. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 1 in still camera techniques, 1 in electric circuits, and 1 in maps and air photos. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 2 in maps and air photos, 2 in human relations, 2 in communication skills, 2 in personnel supervision, 1 in still camera techniques, and 1 in electric circuits. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 3 in human relations, 3 in communication skills, 3 in personnel supervision, 2 in maps and air photos, 1 in still camera techniques, and 1 in electric circuits. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

MOS-96H-002

AERIAL INTELLIGENCE SPECIALIST

96H10
96H20
96H30
96H40

Exhibit Dates: 3/89–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises or participates in aerial surveillance and electronic intercept operations to provide information and imagery of intelligence value. *Skill Level 10:* Participates in mission planning for aerial surveillance, aerial visual reconnaissance, aerial search and rescue, aerial radiological survey and similar missions; operates data link terminal station and performs side-looking airborne radar imagery analysis; prepares and operates aerial surveillance/electronic intercept systems; performs aerial missions operating aerial infrared, radar, and photographs, including data transmission links and ground data terminal station; performs radio communications and aids in aerial navigation; recognizes enemy electronic countermeasures and performs countermeasures; acquires targets; participates in mission debriefing and assists in the analysis of images; performs preflight, preoperation and operator and unit maintenance on surveillance and electronic intercept equipment; troubleshoots systems to determine nature and location of problems; records operation and maintenance data. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to subordinate personnel; may serve as assistant instructor at service school; operates and supervises the operation of aerial surveillance and aerial surveillance/electronic intercept systems; assists in flight planning, weather analysis, navigational computation and aircraft preflight inspections; prepares aerial surveillance equipment for operation; assists imagery analyst in interpreting imagery recording using keys and reference material. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operation and activities of aerial surveillance, electronic intercepts and data terminal section; supervises inspection and operator maintenance of aerial surveillance and electronic intercept equipment; assists in planning, employment, and management of aerial surveillance, electronic intercept, and data terminal systems; serves as instructor at service school; assists in the analysis and interpretation of aerial sensor imagery to determine geographical features of terrain and physical features of enemy installation; conducts or participates in briefing of commander and staff of supported headquarters on capabilities and limitations of aerial surveillance and similar missions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operations and activities of platoon-size detachment; plans and organizes work schedules; assigns duties and instructs section sergeant in proper work techniques; reviews and critiques mission results; advises commander; coordinates personnel on team employments, deployment, operational supply, and maintenance requirements; serves as instructor at service school.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics and 1 in map/air photo reading. In the upper-division baccalaureate category, 1 semester hour in remote sensing (6/90).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in map/air photo reading, and 1 in basic electronic systems. In the upper-division baccalaureate category, 1 semester hour in remote sensing (6/90).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in map/air reading, 1 in basic electronic systems, 3 in principles of supervision, and 3 in communication skills (oral and written). In the upper-division baccalaureate category, 1 semester hour in remote sensing and 3 for field experience in management (6/90).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 1 semester hour in remote sensing, 3 for field experience in management, and 3 in management problems (6/90).

MOS-96R-001

GROUND SURVEILLANCE SYSTEMS OPERATOR

96R10
96R20
96R30
96R40
96R50

Exhibit Dates: 9/85–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises or operates ground surveillance systems engaged in intelligence and information gathering. *Skill Level 10:* Operates ground surveillance systems; reads military maps, overlays and aerial photographs; uses radar surveillance cards and plotters; assists in emplacement, camouflage, and recovery of equipment; detects, locates, and reports target data; operates organic communications equipment, light wheeled vehicles and power sources; assists in performance of preventive maintenance on ground surveillance systems and associated equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to skill level 10 personnel; selects specific equipment emplacement sites and supervises emplacement and operation of equipment; prepares overlays and surveillance cards. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises organizational maintenance, preventive maintenance, emplacement and displacement of equipment, and preparation of surveillance cards; notifies supported unit of team locations; recommends methods of employment; conducts tactical and equipment-oriented training, and maintains operational records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans, recommends, and determines employment and operational techniques; plans and organizes work schedules and assigns duties; instructs squad and team leaders in proper work techniques and procedures; supervises operations, activities of platoon and requisition of replacement parts; applies military intelligence collection processes and surveillance planning operations; participates in processes and surveillance planning operations; participates in electromagnetic intelligence surveillance and collection training of personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; assists tactical surveillance officer in planning and coordinating employment of ground surveillance equipment, and in preparation and implementation of reconnaissance and surveillance operations plans; provides input to collection plans; prepares and updates the ground reconnaissance and surveillance situation maps; may serve as the principal noncommissioned officer (identified by the Special Qualifications Identifier "M" - First Sergeant).

Recommendation, Skill Level 10

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

Recommendation, Skill Level 20

Credit is not recommended because the skills, competencies, and knowledge are uniquely military in nature (7/87).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision (7/87).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management and 3 for field experience in management (7/87).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in principles of management, 3 for field experience in management, and 3 in applied psychology (7/87).

MOS-96Z-001

INTELLIGENCE SENIOR SERGEANT

96Z50

Exhibit Dates: 9/76–Present.

Career Management Field: 96 (Military Intelligence), subfield 960 (General Tactical Intelligence).

Description

Skill Level 50: Supervises intelligence collection, analysis, processing, and surveillance activities at group, division, corps, or comparable higher headquarters; supervises training activities; supervises tactical and technical operations; assists commissioned officers in appraisal of intelligence operations and training; instructs in specific phases of command intelligence procedures; supervises collection, preparation, and distribution of intelligence operations, and training data; advises supervisors on matters concerning intelligence, operations, and administration. NOTE: May have progressed to 96Z50 from 96B50 (Intelligence Analyst), 96D50 (Image Interpreter), or 17K50 (Ground Surveillance Radar Crewman).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in clerical practices, 3 in records administration, 3 in technical writing, 3 in oral communication, 3 in personnel supervision, and 1 in map reading. In the upper-division baccalaureate category, 6 semester hours for a practicum in education, 3 for field experience in management, and 3 in management problems (11/77).

MOS-97B-001

COUNTERINTELLIGENCE AGENT

97B40

97B50

Exhibit Dates: 10/73–8/76.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Conducts investigations to determine whether laws have been violated; collects background information about individuals, groups, and organizations through surveys of public and private records, personal interviews, and surveillance techniques; operates specialized photographic and audio-visual recording equipment; conducts inspections of facilities to determine security weaknesses; maintains record systems; prepares oral and written reports; conducts briefings and classes. *Skill Level 40:* Is a first-line supervisor of an investigation or physical security team; sometimes conducts investigations without assistance. NOTE: May have progressed to 97B40 from 97C40 (Area Intelligence Specialist), 97D20, or 97D40 (Military Intelligence Coordinator). *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager; plans and administers operations and training activities; supervises subordinate personnel; knows and applies office management principles. NOTE: May have progressed to 97B50 from 97C50 (Area Intelligence Specialist).

Recommendation, Skill Level 40

In the vocational certificate category, in the lower-division baccalaureate/associate degree category, or the upper-division baccalaureate degree category, 3 semester hours in police administration, 2 in law enforcement, 2 in industrial security, and 2 in criminology (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in police administration, 2 in law enforcement, 2 in industrial security, 2 in criminology, 1 in personnel supervision, 1 in records administration, and 1 in communication skills. In the upper-division baccalaureate category, 3 semester hours in police administration, 3 for a practicum in management, 2 in law enforcement, 2 in industrial security, and 2 in criminology (2/75).

MOS-97B-002

COUNTERINTELLIGENCE AGENT

97B20

97B30

97B40

97B50

Exhibit Dates: 9/76–2/81.

Career Management Field: 96 (Military Intelligence), subfield 961 (Controlled Intelligence).

Description

Summary: NOTE: The skill levels of MOS 97B are not necessarily indicative of progressively complex duties, increased skills, and greater responsibilities; the higher skill levels in this MOS usually indicate longer tenure. Individual in this MOS conducts security oriented investigations when there is a threat to military operations, installations, and personnel; collects background information concerning foreign and domestic individuals, groups, and organizations posing such a threat; collects information through personal interviews, screening of public and private records made available to them, and surveillance techniques; is knowledgeable about the geography, political, and economic systems, culture, and customs of at least one foreign country; operates specialized photographic and sound recording equipment; conducts physical surveys of installations and facilities to minimize threats to security; maintains files; prepares written reports and gives oral reports of findings; conducts security oriented classes and briefings; may be proficient in a foreign language. NOTE: Required to have held another MOS for at least two years prior to holding this MOS. *Skill Level 20:* Conducts counterintelligence investigations, often without close supervision; functions as a basic counterintelligence agent; applies fundamentals of military and civil law in conducting investigations; evaluates sources and information; prepares and types reports and summaries; conducts security surveys. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may provide counterintelligence support at higher headquarters; may assist in on-the-job training of newer agents; functions as chief counterintelligence agent; plans and conducts counterintelligence operations to include analyzing, selecting, exploiting, and neutralizing targets of counterintelligence interest. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may be used in a supervisory capacity; plans, organizes, and coordinates activities of counterintelligence support teams; functions as a senior counterintelligence agent. *Skill Level 50:* Able to perform the duties required for Skill Level 40; may conduct especially sensitive investigations; may be used as a staff specialist, planning and supervising intelligence operations. NOTE: May have progressed to 97B50 from 97B40 or 97C50 (Area Intelligence Specialist).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in United States government, 3 in applied psychology, 3 in report writing, and 1 in typing, and additional credit in personnel supervision and office management on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in United States government, 3 in applied psychology, 3 in report writing, and 1 in typing, and additional credit in personnel supervision and office management on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations (11/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations (11/77).

MOS-97B-003

COUNTERINTELLIGENCE AGENT

97B10
97B20
97B30
97B40
97B50

Exhibit Dates: 3/81-Present.

Career Management Field: 96 (Military Intelligence), subfield 961 (Controlled Intelligence).

Description

Summary: NOTE: The skill levels of MOS 97B are not necessarily indicative of progressively complex duties, increased skills, and greater responsibilities; the higher skill levels in this MOS usually indicate longer tenure. Individual in this MOS conducts security oriented investigations when there is a threat to military operations, installations, and personnel; collects background information concerning foreign and domestic individuals, groups, and organizations posing such a threat; collects information through personal interviews, screening of public and private records made available to them, and surveillance techniques; is knowledgeable about the geography, political, and economic systems, culture, and customs of at least one foreign country; operates specialized photographic and sound-recording equipment; conducts physical surveys of installations and facilities to minimize threats to security; maintains files; prepares written reports and gives oral reports of findings; conducts security-oriented classes and briefings; may be proficient in a foreign language. NOTE: Required to have held another MOS for at least two years prior to holding this MOS. *Skill Level 10:* Under close supervision, assists in tactical noninvestigative counterintelligence and operational security duties; assists in determining enemy intelligence collection assets, organizations, composition, personnel, methods of operation, capabilities, vulnerabilities, limitations, and missions; assists in evaluating sources of information; assists in formulating investigation plans; prepares recording and photographic equipment for operation; compiles collected counterintelligence information; prepares and types summaries and reports; prepares interrogation rooms; disseminates intelligence reports; stores, inventories, and controls classified documents. *Skill Level 20:* Conducts counterintelligence investigations, often without close supervision; functions as a basic counterintelligence agent; applies fundamentals of military and civil law in conducting investigations; evaluates sources and information; prepares and types reports and summaries; conducts security surveys. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may provide counterintelligence support at higher headquarters; may assist in on-the-job training of newer agents; functions as chief counterintelligence agent; plans and conducts counterintelligence operations to include analyzing, selecting, exploiting, and neutralizing targets of counterintelligence interest. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may be used in a supervisory capacity; plans, organizes, and coordinates activities of counterintelligence support teams; functions as a senior counterintelligence agent. *Skill Level 50:* Able to perform the duties required for Skill Level 40; may conduct especially sensitive investigations; may be used as a staff specialist, planning and supervising intelligence operations. NOTE: May have progressed to 97B50 from 97B40 or 97C50 (Area Intelligence Specialist).

Recommendation, Skill Level 10

Credit is not recommended because of the limited or specialized nature of the skills, competencies, and knowledge (10/84).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in United States government, 3 in applied psychology, 3 in report writing, and 1 in typing, and additional credit in personnel supervision and office management on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (10/84).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in United States government, 3 in applied psychology, 3 in report writing, and 1 in typing, and additional credit in personnel supervision and office management on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (10/84).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations (10/84).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations (10/84).

MOS-97C-001

AREA INTELLIGENCE SPECIALIST

97C40
97C50

Exhibit Dates: 10/73-8/76.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs intelligence analysis of a geographic area; may be employed in either a group activity or individually with minimum supervision; formulates and carries out intelligence-gathering missions with a specific objective and utilizes extremely demanding operational security procedures in both domestic and foreign environments. NOTE: Many of the required duties for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 40:* May have previously held MOS 97B (Counterintelligenc Agent) or MOS 97D (Military Intelligence Coordinator); performs extensive research to gain an in-depth understanding of the geography, politics, culture, technology, economics, and military and legal practices and institutions of one or more foreign nations; directs the operational or administrative activities of 1-12 U.S. or foreign personnel; performs discrete personnel investigations; may have written, oral, and/or aural skills in one or more foreign languages or dialects; understands and uses a wide variety of security techniques and procedures; uses specialized intelligence equipment, including standard and nonstandard communications and photographic equipment; may be familiar with computer usage in storing and retrieving intelligence data; identifies, assesses, and applies psychological factors which influence and motivate human behavior; writes extensive informational, operational, and administrative reports; if duty position was chief area intelligence sergeant, also performs the following duties: Serves as a senior area intelligence specialist; may serves as a service school instructor; may assume the duties normally assigned to Skill Level 50 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as chief area intelligence specialist; directs area intelligence activities, performing less field work; performs budget analysis and justification; coordinates the preparation of extensive reports; supervises the activities of approximately 10-40 persons; trains subordinates in the application of security procedures and intelligence-gathering techniques; may serve as first sergeant of a company.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, and additional credit in area studies on the basis of institutional evaluation; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation; if duty position was chief area intelligence sergeant, use the following recommendation: In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 9 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 2 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation; additional credit in area studies, written communication skills, field experience in management, management problems, and field experience in personnel supervision (up to the amounts in the recommendation for Skill Level 50) on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours in area studies, 6 in written communication skills, 6 for field experience in management, 3 in management problems, 3 for field experience in personnel supervision, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation (9/79).

MOS-97C-002

AREA INTELLIGENCE SPECIALIST

97C30

97C40

97C50

Exhibit Dates: 9/76–3/87. (Effective 3/87, MOS 97C was discontinued and its functions were incorporated into MOS 97B, Counterintelligence Agent.)

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs intelligence analysis of a geographic area; may be employed in either a group activity or individually with minimum supervision; formulates and carries out intelligence-gathering missions with a specific objective and utilizes extremely demanding operational security procedures in both domestic and foreign environments. NOTE: Many of the required duties for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and and knowledges associated with the MOS were evaluated. *Skill Level 30:* May have previously held MOS 97B (Counterintelligence Agent) or MOS 97D (Military Intelligence Coordinator); performs extensive research to gain and in-depth understanding of the geography, politics, culture, technology, economics, and military and legal practices and institutions of one or more foreign nations; directs the operational or administrative activities of 1-12 U.S. or fogeign personnel; performs discrete personnel investigations; may have written, oral, and/or aural skills in one or more foreign languages or dialects; understands and uses a wide variety of security techniques and procedures; uses specialized intelligence equipment, including standard and nonstandard communications and photographic equipment; may be familiar with computer usage in storing and retrieving intelligence data; indentifies, assesses, and applies psychological factors which influence and motivate human behavior; writes extensive informational, operational, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as a senior area intelligence specialist; may serve as a service school instructor; may assume the duties normally assigned to Skill Level 50 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as chief area intelligence specialist; directs area intelligence activities, performing less field work; performs budget analysis and justification; coordinates the preparation of extensive reports; supervises the activities of approximately 10-40 persons; trains subordinates in the application of security procedures and application of security procedures and intelligence-gathering techniques; may serve as first sergeant of a company.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, and additional credit in area studies on the basis of institutional evaluation; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 9 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation; additional credit in area studies, written communication skills, field experience in management, management problems, and field experience in personnel supervision (up to the amounts in the recommendation for Skill Level 50) on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours in area studies, 6 in written communication skills, 6 for field experience in management, 3 in management problems, 3 for field experience in personnel supervision, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education; add credit for foreign language proficiency by referring to the recommendation(s) in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services and modifying the credit on the basis of institutional evaluation (6/77).

MOS-97D-001

MILITARY INTELLIGENCE COORDINATOR

97D20

97D40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 97D was discontinued.)

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs the analysis of intelligence data in conjunction with counterintelligence or area intelligence operations; must be familiar with the duties required for MOS 97B (Counterintelligence Agent) and MOS 97C (Area Intelligence Specialist). NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 20:* Provides general and specialized administrative services to support the activities of 5-15 U.S. Army intelligence agents, which may include conducting document research, establishing and maintaining intelligence files, requisitioning supplies and equipment, and processing personnel actions; prepares and edits operational and administrative reports; types at a minumum speed of 25 words per minute; adheres to proper security procedures in the performance of all duties; may assist in an investigation by collecting information from public sources; may acquire proficiency in one or more foreign languages; may supervise lower-ranking personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 20; coordinates the reporting of intelligence agents' activities; may manage a military intelligence coordination office.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 3 in security procedures, 2 in office practices, and 2 in typing, and additional credit in investigative report writing on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in security procedures, 2 in office practices, and 2 in typing, and additional credit in investigative report writing, for field experience in personnel supervision, and for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 3 in security procedures, 3 in investigative report writing, 2 in office practices, and 2 in typing. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in security procedures, 3 in investigative report writing, 3 for field experience in personnel supervision, 2 in office practices, and 2 in typing, and additional credit for foreign language proficiency on the basis of institutional evaluation (6/77).

MOS-97E-001

INTERROGATOR

97E10

97E20

97E30

97E40

Exhibit Dates: 9/84–2/87.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Conducts and supervises interrogations in foreign language; knows geography, political system, economic system, and customs of the countries in which the foreign language is spoken; prepares translation reports. *Skill Level 10:* Conducts interrogations in foreign language of prisoners of war, enemy deserters, civilians, and refugees to obtain information necessary for the development of military intelligence; compares and verifies information obtained with information contained in other interrogation reports, captured documents, and intelligence reports; prepares notes and keeps detailed records on all interrogations performed; translates and prepares summaries, extracts, and full translations of written foreign material (directives, records, messages, combat orders, technical publications) into English; translates speeches, announcements, radio scripts, and other materials into foreign language for use in non-English speaking countries; types translated materials; establishes reference files of translation materials. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel; reviews and edits translations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to lower-skill-level personnel; performs more difficult interrogations and translations, including scientific information; determines requirements for summaries, extracts, or complete translations of documents; performs as a team chief for interrogations and translator/interpretation functions; monitors interrogations and translations for accuracy, adequacy, and completeness; organizes and conducts on-the-job training; assists in preparation and presentation of information to superiors. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises an interrogation center or interrogation, translation/interpreter sections; plans and organizes work schedules; assists specific tasks; plans training activities; insures establishment of required files and preparation of required reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in typing, 3 in record keeping, 3 in report writing, and 2 in filing. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing, 3 in record keeping, 3 in report writing, and 2 in filing. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and 3 in personnel supervision, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in personnel management, and additional credit in area studies, for field experience in management, and for a practicum in education, on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

97E20
97E30
97E40
97E50

Exhibit Dates: 3/87–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Conducts and supervises interrogations in foreign language; knows geography, political system, economic system, and customs of the countries in which the foreign language is spoken; prepares translation reports. *Skill Level 10:* Conducts interrogations in foreign language of prisoners of war, enemy deserters, civilians, and refugees to obtain information necessary for the development of military intelligence; compares and verifies information obtained with information contained in other interrogation reports, captured documents, and intelligence reports; prepares notes and keeps detailed records on all interrogations performed; translates and prepares summaries, extracts, and full translations of written foreign material (directives, records, messages, combat orders, technical publications) into English; translates speeches, announcements, radio scripts, and other materials into foreign language for use in non-English speaking countries; types translated materials; establishes reference files of translation materials. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower-skill-level personnel; reviews and edits translations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to lower-skill-level personnel; performs more difficult interrogations and translations, including scientific information; determines requirements for summaries, extracts, or complete translations of documents; performs as a team chief for interrogations and translator/interpretation functions; monitors interrogations and translations for accuracy, adequacy, and completeness; organizes and conducts on-the-job training; assists in preparation and presentation of information to superiors. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises an interrogation center or interrogation, translation/interpreter sections; plans and organizes work schedules; assists specific tasks; plans training activities; insures establishment of required files and preparation of required reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises strategic intelligence interrogation center; plans, coordinates, and supervises intelligence interrogation training and operation; provides expert interrogation capability for high-level, technical interrogations, advises commander and staff on distribution and assignment of interrogation personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in typing, 3 in record keeping, 3 in report writing, and 2 in filing. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing, 3 in record keeping, 3 in report writing, and 2 in filing. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in typing, 3 in report writing, 3 in oral communication, and 3 in personnel supervision, and additional credit in area studies on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in personnel management, and additional credit in area studies, for field experience in management, and for a practicum in education, on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (11/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management, and additional credit in area studies and for a practicum in education on the basis of institutional evaluation. Add credit for the specific foreign language in accordance with the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services (5/88).

MOS-97G-001

SIGNAL SECURITY SPECIALIST

97G10
97G20
97G30
97G40
97G50

Exhibit Dates: 9/84–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and conducts signal security operations throughout the Army; monitors and analyzes communications signals; performs electronic security inspections; reviews documents for adequacy of security; prepares comprehensive written reports and makes oral presentations. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Performs transcription, monitoring, and basic analysis of radiotelephone and conventional telephone messages to detect communications security discrepancies and violations; reviews communications, electronic signal instructions, communications electronic operating instructions, and operations plans and orders to determine adequacy of communications security; reads and interprets maps and map overlays; prepares basic reports on signal security activities; operates and performs user maintenance on communications security and monitoring equipment; selects sites for, erects, and orients tactical antennas; selects and uses commercial battery and generator power; performs general office duties such as filing, typing (35 words per minute minimum), preparation of reports, and record keeping; presents oral reports concerning communications security activities. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as team chief, supervising 2-5 persons; provides basic signal security advice and assistance to commanders and performs security analysis of security codes; establishes and supervises operating sites; writes reports, including statistical analyses, and presents oral reports on data collected; makes recommendations to eliminate disclosures of intelligence information; provides advice and assistance concerning cryptographic systems and the interpretation of basic documents and regulations; determines need for written communication security instructions; prepares special, periodic, and project reports on signal security activities. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 10-12 persons; provides advice and assistance on electronic security procedures and signal security training; prepares signal security monitoring cover plan; analyzes the signal output of communications and noncommunications equipment to establish methods of operations, cryptonetting, and other types of intelligence; reviews documents for signal security; plans and supervises electronic security support; schedules signal security operational activities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 15 or more persons; determines needed signal intelligence support; presents oral reports to commanders on operational security principles; plans signal security actions to support the operational security plan; serves as advisor to commanders on signal security matters; plans and conducts classes on signal security activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as signal security operations chief, first sergeant of a company, or signal security operations chief, first sergeant of a company, or signal security chief; supervises 50-300 persons; has experience as the enlisted commander of a detachment; develops and writes signal security doctrine; advises commander and manages signal security personnel; plans career progression training; allocates personnel; advises commander and manages signal security equipment resources; plans and carries out signal security missions; advises generals and high-level government officials on signal security activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 2 in written communication skills, 2 in oral communication skills, 2 in electronic systems operations, and 1 in office practices (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics. In the upper-division baccalaureate category, 2 semester hours for field experience in management (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 for an internship in education (6/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 for an internship in education (6/77).

MOS-97Z-001

COUNTERINTELLIGENCE/HUMAN
INTELLIGENCE SENIOR SERGEANT

97Z50

Exhibit Dates: 3/87–Present.

Career Management Field: 96 (Military Intelligence).

Description

Skill Level 50: Able to perform the duties required for 97B, Counterintelligence Agent, 97E, Interrogator, or 97G, Counter Signal Intelligence Specialist; supervises and guides all counterintelligence activities; plans mission assignments; participates in long and short range planning for organizational operations, including contingency operations and needs; responsible for coordinating and managing career and professional development of senior enlisted personnel in unit; responsible for supervising the maintenance records pertaining to materials, resources, personnel actions, and reports; oversees employment, substance abuse, and counseling; supervises daily schedules, insuring that the unit is efficient and ready; responsible for development and maintenance of all unit standard operating procedures. NOTE: May have progressed to MOS 97Z50 from 97B40, Counterintelligence Agent, 97E40, Interrogator, or 97G40, Signal Security Specialist.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in management problems, 3 in human resources management, and 3 in organizational planning (6/90).

MOS-98B-001

EW/CRYPTOLOGIC CRYPTANALYST
(CRYPTANALYTIC SPECIALIST)

98B20
98B40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 98B was discontinued and its functions were incorporated into MOS 98C, EW/Signal Intelligence Analyst.)

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts or supervises cryptanalysis of coded messages obtained through the interception of foreign communications. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Scans intercepted communications to isolate encrypted messages; identifies method of encryption; decodes or deciphers messages employing simple cryptographic systems; uses automatic data processing techniques to aid in the analysis of encrypted messages; reduces decoded and deciphered data into automatic data processing format; prepares reports and maintains support files and records; types at a minumum rate of 24 words per minute; may acquire a technical vocabulary in a foreign language. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the processing, analysis, and reporting of encrypted foreign communications; performs cryptanalysis of messages employing complex encryption systems; prepares technical intelligence reports and presents oral reports on cryptanalytic activities; coordinates cryptanalytic activities with other signal intelligence activities; develops new cryptanalytic approaches and methods to insure maximum utilizaton of personnel and efficiency of operations; performs statistical tests and studies.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in geography, 1 in office practices, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in written communication skills, 3 in oral communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in oral communication skills, 3 in social sciences and humanities, 3 for field experience in personnel supervision, 2 in typing, 2 electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in office practices, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98C-001

EW/SIGNAL INTELLIGENCE ANALYST

98C20
98C30
98C40

Exhibit Dates: 10/73–2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and performs analysis and reporting of intercepted foreign communications at a mobile or fixed site. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 20:* Gathers, sorts, and scans intercepted messages and signals, and performs initial analysis to establish communications patterns, isolates valid message traffic; reduces communications data into automatic data processing format; operates communications equipment for reporting and coordination; types at a minimum rate of 25 words per minute; has a knowledge of the geography and culture of the area from which intercepted communications originate; may acquire a technical vocabulary in one or more foreign languages; if duty position was senior traffic analyst, also performs the following duties: May supervise 5-8 persons; analyzes foreign communications, including encrypted communications; uses automatic data processing techniques to analyze communications; presents written and oral technical and intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises traffic analysis and provides guidance on the interpretation of collected information; devises methods for solving complex analytic problems; maintains analytic files; compiles, writes, edits, evaluates, and disseminates intelligence reports; analyzes automatic data processing results and confers with computer programmers and analysts; coordinates activities and schedules work; implements emergency action plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises traffic and signal intelligence analysis and coordinates collection, processing, analysis, and reporting functions; analyzes and evaluates intelligence data and releases reports; establishes and supervises training programs; supervises 18-40 persons; may serve as an operations sergeant, supervising up to 75 persons; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, and 1 in introductory mathematics. In the lower-division baccalaureate/associate degree category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 1 in introductory mathematics, and 1 in geography; if the duty position was senior traffic analyst, use the following recommendation: In the vocational certificate category, 3 semester hours in written communications skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and 1 credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

MOS-98C-002

SIGNALS INTELLIGENCE ANALYST
(EW/SIGNAL INTELLIGENCE ANALYST)

98C10
98C20
98C30
98C40

Exhibit Dates: 3/77–8/87.

Career Management Field: 98 (Electronic Warfare/Crypotologic).

Description

Summary: Supervises and performs analysis and reporting of intercepted foreign communications at a mobile or fixed site. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Gathers, sorts, and scans intercepted messages and signals, and performs initial analysis to establish communications patterns; isolates valid message traffic; reduces communications data into automatic data processing format; operates communications equipment for reporting and coordination; types at a minimum rate of 25 words per minute; has knowledge of the geography and culture of the area from which intercepted communications orginate; may acquire a technical vocabulary in one or more foreign languages. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may supervises 5-8 persons; analyzes foreign communications, including encrypted communications; uses automatic data processing techniques to analyze communications; presents written and oral technical and intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises traffic analysis and provides guidance on the interpretation of collected information; devises methods for solving complex analytic problems; maintains analytic files; compiles, writes, edits, evaluates, and disseminates intelligence reports; analyzes automatic data processing results and confers with computer programmers and analysts; coordinates activities and schedules work; implements emergency action plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises traffic and signal intelligence analysis activities and coordinates collection, processing, analysis, and reports; supervises 18-40 persons; may serve as an operations sergeant, supervising up to 75 persons; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, and 1 in introductory mathematics. In the lower-division baccalaureate/associate degree category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 1 in introductory mathematics, and 1 in geography (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operation, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in office practices, and 1 in introduction to automatic data processing equipment. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and credit for foreign language proficiency on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98C-003

ELECTRONIC WARFARE (EW)/SIGNAL INTELLIGENCE ANALYST

98C10
98C20
98C30
98C40

Exhibit Dates: 9/87–Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and performs analysis and reporting of intercepted foreign communications at a mobile or fixed site. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Gathers, sorts, and scans intercepted messages and signals, and performs initial analysis to establish communications patterns; isolates valid message traffic; reduces communications data into automatic data processing format; operates communications equipment for reporting and coordination; types at a minimum rate of 25 words per minute; has knowledge of the geography and culture of the area from which intercepted communications originate; may acquire a technical vocabulary in one or more foreign language(s). *Skill Level 20:* Able to perform the duties required for Skill Level 10; may supervise 5-8 persons; analyzes foreign communications, including encrypted communications; uses data processing techniques to analyze communications; presents written and oral technical and intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises traffic analysis and provides guidance on the interpretation of collected information; devises methods for solving complex analytic problems; maintains analytic files; compiles, writes, edits, evaluates, and disseminates intelligence reports; analyzes automatic data processing results and confers with computer programmers and analysts; coordinates activities and schedules work; implements emergency action plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises traffic and signal intelligence analysis activities and coordinates collection processing, analysis, and reports; supervises 18-40 persons; may serve as an operations sergeant, supervising up to 75 persons; may have experience as the enlisted commander of a detachment; uses counseling techniques to alleviate stress among subordinates.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communications, 3 in keyboarding, 1 in computer literacy, and 2 in geography, and credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communications, 3 in geography, 2 in oral communications, 2 in office practices, 3 in keyboarding, and 2 in computer literacy, and credit in foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communications, 3 in geography, 3 in oral communications, 3 in office practices, 3 in keyboarding, 3 in social science and humanities, 3 in human relations, and 3 in computer literacy, and credit in foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronic systems operation. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communications, 3 in geography, 3 in oral communications, 3 in office practices, 3 in keyboarding, 3 in social science and humanities, 3 in human relations, 3 for a counseling practicum, 3 in computer literacy, and 3 for field experience in personnel supervision, and credit in foreign language proficiency on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/88).

MOS-98D-001

EMITTER/LOCATOR IDENTIFIER

98D10
98D20
98D30
98D40

Exhibit Dates: Pending evaluation. 3/90–Present.

MOS-98D-003

ELECTRONIC WARFARE (EW)/SIGNAL INTELLIGENCE EMITTER IDENTIFIER/LOCATOR

05D10
05D20
05D30

Exhibit Dates: 9/87–3/90. (Effective 3/90, MOS 05D was discontinued and its duties were incorporated into MOS 98D, Emitter Locator/Identifier.)

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates or supervises the operation of radio direction-finding systems and other systems using advanced identification techniques; intercepts and acquires bearings on target transmitters and performs analysis on maps or charts to establish probable locations of target transmitters. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Employs special transmitters; forwards bearings and identification information to a control center; selects, erects, and orients tactical antennas; obtains desired visual display on specialized monitor oscilloscopes; records electrical characteristics of signals displayed, using light sensitive recorders; operates direction-finding and related cryptological, communications, and automatic data processing equipment; prepares and maintains operation logs and card files; types at a minimum rate of 25 words per minute; copies International Morse Code at a minimum rate of 20 groups per minute. *Skill Level 20:* Able to perform the duties required for Skill Level 10; maintains section management files; classifies, analyzes, and evaluates observed bearings and waveform oscillograms; establishes, plots, and evaluates bearings to detemine probable geographical location of foreign transmitters; performs measurement of bands on oscillograms to determine ripple frequency, modulation percentages, and duration of other effects; maintains calibration and accuracy studies, and computes statistical data, including standard deviations and systemic errors; monitors quality control of input and data for automatic data processing support; may serve as a first-line supervisor, assigning workloads and completing personnel evaluations; presents oral and written reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects equipment to ensure proper alignment and orientation; provides guidance and assistance in site selection and equipment installation; prepares written and oral reports; establishes and maintains facilities and support for site personnel; implements emergency action plans; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding and 1 in computer literacy (9/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in written communications, 1 in office practices, and 2 in computer literacy (9/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in written communications, 3 in office practices, 3 in computer literacy, and 3 for field experience in personnel supervision (9/88).

MOS-98G-001

EW/SIGNAL INTELLIGENCE VOICE
INTERCEPTOR
98G20
98G30
98G40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts and supervises the interception, transcription, translation, and reporting of foreign voice transmissions in a mobile or fixed station environment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Operates intercept receivers, including radiotelephone and multichannel systems, and recording equipment; selects, erects, and orients tactical antennas; makes written records of foreign voice transmissions which are composed of limited terminology and simple syntactic structures; identifies languages spoken in the geographic area to which assigned; categorizes foreign voice signals by type of activity; prepares voice activity records; make verbatim translation from foreign language to English; scans written foreign language materials for key words and indicators; provides translation assistance to non-language-qualified analysts; extracts specific intelligence information from voice radio transmissions; researches and develops special project reports; presents oral reports; types in English and in language of proficiency; performs operator maintenance on equipment. IF duty position was Senior Voice Interceptor (paygrade E-5), also performs the following duties: Intercepts, identifies, and records foreign voice transmissions; supervises a small unit; assembles, integrates, analyzes, and disseminates intelligence information covering political, economic, sociological, historical, and phychological factors of a geographic area; prepares special studies and reports as required. Must have the following minimum capabilities in at least one foreign language: vocabulary (aural recognition) of 6,000-8,000 words; 750-1,000 technical term items; knowledge of complex grammar and syntax; 85-90 percent of all existing word functions; 85-90 percent of all kinship terms; total comprehension of writing systems, except in languages with ideographic systems where the ability to write 500 and read 1,500 characters is required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises voice communication intercept activities; operates sophisticated equipment designed to collect and simultaneously produce on-line activity records of complex foreign voice radio transmissions containing technical terminology, advanced grammar/syntax, and colloquial conversational forms; directs voice signal collection and processing activities; determines collection and processing priorities; identifies and performs limited analysis on nonclear voice and nonvoice signals; writes complex reports; makes oral presentations to general staff. Must achieve a fluent and accurate proficiency in one or more foreign languages and have the following minimum foreign language capabilities: vocabulary (aural recognition) of 8,000-10,000 words; 1,000-1,500 technical term items; advanced knowledge of grammar and syntax; 90-100 percent of all existing word functions; 90-100 percent of all existing kinship terms and forms of address; must be able to write 700 and read 2,000 characters in an ideographic writing system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises voice communication countermeasure activities; refines essential elements of information needed to support assigned mission; performs voice intercept and processing of high military and governmental levels. Must achieve the following minimum capabilities in one or more foreign languages: vocabulary (aural recognition) of 10,000-15,000 words; 1,500-3,000 technical term items; total knowledge of word functions; total knowledge of kinship terms and forms of address; must be able to write 1,000 and read 2,500-3,000 charaters in an ideographic writing system. IF paygrade E-7 has been achieved, also performs the following duties: Serves as electronic warfare/signal intelligence voice operations chief; evaluates and defines job requirements and systems capabilities for communication intelligence linguists. Must attain a foreign language proficiency equivalent to that of a well-educated native speaker and have the following minimum capabilities; vocabulary (aural recognition) of 15,000-plus words; 3000-plus technical terms; advanced knowledge of grammar and syntax; must be able to write 1,500 and read 2,500-3,000 characters in an ideographic writing system.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in library technology. In the upper-division baccalaureate category, 6 semester hours in written communication skills and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation. If the duty position was senior voice interceptor (paygrade E-5), use the following recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, and 3 in geography. In the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 3 in social sciences and humanities, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in written communication skills and 3 for field experience in management, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation. If paygrade E-7 was achieved, use the following recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Exhibit Dates: 3/77-8/87.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts and supervises the interception, transcription, translation, and reporting of foreign voice transmisions in a mobile or fixed station environment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates intercept receivers, including radiotelephone and multichannel systems, and recording equipment; selects, erects, and orients tactical antennas; makes written records of foreign voice transmissions which are composed of limited terminology and simple syntactic structures; identifies languages spoken in the geographic area to which assigned; categorizes foreign voice signals by type of activity; prepares voice activity records; makes verbatim translation from foreign language to English; scans written foreign language materials for key words and indicators; provides translation assistance to non-language-qualified analysts; extracts specific intelligence information from voice radio transmissions; researches and develops special project reports; presents oral reports; types in English and in language of proficiency; performs operation maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; intercepts, identifies, and records foreign voice transmissions; supervises a small unit; assembles, integrates, analyzes, and disseminates intelligence information covering political, economic, sociological, historical, and psychological factors of a geographic area; prepares special studies and reports as required. Must have the following minimum capabilities in at least one foreign language: vocabulary (aural recognition) of 6,000-8,000 words; 750-1,000 technical term items; knowledge of complex grammar and syntax; 85-90 percent of all existing word functions; 85-90 percent of all kinship terms; total comprehension of writing systems, except in languages with ideographic systems where the ability to write 500 and read 1,500 characters is required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises voice communication intercept activities; operates sophisticated equipment designed to collect and simultaneously produce on-line activity records of complex foreign voice radio transmissions containing technical terminology, advanced grammer/syntax, and colloquial conversational forms; directs voice signal collection and processing priorities; identifies and performs limited analysis on nonclear voice and nonvoice signals; writes complex reports; makes oral presentations to general staff. Must achieve a fluent and accurate proficiency in one or more foreign languages and have the following minimum foreign language capabilities: vocabulary (aural recognition) of 8,000-10,000 words; 1,000-1,500 technical term items; advanced knowledge of grammar and syntax; 90-100 percent of all existing kinship terms and forms of address; must be able to write 700 and read 2,000 characters in an ideographic writing system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises voice communication countermeasure activities; refines essential elements of information needed to support assigned mission; performs voice intercept and processing of highly complex foreign voice transmissions; prepares paper for use at high military and governmental levels. Must achieve the following minimum capabilities in one or more foreign languages: vocabulary (aural recognition) of 10,000-15,000 words; 1,500-3,000 technical terms; to a knowledge of word functions; total knowledge of kindship terms and forms of address; must be able to write 1,000 and read 2,500-3,000 characters in an ideographic writing system. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as electronic warfare/signal intelligence voice operations chief; evaluates and refines job requirements and systems capabilities for communication intelligence linguists. Must attain a foreign language proficiency equivalent to that of a well-educated native speaker and have the following minumum capabilities; vocabulary (aural recognition) of 15,000-plus words; 3000-plus technical term items; advanced knowledge of grammar and syntax; must be able to write 1,500 and read 2,500-3,000 characters in ideographic writing systems.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in library technology. In the upper-division baccalaureate category, 6 semester hours in written communication skills and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, and 3 in geography. In the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s) using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 3 in social sciences and humanities, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in written communication skills and 3 for field experience in management, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in written communication skills, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and credit in linguistics on the basis of institutional evaluation. Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Description

Summary: Conducts and supervises the interception, transcription, translation, and reporting of foreign voice transmissions in a mobile or fixed station environment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates intercept receivers, including radiotelephone and multichannel systems, and recording equipment; selects, erects, and orients tactical antennas; makes written records of foreign voice transmissions which are composed of limited terminology and simple syntactic structures; identifies languages spoken in the geographic area to which assigned; categorizes foreign voice signals by type of activity; prepares voice activity records; makes verbatim translation from foreign language to English; scans written foreign language materials for key words and indicators; provides translation assistance to non-language-qualified analysts; extracts specific intelligence information from voice radio transmissions; researches and develops special project reports; presents oral reports; types in English and in language of proficiency; performs operation maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; intercepts, identifies, and records foreign voice transmissions; supervises a small unit; assembles, integrates, analyzes, and disseminates intelligence information covering political, economic, sociological, historical, and psychological factors of a geographic area; prepares special studies and reports as required; must have the following minimum capabilities in at least one foreign language: vocabulary (aural recognition) of 6,000–8,000 words; 750–1,000 technical term items; knowledge of complex grammar and syntax; 85–90 percent of all existing word functions; 85–90 percent of all kinship terms; total comprehension of writing systems, except in languages with ideographic systems where the ability to write 500 and read 1,500 characters is required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises voice communication intercept activities; operates sophisticated equipment designed to collect and simultaneously produce on-line activity records of complex foreign voice radio transmissions containing technical terminology, advanced grammar/syntax, and colloquial conversational forms; directs voice signal collection and processing priorities; identifies and performs limited analysis on nonclear voice and nonvoice signals; writes complex reports; makes oral presentations to general staff; must achieve a fluent and accurate proficiency in one or more foreign languages and have the following minimum foreign language capabilities: vocabulary (aural recognition) of 8,000–10,000 words; 1,000–1,500 technical term items; advanced knowledge of grammar and syntax; 90–100 percent of all existing kinship terms and forms of address; must be able to write 700 and read 2,000 characters in an ideographic writing system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises voice communication countermeasure activities; refines essential elements of information needed to support assigned mission; performs voice intercept and processing of highly complex foreign voice transmissions; prepares paper for use at high military and government levels; must achieve the following minimum capablilities in one or more foreign languages; vocabulary (aural recognition) of 10,000–15,000 words; 1,500–3,000 technical terms; total knowledge of word functions; total knowlege of kinship terms and forms of address; must be able to write 1,000 and read 2,500–3,000 characters in an ideographic writing system; uses counseling techniques to alleviate stress among subordinates. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as electronic warfare/signal intelligence voice operations chief; evaluates and refines job requirements and systems capabilities for communication intelligence linguists; must attain a foreign language proficiency equivalent to that of a well-educated native speaker and have the following minimum capabilities: vocabulary (aural recognition) of 15,000-plus words; 3,000-plus technical terms; advanced knowledge of grammar and syntax; must be able to write 1,500 and read 2,500–3,000 characters in ideographic writing systems.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 1 in computer literacy, and 3 in library research techniques. In the upper-division baccalaureate category, 3 semester hours in advanced written communications. NOTE: Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 2 in computer literacy, 3 in library research techniques, 3 in records administration, and 3 in geography. In the upper-division baccalaureate category, 6 semester hours in advanced written communications. NOTE: Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in computer literacy, 3 in library research techniques, 3 in records administration, 3 in geography, 3 in social science and humanities, 3 in human relations, and 2 in office practices. In the upper-division baccalaureate category, 6 semester hours in advanced written communications. NOTE: Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in computer literacy, 3 in library research techniques, 3 in records administration, 3 in geography, 6 in social science and humanities, 3 in human relations, 2 in office practices, 3 for a counsling practicum, and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, 6 semester hours in advanced written communications and 3 for field experience in management. NOTE: Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours in advanced written communications, 6 for field experience in management, 3 in principles of management, and 3 in personnel management. NOTE: Add credit for the specific foreign language(s), using the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

MOS-98G-004

VOICE INTERCEPTOR

98G10

98G20

98G30

98G40

Exhibit Dates: Pending evaluation. 9/90–Present.

MOS-98H-001

MORSE INTERCEPTOR

98H10

98H20

98H30

98H40

Exhibit Dates: Pending evaluation. 3/90–Present.

MOS-98H-003

ELECTRONIC WARFARE (EW)/SIGNAL INTELLIGENCE MORSE INTERCEPTOR

05H10

05H20

05H30

05H40

Exhibit Dates: 9/87–3/90. (Effective 3/90, MOS 05H was discontinued and its duties were incorporated into MOS 98H, Morse Interceptor.)

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates International Morse Code message interception and simple printer equipment and supervises the operation of such equipment in mobile or fixed installations for the purpose of detecting, identifying, and exploiting foreign communications. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates Morse Code interception equipment, including radio receivers, special typewriters, teletypewriters, antenna selection devices, internal communications equipment, and magnetic tape recorders; searches for, identifies, and manually records foreign international Morse Code communications at a minimum rate of 20 groups per minute; performs first-level analysis of messages to detect anomalies and suspect items which may be of intelligence interest; maintains operator's log of messages and related data and delivers messages to analysts for interpretation; performs operator maintenance on equipment; types at a minimum speed of 25 words per minute. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs more detailed message analysis and evaluation prior to forwarding messages to other analysts; writes detailed reports regarding intercepted messages; conducts on-the-job training; presents oral reports to high-level command staff. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises Morse intercept activities; establishes and maintains extensive intercept files for messages and related data; assists in formulating unit deployment plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; allocates personnel and equipment resources; assists in designing collection strategies; may have experience as the enlisted commander of a detachment; analyzes automatic data processing results and confers with computer programmers and analysts; uses counseling techniques to alleviate stress among subordinates. NOTE: May have progressed to 05H40 from 05H30 or 05D30 (EW/Signal Intelligence Emitter Identifier/Locator).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in Morse code and 3 in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding (9/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in Morse code and 3 in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding and 1 in office practices (9/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in Morse code and 3 in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in office practices, 3 in human relations, 3 for field experience in personnel supervision, and 3 in written communications (9/88).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in Morse code and 3 in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in keyboarding, 3 in office practices, 3 in human relations, 3 for field experience in personnel supervision, 3 in written communications, 3 for a counseling practicum, and 3 in social science and humanities. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/88).

MOS-98J-001

EW/SIGNAL INTELLIGENCE NONCOMMUNICATIONS INTERCEPTOR

98J20

98J30

98J40

98J50

Exhibit Dates: 10/73–2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates noncommunications intercept recording and analysis equipment; intercepts, identifies, interprets, and analyzes signals from noncommunications sources; operates electro-optical receiving and analysis equipment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Erects noncommunications collection systems; conducts search for selected categories or classes on noncommunications or electro-optic signals; uses technical references and equipment to record and perform preliminary analysis and identification of intercepted signals of interest; determines line bearings of intercepted signals within specified limits; reports acquired information; posts entries and keeps logs; operates communications equipment for intellignece reporting coordination. *Skill Level 30:* Able to perform the duties required for Skill Level 20; searches for general categories or classes of noncommunications or electro-optic signals; exercises quality control over intercept effort; uses indexed data base and technical references to fix origin of intercepted signals; performs technical analysis and threat assessments; prepares intercept and analysis reports, maps and overlays; assists with fusion product reporting; establishes and maintains files. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as a first-line supervisor of an intercept-analysis (noncommunications signals) activity; assigns search missions; intercepts and analyzes more complex noncommunications or electro-optic signals; prepares technical and administrative reports; establishes and supervises training programs; makes recommendations on the employment of noncommunications intercept units; selects and establishes operations sites; interprets and analyzes technical documents and reports; performs fusion analysis and intelligence reporting. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises noncommunications intercept, countermeasures, and analysis activities of 20 or more persons; based on requirements, determines objectives and priorities; assigns workloads and allocates resources among subordinate supervisors; coordinates activities with other units; evaluates requirements and assists in developing plans to meet future operations, personnel, and equipment needs.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment (9/79).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 1 in office practices (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices (9/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

MOS-98J-002

EW/Signal Intelligence
Noncommunications Interceptor
98J10
98J20
98J30
98J40

Exhibit Dates: 3/77–8/87.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates noncommunications intercept recording and analysis equipment; intercepts, identifies, interprets, and analyzes signals for noncommunications sources; operates electro-optical receiving and analysis equipment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Erects noncommunications collection systems; conducts search for selected categories or classes of noncommunications or electro-optic signals; uses technical references and equipment to record and perform preliminary analysis and identification of intercepted signals of interest; determines line bearings of intercepted signals within specified limits; reports acquired information; posts entries and keeps logs; operates communications equipment for intelligence reporting and coordination. *Skill Level 20:* Able to perform the duties required for Skill Level 10; searches for general categories or classes of noncommunications or electro-optic signals; exercises quality control over intercept effort; uses indexed data base and technical references to fix origin of intercept and analysis reports, maps, and overlays; assists with fusion product reporting; establishes and maintains files. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor of an intercept/analysis (noncommunications signals) activity; assigns search missions; intercepts and analyzes more complex noncommunications or electro-optic signals; prepares technical and administrative reports; makes recommendations on the employment of noncommunications intercept units; selects and establishes operations sites; interprets and analyzes technical documents and reports; performs fusion analysis and intelligence reporting. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises noncommunications intercept, countermeasures, and analysis activities of 20 or more persons; based on requirements, determines objectives and priorities; assigns workloads and allocates resources among subordinate supervisors; coordinates activities with other units; evaluates requirements and assists in developing plans to meet future operations, personnel, and equipment needs.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 1 in office practices (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written commnication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98J-003

Noncommunications Interceptor/
Analyst
(Electronic Warfare (EW)/Signal
Intelligence
Noncommunications
Interceptor)
98J10
98J20

98J40

Exhibit Dates: 9/87–Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates noncommunications intercept recording and analysis equipment; intercepts, identifies, interprets, and analyzes signals for noncommunications sources; operates electro-optical receiving and analysis equipment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 10:* Erects noncommunications collection systems; conducts search for selected categories or classes of noncommunications or electro-optic signals; uses technical references and equipment to record and perform preliminary analysis and identification of intercepted signals of interest; determines line bearings of intercepted signals within specified limits; reports acquired information; posts entries and keeps logs; operates communications equipment for intelligence reporting and coordination. *Skill Level 20:* Able to perform the duties required for Skill Level 10; searches for general categories or classes of noncommunications or electro-optic signals; exercises quality control over intercept effort; uses indexed data base and technical references to fix origin of intercept and analysis reports, maps, and overlays; assists with fusion product reporting; establishes and maintains files. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor of an intercept/analysis (noncommunications signals) activity; assigns search missions; intercepts and analyzes more complex noncommunications or electro-optic signals; prepares technical and administrative reports; makes recommendations on the employment of noncommunications intercept units; selects and establishes operations sites; interprets and analyzes technical documents and reports; performs fusion analysis and intelligence reporting. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises noncommunications intercept, countermeasures, and analysis activities of 20 or more persons; based on requirements, determines objectives and priorities; assigns workloads and allocates resources among subordinate supervisors; coordinates activities with other units; evaluates requirements and assists in developing plans to meet future operations, personnel, and equipment needs; uses counseling techniques to alleviate stress among subordinates.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 2 semester hours in computer literacy and 3 in keyboarding (9/88).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in computer literacy, 3 in keyboarding, 3 in written communications, and 2 in office practices (9/88).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in computer literacy, 3 in keyboarding, 3 in written communications, 3 in office practices, 3 in human relations, 3 in oral communications, and 3 in social science and humanities (9/88).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronic systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in computer literacy, 3 in keyboarding, 3 in written communications, 3 in office practices, 3 in human relations, 3 for a counseling practicum, 3 in oral communications, 3 in social science and humanities, and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/88).

MOS-98K-001

Non-Morse Interceptor/Analyst
98K10
98K20
98K30
98K40

Exhibit Dates: Pending evaluation. 3/90–Present.

MOS-98Z-001

EW/Signal Intelligence Chief
(EW/Cryptologic Operations Chief)
(Signal Intelligence Operations
Chief)

98Z50

Exhibit Dates: 10/73–8/87.

Career Management Field: 98 (Electronic Warfare/Crypotologic).

Description

Skill Level 50: Serves as the principal authority on signal intelligence matters in a high-level military organization; directs signal intelligence activities and provides technical, operational, and administrative guidance to subordinate personnel; interprets all signal intelligence requirements and develops signal intelligence tasks; evaluates military posture of other nations and determines the capabilities and limitations of U.S. signal intelligence activities to meet the determined threats; reviews, evaluates, prepares, and implements plans and orders; assists high-level commanders in appraising the effectiveness of signal intelligence operations and staff; evaluates signal intelligence functions, publications, and procedures and recommends changes; advises commanders on matters of personnel welfare, morale, assignment, utilization, promotion, privileges, discipline, and training; provides written and oral evaluations of subordinate personnel; uses counseling techniques to alleviate stress among subordinates; prepares and presents written and oral reports to high-level personnel in the Department of the Army and other national agencies involved in the preparation of national security and intelligence policy; manages equipment, material, and support service resources. NOTE: May have progressed to 98Z50 from 98B40 (EW/Cryptologic Crytanalyst), 98C40 (EW/Signal Intelligence Analyst), 98G50 (EW/Signal Intelligence Voice Interceptor), 98J40 (EW/Signal Intelligence Noncommunications Interceptor), 05H40 (EW/Signal Intelligence Morse Interceptor), or 05K40 (EW/Signal Intelligence Non-Morse Interceptor); may have acquired proficiency in one or more foreign languages through the performance of a previously held MOS. Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated.

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in introductory mathematics, 2 in typing, 2 in introduction to automatic data processing equipment, 3 in records administration, 3 in industrial security, 3 in social sciences and humanities, 3 in geography, 3 in human relations, 3 in oral communication skills, 6 in written communication skills, and 3 in office management. In the upper-division baccalaureate category, 3 semester hours for a counseling practicum, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management; if the duty assignment was chief instructor in a formal training facility, 3 additional semester hours for an internship in education. NOTE: Persons holding 98Z50 may have acquired proficiency in one or more foreign languages through the performance of a previously-held MOS; add credit for the specific foreign language(s) by referring to the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services, and modifying the recommendation on the basis of institutional evaluation (6/77).

MOS-98Z-002

Signals Intelligence/Electronic
Warfare Chief
(Electronic Warfare (EW)/Signal
Intelligence Chief)

98Z50

Exhibit Dates: 9/87–Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Skill Level 50: Serves as the principal authority on signal intelligence matters in a high-level military organization; directs signal intelligence activities and provides technical, operational, and administrative guidance to subordinate personnel; interprets all signal intelligence requirements and develops signal intelligence tasks; evaluates military posture of other nations and determines the capabilities and limitations of U.S. signal intelligence activities to meet the determined threats; reviews, evaluates, prepares, and implements plans and orders; assists high-level commanders in appraising the effectiveness of signal intelligence functions, publications, and procedures, and recommends changes; advises commanders on matters of personal welfare, morale, assignment, utilization, promotion, privileges, discipline, and training; provides written and oral evaluations of subordinate personnel; prepares and presents written and oral reports to high-level personnel in the Department of the Army and other national agencies involved in the preparation of national security and intelligence policy; manages equipment, material, and support service resources. NOTE: May have progressed to 98Z50 from 98C40 (EW/Signal Intelligence Analyst), 98G50 (EW/Signal Intelligence Voice Interceptor), 98J40 (EW/Signal Intelligence Noncommunications Interceptor), 05H40 (EW/Signal Intelligence Morse Interceptor), 05K40 (EW/Signal Intelligence Non-Morse Interceptor); may have acquired proficiency in one or more foreign langualges through the performance of a previously held MOS. Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with this MOS were evaluated.

Recommendation

In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in office management, 3 in personnel management, and 3 in principles of management; add credit for the specific foreign language(s) by referring to the recommendation in Volume 4 of the Guide to the Evaluation of Educational Experiences in the Armed Services as a minimum andawarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/88).

Army Warrant Officer MOS Exhibits

MOS-011A-001

Military Physician's Assistant

011A0

Exhibit Dates: 8/73-12/87. (Effective 1/88, the MOS designator 011A was changed to 600A; see exhibit MOS-600A-001.)

Career Pattern

NOTE: This MOS was formerly designated MOS 911A. May have progressed to Military Physician's Assistant from MOS 91B (Medical Specialist), MOS 91C (Clinical Specialist), MOS 91D (Operating Room Specialist), MOS 91S (Preventive Medicine Specialist), MOS 91Z (Medical Senior Sergeant), or MOS 92B (Medical Laboratory Specialist); has from 3 to 10 years of clinical experience prior to appointment as a Physician's Assistant.

Description

Working under the guidance and supervision of a physician, provides general medical care for the sick and injured; makes diagnoses of diseases, disorders, and injuries; applies preventive, diagnostic, and therapeutic medical and surgical procedures; obtains and records medical data and case histories on prescribed forms; recognizes potential zoonotic and food-borne disease problems. NOTE: Appointment to Warrant Officer as a Physician's Assistant is based upon satisfactory completion of the two-year Physician's Assistant program of instruction at the Army's Academy of Health Sciences, Fort Sam Houston, Texas. This program consists of 52 weeks of didactic instruction and 52 weeks of clinical practicum. Didactic instruction is provided in human anatomy and physiology, clinical physiology, inorganic chemistry, biological chemistry, community health, mental health, pharmacology, clinical medicine, clinical surgery, pediatrics, pathology and laboratory practices, preventive medicine methods and practices, and medical and surgical procedures. Practica of either four weeks or six weeks duration are taken in the following clinics: obstetrics/gynecology, pediatric, EENT (eye, ear, nose and throat), neuro-psychiatric, dermatology, orthopedic, surgical medicine; clinical practices are also taken in preventive medicine, ambulatory care, and laboratory service.

Recommendation

In the upper-division baccalaureate category, 60 semester hours in physician assisting; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management (6/77).

MOS-021A-001

Club Manager

021A0

Exhibit Dates: 8/70-12/87. (Effective 1/88, the MOS designator 021A was changed to 420D; see exhibit MOS-420D-001.)

Career Pattern

May have progressed to warrant officer Club Manager from enlisted MOS 00J (Club Manager).

Description

Manages the operation of U.S. Army or joint service clubs, club systems, hotels, or similar activities involving up to several thousand members; supervises all business operations of the activities, including financial operations, beverage and food services, membership activities, and social and recreational activities; knows regulations and policies governing financial management and accountability for property and funds, including in-depth knowledge of internal controls, budgeting, credit card operations, and financial statements and reports; knows fundamentals of business law and contractual relationships; knows military and civilian protocol and social customs; monitors operations to insure control of costs, waste, pilferage, inventory rotation, and accountability; has knowledge of appropriate laws, codes, and regulations; supervises purchase, storage, preparation, and service of food and beverages; monitors club operations to insure control of costs, inventory, accountability, and receipts; completes required reports; supervises catering of social functions, parties, and special events; selects and recommends contracting for entertainment groups; enforces safety requirements, club rules of conduct and dress codes; supervises, directs, and trains subordinates and civilian employees.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in report writing, 3 in communication skills (oral), 3 in food and beverage management, 3 in food and labor cost control systems, 3 in personnel supervision, and 3 in office practices. In the upper-division baccalaureate category, 3 semester hours in hotel, motel, or club management, and 3 in personnel management and training; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management (11/77).

MOS-031A-001

Bandmaster

031A0

Exhibit Dates: 2/46-12/87. (Effective 1/88, the MOS designator 031A was changed to 420C; see exhibit MOS-420C-001.)

Career Pattern

NOTE: This MOS was formerly designated MOS 5241. Normally progresses to Bandmaster from an Army enlisted bandsman (currently any MOS in Career Management Field 97, Band, which includes MOS 02B through MOS 02Z), completing from one to three preparatory programs of instruction.

Description

Possesses skill and understanding in applied music ensemble playing basic music theory, planning concerts, conducting, etc.; acquires basic understanding of the techniques of all wind and percussion instruments; has extensive and practical experience in arranging music for bands and jazz ensembles and, in some cases, choral groups; conducts band literature equivalent to that included in upper-division and graduate courses; acquires a thorough grasp of military marching evolutions, commands, and procedure; is responsible for band administration and the supervision of the musical development of band units; directs personnel, administration, supply (uniforms, instruments, and publications), and repair and maintenance activities of band units; has fiscal control of band units; routinely serves as a company commander; may serve as an instructor in the Army element of the School of Music.

Recommendation

In the lower-division baccalaureate/associate degree category, 16 semester hours in music theory (includes harmony, sight singing, ear training, and keyboard), 8 in applied music, 4 in performing ensemble, 3 in woodwind, brass, and percussion techniques, and 3 in personnel supervision, and additional credit in applied music on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in arranging, 4 in performing ensemble, 6 in conducting, 2 in marching band techniques, and 3 for field experience in management, and additional credit in introduction to management on the basis of institutional evaluation; IF the duty assignment was an instructor in the army element of the school of music, credit in teaching methods in music, education materials, evaluation and testing in education, and for a practicum in education on the basis of institutional evaluation; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management. In the graduate degree category, 3 semester hours in conducting, 3 in band administration, and 2 in performing ensemble, and additional credit in educational administration on the basis of institutional evaluation (4/77).

MOS-041A-001

Food Service Technician
(Food Service Advisor, 941A0)
(Food Advisor, 4114)

041A0

Exhibit Dates: 3/54-12/87. (Effective 1/88, the MOS designator 041A was changed to 922A; see exhibit MOS-922A-001.)

Career Pattern

May have progressed to Food Service Technician from any enlisted food service MOS: MOS 94B (Food Service Specialist), MOS 94D (Baker), MOS 94F (Hospital

Food Service Specialist), or MOS 94Z (Food Service Supervisor).

Description

Supervises and administers food service activities for installations, commands, or organizations; maintains complete operational control over facilities, personnel, and specialized equipment; supervises the procurement, storage, distribution, and preparation of foods to be served; writes reports; develops procedures for implementing policies from higher authority; uses specialized accounting methods; plans use, layout, and mainenance of food service equipment; in carrying out specialized duties, is required to devote most energies in the technical and human resource areas of food service administration; interprets contracts and monitors contractor's performance; if assigned to hospital food service duties, may be required to perform additional specialized supervisory functions in nutritional and diet therapy areas; may serve as staff advisor to a general officer or provide technical assistance to nonappropriated fund food service activites; may serve as a service school instructor.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in food service management, 3 in principles of management, 3 in personnel supervision, 3 in food service equipment and layout, and 3 in business report writing. In the upper-division baccalaureate category, 3 semester hours in management problems and 2 for field experience in management; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management; if duty assignment was service school instructor, 3 additional semester hours for a practicum in education; if assigned to a hospital as a food service technician, 3 additional semester hours in nutrition or diet therapy (11/77).

MOS-051A-001

Morse Intercept Technician

051A0

See exhibit MOS-984A-001. Effective 9/81, the designator 051A was reestablished with the title Food Inspection Technician; see exhibit MOS-051A-002.

MOS-051A-002

Food Inspection Technician

051A0

Exhibit Dates: Pending Evaluation. 9/81–Present.

MOS-052A-001

Non-Morse Intercept Technician

052A0

See exhibit MOS-985A-001.

MOS-053A-001

Special Identification Technician

053A0

Description

See exhibit MOS-986A-001.

MOS-062B-001

Utility/Observation Helicopter Pilot

062B0

See exhibit MOS-100B-001.

MOS-062C-001

Cargo Helicopter Pilot

062C0

See exhibit MOS-100C-001.

MOS-062D-001

Heavy Lift Helicopter Pilot

062D0

See exhibit MOS-100D-001.

MOS-062E-001

Attack Helicopter Pilot

062E0

See exhibit MOS-100E-001.

MOS-062Q-001

Combat Service/Support Fixed Wing Pilot

062Q0

See exhibit MOS-100Q-001.

MOS-062R-001

Combat Surveillance Fixed Wing Pilot

062R0

See exhibit MOS-100R-001.

MOS-100A-001

Multiengine Utility Helicopter Pilot

100A0

Exhibit Dates: 3/82–6/87. (Effective 7/87, MOS 100A was discontinued and its duties were incorporated into MOS 153D, UH-60 Pilot.)

Career Pattern

May have progressed to MOS 100A from any enlisted MOS.

Description

Pilots and commands multiengine utility helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100AG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100AC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100B-001

Multi/Observation Helicopter Pilot (Utility/Observation Helicopter Pilot)

100B0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100B was discontinued and its duties were incorporated into the following MOS's: 152B, 152C, 152D, 153A, 153B, and 153C.

Career Pattern

NOTE: MOS 100B was formerly designated MOS 062B. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100BG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100BC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100C-001

CARGO HELICOPTER PILOT

100C0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100C was discontinued and its duties were incorporated into MOS 154B, CH-47A/B/C Pilot, and MOS 154C (CH-47D Pilot.)

Career Pattern

NOTE: MOS 100C was formerly designated MOS 062C. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands cargo helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100CG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100CC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100D-001

HEAVY LIFT HELICOPTER PILOT

100D0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100D was discontinued and its duties were incorporated into MOS 154A, CH-54 Pilot.

Career Pattern

NOTE: MOS 100D was formerly designated MOS 062D. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands heavy lift helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100DG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100DC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100E-001

ATTACK HELICOPTER PILOT

100E0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100E was discontinued and its duties were incorporated into MOS 152G, AH-1 Attack Pilot.)

Career Pattern

NOTE: MOS 100E was formerly designated MOS 062E. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands attack helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100EG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100EC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100K-001

MULTIENGINE ATTACK HELICOPTER PILOT

100K0

Exhibit Dates: 9/82–6/87. (Effective 7/87, MOS 100K was discontinued and its duties were incorporated into MOS 152F, AH-64 Pilot.)

Career Pattern

May have progressed to MOS 100K from any enlisted MOS.

Description

Pilots and commands multiengine attack helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100KG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100KC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100Q-001

COMBAT SERVICE/SUPPORT FIXED WING PILOT

100Q0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100Q was discontinued and its duties were incorporated into MOS 155A, Fixed Wing Aviator, MOS 155D, U-21 Pilot, and MOS 155E, C-12 Pilot.)

Career Pattern

NOTE: MOS 100Q was formerly designated MOS 062Q. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands combat service/support fixed wing aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100QG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100QC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-100R-001

COMBAT SURVEILLANCE FIXED WING PILOT

100R0

Exhibit Dates: 12/68–6/87. (Effective 7/87, MOS 100R was discontinued and its duties were incorporated into MOS 156A, OV-1/RV-1 Pilot.)

Career Pattern

NOTE: MOS 100R was formerly designated MOS 062R. May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands combat service/support fixed wing aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100RG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 100RC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-103A-001

AVIATION TECHNICIAN

103A0

See exhibit MOS-160A-001.

MOS-130A-001

PERSHING MISSILE SYSTEM TECHNICIAN

130E0

Exhibit Dates: 1/88–5/89.

Career Pattern

NOTE: This MOS was formerly designated 214E. May have progressed to Pershing Missile System Technician from MOS 15E (Pershing Missile Crewmember), MOS 21G (Pershing Electronics Materiel Specialist), MOS 21L (Pershing Electronics Repairer), or MOS 46N (Pershing Electrical-Mechanical Repairer).

Description

Supervises the maintenance of field artillery missiles, fire control systems, and missile launching and handling equipment; oversees assembly of missiles; supervises utilization, testing, and maintenance of tools, specialized test sets, cable sets, and warhead assemblies; inspects and directs testing, servicing, and repair of missile launching and guidance equipment; supervises maintenance of missile components, determines repair/replacement requirements, insures that repairs and adjustments are made, and makes final inspections; advises superiors on technical and tactical considerations affecting the employment of missiles; serves as a technical advisor on matters of preventive maintenance and inspection of radar, missiles, fire control systems, missile launching and handling equipment, and on-missile materiel; observes and corrects improper technical procedures and repair techniques; coordinates maintenance techniques and standards with preventive maintenance personnel to insure uniformity; implements changes in inspection, repair, and test procedures and instructs personnel on new techniques of missile maintenance and repair; insures that equipment modifications are accomplished; examines and interprets procedures, directives, schematics, and technical publications for data pertinent to the employment of radar, missiles, and related equipment and transmits data to subordinate personnel; reviews operating and maintenance records and tests equipment to ascertain adequacy of maintenance; monitors storage of missile guidance and motor sections; insures compliance with safety and security regulations and procedures; writes and reviews technical reports; reviews and consolidates requests for tools, spare parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the vocational certificate category, 3 semester hours in electronics laboratory and 1 in care and use of hand tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in personnel supervision, 3 for field experience in management, 3 in technical report writing, 2 in maintenance management, and 2 in industrial/human relations, and additional credit in instructional methods on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours for field experience in management; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management (3/77).

MOS-130B-001

LANCE MISSILE SYSTEM TECHNICIAN

130B0

Exhibit Dates: 1/88–Present.

Career Pattern

May have progressed to Lance Missile System Technician from MOS 13N (Lance Crewmember).

Description

Supervises the maintenance of field artillery missiles, fire control systems, and missile launching and handling equipment; oversees assembly of missiles; supervises utilization, testing, and maintenance of tools, specialized test sets, cable sets, and warhead assemblies; inspects and directs testing, servicing, and repair of missile launching and guidance equipment; supervises maintenance of missile components, determines repair/replacement requirements, insures that repairs and adjustments are made, and makes final inspections; advises superiors on technical and tactical considerations affecting the employment of missiles; serves as a technical advisor on matters of preventive maintenance and inspection of radar, missiles, fire control systems, missile launching and handling equipment, and on-missile materiel; observes and corrects improper technical procedures and repair techniques; coordinates maintenance technical procedures and repair techniques; coordinates maintenance techniques and standards with preventive maintenance personnel to insure uniformity; implements changes in inspection, repair, and test procedures and instructs personnel on new techniques of missile maintenance and repair; insures that equipment modifications are accomplished; examines and interprets procedures, directives, schematics, and technical publications for data pertinent to the employment of radar, missiles, and related equipment and transmits data to subordinate personnel; reviews operating and maintenance records and tests equipment to ascertain adequacy of maintenance; monitors storage of missile guidance and motor sections; insures compliance with safety and security regulations and procedures; writes and reviews technical reports; reviews and consolidates requests for tools, spare parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the vocational certificate category, 3 semester hours in electronics laboratory and 1 in care and use of hand tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in personnel supervision, 3 for field experience in management, 3 in technical report writing, 2 in maintenance management, and 2 in industrial/human relations, and additional credit in instructional methods on the basis of institutional evaluation (3/77).

MOS-131A-001

TARGET ACQUISITION RADAR TECHNICIAN

131A0

Exhibit Dates: 1/88–Present.

Career Pattern

NOTE: This MOS was formerly designated 211A. May have progressed to Target Acquisition Radar Technician from any MOS in Career Management Field 13 (except MOS's 13B and 13M) and Career Management Field 29.

Description

Normally serves as chief of a section or platoon engaged in maintaining and operating field artillery radars to provide target location; has a detailed knowledge of the operational aspects of field artillery radar, the technical principles of equipment construction, the scope and techniques of field artillery radar, and safety precautions relevant to operations and maintenance; advises on technical considerations involving field artillery radar; coordinates the activities of field artillery radar personnel; supervises the movement and emplacement of radar and associated equipment; interprets technical data; implements changes in inspections, repair, and test procedures; instructs personnel on new or revised techniques of radar electronics maintenance and employment; inspects completed work and assists personnel in isolating and correcting malfunctions in equipment; must be able to transmit target and counterfire data to support artillery units; reviews maintenance records; supervises the requisitioning of tools, repair parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school, on a headquarters staff, or in research, development, test, and evaluation activities.

Recommendation

In the vocational certificate category, 6 semester hours in electronics theory and laboratory and 2 in use of basic hand tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics theory and laboratory, 3 in personnel supervision, 3 for field experience in management, 2 in industrial/human relations, 2 in technical report writing, and 2 in maintenance management (3/77).

MOS-131B-001

REMOTELY PILOTED VEHICLE TECHNICIAN

131B0

Exhibit Dates: Pending evaluation. 1/88–Present.

MOS-132A-001

METEOROLOGY TECHNICIAN

132A0

Exhibit Dates: 1/88–Present.

Career Pattern

NOTE: This MOS was formerly designated 201A. May have progressed to Meteorology Technician from MOS 93F (Field Artillery Meteorological Crewman).

Description

Normally serves as the chief of a meteorology section that provides ballistic meteorological data, not involving weather forecasting to artillery units; is responsible for the organization and operation of the section and its physical facilities as well as the supervision and training of enlisted specialists in the section; manages and allocates resources to install, operate, and maintain mercurial, aneroid, electronic, optical, and mechanical meteorological instruments and equipment; determines layout of ballistic meteorological stations and facilities and plans equipment installation; knows methods of observing and plotting meteorological data; inspects and tests meteorological equipment; determines operating procedures and techniques; allocates work to subordinates; determines requirements for, procures, and manages supplies, repair parts, and equipment; supervises calibration of graphs and other recording devices; evaluates ballistic meteorological data and produces messages to be transmitted to artillery units; instructs subordinates on established maintenance techniques and operating procedures; may serve as an instructor at a formal service school; may be employed in research, development, and evaluation activities.

Recommendation

In the vocational certificate category, 2 semester hours in electronic laboratory and 1 in basic mathematics. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in industrial/human relations, 2 in electronic laboratory, 1 in basic mathematics, and 1 in meteorology. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in management electives (3/77).

MOS-140A-001

COMMAND AND CONTROL SYSTEMS TECHNICIAN

140A0

Exhibit Dates: 1/88–Present.

Career Pattern

NOTE: This MOS was formerly designated 225B. May have progressed to Command and Control Maintenance Technician from MOS 24C (Hawk Firing Section Mechanic), MOS 24E (Hawk Fire Control Mechanic), MOS 24G (Hawk Information Coordination Central Mechanic), MOS 24H (Hawk Fire Control Repairer), MOS 24J (Pulse Radar Repairer), MOS 24K (Hawk Continuous Wave Radar Repairer), MOS 24L (Hawk Launcher and Mechanical Systems Repairer), MOS 24R (Hawk Master Mechanic), MOS 24T (Patriot Operator and Systems Mechanic), MOS 24U (Nike-Hercules Custodial Mechanic), MOS 24V (Hawk Maintenance Chief), or MOS 24L (AN/TSQ 73 Air Defense Artillery Command and Control System Operator/Repairer).

Description

Coordinates the activities of 25–30 maintenance personnel and manages equipment for the installation, repair, maintenance, and modification of Army air defense command and control systems, including data processing equipment, radar equipment, communications equipment, and power system equipment; develops maintenance procedures; performs hands-on troubleshooting when subordinate personnel are unable to isolate problems; advises and instructs repair personnel; estimates repair priorities based on mission, type of work to be performed, and availability of parts and personnel; advises commissioned officers on command and control system capabilities and limitations.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in computer and data processing concepts, and 3 in training management. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in human resource management, and 6 for field experience in management. Credit in the following areas on the basis of institutional evaluation: computer electronics, computer system repair, radar systems, electronic communications, and power systems (11/88).

MOS-140B-001

CHAPARRAL/VULCAN SYSTEMS TECHNICIAN

140B0

Exhibit Dates: 1/88–Present.

Career Pattern

NOTE: This MOS was formerly designated 224B. May have progressed to Chaparrl-Vulcan Systems Technician from any of the following MOS's: 24C, 24E, 24G, 24H, 24J, 24K, 24L, 24M, 24N, 24R, 24S, 24T, 24U, 24V, 25L, 27F, and 27G.

Description

Supervises repair and maintenance of the Chaparral and Vulcan light air defense electronic systems and land combat support missile systems, including forward area alert radar (FAAR) and target alerting identification systems; supervises operation of maintenance shops, on-site maintenance activities, and shop quality control activities; knows theory, operation, and functioning of Chaparral/Vulcan systems and associated equipment, including test and training equipment and motor support units; has knowledge of electricity, electronics, pneumatics, hydraulics, and mechanics; reads, uses, and interprets schematic diagrams and other technical publications; uses special tools and test equipment to maintain, adjust, troubleshoot, and repair system equipment; organizes, supervises, manages, and evaluates most phases of maintenance programs peculiar to the system and to its support equipment; acts in the capacity of maintenance officer in the absence of a line officer; coordinates activities with other maintenance organizations; supervises 20-50 subordinates; advises and assists in establishing training programs for operators and crewmen; knows and provides staff supervision for supply functions; supervises inventory and purchasing of maintenance parts, tools, and equipment; knows safety procedures pertaining to the missile systems and associated equipment; writes technical and administrative reports; advises superiors on the technical and tactical capabilities, limitations, and employment of the missile systems; may serve as an instructor at a formal training school or as a technical advisor on a headquarters staff.

Recommendation

In the vocational certificate category, 6 semester hours in electricity/electronics laboratory, 5 in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in troubleshooting, 1 in shop practices and procedures, and 1 in industrial safety. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in basic electronics, 3 in troubleshooting, 1 in shop practices and procedures, 1 in industrial safety, 3 in maintenance management, 3 in personnel supervision, 2 in inventory management, 2 in maintenance shop record keeping, 2 in report writing, and credit in public speaking/communication on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management; if duty assignment was platoon leader, credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-140C-001

CUSTODIAL SYSTEMS TECHNICIAN

140C0

Exhibit Dates: 1/88–8/90. (Effective 9/90, MOS 140C was discontinued.)

Career Pattern

May have progressed to Custodial Systems Technician from MOS 24U (Nike-Hercules Custodial Mechanic).

Description

Supervises the assembly, testing, and maintenance of all components of Air Defense/Ballistic Missile Defense (AD/BMD) missiles; knows operations, theory, and online maintenance of missile testing and servicing equipment associated with warhead sections, fuses, electronic and mechanical on-missile guidance equipment, hydraulic systems, and propulsion units; knows theory and function of hydraulic systems, vacuum tubes, solid state devices, and associated circuits and circuit elements; performs checkouts of electronic, electrical, mechanical, electromechanical, and hydraulic systems; knows authorized procedure for modifying existing equipment; knows AD/BMD missile transport, storage, and safety program regulations and policies for nuclear and explosive components; knows theory, operation, and maintenance procedures for all launching area equipment; oversees uncrating and mating of missiles, rocket motor assemblies, and warhead sections; supervises emplacement of missiles and launching area equipment in mobile air defense units; knows maintenance record keeping and inventory control procedures; trains and evaluates missile maintenance personnel in troubleshooting and maintenance procedures; advises commander on the tactical aspects of missile employment, emplacement, readiness status, and firing.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in troubleshooting, 3 in technical mathematics, 3 in basic electronics, 3 in AC/DC circuit analysis, 3 in transistor theory, 3 in maintenance management, 2 in instrumentation, 2 in controls, 2 in pulse circuits, 2 in inventory management, 2 in personnel supervision, 2 in report writing, 1 in maintenance shop record keeping, and additional credit in controls, transistor theory, mathematics, hydraulics, and public speaking/communication on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management; if duty assignment was platoon leader, credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-140D-001

HAWK MISSILE SYSTEMS TECHNICIAN

140D0

Exhibit Dates: 1/88–Present.

Career Pattern

NOTE: This MOS was formerly designated MOS 223B. May have progressed to Hawk Missile Systems Technician from any of the following MOS's: 24C, 24E, 24G, 24H, 24J, 24K, 24L, 24R, 24S, 24T, 24U, 24V, 25L, 27F, and 27G.

Description

Supervises the assembly, inspection, and repair of the Improved Hawk missile system, simulator equipment, and associated test equipment; understands theory, functions, and operation on on-missile guidance equipment, ranging radars, pulse radars, launchers, fire control equipment, simulator stations, computers, and automatic data transmission systems used with the Improved Hawk air defense missile system and associated power generation and air-conditioning equipment; knows theory and functions of solid-state devices and associated circuits and circuit elements; knows how to assemble and test components of missile, radar, and fire control equipment; supervises testing of the system specialized test sets and procedures; supervises repairmen in isolating malfunctions and in repairing, adjusting, and aligning systems and system components; advises personnel on equipment modificatons and of changes to inspection, repair, test, and maintenance calibration procedures; knows safety procedures and regulations pertaining to high-energy electromagnetic radiation hazards, high-voltage hazards, and high-pressure hydraulic equipment; knows missile transport and storage methods; knows operation, function, and maintenance of battery terminal equipment; trains personnel in safety and security procedures and maintenance techniques; interprets technical publications; supervises parts inventory and supply system, including procurement; reviews and prepares reports; evaluates supply and maintenance problems, advises superiors, and recommends corrective actions; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in electronics troubleshooting, 3 in basic electronics, 3 in AC/DC circuit analysis, 3 in transistor theory, 3 in instrumentation, 2 in pulse circuits, 2 in control systems, 2 in digital circuitry, 2 in computer fundamentals, 1 in radar/microwave theory, 1 in machine language, 3 in maintenance management, 2 in inventory management, 2 in personnel supervision, 2 in report writing, 1 in maintenance shop record keeping, and additional credit in electronics, mathematics, data processing, computer science, and public speaking/communication on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4 6 additional semester hours for field experience in management; if duty assignment was platoon leader, credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-140E-001

PATRIOT MISSILE SYSTEM TECHNICIAN

140E0

Exhibit Dates: 1/88–Present. NOTE: The skills, competencies, and knowledge required to maintain the Patriot missile are comparable to those required to maintain the Nike. Use the recommendation in exhibit MOS-222B-001.

MOS-150A-001

AIR TRAFFIC CONTROL TECHNICIAN

150A0

Exhibit Dates: Pending evaluation. 9/82–Present.

MOS-150A-002

AIR TRAFFIC CONTROL TECHNICIAN

150A0

Exhibit Dates: 9/82–Present.

Career Pattern

May have progressed to MOS 150A from MOS 93C, Air Traffic Control Operator.

Description

Summary: Supervises and manages personnel in an Air Traffic Control organization. Senior Warrant Officer: Develops, revises, and reviews instrument enroute and terminal procedures (TERPS); provides technical expertise pertaining to all aspects of enroute and terminal aircraft operations; supervises air traffic control training requirements. Master Warrant Officer: Able to perform the duties required for Senior Warrant Officer; conducts liaison with collateral units and functions as senior advisor for air traffic control operations; coordinates and establishes special-use airspace; develops and monitors standards for instruction of personnel.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of supervision. In the upper-division baccalaureate category, 3 semester hours in organizational management, 3 in management problems, and 3 for field experience in management; if served as Master Warrant Officer, 3 additional semester hours for field experience in management (4/90).

MOS-151A-001

AVIATION MAINTENANCE TECHNICIAN

151A0

Exhibit Dates: 7/87–Present.

Career Pattern

NOTE: This MOS was formerly designated 160A. May have progressed to Aviation Maintenance Technician from all aircraft maintenance MOS's.

Description

Supervises aviation maintenance and repair shops, teams, sections, or platoons which maintain or repair army rotary and fixed-wing aircraft; organizes and manages maintenance facilities, equipment, and personnel to inspect, service, test, disassemble, replace parts on, repair, reassemble, adjust and retest aircraft or aircraft components; assigns work to subordinates and supervises work in progress, final inspection, and final testing; develops operating procedures and performs administrative duties related to supply and maintenance activities; provides technical assistance to pilots and flight crews concerning required crew maintenance of aircraft and aircraft components; interprets technical material related to aircraft maintenance.

Recommendation

In the vocational certificate category, 3 semester hours in essentials of supervision, 3 in survey of computer concepts, 3 in technical writing, 2 in maintenance shop record keeping, 2 in warehousing and storage, 2 in material handling and safety, and 3 in maintenance management and inventory control. In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management, 3 in shop practices and procedures, 2 in inventory management, 2 in material handling and safety, 3 in personnel supervision, 3 in survey of computer concepts, 2 in maintenance shop record keeping, and 3 in communication skills (speech/technical writing). In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in management electives; if rank was CW2, 2 additional semester hours for field experience in management; if rank was CW3, 4 additional semester hours for field experience in management; if rank was CW4, 6 additional semester hours for field experience in management; if duty assignment was platoon leader, section leader, or equivalent leadership position, credit in leadership and supervision on the basis of institutional evaluation (7/78).

MOS-152B-001

OH-58A/C SCOUT PILOT

152B0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 152BG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 152BC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-152B-002

OH-58A/C SCOUT PILOT

152B0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 152B from any enlisted MOS.

Description

Pilots and commands attack and scout helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; coordinates, conducts, and directs tactical helicopter operations; participates in reconnaissance and security missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communications skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 152BC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 152BF), 3 semester horus in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 152BG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-152C-001

OH-6 SCOUT PILOT

152C0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 152CG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 152CC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-152C-002

OH-6 Scout Pilot

152C0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 152C from any enlisted MOS.

Description

Pilots and commands attack and scout helicopters under tactical and nontactical conditions; operates aircraft during day, night, and while using night vision goggles; coordinates, conducts, and directs tactical helicopter operations; participates in reconnaissance and security missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 152CC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 152CF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 152CG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-152D-001

OH-58D Scout Pilot

152D0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 152DG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 152DC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-152D-002

OH-58D Scout Pilot

152D0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 152D from any enlisted MOS.

Description

Pilots and commands attack and scout helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; coordinates, conducts, and directs tactical helicopter operations; participates in reconnaissance and security missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigational (VFR), 3 in flight psychology, 3 in aviation meterorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 152DC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 152DF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 152DG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-152F-001

AH-64 Pilot

152F0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to MOS 100K from any enlisted MOS.

Description

Pilots and commands multiengine attack helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 152FG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 152FC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-152F-002

AH-64 Attack Pilot

152F0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 152F from any enlisted MOS.

Description

Pilots and commands attack and scout helicopter under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; coordinates, conducts, and directs tactical helicopter operations; participates in reconnaissance and security missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 152FC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 152FF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 152FG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-152G-001

AH-1 Attack Pilot

152G0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands attack helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 152GG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 152GC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-152G-002

AH-1 Attack Pilot

152G0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 152G from any enlisted MOS.

Description

Pilots and commands attack and scout helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; coordinates, conducts, and directs tactical helicopter operations; participates in reconnaissance and security missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meterology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 152GC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 152GF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 152GG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-153A-001

Rotary Wing Aviator

153A0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 153AG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 153AC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-153A-002

Rotary Wing Aviator (Aircraft Nonspecific)

153A0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 153A from any enlisted MOS.

Description

Pilots and commands utility helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs aircraft operations including rescue hoist, air assaults, aerial mine and flare deliveries, internal/external loads, and paradrop/rappelling procedures; may perform aerial reconnaissance and be used to transport passengers or cargo; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 153AC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 153AF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 153AG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-153B-001

UH-1 Pilot

153B0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 153BG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 153BC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-153B-002

UH-1 Pilot

153B0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 153B from any enlisted MOS.

Description

Pilot and commands utility helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs aircraft operations including rescue hoist, air assaults, aerial mine and flare deliveries, internal/external loads, and paradrop/rappelling procedures; may perform aerial reconnaissance and be used to transport pasengers or cargo; routinely participates in combat support training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 153BC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 153BF), 3 smester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 153BG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-153C-001

OH-58A/C Observation Pilot

153C0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands utility/observation helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 153CG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 153CC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-153C-002

OH-58A/C Observation Pilot

153C0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 153C from any enlisted MOS.

Description

Pilots and commands utility helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs aircraft operations including rescue hoist, air assaults, aerial mine and flare deliveries, internal/external loads, and paradrop/rappelling procedures; may perform aerial reconnaissance and be used to transport passengers or cargo; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirement; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 153CC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 153CF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 153CG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-153D-001

UH-60 Pilot

153D0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to MOS 100A from any enlisted MOS.

Description

Pilots and commands multiengine utility helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 153DG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 153DC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-153D-002

UH-60 Pilot

153D0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 153D from any enlisted MOS.

Description

Pilots and commands utility helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs aircraft operations including rescue hoist, air assaults, aerial mine and flare deliveries, internal/external loads, and paradrop/rappelling procedures; may perform aerial reconnaissance and be used to transport passengers or cargo; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 153DC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 153DF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 153DG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-154A-001

CH-54 Pilot

154A0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands heavy lift helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 154AG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 154AC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-154A-002

CH-54 Pilot (Heavy Lift RC only)

154A0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 154A from any enlisted MOS.

Description

Pilots and commands cargo helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs hoist, internal/external load, supply, paradrop/rappelling, and water operations; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commerical/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 154AC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 154AF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 154AG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-154B-001

CH-47A/B/C Pilot

154B0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands cargo helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 154BG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 154BC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-154B-002

CH-47 Pilot

154B0

Exhibit Dates: 1/90-Present.

Career Pattern

May have progressed to MOS 154B from any enlisted MOS.

Description

Pilots and commands cargo helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs hoist, internal/external load, supply, paradrop/rappelling, and water operations; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 154BC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 154BF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 154BG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-154C-001

CH-47D Pilot

154C0

Exhibit Dates: 7/87-12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands cargo helicopter under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 154CG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 154CC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-154C-002

CH-47D Pilot

154C0

Exhibit Dates: 1/90-Present.

Career Pattern

May have progressed to MOS 154C from any enlisted MOS.

Description

Pilots and commands cargo helicopters under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day, night, and while using night vision goggles; performs hoist, internal/external load, supply, paradrop/rappelling, and water operations; routinely participates in combat and combat support training; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 154CC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 154CF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 154CG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-155A-001

Fixed Wing Aviator

155A0

Exhibit Dates: 7/87-12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands combat service/support fixed wing aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 155AG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 155AC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-155A-002

Fixed Wing Aviator (Aircraft Nonspecific)

155A0

Exhibit Dates: 1/90-Present.

Career Pattern

May have progressed to MOS 155A from any pilot Warrant Officer MOS in the 152, 153, or 154 MOS series.

Description

Pilots and commands fixed wing utility aircraft under tactical and nontactical conditions; operates aircraft during day and night; transports passengers and cargo; routinely performs instrument flight procedures, navigation, and airborne weather radar interpretations; performs military intelligence and airborne radio relay missions;

maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 155AC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 155AF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 154AG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-155D-001

U-21 Pilot

155D0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands combat service/support fixed wing aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 semester hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledges and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 155DG), 3 semester hours in personnel management, 3 for management electives, and 3 in human relations; if served as instructor pilot (designated on Army records as 155DC), 3 semester hours in psychology electives, 3 for management electives, and 3 in human relations (7/78).

MOS-155D-002

U-21 Pilot

155D0

Exhibit Dates: 1/90–Present.

Career Pattern

May have progressed to MOS 155D from any pilot Warrent Officer MOS in the 152, 153, or 154 MOS series.

Description

Pilots and commands fixed wing utility aircraft under tactical and nontactical conditions; operates aircraft during all types of meteorological conditions during day and night; transports passengers and cargo; routinely performs instrument flight procedures, navigation, and airborne weather radar interpretations; performs military intelligence and airborne radio relay missions; maintains current flight status in accordance with established training requirements; knowledge and skills are equivalent to F.A.A. commercial/instrument ratings on rotorcraft category aircraft. NOTE: Knowledge and skills may be equivalent to other F.A.A. certificates/ratings (flight instructor, instrument instructor, ground instructor, airline transport pilot, flight engineer, etc.) or the applicant may be trained on additional categories of aircraft.

Recommendation

In the lower-division baccalaureate/associate degree category, 18 semester hours in commercial/instrument rating, 3 in aircraft rules and procedures, 3 in navigation (VFR), 3 in flight psychology, 3 in aviation meteorology, 3 in instrument flight planning and procedures, 3 in aircraft engines and systems, 3 in aircraft performance, 3 in general mathematics, 3 in aviation safety, 3 in communication skills (oral), and 3 in principles of supervision. In the upper-division baccalaureate category, if served as instructor pilot (designated on Army records as 155DC), 3 semester hours in educational psychology, 3 in personnel management, and 3 in interpersonal communications; if served as an instrument flight examiner (designated on Army records as 155DF), 3 semester hours in airline transport pilot training; if served as section leader or aircraft repair maintenance technician (designated on Army records as 155DG), 3 semester hours in organizational management, 3 in accident investigation procedures, and 3 in aircraft systems management (4/90).

MOS-155E-001

C-12 Pilot

155E0

Exhibit Dates: 7/87–12/89.

Career Pattern

May have progressed to warrant officer pilot from any enlisted MOS.

Description

Pilots and commands combat service/support fixed wing aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation
